

RFGA 2018-01 - Questions and Answers from the 11-21-17 Pre-Proposal Webinar

1. On page 22 under 5. Financial Management – Applicants may bid on one or more regions but a separate budget and application must be submitted. Can this be elaborated on: Does PDA want one entire full application per region? Or, the application plus one budget and one signed grant agreement per region?

PDA requires applicants to submit one entire full application per region that includes the budget and a signed grant agreement.

2. On page 20, RFGA addresses current SCSEP performance measures. Starting in PY 18, those performance measures will be revised to align with WIOA regulations. Should our submission answer the questions posed in the RFGA refer to the current performance goal definitions or the new definitions that take effect in PY 18?

Applicants must use the current performance goal definitions to respond to Section 3, Performance Accountability that begins on page 20 of the RFGA.

3. Page 15, #2 states, “provide as attachments any examples of the documents that are described below...”. There are several attachments specifically requested; in other places it is not specified. Please clarify what can and cannot be included as an attachment. For instance, Section 4a mentions an Organizational Chart. Is the chart part of the 35 pages, or can it be considered an attachment? Or with 2m, no attachment is specifically requested. Could we include our policy as an attachment to support our answer to the question?

All attachments are excluded from the 35 page limit. Any document that provides supportive documentation to the response provided is acceptable. Examples of appropriate attachments include, but are not limited to Organizational Chart, Complaint Resolution Policy, Assessment Tool, Income Calculation Worksheet, etc.
