

Winter Contracting Opportunities

The PA Department of Transportation (PennDOT) **issues Requests For Quotes (RFQs)** for contractors to supplement PennDOT forces in plowing Department snow routes. In order to qualify to receive **RFQs**, interested contractors need to be prequalified for the [Rented Equipment Invitation to Qualify \(ITQ\) Contract #2210-01](#).

For the 2013/2014 **winter season**, most PennDOT Engineering Districts, plan to bundle snow routes into larger bid packages utilizing a longer contracting term. Contractors are paid by the hour and typically receive mobilization fees or guaranteed hours.

PennDOT, along with the Department of General Services (DGS), will conduct a meeting on Thursday, May 2, 2013 at 1:00 PM to review any questions interested contractors may have regarding this contract and/or RFQs. The meeting will be held in PUC Hearing Room 5, located on the first floor of the Keystone Building located at 400 North Street, Harrisburg, PA

Please note- The Department anticipates issuing RFQs against the ITQ contract in July 2013.

The ITQ contract may be viewed, and application documents downloaded, at the DGS [solicitation page](#) for the contract. Questions regarding the application process for the ITQ contract may be addressed to Barbara Cain at 717-783-6941, bcain@pa.gov
