

Attachment 2

Attachment 2 – Logic Model

**REQUEST FOR APPLICATIONS FOR
CHILDREN’S TRUST FUND
RFA # 01-21**

**Attachment 2
Logic Model**

The Logic Model provides a visual overview of the program. It highlights the program expectations and serves as a point of reference for all. The link below provides one layout example. The Applicant’s Logic Model must contain all sections included in this example layout, but may be visually different. Applicants may use the Child Welfare Information Gateway (<https://www.childwelfare.gov/topics/management/effectiveness/logic-model/>) to develop a logic model for the proposed Children’s Trust Fund Project.

Logic Model
