Appendix V - Pay Phone Locations

RFP 6100039274 Unified Communications & Voice Services

Instructions

The Pay Phone Locations tab of this appendix indicates locations where pay phones are currently available to the Commonwealth.

Offerors shall complete this appendix if bidding on Lot 2 services.

To complete the tab, the Offeror shall denote any location if it is unable to provide pay phone services.

The response options are provided in a drop-down box and are as follows:

X

Any response of "X", denoting the inability to provide pay phone services, must also be explained in the Comments column and the Offeror's Technical Submittal.

The completed matrix must be included as Attachment V in the Offeror's response to this RFP.

Appendix W

Transition Milestones

Unified Communications & Voice Services – Lot 1, Lot 2, Lot 3

RFP NUMBER

6100039274

Transition Milestones

The following table includes a list of key required project milestones and delivery dates as applicable. Milestone due dates are as indicated below, unless otherwise agreed to by the Commonwealth in writing. Milestones include the completion of all tasks and deliverables associated with the milestone as described in this RFP. The Earn Back period is thirty (30) calendar days from the Transition Milestone Due Date and applies to those Milestones indicated with “Y” in the Earn Back column.

Note: Milestones 14 through 17 are dependent on the successful completion of Milestones 1 through 13.

| Transition Planning and Management Milestones | | | | | | |
|--|---|---|--|------------------|----------------------|---|
| For the Transition Planning and Management Milestones, Offerors should assume a ten (10) business day period for the Commonwealth to review and respond for each iteration of a deliverable submission. This ten day period is included in the total time reflected in the Milestone Due Date. | | | | | | |
| Milestone Number | Transition Milestone | Milestone Due Date | Acceptance Criteria | Milestone Credit | Earn Back | Dependency on Commonwealth |

APPENDIX X COSTARS Program

COSTARS Purchasers. Section 1902 of the Commonwealth Procurement Code, 62 Pa.C.S. § 1902 (“Section 1902”), authorizes local public procurement units and state-affiliated entities (together, “COSTARS Members”) to participate in Commonwealth procurement contracts that the Department of General Services (“DGS”) may choose to make available to COSTARS Members. DGS has identified this Contract as one which will be made available for COSTARS Members’ participation.

A. Only those entities registered with DGS are authorized to participate as COSTARS Members in this Contract. A COSTARS Member may be either a local public procurement unit or a state-affiliated entity.

1. A “local public procurement unit” is:

- Any political subdivision (local government unit), such as a municipality, school district, or commission;
- Any public authority (including authorities formed under the Municipality Authorities Act of 1955 or other authorizing legislation, such as the Public Transportation Law or the Aviation Code);
- Any tax-exempt, nonprofit educational institution or organization;
- Any tax-exempt, nonprofit public health institution or organization;
- Any nonprofit fire, rescue, or ambulance company; and
- Any other entity that spends public funds for the procurement of supplies, services, and construction (such as a council of governments, an area government, or an organization that receives public grant funds).

The Department reserves the right to review and determine eligible applicants as Local Public Procurement Units on a case-by-case basis.

2. A state-affiliated entity is a Commonwealth authority or other Commonwealth entity that is not a Commonwealth agency. The term includes:

- The Pennsylvania Turnpike Commission;
- The Pennsylvania Housing Finance Agency;
- The Pennsylvania Municipal Retirement System;
- The Pennsylvania Infrastructure Investment Authority;
- The State Public School Building Authority;
- The Pennsylvania Higher Education Facilities Authority, and
- The State System of Higher Education.

The COSTARS Program is not available for use by Executive Agencies and Independent Agencies as defined by the Commonwealth Procurement Code, or any agency or entity using funds appropriated to the Department of General Services through Capital Budget Project Itemization legislation for the procurement of furniture, fixtures, and equipment.

3. A complete list of local public procurement units and state-affiliated entities that have registered with DGS and that are authorized to procure items from the Contract can be found at <http://www.costars.state.pa.us/SearchCOMember.aspx>

- B. COSTARS Members have the option to purchase from this Contract, from any DGS contract established exclusively for COSTARS Members in accordance with the requirements of Section 1902, from any other cooperative procurement contracts, or from their own procurement contracts established in accordance with the applicable laws governing such procurements. The Contractor understands and acknowledges that there is no guarantee that a COSTARS Member will place an order under this Contract, and that the decision to procure from this Contract is within the sole discretion of each COSTARS Member.
- C. DGS is acting as a facilitator for COSTARS Members who may wish to purchase under this Contract. COSTARS Members that participate in this Contract and issue purchase orders (“POs”) to Contractors are third party beneficiaries who have the right to sue and be sued for breach of this Contract without joining the Commonwealth or DGS as a party. The Commonwealth will not intervene in any action between a Contractor and a COSTARS Member unless substantial interests of the Commonwealth are involved.
- D. COSTARS Members electing to participate in this Contract will order items directly from the Contractor and be responsible for payment directly to the Contractor.
- E. Those Contractors electing to permit COSTARS Members to procure from this Contract shall pay the Required Administrative Fee applicable to the Contractor’s classification:

| Contractor Classification | Required Administrative Fee |
|--|------------------------------------|
| Department of General Services Self-Certified Small Business Bidder | \$500 |
| All Other Bidders | \$1,500 |

- 1. Each bidder electing to permit COSTARS Members to participate in the Contract must submit the COSTARS Program Election to Participate form with its bid submittal and

pay the applicable Administrative Fee upon Contract award in order to sell the awarded items/services to COSTARS Members. If the bidder is a Department of General Services Self-Certified Small Business, a copy of its active Small Business Contracting Program certificate must be included with the bid submittal.

2. At the beginning of each Contract year and upon any Contract renewal, the Contractor shall submit a check for the required amount, payable to "Commonwealth of PA". The Contractor must pay the Administrative Fee at each contract renewal date to continue to sell the awarded items/services to COSTARS Members. If the bidder is a Department of General Services Self-Certified Small Business, a copy of its active Small Business Contracting Program certificate must be included with the Administrative Fee for each contract year and upon each renewal.

F. DGS has registered the COSTARS name and logo (together, the "COSTARS Brand") as a trademark with the Pennsylvania Department of State. Therefore, the Contractor may use the COSTARS Brand only as permitted under in this Subsection.

1. The Contractor shall pay the Administrative Fee covering its participation in the program, including without limitation any use of the COSTARS Brand, for each year of the Contract period. The fee is payable upon Contract award and prior to the renewal date for each succeeding Contract period.
2. DGS grants the Contractor a nonexclusive license to use the COSTARS Brand, subject to the following conditions:
 - a. The Contractor agrees not to transfer to any third party, including without limitation any of its subcontractors or suppliers, any privileges it may have to use the COSTARS Brand under this Contract.
 - b. The Contractor agrees not to use the COSTARS Brand to represent or imply any Commonwealth endorsement or approval of its products or services.
 - c. The Contractor is permitted to use the COSTARS Brand in broadcast, or Internet media solely in connection with this Contract and any other Contract with the Commonwealth under which it has agreed to make sales to COSTARS Purchasers. The Contractor may use the COSTARS Brand on business cards, brochures, and other print publications so long as the purpose is to identify the Contractor as a COSTARS vendor, and only so long as the required Contract fee is kept current.
 - d. Should this Contract terminate for any reason, the Contractor agrees promptly to remove the COSTARS Brand from any and all print and electronic media and to refrain from using the COSTARS Brand for any purpose whatsoever from the date of Contract termination forward.

- e. The Contractor agrees to defend, indemnify, and hold harmless the Commonwealth of Pennsylvania and DGS from and against all claims, demands, liabilities, obligations, costs, and expenses of any nature whatsoever arising out of or based upon the Contractor's use of the COSTARS Brand.
 - f. The Contractor agrees it has no property rights in the use of the COSTARS Brand by virtue of this nonexclusive license. The Contractor expressly waives any claims, including without limitation due process claims that may otherwise be available under the law in the event of any dispute involving these terms of use.
- G. The Contractor shall furnish to the DGS COSTARS Program Office a quarterly electronic Contract sales report detailing the previous quarter's Contract purchasing activity, using the form and in the format prescribed by DGS. The Contractor shall submit its completed quarterly report no later than the fifteenth calendar day of the succeeding Contract quarter.
- 1. The Contractor shall submit the reports via the web-based COSTARS Suppliers' Gateway at www.costars.state.pa.us. If a Contractor does not have access to the Internet, the Contractor shall send the reports, using the form and in the format prescribed by DGS, on compact disc via US Postal Service to the DGS COSTARS Program Office, Bureau of Procurement, 6th Floor Forum Place, 555 Walnut Street, Harrisburg, PA 17101-1914.
 - 2. For each PO received, the Contractor shall include on the report the name and address of each COSTARS-Registered Purchaser that has used the Contract along with the sales date, and dollar volume of sales to the specific Purchaser for the reporting period.
 - 3. DGS may suspend the Contractor's participation in the COSTARS Program for failure to provide the Quarterly Sales Report within the specified time.
- H. Additional information regarding the COSTARS Program is available on the DGS COSTARS Website at www.costars.state.pa.us.
- 1. If the Contractor is aware of any qualified entity not currently registered and wishing to participate in the COSTARS Program, please refer the potential purchaser to the DGS COSTARS Website at www.costars.state.pa.us, where it may register by completing the online registration form and receiving DGS confirmation of its registration. To view a list of currently-registered COSTARS member entities, please visit the COSTARS website.
 - 2. Direct all questions concerning the COSTARS Program to:

Department of General Services

Harrisburg, PA 17101
Telephone: 1-866-768-7827
E-mail GS-PACostars@pa.gov

APPENDIX Y

COSTARS PROGRAM ELECTION TO PARTICIPATE

If awarded a Contract, our firm agrees to sell the awarded items/services at the same prices and/or discounts, and in accordance with the contractual terms and conditions, to registered COSTARS Members who elect to participate in the contract. Our firm also agrees to pay the applicable Administrative Fee (\$1500 or \$500 for a Department of General Services Certified Small Business) at the beginning of each contract year and upon each contract renewal date.

If you are asserting that your firm is a Department of General Services Certified Small Business, provide an active Department of General Services Small Business Certification.

Subject: Unified Communications and Voice Services

Solicitation Number: 6100039274

Solicitation Due Date: February 23, 2017

Addendum Number: 1

To All Offerors/Bidders:

The Commonwealth of Pennsylvania defines a solicitation “Addendum” as an addition to or amendment of the original terms, conditions, specification or instruction of a procurement solicitation (e.g. Invitation for Bids, Request for Quotes and Request for Proposals).

The following changes have been made to the solicitation identified above:

Due to an unexpected number of questions the Commonwealth has extended the posting date for answers. Answers will be posted as soon as possible.

The Commonwealth has posted the following documentation as part of this addendum:

- Pre-proposal Conference Presentation
- Pre-proposal Conference Attendance List
- RFP#6100039274 - Unified Communications and Voice Services

For Solicitation where a “hard copy” (vs. electronic) response if requested:

- If you already submitted a response to the original solicitation, you may either submit a new response, or return this Addendum with a statement that your original response remains firm, by the due date to the following address:

*Attn: Joseph M. Millovich
Bureau of IT Procurement
c/o Commonwealth Mail Processing Center*

*2 Technology Park (rear)
Attn: IT Procurement, 506 Finance Building
Harrisburg, PA 17110*

Except as amended by this Addendum, the terms, conditions, specification, and instruction of the solicitation and any previous solicitation addenda, remain as originally written.

Very truly yours,

APPENDIX N

SMALL DIVERSE AND SMALL BUSINESS
LETTER OF INTENT

[DATE]

[SDB/SB Contact Name]
Title
SDB/SB Company Name
Address
City, State, Zip]

Dear [SDB / SB Contact Name]:

This letter serves as confirmation of the intent of [Offeror] to utilize [Small Diverse Business (SDB) or Small Business (SB)] on RFP [RFP number and Title] issued by the [Commonwealth agency name].

If [Offeror] is the successful vendor, [SDB or SB] shall provide [identify the specific work, goods or services the SDB/SB will perform, and the specific timeframe during the term of the contract and any option/renewal periods when the work, goods or services will be performed or provided].

These services represent [identify fixed numerical percentage commitment] of the total cost in the [Offeror's] cost submittal for the initial term of the contract. Dependent on final negotiated contract pricing and actual contract usage or volume, it is expected that [SDB or SB] will receive an estimated [identify associated estimated dollar value that the fixed percentage commitment represents] during the initial contract term.

[SDB/SB] represents that it meets the small or small diverse business requirements set forth in the RFP and all required documentation has been provided to [Offeror] for its SDB/SB submission.

We look forward to the opportunity to serve the [Commonwealth agency name] on this project. If you have any questions concerning our small diverse business commitment, please feel free to contact me at the number below.

Sincerely,

Acknowledged,

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|---|--|
| 1 | What are the user profiles for headsets (e.g. call center, office worker, remote worker, mobile worker)? | Headsets will be utilized for a variety of users based upon agency needs and cover all examples given. |
| 2 | What type of headsets are you looking for (corded, wireless, or both)? How many of each variation? Mono or Dual Ear preference? | The commonwealth is looking for an offering of compatible headsets that will work with the solutions defined within this RFP. Agencies purchase headsets as the need arises. |
| 3 | Should a USB speakerphone also be proposed? Personal, small group and/or small to medium size rooms | The commonwealth is looking for an offering of compatible hardware that will work with the solutions defined within this RFP. Solutions above and beyond requirements are welcomed. |
| 4 | Do you need the headsets to work with the PC (S4B only) or also need connectivity to desk phones and mobile phones? | The commonwealth will utilize headsets in a variety of manners including PC softphone only, PC and desk phone, desk phone only, mobile devices, and "all-in-one". Offerors may propose multiple solutions to cover the gambit of scenarios. |
| 5 | What environments will the headsets be used in (office quiet, open office moderate noise, noisy environment)? | Headsets will be utilized in any given environment as deemed necessary by agencies. |
| 6 | Do you need call control on the headset? | The commonwealth is looking for an offering of compatible hardware that will work with the solutions defined within this RFP. Solutions above and beyond requirements are welcomed. |
| 7 | What is your biggest concern surrounding audio in your contact centers and office areas? i.e. Noise, call quality, call dropping | With several hundred call centers and multiple office environments across the commonwealth, general statements are difficult to make. The commonwealth is looking for an offering of compatible hardware that will work with the solutions defined within this RFP. |
| 8 | What are the purchasing criteria for selecting a headset that meets your needs? | The commonwealth is looking for an offering of compatible hardware that will work with the solutions defined within this RFP. Solutions above and beyond requirements are welcomed. |
| 9 | If wireless headset, how many will be in a single location? | Agencies purchase headsets as the need arises. Scenarios can cover a range from single to hundreds purchased at any given time. |
| 10 | How will you deploy the headsets? | Deployment of headsets is based on agency discretion. The commonwealth welcomes Offerors proposed approach. |
| 11 | How will you know and measure user adoption? | This question is unclear. |
| 12 | In lot 3, PSTN conferencing are you looking for actual speakerphone options as well? | While not a requirement of Lot 3, the commonwealth will welcome any proposal put forth. |
| 13 | Documentation says 30+ copies required while website states "Responses only by Email". Which do you prefer? | Offerors must submit the material required in Part I-12 of the RFP to the Issuing Office in hard copy format. |
| 14 | It sounds as though this RFP was written for Microsoft, would an on-premise solution be considered for audio and video conferencing? | Microsoft Skype for Business is the selected unified communication tool for the Commonwealth. The Commonwealth is looking for a hosted audio and video solution. Any proposed on- premise solutions must be maintained in Offeror controlled or contracted facilities and not within commonwealth facilities or data centers. |
| 15 | With regards to Voice Conference service requirements: you require Dial- In for up to 250 attendees and a large conference capabilities of up to 1000 participants; can you offer a ballpark of peak times for service and estimate of how many people could be using the service at Peak times? A.k.a. What would the peak number of users be at your peak time? | Conferencing peak times are dependent upon business needs. Current routine peaks do not exceed a sum of 1000 participants at any given time, due to platform constraints. |
| 16 | How many audio conferences per week/month and what is estimated duration of an average conference? | Conferencing duration times are dependent upon business needs. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|--|--|
| 17 | Same question regarding Video Conferencing; what would you estimate to be your peak number of attendees of video conferences at a single time? | Video conferencing across the commonwealth is early adoption. The commonwealth is looking to grow this service through the procurement of this RFP. |
| 18 | How many video conferences per week/month and what is estimated duration of an average conference? | Video conferencing across the commonwealth is early adoption. The commonwealth is looking to grow this service through the procurement of this RFP. |
| 19 | Are you looking to connect traditional video codecs such as Polycom, Lifesize, Cisco, etc., and or soft clients (webcam based) for managed video bridging services? | While not a requirement of this RFP, the commonwealth encourages and welcomes offerors proposed solutions. |
| 20 | How many site locations they are looking to connect? | This question is unclear. |
| 21 | Do you prefer all pricing to follow the OPEX model? If so, can telephones be priced as a 5-year lease? | For evaluation purposes, proposal must be quoted as a direct buy or two year purchase option as described in the RFP and in Note #2 of the Lot 1 tab within the Cost Submittal Worksheet. The Commonwealth wishes to maintain ownership of the devices. |
| 22 | Do you plan on including a Proof of Concept as a part of the initial deployment? | The milestone of transitioning 1 and 5 Technology Park will serve as proof of concept for the selected Offerors solution. |
| 23 | Reference Section: III-1. Issue: Offerors shall respond separately to each of the Lots, but need not respond to all three. Also, the table of three core service areas are required for Lots 1 and 2. If the Offeror responds to both Lots 1 and 2, does the Offeror need to provide a separate response to the three core services for each Lot? | No, unless there are differences in how core services are delivered per Lot. |
| 24 | Reference Section: III-2 through III-7. Issue: The response to the requirements in Section III-2 through III-7 may be different; for example Lot 1 may have a need for different personnel/key personnel than Lot 2 or 3. Given the requirement to respond to each Lot separately does the Offeror need to provide separate responses for the mentioned sections? Question: Can/Does the Offeror need to provide separate response for III-2 through III-7 for each Lot? | Offerors should submit one technical proposal which clearly describes how their solution relates to each lot for which they are responding. |
| 25 | Reference Section: Service Delivery Management A-1. Issue: The Commonwealth states “The Offeror shall work with the Commonwealth to integrate its service delivery systems and processes with Commonwealth systems, including: <ul style="list-style-type: none"> • <input type="checkbox"/> Service ordering (using ESMS) • <input type="checkbox"/> Billing (using ESMS) Does the Commonwealth require the Offeror to provide Call Detail Records for usage based services? If so, how does the Offeror accept the CDRs into ESMS? If so, how often is the Offeror required to upload the usage records and is there a time limit for the record to be uploaded once placed? | The offeror must provide call detail records for services that require call details for billing purposes. The offeror and the Commonwealth will agree on a format for the CDR file. That file will be used for input in the ESMS. CDRs are sent daily to ESMS to be billed and rated for daily usage and once monthly for monthly usage charges. |
| 26 | Reference Section: I-7. The selected Offeror must perform the largest percentage of work as compared to its subcontractors and suppliers. Does the Commonwealth plan to evaluate each Lot separately against the requirement to perform the majority of the work internal to the Primes organization? | Each Lot is evaluated separately. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|---|---|
| 27 | Reference Section: II-4. Evaluation Criteria. Will the Commonwealth evaluate each Lot independent of the other Lots? | Yes. |
| 28 | Reference Section: Appendix Q. Need additional information for transition planning. Can VOIP and Data Center Locations Tabs be expanded to include the name of the agency, number phone positions and the number telephone numbers? | Please see new information (TN Counts per location) in the following updated Appendix(s): Appendix Q – VoIP Service Locations Appendix U - Centrex Analog Service Locations Additional agency specific telephone number detail will be provided to the selected Offeror. Please note these are the current TN counts and may not represent the final counts implemented per location. |
| 29 | Reference Section: Appendix Q. Identification of training to support Transition planning. Can Appendix Q be expanded to include the number of personnel by location that would require training on new telephone Handsets? | Training needs will be dependent upon specific agency requirements. It is the commonwealth's desire that training is consistent regardless of method of training selected by agencies. |
| 30 | Reference Section: Overall RFP vs. Lots 1, 2 and 3. Prime RFP Percentages as opposed to LOT percentages and overall scoring. Will the Prime percentages and scoring be applied to the overall single RFP, or will each Lot carry its own Prime percentage and scoring? | Each lot will be scored independently. The Commonwealth may award up to three (3) different Offerors, one for each lot. |
| 31 | Reference Section – Lot 1. Licensing. Please identify the quantities and level of existing Microsoft O365 licensing. Can the Commonwealth please identify if Enterprise License agreements or Government? | The commonwealth's current licenses are government with totals exceeding 30,000. SKUs include G3 and Kiosk. |
| 32 | Reference Section – lot 1. III.8 E-1.35. Toll Free DNIS. Given that DNIS is a requirement, is there an ACD requirement of the Offeror to be integrated into Skype for Business? Also, please provide the estimated minutes of use per month of the inbound Toll Free associated with this RFP. | No, ACD requirements are provided by a separate contract. This information will be provided to the selected Offeror upon award. |
| 33 | Reference Section – Lot 1 III.8 item 31. integrating with Commonwealth's O365 and Microsoft environment. a. <input type="checkbox"/> How many unique "Forests" does the Commonwealth have within Active Directory? b. <input type="checkbox"/> Where are the physical Active Directory Domain Controllers located? c. <input type="checkbox"/> Is the Commonwealth using Exchange via O365 or does the Commonwealth have Exchange hosted on prem? If on prem please identify locations where Exchange is hosted? | a. This information will be provided to the selected Offeror upon award. b. This information will be provided to the selected Offeror upon award. c. The commonwealth is in the process of migrating to O365 Exchange. It is the desire of the commonwealth that all features and functions of the selected Offeror's solution are fully integrated with O365 Exchange. This should be completed by contract award. |
| 34 | Reference Section – Lot 2. Centrex. Is the Commonwealth seeking legacy Centrex services (ISDN BRI and POTs) or a replacement via hosted VoIP that mimics Centrex capabilities? | While there will be a need for legacy Centrex services (fax and alarm lines), the migration to VoIP is desired by the commonwealth. We welcome proposed solutions that meet or exceed the requirements within the RFP. |
| 35 | Reference Section – Lot 1, Part 1 I-3 (Page 3). Commonwealth Skype requirements. a. <input type="checkbox"/> Is the Commonwealth using Skype for Business today? b. <input type="checkbox"/> What features of Skype for Business is the Commonwealth using today, if any? c. <input type="checkbox"/> What Skype Packages is the Commonwealth evaluating? | a. Yes b. All features except those that require PSTN connectivity. c. Packages proposed that meet the RFP requirements. d. Our current platform is Unify IP/PBX, OpenScope V7, with 45,000 end points e. Yes f. The Commonwealth currently has an enterprise licensing agreement. g. Commonwealth purchases its licenses through its software reseller. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|---|---|
| | <p>d. <input type="checkbox"/> If Enterprise Voice is selected, what is the Commonwealth's current voice platform(s) today? (type of product and version)</p> <p>e. <input type="checkbox"/> Does the Commonwealth currently have access to Skype for Business client licenses?</p> <p>f. <input type="checkbox"/> What licensing agreement do they currently have with Microsoft?</p> <p>g. <input type="checkbox"/> Who does the Commonwealth buy their licensing through?</p> <p>h. <input type="checkbox"/> Number of planned Skype for Business enabled end-users (end-state)?</p> <p>i. <input type="checkbox"/> What is the Commonwealth E-mail platform? (Vendor, Software, Release?)</p> <p>j. <input type="checkbox"/> Are the Commonwealth services hosted in multiple locations, (i.e. CRM, SharePoint, PBX)?</p> <p>k. <input type="checkbox"/> Does the existing Commonwealth LAN supports QoS?</p> <p>l. <input type="checkbox"/> Number of concurrent calls the Commonwealth can support?</p> <p>m. <input type="checkbox"/> Does the Commonwealth require Call Center (Y/N – if Y what is the product, and the # of users)?</p> <p>n. <input type="checkbox"/> Does the Commonwealth require Call recording (Y/N – if Y what is the product, and the # of users)?</p> <p>o. <input type="checkbox"/> Can the Commonwealth provide the number of users requiring Voicemail?</p> <p>p. <input type="checkbox"/> Does the Commonwealth have a preferred end-user device vendor or is the Commonwealth vendor agnostic? Are the end-user devices the Commonwealth current owns that the Offeror could utilize in Offeror's open architecture solution? If so, what is the vendor, model and count?</p> <p>q. <input type="checkbox"/> Does the Commonwealth require Sharepoint integration?</p> <p>r. <input type="checkbox"/> What is the host OS? (Windows 7 for example)</p> <p>s. <input type="checkbox"/> Is number porting required and if so where?</p> | <p>h. Our current user base is 40,000+. The final number will be based upon business area needs as determined through the transition process.</p> <p>i. Migrating to O365 Exchange in the Cloud by contract award date.</p> <p>j. Yes</p> <p>k. Due to the complexity and nature of multiple agency networks this information is unavailable at this time. However, the Offeror should indicate any network requirements for their proposed solution.</p> <p>l. Our current ratio of calls is 6:1. The final number will be based upon business area needs as determined through the transition process.</p> <p>m. No.</p> <p>n. Yes, please see call recording requirements E-1.59; E-1.70 – 72.</p> <p>o. Our current user base is 40,000+. The final number will be based upon business area needs as determined through the transition process.</p> <p>p. The commonwealth is vendor agnostic and only desires that hardware meet or exceeds requirements listed in the RFP. The current end points are approximately 40,000 Open Stage 20-60 series devices.</p> <p>q. While this is not a requirement, proposals including this will be entertained.</p> <p>r. Desktop range from Windows 7 Enterprise to Windows 10 Enterprise.</p> <p>s. Please see requirements E.1.1 and D-2.2.</p> |
| 36 | Reference Section: Lot 2. Limited Centrex Availability. Would the Commonwealth consider voice services via cable modem with Centrex like features as a replacement for legacy Centrex? | The commonwealth will entertain any proposed solutions that meet or exceeds the requirements within this RFP. |
| 37 | Reference Section: Lot 2. IRS Publication 1075. It appears that IRS Publication 1075 limits Microsoft Skype competition. Can you elaborate on the requirements outlined by the Commonwealth? Does the Commonwealth require Skype to be located in the Government Community Cloud? | The Offeror can propose their own hosted solution as long as it is compliant with IRS Publication 1075. There is no specific requirement to utilize the Microsoft Government Community Cloud. |
| 38 | MS Skype Licensing. The RFP mentions Microsoft O365 integration, how the Commonwealth envision integration if Microsoft is not the selected vendor and an offeror provides hosted Skype? | The commonwealth, through this RFP, is looking for vendors proposed solutions that will meet the requirements. |
| 39 | Payphone. Can the Commonwealth provide contact information for the existing payphone provider? | Verizon is the Commonwealth's current provider for payphone services. |
| 40 | BTNs for VoIP Services. For transitional purposes, can the Commonwealth provide how many BTNs the current provider(s) have in their billing system for the Commonwealth's VOIP services? | The commonwealth currently has 12,442 BTNs. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|--|---|
| 41 | Regarding Lot 3 – Other Voice Conferencing Services, page 87 of 181, under Description, last paragraph includes this statement “This service is not intended for Lot 1 (UC and VOIP) users.” Skype for Business (SfB) Online offers a native PSTN Conferencing add-on for Office 365 which provides fully integrated E.164 / PSTN dial-in service to SfB meetings for attendees who must dial-in via a landline or cell phone (no SfB Client access). This PSTN dial-in method can be used by a Commonwealth employee or an outside attendee. Why would Lot 1 users (all or some) not benefit from having access to PSTN Conferencing dial-in via e.164 numbers fully integrated with their web conference and meeting invitations? | The commonwealth foresees scenarios where satellite offices served by PBXs or traditional Centrex from Lot 2, do not have the avenue for utilizing PSTN connectivity for SfB for conferencing services off of Lot 1. Lot 3 is meant to fill this gap. |
| 42 | If a prime bidder decides to ONLY bid Lot 3, would that bid be exempt from the Small and Disadvantaged Business scoring component? | No. |
| 43 | I-12. Proposal Requirements. Submission format – electronic vs hard copy. Proposal Submission: To be considered, Offerors should submit a complete response to this RFP to the Issuing Office, using the format provided in Section I-12B, providing thirty (30) paper copies [one marked “ORIGINAL”] of the Technical Submittal and one (1) paper copy of the Cost Submittal and two (2) paper copies of the Small Diverse Business and Small Business (SDB/SB) Participation Submittal and related Letter(s) of Intent. In addition to the paper copies of the proposal, Offerors shall submit one complete and exact copy of the entire proposal (Technical, Cost and SDB/SB submittals, along with all requested documents) on CD-ROM or Flash drive in Microsoft Office or Microsoft Office-compatible format. On the Commonwealth Market page it is stated that : http://www.emarketplace.state.pa.us/Solicitations.aspx?SID=6100039274 Responses to this bid will only be accepted electronically. You must go to http://www.pasupplierportal.state.pa.us to complete this bid. Please clarify the submission requirement. | Offerors must submit the material required in Part I-12 of the RFP to the Issuing Office in hard copy format. |
| 44 | Lot 1 Tasks E – Features & Functions. 4....Self Managed Moves, Adds and Changes: Does a managed task by an Ops Team managing MACDs via a Trouble ticketing system meet the requirements or is this requirement for the customer representative to use a system portal to perform desired change? | The requirement is for commonwealth staff to have the ability to perform their own MACDs through a vendor provided system portal. |
| 45 | Lot 1 Tasks E – Features & Functions. How does feature/function “10...Safety & Security” differ from feature/function “11... 911 Services”? | This question is unclear. |
| 46 | III-5 Personnel. Section B. Subcontractors #8. #8 specifies “Resumes (if appropriate and available)” whereas the following paragraph states “The Offeror’s | The Offeror should submit resumes for all individuals who they mention within their solution. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|---|---|
| | <p>subcontractor information shall include (through a resume or a similar document)....”.</p> <p>Can the Commonwealth please clarify as these requirements do not seem to be in agreement whether subcontractor’s resumes are required or only required if “appropriate and available” and are they required for all individuals?</p> | |
| 47 | <p>III-6 Training. Number to be trained. REQ: If appropriate, indicate recommended training of agency personnel. Include the agency personnel to be trained, the number to be trained.....”.</p> <p>Question: Can the Commonwealth provide additional information in order to better provide the number of people to be trained?</p> | <p>Currently the Commonwealth has 45,000+ users on their IPT platform. The Commonwealth is looking for Offerors to provide innovative solutions to train 100% of the users across different training methodologies (e.g. web based, class room, train the trainer, etc.) that meet or exceed Commonwealth requirements.</p> |
| 48 | <p>Lot 1. Toll Free Services. Can the Commonwealth please expand on the scope of providing Toll Free services as part of Lot 1? For example, is the requirement for the Offeror to integrate and manage the Government’s existing Toll Free Services (provided as GFE) or to provision and resell toll free services to the Commonwealth?</p> | <p>The requirement is for the Offeror to port and provision toll free services as part of their proposed solution.</p> |
| 49 | <p>Lot 1. Core Services – Emergency Preparedness. Does this imply failover/high availability/disaster recovery solutions?</p> | <p>These requirements (see C. Emergency Preparedness) are to address how the Offeror will support continuity of operations during an emergency if the Commonwealth needs a strategy for maintaining operations for an extended period of time. Section D - Architecture and Integration (D-1.6) references failover requirements.</p> |
| 50 | <p>Lot 1. The Commonwealth states “Tickets may be submitted either via manual data entry through an online user interface”. Will the Commonwealth allow vendor support staff online access to the ESD ServiceNow ticketing system?</p> | <p>The Offeror is required to integrate with the ESD. The awarded Offeror of the ESD contract (RFP#2) determines the specific ITSM system used by the ESD. The RFP#2 Vendor is required to provide integration capabilities and access to all other Vendors to their proposed ticketing system whether that be online or via an integrated connection that is yet to be determined.</p> |
| 51 | <p>Lot 1. Lots Evaluation. Is each Lot being evaluated on their own using Technical, Costing & SB/SDB Criteria? Will a vendor be disadvantaged if they respond with only 1 lot?</p> | <p>Each Lot is evaluated separately.</p> |
| 52 | <p>RFP III-8, B.3, B-9. Can the Commonwealth provide the quantity and scope of in-flight projects Offeror will assume?</p> | <p>Question is unclear.</p> |
| 53 | <p>Lot 1. D-1.2 REQ:The Offeror shall host all core components at the Offeror’s datacenter(s).</p> <p>Question: Does the Commonwealth consider cloud-based Skype for Business (in the Microsoft Government Community Cloud) as being hosted “at the Offeror’s datacenter”?</p> | <p>Yes.</p> |
| 54 | <p>Lot 1. Tasks D-1.1 REQ: The Offeror shall provide a fully managed, vendor hosted, VoIP solution that includes an integrated MS Skype for Business UC platform. The solution shall provide full integration and federation with the Commonwealth O365 environment.</p> <p>Question: What services are deployed on the Commonwealth’s O365 platform?</p> | <p>The Commonwealth is currently licensed for and leveraging the following products:</p> <ul style="list-style-type: none"> • Exchange Online • Office ProPlus • Skype for Business • Office Online • SharePoint Online • OneDrive for Business • Project Online |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|---|--|
| | | <ul style="list-style-type: none"> • Project Pro • Visio Pro • Yammer • Dynamics CRM • Dynamics AX • Power Bi |
| 55 | <p>Lot 1 Task D-1.4. REQ: The Offeror's solution shall, cost-effective way to support users in a multi-tenancy, multi-location (>100 locations) environment over the next 5-10 years. There are currently ~ 45,000 VoIP users that will be transitioned to the new platform. There are currently ~ 28,000 non-VoIP users (e.g. PBX, Centrex) many of which may be transitioned to the new platform.</p> <p>Question: What features of multi-tenancy are desired by the Commonwealth?</p> | <p>In regards to this statement, multi-tenancy refers to multiple commonwealth agencies occupying shared facilities.</p> |
| 56 | <p>Lot 1. 2.2 The Offeror shall describe its proposed UC and VoIP architecture. Including but not limited to the following: Overall solution architecture (redundancy, disaster recovery, etc.) Requirements for connection to the Commonwealth network Integration of proposed hosted VoIP platform with MS Skype for Business Survivability options for critical sites. This should include any network and PSTN requirements (e.g. PRIs)</p> <p>Question: In requirement c above, is the Commonwealth requiring integration with an existing Commonwealth VoIP platform?</p> | <p>No.</p> |
| 57 | <p>Lot 1 #4 Licensing. Regarding the Commonwealth Enterprise License Agreement, what level licensing is in use at the Commonwealth?</p> | <p>Currently a combination of E3 and Kiosk with the majority being E3.</p> |
| 58 | <p>Lot 1. Does the Commonwealth currently have its entire MS Exchange email hosted by Microsoft (aka "Exchange Online")?</p> | <p>No, but the objective is to have this in place by contract award date.</p> |
| 59 | <p>Lot 1. Dial Tone Services Task E-1.8. REQ: The Offeror shall provide ability for end user to dial and connect to 411 for information service.</p> <p>Question: Please provide more information on the Commonwealth 411 Network solution and capability?</p> | <p>In regards to this requirement, the Offerors solution should provide end users the ability to dial 4-1-1, which is the telephone number for local directory assistance across the U.S.</p> |
| 60 | <p>Lot 1. Main Line Services Task E-1.10. REQ: The Offeror shall provide more than 1 incoming call on a single TN at a time.</p> <p>Question: Can you please provide Use case?</p> | <p>The Offeror should provide the ability for more than 1 incoming call on a single TN at a time. This is commonly used for main incoming lines where the user is able to put the 1st call on hold and answer a second incoming call where the 2nd caller doesn't receive a busy signal or go straight to voicemail.</p> |
| 61 | <p>Lot 1. Main Line Services #10. REQ: The Offeror shall describe its approach for providing main line answering features for multiple users.</p> <p>Question: Please clarify the requirement as specified.</p> | <p>Within the commonwealth, there are instances where multiple users are responsible for answering a main incoming telephone number for their office. The Offeror should propose a solution where more than 1 person has the ability to answer these calls from their own telephone, without having to be physically located at the main desk.</p> |
| 62 | <p>Lot 1. E-1.41. REQ: The Offeror shall provide flexible hunting capabilities.</p> | <p>These should include, but are not limited to, loop, sequential, and random select.</p> |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|--|---|
| | Request: Please identify the specific hunting capabilities the Commonwealth is expecting. | |
| 63 | Lot 1. E 1.47. What services of Office 365 does the Commonwealth already subscribe to? | The Commonwealth is currently licensed for and leveraging the following products: <ul style="list-style-type: none"> • Exchange Online • Office ProPlus • Skype for Business • Office Online • SharePoint Online • OneDrive for Business • Project Online • Project Pro • Visio Pro • Yammer • Dynamics CRM • Dynamics AX • Power Bi |
| 64 | Lot 1. E 1.49 Does the Commonwealth already use Azure Active Directory Sync? | Yes. |
| 65 | Lot 1. E-1.61 REQ: The Offeror shall provide the ability to choose a large capacity conferencing option which allows for, at a minimum, in excess of 1,000 participants. Question: Is the Commonwealth asking for a broadcast solution or interactive experience? | The commonwealth is looking for broadcast experience where the participants can utilize chat or text in order to participate or ask questions. |
| 66 | Lot 1. Will our UC support staff receive calls from COPA Tier 1 on COPA ITSM system? Can Offeror utilize COPA ITSM System to manage support tickets for the UC solution? | No. The support staff will not receive calls from COPA Tier 1 system. The COPA ITSM system will not be used to manage any support tickets for the UC solution. All tickets will reside in the ESD ITSM system. Whether awarded Offerors of this RFP can have direct access to the ESD ITSM system is at the discretion of the ESD awarder Offeror. Please refer to the RFP Section III-8.A for a diagram depicting types of tickets managed by organization and ITSM integration points. |
| 67 | Lot 1 E 1.79-1.84. Can the Commonwealth provide a description of the types of tasks that are implied under the "Teleworking" label (feature/function letter n)? | The commonwealth requires that their teleworking users have the same experience and use of features and functions as if they were located in a commonwealth networked facility, without the use of VPN. |
| 68 | Lot 1. F 1.12. What SLAs are used to determine the effectiveness of the instructor? | Mutually agreed upon post training surveys to be developed in conjunction with selected Offeror. |
| 69 | Appx I, Commonwealth ITSM Overview. How many non-standard service requests (NSSR) are there per month? | The question is unclear. |
| 70 | Lot 3. All. Does the Commonwealth expect active participation from users/employees during the meeting? Or is this service for a broadcast/webcast audio dial-in with listen only ability? | The commonwealth is looking for broadcast experience where the participants can utilize chat or text in order to participate or ask questions. |
| 71 | Are you willing to consider a Unified Communications Platform other than Skype for Business as long as it can provide the same functional capabilities and/or integrate where applicable? | No. |
| 72 | Are you willing to consider a Unified Communications Client other than Skype for Business as long as it can provide the same functional capabilities and/or integrate where applicable? | No. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|---|--|
| 73 | Are you willing to consider an Audio/Video Conferencing solution other than Skype for Business as long as it can provide the same functional capabilities and/or integrate where applicable? | No if answering within Lot 1. Yes, if answering within Lot 2. No if answering within Lot 3. |
| 74 | Can the Commonwealth provide the current telephone numbers associated with each site on Appendices T & U? | Information will be provided to the selected Offeror |
| 75 | For Lot 2 services, will the Commonwealth consider "Centrex-like" services that are provided as a Hosted VoIP service rather than traditional Centrex? | The commonwealth will entertain any proposed solutions that meet or exceeds the requirements within this RFP. |
| 76 | PART III. Technical Submittal or Part VI. A. Core - Support Services (invoices) or 23. PAYMENT (pg 114). Does the Commonwealth require a single invoice for all services provided under each Lot? | Yes, one invoice for each lot. |
| 77 | PART I page 5 And Appendix F-Cost. Appendix F cost submittal, for the 3 lots only has a subtotal for Estimated Yearly Total. Industry leading voice and unified communications services will be required from contract signature and must continue through the duration of the full contract period, which has the potential of being ten (10) years. Therefore, it is crucial for the selected Offeror to stay abreast of, and deliver, advances in security practices, networking technologies, and voice and unified communications services. For the full contract period, base term of 5 years and potential of another 5 years, there is no calculation in the cost submittal for base years and renewal years. Is it the Commonwealths intent that the estimated yearly total must continue at the same rate for the full 10 year contract term? | The Commonwealth's intent is to have fixed rates for the 5 base years. Cost may be negotiated during renewal periods. |
| 78 | PART I. Page 4 "A key Commonwealth goal is to move the majority of Commonwealth users to a cost effective replacement unified communications (UC) platform (based on a Microsoft Skype for Business platform) from the current UC platform." Please quantify this number or define "the majority." | It is the intent of the commonwealth to move all current IPT and UC users, which currently comprises of 45,000 lines, to the new solution procured from this RFP. These numbers are subject to change during the course of transition activities. |
| 79 | PART I-4 Objectives. A. As determined by OA/OIT, in consultation with the agencies, the primary goal of this procurement is to obtain a comprehensive, secure, and cost effective voice communications solution for the Commonwealth agencies under the governor's jurisdiction. Will this contract be extended to COSTARS participants? | Yes. The Commonwealth has revised the RFP to allow for COSTARS participation. Refer to Appendix X and Y. |
| 80 | PART III-5. Page 24. Project Manager. Is the project manager expected to handle all moves/adds/changes/disconnects through the term of the contract that agencies TMOs do not manage themselves through the requested online MAC portal? | Yes, or another appropriate vendor representative that remains as a consistent agency facing entity through the life of the contract. |
| 81 | PART III-5. Page 24. Incident Manager. Can the Commonwealth please define in further detail the differences in the expectations between the Service Desk and the Incident Manager? | The Incident Manager acts as the owner and single point of contact for all incidents related to voice services. The Incident Manager will be responsible for the tracking, escalation, communication, and management of incidents and outages from the time of initial logging through resolution. The Incident Manager is the focal point who interfaces with the commonwealth ensuring timely communication during incidents, appropriate escalation as indicated for high |

RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|----|--|---|
| | | impacting incidents, and post incident reports. For recurring or high impact incidents, the Incident Manager passes information needed to initiate the problem management process including documentation of work arounds, known errors and root cause analyses. The Service Desk processes service requests in addition to opening incident tickets when calls are received, assigning them to the proper resources, ensuring timely updates and managing the ticket to closure. The Incident Manager plays a role during a service impact and as indicated, after service restoration. |
| 82 | PART III-8.A. Pg 28. Work Plan - Service Delivery Management. Which Offeror (ESD or Voice RFP VSD) will be responsible for the cost associated with the integration of their ITSM system with the Offeror from RFP#2? | Each vendor will be responsible for its own cost incurred for the integration. |
| 83 | PART III-8.A. Pg 28. Work Plan - Service Delivery Management. How will the Commonwealth govern disputes between the multiple vendors from each of these RFPs? | Commonwealth will provide overall governance over their suppliers and would facilitate a dispute resolution between affected parties as deemed appropriate. |
| 84 | PART III-8.A. Pg 29. Support Services. Which Offeror (ESD or Voice RFP VSD) will bear the financial responsibility for the integration between CMDBs; Which Offeror (Enterprise or Voice RFP) will bear the financial responsibility for the integration between Event Management Systems? | Each vendor will be responsible for its own cost incurred for the integration. |
| 85 | PART III-8.A. Tasks - Service Delivery Management, Pg 32. A-6. Can the Commonwealth specifically define the standards that the ITSM systems must meet? | Please refer to the diagram in section III-8.A for specific ITSM requirements. Offerors responding to this RFP are expected to have the capability to process tickets on their ITSM system for incidents, changes and problems and maintain the CMDB. The Offeror's ITSM system must be able to integrate with the ITSM system hosted by the awarded Offeror of the ESD services (RFP #2) and support bi-directional transaction processing for those processes. Additionally, integration is required for the VSD to pass events to the Enterprise SIEM hosted by the ESD awarded Offeror. |
| 86 | PART III-8.A. A. Support Services, Pg 30. Footnote. Can the Commonwealth clarify who bears the costs relative to the statement "The selected Offeror shall transition to the ESMS replacement once it becomes available?" Will the awarded Offeror be able to participate in the development of the ESMS replacement? | Once the Offerors services are enabled and accepted by the Commonwealth, any changes to services or additional costs will be managed through the standard contract change management process. The ability of Offeror to participate in the development of the ESMS replacement will be determined based upon the award of the new solution. |
| 87 | PART III-8.A Tasks - Service Delivery Management, Pg 33. A-11. What is the minimum level of ITIL certification that is required to meet this requirement? | Offeror staff should have achieved ITIL V3 Foundations certification at a minimum to meet this requirement. |
| 88 | PART III-8.A. Tasks - Service Delivery Management, Pg 33. A-13. Please define further the statement "ability to scale resources to meet increased business needs". Does this mean the Offeror should have ability to add resources to the program at their own expense regardless of the reason for the additional resources <or> will the Commonwealth agree that additional costs could be assessed in the event the need for those additional resources is driven by decisions made by or | The Offeror is responsible for scaling resources to meet increased business needs for supporting their proposed services. If there are agreed upon changes in the proposed services throughout the contract, those changes will be managed through the standard contract change management process. |

| # | Question | Answer |
|----|---|--|
| | activities implemented by the Commonwealth that significantly changes the assumptions that were used to determine the initial resource requirements. | |
| 89 | PART III-8.A. Tasks - Service Request and Billing, Pg 35. A-16. In the event a mutually agreed upon interval cannot be established will those products be exempt from SLA calculations until such an agreement is met? If not then how will the Commonwealth evaluate if service delivery SLAs are met or missed? | A service cannot be enabled until mutually agreeable interval is established. |
| 90 | PART III-8.A. Tasks - Service Request and Billing, Pg 35. A-17. If there are no available facilities to the desired location and a build out is required will those requests be excluded from the SLA calculations? | At the Commonwealth's sole discretion, it may waive or extend an SLA. |
| 91 | PART III-8.A. Tasks - Service Request and Billing, Pg 35. A-19. How will situations be handled when the order creator delays acceptance and Offeror has met the requested delivery dates by the agency? Will the Commonwealth permit those orders be closed regardless of the formal acceptance from that order creator? | The date the billing starts will be based on the date the order was delivered successfully and completely by the offeror regardless of the date of the agency acceptance. |
| 92 | PART III-8.A. Tasks - Service Request and Billing, Pg 35. A-20. How are multiple changes for the same line handled? In the event 3 separate changes/actions are requested for 1 line would this be quantified as 1 change or 3 changes? | If these changes are processed at the same time and added all on one order, it is one change order. Currently only one order can be processed at a time against each ESMS CI. |
| 93 | PART III-8.A. Tasks-Service Asset and Configuration Management, Pg 37. A-27. Do the requirements for Configuration Items (CI) only pertain to those CIs that are dedicated to the Commonwealth infrastructure and not the shared or backbone infrastructure for the Offeror? | Correct. The requirements only pertain to those configuration items which are part of the Commonwealth infrastructure. |
| 94 | PART III-8.A Tasks-Service Asset and Configuration Management, Pg 38. A-43. Which Offeror is responsible for the cost associated w/ the ESD integration and will the Commonwealth govern that relationship? | Each vendor will be responsible for its own cost incurred for the integration. |
| 95 | PART III-8.A. Tasks - Service Desk Management, Pg 41. A-45. In the event incident volumes increase due to a decision or technical direction change by the Commonwealth how will the Commonwealth handle the additional resource cost associated with the increase volume? | The offeror should staff service desk to handle all incident volume increases related to its services. |
| 96 | PART III-8.A. Tasks - Service Desk Management, Pg 41. A-48. The diagram shows that all incidents are called into the ESD and the ESD provides the communication to the end user during the management of incidents and events. However this clause states the VSD for this bid communicates with users, keeping them informed of the progress, impending actions.... Which is the accurate flow of incident/event reporting and communicating with the end users/agencies for this RFP? | All calls initiate through the ESD. Once forwarded to VSD may call directly to end-user if needed for problem validation/resolution. VSD maintains responsibility for updating ticket. |
| 97 | PART III-8.A. Tasks - Service Desk Management, Pg 42. A-56. Will tickets lacking the required information per the established scripts that prevent the triage process from occurring be placed on customer "hold"? | Yes, if it prevents the triage process from occurring. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|---|
| | time until the required information is provided by the agency? | |
| 98 | PART III-8.A. Tasks - Service Desk Management, Pg 43. A-63. Is the requirement for the Service Desk personnel to perform the trap and trace <or> simply to process a trap and trace request and sending them to the appropriate support team to execute on the request? | The Service Desk personnel are to facilitate the request and ensure the appropriate parties receive required data and process the request in a timely fashion. |
| 99 | PART III-8.A. Tasks - Service Desk Management, Pg 43. A-64. How long is the requirement for tickets to be accessible? | Through the term of the contract. |
| 100 | PART III-8.A Tasks - Service Desk Management, Pg 43. A-71. Will the Commonwealth be acceptable to different timeframe (within a reasonable range) in the event the Offeror cannot meet the 15 minute requirement? | No |
| 101 | PART III-8.A. Tasks- Event Management, Pg 48. A-84. Which Offeror (RFP #2 or RFP #1) is responsible for the cost associated with the electronic interface required? How will the Commonwealth govern this relationship between the different suppliers? | Each vendor will be responsible for its associated costs. |
| 102 | PART III-8.A. Tasks- Event Management, Pg 48. A-85. Which Offeror (RFP #2 or RFP #1) is responsible for the alert out to the Commonwealth for an event? | The RFP 3 vendor will be responsible for notifying the RFP 2 vendor and the Commonwealth. |
| 103 | PART III-8.B. Tasks - Service Level Agreements, Pg 54. B-19. Please further explain the meaning of making tiered service offering available to accommodate agency needs and budget? | The Offeror is required to provide their service in three tiered service levels (Bronze, Silver, and Gold). Commonwealth Agencies can then choose what level of service meets their business needs. The Offeror should review Appendix M - SLA Data Sheets (Availability and Time to Resolve SLAs) requirements for each service tier. The Offeror will be expected to also present their tiered service costs in the Appendix F - Cost Submittal (note: reference to service costs should <u>only</u> be included in Appendix F - Cost Submittal). |
| 104 | PART III-8 - Lot 1. D. Architecture and Integration, Pg 58. D-19. Will the Commonwealth consider a formal network assessment during the transition phase to verify the data network bandwidth estimates provided during the RFP phase is accurate? If the Commonwealth has completed a formal network assessment, will the results be provided to Offerors? | Yes. No, the Commonwealth has not completed a formal network assessment. |
| 105 | PART III-8 - Lot 1. E. Features and Functions, Tasks, UC Functionality, Pg 67. E-1.52. Can the Commonwealth further define user friendly and intuitive? | Simplistic with minimal need for instruction. Offerors will have the ability to showcase this during oral presentations. |
| 106 | PART III-8 - Lot 1. E. Features and Functions, Tasks, Recording, Pg 70. How long is the requirement to maintain the recorded meeting audio and video in archives? | The commonwealth requires a minimum of 30 days with an option to export to commonwealth storage. |
| 107 | Part VI. IT CONTRACT TERMS AND CONDITIONS. 12 E. Contract Integration. Given the complex nature of the services that the Commonwealth is requesting, such as service integration, new technology deployment, Cloud services, and third party integration, can the Commonwealth provide further clarification around the requirements, specifically to other terms (i.e. Click Through, Statements of Work, | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any additional terms and conditions the Offeror would like to add to the standard contract terms and conditions must be submitted with the proposal. The Commonwealth will not accept click through agreements or any other terms and conditions that are not part of the final contract between the Commonwealth and the selected offeror. |

Unified Communications Voice Services

| # | Question | Answer |
|-----|--|--|
| | PPMs, etc.) or any other terms associated with the user interaction including those from a third party? | |
| 108 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 6 Purchase Orders. Offeror's understanding is that all orders must be placed through the ESMS system; therefore, how would this section apply? Can the Commonwealth provide examples as to when it would apply? Can the Commonwealth provide an example of when the Purchasing Card might be used and is the amount negotiable? ((Group/General)) | All orders must be placed through ESMS, but the Commonwealth will use its ERP system (SAP-SRM) to create follow-on purchase orders which relate to the orders placed through ESMS. Section 6. Of the IT Contract Terms and Conditions covers the purchase orders which result from the ESMS orders. |
| 109 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 10. Information Technology Policies. Offeror has stringent / equivalent or greater IT policies – would the Commonwealth permit Offeror to follow our internal policies? | The selected Offeror must, at a minimum, meet the Commonwealth's requirements. |
| 110 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 12. Contract Integration, (e) Other terms unenforceable. Individual services may have specific obligations by Offeror and Commonwealth. How does the Commonwealth intend to integrate those terms into the agreement? For example, Statements of Work, or policies and procedures. | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any additional terms and conditions the Offeror would like to add to the standard contract terms and conditions must be submitted with the proposal. The Commonwealth will not accept click through agreements or any other terms and conditions that are not part of the final contract between the Commonwealth and the selected offeror. |
| 111 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 14. Transition. Offeror believes the Commonwealth's timeline is extremely aggressive. Is the Commonwealth willing to negotiate an extended timeline? Is the Commonwealth willing to entertain an Offeror's proposed timeline? | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror's proposal. |
| 112 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 18. Other Contractors. Can the Commonwealth clarify how it intends to ensure cooperation among contractors? | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror's proposal. |
| 113 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 1.f. Definitions. Can the Commonwealth provide further clarification regarding what Developed Works and Services you anticipate? | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror's proposal. |
| 114 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 26. Default. Can the Commonwealth provide further clarification regarding 26. (a) (iii) Unsatisfactory performance of the Services? | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror's proposal. |
| 115 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 13. Services (a). If provided product or service becomes commercially unavailable during the contract term, how does the Commonwealth recommend the Offeror address that under the terms and conditions of this contract. | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror's proposal. |
| 116 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 33. Contract Controversies. Can the Commonwealth propose an informal dispute resolution process for inclusion in this section prior to a formal dispute. | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror's proposal. |
| 117 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 34. Data Security. Regarding | The selected Offeror must, at a minimum, meet the Commonwealth's requirements. |

RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|--|
| | Information Technology Policies and Data Security policies, Offeror has stringent / equivalent or greater IT policies – would the Commonwealth permit Offeror to follow our internal policies? | |
| 118 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 36. PCI Security Compliance. Can the Commonwealth elaborate how this section might apply to the services in this RFP#3? | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror’s proposal. |
| 119 | Part VI. IT CONTRACT TERMS AND CONDITIONS. In General. Given the short RFP timeline and expedited transition timeline, would the Commonwealth consider use of previously negotiated contract terms and conditions? | No. |
| 120 | Part VI. IT CONTRACT TERMS AND CONDITIONS. General I-23. RFP item General I-23 (p.12), appears to be inconsistent with Section “I-23 Term of Contract” Please clarify? | Please clarify the question. |
| 121 | Part VI. IT CONTRACT TERMS AND CONDITIONS. RFP reference in 2(a) and 2(b). Due to the inherent evolutionary nature of technology, certain products are decommissioned and no longer commercially available, while new products are introduced. Please address the acceptable transition methodology to move from one technology or service to a replacement technology or service. | Reference Part III-10 of the RFP (Objections and Additions to Standard Contract Terms and Conditions). Any suggested revisions to the terms and conditions must be noted in the Offeror’s proposal. |
| 122 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 22 Billing Requirements, and Section 23. Payment. In RFP IT CONTRACT TERMS AND CONDITIONS Section 22 Billing Requirements, and Section 23. Payment, it appears that multiple invoices and payments are acceptable. Can the Commonwealth confirm this? | The Commonwealth requires a single invoice. |
| 123 | Part VI. IT CONTRACT TERMS AND CONDITIONS. Section 22 Billing Requirements, and Section 23. Payment. Does the Commonwealth require a single invoice for all services provided under this new contract? | Yes, the Commonwealth requires a single invoice. |
| 124 | Section III.8 item 18. Change Management, Pg 40. The Offeror shall provide a draft Change Management Implementation Plan which shall include: a) Contact information for change/release manager(s) and b) Standard change freeze windows. Please clarify what does the referenced “Standard change freeze windows” mean? | <p>“Standard change freeze windows” is akin to blackout periods. This requirement asks the Offeror to identify any specific windows of time during which, the Offeror cannot perform certain types of changes for a specific business reason.</p> <p>Offeror must follow Commonwealth policy.</p> |
| 125 | Lot 1. Part III-8. Service Delivery Management Tasks, Pg 29 and Pg 32. Service Desk - The selected Offeror (i.e., Supplier) shall provide an ITIL compliant Vendor Service Desk (VSD). The Supplier will integrate its service operations processes and service desk with the Commonwealth’s vendor-provided Enterprise Services Desk (ESD). The Supplier will also be required to integrate its CMDB with the enterprise level CMDB through the development of an integrated asset and configuration management (SACM) solution. Is the Service Desk being referenced TIER 1? If so, how does | The Commonwealth is expecting the Offeror of this RFP to propose and provide appropriately skilled and experienced service desk personnel based on the support needs for their proposed services within this RFP. The ESD (RFP #2) will be providing the initial incident triage and/or incident forwarding to the other telecom providers (RFP 3 – this RFP and RFP 1). |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|--|
| | the Commonwealth define Tier 1 with regards to the level and skill set of the call takers. | |
| 126 | Lot 1. Part III-8. Pg 58, item 4. The Offeror shall describe its proposed approach to providing licensing for Skype for Business that includes a review and potential leveraging of the Commonwealth's current Enterprise License Agreement (ELA). How does the Commonwealth acquire Microsoft licensing today? Will the Commonwealth be changing software resellers during the term of the contract? Is it expected that the Offeror will provide all licenses required? | Today the Commonwealth utilizes the existing software procurement contract. At this time it is unknown if the reseller will be changing during the term of the contract. The Commonwealth will provide Office365 licenses via its Enterprise Licensing Agreement, however if Offeror's proposed solution requires different licenses the Offeror is responsible for providing licenses. |
| 127 | Lot 1. Part III-8. E. Features and Functions, Recording, Pg 70. E1.71. How long is the requirement for storage? | The commonwealth requires a minimum of 30 days with an option to export to commonwealth storage. |
| 128 | Lot 1. Part III-8. E. Features and Functions, Pg 60. Skype for Business. Please provide the estimated quantities for the following: a. <input type="checkbox"/> users who will be enabled for Enterprise Voice b. <input type="checkbox"/> users who will be enabled for PSTN calling c. <input type="checkbox"/> users who will be enabled for Skype for Business to Skype for Business calling d. <input type="checkbox"/> users who will be enabled for mobility e. <input type="checkbox"/> users who will be enabled for video | All features and functions of Skype for Business, including but limited to PSTN calling, mobility, video, and skype to skype calling should be available to any user who subscribes to Skype for Business. |
| 129 | Lot 1. Part III-8. E. Features and Functions, Pg 60. Skype for Business. Is monitoring and archiving required? | This question is unclear. |
| 130 | Lot 1. Part III-8. E. Features and Functions, Pg 68. E-1.58. How long is it requirement to maintain the recorded meeting audio and video in archives? | The commonwealth requires a minimum of 30 days with an option to export to commonwealth storage. |
| 131 | Lot 1. Part III-8. E. Features and Functions, Pg 68. E-1.60. How many conferences will be held at any given time? | Conferences are dependent upon business needs. Routine peaks do not exceed a sum of 1000 participants at any given time, due to platform constraints. |
| 132 | Lot 1. Part III-8. E. Features and Functions, Pg 67. E-1.49 - Active Directory. What is your current active directory forest level? If unknown, what are the Microsoft server OS version for your domain controller infrastructure today? | Windows 2008 R2. |
| 133 | Lot 1. Part III-8. E. Features and Functions, Pg 63 and Pg 56. E-1.22 - Online MAC process. Is the desire for the online MAC to be an electronic interface between ESMS and the Offeror systems that process MACs. If the desire is not to build an interface between ESMS and the Offeror online MACs system how will ESMS inventory be reconciled to ensure inventory is accurate? | No, not at this time. There is currently no electronic interface between ESMS and the offeror systems. There is no planned interface. ESMS is the CMDB for all Commonwealth telecommunications services and equipment, and all of these services are billed from the ESMS. If it is not ordered through ESMS, it will not be provisioned, added to inventory, or billed in any Offeror systems. Any processes outside of ESMS or the replacement system are the responsibility of the Offeror. |
| 134 | Lot 1. Part III-8. Pg. 56. Skype for Business - general requirement. Is federation required with users outside of the Commonwealth? i.e. external users and/or other companies and entities that the Commonwealth does business with? | While this is not being leveraged at this time, it is being considered by the commonwealth. |
| 135 | Lot 2. Part III-8. Pg 75 General Question & D-2.4, Pg 77. D-2.4. To bid on Lot 2, is the requirement for the | Yes. Yes. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|--|
| | Offeror to provide the requested services to every location even in the event that some locations may not be served by the Offeror? In the event of that type of scenario, would the Commonwealth entertain an alternate option? | |
| 136 | Lot 2. Part III-8. Conventional Toll Free and Advanced Routing, Pg 80. If the Commonwealth requires any Toll Free features not defined on page 80 of the RFP, will the Commonwealth agree to add features at the applicable rates, in the future? | Selected offerors may utilize the contract change or amendment process to present additional features and functionality within scope of the contract. |
| 137 | Lot 3. Part III-8. A - Voice Conference, Pg 87. Voice conference Services (Office 365 users), Description. For the users who have Office 365, will they have access to the public internet to be able to make calls? | Yes. |
| 138 | All lots. Will the Commonwealth permit leveraging your Service Now or any other license(s) not identified or will the expectation be that the Offeror source their own license(s)? Please identify all potential licensing Offeror will be required to provide. | No license will be provided. |
| 139 | All Lots. Part I and Part III-1. Diagram Pg 2; Table Pg 20. The diagram on page 2 of the RFP shows SIP Trunking as Lot 2, however, the Cost Matrix and Table on page 20 of the RFP list SIP Trunking as Lot 1. Is SIP Trunking to be included in Lot 1, Lot 2 or both? | SIP Trunking is to be a part of Lot 1. |
| 140 | Appendix K. CHANGE MANAGEMENT PROCESS. Policy Statements: 4. All Changes must adhere to the approved maintenance windows. General Maintenance as defined in ITP-SYM010 provides for the ability to request General maintenance outside of windows which does not match the RFP where Submitter is required to email their Emergency CAB for Approval. Can Commonwealth please clarify which process follows the exceptions policy ITP-SYM010 and could be classified as Standard General Maintenance? | General maintenance requests would follow the same process as the Standard change. Note: In the past General maintenance is something the vendor is required to do to maintain the integrity of their network and the Commonwealth can't really prevent them from doing it. Following the Standard RFC process allows the vendor to complete the maintenance and provides the Commonwealth a vehicle to obtain documentation and notification. |
| 141 | Appendix K. CHANGE MANAGEMENT PROCESS. To implement Enterprise changes in a non-Enterprise window, the Change Submitter is to email their Emergency CAB the brief description of the change, impact of the change, change window timeframe and justification. An ECAB reviewer will reply to the request and copy the Change Manager with approval or rejection. For General Backbone Maintenance requests that are classified as Standard and that fall outside of the Standard ITP-SYM010 window, how does the following RFP statement apply? To implement Enterprise changes in a non-Enterprise window, the Change Submitter is to email their Emergency CAB the brief description of the change, impact of the change, change window timeframe and justification. An ECAB reviewer will reply to the request and copy the Change Manager with approval or rejection. | The approval of an ECAB member is not required. Approval can be given by the director responsible for the specific area being impacted or an individual designated by the Director. |
| 142 | Appendix K. CHANGE MANAGEMENT PROCESS. 1. Change Window - RFP references ITP-SYM010, which states -"Pre-approved, standard changes are exempt from blackout / freeze windows. Please clarify relative to RFP section 2 and the definition of | Approved Standards are exempt from being implemented during a Commonwealth Enterprise window. The definition of a Standard: Definition – A Standard change is pre-authorized by Change Management and follows an accepted and established procedure to provide a specific |

| # | Question | Answer |
|-----|--|---|
| | Standard? RFP references ITP-SYM010, which states -“Pre-approved, standard changes are exempt from blackout / freeze windows. | <p>change requirement. It is considered a routine task with low risk. Review and processing occurs entirely at the Functional Group level.</p> <p>Each CAB maintains a list of changes that it has approved to be classified as Standard changes. Standard changes must be nominated and pre-approved by the Functional CAB before submission as an approved standard. Once approved they no longer require authorization from the CAB on a request-by-request basis or CAB discussions.</p> <p>Characteristics of a standard change include all of the following:</p> <ol style="list-style-type: none"> 1. <input type="checkbox"/> A defined trigger to initiate the change. 2. <input type="checkbox"/> The type of change occurs frequently. 3. <input type="checkbox"/> Tasks are well known, documented and proven. 4. <input type="checkbox"/> Risk is low and always well understood. <p>Nomination</p> <ol style="list-style-type: none"> 1. <input type="checkbox"/> A change can be nominated as a Standard by providing a completed Change Request template to the Functional Change Manager. The template must be provided with all repeatable steps to install, test and back out the change. A general notification, if needed, is to be included in the template. Any special conditions, such as a defined window, are to be included in the template. The Functional Change Manager coordinates review and approval by the Functional CAB. Unapproved nominations should be discussed at a Functional CAB meeting as needed. <p>Provided all Functional CAB members approve, the change is then logged as a Standard change, given a unique identifier and individual change requests follow the Standard Change review. The Standard plan template and a list or log of approved Standard changes is maintained by each Functional CAB Change Manager.</p> |
| 143 | Appendix M. SLA Data Sheets. For all SLA requirements. There are no exclusions listed for issues outside of the offeror’s control (e.g. vendors from RFP #1, RFP #2, etc.). Will this be a general exclusion for all SLAs? | Offerors will not be responsible for issues determined by the Commonwealth to be out of the Offerors control. |
| 144 | Appendix M. SLA Data Sheets. For all SLA requirements. Can multiple SLAs apply to the same event? | In the event that multiple SLA’s apply the SLA with the higher credit will be used. |
| 145 | Appendix M. SLA Data Sheets. For all SLA requirements. In the event that a Commonwealth design change is requested to the environment that impacts the original service level risk assessment will the contractor have the ability to request a re-negotiation of the contracted SLAs? | Yes. The SLA methodology provides details of requesting adds, changes, and modifications to SLAs. |
| 146 | Appendix M and Part III -8. SLA Data Sheets. Pg 53 - Service Level Agreement – 01 Time to Deliver – Agency. What determines a service being delivered on time? Is it the agreed upon standard interval of the supplier or the requested due date from the order submitter regardless of the standard interval? | <p>Standard interval determines if the service was delivered on time.</p> <p>The standard interval always applies.</p> |
| 147 | Appendix M and Part III -8. SLA Data Sheets. Pg 53 - Service Level Agreement – 01 Time to Deliver – Agency. In the event the Offeror does not have | At the Commonwealth’s sole discretion, it may waive or extend an SLA. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|---|
| | available facilities to the location (e.g. fiber build, equipment add, etc.) will those orders be accepted as exclusions to SLA – 01. | |
| 148 | Appendix M and Part III -8. SLA Data Sheets. Pg 53 - Service Level Agreement – 01 Time to Deliver – Agency -- During negotiation the Commonwealth would be willing to discuss variables of the SLAs with the expectation that negotiated changes in SLA variables would be met with a corresponding reduction in service cost. SLA-1 has an extremely high target of 99% related to industry standards. Can the Commonwealth provide a potential expected cost reduction % in the event the Offeror were to propose 98% (a reduction of 1% on the target) | It will be discussed in negotiations. |
| 149 | Appendix M and Part III -8. SLA Data Sheets. Pg 53 - Service Level Agreement – 01 Time to Deliver – Agency. Is the Remedy credit of “one month for cost of services” for all voice services provided to the customer or just the monthly cost for the order(s) that were missed in that given month? | Remedy credit has been changed to a fixed rate per missed order. Please see revised Appendix M – SLA Data Sheets. |
| 150 | Appendix M. Change Management Successfulness. SLA - 03 -- Exclusions do not include Commonwealth causes for a failed change. Exclusions do not include Commonwealth causes for a failed change. Please explain how these would be excluded. | Commonwealth will consider waiving an SLA in the event it is determined by the Commonwealth that the failure is the fault of the Commonwealth. Please see revised Appendix M – SLA Data Sheets. |
| 151 | Appendix M. Change Management Successfulness. SLA – 03. There are times when the Commonwealth may deem a required general maintenance requirement on shared infrastructure as unauthorized however the Offeror may deem the change a requirement to maintain the health of the network for all customers. How will these events be considered as exclusions? | As long as offeror follows the Change Management process and the maintenance is approved by the Commonwealth, then we would exclude general maintenance items. |
| 152 | Appendix M. Change Management Timeliness. SLA – 03. Are these times in business hours/day or calendar hours/days as Hours/Day of measurement conflict the reporting format that request business hours to complete? | SLAs are calendar days/hours. In the Detail portion of the Reporting format, “Business days” should be “Calendar days.is a typo and should be deleted. Please see revised Appendix M – SLA Data Sheets. |
| 153 | Appendix M. Change Management Timeliness. SLA – 03. Can we assume that if the Commonwealth requests an interval longer than the time chart that change would be excluded from being considered outside of the approved timeframe allotted for the change? | Yes. |
| 154 | Appendix M. Change Management Timeliness. SLA – 03. Are Commonwealth blackouts considered customer hold time? | Yes. |
| 155 | Appendix M. Change Management Timeliness. SLA – 03. Are Offeror’s blackouts considered exclusion if advanced notice of that blackout is provided? | Waiver would be considered and must be approved by the Commonwealth. |
| 156 | Appendix M. Change Management Timeliness. SLA - 03. Do both the Commonwealth and Offeror define what priority a particular change is placed in? | Commonwealth will determine priority. |
| 157 | Appendix M. Chronic Problems. SLA – 04. There may be situations where the 1st indication of a customer impact is from someone within the Commonwealth. That may launch the incident investigation where it is | The 1 st indication of the potential impact, regardless of who provides initial notification. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|--|
| | then identified that the issue has an enterprise impact. When does the clock start for this type of reactive alert? | |
| 158 | Appendix M. Chronic Problems. SLA – 04. There are events that may trigger a Configuration item (CI) as a potential chronic. Does this metric allow for the investigation of those items to determine if this CI is an actual chronic issue vs. false positive? | The Chronic report should indicate whether or not the item is a false positive and should be investigated. This SLA is only a KM, however, the expectation is that the vendor will investigate and report findings. The vendor must also report the corrective actions completed or the corrective actions scheduled to correct the situation in a timely manner. The vendor is still responsible for other SLAs that this CI might be affecting |
| 159 | Appendix M. Chronic Problems. SLA – 04. Is customer hold time inclusive of customer site problems (i.e. power issues that generated a proactive ticket). | Yes |
| 160 | Appendix M. Chronic Problems. SLA – 04. With proactive management, there are numerous events that can be non-service impacting that generate a ticket (threshold alarms, etc.) Would these tickets be excluded from the 60 day rolling period and only circuit/service impacting events would count against the >2 number. | Yes. |
| 161 | Appendix M. Incident Notification. SLA-05. What is the method of the alert to meet the requirement (email, phone call, etc.?) | The Offeror should describe what methods of notification they can support. Final enterprise incident management and notification process will be determined and addressed during contract negotiation. |
| 162 | Appendix M. Incident Notification. SLA-05. The diagrams and verbiage in the RFP state that the ESD from RFP#2 is required to provide notifications to the Commonwealth on Incident Notifications. Is the intention of this SLA for the Offeror of this RFP to alert the ESD in the required 30 minute timeframe? How will the Commonwealth monitor this metric if the communication alert from the Offeror of this RFP should be to the ESD? | Yes. It is the intention of this SLA to alert ESD within 30 minutes. This will be monitored through the ESD Service Desk. |
| 163 | Appendix M. Availability (Voice Services) – Agency (per location); Time to Resolve – Agency. SLA - 09 and 10. Can the Commonwealth provide their definition of Gold, Silver and Bronze as it related to the minimum delivery requirements to how the service will be delivered to the location? As an example, typically availability targets (<5 mins or 99.999%) for Gold Level Service requires a configuration that has redundant diverse circuits with redundant CPE to ensure the highest levels of availability. Will the Commonwealth require agencies to orders services with the appropriate configurations for the tiers of services represented for this SLA? | Yes. Offerors must identify the configuration requirements for each tiered service in their responses. |
| 164 | Appendix H. Compliance Matrix - Lot 1, D-G. H-2 E-1.4. Please describe the network access requested in this requirement. | Question is unclear. |
| 165 | Appendix W. Milestone, Pg 5 AND Item G-1.3 on Pg 74. Defines transition milestones of 180 calendar days from Contract Effective Date for Unified Communications & VoIP and 120 calendar days from contract effective date for Traditional Voice Services. Item G-1.3 on page 74 of the RFP document states “The Offeror shall complete all transition activities no later | The question is unclear. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|--|
| | than October 2019". Is the intention that this requirement supersedes the standard Force Majeure language in the agreement that protects the Offeror from such circumstances? | |
| 166 | Appendix O. In General, SLA METHODOLOGY -- 9. C. Service Level Obligations. The Commonwealth, must in its sole discretion, determines whether SLA relief should be granted and the period for such relief (if any) and its decision in this respect must not be subject to dispute resolution. Is the intention that this requirement supersedes the standard Force Majeure language in the agreement that protects the Offeror from such circumstances? | The question is unclear. |
| 167 | Appendix O. In General, SLA METHODOLOGY -- 9. C. Service Level Obligations. Will the Commonwealth negotiate terms and conditions of the SLA definitions or penalties during the contract phase? | Yes |
| 168 | Appendix O. In General - SLA METHODOLOGY. Can the Commonwealth provide examples of scenarios where temporary SLA relief would likely be deemed acceptable? What is the criteria the Commonwealth would use in determining whether temporary relief should be granted? How will the date which any temporary SLA relief ends be determined? | Relief is granted through a contract waiver request. Follows same process as Contract Change and up to the Commonwealths discretion |
| 169 | Appendix W. Will the Offeror's transition and the liquidated damages be dependent on the other RFPs? | No. |
| 170 | Appendix W. How does the Commonwealth foresee third parties/agencies/other contractors impacting the Milestone Due Dates? If a third party or Commonwealth agency/contractor impacts the transition plan, how will Appendix W be modified? | At the Commonwealths sole discretion the milestone due dates may be adjusted. |
| 171 | Appendix H-3. Item D-2.9, Pg 77 - Lot 2. "The Offeror shall provide point-to-point, two wire and four wire services." Please define the 2-wire and 4-wire services being requested. There is no line item to price these services in the Cost Matrix. Will this be negotiated after award? | Two wire services are required for the use of door alarms and radio towers. Four wire circuits are required for the use of connecting a PSP station to a remote radio tower. Please see updated Appendix F - Cost Submittal which reflects these line items. |
| 172 | Appendix F & H. Cost Submittal/Compliance Matrix - Compliance Matrix Lot 2. Appendix F - Lot 2, Row 13 requests pricing for Conferencing - AND -- Appendix H-3, D-255 states "The Offeror shall provide a voice conferencing solution that can be utilized independent of any unified communication for 250 attendees or more. What unit of measure is being requested for the quantities of 18,000, 9,000 and 1,000? How do these items relate? | The quantities refer to an example number of users for each tier for evaluation purposes. The 250 is the capacity of each conference session. |
| 173 | Appendix F. Cost Submittal. After initial contract award, what is the intent of the Commonwealth to handle environment changes and/or required expansion (e.g. additional services)? | This will be handled by the Contract Change Control process to add additional service(s) with associated cost to the contract. |
| 174 | What if anything must be submitted via the PA Supplier portal (http://www.pasupplierportal.state.pa.us) as the solicitation website (http://www.emarketplace.state.pa.us/Solicitations.aspx?SID=6100039274) states "Responses to this bid will | Offerors must submit the material required in Part I-12 of the RFP to the Issuing Office in hard copy format. |

|-----|--|---|
| | only be accepted electronically. You must go to http://www.pasupplierportal.state.pa.us to complete this bid"? | |
| 175 | Is it acceptable to purchase any missing insurance coverage or to increase our coverage \$ amounts to those specified within this RFP after contract award? | The selected Offeror must have the required insurance coverage at the time of contract award. |
| 176 | In the spirit of this paragraph "Industry leading voice and unified communications services will be required from contract signature and must continue through the duration of the full contract period, which has the potential of being ten (10) years. Therefore, it is crucial for the selected Offeror to stay abreast of, and deliver, advances in security practices, networking technologies, and voice and unified communications services.", Would the Commonwealth be willing to provide the Datacenter footprint required to support a Supplier's Premise Hosted Skype for Business Solution until Supplier can migrate CoPA into Microsoft's Cloud PBX once it is in the best interest of CoPA to leverage MS VoIP services natively? | No. |
| 177 | Is it acceptable for Supplier to provide Centrex "like" services that meet the requirements specified in the RFP using a premise gateway and analog phones? | The commonwealth will entertain any proposed solutions that meet or exceeds the requirements within this RFP. |
| 178 | Is it the CoPA's intent for the Lot-2 provider chosen to provide break fix maintenance and MAC work on existing legacy/incumbent PBX systems? | No |
| 179 | Is the MAC work and support services in Lot-2 limited to the Voice Services being provided and not for the attached systems? | Yes |
| 180 | The RFP states that all offeror's or Supplier's of services will need to adhere to all ITP's as such, is it required that hosting providers have Fedramp and/or SSAE-16 SOC2/Type II certifications for services, products and their datacenter? | <p>The following certifications have been identified but should not be limited to:</p> <p>Required:</p> <ul style="list-style-type: none"> • <input type="checkbox"/> Data in cloud environment needs to be FEDRAMP certified • <input type="checkbox"/> SOC2 <p>Preferred:</p> <ul style="list-style-type: none"> • <input type="checkbox"/> SAS70 • <input type="checkbox"/> SAE16 • <input type="checkbox"/> SOC3 • <input type="checkbox"/> Data in cloud environment needs to be ISO 2700 series compliant |
| 181 | Meeting CJIS requirements is a self-assured process without any formalized testing or certification requirements, and as such is the Commonwealth willing to accept any offeror's self-assurance of compliance or will the Commonwealth require any third party verification of CJIS stipulated practices or measures being in place? | Offerors should review CJIS requirements and determine if their proposed solution is compliant. The Commonwealth will make the final determination on whether CJIS requirements have been met. |
| 182 | The RFP States that there is only 10 adoption of the existing VoIP system, it states that there are 45,000 VoIP system users that will, and 28,000 PBX Users that may be transitioned. We need actual numbers to meet requirements of D-1. 9 What is the total potential number of users? What is expected year 1? | 45,000+ This is dependent on the Offeror's transition plan. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|---|
| 183 | From "E-1.1 The Offeror shall provide the ability to route calls from the Offeror's Auto Attendant platform to any local, long distance, or toll free number". Must this be a dynamic number, that may be entered by the calling party which could lead to toll fraud or more likely an administered number/destination for which the CoPA has the responsibility to manage for which any toll charges are the still the responsibility of the CoPA? | These numbers are not intended to be dynamic. These are to be administrated numbers such as an auto attendant programmed option from a menu. |
| 184 | May we assume that SIP resources for all locations will ingress/egress through the two requested geographically diverse demarcation points, and that from that point packet will traverse the CopaNET or other data networks provisioned within RFP 2? | Please refer to RFP Section D. Architecture and Integration (D-1.8) The Offeror's Lot 1 solution will connect to the Commonwealth's enterprise data network via the two geographically diverse demarcation points. All locations are connected to the Commonwealth's enterprise data network. |
| 185 | Is COPA looking for a Skype for Business solution that also replaces traditional voice services? | For some, but not all users, full dialing capability through Skype may replace traditional voice services. |
| 186 | Is there an existing Enterprise Agreement with Microsoft? If so, how many licenses and what type (i.e. E5) have been purchased | Yes. Currently, there are approximately 73,000 licenses, type E3 along with approximately 16,700 Kiosk. |
| 187 | What is the migration time frame of the approximately 28,000 legacy voice users, to the UC solution? | There is no definitive timeline. |
| 188 | How often does COPA do conference calls over 1000 users? | At this time, it is limited in scope. We have performed less than 10 in 2016. |
| 189 | What are the total number audio conferencing minutes used today or estimated in year 1? | This information is not available to the commonwealth. |
| 190 | Can you please provide a use case example for the following feature in Appendix H.2-Compliance Matrix-Lot 1 D-G: The Offeror shall provide automatic dialing of a pre-determined number as a feature when a designated phone goes "off hook" | Hallway phone line dials 911 when taken off hook. |
| 191 | Please identify the Commonwealth of Pennsylvania's published IT Conferencing Standard under which MS Skype for Business is formally named as the sole brand standard for Conferencing for the Commonwealth of Pennsylvania. [The last published standard, COPA Real Time Web Conferencing IT Standard (STD – APP004B (2006, revised 2010), does not contain any reference to Microsoft Skype for Business as compliant with current policy standards. The last published IT desktop application standard, ITP-APP036, identifies Microsoft Office (Word, PPT, EXCEL) under the standard, but contains no designation of Microsoft Skype for Business as a Conferencing Standard.] | The ITPs are in the process of being updated. |
| 192 | Please identify the Commonwealth of Pennsylvania's published IT Unified Communications Standard under which MS Skype for Business is formally named as the sole brand standard for Unified Communications and collateral voice technologies for the Commonwealth of Pennsylvania. Please clarify the key functional/business requirements of that policy that drive the Microsoft SfB integration requirements in this bid. | The ITPs are in the process of being updated. |
| 193 | Alternatively, in the absence of a published UC brand standard, please remove the brand-specific reference, i.e., "... provide a fully managed, vendor hosted, VoIP | Offeror are to propose a solution using Microsoft SfB. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|---|
| | solution that includes an integrated [MS Skype for Business] UC platform.” | |
| 194 | Appendix H.2 Compliance Matrix (Tab D, Architecture & Integration = D-1.1). The solution shall provide full integration and federation with the Commonwealth O365 environment. The requirement enforces Microsoft proprietary control over the proposed solution as updates to code can be used to render competitor solutions incompatible. Please define the specific required elements of “federation” sought from the desired solution | The Offeror’s solution should provide a consistent user experience for independent SfB environments provided by vendor and/or existing Commonwealth O365 environment. |
| 195 | Appendix H.2 Compliance Matrix (Tab E, Features & Functions, Line E-1.44). The Offeror shall provide options for line referrals. At a minimum, the options should include six (6) and twelve (12) months. Please provide detailed clarification as to the term “Line referrals” | Automated message that directs callers to a new number. For example, “I’m sorry this number is no longer in service, please hang up and dial…” |
| 196 | Appendix H.2 Compliance Matrix (Tab E, Features & Functions, Line E-1.47). The Offeror acknowledges that it is providing a Microsoft Skype for Business (MS SfB) unified communications platform that integrates with its proposed VOIP solution. This requirement constitutes a named-brand restriction, limiting respondents to only a Microsoft Unified Communications platform. Given the limiting effect of this requirement on open market competition, please provide the Commonwealth’s formal Unified Communications Standard policy document under which Microsoft was determined to be the sole brand solution for Unified Communications. Alternatively, in the absence of a published UC brand standard, please remove the brand-specific reference. | Refer to the Commonwealth’s ITPs mentioned in Part VI, Section 10 of the RFP. Offerors are to propose a solution using Microsoft SfB. |
| 197 | Appendix H.2 Compliance Matrix (Tab E, Features & Functions, Line E-1.47). The Offeror acknowledges that it is providing a Microsoft Skype for Business (MS SfB) unified communications platform that integrates with its proposed VOIP solution. Appendix H.2 Compliance Matrix (Tab E, Features & Functions, Line E-1.48) The Offeror’s UC solution shall support Skype for Business Mobility. The Commonwealth is looking for an offeror to provide a Hosted VoIP solution that integrates with Skype for Business Platform (RFP Page 66) that is also hosted by the Offeror. Please clarify if Skype for Business is being hosted in the cloud today via Microsoft for the Commonwealth? Also, based on the above, it appears that the offeror is required to host Skype for Business in the Offeror’s cloud, NOT Microsoft. However, further down on RFP, page 66, the following statement is provided which appears that Skype for Business is still hosted via Microsoft: | The Offeror is to provide a solution that is directly connected to the commonwealth’s Microsoft Office 365 and Skype for Business or provide an Offeror hosted solution that is federated with our existing Skype for Business environment. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|---|
| | <p>(29.) The Offeror shall describe how it proposes to connect to MS SfB.</p> <p>Please clarify.</p> | |
| 198 | <p>Appendix H.2 Compliance Matrix (Tab E, Features & Functions, Line E-1.57)</p> <p>The Offeror shall provide a conferencing solution (voice/video/ collaboration) that integrates with the proposed UC (Skype for Business) and VoIP services.</p> <p>This requirement constitutes a named-brand restriction, limiting respondents to only a Microsoft Unified Communications platform. Given the limiting effect of this requirement on open market competition, please provide the Commonwealth's formal Unified Communications Standard policy document under which Microsoft was determined to be the sole brand solution for Unified Communications.</p> <p>Alternatively, in the absence of a published UC brand standard, please remove the brand-specific reference, i.e., "... that integrates with the proposed UC [Skype for Business] and VoIP Solution."</p> | <p>Offerors are to propose a solution using Microsoft SfB.</p> |
| 199 | <p>Appendix H.2 Compliance Matrix (Tab E Features & Functions, Line E-1.74)</p> <p>The Offeror shall provide multiple non-proprietary softphone solutions desktop and mobile phone compatibility. Solutions shall be compatible with Skype for Business.</p> <p>This "non-proprietary" hardware requirement directly conflicts with RFP requirements for equipment to run Microsoft operating systems (proprietary software). Please clarify which is the governing provision – open, non-proprietary, or proprietary MS O/S.</p> | <p>There is no requirement for hardware to run Microsoft operating systems.</p> |
| 200 | <p>Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 9)</p> <ul style="list-style-type: none"> • <input type="checkbox"/> Open SIP standard non-proprietary equipment. • <input type="checkbox"/> Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 11) • <input type="checkbox"/> Skype for Business/O365 certified for on premise or cloud solution <p>These two requirements are in conflict with each other (one requiring non-proprietary equipment, the other requiring the equipment to run proprietary software). Furthermore, the requirement for the equipment to be Microsoft certified allows only 15 phones to be proposed and eliminates industry leading solutions. Please clarify.</p> | <p>Skype for Business/O365 certified for on premise or cloud solution is "Nice to Have".</p> <p>See Addendum for the updated Appendix S that modifies the requirement to a "Nice to Have".</p> |
| 201 | <p>Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 15). Skype for Business like user interface. Please provide more detail describing the underlying functional requirements you are requiring, e.g., lines, speed dial, abbreviated dials, etc.</p> | <p>It's the commonwealth's desire to give the end users a consistent user experience. A Skype for Business like interface should mimic features and functions that are familiar to Skype users.</p> <p>See Addendum for the updated Appendix S that modifies the requirement to a "Nice to Have".</p> |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|---|
| 202 | Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 31). Ability for users to sign in to any phone using SFB credentials will all features "following". Other industry solutions offer "follow me" features, e.g., user profiles, lines, speed/abbreviated dials. Please provide additional details on the required features to "follow me" and eliminate the specific reference to "SFB" | The Commonwealth's Unified Communication tool has been defined as Skype for Business. |
| 203 | Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 38). Ability to access Skype for Business directory. Skype for Business directory is an active directory. Functional equivalency can be offered for an active directory without reference to the proprietary MS SFB. Please remove the Skype for Business directory reference. Alternatively, please provide detail describing the key functional requirements, e.g., active directory, etc.) | The Commonwealth's Unified Communication tool has been defined as Skype for Business. |
| 204 | Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 39). Inbound caller ID synced with Skype Directory for internal calls. Skype for Business directory is an active directory. Functional equivalency can be offered for an active directory without reference to the proprietary MS SFB. Please remove the Skype for Business directory reference. | The Commonwealth's Unified Communication tool has been defined as Skype for Business. |
| 205 | Appendix S Hardware Matrix (Lot 1- Desk Phones, Line 41). Skype for Business favorites automatically sync between phone and SFB client. Equivalent functionality can be achieved by multiple solutions in the marketplace, without the brand-specific reference to SFB. Please eliminate reference to MS SFB | The Commonwealth's Unified Communication tool has been defined as Skype for Business. |
| 206 | Appendix S Hardware Matrix (Lot 1- Conference Phones, Line 10).Skype for Business/O365 certified for on prem or cloud solution. Please refer to question 4 previously (refer to question 197) | This question is unclear. |
| 207 | Appendix S Hardware Matrix (Lot 1- Conference Phones, Line 12). Skype for Business/ O365 certified for on prem or cloud solution. Please refer to question 4 previously (refer to question 197) | This question is unclear. |
| 208 | Appendix S Hardware Matrix (Lot 1- Soft Phones, Line 10). Skype for Business/O365 compatible. Please refer to question 4 previously (refer to question 197). | This question is unclear. |
| 209 | III-5. Personnel, A. Offeror Personnel Key staff should have at least three (3) years of detailed experience working with the Offeror's proposed solution. Exceptions may be made for new and emerging technologies. Prior references are required for the proposed solution which evidence a minimum of 3 years of working with the proposed solution which is a minimum bar given that these technologies are not "emerging technologies" and have been well established in the market place – some for more than 10 years. However, the Commonwealth has indicated it can consider a waiver of this requirement. The 3 year minimum threshold is appropriate given the size and complexity of the Commonwealth's business | No question asked. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|---|
| | <p>enterprise. It is particularly critical for the public safety mission that the solution not be unproven. Anything less than that would allow unproven entrants into the marketplace which could pose significant downtown and risk to the business of the Commonwealth. Allowing a solution with less than 3 years track record may allow the Commonwealth the Commonwealth to be the “test case” for new and unproven technologies. We respectfully recommend that a minimum of 3 years of proven track record be required, without waiver.</p> | |
| 210 | <p>General. Are there any requirements for the unified communications solution to integrate into standards-based video for state-owned standards-based video endpoints, external (B2B) organizations with standards-based video or to web-based conferencing solutions that provide for standards-based video?</p> | <p>While it is not a requirement, the commonwealth will welcome Offeror’s proposals.</p> |
| 211 | <p>Appendix Q. In reviewing Appendix Q (VoIP Service Locations), additional information is required to adequately determine whether or not VoIP services can be provided and how much each location will cost. Could you please provide the following information for both tabs in Appendix Q:</p> <p>Data Information:</p> <ul style="list-style-type: none"> a. <input type="checkbox"/> Information such as T1, T3, Broadband etc. and what speed is provided along with any QoS in place today from the Service Provider. b. <input type="checkbox"/> Does the Data Transport connect back to Harrisburg, PA or is it for Internet Only? c. <input type="checkbox"/> Is there a Router in place today? If so please identify the Make, Model of this router and the interfaces installed. If the router is due for a refresh soon, please identify the new router’s make, model and the interfaces that will be installed. <p>Voice Information:</p> <ul style="list-style-type: none"> a. <input type="checkbox"/> Information such as Analog, T1 (CAS or PRI), Number of Circuits, DID blocks for each location. b. <input type="checkbox"/> Number of Users/Handsets at the location c. <input type="checkbox"/> Number of Conference Phones at the location d. <input type="checkbox"/> Is overhead paging required at the location? Is there a system in place today and if so what is the current system (Valcom, Bogen, etc.). Please describe the type of interface that can be used to integrate into the current system (Analog, IP, etc.) e. <input type="checkbox"/> Is Voice Survivability a requirement at the location? f. <input type="checkbox"/> Are Analog Fax lines a requirement at the location? If so how many are needed? g. <input type="checkbox"/> Is there a front desk attendant(s) at the location? If so, please describe how they perform their duties. Do they use a PC based | <p>Data Information:</p> <p>a., b., c. – The Offeror’s proposed solution should include information on specific network requirements for their VoIP services to connect to the Commonwealth enterprise network and Agency locations.</p> <p>Voice Information:</p> <p>a. through h. – Site specifics will be provided upon contract award.</p> <p>i. – The commonwealth requires a minimum of 30 days with an option to export to commonwealth storage.</p> |

| | <p>Attendant console, Phone with expansion module (how many buttons), etc. Please describe the features that the front desk personnel use (Forward, Transfer, Conference, Night Bells, Voicemail, Busy Lamp Fields, etc.)</p> <p>h. <input type="checkbox"/> Please identify the sites that have the Alarm and Monitoring Analog requirements and how many analog circuits are there today.</p> <p>i. <input type="checkbox"/> Please describe your recording requirements in more detail. Does every call have to be recorded or is it a subset of calls? How long is your retention requirement for the recordings? Please identify in Appendix Q the number of users per site that will require the ability to record their calls.</p> | |
| 212 | Lot 3 of RFP #3, Page 87. A-3.1. The Offeror shall provide a voice conferencing solution that integrates with a user's currently deployed Office365. This service will provide the PSTN conferencing capability that integrates with O365 and Skype for Business. | This question is unclear. |
| 213 | Lot 3 of RFP #3, Page 87. A-3.2. The Offeror shall provide PSTN conferencing that will enable users access to voice conferences via PSTN Dial In. | This question is unclear. |
| 214 | Attachment 2 "SAMPLE BUSINESS ASSOCIATE AGREEMENT" – Business Associate Agreements as provided by Agencies may differ: After contract award (and for the purposes of HIPAA, PHI and PCI controls), will the Offerors be contracting for Transition Services and Managed Services with the Commonwealth via a centralized authorized entity such as DGS or the Office of Administration – The Issuing Office. Alternatively, will the Supplier be contracting directly with individual Agencies of the Commonwealth? | The selected offeror will contract with the Office of Administration. |
| 215 | Part III-8 Lot 1 - UC and VoIP Services. Are all 45,000 current VoIP users utilizing a common single call control / call processing platform from a single vendor or does the current VoIP environment consist of multiple different call control / call processing platform(s) from multiple vendors? Can the Commonwealth share the types of existing VoIP platforms and names of manufacturers that are currently in use? Is it the intent of the Commonwealth to replace the existing call control / call processing platform? | The current IP solution is provided by a vendor. The current solution is Unify supplied OpenScope V7 IP/PBX. Through this RFP, it is the intent of the commonwealth to replace the existing system. |
| 216 | Part I-3 Overview of Project. Are the Commonwealth's Call Centers, Contact Center Agents and Supervisors utilizing the existing VoIP call control / call processing platform(s)? | Yes. |
| 217 | Part III-1 Technical submittal Requirements. Do the Auto Attendants for Lot 1 and Lot 2 require IVR-like speech-recognition / text to speech capabilities? | While this is not a requirement, the commonwealth will welcome Offeror's proposed solutions. |
| 218 | Part III-8 – Wi-Fi Handsets. Will the Commonwealth be responsible for the configuration, operation, | Yes, the commonwealth will be responsible for Wi-Fi infrastructure. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|--|
| | management of all Wi-Fi network infrastructure (WAPs, WLAN Controllers, licensing etc.) that will be required at the Commonwealth sites to support Wi-Fi handsets? | |
| 219 | Part III-8 – Leveraging existing Enterprise Licensing Agreements. Can the Commonwealth share the scope, volume and terms of their current Enterprise License Agreements (ELAs) with existing IT, UC, VoIP manufacturer solution providers that are / or maybe relevant to the initiatives for new hosted UC/VoIP solutions supporting state agencies, business partners and citizens throughout the Commonwealth? | The information will be shared with the successful Offeror. |
| 220 | Part III-8 – SIP Trunks. Do the existing VoIP call control / call processing platform(s) utilize centralized SIP trunks for PSTN connectivity? | Yes. |
| 221 | Part III-8 – FAX. Does the Commonwealth and agencies have standards for FAX in VoIP environments – run t.38 FAX, retain FAX machines on dedicated 1MB POTs lines or to utilize FAX servers wherever possible? | The commonwealth currently utilizes standard POTS lines for fax services, or a commonwealth maintained fax server. |
| 222 | Part III-8 – Analog Devices. Should the offeror include SIP based Analog VoIP Gateway hardware for supporting analog FXS end devices (e.g. analog phones, overhead paging systems) in the site models and in cost models? | The commonwealth will entertain any proposed solutions that meet or exceeds the requirements within this RFP. |
| 223 | Hardware Matrix (Appendix S) and Cost Submittal (Appendix F). Please clarify the intent and requirements for Desk phones / Conference Phones in Lot 2 for traditional voice PBX/ Key systems. Is the offeror expected to specify and price up to six proposed devices as non-proprietary SIP handsets in Lot 2 that may be compatible with all existing but presumably traditional TDM based PBX/Key systems that are listed in Appendix R – Compatible Hardware? The table included in Part III-1 “Requirements” references trunk lines for Lot 2 but does not reference endpoints - handsets, etc. - for Lot 2. Please clarify. | No, agencies will procure hardware related to PBX/Key systems via an existing Commonwealth contract. |
| 224 | Cost Submittal (Appendix F). Does the reference to Gold, Silver and Bronze (Base) in the Cost Submittal spreadsheet (Appendix F) have the same meaning as the criteria for Gold, Silver and Bronze definitions associated with SLA -09 Availability and SLA-10 Time to Resolve as described in Appendix M (SLA Data Sheets)? Or does the reference to Gold, Silver and Bronze (Base) in the Cost Submittal spreadsheet (Appendix F) refer to something else? | They have the same meaning. |
| 225 | SLA Data Sheets (Appendix M). For “Metric Inclusion” section of SLA - 09 Availability (Voice Services) - Agency (per location should “Bronze < 2.5 outage/degraded hours (240 min) in a calendar month” actually state “Bronze < 2.5 outage/degraded hours (150 min) in a calendar month”? | Yes. Please see revised Appendix M – SLA Data Sheets |
| 226 | Skype for Business. Are there any regulatory/legal/company requirements around: a. <input type="checkbox"/> Content sent in an IM (i.e. limiting attachments? Personal information? | a. <input type="checkbox"/> No. b. <input type="checkbox"/> Yes, in compliance with agency specific retention guidelines. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|---|
| | <p>b. <input type="checkbox"/> How long data needs to be retained (conversations)</p> <p>c. <input type="checkbox"/> Will persistent chat be utilized? Will it have retention requirements?</p> <p>d. <input type="checkbox"/> Is there a need for data encryption?</p> <p>e. <input type="checkbox"/> Requirements around nationality of support staff?</p> | <p>c. <input type="checkbox"/> Persistent chat is not utilized at this time, but will be entertained in the future.</p> <p>d. <input type="checkbox"/> Yes, per IRS Publication 1075.</p> <p>e. <input type="checkbox"/> Service desk shall be located within the United States.</p> |
| 227 | Skype for Business. Are all users of the system US based? | Yes. |
| 228 | Skype for Business. Is there a current identity management tool in place to manage account (AD) creation? | Yes. |
| 229 | Skype for Business. Does the Commonwealth have E5 licensing in their enterprise agreement? How many seats? | No. |
| 230 | Skype for Business. What will drive users to subscribe to the SfB UC platform? Will locations/sites have the ability to move or not move to the new platform? | Following transition Skype for Business, it will be the single unified communication and collaboration tool for commonwealth use. While agencies will not be required to leverage these tools, this will be the sole offering. All existing IPT/ UC subscribers will be required to transition to the selected offerors solution. |
| 231 | Skype for Business. For unified messaging, are the users requiring UM on O365 Exchange? | Yes |
| 232 | <p>Skype for Business</p> <p>a. <input type="checkbox"/> What is the current UC platform? Is there a road map for migration off the current solution?</p> <p>b. <input type="checkbox"/> Will there need to be a period of co-existence between current and new UC solution?</p> | <p>a. <input type="checkbox"/> The current UC platform is Unify OpenScape V7. The migration off this platform will be solely dependent upon the award of this RFP.</p> <p>b. <input type="checkbox"/> Yes, but interoperability between solutions is not required.</p> |
| 233 | Skype for Business. Has O365 been evaluated and or eliminated as an option for Enterprise Voice? | The commonwealth has been a user of Skype for Business, in varying degrees, for several years. It has not been eliminated. |
| 234 | <p>RFP Reference</p> <p>Appendix R - Compatible Hardware Requirements (noted as Payphone Locations in the Instructions tab)</p> <p>Requirement</p> <p>Compatible Hardware Reqs Tab</p> <p>Question</p> <p>Lines 24 and 25 for PennDOT show "Spreadsheet Attached". Is there PennDOT inventory that should be included in Appendix R to determine compatibility?</p> | Appendix R instructions tab had the incorrect label. It should read - Appendix R - Compatible Hardware Requirements. Payphone locations can be found in Appendix V - Pay Phone Locations |
| 235 | <p>RFP Reference</p> <p>Lot 1, Tab 2</p> <p>Requirement</p> <p>Lot 1 Softphones</p> <p>Question</p> <p>"Wireless and Wired Headset Softphones" are listed on Tab 4 -Lot 1 Softphones. Should there be a separate Tab for Lot 1 for Headsets, like there is for Lot 2?</p> | See updated Appendix S – Hardware Matrix. Renamed Lot 1 Softphone tab to Lot 1 - Headsets |
| 236 | <p>RFP Reference</p> <p>Lot 2, Tab 3</p> <p>Requirement</p> | See updated Appendix S – Hardware Matrix. Renamed reference to softphones for Lot 2. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|---|
| | <p>Lot 2 Headsets</p> <p>Question The Lot 2 Headset tab lists Wireless and Wired Headset Softphones. Does this need to be updated to remove the reference to "softphones"?</p> | |
| 237 | Please provide definition of Open SIP standard, non-proprietary desk phone? The feature set listed as required does not match the defined Open SIP standard, non-proprietary label. | Open SIP standard and non-proprietary are defined as the commonwealth being able to use that device on any IPT platform. The required features of a device does not determine the connection to the IPT solution. |
| 238 | Appendix F references Toll Services, SIP Trunks and DID block costing in Lot 1. Does a vendor need to provide this costing along with the desk telephones and hardware to be accepted as a viable vendor? | The Lot 1 Offeror must provide all of the referenced services. |
| 239 | Page 71 of 181 F-1.12 – What constitutes a classroom instruction failure? | If, through reported issues from a specific site that has been trained, the commonwealth deems that site has not received the agreed upon training, this would constitute a classroom instruction failure. As an example, if part of the training includes accessing voicemail and changing a greeting, but it become apparent that the users at a site do not know how to perform this, it would be determined a training failure. Also, if a trainer is unable to answer questions surrounding features and functions of the agreed training, that would also be cause for a repeat in training at no cost to the commonwealth. |
| 240 | Can the Commonwealth provide further clarification on Part II, II-4 C: With respect to the Small Diverse Business and Small Business participation criterion for the RFP, will the evaluation be based on the Offeror's entire proposal or on a per Lot basis? | The evaluation will be based on the Offeror's proposal on a per Lot basis. |
| 241 | Relative to the article that appeared in PennLive today, link below, is there any impact to the UC&VS RFP and related RFPs? Give the budget shortfall, transition costs could be too expensive to proceed as the RFPs are currently scoped. What are the impacts? | With the new RFP's agencies will be "Rightsizing" to align with business requirements and the need to support and enable innovation efforts to offset transition costs. |
| 242 | We have examined the Commonwealth's IT standards and find no existing Commonwealth standard identifying Microsoft Skype for Business as a sole brand standard for Executive Branch agencies. In addition to the general reference to IT Standards, could you please provide the specific standard policy number and URL location underlying the Microsoft Skype for Business standard? | The ITPs are in the process of being updated. (Note: Answers to questions 191 and 192 have been updated.) |
| 243 | When was the market analysis and competitive process undertaken to establish a sole brand preference for Unified Communications/Microsoft Skype for Business? | The Commonwealth made the determination to use Skype for Business prior to the release of this RFP. The Commonwealth currently has approximately 30,000 active users and intends to expand its feature set and standardize across the Commonwealth. |
| 244 | At that time, were all industry-leading solutions evaluated as part of a cross-brand comparison in each category identified as the Microsoft Skype for Business in this RFP? | Other industry-leading solutions were considered. |
| 245 | For example, Gartner's Magic Quadrant for Unified Communications lists 4 industry-leading solutions in its top quadrant. (See Gartner Magic Quadrant for | Other industry-leading solutions were considered. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|--|---|
| | <p>Unified Communications, Analyst(s): Bern Elliot, Megan Marek Fernandez, Steve Blood, published: 13 July 2016). The Unified Communications analysis specifically assessed functionality requested by the RFP, i.e., Conferencing (Audio, Visual, Web), Telephony and VoIP, and additionally factors into the rankings ease of integration of the UC functionality in each area into a complete solution presented via a consistent interface. Gartner’s Magic Quadrant for Web Conferencing (See Gartner Magic Quadrant for Web Conferencing Analyst(s): Adam Preset, Mike Fasciani, Whit Andrews published: 10 November 2016) lists 5 industry solutions in its top quadrant. Were these evaluated, and if so, where was the competitive analysis documented?</p> | |
| 246 | <p>QA Response #230 establishes Microsoft as the solely compliant solution offering for Executive Agencies going forward, and limits compliant bid responses to only those offering and integrating Microsoft Skype for Business. However, neither the Commonwealth’s published Conferencing nor Desktop Publishing standards identify Microsoft Skype for Business as a sole brand standard for conferencing, voice or collaboration. Instead, current Commonwealth IT standards/policies identify multiple, non-Microsoft 3rd party brand solutions that are compliant with current standards.</p> <p>Can you please clarify how standards-compliant brand solutions are not responsive to the solicitation? How can a bidder meet the requirement to be compliant with current IT standards with a MS Skype solution?</p> | <p>The ITPs are in the process of being updated.</p> |
| 247 | <p>We have received multiple requests to partner with prime contractors interested in the RFP for Unified Communications & Voice Services for the State of PA. We would like to confirm with you that it is acceptable for our company to be listed as the subcontracting payphone provider on multiple RFP responses submitted by prime contractors.</p> | <p>Yes, please reference Section I-24.</p> |
| 248 | <p>Given the response to this question (#215) by COPA stating “Through this RFP, it is the intent of the commonwealth to replace the existing system”. Is this a statement made by COPA to replace the current system due to CoPA’s dissatisfaction with it’s performance or ability to meet the States needs, or how the current system and service will be delivered off premise going forward?</p> | <p>The contract end date is coming to an end. Through this RFP, it is the intent of the commonwealth to replace the existing service.</p> |
| 249 | <p>We would like to request an extension to this RFP submittal date for 30 days. Is March 23th acceptable? Any additional time would be appreciated.</p> | <p>No, the Commonwealth will not extend the due date of the RFP.</p> |
| 250 | <p>Under Lot 1 SIP Trunking is listed as an Other Service. This functionality can only be provided by vendors that comply with FCC regulations as telecommunications service providers (TSP). Most Unified Communications deployment and implementation vendors are separate entities than a traditional voice vendor, typically providing all managed services</p> | <p>A single invoice is required for all services under LOT 1.</p> |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|---|
| | around voice implementation as well as support, design and deployment services. With that said only vendors with compliance with the FCC can provide telecommunication invoices based on regulations within the US. Would it be acceptable to provide a single invoice for the SIP Trunking service from a telco vendor and a single invoice for the remainder of the Lot 1 services? This would then meet the needs for providing SIP Trunking from an FCC regulated vendor as well as benefiting from the implementation and management services from a Unified Communications expert. | |
| 251 | If a Skype CloudPBX Microsoft Gold Partner with a wealth of knowledge and experience dealing with properly planning, testing and implementing a robust and efficient Unified Communications solution can't provide a single invoice that includes SIP Trunking would they be automatically excluded from the RFP process? | A single invoice is required for all services under a specific LOT. |
| 252 | Would it be acceptable to provide one invoice for both Lot 1 and Lot 3 excluding SIP Trunking? Therefore 1 invoice would be provided for all VoIP managed services, support, maintenance, design, and deployment of the entire solution and 1 invoice for SIP Trunking from a telecommunications provider. | One invoice would be considered if one offeror would be selected for multiple LOTS per RFP. SIP Trunking cannot be excluded from a LOT. |
| 253 | <p>In review of the most recent RFP's that have been issued by the Commonwealth, specifically RFP Number 6100039274, Unify would like to provide the Commonwealth with some clarifications.</p> <p>a. <input type="checkbox"/> As stated in the recent Questions and Answers documentation for RFP #3, you state "The solution is Unify supplied OpenScape V9 IP/PBX", however, you are currently running V7R1 of the OpenScape product line, Verizon and Unify are working on necessary requirements to complete the upgrade to current, which is V9.</p> <p>b. <input type="checkbox"/> We also point out that the Unify phones you utilize daily are not 'proprietary' phones limited to use by the Unify OpenScape Voice as sighted on page 56, first bullet, however are 'standard' and 'Compliant' to IETF RFC 3261 as well as other RFCs for standards based SIP communications.</p> <p>c. <input type="checkbox"/> Any use of 3rd party phones (non-Unify yet SIP compliant) could be supported given appropriate testing that would need to be completed and then compared to desired features available, required and supported by those 3rd party manufacturers.</p> | <p>a. <input type="checkbox"/> The previous answers to Questions (35, 215, and 232) have been revised to reflect the current version as OpenScape V7R1.</p> <p>b. <input type="checkbox"/> The RFP section cited has been updated to remove the implication that current desk phones are proprietary.</p> <p>c. <input type="checkbox"/> Noted.</p> |
| 254 | Given that IT policy standards directly governing this procurement are pending at this time, would the Commonwealth consider extending the due date for proposals until a reasonable period of time after they are formally published? | No, the Commonwealth will not extend the due date of the RFP. |

Questions & Answers
RFP 6100039274
Unified Communications Voice Services

| # | Question | Answer |
|-----|---|---|
| 255 | With respect to the pending standards, would the Commonwealth consider identifying more than one solution option for COPA agencies in order to leverage current investments that have been made in those solutions within the current installed base? | The Offeror should respond to the RFP requirements. |
| 256 | With respect to the pending standards and for consistency with prior Commonwealth solicitations, would the Commonwealth consider identifying multiple acceptable solution options ranked as the 'best-in-class' leaders by independent industry analysts (e.g., Gartner's most recent Magic Quadrant for Unified Communications or equivalent)? | The Offeror should respond to the RFP requirements. |
| 257 | Appendix W, Milestone M-15, lists a 180 calendar day milestone for "Services and deliverables as described in LOT 1 Unified Communications & VoIP Services and Support transitioned and accepted on or before Milestone Due date, and Services implemented, tested, and operational". The bid conference slide 6 shows a 25 month transition to occur through Oct 2019. Please clarify what specifically is required to meet the 180 calendar day milestone? Is the requirement of the milestone to install and test the VOIP/UC infrastructure needed to support LOT 1 and not the completion of the end user transition of 45,000 VOIP endpoints? | The Milestone M-15 180 day milestone is to have the service installed, tested, and ready to deploy. All identified end users are then to be transitioned prior to October 2019 per the proposed and Commonwealth agreed to Transition Plan. |

Section 1. Response to Part III Technical Submittal

a. In response to Part III. Please note that responses to the specific requested items in Part III.8 shall be provided in the format requested. For example, they should identify and be grouped by the service area task group to which they pertain; and

b. Complete, sign and include Appendix B - Domestic Workforce Utilization Certification;

Verizon Response

Verizon’s response to Part III is provided below. For the Domestic Workforce Utilization Certification, please see Appendix B.

Part III - Technical Submittal

III-1. Requirements

The plan for this RFP is to provide end users with a robust set of unified communications and voice services statewide. This RFP has three separate “Lots”. Offerors shall respond separately to each of the Lots, but need not respond to all three:

- Lot 1 - Unified Communications Utilizing Microsoft Skype for Business and VoIP Services
- Lot 2 - Traditional Voice Services
- Lot 3 - Other Voice Conferencing Services

| Lot 1 | | Lot 2 | Lot 3 |
|--|--|---|--|
| Unified Communications | VoIP Service | Traditional Voice Services | Other Voice Conference Services |
| <ul style="list-style-type: none"> • Fully Managed Service • Unified Communications (MS Skype for Business) • Integration with hosted VoIP service • Unified Messaging | <ul style="list-style-type: none"> • Fully Managed Service • Hosted VoIP services • PSTN connectivity for dial tone and conferencing • SIP Trunking • User endpoint hardware (phones, soft-phone devices, conference) | <ul style="list-style-type: none"> • Trunk lines - for existing PBX and Key systems • POTS Lines for emergency phones, equipment monitoring support, payphones, etc. • Centrex where required • Auto Attendants | <ul style="list-style-type: none"> • Voice Conference Services (Office 365 users) |

The following tables identify the services requested by this RFP.

- The first table briefly describes three core support service areas: Support Service, Project Management and Administration, and Emergency Preparedness. These three areas required for both Lots 1 and 2.
- The second table identifies tasks specifically related to Lot 1 (Unified Communications and VoIP Services), Lot 2 (Traditional Voice Services), or Lot 3 (Other Voice Conferencing Services).

The detailed requirements for the three service areas, along with the lot-specific service areas, are described in Part III-8.

| Core Support Services | | Summary Requirement |
|-----------------------|---------------------------------------|--|
| A | Support Services | The underlying systems, processes, and procedures provided by the Supplier shall effectively support end-to-end delivery and management of services to the Commonwealth and its customers. Services in this area include but are not limited to: service delivery, ordering, change management, inventory management, help desk, and billing. |
| B | Project Management and Administration | This area includes those program-wide actions associated with initiating, planning, executing, and controlling project activities to achieve specific goals and meet specific success criteria. Services in this area include: status reporting, user satisfaction monitoring, transition planning, security auditing, staffing, and SLA management. |
| C | Emergency Preparedness | To support continuity of operations during an emergency, the Commonwealth strategy includes ensuring that essential contracts that provide critical business services have planned for and put contingencies in place to provide needed goods and services. |

Lot 1 and/or Lot 2 Offerors who are unable to meet the full set of requirements for these first three service areas (A-C), but have services to offer in the other areas, are encouraged to form partnerships or alliances which would allow them to meet the requirements.

Tasks related to Lot 1 (Unified Communications and VoIP Services), Lot 2 (Traditional Voice Services), Lot 3 (Other Voice Conferencing Services) are summarized in the following table.

| Lot 1 Tasks Unified Communications and VoIP Services | | Lot 2 Tasks Traditional Voice Services | | Lot 3 Tasks Other Voice Conferencing Services |
|---|---|---|---------------------|--|
| D - Architecture & Integration | | D - Features and Functions | | A - Voice Conference Services (Office 365 users) |

Specific task and Offeror response requirements for each service and supporting area are provided in Part III-8.

Verizon Response

Read and understood.

Required Tasks and Response Items

III-2. Statement of the Project

State in succinct terms your understanding of the project presented or the service required by this RFP.

Verizon Response

Verizon understands the Office for Information Technology (OIT) is interested in expanding and modernizing the telecommunication capabilities currently available to support state agencies, business partners and citizens throughout the Commonwealth of Pennsylvania. We recognize that the primary goal of this procurement is to obtain comprehensive, secure, and cost effective unified communications and voice services for the Commonwealth agencies under the governor's jurisdiction.

While the Commonwealth's intent is to acquire an integrated Skype for Business and hosted VoIP platform, the need still exists to support agencies with traditional voice service needs as well. We realize a key Commonwealth goal of this procurement is to move the majority of Commonwealth users to a cost effective replacement UC platform based on a Microsoft Skype for Business solution, and Verizon is poised to support this initiative.

III-3. Management Summary

Include a narrative description of the proposed effort and a list of the items to be delivered or services to be provided.

Verizon Response

Lot 1

Verizon has developed an integrated and fully redundant Unified Communications solution with Microsoft's Cloud Connector Edition (CCE), a cloud based Office 365 (O365) offering. The solution is designed to meet the Lot 1 core Unified Communications and VoIP requirements. Our solution leverages Microsoft Skype for Business offering connecting the COPANET community of users anytime and virtually anywhere by delivering the collaboration capabilities as a cloud-based service. It gives users access to presence, instant messaging, audio and

Placeholder text for the top section of the document.

III-4. Prior Experience

Include experience in voice services and unified communications at a level of scope and complexity represented by this procurement as related to the Lot(s) you are submitting a proposal for. Include any specific experience with implementing/ integrating Skype for Business with a hosted VOIP platform, at an enterprise level.

In describing current or previous engagement, include an explanation of how they were similar to or differed from the body of work described in this RFP. Include any lessons learned which will be applied to this engagement.

Experience shown should be work done by individuals who will be assigned to this project as well as that of your company. Studies or projects referred to must include the following:

- Engagement Name
• Engagement Start and End Date
• Customer Name, Address
• Customer Contact Name, Title, Phone, E-mail address

Any changes by the selected vendor to the proposed project team personnel must be approved by the Commonwealth in writing. Substituted staff must be approved by the Commonwealth and must meet or exceed the qualifications of proposed staff.

At any time during the term of this contract, the Commonwealth reserves the right to review, approve, and require the Offeror to remove any personnel the Offeror proposes to assign or currently has assigned to the contract.

Verizon Response

In the response to this section, include the number of executive and professional personnel, analysts, auditors, researchers, programmers, consultants, etc., who will be engaged in the work.

Verizon Response

Show where these personnel will be physically located during the time they are engaged in the Project.

For this contract, at a minimum, the following positions are considered “key”:

Project Manager: The Project Manager will be responsible for the overall coordination and communication of contract activities during transition and through the life of the Contract.

The Project Manager will be responsible for developing and successfully executing project plans. The Offeror’s candidate for Project Manager should have experience in telecommunications and telecommunications project management.

He or she should have successfully managed at least one engagement of a similar size and complexity as that described by this RFP. Project Management Professional (PMP) certification or equivalent is preferred.

Verizon Response

Chris Dinapoli - [Redacted]

Trainer: The Trainer will be responsible for all training and training material as listed in, but not limited to, Section III-6 Training and the training related tasks in Section III-8. The Trainer must be knowledgeable of the features and functions of the Offeror's specific platforms and devices.

The Offeror's candidate for Trainer should have demonstrated experience with the Offeror's proposed solution. He or she must have demonstrated the ability to effectively plan, prepare and present technical materials to audiences with a diverse level of technical skill and background.

Verizon Response

James McQuery [redacted]

Key staff should have at least three (3) years of detailed experience working with the Offeror's proposed solution. Exceptions may be made for new and emerging technologies.

For these and any other key personnel include the employee's name and, through a resume or similar document, the individual's education and experience in voice and unified communications.

Indicate the responsibilities each individual will have in this engagement and how long each has been with your company. Identify by name any subcontractors you intend to use and the services they will perform.

Verizon Response

Please note [redacted]

B. Subcontractors

Provide a subcontracting plan for all subcontractors, including small diverse business and small business subcontractors, who will be assigned to the Project.

The selected Offeror is prohibited from subcontracting or outsourcing any part of this Project without the express written approval from the Commonwealth.

Upon award of the contract resulting from this RFP, subcontractors included in the proposal submission are deemed approved. For each position included in your subcontracting plan provide:

1. Name of subcontractor;
2. Address of subcontractor;
3. Number of years worked with the subcontractor;
4. Number of employees by job category to work on this project;
5. Description of services to be performed;

6. What percentage of time the staff will be dedicated to this project;
7. Geographical location of staff; and
8. Resumes (if appropriate and available).

The Offeror's subcontractor information shall include (through a resume or a similar document) the employees' names, education and experience in the services outlined in this RFP. Information provided shall also indicate the responsibilities each individual will have in this Project and how long each has been with subcontractor's company.

Verizon Response

Verizon is pleased we've be able to purposely assemble a best-in-class team with extensive industry and Commonwealth knowledge to meet the business challenges and requirements the Voice services RFP.

| 7. Geographical location of staff | In support of the Commonwealth Skype for Business project, MCS personnel will be located onsite in Harrisburg, PA working alongside Verizon staff. |

Verizon includes Microsoft Premier Support for Partners (PSfP) services as part of our management of the Skype for Business (SfB) Online solution. Leveraging Microsoft Premier Support, Verizon will have prioritized access to the SfB Third Tier Support team for break/ fix support for rapid problem resolution. Through PsfP, Verizon has access to remote and on-site Microsoft Support Engineers as required to prevent or address Commonwealth issues. Verizon also has a designated Microsoft Technical Account Manager (TAM) as a support resource that helps Verizon improve its service delivery. Verizon's assigned TAM facilitates Verizon's access to the proactive services within PSfP including training, workshops and other guidance from Microsoft. These resources will be available to Verizon in support of the Commonwealth for the duration of the contract.

For each service area, the format includes:

Description: An overview of the service area.

Tasks: This section includes:

- A list, in table format, of the services the selected Offeror is required to deliver under the contract. These responsibilities will apply for the duration of the contract resulting from the award of this RFP. The Offeror shall commit to comply with these requirements - or indicate any reservations or exceptions - by completing the included Appendix H - Compliance Matrix. The completed matrix must be included as Attachment II-3.1 Compliance Matrix in the Offeror's response to this RFP.

- A numbered list of items to which the Offeror shall provide a thorough written response. In its response, the Offeror shall include the task area name, the numbered response request item (i.e., the number and text of the request) as well as its response.

For example, the first task area is in Service Area A, "Support Services". The task area name is "Service Delivery Management". The vendor response should appear as: "Service Area A, "Support Services"

TASK: Service Delivery Management

1. The Offeror shall describe the following:

- a) The ITSM methodology it uses to deliver service to its customers.
- b) Its organization's ITIL experience and certifications.
- c) How its service management processes will align with the Commonwealth's ITIL processes and how they will be implemented to manage service(s).
- d) Any tools which will be used for tracking ITSM data.
- e) How its tools will be integrated with the Commonwealth's vendor provided enterprise ITSM systems (e.g. RFP 2 vendor) to allow for the sharing of information.

Followed by your response to this item.

Offerors responding to Lot 1 and/or Lot 2 are required to include a response to the first three service areas (Core Services), and at least one other Lot, in their technical submittal. Offerors bidding on both Lots 1 and 2 need only address the Core Services task once in their response.

Core Services

This section covers the following core service areas:

- A. Support Services
- B. Project Management and Administration Services
- C. Emergency Preparedness

Offerors submitting a proposal for Lot 1 and /or Lot 2 shall address each of these core service areas.

Service Area A, Support Services

Description

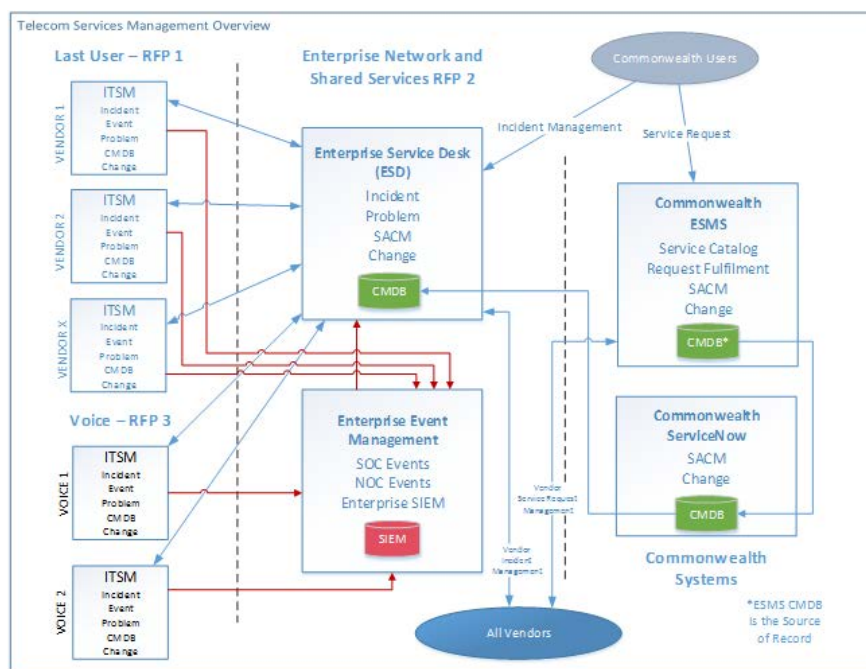

The selected Offeror is required to support the delivery of its proposed telecommunication services to the Commonwealth, its business partners and its customers. The Commonwealth uses Information Technology Infrastructure Library (ITIL) processes and supporting procedures for IT Service Management (ITSM).

The selected Offeror will be required to work with the Commonwealth to establish and support these standards and procedures in performing all of the tasks described in this RFP. The Offeror will be responsible for integrating its key ITSM processes and systems with the Commonwealth's enterprise services.

The key ITSM processes to be integrated with the Commonwealth's Enterprise Services are listed below:

| | |
|---|--|
| <p>Service Request and Billing</p> | <p>The selected Offeror (i.e., Supplier) shall use the Commonwealth's Enterprise Services Management System (ESMS) for all service requests (request fulfillment) and for billing and invoice generation.</p> <p>The Supplier shall work with the Commonwealth to properly categorize, describe and validate the products included in its bid.</p> <p>The Supplier shall respond to order notifications, delivered via e-mail, by accessing ESMS to acknowledge the order, request additional information as needed, and enter fulfillment information.</p> <p>The Commonwealth will issue payments based upon the information provided by the Supplier and identified as accepted by the Agency which originated the order.</p> |
| <p>Service Desk</p> | <p>The selected Offeror (i.e., Supplier) shall provide an ITIL compliant Vendor Service Desk (VSD). The Supplier will integrate its service operations processes and service desk with the Commonwealth's vendor-provided Enterprise Services Desk (ESD).</p> <p>The Supplier will also be required to integrate its CMDB with the enterprise level CMDB through the development of an integrated asset and configuration management (SACM) solution.</p> |
| <p>Event Management</p> | <p>The selected Offeror is required to integrate its event management and monitoring systems with the central Enterprise Event Management System.</p> |

The following diagram and description depicts the proposed relationship of Commonwealth Enterprise Services and other telecommunication suppliers.

- The Commonwealth's Enterprise Services Management System (ESMS) will continue to be used, at least initially, for all service requests (request fulfillment) and also for billing and invoice generation. ESMS is a Web-based system used for ordering, billing and asset inventory of telecommunications products and services.

This includes products and services (master service catalog) covered under the current Telecommunications Services Contract, as well as additional services such as mobile voice and data. All telecommunication service providers shall interact with the ESMS via an online user web interface. ESMS will notify vendors of new service requests or changes to services via email.

- *The ESMS system will replicate its service inventory (CMDB) into the Commonwealth’s ServiceNow CMDB via an automated interface maintain by the Commonwealth. The Configurable Items (CI’s) registered in ESMS will be considered the Source of Record all downstream CMDB replication. Additional information about the Commonwealth’s ServiceNow and ESMS is provided in Appendix I - Commonwealth ITSM Systems Overview and Appendix J - ESMS Reports and Queries.*
- *The ESD will initially populate service inventory information data in its ITSM tool’s configuration management database (CMDB) via an automated interface to the Commonwealth’s ServiceNow CMDB.*
- *Commonwealth users will contact the Enterprise Service Desk (ESD) to report all service issues. The ESD will create and manage each service incident and corresponding tickets.*
- *The Offeror’s Enterprise Event Management System will also be integrated with the ESD to allow the automatic creation of service incidents.*
- *Each telecommunication suppliers (i.e., Last User and Voice/Unified Communications) will be required to design, develop and deploy a service desk to manage services under its purview.*

The suppliers will be required to communicate with the ESD, managed by the selected RFP #2 Offeror, by submitting tickets. Tickets may be submitted either via manual data entry through an online user interface or programmatically via an automated interface between the vendor’s ITSM systems and the ESD Provider.
- *The selected Offeror for this RFP shall be responsible for working with the ESD Provider to integrate its Service Desk via both the manual and automated interfaces.*

The underlying systems, processes and procedures provided by the Supplier shall effectively support end-to-end delivery of services to the Commonwealth, its business partners and its customers.

Tasks

Service Delivery Management

| Ref | Requirements of the Selected Offeror |
|-----|--|
| A-1 | <i>The Offeror shall work with the Commonwealth to integrate its service delivery systems and processes with Commonwealth systems, including:</i> <ul style="list-style-type: none"> o <i>Service ordering (using ESMS)</i> o <i>Billing (using ESMS)</i> |

| A-3 | <i>The Offeror acknowledges and accepts that the Commonwealth will not finance nor pay for modifications to Offeror’s systems required to interface with Commonwealth or other vendor managed systems.</i> |
| A-4 | <i>The Offeror shall align its ITSM processes with current and future Commonwealth enterprise service processes, including new ITIL processes established by the Commonwealth.</i> |

| Ref | Requirements of the Selected Offeror |
|------|--|
| A-5 | <p>The Offeror shall work cooperatively with Commonwealth staff, and other provider staff to support the integration of its ITSM processes and systems.</p> <p>This includes but not limited to the initial integration with the Commonwealth's vendor provided Enterprise Service Desk and Event Monitoring Services (RFP 2) as well as working with the Commonwealth staff or the RFP 2 provider to determine impacts of any future changes or updates to the enterprise ITSM systems.</p> |
| A-6 | <p>The Offeror shall provide any supporting documentation to the Commonwealth to ensure that its proposed ITSM systems meet all standards set forth by the Commonwealth.</p> |
| A-7 | <p>As part of Continual Service Improvement (CSI), the Offeror shall continue to work with the Commonwealth staff throughout the life of the contract to improve and/or adjust the delivery of services as deemed necessary.</p> |
| A-8 | <p>The Offeror shall acknowledge that the Commonwealth's ESMS system will be the system of record for service requests and inventory data.</p> |
| A-9 | <p>The Offeror shall conduct working sessions to plan and develop the details regarding how technology will be leveraged and implemented. All plans are subject to Commonwealth approval.</p> |
| A-10 | <p>The Offeror shall work with the Commonwealth to establish an agreed upon timeline for technology planning and implementation.</p> |
| A-11 | <p>The Offeror shall provide trained and experienced staff to support their proposed ITIL processes and service delivery management. This includes staff with experience and certification in ITIL.</p> |
| A-12 | <p>The Offeror shall provide step-by-step instructions for any manual processes which will be used until they are fully integrated with the Commonwealth's vendor provided enterprise ITSM systems (e.g. RFP 2 vendor).</p> |
| A-13 | <p>The Offeror shall provide a Service Delivery Implementation Plan including:</p> <ul style="list-style-type: none"> o Identification, by role, of key personnel o Ability to scale resources to meet increased business needs o Service ordering process integration with the ITSM tool o Scheduling processes and standard service intervals o Performance management o Service Level Agreements o Billing procedures o Standard reporting capabilities o Enhanced reporting capabilities o Training procedures |
| A-14 | <p>The Offeror shall provide a Service Delivery Management Plan including:</p> <ul style="list-style-type: none"> o Ongoing training for Commonwealth staff o Processes and procedures for technical support o Processes and procedures for inventory/asset management o Standard reporting o Description of enhanced reporting o Processes and procedures for trouble resolution o Escalation procedures |

| Ref | Requirements of the Selected Offeror |
|------|--|
| A-15 | <p>The Offeror shall document and maintain, throughout the contract period, all service management processes and related tool integrations to the Commonwealth's or the vendors ITSM tools. The Offeror shall provide updates to the documentation throughout the term of the contract.</p> <ul style="list-style-type: none"> o Document updates shall be provided to the Commonwealth within ten (10) business days of any change or upon request of the Commonwealth. o All process documents are subject to Commonwealth review and approval. <p>This documentation shall be included and maintained within the Process and Procedures Manual (PPM).</p> |

In Section III.8 of its response to this RFP:

III.8A - 1. The Offeror shall describe the following:

- a) The ITSM methodology it uses to deliver service to its customers.
- b) Its proposed organization's ITIL experience and certifications.
- c) How its service management processes will align with the Commonwealth's ITIL processes and how they will be implemented to manage service(s).
- d) Any tools which will be used for tracking ITSM data.
- e) How its tools will be integrated with the Commonwealth's vendor provided enterprise ITSM systems (e.g. RFP 2 vendor) to allow for the sharing of information.

Verizon Response

Verizon is committed to the ITIL methodology and Framework while delivering best in class Service to Commonwealth. Verizon implements ITIL guidelines in Change, Incident, Problem and Service Level Management.

The resource structure which Verizon will put in place will adhere to this framework. There will be three broad areas in which the PMO teams will be structured to conform to the ITIL process. These are Service Design, Service Transition and Service Operations.

Following describes the brief roles and responsibilities for each of the above:

- **Service Design** - There will be a Financial Service Manager in this tower who will address functions such as Service Program Management, Financial operations and Contract Governance.
- **Service Transition** - This area is run by a Service Delivery Manager, who addresses functions such as Change and Project Management.
- **Service Operations** - A Service Assurance Manager is responsible for functions such as Service desk, Incident and Problem Management.

The above roles report into Management functions who own the relationship with Commonwealth.

III.8A - - 2. The Offeror shall describe any processes which will be used until integration with the Commonwealth's vendor provided enterprise ITSM systems (e.g. RFP 2 vendor) ITSM system is complete.

Verizon Response

Verizon will continue to provide ITSM services to the Commonwealth until the integration of the vendor provided enterprise ITSM systems is complete. During this transition period, Verizon will ensure that all ITSM processes are maintained and updated as necessary to support the Commonwealth's needs. Verizon will also provide training and support to the Commonwealth's staff to ensure a smooth transition to the new system.

III.8A - 3. The Offeror shall describe its structure and resources that will support the ITIL processes. This includes staff experience and certifications as well as the roles and responsibilities the Offeror expects to perform.

Verizon Response

Verizon has a highly skilled and experienced ITIL team that is capable of supporting the Commonwealth's ITIL processes. Our team consists of ITIL experts who have worked with many government organizations and have a deep understanding of ITIL best practices. We will provide training and support to the Commonwealth's staff to ensure a smooth transition to the new system.

- j) Training procedures

Verizon Response

[Redacted text]

Service Request and Billing

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|------------|---|
| A-16 | <i>The Offeror shall complete service orders using the Commonwealth's established system (ESMS) based on the mutually agreed to the standard order interval for the service. Should the ESMS system be replaced the Offeror will confirm processing to the replacement system.</i> |
| A-17 | <i>The Offeror shall confirm the availability of ordered items within three (3) days of receipt of an order. A projected delivery date shall be provided for any item which is not expected to meet the standard interval for completion.</i> |
| A-18 | <i>The Offeror shall perform acceptance testing with the contract participant prior to declaring the service ready for use; all test results shall be shared with the contract participant and order creator.</i> |
| A-19 | <i>The Offeror shall obtain acceptance from the order creator certifying that the work requested on the order was completed to the satisfaction of the requestor prior to billing.</i> |
| A-20 | <i>At the request of individual agencies, the Offeror shall complete move/add/change (MAC) orders. Fees for MAC services will be billed on per line basis in a tiered level as follows:</i> <ul style="list-style-type: none"> <i>o 1-25</i> <i>o 26-75</i> <i>o 76-125</i> <i>o 126-175</i> <i>o 176-200</i> |
| A-21 | <i>The Offeror shall provide an Order Process Implementation Plan which discloses the Offeror's processes and procedures for implementing the end-to-end order process including:</i> <ul style="list-style-type: none"> <i>o The process that will be used to provide the Commonwealth with the initial and ongoing service catalog information to be loaded into the Commonwealth's ESMS system</i> <i>o The ongoing maintenance of service catalog information</i> <i>o The required data elements to place a complete and accurate order for each service proposed</i> <i>o Order cancellation policies and related penalties, if applicable</i> <i>o Restrictions or fees associated with order changes</i> <i>o Start and stop service billing dates</i> <i>o Provide standard intervals for all proposed services</i> |
| A-22 | <i>The Offeror's billing procedures must align with the use of the Commonwealth's ESMS system and must support multiple funding streams.</i> |
| A-23 | <i>The Offeror shall provide reporting capabilities that will allow for the review and reconciliation of any discrepancies with the ESMS billing function. Reports should be weekly, monthly, yearly or on an Ad Hoc basis as needed. They also must be accessible in electronic readable format such as excel, word, pdf, etc. These reports should include but not limited to the following:</i> <ul style="list-style-type: none"> <i>o Funding Source</i> <i>o Payphones- Accessibility</i> <i>o Toll Free</i> <i>o Local Inbound/ Outbound</i> <i>o No Activity</i> <i>o Long Distance</i> <i>o UC by Feature</i> |
| A-24 | <i>The Offeror shall document and maintain, throughout the contract period, all Ordering and Billing processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM).</i> |

In Section III.8 of its response to this RFP:

III.8A - - 7. The Offeror shall provide a draft of its Order Process Implementation Plan which discloses the Offeror's processes and procedures for implementing the end-to-end order process including:

- a) The process that will be used to provide the Commonwealth with the initial and ongoing service catalog information to be loaded into the Commonwealth's ESMS system (Please note that the Offeror should not include any actual price information within its technical proposal)
- b) The ongoing maintenance of service catalog information
- c) The required data elements to place a complete and accurate order for each service proposed
- d) Order cancellation policies and a description of related penalties (note: Offeror's are not to include any price or fee information with their technical proposal responses), if applicable
- e) Restrictions or fees associated with order changes (note: Offeror's are not to include any price or fee information with their technical proposal responses)
- f) Start and stop service billing dates
- g) Provide standard intervals for all proposed services

Verizon Response

Verizon has provided the draft Order Process Implementation Plan as follows.

| Step | Description | Owner |
|---|---|-------------------|
| Commonwealth - Verizon Steady State Order | | |
| 1 | Enter order into ESMS (vendor = VZ) <ul style="list-style-type: none"> ■ Order may include new or Moves, Adds, Changes, Disconnects (MACDs) ■ Email notification is generated to VZ with hyperlink to order | Commonwealth |
| 2 | Receive email notification with hyperlink | Front End LCPM |
| 3 | Review and validate ESMS order. Validate: <ul style="list-style-type: none"> ■ Address Information ■ Contact Information (verify LCON included) ■ Product Drop Down Selection(s) valid ■ Order Screen (required agency fields completed) | VZ LCPM |
| 4 | All required information included to proceed with ESMS order? <ul style="list-style-type: none"> ■ If Yes (<u>all info included</u>), see step 4.1 Refer to Provisioning Method in ESMS to determine the source of the inventory. If No (<u>all info not included</u>), see step 5 | VZ LCPM |

| Step | Description | Owner |
|-------|---|--------------|
| 4.1 | Create order in applicable ordering system If Provisioning Method specifies TPV, send to appropriate TPV for order processing | VZ LCPM |
| 4.1.1 | Update ESMS order with status (in "Remarks" section) <ul style="list-style-type: none"> ■ Move Commonwealth/VZ order to "Review Complete" (RCM) status Then see step 6 | VZ LCPM |
| 5 | Update original ESMS order with status (in "Remarks" section) advising why order cannot be validated <ul style="list-style-type: none"> ■ Put ESMS order in "Reviewed with Issues" status in ESMS | VZ LCPM |
| 5.1 | Receive ESMS order in RWI status, address item at hand, then resubmit ESMS order (in "Submit re-Work" status (SRW)) <ul style="list-style-type: none"> ■ When revised order is submitted, go back to step 3 | Commonwealth |
| 5.2 | Receive ESMS order in RWI, decide to Cancel Process Ends | |
| 6 | Provision order and continue to update ESMS order remarks throughout process <ul style="list-style-type: none"> ■ Add VZ order number, new WTN's, VZB circuit ID, LEC circuit ID, Scheduled Completion Date in "Remarks" section | VZ LCPM |
| 6.1 | As fields are populated, Order Status is to be changed accordingly: <ul style="list-style-type: none"> ■ Scheduled ■ Install/Test | VZ LCPM |
| 7 | Populate VZ BTN, Actual Completion Date and other fields (as predefined by product type) in "Remarks" section and ensure all Vendor Required fields on Order Items are populated <ul style="list-style-type: none"> ■ Then place the Commonwealth/VZ order in "Complete" status in ESMS (vendor = VZ) | VZ LCPM |
| | Process ends | |

The initial and ongoing service catalog process will follow and adhere to the Enterprise Contract Change Control Procedures and utilize the Contract Change Request (CCR) form to submit the catalog requests.

Contract Change - The addition, modification, or removal of supported services documented within the Commonwealth Enterprise production environment, including items such as:

- Changes to the Transition Schedule
- Changes in Activities
- Changes in Catalog
- Changes in Service Level Management (SLAs)
- Changes in Personnel
- Changes in Management Procedures Manuals (MPMs)
 - Verizon understands that circumstances change and the need may arise to cancel or modify a previously submitted order.
 - Except for Base Hardware orders and statements of work, the Commonwealth will have up to three (3) business days prior to the actual order completion date to cancel an order for services without being billed.
 - Orders for Base Hardware (desk phones, conference phones, and wired or unwired headsets) once placed are not able to be cancelled.
 - Any actual and reasonable costs incurred by Verizon in relation to a project will be set forth in a statement of work.

Billing to the agency will start upon closing of the ESMS order and will stop within the standard interval for a disconnect upon receipt of an ESMS order.

Please refer to the response to III.8A for the standard intervals for all proposed services.

III.8A - 8. The Offeror shall provide, by service type, proposed standard interval timelines for new, added, changed, disconnected and moved services.

Verizon Response

Refer to following table for the proposed services standard interval timelines:

| Verizon Voice Service Type | Standard Interval (in business days) | Notes |
|------------------------------------|--------------------------------------|---|
| Unified Communications Users - new | 5 10 | Lot 1: For up to a 25 user request For a > 25 user request |

| Verizon Voice Service Type | Standard Interval (in business days) | Notes |
|---|--------------------------------------|---|
| Unified Communications Users - MACD | 5 | Lot 1 |
| SIP Trunking | 30 | Lot 1 |
| IP Toll Free | 30 | Lot 1 |
| Polycom, Plantronics and Jabra Hardware | 15 | Lot 1. Verizon will work to ensure sufficient hardware is available based on the transition plan. The Commonwealth will ensure adequate forecasting and timely placement of service orders. On an ongoing basis, this interval assumes the equipment is available in the manufacturer's inventory. |
| Centrex | 9 | Lot 2 |
| Analog POTS: | 7 | Lot 2 |
| Wired Service - 2 | 6 | Lot 2 |
| Wired Service - 4 | 21 | Lot 2 |
| DID Blocks | 24 | Lot 2 |
| Auto Attendant | 30 | Lot 2 |
| Toll Free | 15 | Lot 2 |
| Centrex - Adds 1-5 lines | 3-5 | Lot 2: 6+ lines require a facility check and date due is negotiated |
| Change - 1-20 lines | 5-8 | Lot 2 |
| Voice Mail: | 7 | Lot 2 |
| ISDN Voice PRI | 24 | Lot 2 |
| Conference phones | 30 | Lot 2 |
| Desk Phones | 30 | Lot 2 |
| Wired and Wireless Headset | 10 | Lot 2 |

| Verizon Voice Service Type | Standard Interval (in business days) | Notes |
|----------------------------|--------------------------------------|-------|
| Disconnects | 30 | Lot 2 |

III.8A - 9. The Offeror shall describe its approach to validating the acceptability of work performed prior to billing.

Verizon Response

As part of the order fulfillment process, Verizon will, upon delivery of request services validate that it meets the specific requirements identified within this RFP. Validation will occur against the ESMS order ensuring that it fulfills the order request.

The order fulfillment Process Procedure Manual (PPM) that will be created will provide product specific certification testing criteria that will ensure the delivery of that service will be acceptable to the Commonwealth prior to Verizon submitting it for order acceptance.

III.8A - 10. The Offeror shall describe its proposed approach by which an agency can dispute a charge.

Verizon Response

Agencies should raise billing disputes in writing via email to their Program Management Office Service Manager to bring resolution for mutual agreement.

III.8A - 11. The Offeror shall describe its proposed approach for issuing and reporting on credits.

Verizon Response

Verizon's goal is to alert their customers and address credits in a timely manner.

If a billing error is identified, Verizon will proactively notify the Office of Administration, review the billing error, and then establish a resolution path to correct the issue going forward.

Once the billing item is corrected, Verizon will verify the final credit amount with the Office of Administration then proceed with necessary credit approvals.

The credit will be submitted into ESMS for processing which may take up to 30 days after ESMS credit order entry before the credit amount is posted on the invoice. All billing credits are noted on the monthly service operation report under the financial management and invoicing section.

III.8A - 12. The Offeror shall describe any process it uses to pro-rate charges.

Verizon Response

The Base Charges shall be prorated for any initial partial month (e.g., Service Commencement Date is mid-month) as necessary.

III.8A - 13. The Offeror shall disclose how soon after a service is completed it will appear on an invoice to the commonwealth.

Verizon Response

The Commonwealth will be charged the following month for services that have been installed and order accepted/completed. The Base Charges shall be prorated for any initial partial month (e.g., Service Commencement Date is mid-month) as necessary.

III.8A - 14. The Offeror shall describe how SLA credits will be identified on an invoice.

Verizon Response

The SLA credits will be identified on an invoice in detail by a SLA identifier and time period of missed SLA which will ensure the credit can be easily be identified.

Service Asset and Configuration Management (SACM)

| Ref | Requirements of Selected Offeror |
|------|--|
| A-25 | The Offeror shall create, support and maintain an accurate inventory of all service elements provided to the Commonwealth. |
| A-26 | The Offeror shall develop a Service Asset and Configuration Management (SACM) process that will support the management of its telecommunications services provided. |
| A-27 | The Offeror shall create, support and maintain a Configuration Management Database (CMDB) that will integrate with the Commonwealth's vendor (RFP 2) provided Enterprise Service Desk (ESD) CMDB. The Offeror's CMDB shall contain data relating to telecommunication assets and configuration items (CIs) as well as descriptions of the relationships between such assets and CIs. The Commonwealth's ESMS system shall be the source of record for all the services ordered. These services records will be replicated into the ESD CMDB and then handed off to the Offeror to populate their CMDB. |
| A-28 | The Offeror shall provide and maintain a CMDB Management Plan that discloses the Offeror's processes and procedures for ongoing management of the CMDB to ensure completeness and accuracy. The plan shall include: a) Procedures for routine audits of service inventory against inventory in the Commonwealth's ESMS and ESD systems. b) Notification procedures for identified CMDB discrepancies c) Remediation procedures and timeframes for correction to the CMDB d) Processes for verifying the continuing accuracy of the synchronization of its CMDB with the Commonwealth's vendor provided ESD CMDB and the ESMS source of record. |
| A-29 | The Offeror shall provide a secure Web-based electronic interface which will allow the Commonwealth to access the Offeror's inventory data, make queries, and obtain reports. The Offeror shall ensure that information is segregated by agency and agencies can only view their own information. |
| A-30 | The Offeror shall work with the Commonwealth to resolve inventory discrepancy issues between its inventory and the Commonwealth's inventory source of record within the Commonwealth's ESMS system. |
| A-31 | The Offeror shall provide reporting capabilities that allow the Commonwealth access to inventory and asset information on an ad hoc, weekly, monthly, yearly basis. Reports should be accessible in the following electronic readable format such as excel, word, .pdf, etc. These reports should include but not limited to the following: o Telephone Number (TN) o Username |

| Ref | Requirements of Selected Offeror |
|------|--|
| | <ul style="list-style-type: none"> o Site o Funding Source o DIDs- Individual DID o Available DIDs o DID by Service Location o DID by Agency o Device Hardware Serial Number o History o License Counts <p>The Offeror shall ensure that information is segregated by agency and agencies can only report on their own information.</p> |
| A-32 | <p>The Offeror shall provide a Service Asset and Configuration Management (SACM) Implementation Plan which shall include:</p> <ul style="list-style-type: none"> a) Access methods to inventory data including: <ul style="list-style-type: none"> o Online viewing o Data file downloads, in a readable format acceptable to the Commonwealth o Current view o Monthly snapshots o Historical data b) Timeframes to update database with new information c) Plan to maintain records - including identifiers d) Procedures for resolution of inventory discrepancies with the Commonwealth's ESMS inventory source of record. e) Timeframes for resolution of inventory discrepancies f) Inventory reconciliation procedures, including internal verification and audit procedures, to ensure inventory completeness and accuracy |
| A-33 | <p>The Offeror shall document and maintain throughout the contract period all Service Asset and Configuration Management (SACM) processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM).</p> |

In Section III.8 of its response to this RFP:

III.8A - 15. The Offeror shall provide a draft Service Asset and Configuration Management (SACM) Implementation Plan which shall include:

a) Access methods to inventory data including:

- Online viewing
- Data file downloads, in a readable format acceptable to the Commonwealth
- Current view
- Monthly snapshots
- Historical data

b) Timeframes to update its database with new information driven from updates to the Commonwealth's ESMS system source of record.

c) Plan to maintain records - including identifiers

d) Procedures for resolution of inventory discrepancies

e) Timeframes for resolution of inventory discrepancies

f) Inventory reconciliation procedures, including internal verification and audit procedures, to ensure inventory completeness and accuracy

Verizon Response

The proposed SACM Implementation Plan is as follows:

| Phase / Task | Estimated Timeline |
|--|--------------------|
| Planning Stage | 30 Days |
| <p>During this stage our team will engage with the commonwealth's team to understand the current catalogs of service, assets, attributes and relationships that will be part of the CMDB. Also during this stage our team will identify the process owners and process manager.</p> <p>This will entail gathering all of the information on how to connect to the Commonwealth CMDB and where all artifacts are stored.</p> <p>Also during this stage our team will be meeting with downstream teams to determine conditions of connectivity to downstream CMDB's, as well as escalation paths and identification of all stakeholders.</p> | |
| Setup the Vendor Service Desk (VSD) CMDB and Repositories | 20 Days |
| <p>During this step the customization team will work to setup the VSD service desk, and configure the various data base elements for the acceptance of the repository from the Commonwealth's CMDB.</p> <p>The team will configure the enterprise knowledge base as well as the enterprise portal for use by the end users to engage with and connect to the VSD.</p> <p>The team will also work to identify and setup the collaboration environment where all of our process and project artifacts will be collected.</p> | |
| Understand Classifications, Grouping, and Responsibility as it pertains to the Information | 20 days |
| <p>During this step our teams will define all of the metrics and classifications that need to take place in the data, escalation, severity and SLA processes.</p> <p>During this step processes, will be setup to capture this information from the service desk and audit server.</p> <p>Grouping of information and analytics will be done to allow for the reporting of all data, as well as the creation of the dashboards to be used by the team.</p> | |
| Download data from the Commonwealth's CMDB, Create Base Line Information | 10 days |
| <p>Our team will work to download, setup and implement the data from the centralize CMDB from the Commonwealth so that we have a full system and can track everything.</p> | |

| Phase / Task | Estimated Timeline |
|--|--------------------|
| During this step our team will also perform verification on the data that has been downloaded, capturing all anomalies and rectifying to ensure that the data has been successfully moved into our CMDB. | |
| Setup Auditing Process | 20 days |
| <p>The auditing server and process will be setup to ensure that the entire database can be audited over time with the central data to ensure we are compliant and always up to date.</p> <p>Setup of the period of performance for this auditing and all other metrics to ensure that we can perform the audit and monitor its success.</p> | |
| Create VSD processes (Change Control and others) | 15 days |
| <p>Work with the Commonwealth and other entities to ensure the change control and all other processes have been created, understood and implemented for success.</p> <p>Creating documentation for all processes and placing these into the collaboration environment so that all team members have access to them.</p> <p>Creating the metrics of the process within our system to ensure monitoring of compliance is available to our managers and in our dashboard.</p> | |

The entire process will be worked by members of our team. The plan will be worked as a group and is not asynchronous in operation. Our team will move from step to step and back again to ensure that all phases of the plan will be completed.

III.8A - 16. The Offeror shall describe its approach to electronically connecting its CMDB to the Commonwealth's ESD CMDB. The description should at minimum address the following:

- a) Description of the proposed automated synchronization approach with the Commonwealth's CMDB.*
- b) Description of the proposed synchronization approach with other Commonwealth telecommunication providers' service desks / CMDBs.*
- c) Description of testing and verification methodology.*

Verizon Response

There are two synchronization methods that will be created and in use within our proposed environment. These are:

- **Real-time Update:** In a real-time update mode the transactions are sent and received as they are created or updated.

In this case the transaction would be created, sent to the downstream system.

When the downstream system receives the transaction a return receipt is generated and sent back to the central ESD system.

If a return receipt is not received in a specified timeframe, our system will resend the transaction to the downstream system. This will occur three times before the system gives up and moves the transaction to an error state.

All transaction information will be logged into a database, along with all attempts and sending the transaction. Any errors will be flagged and sent to a technician for further review and troubleshooting of the environment.

- **Batch:** In batch mode transactions will be keyed up into a batch and the entire batch will be sent to the downstream system. The downstream system will send back a return receipt of the batch.

The system will then log the batch information. Batches can contain any number of transactions, and each will be accounted for in the return receipt information.

Both modes of transmission can also be performed manually if necessary. In most cases, when we do perform a manual transmission of transactions it will be in the batch mode.

Our customization team will monitor all transactions going on in the environment to ensure that the system is operating as expected. One other type of transaction we will be providing is a heat-beat transaction.

This will basically be a zero transaction that is basically sent out to the downstream provider to gain a return receipt. This return receipt will basically state that the two systems are still communicating. All heartbeat transactions will also be logged for review and monitoring.

Our dashboard will show all transactions going to and from each of the downstream systems. Of course, transactions will be a two-way street, we will send and also receive transactions in the above defined methods from the downstream system.

Our testing methodology is a multi-faceted approach. First during design, our teams will design the types of transactions that will be supported, what is required for each transaction and what constitutes success in transmitting or receiving these types of transactions.

This design will be based on each transaction and will be contained in a user story or other documentation. From here test scripts can be created.

Based on each test (System Testing, UAT) we will produce a report that outlines what the overall outcome was. Below is a depiction of what could be captured based on the total scripts run, passed and failed.

This report allows the teams to know how ready the application is for deployment and is used in the go, no go decision making process. Nothing is left to subjective thought. The team will be able to know that the system is either ready or not for deployment.

Summary by Module

| Module 1 | | Module 3 | |
|-------------|----|-------------|----|
| Total Items | 58 | Total Items | 76 |
| Passed | 58 | Passed | 76 |
| Failed | 0 | Failed | 0 |
| Module 2 | | Module 4 | |
| Total Items | 73 | Total Items | 40 |
| Passed | 73 | Passed | 40 |
| Failed | 0 | Failed | 0 |

Testing Results

Our solution includes a service for auditing all transactions, elements, workflows and items moving through the entire VSD. This auditing service will monitor everything and provide alerts when incidents happen in our environment.

These alerts will also generate incident tickets to ensure that nothing is dropped. The auditing service will also interact with the dashboard to provide the analytics necessary to review the health of the entire environment.

[Redacted text block]

[Redacted text block]

III.8A - 17. The Offeror shall provide a draft of its SACM process that discloses the Offeror's processes and procedures for ongoing management of the CMDB to ensure completeness and accuracy. The plan shall include:

- a) Procedures for routine audits of service inventory against inventory in the Commonwealth's ESMS and ESD CMDB.
- b) Notification procedures for identified CMDB discrepancies
- c) Remediation procedures and timeframes for correction to the CMDB
- d) Processes for verifying the continuing accuracy of the synchronization of its CMDB with the Commonwealth's ESD CMDB.

The synchronization process of our CMDB and through to other providers' CMDB's will be an automated transaction process using the ebonding pipes that our configuration management team will produce.

Each transaction as it is generated will produce metadata as the synchronization process moves through the systems.

Each of these will be assigned to an overarching ticket and allow for monitoring and review of what is going on.

- **Enters Our System:** A transaction of a change enters our system and is updated in our CMDB system. A ticket is generated with this transaction of change, so that all downstream items can be attached to this ticket.
- **Transactions Generated:** Transactions for the downstream CMDB's are created and sent to each downstream database.
- **Acknowledgement:** The downstream CMDB's will send an Acknowledgement of the transaction and the result of the update to their system.
- **Updating Ticket:** The ticket for this update is updated with all downstream metadata and closed out once all systems have acknowledged that they have processed the updates.
- **Closing of Ticket:** Once the resolution has been completed the ticket is closed. If an acknowledgement needs to be sent back to the Commonwealth's database this will be done with the closing of the ticket.

Auditing of these tickets periodically by the agency liaison's will ensure that everything is proceeding as necessary. Of course, if there is a problem with any of the downstream transactions this will be alerted by the system and a ticket will be generated to fix the problem.

The workflow process will include the use of email and SMS to alert those involved in the process when approvals or action is needed. All metadata of the transactions will be updated onto our dashboard for immediate review.

Change Management

| Ref | Requirements of Selected Offeror |
|------|---|
| A-34 | The Offeror will adhere to the Commonwealth's Change Management Procedures included in Appendix K. |
| A-35 | The Offeror shall assess changes from both a business and technical view point with a clear understanding of the business needs of the Commonwealth, its business partners and customers. The Offeror shall coordinate its Change Management activities by conforming to the Commonwealth's Change Management Process. |
| A-36 | The Offeror shall provide an infrastructure change/release management report on a weekly basis. This report shall provide a forward schedule of changes and maintain a history of changes that were proposed, scheduled and completed, or abandoned with descriptions of results. |
| A-37 | The Offeror shall be responsible for coordinating the activities of all changes with the Commonwealth and other Suppliers as necessary to ensure that appropriate resources are available for monitoring, testing and implementation. |
| A-38 | When classifying changes, the Offeror shall, comply with Commonwealth definitions and associated lead times for each change category as described in the Commonwealth's Change Management Procedures included in Appendix K. |
| A-39 | The Offeror shall provide an after-action report, including root cause analyses and corrective actions, following any unsuccessful change or changes which results in an unexpected negative impact to the Commonwealth, its business partners or customers. This report shall be provided to the Commonwealth and/or its enterprise service provider (RFP 2) designee within three (3) business days. If the root cause cannot be determined within three (3) business days, the Offeror shall notify the Commonwealth of its timeframe to identify root cause and provide a complete report. |
| A-40 | The Offer shall acknowledge that all contract changes (i.e., changes to the signed contract between the Commonwealth and the selected Offeror) must follow the Commonwealth's Contract Change Request Procedure (see Appendix L - Contract Change Request Procedures). |

In Section III.8 of its response to this RFP:

III.8A - 18. The Offeror shall provide a draft Change Management Implementation Plan which shall include:

- a) Contact information for change/release manager(s)
- b) Standard change freeze windows

Verizon Response

As the Commonwealth's expectations and demands rise, Verizon's support and network teams are continually focusing on IT service-quality improvements and achieving the highest levels of availability by re-examining processes and procedures-particularly in the area of change management because we recognize that changes to the network are often a source of downtime.

Verizon recognizes that the Commonwealth has two main expectations of the services provided by:

- The services should be stable, reliable, and predictable.
- The services should be able to change rapidly to meet evolving business requirements.

III.8A - 19. The Offeror shall provide a draft Change Management Plan which complies with the Commonwealth's Change Management Procedures in Appendix K and shall include:

- a) Description of standard plan components
- b) Description of change priority categories (see Commonwealth's Change Management Procedures included in Appendix K) and response time goals
- c) Description of test strategy and sample test completion results
- d) Description of change implementation methodology
- e) Description of rollback procedures
- f) Description of how agencies will be able to make simple VoIP configuration changes via a web portal

Verizon Response

In addition to responses provided to the Change Implementation plan above, Verizon has provided the Change Management Plan in Attachment 6.

Verizon with its partners can provide options to a self-management portal. However based upon the inventory and billing reconciliation requirements within ESMS, tight controls would require custom developed between the systems. This customized development would be optional and over and above the solution offered in our response. Verizon could provide the Commonwealth with a cost, level of effort, and timeframe for this effort post award.”

Service Desk Management

| Ref | Requirements of Selected Offeror |
|------|---|
| A-41 | The Offeror shall provide a Vendor Service Desk (VSD) ITSM solution that is integrated with the Enterprise Service Desk (ESD) ITSM system. |
| A-42 | The Offeror shall integrate its Service Desk processes with the Service Desk processes of the Enterprises Service Desk provider (e.g. RFP #2), as well as the Commonwealth where the processes interact. |
| A-43 | The Offeror's service desk shall electronically interface to the Enterprise Service Desk (ESD). This connection will allow the exchange of ticket, services request, and configuration management information. |
| A-44 | The Offeror shall provide and maintain process documentation for all proposed ITSM processes (e.g. Incident, Problem, and Knowledge Management). The Offeror shall document and maintain throughout the contract period all processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM). |
| A-45 | The Offeror shall provide staffing levels appropriate to handle incident volumes and incident response targets. (see Appendix M for SLA template data sheets) |
| A-46 | The Offeror shall provide a 24x7 service desk and technical support. |
| A-47 | The Offeror provided service desk shall be located within the United States. |
| A-48 | The Offeror shall manage all Incidents from Commonwealth users relating to its provided telecom services, including the following: <ul style="list-style-type: none"> o Logging all relevant details. o Providing first-line investigation and diagnosis. o Resolving those as possible. o Escalating those that cannot be resolved within agreed timescales. |

| Ref | Requirements of Selected Offeror |
|------|---|
| | <ul style="list-style-type: none"> o Communicating with users, keeping them informed of progress, notifying them of impending actions, obtaining appropriate agreement, and in all ways engaging and communicating with them about service provider activities. |
| A-49 | The Offeror shall design all services in compliance with the then-current version of ITIL. |
| A-50 | The Offeror shall provide its own ITSM tool integrated with the ESD to document users' issues; to monitor work queues; and to open, update and close tickets. |
| A-51 | The Offeror shall provide access via a no-fee, dedicated call-in phone number for all service desk services. |
| A-52 | The Offeror shall provide a self-service web channel to allow users to report and monitor status of its service incidents. |
| A-53 | The Offeror shall provide a self-service email address to allow users to report and request status of its service incidents. |
| A-54 | <p>The Offeror provided service desk shall respond to a report request from the Commonwealth and other users of the Commonwealth network. Available reports will include but not be limited to:</p> <ul style="list-style-type: none"> o Tickets created o Submission Method (e.g. Phone, Email) o Number of Tickets Resolved o Reply and Wait Times o Resolution Time o Satisfaction Ratings |
| A-55 | <p>The Offeror shall create an incident ticket for the following:</p> <ul style="list-style-type: none"> o Any service disruption which is reported or detected o Any hazardous conditions that has the potential for major service impact(s) (e.g., fire in a node) o Failure of the network management system that results in loss of visibility to network and telemetry data o Any other fault, event or request that the Commonwealth determines should be monitored or tracked through the service desk |
| A-56 | The Offeror may not refuse to open a ticket for lack of information. |
| A-57 | The Offeror's Service Desk must open a ticket even if there is an open MAC against the service. |
| A-58 | The Offeror shall accept the submission of tickets via phone call or email. Both forms shall be handled and responded to with the same priority. |
| A-59 | The Offeror shall establish a process for a ticket submitter to escalate his or her issue directly to Tier 2. |
| A-60 | <p>The Offeror shall maintain the following data elements for each incident ticket:</p> <ul style="list-style-type: none"> o Ticket Submitter name and contact information o Onsite Contact name and contact information o Incident Ticket number o Fault description and definition of problem o Fault date and time of detection o Identification of customers affected by the fault o Services and locations affected by the fault o Information about detection of service affecting faults for peripheral network resources indicating whether the fault is internal or external o Estimated time to resolve o Resolution Details (what repairs were made). Resolution details shall include but not limited to: specific actions that were taken and why; root cause of problem; time to repair, etc. |

| Ref | Requirements of Selected Offeror |
|------|--|
| | <ul style="list-style-type: none"> o Telecommunication Services Priority (TSP) or non-TSP service |
| A-61 | The Offeror shall work with the Commonwealth to establish incident ticket templates that will be used for each service. These templates will be used by ticket submitters to quickly fill out required information for incidents and used to email issues to the ESD and/or the Offeror's Service Desk. |
| A-62 | The Offeror shall maintain a frequent caller list with contact information already populated. |
| A-63 | The Offeror's service desk shall support trap and traces procedures. |
| A-64 | The Offeror's service desk system shall ensure all tickets, regardless of ticket status or generations source, must remain accessible to contract participants at all times and must have search/query capability. |
| A-65 | The ticket submitter shall be given the opportunity to determine the individual(s) that should be contacted to authorize ticket resolution. The Offeror shall contact the individual(s) determined by the ticket submitter on a per ticket basis. |
| A-66 | The Offeror shall treat any issue which occurs three (3) times within in a sixty (60) day period and/or any issue which has been determined by the agency/TMO as "chronic". The Offeror shall open a Problem ticket for each chronic issue. |
| A-67 | The Offeror shall retain all service desk data in its original format for online access and historical purposes for the term of the contract, including extensions. |
| A-68 | The Offeror shall ensure all service desk reporting activities are logged by the Offeror detailed, and accessible to all contract participants in CSV log format. |
| A-69 | The Offeror shall develop ticket escalation procedures which include all information and troubleshooting the Offeror requires from the Commonwealth to have the incident tickets escalated. These procedures shall be developed and approved by the Commonwealth prior to the start of the services. |
| A-70 | The Offeror provided service desk shall work collaboratively with the Commonwealth and other Supplier service desks to resolve service disruptions efficiently and expeditiously. |
| A-71 | The Offeror's service desk shall provide emergency toll free routing changes within 15 minutes of request receipt. |
| A-72 | The Offeror provided service desk shall support the Commonwealth, as required, in disaster recovery situations. |
| A-73 | <p>The Offeror shall provide monthly service desk reports to the Commonwealth, in both CSV and PDF format. Reports will be due on the 15th of the month; if the 15th falls on a weekend or holiday, then reports need to be delivered prior to the 15th. Reports shall be presented by agency and location and are to be transferred to business area designated folders on the Commonwealth FTP Server. Report samples are as follows:</p> <ul style="list-style-type: none"> o Incident ticket aging report o SLA non-compliance report |
| A-74 | <p>The Offeror shall provide regular service desk reports to OA/OIT on service desk related activities and performance, which at a minimum includes:</p> <ul style="list-style-type: none"> o Key issues relating to service desk processes, improvements, script development. o Status as to service desk staffing, training, and authorization. o Integration activities and issues with other service desks belonging to OA, Agencies, and other telecom service providers. o Trend analysis during the thirteen (13) most recent months. o Calculate metrics and provide monthly reports to OA, to include, but not be limited to: <ul style="list-style-type: none"> o Number of contacts, to include all calls, phone calls, electronic, automated or otherwise. o Number of calls abandoned, average call duration, average time to answer, average time to abandon. o Number and percentage of issues resolved. o Number and percentage of issues passed to other service desks. |

| Ref | Requirements of Selected Offeror |
|------|--|
| | <i>Other pertinent information regarding Service Desk operation and performance.</i> |
| A-75 | <p>The Offeror provided service desk shall respond to a report request from the Commonwealth and other users of the Commonwealth network. Available reports will include but not limited to:</p> <ul style="list-style-type: none"> o Tickets created o Submission Method (e.g. Phone, Email) o Number of Tickets Resolved o Reply and Wait Times o Resolution Time |
| A-76 | <i>The Offeror shall provide and maintain process documentation for Problem Management.</i> |
| A-77 | <i>The Offeror shall provide the ability to execute within an enterprise level Problem Management process that can help define root cause analysis across multiple telecom services providers.</i> |
| A-78 | <i>The Offeror shall provide monthly problem management reports that include on any trending analysis information and preventative measures for service improvement.</i> |
| A-79 | <p>The Offeror shall provide a means for Problem detection from all relevant sources, specifically including the following:</p> <ul style="list-style-type: none"> o Incident Management processes and Incident Management System. o Event Monitoring systems and tools o Technical support staff o OA and OA Customers o Trending of Incidents and Root Cause Analysis |
| A-80 | <i>The Offeror will track requests for Problem Management initiation, by source, organization and Authorized User.</i> |
| A-81 | <p>The Problem Management Process shall include the following capabilities:</p> <ul style="list-style-type: none"> o Provide a means for prioritizing Problems / Known Errors based on considerations of business impact, urgency and severity using the prioritization model agreed to and approved by OA and which aligns with the method for prioritizing Incidents. o Provide a means for categorizing Problems / Known Errors using the categorization model agreed to and approved by OA and which aligns with the method for categorizing Incidents. |
| A-82 | <p>The Offeror shall develop and maintain a Knowledge Management system that will include at a minimum the following:</p> <ul style="list-style-type: none"> o Provide and continuously update a list of OA/OIT-vetted FAQs regarding the Services on a user accessible portal. o Publish answers to the FAQs using a media that is efficient, easy to use, and easily accessible for Authorized Users, as well as subject to approval by OA. o Compile lists of FAQs where recommended solutions can be made available to Authorized Users to increase Authorized Users' ability to resolve incidents. |
| A-83 | <p>The Offeror shall provide an ongoing Service Desk Management Plan which discloses the Offeror's processes and procedures for ongoing management of the service desk and describes:</p> <ul style="list-style-type: none"> o Process for responding to a report request from the Commonwealth o Process for responding to a general information request o Reports generated by the Offeror's service desk system(s) which shall be routinely provided to the Commonwealth |

In Section III.8 of its response to this RFP:

III.8A - 20. The Offeror shall provide a draft Service Desk Implementation Plan which describes:

Two teams make up this delivery structure. First is the actual help desk, which contains the agency liaisons and help desk technicians.

The second team is the customization team, which will be utilized to customize the ITSM tool, and provide for all the eBonding needed to connect the Vendor Service Desk (VSD) with all other service desks within the commonwealth.

Key personnel of this team include:

- Service Desk Manager - This is the manager that will oversee the entire offerings from the VSD. This person will ensure all SLA's are met, the teams are delivering the efficient service and that all connections to other service desks and events are flowing properly.

This person will be the escalation point for the Commonwealth and the point-of-contact (POC) for all VSD service offerings.

- Agency Service Desk Lead (2 positions) - There are two lead liaisons to the agencies. These individuals will provide leadership to the entire Vendor Service desk and will ensure that all SLAs within their agencies are being met. These individuals will also be an escalation point for agency contacts if there are issues with the service.

- Customization Lead - This role will be the lead for the customization team and will manage all customization work in building the eBonding to all other service desks. This role will also manage all support of these ebondings to ensure that the entire solution once configured is operating efficiently.

III.8A - 20. i) Standard definitions for incident ticket priorities with translations for the following:

i. Critical

ii. High

iii. Medium

iv. Low

Verizon Response

Incident tickets are assigned a severity level upon creation. This severity level indicates the extent the incident has on the customer's service and is used to determine the resource prioritisation allocated for resolving the incident and the status update frequency.

Priority Level Matrix

Please see the chart below for Priority Level descriptions.

| Priority | Name | Description |
|----------|------|-------------|
| | | |

| Priority | Name | Description |
|----------|----------|---|
| P1 | Critical | Total loss of Service or degraded Service to the extent that it is unusable by The Commonwealth and The Commonwealth is prepared to release its Service for testing at an agreed upon time. Complete loss of voice service at a single non-enterprise location will be treated as a Priority 1 with notification to the applicable agency. |
| P2 | High | Critical functionality of a service, degraded or unusable, having a high impact on services availability and business functions |
| P3 | Medium | Non critical function or procedure, unusable or hard to use having an operational impact, but with no direct impact on services availability or critical business functions. A workaround is available. |
| P4 | Low | Non Service affecting requests (all other queries not covered by Priority Levels 1 - 2 above. [E.g., scheduled maintenance. |
| | | Loss of any voice service affecting a single user. |

III.8A - 20. j) Training for Commonwealth staff

Verizon Response

For Lot 1: Verizon's partner, Vitalyst, training solution consists of a multi-pronged approach by providing Commonwealth employees with support, classroom training, virtual training, and various self-help material, as well as a complete Skype for Business user communication package. This will allow all Commonwealth users, who may have varying degrees of Microsoft

- **Reporting drill-downs and CSV exports:** Reports are a key part of managing and measuring the effectiveness of the service desk. The software provides many reports and dashboard that allow for drill-down and exports. All SLAs will be managed and monitored through these reports, or configured dashboards.
- **Escalate urgent SLAs:** The service desk allows for setting rules to manage and escalate the SLAs. Our team will configure the software to monitor the SLAs of the VSD as well as monitoring events and tickets that have been escalated to supplier teams.

III.8A - 21. The Offeror shall provide a draft of its Service Desk Management Plan which discloses the Offeror's processes and procedures for ongoing management of the service desk and describes:

a) Process for responding to a report request from the Commonwealth

b) Process for responding to a general information request

c) Reports generated by the Offeror's service desk system(s) which shall be routinely provided to the Commonwealth

Verizon Response

As indicated in previous sections, we will leverage JIRA Service Desk software to provide all service desk functions. This software provides an Application Programming Interface (API) for connectivity to. Our staffing approach contains a separate team to provide customization and creation of an electronic bonding (e-bonding) to all downstream Configuration Management Databases (CMDB). This approach allows us to provide customizations from the central JIRA Service Desk to our supplier ecosystem and ESD interface enabling an easier platform to monitor and maintain.

Our Service Desk Management plan incorporates the following key phases:

| Phase / Task | Estimated Timeline |
|--|--------------------|
| Planning Stage | 30 Days |
| <p>During this stage our team will engage with the commonwealth's team to understand the current catalogs of service, assets, attributes and relationships that will be part of the CMDB. Also during this stage our team will identify the process owners and process manager. This will entail gathering all of the information on how to connect to the Commonwealth CMDB and where all artifacts are stored.</p> <p>During this stage our team will be meeting with downstream teams to determine conditions of connectivity to downstream CMDB's, as well as escalation paths and identification of all stakeholders.</p> | |
| Setup the Vendor Service Desk (VSD) CMDB and Repositories | 20 Days |
| <p>During this stage the customization team will work to setup the ESD service desk, and configure the various data base elements for the acceptance of the repository from the Commonwealth's CMDB.</p> <p>The team will configure the enterprise knowledge base as well as the enterprise portal for use by the end users to engage with and connect to the ESD.</p> | |

| | |
|--|----------------|
| <p>The team will also work to identify and setup the collaboration environment where all of our process and project artifacts will be collected.</p> | |
| <p>Understand Classifications, Grouping, and Responsibility as it pertains to the Information</p> | <p>20 days</p> |
| <p>During this step our teams will define all of the metrics and classifications that need to take place in the data, escalation, severity and SLA processes. During this step processes, will be setup to capture this information from the service desk and audit server. Grouping of information and analytics will be done to allow for the reporting of all data, as well as the creation of the dashboards to be used by the team.</p> | |
| <p>Download data from the Commonwealth's CMDB, Create Base Line Information</p> | <p>10 days</p> |
| <p>Our team will work to download, setup and implement the data from the centralize CMDB from the Commonwealth so that we have a full system and can track everything.</p> <p>During this step our team will also perform verification on the data that has been downloaded, capturing all anomalies and rectifying to ensure that the data has been successfully moved into our CMDB.</p> | |
| <p>Setup Auditing Process</p> | <p>20 days</p> |
| <p>The auditing server and process will be setup to ensure that the entire database can be audited over time with the central data to ensure we are compliant and always up to date.</p> <p>Setup of the period of performance for this auditing and all other metrics to ensure that we can perform the audit and monitor its success.</p> | |
| <p>Create ESD processes (Change Control and others)</p> | <p>15 days</p> |
| <p>Work with the Commonwealth and other entities to ensure the change control and all other processes have been created, understood and implemented for success.</p> <p>Creating documentation for all processes and placing these into the collaboration environment so that all team members have access to them.</p> <p>Creating the metrics of the process within our system to ensure monitoring of compliance is available to our managers and in our dashboard.</p> | |

The entire process will be worked by members of our team. The plan will be worked as a group and is not asynchronous in operation. Our team will ensure all phases of the plan are completed.

Our Service Desk Management plan will engage our team in an abridged software development life cycle for each pipe. We will be providing the API's and connectivity from our system to the API's from the downstream system. In most cases this will be configuration of what is already available, in others we may have to create the pipe (RESTful web services) to provide the integration. Automation is the intended outcome of our pipe connections. The approach is:

Planning: Work with the downstream vendor to understand the resources available and obtain a description of all available API's for the CMDB they are utilizing. During this step, we will outline what approach both teams will take to create this ebonding pipe.

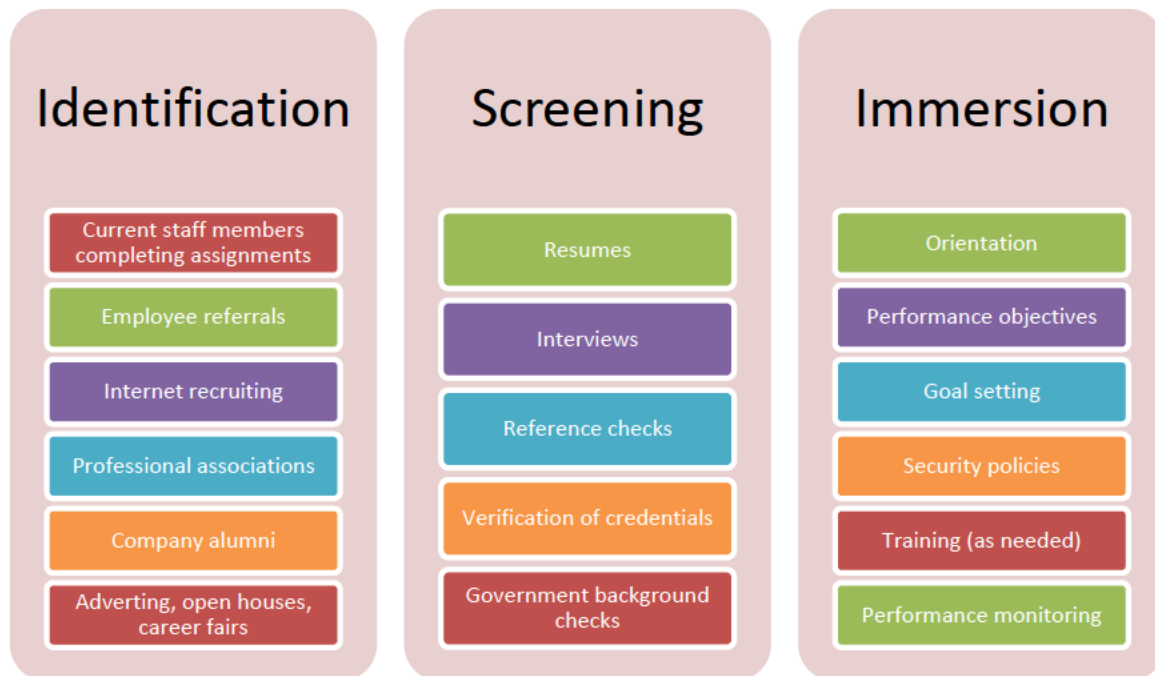

Design: During design our team will work with the downstream team members to understand and outline any GAP's that need to be addressed and work out any interfaces that are needed to create this ebonding interface.

Configuration / Coding: The configuration of our outbound and inbound communications pipes will handle most of the integration to industry standard CMDB's. However, in some instances we may have to extend the existing API's to allow for a tighter integration to non-standard systems. We may also have to add features and flow to the current API's to allow for the integration. This will be coded in a way that the downstream provider can access with whatever language they work in, such as using RESTful web services.

Testing: We will utilize two levels of testing to ensure that we are successful in implementing this ebonding pipe. First, our teams will unit test our side of the work to ensure that our process is working as designed and expected. Then we will utilize a testing area to provide end-to-end connectivity and system testing with the downstream provider to ensure that the pipe is working effectively. Scripting these tests is key to ensure we take out the subjectivity and know we are successful. We will also be testing to our success criteria as outlined in the design phase.

Deployment: Once we have proven that we are successful the ebonding pipe will be turned on and available in production. This could require deployment of code, and if so, we will utilize our deployment methodology and perform a verification step to ensure all components are deployed successful. Once fully deployed we will provide a full end to end test to ensure the process is working effectively from both production systems.

From a Service Desk resource management perspective, our plan shall incorporate industry standard onboarding and training process that includes a Three-step recruiting process for open positions. These steps are - **(1) Identification; (2) Screening; and (3) Immersion**. This process is the same for each employee with changes being in the qualifications and immersion stage based on the intended role of the individual. This is where the differences for management and staff would be.

To ensure we have the right talent for our Service Desk staffing, we will ensure the candidates have the required experience in providing first level support through taking calls and handling incidents or Service Requests, using the incident management and request fulfillment processes. Our Service Desk resources will go through a rigorous training process including standard operating procedures (SOP) and knowledge base on frequent incidents and problems and their resolutions. The resources will also shadow the current resources in the VSD to understand custom processes and technical handoff procedures.

On an ongoing basis to ensure we have the best trained and experienced resource pool, our Service Desk management plan will also evaluate our employees by implementing the following process:

Performance Monitoring: During predefined periods analytics of job performance are pulled and measured. These are running analytics, and are collected based on the current period and trending. These analytics include: Number of tickets resolved, time to resolution, number of open tickets, and average age of tickets. There are many more analytics involved, and we are always evaluating our analytics as well.

Performance Feedback: On a predefined timeframe our management staff will sit with each employee and go over the performance analytics. The discussions will center around what the employee is doing well and where there needs to be improvement. Our intent is to build our employee, to push them and cause them to stretch. Any areas of improvement will be discussed and cataloged to be put into the next performance feedback meeting.

Electronic Bonding (e-bonding) is being planned for automatic interaction between the VSD, Verizon, other Carrier and Commonwealth systems. This custom architecture allows a seamless integration of Event and Incident management flow, Service desk integration with the Enterprise and Commonwealth CMDB integration for Lot 1 and Lot 2 service management functions.

Following is a partial list of Integration activities between Verizon, Commonwealth and other partner IT Systems.

Below is a summary of our E-bond interface(s) for Lot 1 and Lot 2:

| Lot 1 - E-Bond Integration | Function | Internal / External Integration | Vz IT | TPV | Ebond vs. Manual |
|--|----------------------------|---------------------------------|-------|-----|------------------|
| Voice Event Mgmt System to Enterprise NOC | Event Mgmt | External or Internal | Y | Y | Ebond |
| Enterprise Service Desk Incident System to Voice Service Desk Incident System | Incident Mgmt | External or Internal | N | Y | Ebond |
| Voice Service Desk Incident System to Microsoft Incident System (Tier 2/3) | Incident Mgmt / Event Mgmt | External | N | Y | Manual |
| Voice Services Desk Incident System to Verizon ETMS system (IP Trunking) | Incident Mgmt | Internal | Y | Y | Ebond |
| Voice Services Desk Incident System to Verizon ETMS system (Managed SBC/Cloud Connector) | Incident Mgmt / Event Mgmt | External or Internal | Y | Y | Ebond |
| Voice Services Desk Incident System to RedSky Incident Mgmt System | Incident Mgmt / Event Mgmt | External | N | Y | Manual |
| Voice Service Desk CMDB to Enterprise Service Desk CMDB | SACM | External or Internal | N | Y | Ebond |

| Lot 2 - E-bond Integration | Function | Internal / External Integration | Vz IT | TPV | Ebond vs. Manual |
|---|------------|---------------------------------|-------|-----|------------------|
| Voice Event Mgmt System to Enterprise NOC | Event Mgmt | External or Internal | Y | N | Ebond |

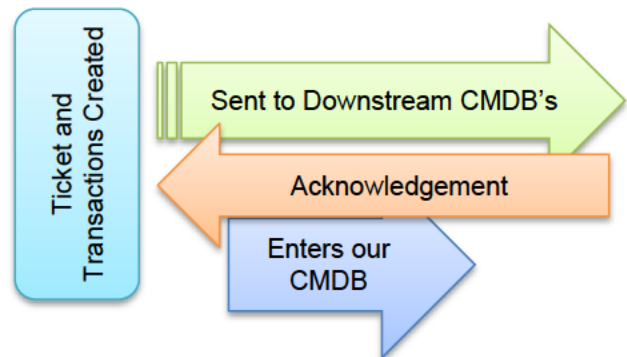

| Lot 2 - E-bond Integration | Function | Internal / External Integration | Vz IT | TPV | Ebond vs. Manual |
|--|---------------|---------------------------------|-------|-----|------------------|
| Enterprise Service Desk Incident System to Voice Service Desk Incident System | Incident Mgmt | External or Internal | N | Y | Ebond |
| Voice Service Desk Incident System to VzT (ILEC) Incident Mgmt System (vRepair) | Incident Mgmt | Internal | Y | Y | Ebond |
| Voice Service Desk Incident System to TelPlus Incident Mgmt System (OOF) | Incident Mgmt | External | N | Y | Manual |
| Voice Services Desk Incident System to Verizon ETMS system (NUMS voicemail - incl password resets) | Incident Mgmt | Internal | Y | Y | Ebond |
| Voice Services Desk Incident System to Verizon ETMS system (Toll Free Voice) | Incident Mgmt | Internal | Y | Y | Ebond |
| Voice Services Desk Incident System to Verizon ETMS system (Conferencing) | Incident Mgmt | Internal | Y | Y | Ebond |
| Voice Services Desk Incident System to PTS Incident Mgmt System (Pay Phones) | Incident Mgmt | External | N | Y | Manual |
| Voice Service Desk CMDB to Enterprise Service Desk CMDB | SACM | External or Internal | N | Y | Ebond |

From a Commonwealth perspective, once a ticket is opened by the ESD, it is passed on to the right entity through the e-bond interface to our VSD ITSM system. Complex events that require deeper technical expertise and passed to our Tier 2 Service desk that has a deeper domain knowledge. This team will triage events with internal Verizon teams as required and our service partners ensuring a common interface for all service management incidents and resolution.

The synchronization process of our CMDB and through to other providers' CMDB's will be an automated transaction process using the e-bonding pipes that our configuration management team will produce.

Each transaction as it is generated will produce metadata as the synchronization process moves through the systems.

Each of these will be assigned to an overarching ticket and allow for monitoring and review of what is going on.

- **Enters Our System:** A transaction of a change enters our system and is updated in our CMDB system. A ticket is generated with this transaction of change, so that all downstream items can be attached to this ticket.
- **Transactions Generated:** Transactions for the downstream CMDB's are created and sent to each downstream database.
- **Acknowledgement:** The downstream CMDB's will send an Acknowledgement of the transaction and the result of the update to their system.
- **Updating Ticket:** The ticket for this update is updated with all downstream metadata and closed out once all systems have acknowledged that they have processed the updates.
- **Closing of Ticket:** Once the resolution has been completed the ticket is closed. If an acknowledgement needs to be sent back to the Commonwealth's database this will be done with the closing of the ticket.

Verizon will have detailed Design requirement meetings with reference to e-bonding between Verizon IT and the Commonwealth Systems, and all partners.

Once this activity is completed, Program Management and Technical resources will be allocated from Verizon. The team will work very closely with all parties including the Commonwealth to architect, design, develop and Implement the e-bonding between the relevant Systems.

Detailed test plans will be developed and acceptance criteria established. Once the Software Development is completed, Quality Assurance testing will be performed and completed prior to systems move to production phase.

III.8A - 23. The Offeror shall describe its Incident Management Process and integration with the Enterprise Service Desk.

Verizon Response

Verizon's Incident Management Process is a comprehensive, multi-layered approach designed to ensure the rapid identification, diagnosis, and resolution of service issues. It is fully integrated with the Enterprise Service Desk (ESD) to provide a seamless experience for our customers. The process begins with the ESD, where all customer inquiries are logged and categorized. This information is then fed into our Incident Management System (IMS), which automatically creates incidents and assigns them to the appropriate support team based on the issue type and severity. Our teams utilize a variety of tools and resources, including our Knowledge Base, to quickly resolve issues and provide clear communication to our customers throughout the process.

III.8A - 24. The Offeror shall describe its Problem Management Process and integration with the Enterprise Service Desk.

Verizon Response

Verizon's Problem Management Process is a structured approach to identifying, diagnosing, and resolving issues. It begins with the receipt of a request from the Enterprise Service Desk, which is then categorized and prioritized. The process involves a series of steps: identification, diagnosis, investigation, and resolution. Each step is documented and tracked to ensure transparency and accountability. The process is designed to be efficient and effective, with clear roles and responsibilities for each team member involved.

Verizon's Problem Management Process is a structured approach to identifying, diagnosing, and resolving issues. It begins with the receipt of a request from the Enterprise Service Desk, which is then categorized and prioritized. The process involves a series of steps: identification, diagnosis, investigation, and resolution. Each step is documented and tracked to ensure transparency and accountability. The process is designed to be efficient and effective, with clear roles and responsibilities for each team member involved.

A Verizon's Problem Management Process is a structured approach to identifying, diagnosing, and resolving issues. It begins with the receipt of a request from the Enterprise Service Desk, which is then categorized and prioritized. The process involves a series of steps: identification, diagnosis, investigation, and resolution. Each step is documented and tracked to ensure transparency and accountability. The process is designed to be efficient and effective, with clear roles and responsibilities for each team member involved.

III.8A - 25. The Offeror shall describe its Knowledge Management Process and integration with the Enterprise Service Desk.

Verizon Response

Verizon's Knowledge Management Process is a structured approach to capturing, organizing, and sharing information. It begins with the identification of knowledge gaps and the collection of relevant information. The process involves a series of steps: identification, collection, organization, and sharing. Each step is documented and tracked to ensure transparency and accountability. The process is designed to be efficient and effective, with clear roles and responsibilities for each team member involved.

- Review/Acceptance of Verizon's Code of Conduct
- Completion of Verizon Employees / Badged Employees Process
- Review of our comprehensive Service Desk Guide Lines/Process documents, and the overall expectations for job success for each Service Desk position

III.8A - 27. The Commonwealth users would like access to the Offeror's upper tier technical resources, for example either response a technical question; or a more detailed status on a particular open or closed incident. The Offeror shall describe how they will respond to both technical requests and/or provide updates to open incidents to the Commonwealth users.

Verizon Response

In the event the Commonwealth requires detailed status on any open or closed incident the PMO service assurance team will be able to facilitate that request. The Commonwealth can place a request through the VSD or direct to the dedicated Incident Manager on the PMO staff for the additional information required. Those resources will leverage multiple internal downstream and vendor partners such as Microsoft Professional Services, RedSky and AudioCodes to develop a detailed response for the added updates, and/or information. Verizon will coordinate access to these technical resources, as needed, to ensure resolution or response to the incident.

In addition Verizon would arrange an executive communication conference call, at the Commonwealth' request, that would be coordinated by Verizon PMO and will include the necessary technical resources to provide near real time status updates and next actions throughout the lifecycle of an incident ticket.

Event Management

| Ref | Requirements of Selected Offeror |
|------|---|
| A-84 | <i>The Offeror shall provide 24x7 event management and monitoring process (e.g. NOC/SOC/Service Desk) for all of its services that will electronically interface with the Commonwealth's vendor provided (RFP 2) Enterprise Event Management (NOC/SOC) Service Operations.</i> |
| A-85 | <i>The Offeror shall forward alerts to the Commonwealth's vendor provided (RFP 2) Enterprise Event Management (NOC/SOC) Service Operations as well as impacted Agencies.</i> |
| A-86 | <i>The Offeror shall notify the Commonwealth's Voice Services team and the affected Agencies of any service disruption immediately or at maximum within 30 minutes.</i> |
| A-87 | <i>The Offeror shall follow the Commonwealth's outage notification process as described in Appendix N.</i> |
| A-88 | <i>The Offeror shall work with the Commonwealth Voice, Network and Security Operations and or Agencies on service performance or outages until resolved.</i> |
| A-89 | <i>The Offeror shall provide network security monitoring, alerting and analysis services and shall notify the Commonwealth Network and Security Operations, OA/OIT Voice and Unified Communications Division, and Agencies of any suspected or identified security issues immediately or within 15 minutes.</i> |
| A-90 | <i>The Offeror shall provide 24x365 response and service desk technical support and reporting.</i> |
| A-91 | <i>The Offeror provided service desk shall work collaboratively with Commonwealth and other supplier service desks and Agencies to resolve service disruptions efficiently and expeditiously.</i> |

| Ref | Requirements of Selected Offeror |
|------|---|
| A-92 | The Offeror shall provide an automated interface between its enterprise event management systems and the Enterprise Monitoring System to support the automatic creation of incidents in the ESD based on system monitoring of security and network events and alerts. |
| A-93 | The Offeror shall document and maintain throughout the contract period all event management processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM). |

In Section III.8 of its response to this RFP:

III.8A - 28. The Offeror shall describe in detail its approach to service operations and event management. This includes, but is not limited to, the proposed network and security operations services.

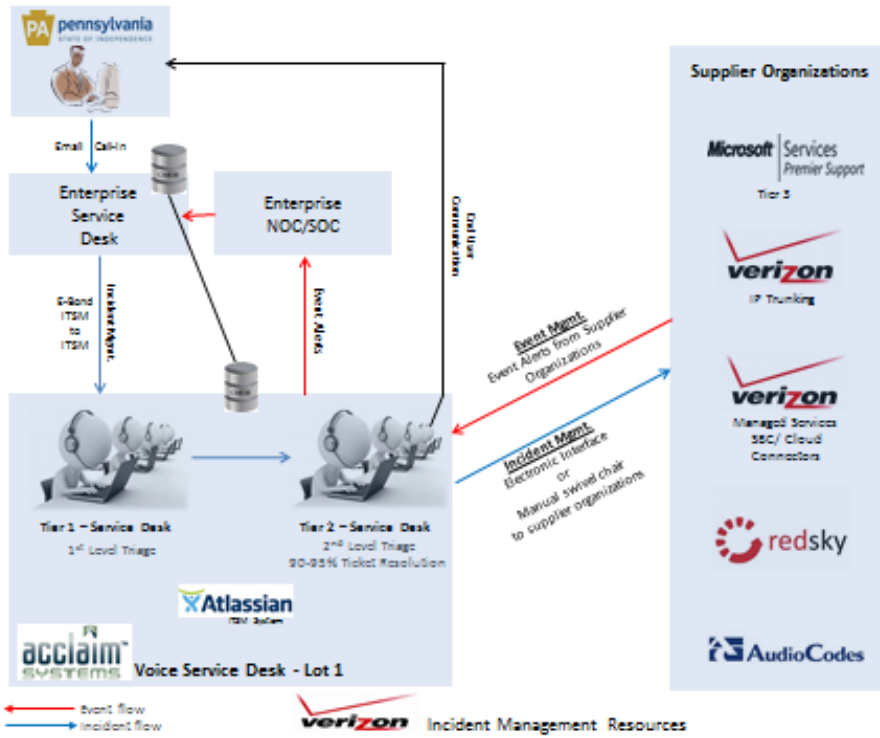

Verizon Response

Verizon has designed a Service Operation and Event Management Process that will ensure all supplier organizations have aligned their event monitoring alerting and alarming processes against an established severity/priority/impact to the Commonwealth's business entities. It is critical that all events are properly responded to with the urgency and priority relative to the impact to normal operations.

Each supplier responsible for the monitoring and management aspects of the overall solution will accomplish this via a pre-defined event management process. Each of these suppliers will transfer these event alerts to the Vendor Service Desk (VSD) ITSM system via an e-bond or a manual swivel chair process. Specific alerts will be set up in Verizon's customized ITSM system that will advise Service Desk Agents and key PMO personnel that an Event has been logged. The VSD agents will promptly alert the Commonwealth and the Enterprise NOC via an e-bond integration of the event. This event alert will include the specific platform that is impacted and the feature/functionality that is degraded or unavailable.

Once that alert has been sent to the Enterprise NOC and the Commonwealth the e-bond between the two systems will ensure the consistent flow of critical information and updates is occurring until that issue is resolved. Additional communication will occur via a separate email alert to key distribution lists and if required an executive communication bridge where key information will be provided near real time by Verizon personnel to the Enterprise NOC and/or the Commonwealth team. For all service impacting events an incident manager from the dedicated PMO team will be assigned which will provide as a single point of contact for escalations and communications throughout the event.

The following diagram depicts the event flow (denoted by the red line) from the supplier organization to the VSD and onto the Enterprise NOC and the Commonwealth (example used is for Lot -1)

Service Integration Architecture overview

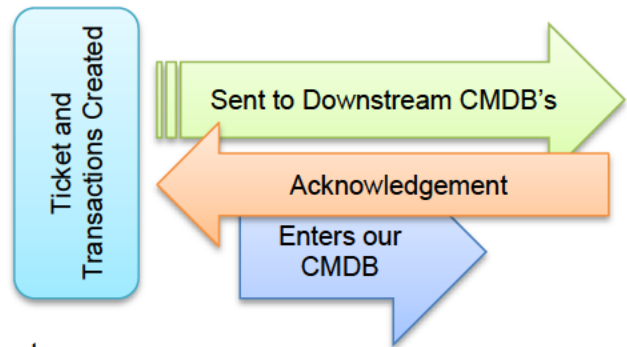

[Placeholder text for the main body of the document, consisting of multiple paragraphs of illegible content.]

□

□

Each transaction as it is generated will produce metadata as the synchronization process moves through the systems.

Each of these will be assigned to an overarching ticket and allow for monitoring and review of what is going on.

- **Enters Our System:** A transaction of a change enters our system and is updated in our CMDB system. A ticket is generated with this transaction of change, so that all downstream items can be attached to this ticket.
- **Transactions Generated:** Transactions for the downstream CMDB's are created and sent to each downstream database.
- **Acknowledgement:** The downstream CMDB's will send an Acknowledgement of the transaction and the result of the update to their system.
- **Updating Ticket:** The ticket for this update is updated with all downstream metadata and closed out once all systems have acknowledged that they have processed the updates.
- **Closing of Ticket:** Once the resolution has been completed the ticket is closed. If an acknowledgement needs to be sent back to the Commonwealth's database this will be done with the closing of the ticket.

Verizon will have detailed Design requirement meetings with reference to e-bonding between Verizon IT and the Commonwealth Systems, and all partners.

Once this activity is completed, Program Management and Technical resources will be allocated from Verizon. The team will work very closely with all parties including the Commonwealth to architect, design, develop and Implement the e-bonding between the relevant Systems.

Detailed test plans will be developed and acceptance criteria established. Once the Software Development is completed, Quality Assurance testing will be performed and completed prior to systems move to production phase.

The Verizon Managed Network Service Organization (MNSO) will provide the proactive monitoring, fault and performance management of our VoIP solution with CCE and associated infrastructure providing:

- **Monitoring** - 24 hours a day, 7 days a week, 365 days a year.
- **Opening a Trouble Ticket** for an incident upon receipt of an alarm.
- **Proactive notification** to customer site contact via email, Short Message Service (SMS) or phone.

Step 4

_____ **A** _____

Step 5

_____ **A** _____

_____ **A** _____

III.8A - 30. The Offeror shall describe how it plans to detect and mitigate TDOS / Spoofing attacks.

Verizon Response

Verizon's security architecture is designed to detect and mitigate Denial of Service (DoS) and Spoofing attacks through a multi-layered approach. This includes network-level monitoring, intrusion detection systems, and robust authentication protocols to ensure service availability and integrity.

Verizon employs advanced threat intelligence and behavioral analysis to identify anomalous traffic patterns associated with DoS and Spoofing attacks. Our security operations center (SOC) is equipped with 24/7 monitoring and incident response capabilities to quickly detect and neutralize threats.

Verizon's security strategy is based on defense-in-depth, ensuring that multiple layers of protection are in place to prevent, detect, and respond to attacks. This includes network segmentation, access control, and regular security audits.

■ • Verizon's security architecture is designed to detect and mitigate Denial of Service (DoS) and Spoofing attacks through a multi-layered approach.

4. Compliance and incident response—Continually monitor for compliance and be prepared with an incident response system.

Verizon will explore options with the Commonwealth team to detect and mitigate potential TDOS attacks.

III.8A - 31. The Offeror shall identify any other companies or organizations it plans to include in its service delivery team.

Verizon Response

Verizon's service delivery team for Lot 1 and Lot 2 includes the following partners:

| Contractor | Services |
|-----------------------------------|--|
| Acclaim Systems (Lot 1 and Lot 2) | Systems Integration, Transition Management, Project Management and Service Desk MAC |
| Microsoft (Lot 1) | MS Consulting, Premier Services |
| Vitalyst (Lot 1) | Training |
| PC Network Inc. (Lot 1 and Lot 2) | Commonwealth satisfaction surveys, |
| TelPlus (Lot 2) | Management and coordination for out of franchise services |
| PTS (Lot 2) | Payphones |

B. Project Management and Administration Services

Description

Project Management and Administration includes those program-wide actions associated with initiating, planning, executing, and controlling project activities to achieve specific goals and meet specific success criteria.

Tasks

General Project Management and Administration Services

| Ref | Requirements of Selected Offeror |
|-----|---|
| B-1 | <i>The Offeror shall act as a single point of coordination and accountability for all services provided under this contract. This includes any services provided by any subcontractors used by the Offeror.</i> |
| B-2 | <i>The Offeror, at the request of OA, shall attend TMO meetings and TMO Knowledge days upon request. The commonwealth will provide the agenda prior to the meeting so the Offeror can schedule the proper resources for attendance.</i> |
| B-3 | <i>The Offeror shall commit to a Deliverable Approval Plan which it has developed and submitted and which has been approved by the Commonwealth.</i> |

| | |
|-----|--|
| Ref | Requirements of Selected Offeror |
| B-4 | The Offeror shall include the approved Deliverable Approval Plan in its Process and Procedures Manual (PPM). |

In Section III.8 of its response to this RFP:

III.8B 1. The Offeror shall develop and provide a proposed Deliverable Approval Plan.

Verizon Response

Verizon shall implement a Deliverable Approval Plan program, to be led and managed by the Program Management Office. This is a tool for scope and acceptance management, to identify what has been agreed upon and what is agreed to be out of scope, as it relates to projects and deliverables.

The following example Approval Plan template helps to ensure that the requirements and expectations of the project deliverables are met, approved and accepted. This form should be used at each stage of a project as deliverables are produced in order to ensure that they meet the needs of the Commonwealth.

Example of Approval Plan form:

| | | | |
|-----------------|--|-----------|--|
| Project Title | | Project # | |
| | | | |
| Project Manager | | Date | |

| Deliverable | Deliverable Type | Deliverable Description | Approval Criteria | Authorized for review | Status and Date |
|-------------|------------------|-------------------------|-------------------|-----------------------|-----------------|
| | | | | | |
| | | | | | |

| |
|---------------|
| Out of Scope: |
| |

This process can be woven into the Process and Procedures Manual, PPM.

Status Reporting

| | |
|-----|---|
| Ref | Requirements of Selected |
| B-5 | The Offeror shall attend regularly scheduled executive status meetings held in the Harrisburg area. The Offeror shall provide the agenda prior to the meeting and have staff and subcontractors at the meeting when appropriate for the current discussion. |

| Ref | Requirements of Selected |
|-----|--|
| B-6 | The Offeror shall provide a monthly report itemizing and describing outages, traffic, calls, etc. |
| B-7 | The Offeror shall provide a monthly report reflecting performance in relation to all contractual service levels. |

In Section III.8 of its response to this RFP:

III.8B 2.. The Offeror shall describe its proposed approach to monthly status reporting, including a description of scope, level of detail and presentation format.

Verizon Response

Verizon proposed approach to monthly status reporting will follow the proven approach developed with the Commonwealth over the past 10 years. Verizon will attend regularly scheduled executive status meetings held in the Harrisburg area.

Verizon will provide the agenda prior to the meeting and have staff and subcontractors at the meeting when appropriate for the current discussion. Verizon will provide a monthly report itemizing and describing outages, traffic, calls, etc., as well as performance in relation to all contractual service levels.

The following is a proposed topic agenda for the monthly status reporting:

- Order Management Summary
- Major Project Status
- Incident Management Metrics
- Service SLA Performance (CSI plans where required)
- Capacity/Utilization Reports
- Problem Management/Chronic Review
- Known Error Database review w/ associated mitigation plans
- Agency specific Service Improvement Plans (SIP)
- VSD Performance
- Change Management Summary and Key Metric Areas
- Billing Summary/Financial Review
- Verizon/Commonwealth Training

User Satisfaction Surveys

| Ref | Requirements of Selected |
|-----|--|
| B-8 | The Offeror shall provide quarterly customer satisfaction surveys to the Commonwealth and should contain both quantitative and qualitative information. The Offeror shall use these results and provide dashboard measurements to be reviewed at PMO meetings and posted on the TMO website. |

In Section III.8 of its response to this RFP:

III.8B - 3. The Offeror shall describe its process for conducting end-user satisfaction surveys.

Verizon Response

Verizon assumes the “customers” in this context are the Commonwealth agencies and that the dashboard may include the following key metrics:

- Agency customer satisfaction and trending;
- Improved service level execution;
- Innovation in service and product delivery;
- Service delivery, implementation and change management satisfaction;
- Effectiveness of meeting agency business needs;
- Agency and Service Partner relationship satisfaction and trending;
- Improved management and control of the Services through utilization of best practices and standard processes;

There will be two stages to this service delivery:

Stage 1: Survey Update—Discovery and Improvements

During services launch and due diligence, Verizon and its partner PCN, will perform a review of the current survey and delivery and will:

- Work with 4 to 6 Commonwealth Stakeholders (designated by the Commonwealth and to include a representative from OA) to review the goals of the dashboard and whether these goals are currently being met. Goals should be derived from the metrics above along with any additional key metrics identified by Stakeholders areas.
- Review the content of the survey, including (i) survey length, (ii) survey questions, (iii) selection of question types (e.g., multiple choice, open ended, ratings based, etc.); (iv) optimal order of questions and answer choices, as applicable.

The review will encompass the qualitative and quantitative data available from the current Survey services and, if necessary, may request additional data on that is not currently gathered via the survey.

Stage 2: Survey Administration

[Redacted]

■ [Redacted]

■ [Redacted] A [Redacted]

■ [Redacted]

- Collate the survey response data.
- Create a draft dashboard for review by the Stakeholders.
- Publish the final approved dashboard for review at Commonwealth meetings.
- Verizon will also perform maintenance of survey size and content:
 - We expect some attrition of identified survey respondents from quarter to quarter. Customer Stakeholders will work with Verizon & PCN to designate new respondents to maintain the size of the sample.
 - On a quarterly basis, Verizon will review the qualitative survey content and recommend if any modifications are required.
 - Customer may also request modifications.
 - All modifications will be scoped and invoiced as a project change order (whether change is recommended by PCN or another party).
- Verizon will review survey content and include discussion in customer monthly meetings. All areas of improvement will be captured in service improvement plans that can be tracked and monitored to completion.

Customer will:

- Encourage participation by the target population to achieve mutually agreed percentage of participation
- Provide SLA and cost data as requested by the Verizon
- Work with Verizon & PCN to add new respondents to allay attrition.
- Propose and/or review and approve modifications.

Transition Services

| Ref | Requirements of Selected Offeror |
|------|---|
| B-9 | <p>The Offeror shall accomplish the transition of services in a transparent, seamless, orderly, and uninterrupted manner. Offeror's responsibilities with respect to the transition include:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Transfer of the services in accordance with the Transition Plan agreed to by Commonwealth and including a number of Transition Milestones <input type="checkbox"/> Performing the transition without disruption to Commonwealth's operations <input type="checkbox"/> Scheduling transition related tasks when convenient for agencies and their locations <input type="checkbox"/> Assuming responsibility for all costs associated with the transition <input type="checkbox"/> Otherwise performing such transition and migration tasks as are necessary to enable Offeror to provide the services in accordance with the terms of the contract, including the applicable service levels |
| B-10 | <p>The Offeror shall include, with its proposal, an initial transition plan that includes key tasks and milestones, resource requirements (Offeror and Commonwealth), timelines and other dependencies required to successfully execute the transition.</p> |

| Ref | Requirements of Selected Offeror |
|------|--|
| B-11 | <p><i>In coordination with the Commonwealth, the Offeror shall jointly develop the final detailed transition plan that includes:</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> <i>Deliverables to be completed by Offeror (refer to the Transition Milestones and Key Deliverables section below)</i> <input type="checkbox"/> <i>Date(s) by which each activity or deliverable is to be completed (the "transition milestones")</i> <input type="checkbox"/> <i>Process and set of standards to which Offeror shall adhere in the performance of the transition services and that shall enable the Commonwealth to determine whether Offeror has successfully completed the transition and the activities and deliverables associated with each transition milestone</i> <input type="checkbox"/> <i>Any transition responsibilities to be performed or transition resources to be provided by Commonwealth and/or Commonwealth customers</i> <input type="checkbox"/> <i>Any transition responsibilities to be performed or transition resources to be provided by another Commonwealth contractor</i> <input type="checkbox"/> <i>A detailed description of the processes and procedures that Offeror will implement (and associated implementation schedules) to effect the seamless integration and coordination of the services with related services to be provided by other Commonwealth contractors</i> |
| B-12 | <p><i>The Offeror shall develop and maintain a Process and Procedures Manual which is available at all times to authorized Commonwealth staff.</i></p> |

In Section III.8 of its response to this RFP:

III.8B 4. The Offeror shall provide a draft transition plan and schedule with its proposal that describes the effort to migrate from the current voice services architectures and configurations to the proposed solution. The plan should include key tasks and milestones, resource requirements (Offeror and Commonwealth), timelines and other dependencies required to successfully execute the transition.

Verizon Response

Refer to the draft transition plan and schedule provided as Attachment 8.

III.8B 5. The Offeror shall provide a table of contents and description for a Process and Procedures Manual.

Verizon Response

The following is an outline of the Table of Contents for a Process and Procedure Manual (PPM):

1. Operational Support Review
2. SLA Management
3. Service Continuity Management
4. Financial Management
5. Asset and Configuration Management
6. Security Management
7. Order Management
8. Quality Management

- 9. Technology, Engineering, Architecture
- 10. Voice Premises, Notification, and Monitoring
- 11. Governance and Relationship Management
- 12. Capacity and Availability Management
- 13. Documentation Management
- 14. Project Delivery
- 15. Data Network Monitoring and Maintenance
- 16. Service Desk
- 17. Request Fulfillment
- 18. Incident and Problem Management
- 19. Operational Change Management
- 20. Contract Change Management
- 21. Reporting

Transition Milestones and Key Deliverables

The Commonwealth’s goal is to begin ordering for equipment and services for the OA/OIT facilities at 1 and 5 Technology Park within 90 days following contract award.

Following the transition at 1 and 5 Technology Park and verification that the processes and services are occurring successfully, transition will commence at the remaining offices within OA and with the other agencies.

All agency services are to be successfully transitioned and accepted by the Commonwealth prior to October 1, 2019. The following schedule of milestones and deliverables is based upon these goals.

Appendix W describes the transition planning and management milestones and the service enablement milestones the successful Offeror will be required to meet unless otherwise agreed to, by the Commonwealth, in writing. The Offeror shall consider this while describing its service offerings and preparing its initial transition plan to be included in its response.

Verizon Response

Read and understood.

Security

| Ref | Requirements of Selected Offeror |
|------|---|
| B-13 | The Offeror shall permit the Commonwealth or its designee to perform security risk assessments by a qualified and approved security vendor on an annual or as-needed basis to supplement internal auditing and compliance activities. |

| Ref | Requirements of Selected Offeror |
|------|---|
| B-14 | The Offeror shall perform criminal and civil background checks on all assigned staff. Any Offeror personnel and subcontracted personnel are required to pass a background check prior to access to any Agency facility or network, if required by the Agency. |

In Section III.8 of its response to this RFP:

III.8B 6. The Offeror shall describe the level of access it proposes to make available to its physical facilities to Commonwealth staff.

Verizon Response

The Offeror will allow Commonwealth staff access to its physical facilities based on an agreed to process for advanced notification, level of access required, authorized personnel list, and emergency support requirements.

Staffing

| Ref | Requirements of Selected Offeror |
|------|--|
| B-15 | The Offeror shall ensure that staffing resources involved with the design, implementation, transition, administration and support of all functions within the managed services have training, certification, and hands-on working experience (See Section III-5 for Key Positions and Staffing for additional requirements). |

In Section III.8 of its response to this RFP:

III.8B 7. The Offeror shall provide a matrix of the staffing resources involved with the design, implementation, transition, administration and support of the managed security solution. This must include their training, certifications, experience, qualifications and responsibilities.

Verizon Response

As described in Attachment 8 Voice Transition Plan, Verizon will deploy a Transition Team and a steady state Program Management Office team to meet the requirements of the solution. Please refer to Attachment 2 regarding key resources for certifications and experience.

Verizon is responsible for recruiting and maintaining staff with the technology and skill levels adequate to achieve contractual objectives. Verizon has the ability to scale resources as business needs grow and evolve.

The following are examples of roles and responsibilities of the key resources:

Verizon Implementation Project Manager

The Verizon Implementation Project Manager (IPM) will manage Services implementation including, but not limited to:

- Review and Update Business Requirements Document (BRD)
- Review Alternate Route and Disaster Recovery Plan
- Provide Scope Summary document for Commonwealth approval

- Maintaining overall relationship between Commonwealth and Verizon
- Facilitating communication between Commonwealth and Verizon
- Participating in the evaluation of network topology, diversity, and connectivity issues
- Providing Commonwealth with pricing information
- Maintaining overall responsibility for sales, support, and operations
- Negotiating and disseminating contractual information

Program Management Office (PMO) Delivery Executive

The Verizon PMO Program Delivery Executive has operational control in the following areas:

- Facilitates the problem/situation escalation program to expedite problem resolution.
- Follows up with key Commonwealth personnel on problem resolution.
- Monitors overall service performance and proactively recommend improvements and corrections.
- Constructs business plans for commitment of resources to the Commonwealth account.
- Meets and consults with Commonwealth on a regular basis to gain/maintain an understanding of specific Commonwealth business needs.
- Periodically meets with key Commonwealth personnel to improve service integration resulting in enhanced and streamlined processes.
- The Verizon Program Delivery Executive creates and maintains a list of all Verizon individuals involved in this project along with specific roles, responsibilities and contact numbers.

Service Level Agreements

Note: Offerors proposals shall be based on the acknowledgement of the SLAs as shown in Appendix M - SLA Data Sheets.

The Commonwealth is committed to the intent of these SLAs. During negotiations, the Commonwealth is willing to discuss the variables of the SLAs with the expectation that negotiated changes in SLA variables would be met with a corresponding reduction in service cost. However, proposals and pricing should be based upon the SLAs as they appear in this document.

| Ref | Requirements of Selected Offeror |
|------|---|
| B-16 | The Offeror's Service shall meet the Commonwealth's Service Level Agreements (SLAs) that establish minimum performance requirements for services provided (see Appendix M - SLA Data Sheets). |
| B-17 | The Offeror's measurement and monitoring of service level performance shall permit reporting at a level of detail and frequency sufficient to permit the Commonwealth to verify compliance with the service levels and shall be subject to audit. Reporting of service availability must be viewable at the agency level. |

| Ref | Requirements of Selected Offeror |
|------|--|
| B-18 | The Offeror shall adhere to the Commonwealth SLA Methodology document (provided as Appendix O). |
| B-19 | The Offeror shall make tiered service offerings available to accommodate varying agency needs and budgets. |

In Section III.8 of its response to this RFP:

III.8B 8. The Offeror shall describe its process for managing Service Levels.

Verizon Response

In addition to complying to the Commonwealth SLA Methodology document (provided as Appendix O), the following describes the processes and procedures for managing Service Levels.

Verizon will:

- Monitor, measure, and report its performance against the Service Level Agreements
- Measure all Service Levels on a 24x7x365 basis. Verizon will report its performance to Commonwealth, at minimum, on a monthly basis
- Promptly investigate and remediate failures associated with all Service Levels
- Minimize reoccurrences of all performance-related failures for which it is responsible
- Report any problems to Commonwealth that appear likely to result in a failure to meet a Service Level Agreement

The following is an illustration of the Service Level Management process.

Tasks

| Ref | Requirements of Selected Offeror |
|-----|--|
| C-1 | The Offeror shall maintain a current plan for providing emergency response continuity of operations. |
| C-2 | The Offeror shall perform, record, and report to the Commonwealth on the results of plan-related drills. |

In Section III.8 of its response to this RFP:

III.8 C. 1. The Offeror shall describe how it anticipates such a crisis will impact its operations.

Verizon Response

Verizon maintains world-class Business Continuity, Disaster Recovery, Facility Preparedness, & Emergency Management Programs that are essential to the protection of its employees, critical business processes and structural facilities located around the globe.

Verizon understands the importance customers place upon their communications services, and therefore focuses on a comprehensive business continuity and disaster recovery strategy.

Verizon's footprint is a global network of meshed architectures. The company has invested substantial time and expense in building a highly reliable, redundant network topology that ensures excellent telecommunications service with a minimum of interruption to our customers.

The Verizon Information Technology Disaster Recovery Program supports the development of Disaster Recovery Plans for critical applications.

Business Impact Analysis

Each Verizon application is required to undergo a Business Impact Analysis that determines its criticality and whether a Disaster Recovery Plan needs to be developed.

I.T. Disaster Recovery Plan

The I.T. Disaster Recovery Plan (DRP) provides an overview of the process and procedures to be followed in response to an event that activates the I.T DR Plan. It also outlines the notification procedures, response checklist, and the roles and responsibilities of each I.T. organization.

Emergency Response Team

The Verizon Wireless Crisis Response Team (VCRT) is the team that comes together when a natural disaster or crisis occurs to support the community, government, non-profit organizations and emergency management agencies.

The team provides assistance 24 hours a day, 7 days a week and can be reached at 800-981-9558.

VCRT offers the following support during a crisis for customers and non-customers:

- Backup voice and data coverage

Lot 1. Unified Communications and VoIP Services

The requirements of Lot 1 have the ultimate goal of transitioning the Commonwealth of Pennsylvania's 45,000 VOIP users to a new, cost effective, industry leading, and vendor hosted solution that is fully integrated with Microsoft Skype for Business and federated with our current Office 365 environment.

This includes PSTN connectivity to conferencing through Skype. Additional benefits to be realized are as follows:

- Utilization of open source, non-proprietary desk phone hardware to open source, non-proprietary hardware. This will allow users to experience changes at a slower rate and transitions to become less cumbersome over time.
- Integrate the use of softphones (preferably using the SfB client) where applicable. Agencies will realize cost savings in not having to purchase desk phones and maintenance for each individual user.
- The ability for agency Telecommunications Management Officers (TMOs) to perform day-to-day moves/adds/changes (MACs) without having vendor involvement.
- Unified communications is becoming the industry standard for communication, and it is the desire of the Commonwealth to drive user adoption. The current platform only realizes a 10% adoption rate and it is our belief that this can be drastically increased by the development and deployment of marketing and training, before, during, and after transition. The Commonwealth is looking for a collaborative and active participation in these efforts from the selected Offeror.
- With the migration of existing VOIP users, efforts to transition as many of the 28,000 legacy voices users to the new VoIP/UC platform is also a strong focus of this solicitation. The success of this will rely heavily on making the solution cost effective for all sized offices (small and large) and location areas (metro and rural) throughout the Commonwealth.
- In addition to the requirements stated above, the Offeror (if responding to Lot 1 Services) shall address the following tasks in its response:

Lot 1 Services - Unified Communications and VoIP Services

D. Architecture and Integration

E. Features and Functions

1. Dial Tone Services
2. Main Line
3. Voice Mail Services with Exchange integration
4. Self-Managed Moves, Adds and Changes
5. Auto Attendant
6. Toll Free
7. Call Handling
8. UC Functions
9. Conferencing
10. Safety and Security
11. 911 Services

12. Recording

13. Hardware

14. Teleworking

F. Training

G. Transition Support

D. Architecture and Integration

Description

The Offeror shall use the following key considerations when developing its solution architecture:

- The Commonwealth will provide the data network connectivity services for the Offeror's UC and VoIP solution.
- The Offerors must provide a baseline set of network requirements with its proposed UC and VoIP solution.
- A core Commonwealth objective is to move from traditional voice services and individual PBX/Key systems to the new UC and VoIP solution.

This section describes the requirements for the core solution architecture for which the selected Offeror shall be responsible. These responsibilities will apply for the duration of the contract resulting from the award of this RFP.

Tasks

| Ref | Requirements of Selected Offeror |
|-------|---|
| D-1.1 | The Offeror shall provide a fully managed, vendor hosted, VoIP solution that includes an integrated MS Skype for Business UC platform. The solution shall provide full integration and federation with the Commonwealth O365 environment. |
| D-1.2 | The Offeror shall host all core components at the Offeror's datacenter(s). Equipment will NOT be hosted at the Commonwealth's data centers. |
| D-1.3 | The Offeror shall maintain equipment that needs to be located within Commonwealth local and extended demarcation points or at end-user sites (for local survivability only). |
| D-1.4 | The Offeror's solution shall, cost-effective way to support users in a multi-tenancy, multi-location (>100 locations) environment over the next 5-10 years. There are currently ~ 45,000 VoIP users that will be transitioned to the new platform. There are currently ~ 28,000 non-VoIP users (e.g. PBX, Centrex) many of which may be transitioned to the new platform. |
| D-1.5 | The Offeror shall provide an option (available at an additional cost) for a robust survivability solution that includes a local dial plan for inbound/outbound with local control and extensibility, for use in the event of an emergency, or loss of data connectivity to the Offeror's service. |
| D-1.6 | The Offeror's system shall be deployed in a geographically redundant fashion with all backend components mirrored between locations (no single point of failure). Fail-over must be automatic (with no human involvement) and preferably on a per component basis. |
| D-1.7 | The Offeror shall maintain end-to-end data encryption as defined in IRS Publication 1075. |
| D-1.8 | The Offeror shall provide at least two (2) geographically diverse connections to the Commonwealth's network (See Appendix P - Converged Network Standards.) |
| D-1.9 | The Offeror shall determine the data network bandwidth requirements for the Commonwealth locations. |

In Section III.8 of its response to this RFP:

III.8 D.1. The Offeror shall describe the service offered under this category and shall disclose, in its Service description, the function and performance standards applicable to meet the tasks listed above.

Verizon Response

Verizon's service description includes the following information regarding the service offered under this category and the function and performance standards applicable to meet the tasks listed above.

Verizon's service description includes the following information regarding the service offered under this category and the function and performance standards applicable to meet the tasks listed above.

Verizon's service description includes the following information regarding the service offered under this category and the function and performance standards applicable to meet the tasks listed above.

III.8 D 6. The Offeror shall describe any equipment that needs to be located within State end-user sites (for local survivability), including all relevant system specifications (e.g. type, model, power/cooling requirements, space, etc.) and required connectivity.

Verizon Response

Verizon will provide a detailed response to the requirements of III.8 D 6, including a list of equipment specifications and connectivity requirements. The response is organized into sections corresponding to the requirements. Section A details the equipment specifications, including type, model, power/cooling requirements, and space requirements. Section B details the connectivity requirements, including network architecture and security requirements. Section C details the implementation and testing requirements. Section D details the support and maintenance requirements. Section E details the compliance and reporting requirements. Section F details the risk management requirements. Section G details the project management requirements. Section H details the communication requirements. Section I details the training requirements. Section J details the documentation requirements. Section K details the handover requirements. Section L details the decommissioning requirements. Section M details the other requirements. Section N details the other requirements. Section O details the other requirements. Section P details the other requirements. Section Q details the other requirements. Section R details the other requirements. Section S details the other requirements. Section T details the other requirements. Section U details the other requirements. Section V details the other requirements. Section W details the other requirements. Section X details the other requirements. Section Y details the other requirements. Section Z details the other requirements.

III.8 D 7. The Offeror shall propose an integration design that provides at least two (2) connections to the Commonwealth's network. Those Commonwealth provided connection points of presence (POPs) are described in Appendix P.

Verizon Response

Verizon will provide a detailed response to the requirements of III.8 D 7, including a list of connection points of presence (POPs) and integration design details. The response is organized into sections corresponding to the requirements. Section A details the connection points of presence (POPs). Section B details the integration design details, including network architecture and security requirements. Section C details the implementation and testing requirements. Section D details the support and maintenance requirements. Section E details the compliance and reporting requirements. Section F details the risk management requirements. Section G details the project management requirements. Section H details the communication requirements. Section I details the training requirements. Section J details the documentation requirements. Section K details the handover requirements. Section L details the decommissioning requirements. Section M details the other requirements. Section N details the other requirements. Section O details the other requirements. Section P details the other requirements. Section Q details the other requirements. Section R details the other requirements. Section S details the other requirements. Section T details the other requirements. Section U details the other requirements. Section V details the other requirements. Section W details the other requirements. Section X details the other requirements. Section Y details the other requirements. Section Z details the other requirements.

III.8 D 8. The Offeror shall describe an option (available at an additional cost) for a robust survivability solution that includes a local dial plan for Inbound/Outbound with local control and extensibility, and local PRI/Analog support, for use in the event of an emergency, or loss of data connectivity to the Offeror's service.

Verizon Response

Verizon will provide a detailed response to the requirements of III.8 D 8, including a list of options for a robust survivability solution. The response is organized into sections corresponding to the requirements. Section A details the options for a robust survivability solution, including a local dial plan for Inbound/Outbound with local control and extensibility, and local PRI/Analog support. Section B details the implementation and testing requirements. Section C details the support and maintenance requirements. Section D details the compliance and reporting requirements. Section E details the risk management requirements. Section F details the project management requirements. Section G details the communication requirements. Section H details the training requirements. Section I details the documentation requirements. Section J details the handover requirements. Section K details the decommissioning requirements. Section L details the other requirements. Section M details the other requirements. Section N details the other requirements. Section O details the other requirements. Section P details the other requirements. Section Q details the other requirements. Section R details the other requirements. Section S details the other requirements. Section T details the other requirements. Section U details the other requirements. Section V details the other requirements. Section W details the other requirements. Section X details the other requirements. Section Y details the other requirements. Section Z details the other requirements.

Verizon will provide a detailed description of its planned redundant geographically deployment with all backend components mirrored between locations (no single point of failure) and automated fail-over.

III.8 D 9. The Offeror shall describe its planned redundant geographically deployment with all backend components mirrored between locations (no single point of failure) and automated fail-over.

Verizon Response

Verizon will provide a detailed description of its planned redundant geographically deployment with all backend components mirrored between locations (no single point of failure) and automated fail-over.

Verizon will provide a detailed description of its planned redundant geographically deployment with all backend components mirrored between locations (no single point of failure) and automated fail-over.

Verizon will provide a detailed description of its planned redundant geographically deployment with all backend components mirrored between locations (no single point of failure) and automated fail-over.

Verizon will provide a detailed description of its planned redundant geographically deployment with all backend components mirrored between locations (no single point of failure) and automated fail-over.

III.8 D 10. The Offeror shall describe its methodology and a sample of how it will determine the data network bandwidth requirements for each of the over 3,000 Commonwealth locations with varying number of users per site. Include the following site scenarios with varying number of users:

- a. Site A: 10 Users
b. Site B: 145 Users
c. Site C: 2,000 Users
d. For each scenario above provided the following information:
i. Network bandwidth requirements per site (include assumptions)
ii. Network configurations per site e.g. a sample of the expected network configuration requirements that will be required, such as quality of services (QoS).
iii. Provide survivability options for each site (e.g. equipment and PSTN connection requirements)

E. Features and Functions

Description

This section describes the requirements for the primary features and functions of the proposed UC and VoIP services for which the selected Offeror shall be responsible. These responsibilities will apply for the duration of the contract resulting from the award of this RFP.

Tasks

General

In Section III.8 of its response to this RFP:

III.8 E 1. The Offeror shall describe the service offered under this category and shall disclose, in its Service description, the applicable function and performance standards.

Verizon Response

Verizon is pleased to provide this response to the technical submittal. The submittal is in compliance with the requirements of the contract documents.

Verizon's response to the technical submittal is provided in accordance with the contract documents. The submittal is in compliance with the requirements of the contract documents. **A**

Verizon's response to the technical submittal is provided in accordance with the contract documents. The submittal is in compliance with the requirements of the contract documents.

Verizon's response to the technical submittal is provided in accordance with the contract documents. The submittal is in compliance with the requirements of the contract documents. **A**

Verizon's response to the technical submittal is provided in accordance with the contract documents. The submittal is in compliance with the requirements of the contract documents.

Verizon's response to the technical submittal is provided in accordance with the contract documents. The submittal is in compliance with the requirements of the contract documents. **A**

Verizon's response to the technical submittal is provided in accordance with the contract documents. The submittal is in compliance with the requirements of the contract documents.

Verizon is proposing to implement RedSky Anywhere to provide E911 services. The service will comply with local, state, and federal E911 requirements including soft phones and remote users.

Verizon will be providing ad-hoc recording capabilities using AudioCodes' SmartTAP technology. This service permits users to initiate a recording with anyone, internally or externally.

Microsoft has certified Polycom phones for use with Skype for Business Online. Verizon has proposed a variety of Polycom phones which adheres to the Microsoft certification. Refer to Attachment 10 for data sheets on these phones.

III.8 E 3. The Offeror shall indicate its planned service availability throughout the Commonwealth by completing the attached Appendix Q - VoIP Service Locations and including with its response.

Verizon Response

Verizon has completed Appendix Q - VoIP Service Locations as instructed. The sites indicated with an "X" indicate that Verizon is currently unable to offer VoIP services directly to those locations. Verizon continually updates its network and "VoIP enabling" locations across the Commonwealth. The results of the current findings may change at a future date.

In lieu of being able to provide direct VoIP local/LD services to the locations indicated with an "X," if the locations can be made reachable by IP within the Commonwealth, in some instances, LD Only VoIP services may be available to allow outbound only LD calls to be transported utilizing Verizon's IP Trunking service. For locations where LD Only services could be offered, Local TDM connectivity is required at those locations and would be used to provide ability to place local and 911 calls.

III.8 E 4. The Offeror shall describe its approach to providing multiple line appearances and to accommodate simultaneous inbound/outbound calls, line status/busy indicator.

Verizon Response

Call forwarding and simultaneous ring allows the setup of forwarding rules so calls can go with a user anywhere, and calls can be forwarded to colleagues or to voicemail. Any time a user is on a call presence is updated to indicate that they are unavailable.

By using the call answer/initiate (by name and number) feature, a user can answer inbound calls with a touch and place outbound calls either by dialing the full phone number or clicking a name in Skype for Business client or within Outlook.

Dial Tone Services

| Ref | Requirements of Selected Offeror |
|-------|--|
| E-1.1 | The Offeror shall provide the capability to port current telephone numbers (TN) and toll-free (TF) numbers over from any numbering plan area (NPA)/network numbering exchange (NXX) within the Commonwealth of PA. |

| Ref | Requirements of Selected Offeror |
|-------|--|
| E-1.2 | The Offeror shall provide flexibility in assigning/managing direct inward dialing blocks of telephone numbers. |
| E-1.3 | The Offeror shall provide new telephone numbers upon request. |
| E-1.4 | The Offeror shall provide network access via SIP trunk protocol. |
| E-1.5 | The Offeror's solution shall display caller ID with name. |
| E-1.6 | The Offeror's service shall meet current federal/state/local accessibility/disability requirements. |
| E-1.7 | The Offeror shall provide user friendly process for updating directory listings. |
| E-1.8 | The Offeror shall provide ability for end user to dial and connect to 411 for information service. |

In Section III.8 of its response to this RFP:

III.8 E 5. The Offeror shall describe how it will offer the assignment and management of direct inward dialing blocks of phone numbers as a managed service.

Verizon Response

Verizon will assign a TN with corresponding NPA/NXX based on the location of the user and update call control platform with related user/agency location. DID blocks will be available in blocks of 20 and 100. Changes to existing information will follow typical MACD process.

III.8 E 6. The Offeror shall describe its approach to addressing requests to block numbers. Please describe your system's ability to block a number from a particular user's telephone number.

Verizon Response

When the Commonwealth has the need to block a number from a particular user's telephone number, the agency will open a ticket with the Verizon Service Desk who will facilitate the request with the (UCC) Unlawful Call Center. Through the use of presence, such as the "do not disturb" feature, users can temporarily block contact.

III.8 E 7. The Offeror shall describe its proposed process for updating directory listings.

Verizon Response

Verizon directory listing updates are submitted via ESMS to a designated mailbox specifically established to accommodate Commonwealth of Pennsylvania requests.

III.8 E 8. The Offeror shall describe how a multiple calls to the same TN are addressed.

Verizon Response

Cloud PBX provides a call hold and retrieve feature for when multiple calls occur at the same time. When the user answers the next inbound call or places an outbound call, the current call goes on hold automatically.

Call waiting notifies the user when a call comes in while on a call or in a meeting, providing a quiet notification in addition to a regular notification. The user can accept the call or route it to voicemail.

Main Line Services

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|------------|---|
| E-1.9 | <i>The Offeror shall provide feature solutions to accommodate main line answering scenarios, i.e.</i> <i>a. Centralized answering point</i> <i>b. Receptionist</i> <i>c. Dedicated switchboard</i> <i>d. Forward capability (including night feature)</i> |
| E-1.10 | <i>The Offeror shall provide more than 1 incoming call on a single TN at a time.</i> |
| E-1.11 | <i>The Offeror shall provide the ability for multiple users, in a physical office, to answer an inbound call from the same telephone number.</i> |
| E-1.12 | <i>The Offeror shall provide an attendant console or main switchboard type functionality.</i> |

In Section III.8 of its response to this RFP:

III.8 E 9. The Offeror shall describe its solutions for accommodating main line answering scenarios such as:

- a. Centralized answering point*
- b. Receptionist*
- c. Dedicated switchboard*
- d. Forward capability (including night and holiday feature)*

Verizon Response

Verizon recommends the Polycom VVX 501 telephone or the Polycom VVX 601 telephone with either the VVX Expansion Module or the VVX Color Expansion Module. The Polycom VVX Expansion Module and Color Expansion Modules provide an optimal solution for telephone attendants, receptionists, administrative staff, team managers, and other “power users” who manage teams, workflows, or multiple simultaneous telephone calls on a daily basis.

The Polycom VVX Expansion Module and Color Expansion Modules extend the functions of Polycom VVX business media telephones and provide multifunctional line keys that can be set up as line registrations, call appearance, speed dials, direct station select, busy lamp filed or even Lync® favorites. The VVX Expansion Module and Color Expansion Modules seamlessly match the look and feel of the VVX business media telephone.

VVX business media telephones can be fully equipped with up to three (3) VVX Expansion Modules. With VVX Expansion Modules, users can reduce the number of lost customer calls, shorten transaction times, and increase the accuracy of call routing by promptly accepting, accurately screening, efficiently dispatching, and effortlessly monitoring calls.

For nights and holidays, user can define or designate a button/or soft key for forwarding either to a night service or to an answering service.

III.8 E 10. The Offeror shall describe its approach for providing main line answering features for multiple users.

Verizon Response

Verizon's approach for providing main line answering features for multiple users is the Polycom VVX 501 telephone or the Polycom VVX 601 telephone with either the VVX Expansion Module or the VVX Color Expansion Module. The Polycom VVX Expansion Module and Color Expansion Modules provide an optimal solution for telephone attendants, receptionists, administrative staff, team managers, and other "power users" who manage teams, workflows, or multiple simultaneous telephone calls on a daily basis.

III.8 E 11. The Offeror shall describe its approach to accommodating attendant console/main switchboard functionality.

Verizon Response

Verizon's approach to accommodating attendant console/main switchboard functionality is to use the recommended Polycom VVX 601 telephone with either the VVX Expansion Module or the VVX Color Expansion Module. In the future, additional options will be pursued following the Change Control Process.

VVX business media telephones can be fully equipped with up to three (3) VVX Expansion Modules. With VVX Expansion Modules, users can reduce the number of lost customer calls, shorten transaction times, and increase the accuracy of call routing by promptly accepting, accurately screening, efficiently dispatching, and effortlessly monitoring calls.

Voice Mail Services

| Ref | Requirements of Selected Offeror |
|--------|---|
| E-1.13 | The Offeror shall provide simple and logical instructions for users (i.e. change greeting/name, listen to VM, delete VM, transfer VM, etc.) |
| E-1.14 | The Offeror shall provide capability for VM to be transferred to another user on the system (2 nd party VM). |
| E-1.15 | The Offeror shall provide an optional graphic user interface (GUI) for web based VM management. |
| E-1.16 | The Offeror shall accommodate VM only line, if needed. |
| E-1.17 | The Offerors solution shall provide visual voicemail. |
| E-1.18 | The Offeror shall provide optional OOO functionality with expiration date. |
| E-1.19 | The Offeror shall provide optional voicemail transcription capability. |
| E-1.20 | The Offeror's solution shall support the transfer of live calls into another person's VM. |
| E-1.21 | The Offeror's solution shall support the delivery of voice mail to a user's email inbox. |

In Section III.8 of its response to this RFP:

III.8 E 12. The Offeror shall describe its unified messaging capabilities including its ability to have voicemail delivered as an audio file to a user's email inbox.

Verizon Response

[Redacted text]

III.8 E 13. The Offeror shall provide samples of its instructions for users detailing the button presses a user would need to press in order to perform certain functions related to its voicemail (i.e. change greeting/name, listen to VM, delete VM, transfer VM, etc.)

Verizon Response

[Redacted text]

[Redacted text]

[Redacted text]

[Redacted text]

[Redacted text]

[Redacted text]

[Redacted text]

[Redacted text]

III.8 E 16. The Offeror shall describe its solutions ability, if available, to provide optional Out of Office (OOO) functionality with expiration date. Upon expiration date, the OOO functionality shall be turned off and revert back to greeting used before OOO was turned on. (This is a desired but not required feature.)

Verizon Response

Out of office (OOO) voice mail greetings are under the control of each individual who uses the voice mail feature. The user will initiate the out of office greeting as well as return to the day to day greeting. By default the system generates a greeting and text to speech is used to say the individual's name. Each individual can record a personal greeting at any time. The steps for this are to select the Phone Tab on the Skype for Business client, click the voice mail icon below the dial pad and then click Change Greetings. Skype for Business calls your voice mail and guides the user how to record a personal greeting. At this time, the OOO expiration capability is not available.

III.8 E 17. The Offeror shall describe its solution's ability to provide for a voicemail message to be left at number to which calls have been transferred. (This is a desired but not required feature.)

Verizon Response

If a phone number has been forwarded to another phone, the other phone would then receive the call as well as accept voice mail messages.

III.8 E 18. The Offeror shall describe the file format (e.g., Mp3 or .wav) or delivery method by which voice mail messages will be delivered to a user's email inbox.

Verizon Response

By default the file format for voice mail messages is MP3.

Self-Managed Moves, Adds and Changes

| Ref | Requirement of Selected Offeror |
|--------|---|
| E-1.22 | At the request of individual agencies, the Offeror shall provide a secure Web-based electronic interface which allows agency access, to its own lines only, for the purpose of moves, adds and changes (such as user changes to a TN, resetting of passwords, and user profile builds and changes) to current services on hosted system(s). |

In Section III.8 of its response to this RFP:

III.8 E 19. The Offeror shall describe its solution for self-service web access to support changes.

Verizon Response

Verizon will provide options for a self-management portal. However, based upon the inventory and billing reconciliation requirements within ESMS controls require custom development between the systems. Portal based self-management tool will be procured by the Commonwealth. The tool will also need to be integrated with the Enterprise Service Desk CMDB and managed by the Commonwealth on an ongoing basis. Utilizing the Change Control

Process, Verizon will work with the Commonwealth to define and agree upon self-management options.

III.8 E 20. The Offeror shall describe its approach to providing a secure self-service web-based interface.

Verizon Response

As stated above, Verizon will provide options for a self-management portal. However, based upon the inventory and billing reconciliation requirements within ESMS controls require custom development between the systems.

III.8 E 21. The Offeror shall describe how it will limit access to an agency's own data only.

Verizon Response

As stated above, Verizon will provide options for a self-management portal. However, based upon the inventory and billing reconciliation requirements within ESMS controls require custom development between the systems.

Auto Attendants

| Ref | Requirement of Selected Offeror |
|--------|--|
| E-1.23 | <i>The Offeror shall provide the ability to route calls from the Offeror's Auto Attendant platform to any local, long distance, or toll free number.</i> |
| E-1.24 | <i>The Offeror shall provide, at the request of an individual agency, user with the ability to self-manage Auto Attendant (AA) system changes such as menu routing changes, time of day changes, holiday schedules, add/change/delete menu options, as well as Offeror managed.</i> |
| E-1.25 | <i>The offeror shall provide auto attendant capabilities such as, but not limited to, the ability to create multiple menus for call routing, mailboxes that will allow callers to hear a pre-recorded message, mailboxes that will provide prompting to callers to say specific information that will in turn be delivered as a voicemail to a designated destination, and the ability for callers to leave standard voicemails.</i> |
| E-1.26 | <i>The Offeror shall fully manage, at the request of an individual agency, all auto attendant changes.</i> |
| E-1.27 | <i>The Offeror shall provide ability to route calls by time of day/day of week/holiday.</i> |
| E-1.28 | <i>The Offeror shall provide alternate routing/disaster recovery pre-built mapping capability (i.e. emergency/after-hours).</i> |
| E-1.29 | <i>The Offeror's solution shall add, at no additional cost, the Commonwealth's holiday schedule to the platform each year for the duration of the contract.</i> |

In Section III.8 of its response to this RFP:

III.8 E 22. The Offeror shall describe its auto attendant capabilities and options in regard to menus for call routing, mailbox messages and prompting and delivery of voicemail.

Verizon Response

Verizon will support Microsoft's Auto Attendant feature capabilities. .Auto Attendant is part of the Commonwealth's Microsoft Cloud PBX license. There is no additional charge from Verizon to support the Auto Attendant feature.

III.8 E 23. The Offeror shall describe its proposed alternate routing/disaster recovery pre-built mapping capability (i.e. emergency/after-hours).

Verizon Response

Verizon will support Microsoft's Auto Attendant feature capabilities.

IPT Toll Free with Advanced Routing

| <i>Ref</i> | <i>Requirement of Selected Offeror</i> |
|---------------|---|
| <i>E-1.30</i> | <i>The Offeror shall provide toll-free (TF) Services.</i> |
| <i>E-1.31</i> | <i>The Offeror shall provide new toll-free numbers upon request.</i> |
| <i>E-1.32</i> | <i>The Offeror shall provide the capability to port current toll-free (TF) numbers to the selected Offeror's platform.</i> |
| <i>E-1.33</i> | <i>The Offeror shall provide agencies the capability to route TF numbers to an alternate point, as needed, using a web portal or website.</i> |
| <i>E-1.34</i> | <i>The Offeror shall provide the capability to route TF numbers to an alternate point, as needed, as the result of a service order or phone call.</i> |
| <i>E-1.35</i> | <i>The Offeror's TF advanced routing capability shall include Dialed Number Information Service (DNIS), Automatic Number ID (ANI), Network Numbering Exchange (NXX), and time and / or day scheduled routing.</i> |

In Section III.8 of its response to this RFP:

III.8 E 24. The Offeror shall describe its solution for self-service web access to provide the ability to make routing changes.

Verizon Response

Network Manager is a powerful web-based Verizon Enterprise Center (VEC) application that gives inbound service customers a view of their traditional and IP toll-free, as well as the capability to make quick changes to routing plans.

Users can examine current routing plans and customize their features in a near real-time basis.

With this dynamic application, users can manage their network configurations easily by routing their inbound traffic and quickly responding to disasters and changing business needs.

Network Manager allows advanced users to build alternate plans ahead of time and activate them on demand in case of an emergency. Changes to inbound numbers or activation of new routing plans are effective within minutes of submitting the request.

Network Manager is a Windows GUI application complete with color displays, easy-to-read icons, pop-up windows, and a convenient toolbar. It allows for quick and easy viewing of the entire network configuration, make changes, or order new features.

Network Manager provides near real-time traffic management for both basic and advanced Verizon inbound services by providing definition and control of origination, routing, and termination features.

III.8 E 25. The Offeror shall describe its approach to providing routing capabilities.

Verizon Response

Network Manager routing capabilities include:

- Dynamically manage and configure inbound network resources.
- Access a hierarchical view of your network and routing options.
- Implement geographical routing, scheduled routing, load balancing, contingency planning, and call blocking.
- Construct, edit, and delete plans for greater routing flexibility.
- Implement alternate routing plans in response to changing requirements.
- Modify percent allocation and terminations within minutes.
- Track order changes.

Call Handling

| Ref | Requirements of Selected Offeror |
|--------|---|
| E-1.36 | The Offeror shall provide typical handling capabilities including: <ol style="list-style-type: none"> a. Call waiting b. Caller ID c. Permanent caller ID call blocking/unblocking d. Per call caller ID blocking/unblocking e. Manual call forwarding/removing forwarding |
| E-1.37 | The Offeror shall provide processes, response times for service/support, and call details for trap and trace. |
| E-1.38 | The Offeror shall provide ability to answer an incoming call from another individual phone. |
| E-1.39 | The Offeror shall provide ability to answer an incoming call from another phone within a designated group. |
| E-1.40 | The Offeror shall provide an option to mask outbound caller id on an individual telephone number basis. |
| E-1.41 | The Offeror shall provide flexible hunting capabilities. |
| E-1.42 | The Offeror shall provide automatic dialing of a pre-determined number as a feature when a designated phone goes "off hook". |
| E-1.43 | The Offeror shall provide the ability to locally and remotely manage call forwarding features by user and administrators. |
| E-1.44 | The Offeror shall provide options for line referrals. At a minimum, the options should include six (6) and twelve (12) months. |
| E-1.45 | The Offeror shall provide the capability to block a number at the WTN level upon agency request. |
| E-1.46 | The Offeror shall provide the capability to block a number from the entire VOIP platform. This would be a Commonwealth enterprise level request and only initiated by OA with strict guidelines. |

In Section III.8 of its response to this RFP:

III.8 E 26. The Offeror shall describe its processes and response times for service/support for trap and trace.

Verizon Response

Verizon Wireless provides trap and trace services to law enforcement agencies. The services are provided through a dedicated interface and are available 24/7. The response time for trap and trace services is typically within 15 minutes of a request being received.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

● The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface. A dedicated interface is used to provide trap and trace services to law enforcement agencies. A dedicated interface is used to provide trap and trace services to law enforcement agencies. A dedicated interface is used to provide trap and trace services to law enforcement agencies.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

■ The Offeror provides trap and trace services to law enforcement agencies through a dedicated interface.

III.8 E 27. The Offeror shall describe its capabilities and options for blocking numbers upon request. Please describe your system's ability to block a number from a particular user's telephone number.

Verizon Response

Verizon Wireless provides number blocking services to law enforcement agencies. The services are provided through a dedicated interface and are available 24/7. The response time for number blocking services is typically within 15 minutes of a request being received.

III.8 E 28. Offeror shall describe its ability to locally and remotely manage call forwarding features.

Verizon Response

The Call forwarding feature can be set using the Skype for Business Client from anywhere with network connectivity.

UC Functions

| Ref | Requirements Selected Offeror |
|--------|---|
| E-1.47 | The Offeror acknowledges that it is providing a Microsoft Skype for Business (MS SfB) unified communications platform that integrates with its proposed VOIP solution. This system must federate with Commonwealth's O365 environment to provide a consistent UC experience for all SfB users, hosted IPT, or O365 users. |
| E-1.48 | The Offeror's UC solution shall support Skype for Business Mobility. |
| E-1.49 | The Offeror shall integrate seamlessly with the Commonwealth's Active Directory. |
| E-1.50 | The Offeror shall provide the ability to create a call by clicking on contact call information or icon. |
| E-1.51 | The Offeror shall provide the ability for a call to be answered at multiple phone numbers. |
| E-1.52 | The Offeror's solution shall be user friendly and intuitive. |
| E-1.53 | The Offeror's solution shall provide call history and detail for the user. |
| E-1.54 | The Offeror's solution shall incorporate Commonwealth Single Sign On policy and procedures. |
| E-1.55 | The Offeror's solution shall incorporate adherence to the Twenty-First Century Communications and Video Accessibility Act of 2010 for accommodations of users with disabilities. |
| E-1.56 | The Offeror shall provide the ability for the user to see Caller IDs of multiple incoming calls. |

In Section III.8 of its response to this RFP:

III.8 E 29. The Offeror shall describe how it proposes to connect to MS SfB.

Verizon Response

Verizon will be connecting to Microsoft Skype for Business via the Commonwealth's O365 ExpressRoute connection. This will be accomplished by connecting with diverse and redundant Verizon 1GigE MPLS circuits to each of the Commonwealth's Data Centers that house the Enterprise Network and Security Services.

Should Verizon be the selected provider for the Secure Cloud Exchange service in the Enterprise Network and Shared Services RFP, the Commonwealth would gain routing efficiencies by sending traffic over this direct connection. This could result in improved performance and security.

III.8 E 30. The Offeror shall describe how it proposed to provide licensing when needed for MS SfB.

Verizon Response

Verizon's proposed solution for providing licensing when needed for MS SfB is to use the existing licensing framework established in the MS SfB. Verizon will ensure that all necessary licenses are obtained and maintained throughout the project lifecycle. A detailed description of the licensing process is provided in the attached response.

Verizon will ensure that all necessary licenses are obtained and maintained throughout the project lifecycle. This includes obtaining the necessary licenses from the appropriate regulatory bodies and ensuring that they are kept up to date. Verizon will also ensure that all licenses are properly managed and that any changes are made in a timely manner. A detailed description of the licensing process is provided in the attached response.

Verizon's proposed solution for providing licensing when needed for MS SfB is to use the existing licensing framework established in the MS SfB. Verizon will ensure that all necessary licenses are obtained and maintained throughout the project lifecycle. This includes obtaining the necessary licenses from the appropriate regulatory bodies and ensuring that they are kept up to date. Verizon will also ensure that all licenses are properly managed and that any changes are made in a timely manner. A detailed description of the licensing process is provided in the attached response.

III.8 E 31. The Offeror shall describe how it will integrate with the Commonwealth's MS O365 implementation.

Verizon Response

Verizon will ensure that its solution integrates seamlessly with the Commonwealth's MS O365 implementation. This includes ensuring that all data is properly synchronized and that all users have access to the necessary resources. Verizon will also ensure that its solution is scalable and can handle the growing needs of the Commonwealth. A detailed description of the integration process is provided in the attached response.

III.8 E 32. The Offeror shall disclose any features within MS SfB that its solution will not support.

Verizon Response

Verizon expects Microsoft's Auto Attendant capabilities to be available in 2017. Microsoft is currently expanding its Cloud PBX feature set and adding Organization Auto Attendant and Call Queues. This functionality is currently available for testing from Microsoft as part of their Skype Preview Program. Verizon is currently testing the capabilities.

Conferencing

| Ref | Requirements of Selected Offeror |
|--------|--|
| E-1.57 | The Offeror shall provide a conferencing solution (voice/video/ collaboration) that integrates with the proposed UC (Skype for Business) and VoIP services. |
| E-1.58 | The Offeror shall provide the ability to record collaboration meetings audio and video for archiving and later playback, i.e., training. |
| E-1.59 | The Offeror shall provide for archiving and later playback of audio and audio/visual recordings. |
| E-1.60 | The Offeror shall ensure a minimum of 250 participants on a standard conference call. |
| E-1.61 | The Offeror shall provide the ability to choose a large capacity conferencing option which allows for, at a minimum, in excess of 1,000 participants. Features should include but not be limited to the following: <ol style="list-style-type: none"> Ability to limit participants from unmuting their lines during meeting. Ability for participants to register for the meeting with the meeting coordinator being able to dictate what information the registrants need to provide. Ability for participants to utilize a chat feature in order to ask questions. Ability to include video, collaboration, dial in voice functionality. Ability for meeting coordinator to view all that registered and participated in meeting. Ability to send invitations to meeting attendees and bulk upload attendees. |

In Section III.8 of its response to this RFP:

III.8 E 33. The Offeror shall describe its conferencing solution (voice/video/collaboration) that integrates with the proposed UC (Skype for Business) and VoIP services.

Verizon Response

Skype for Business users can start or join an ad-hoc Skype for Business Meeting with a few clicks in the Skype for Business client or in Office. It allows users to escalate instant messaging conversations or email conversations to PC-based, multiparty audio and video meetings with shared desktops, applications, and documents.

A scheduled conference can be created to allow up to 250 users to attend. Within the invitation there is a link which allows the user to join the conference from a PC or it can allow users to dial into the conference from a phone. The phone numbers are listed within the invitation.

Skype Meeting Broadcast hosts broadcast meetings to large online audiences -- up to 10,000 attendees. Attendees can join the meeting from anywhere on any device.

Verizon's proposal allows for each of these types of conferences to be fully functional due to the integration of Verizon's services and Skype for Business Online.

III.8 E 34. The Offeror shall describe a large capacity conferencing option that allows for a minimum of 1,000 participants The Offeror should also describe any limitations of these larger conferences, any technical requirements needed from the meeting coordinator or participants, and participant maximum on one meeting.

Verizon Response

Verizon offers a large capacity conferencing option that allows for a minimum of 1,000 participants. A large capacity conference is a meeting that has more than 100 participants. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room.

Verizon offers a large capacity conferencing option that allows for a minimum of 1,000 participants. A large capacity conference is a meeting that has more than 100 participants. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room.

A large capacity conference is a meeting that has more than 100 participants. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room.

III.8 E 35. The Offeror shall describe its process for archiving audio and audio/visual recordings.

Verizon Response

Verizon offers a large capacity conferencing option that allows for a minimum of 1,000 participants. A large capacity conference is a meeting that has more than 100 participants. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room.

Verizon offers a large capacity conferencing option that allows for a minimum of 1,000 participants. A large capacity conference is a meeting that has more than 100 participants. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room.

III.8 E 36. The Offeror shall describe the process by which recording can be located and retrieved for playback.

Verizon Response

Verizon offers a large capacity conferencing option that allows for a minimum of 1,000 participants. A large capacity conference is a meeting that has more than 100 participants. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room. A large capacity conference can be held in a meeting room or a virtual meeting room.

III.8 E 37. The Offeror shall disclose any participation limits which would be imposed on large capacity conferencing.

Verizon Response

Skype Meeting Broadcast hosts broadcast meetings to large online audiences -- up to 10,000 attendees.

Safety and Security

| Ref | Requirements of Selected Offeror |
|--------|--|
| E-1.62 | The Offeror shall provide availability and repair times in accordance with mutually accepted Service Level Agreements and will be included with each agencies Continuity of Operations (COOP) and Continuity of Government (COG) procedures. |
| E-1.63 | The Offeror shall provide routing of calls for adherence to Government Emergency Telephone Service (GETS). |
| E-1.64 | The Offeror shall provide support of Telecommunications Service Priority (TSP) |
| E-1.65 | The Offeror shall provide a multiple number calling feature to be used to reach multiple users for emergency notification purposes. |

In Section III.8 of its response to this RFP:

III.8 E 38. The Offeror shall describe its approach to supporting the Safety and Security cited in the table (i.e., COOP, COG, GETS and TSP).

Verizon Response

Verizon is committed to the Continuity of Operations (COOP) and Continuity of Government (COG) for the Commonwealth agencies. We take our role providing reliable and available services for the agencies. Everything we do we build on a strong network, systems and process foundation. The quality and reliability of the products we deliver are paramount. Verizon adheres to both the Government Emergency Telephone Service (GETS) and Telecommunications Service Priority (TSP) Programs.

During emergencies, the public telephone network can experience congestion due to increased call volumes and/or damage to network facilities, hindering the ability of national security and emergency preparedness (NS/EP) personnel to complete calls. The Government Emergency Telecommunications Service (GETS) provides NS/EP personnel priority access and prioritized processing in the local and long distance segments of the landline networks, greatly increasing the probability of call completion. GETS is intended to be used in an emergency or crisis situation when the network is congested and the probability of completing a normal call is reduced. Verizon provides routing of calls for adherence to the GETS requirements.

911 Services

| Ref | Requirements of Selected Offeror |
|--------|---|
| E-1.66 | The Offeror shall provide 911 location services that comply with local/state/federal E911 requirements. |
| E-1.67 | The Offeror shall confirm 911 emergency access from all locations to the correct public safety answering point (PSAP) before implementing any new services to include location and call back information. |
| E-1.68 | The Offeror shall provide location specific information, including address, floor number and compass direction as a minimum, to the corresponding PSAP. |
| E-1.69 | The Offeror shall provide Enhanced 911 calling ("E-911") service for telephone, soft phones and remote users who use soft phones to connect to the IPT service. |

In Section III.8 of its response to this RFP:

III.8 E 39. The Offeror shall describe its approach to providing location specific information to the PSAPs for 911 and E911 service.

Verizon Response

Verizon will leverage and integrate Enhanced 911 (E-911) requirements with "RedSky ANYWHERE"- The requirements in Appendix H.2 - E-1.68 and 1.69 which require the ability to provide floor and room information is not a capability of the Microsoft solution at this time. Microsoft's Dynamic 911 license with Location Information profiles is scheduled for an upcoming 2017 release.

In order to be compliant, Verizon will partner with RedSky and integrate their "RedSky Anywhere" cloud offering service along with their My911 feature which allows the user to set their location information and allow E911 functions.

Two MPLS PIP 10 MB Ports with 4 MB access terminating in RedSky data centers in Dallas and Chicago will be required. No additional gear is expected to integrate this service component.

Verizon is proposing RedSky's E911 Anywhere® cloud-based E911 service which can provide E911 protection to all endpoints/phones in the US and Canada. Using E911 Anywhere's® Web portal and MyE911 feature the Commonwealth can manage the location of all phones/endpoints in the enterprise. The Web portal and MyE911 feature for softphones enables "real time" location updates of a phone. The Commonwealth will then program its call server to send all 9-1-1 calls to the E911 Anywhere® data center where the calls will be routed, based on the location, to the appropriate PSAP.

EMERGENCY CALLING.

Common events that can limit access to emergency calling include but are not limited to:

- Loss of Power Supply. Services will be interrupted if there is a loss of electricity/power supply.
- Loss of Broadband Service. Services will be interrupted if the attendant broadband connection is not available.

- Failure of Equipment. The malfunction or failure of equipment, software, or hardware necessary for end-to-end Internet functionality (e.g. routers, IP phones, analog gateways, etc.) can limit access to Emergency Services.
- Failure to Register New Location of Equipment. Contractor is not able to provide Emergency Services to an end-user unless the end-user has properly registered his or her service location.
- Non-Native Telephone Number. If an end-user uses a non-native telephone number (i.e., a telephone number from a local exchange area different from where the caller is located), Emergency Services access may be limited.
- Outbound Service. Emergency calling is not available in jurisdictions that offer Outbound-only service.

The Commonwealth is responsible for notifying its end users of the limitations in relation to emergency calling via the Services (including those detailed above), and the Commonwealth shall be solely responsible for any third-party claims and any liability arising from the Commonwealth's failure to so notify its end users.

Recording

| Ref | Requirements of Selected Offeror |
|--------|--|
| E-1.70 | The Offeror shall provide ad-hoc recording capabilities for inbound/outbound VoIP calls. |
| E-1.71 | The Offeror shall provide ad-hoc recording storage capabilities. |
| E-1.72 | The Offeror shall provide ad-hoc recording capabilities which has the ability to announce call is being recorded. |
| E-1.73 | The Offeror shall provide the capability to record, and store as one call, an entire call even if it is transferred. |

In Section III.8 of its response to this RFP:

III.8 E 40. The Offeror shall describe its proposed ad hoc recording capabilities and disclose compliance with applicable state and federal laws.

Verizon Response

Verizon is integrating the proposed service with AudioCodes SmartTAP ad-hoc recording product. This is a widely deployed solution with successful 3rd party telephony solutions integration. SmartTAP is deployed across the enterprise to capture calls, either on-demand or, in some cases, full time. With an embedded Skype for Business client toolbar, enterprise users can record with the simple, easy to use centralized web-based management interface. Users can record calls anywhere at any time.

The servers for these capabilities reside in the data centers along with the Cloud Connector Edition (CCE) servers. Each server supports up to 300 concurrent calls being recorded at any given time.

SmartTAP provides the following:

- Simple, easy-to-use centralized web-based management interface
- Maintains all Skype for Business Calls within the Enterprise infrastructure
- Customizable Call Recording Announcements
- Embedded Skype for Business Client Toolbar
- Pause & Resume recording for PCI Compliance
- Support for industry-leading telephony systems such as Microsoft UC, Cisco, Avaya, Allworx, Shoretel and others
- Distributed solution with branch survivability. Continue to record when WAN is down
- TDM and IP system integrations support hybrid communications environments
- Quality management with customizable and user definable evaluation forms and reports
- Robust security with definable granular user security profiles
- Recording solution for compliance, liability, quality assurance, security

Refer to Attachment 7 for additional details.

III.8 E 41. The Offeror shall describe its storage capabilities and playback options.

Verizon Response

To meet the adhoc recording requirements, Verizon has chosen to use AudioCodes SmartTAP. Recorded calls can be stored on the hard drive of each server or if additional space is required an external storage device can be utilized. Robust Search and Playback features allow users to search, retrieve, download and email recordings. SmartTAP's powerful, intuitive management system simplifies recording and retrieval operations. Refer to Attachment 7 for additional details.

Hardware

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|---------------|--|
| <i>E-1.74</i> | <i>The Offeror shall provide multiple non-proprietary softphone solutions desktop and mobile phone compatibility. Solutions shall be compatible with Skype for Business.</i> |
| <i>E-1.75</i> | <i>The Offeror shall provide multiple non-proprietary handset solutions. Option(s) for handset shall be included in price of service.</i> |
| <i>E-1.76</i> | <i>The Offeror shall maintain, for each agency and for the life of the contract, up-to-date specifications, for each non-proprietary, SIP Standards phone including its life cycle and end of life cycle date.</i> |
| <i>E-1.77</i> | <i>The Offeror shall provide specifications, to each agency, for non-proprietary Wi-Fi enabled handsets along with life cycle and end of life cycle date. This information shall be kept current for the life of the contract.</i> |
| <i>E-1.78</i> | <i>The Offeror shall adhere to Americans with Disabilities Act (ADA) requirements for public phone installation and use.</i> |

In Section III.8 of its response to this RFP:

Teleworking

(including users in an occasional out-of-the-office or travel status as well as users working from a non-office environment on a regular basis.)

| Ref | Requirements of Selected Offeror |
|--------|--|
| E-1.79 | The Offeror shall provide a mobile or teleworking solution where IPT desktop and soft phones can be configurable to work outside of the Commonwealth network (e.g., in user's home.) |
| E-1.80 | The Offeror shall provide a secure mobile or teleworking solution without VPN. |
| E-1.81 | The Offeror shall provide a mobile or teleworking solution with end user Multi Call feature that allows users to make or receive multiple calls at the same time. |
| E-1.82 | The Offeror shall provide a mobile or teleworking solution which will incorporate Main Line Forwarding feature. |
| E-1.83 | The Offeror shall provide a mobile or teleworking solution with Directory Listing services. |
| E-1.84 | The Offeror shall provide a mobile or teleworking solution with the ability for end user to dial and connect to 411 for information service. |

In Section III.8 of its response to this RFP:

III.8 E 47. The Offeror shall describe its approach to providing a mobile or teleworking solution.

Verizon Response

The Skype for Business Online solution is built on a framework that embraces mobility and teleworking. The solution offers a variety of desktop and mobile clients including Windows, Macintosh, IOS, Android, Windows Mobile, and web-based access via Outlook on the Web for Business.

F. Training

Description

This section describes the training requirements for which the selected Offeror shall be responsible. These responsibilities will apply for the duration of the contract resulting from the award of this RFP.

Tasks

| Ref | Requirements of Selected Offeror |
|-------|---|
| F-1.1 | The Offeror shall submit all training material and class outlines to the Commonwealth for approval prior to being made available to contract participants. All training materials will be kept current according to technology and usage product and feature additions and changes. |
| F-1.2 | The Offeror shall provide the Commonwealth with the credentials and experience of each of the proposed trainers a minimum of two weeks prior to each of the scheduled training sessions. The Commonwealth reserves the right to interview and approve or disapprove of each of the trainers. |
| F-1.3 | The Offeror shall provide training on a regular basis to keep users and practitioners up-to-date on such items as network technology and data security, new VoIP features, changes due to updates, etc. and to provide training in various formats such as, but not limited to, classroom, web-based and train the trainer. |
| F-1.4 | The Offeror shall provide periodic informational and training sessions with key agency personnel such as administrators (TMO's). |

| Ref | Requirements of Selected Offeror |
|--------|--|
| F-1.5 | The Offeror shall provide feature based training videos to be posted and updated on a mutually agreed-upon website. |
| F-1.6 | The Offeror shall be responsible for training all TMO's and users. Training shall include, but is not limited to: <ul style="list-style-type: none"> o How to place call o Transfer o Call pick up, etc. o TMO moves, adds and changes |
| F-1.7 | The Offeror shall provide training courses specifically and solely related to conferencing. |
| F-1.8 | The Offeror shall schedule instructor led training sessions within the commonwealth's learning management system. |
| F-1.9 | The Offeror shall provide optional onsite training and support during actual transition (to be scheduled by agency prior to transition date). |
| F-1.10 | At the request of an agency, the Offeror shall provide concise, user friendly documentation to each end user at time of transition that must be approved by Commonwealth. All user documentation will be available for download on agreed upon website. |
| F-1.11 | The Offeror shall provide hands-on classroom training sessions for individuals supporting answering positions. |
| F-1.12 | The Offeror shall provide additional training sessions at no cost should the classroom instruction be considered a failure due to the ineffectiveness of the instructor (for the life of the contract). |
| F-1.13 | The Offeror shall allow for the evaluation of all trainers. The Offeror shall replace a trainer at the request of the Commonwealth (for the life of the contract). |

In Section III.8 of its response to this RFP:

III.8 F 1. The Offeror shall describe its approach to providing training prior to and during the service transition period.

Verizon Response

Vitalyst's training solution consists of a multi-pronged approach by providing Commonwealth employees with support, classroom training, virtual training, and various self-help material, as well as a complete Skype for Business user communication package. This will allow all Commonwealth users, who may have varying degrees of Microsoft experience and demanding workforce profiles, to seek out help when they need it most. Below are highlights on how Vitalyst will provide training before and during deployment:

- Expert Help Desk Augmentation for Inbound Support - This service will be available to users 30 days prior to Skype deployments occurring as a direct dial toll-free telephone number, so that they may familiarize themselves with the support method, as well as call and ask questions around the upcoming deployment. This Help Desk Augmentation will serve as 'on-demand training' - help when you need it, and where you need it.
- Live Instructor-Led Webinar Training - Performed using Skype as a conferencing tool, Vitalyst will provide introductory training sessions - An Intro to Skype, and Skype with Outlook - prior to service transition, and provide reinforcement training sessions during

Verizon shall provide training to the Commonwealth for various services. The training shall include end-user and administrative training, where applicable. The training shall be provided in a format that is accessible to all Commonwealth employees.

Verizon shall provide training to the Commonwealth for various services. The training shall include end-user and administrative training, where applicable. The training shall be provided in a format that is accessible to all Commonwealth employees.

Verizon shall provide training to the Commonwealth for various services. The training shall include end-user and administrative training, where applicable. The training shall be provided in a format that is accessible to all Commonwealth employees.

III.8 F 2. The Offeror shall describe the training (end-user and administrative, where applicable) it will provide to the Commonwealth for various services.

Verizon Response

Verizon shall provide training to the Commonwealth for various services. The training shall include end-user and administrative training, where applicable. The training shall be provided in a format that is accessible to all Commonwealth employees.

Verizon shall provide training to the Commonwealth for various services. The training shall include end-user and administrative training, where applicable. The training shall be provided in a format that is accessible to all Commonwealth employees.

III.8 F 3. The Offeror shall describe its plan to sustain and provide ongoing training for the life of the contract.

Verizon Response

Verizon will sustain and provide ongoing training for the life of the contract through a combination of internal and external resources. Internal training includes ongoing professional development for all employees, including technical training for support staff. External training includes industry conferences, seminars, and courses. Verizon will also provide training for contract participants through a combination of internal and external resources.

Verizon will sustain and provide ongoing training for the life of the contract through a combination of internal and external resources. Internal training includes ongoing professional development for all employees, including technical training for support staff. External training includes industry conferences, seminars, and courses. Verizon will also provide training for contract participants through a combination of internal and external resources.

III.8 F 4. The Offeror shall describe all training classes and resources that will be made available to contract participants.

Verizon Response

Verizon will provide training classes and resources for contract participants through a combination of internal and external resources. Internal training includes ongoing professional development for all employees, including technical training for support staff. External training includes industry conferences, seminars, and courses. Verizon will also provide training for contract participants through a combination of internal and external resources.

■ Internal Resources

- Verizon will provide ongoing professional development for all employees, including technical training for support staff. This training will be provided through a combination of internal and external resources, including industry conferences, seminars, and courses.

■ External Resources

- Verizon will provide training for contract participants through a combination of internal and external resources. This training will be provided through a combination of internal and external resources, including industry conferences, seminars, and courses.
- Verizon will provide training for contract participants through a combination of internal and external resources. This training will be provided through a combination of internal and external resources, including industry conferences, seminars, and courses.

■ Additional Resources

- Verizon will provide training for contract participants through a combination of internal and external resources. This training will be provided through a combination of internal and external resources, including industry conferences, seminars, and courses.

G. Transition

Description

This section describes the transition support requirements for which the selected Offeror shall be responsible. These responsibilities will apply for the duration of the contract resulting from the award of this RFP.

One key component to the overall transition approach the Commonwealth is requiring the development and execution of a successful marketing plan to increase adoption of the Offeror's Unified Communications and VoIP Services across the commonwealth.

Tasks

| Ref | Requirements of Selected Offeror |
|--------|--|
| G-1.1 | The Offeror shall schedule transitions as determined by the agencies. |
| G-1.2 | The Offeror shall schedule transitions as determined by the agencies with respect to Data transition. |
| G-1.3 | The Offeror shall complete all transition activities no later than October 2019. |
| G-1.4 | The Offeror shall provide agencies with Feat once the transition schedule has been determined (see Transition Milestone table). |
| G-1.5 | The Offeror shall coordinate transition with multiple vendors during any transitions which include multiple vendors. |
| G-1.6 | The Offeror shall provide options for collection and disposal of equipment to be replaced. |
| G-1.7 | The Offeror shall include any necessary training needs into transition or implementation schedule. |
| G-1.8 | The Offeror shall provide availability of training staff onsite for the day of and one day after transition. |
| G-1.9 | The Offeror shall provide a transition services plan based on services provided and number of site and/or physical endpoints. |
| G-1.10 | The Offeror shall lead marketing activities to help ensure user acceptance, increase user acceptance, and ensure TMOs and users understand available services. |
| G-1.11 | The Offeror shall develop and create a marketing plan to be approved by the Commonwealth. The marketing plan should address but not limited to the following objectives: <ul style="list-style-type: none"> o Increased adoption an usage of the new Unified Communications and VoIP Services o Ongoing outreach and training to TMOs and users on the features and benefits of the new services |

In Section III.8 of its response to this RFP:

III.8 G 1. The Offeror shall provide a transition approach description and draft schedule.

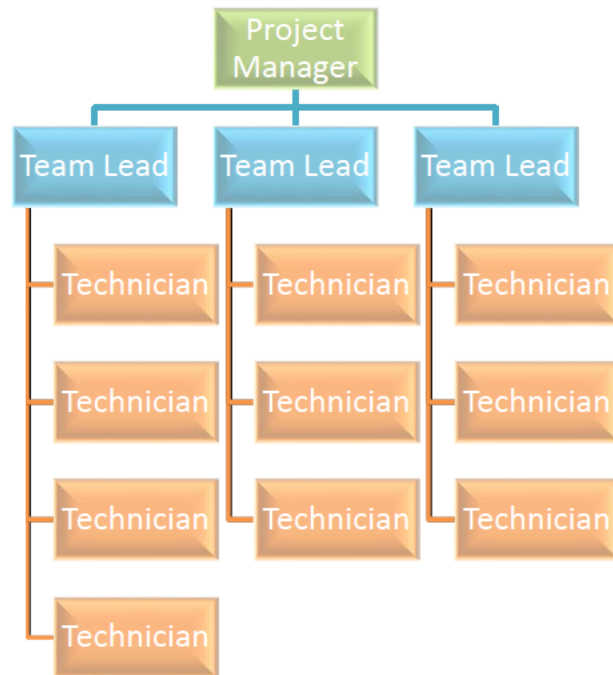

Verizon Response

Verizon's proposed draft transition plan with draft schedule can be found in Attachment 8.

The following provides a high level view of the Verizon approach for transition.

The project team for the transition consists of 14 people. The Project Manager will be the manager of the entire transition and will be working with the Verizon PM and Commonwealth PM. This person will coordinate all activities that encompass the entire transition.

We will have three teams made up of a team lead and technicians. The team lead will be the management of the team and will be working with the project manager to create all implementation plan tasks, as well as coordinate the regions that they are responsible for. We will have the ability to move technicians around from team to team based on the work load at the time. Our teams will work to install all components in each of the agencies and locations in all identified regions in the commonwealth.

Transition Team Structure

Acclaim Systems will work with the Verizon PM and Commonwealth Agency Point of Contract (POC) to work out a transition schedule that is in the best interests of the Commonwealth. Currently this is splitting the Commonwealth into regions and addressing the work based on these regions and three different teams. However, if during the transition other needs arise our plans will be adjusted accordingly. Our team will work with Agency POC to obtain agreement as to when certain aspects of the transitions are accomplished.

Our transition plan is based on flexibility in the sequence of transition. At each stage our team will perform planning and assessing of all end points to outline when each will be transitioned. This is an ongoing occurrence and our plans can be manipulated based on conditions on the ground. Our team will work with the agencies in determining this schedule and the transition of each end point and will be communicating this schedule all throughout the transition.

III.8 G 2. The Offeror shall describe its Feature Code List.

Verizon Response

A [Redacted]

III.8 G 3. The Offeror shall describe its options for collection and disposal of equipment to be replaced.

Verizon Response

A [Redacted]

III.8 G 4. The Offeror shall provide a draft of its Marketing Plan that describes its approach to marketing the proposed services to the Commonwealth. Identify critical success factors and any applicable assumptions with the execution of the marketing plan to increase adoption of the Offeror's Unified Communications and VoIP Services across the commonwealth.

Adoption Program

Verizon Marketing Plan Adoption Program

Placeholder text consisting of multiple lines of empty rectangular boxes.

Digital Enablement Starts with Successful Adoption Supported by Ongoing Training

Vitalyst Adoption through training

Lot 2. Traditional Voice Services

The key goals for the new Traditional Voice Services are as follows:

- Provide support for existing voice services.
- Minimize any disruption in current services during transition.
- Give agencies the ability to perform their own moves, adds, changes (e.g. self-managed MACs for toll free numbers).
- Service desk service connected to and operating in cooperation with the Commonwealth's enterprise service desk

Lot 2, Traditional Voice Services, services should include but not limited to the following:

- Trunk lines - for existing PBX and Key systems.
- POTS lines for emergency phones, equipment monitoring support, payphones, etc.
- Centrex services.
- Pay phones.

In addition to the Core Services described previously in this Section, an Offerors (if responding to Lot 2 Services) shall address the following tasks in its response:

Lot 2 Services - Traditional Voice Services

D. Features and Functions

III.8 D Lot 2 1. PBX / Key System Trunks

III.8 D Lot 2 2. Centrex

a. Main Line

b. Voice Mail Services

c. Auto Attendants

d. Conventional Toll Free Services with Advanced Routing

e. Call Handling

f. Safety & Security

g. 911

h. Conferencing

i. Hardware

III.8 D Lot 2 3. POTS

III.8 D Lot 2 4. Payphones

E. Training

F. Transition Support

Note: Tasks A-C (Core Services) are presented in a section above and are to be included in the Offeror's response along with Tasks D - F described below. If the Offeror is also proposing on Lot 1, it is not necessary to repeat its responses to the Core Services tasks.

The Verizon Information Technology Disaster Recovery Program supports the development of Disaster Recovery Plans for critical applications.

Each Verizon application is required to undergo a Business Impact Analysis that determines its criticality and whether a Disaster Recovery Plan needs to be developed.

An optional Verizon service for Centrex users is Custom Redirect Service (CRS), a comprehensive call routing service that allows an agency to manage inbound calls. CRS uses the Advanced Intelligent Network (AIN) to redirect incoming voice calls to a telephone number pre-selected by the administrator.

With CRS, you can reroute calls due to time of day, excess call volume, or based on the specific inbound phone number. The administrator can easily activate routing plans by using a touchtone keypad.

CRS provides an ideal solution to support continuity planning, e.g. disaster recovery. In the event of an emergency, CRS can route inbound traffic to alternative locations to help maintain business continuity. The Commonwealth can then redirect calls from one location to another using a pre-determined routing plan to meet urgent traffic needs.

III.8 D Lot 2 4. The Offeror shall indicate its current and planned service availability throughout the Commonwealth by completing the attached Appendix T - PBX and Key System Locations and Appendix U - Centrex Analog Service Locations and including with its response.

Verizon Response

Verizon has completed Appendix S and T which indicates our current and planned service availability. Refer to the Appendices section for response.

III.8 D Lot 2 5. The Offeror shall describe the geographical areas where each service type can be provided. This description shall include maps and/or NPA-NXX designations, as appropriate.

Verizon Response

Verizon is proposing to support Lot 2 services statewide with a combination of services in the Verizon footprint and other Pennsylvania Local service providers.

III.8 D Lot 2 6. The Offeror shall identify any other companies or organizations it plans to include in its service delivery team.

Verizon Response

Verizon's service delivery team for Lot 2 includes the following partners:

| Contractor | Services |
|------------------------|---|
| Acclaim Systems | Systems Integration and Service Desk |
| TelPlus Communications | Coordination and management of orders for out of franchise locations. |

| Contractor | Services |
|-------------------------------|------------------------------------|
| Pacific Telecom Service (PTS) | Payphone support |
| PC Network, Inc. | Commonwealth satisfaction surveys, |

III.8 D Lot 2 7. The Offeror shall disclose its standard timeframe for satisfying a service order, by service type. In addition, the Offeror shall explain how they can support a request for an expedited service and the circumstances under which additional charges are applied.

Verizon Response

Standard Voice intervals are provided as follows:

Standard Service Intervals

| Verizon Voice Service Type | Standard Interval (in business days) | Notes |
|-----------------------------|--------------------------------------|--|
| Centrex | 9 | |
| Analog POTS: | 7 | |
| Wired Service - 2 | 6 | |
| Wired Service - 4 | 21 | |
| DID Blocks | 24 | |
| Auto Attendant | 30 | |
| Toll Free | 15 | |
| Centrex - Adds 1-5 lines | 3-5 | 6+ lines require a facility check and date due is negotiated |
| Change - 1-20 lines | 5-8 | |
| Disconnect | 5 | |
| Voice Mail: | 7 | |
| ISDN Voice PRI | 24 | |

An agency may request an expedite and Verizon will make best efforts to accommodate the requested date. When special needs arise and an agency requires service to be installed sooner than the standard interval, the customer service team will coordinate with the delivery teams to improve a delivery date as much as possible. Over the years the Verizon team has always strived to accommodate agency's special requests, especially during emergency situations.

PBX / Key System Trunk Services

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|------------|--|
| D-2.1 | <i>The Offeror shall provide trunk services for existing and future PBX and Key systems (see Appendix T for current sites utilizing trunk services).</i> |
| D-2.2 | <i>The Offeror shall provide the capability to port current telephone numbers (TN) including Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) TN's and toll-free (TF) numbers over from current provider from any NPA/NXX within PA.</i> |
| D-2.3 | <i>The Offeror shall provide DIDs upon request.</i> |
| D-2.4 | <i>The Offeror shall provide and maintain a current service availability catalog indicating where within the Commonwealth its services are available.</i> |
| D-2.5 | <i>The Offeror shall provide TN management capability to easily activate/deactivate TN within existing blocks.</i> |
| D-2.6 | <i>The Offeror shall meet current federal/state/local accessibility/disability requirements.</i> |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 1. The Offeror shall describe its approach to managing DIDs.

Verizon Response

Verizon provides DID blocks in groups of 20 and 100. Numbers are provided based on availability. In today's environment, if the Commonwealth disconnects lines, those numbers are retained for future use by the Commonwealth, should they be needed. DID numbers are to be inventoried in ESMS.

Centrex Services

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|------------|---|
| D-2.7 | <i>The Offeror shall provide the capability to port current telephone numbers (TN) within PA.</i> |
| D-2.8 | <i>The Offeror shall provide PSTN connections.</i> |
| D-2.9 | <i>The Offeror shall provide point-to-point, two wire and four wire services.</i> |
| D-2.10 | <i>The Offeror shall accommodate simultaneous inbound/outbound calls from a single TN.</i> |
| D-2.11 | <i>The Offeror shall acknowledge that a request at Enterprise level to block TN must be initiated by OA only with strict guidelines.</i> |
| D-2.12 | <i>The Offeror shall provide user friendly process for updating directory listings.</i> |
| D-2.13 | <i>The Offeror shall provide ability for end users to dial and connect to 411 for information service.</i> |
| D-2.14 | <i>The Offeror shall provide analog service to locations which have or will have elevators, fax, alarm (fire, security, other) and TTY.</i> |

D.2.9 The Offeror shall provide point-to-point, two wire and four wire services

Regarding decommissioning of point-to-point two wire and four wire services, Verizon will : (i) notify the Commonwealth in writing of the intended discontinuance; and (ii) continue to offer the discontinued service for the greater of: a) the best terms offered by Verizon to any other customer, or b) not less than twelve (12) months from the date of notice; and (iii) at Commonwealth's option Verizon shall provide the Commonwealth with a comparable replacement service, technology or migration path with equivalent functionality at no additional charge or provide increased functionality at a mutually agreed upon cost.

In Section III.8 of its response to this RFP:

III.8 D Lot 2 8. The Offeror shall describe how it will offer the assignment and management of direct inward dialing blocks of phone numbers as a managed service.

Verizon Response

Verizon provides DID blocks in groups of 20 and 100. Numbers are provided based on availability. In today's environment, if the Commonwealth disconnects lines, those numbers are retained for future use by the Commonwealth, should they be needed. The agency LifeCycle Project Manager will work with the agency TMO to manage the ESMS inventory.

III.8 D Lot 2 9. The Offeror shall describe its approach to providing multiple line appearances and to accommodating simultaneous inbound/outbound calls, line status/busy indicator.

Verizon Response

The Verizon approach to providing multiple line appearances and to accommodating simultaneous inbound/outbound calls, and line status/busy indicator for Centrex users is via a Centrex compatible multi-line phone with and add-on module.

III.8 D Lot 2 10. The Offeror shall describe its proposed process for handling a request to block a number. Please describe your system's ability to block a number from a particular user's telephone number.

Verizon Response

When the Commonwealth has the need to block a number from a particular user's telephone number, the agency will open a ticket with the Verizon Service Desk who will facilitate the request with the (UCC) Unlawful Call Center.

Main Line Services

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|---------------|---|
| <i>D-2.15</i> | <i>The Offeror shall provide feature solutions to accommodate main line answering scenarios, i.e.,</i> <ul style="list-style-type: none"> <i>a. Centralized answering point</i> <i>b. Receptionist</i> <i>c. Dedicated switchboard</i> <i>d. Forward capability (including night feature)</i> |
| <i>D-2.16</i> | <i>The Offeror shall provide main line answering features for multiple users.</i> |

| Ref | Requirements of Selected Offeror |
|--------|--|
| D-2.17 | The Offeror shall accommodate legacy attendant console/main switchboard functionality. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 11. The Offeror shall describe its proposed solutions to accommodate main line answering scenarios, i.e.,

- a. Centralized answering point
- b. Receptionist
- c. Dedicated switchboard
- d. Forward capability (including night feature)

Verizon Response

The Verizon solution for main line answering scenarios for Centrex users is via a multi-line phone with add-on module. Suggested models are by Cortelco.

Voice Mail Services

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.18 | The Offeror shall provide simple and logical instructions for users (i.e. change greeting/name, listen to VM, delete VM, transfer VM, etc.) |
| D-2.19 | The Offeror shall provide capability for VM to be transferred to 2nd party VM. |
| D-2.20 | The Offeror shall provide optional graphic user interface (GUI) for web based VM management. |
| D-2.21 | The Offeror shall provide optional OOO functionality with expiration date. |
| D-2.22 | The Offeror shall provide availability for voicemail message to be left at number to which calls have been transferred. |
| D-2.23 | The Offeror shall accommodate VM only line if needed. |
| D-2.24 | The Offeror's solution shall support the transfer of live calls into another person's VM. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 12. The Offeror shall describe sample VM instructions.

Verizon Response

Sample Voice Mail reference guide is provided as Attachment 11.

III.8 D Lot 2 13. The Offeror shall describe an optional GUI for web based VM management.

Verizon Response

Verizon's National Unified Messaging Service (NUMS) is a network-based unified messaging service designed to meet the needs of the Commonwealth.

National Unified Messaging Service enables you to move away from using multiple regional voicemail platforms or CPE-based solutions. Enterprises can collaborate more effectively and drive efficiency and productivity improvements with National Unified Messaging Service.

Productivity Improvements

- Enables better communication and collaboration through a web portal where users can access messages, administer their unified message, and set Find Me/Follow Me or Call Forwarding feature settings
- Offers one nationwide toll-free number for users to access voicemail via telephone
- Sends messages to other mailbox users
- Alerts users of new messages via email or text message so that no matter where they are - in a meeting or on the road - they are able to respond quickly
- Accepts calls when the line is busy or unanswered so you do not have to redial

Operational Efficiencies

- Provides consistent functionality across end users
- Provides a single messaging platform for all Commonwealth locations no matter the voice service provided
- Easy voice transformation from TDM to VOIP by using the same messaging service throughout your evolution
- Simplifies management and streamlines costs through a nationwide hosted solution
- Sends company-wide or departmental messages to specific lists of users
- Provides Auto Attendant capabilities to manage incoming calls

Standard National Unified Messaging Service

Standard National Unified Messaging Service enables access and management of voicemail and related options via the telephone and through the use of Visual Voicemail.

The following capabilities are available, based on the message capacity selected:

| Message Capacity | Greeting Length | Message Length (Minutes) | Number of Distribution Lists/Number of Calls Per List | Storage Time (Days) |
|------------------|-----------------|--------------------------|---|---------------------|
| 15 messages | 45 seconds | 3 | 5/25 | 14 |
| 35 messages | 1 minute | 3 | 5/25 | 30 |
| 90 messages | 5 minutes | 5 | 90/90 | 30 |

Verizon has priced the 35 message capacity voicemail in our Cost proposal in Appendix F, Volume II.

- Listen to, delete, or forward voicemail messages
- Set up to three Find Me/Follow Me numbers
- Set notification options for pager/phones with texting (up to five schedules) and email (via Visual Voicemail)
- Selection Mailbox Options menu to provide shorter verbiage on the Main Menu only
- Choose greetings played to incoming callers (via phone or Visual Voicemail):
 - In the Office and Available Greeting
 - In the Office and Unavailable Greeting
 - Not Accepting Messages Greeting
 - Message Center Default Greeting
- Voicemail PIN change
- Set attendant (Operator) number (via Visual Voicemail)
- Schedule the order of message retrieval, headers, and voicemail message saving (via Visual Voicemail)
- Create distribution lists to send the same voice message to multiple mailboxes within your organization
- Enhanced extension mailbox navigation

Enhanced National Unified Messaging Service

Enhanced National Unified Messaging Service enables access to and the management of voicemail and related options via the telephone and through the use of Visual Voicemail.

The following capabilities are available, based on the message capacity selected:

| Message Capacity | Greeting Length | Message Length (Minutes) | Number of Distribution Lists/Number of Calls Per List | Storage Time (Days) |
|------------------|-----------------|--------------------------|---|---------------------|
| 15 messages | 45 seconds | 3 | 5/25 | 14 |
| 35 messages | 1 minute | 3 | 5/25 | 30 |
| 90 messages | 5 minutes | 5 | 90/90 | 30 |

- **Menu Mailbox:** A number ordered as a menu mailbox can be call forwarded to Unified Messaging to play up to nine menu options. The box will play a greeting offering up to nine transfer options. Each transfer option will transfer directly to a mailbox on the system. Each selected transfer option must exist as a mailbox on the system. The transfer options can be managed via Visual Voicemail.
- **Menu Routing Mailbox:** The Menu Routing Mailbox works similarly to a Menu Mailbox with the added capability to set an option which will first route to the phone number for the selected option and back to the mailbox if the number is not answered. This application requires a Remote Call Forward ("RCF") number to establish the appropriate number of call paths necessary to support the expected peak for simultaneous call volumes (additional costs may apply for the RCF).
- **Menu Routing Enhanced:** This mailbox option is similar to the Menu Routing box, but it offers a lot of additional or enhanced features including routing options for various schedules, including business hours, out-of-hours, holiday, and emergency schedules. It will also support multi-level menus and navigation between menus. It will support additional transfer options, as well including longer ring cycles and transfers to numbers that are not also built as boxes on National Unified Messaging Service. Typically these boxes will require discovery of your specific requirements and complex applications may require project design and support assistance. This application requires a Remote Call Forward number to establish the appropriate number of call paths necessary to support the expected peak for simultaneous call volumes (additional costs may apply for the RCF).
- **Auto Attendant:** A mailbox option that offers routing options to dial by name or dial by number. Often this option is built on a pseudo 10-digit number and added as an option under a menu.
- **Listen and Reply 1 Min** - Provides a greeting one minute in length and up to 40 replies, with a maximum of a minute each in length.
- **Listen and Reply 3 Min** - Provides a greeting three minutes in length and up to 200 replies, with a maximum of three minutes each in length.

Auto Attendants

| Ref | Requirements of Selected Offeror |
|--------|--|
| D-2.25 | <i>The Offeror shall provide auto attendant capabilities such as, but not limited to, the ability to create multiple menus for call routing, mailboxes that will allow callers to hear a pre-recorded message, mailboxes that will provide prompting to callers to say specific information that will in turn be delivered as a voicemail to a designated destination, and the ability for callers to leave standard voicemails.</i> |
| D-2.26 | <i>The Offeror shall provide the ability to route calls from the Offeror's Auto Attendant platform to any local, long distance, or toll free number.</i> |
| D-2.27 | <i>The Offeror shall fully manage, at the request of an individual agency, all auto attendant changes.</i> |
| D-2.28 | <i>The Offeror shall provide ability to route calls by time of day/day of week/holiday.</i> |

| Ref | Requirements of Selected Offeror |
|--------|--|
| D-2.29 | The Offeror shall provide alternate routing/disaster recovery pre-built mapping capability (i.e. emergency/after-hours.) |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 14. The Offeror shall describe its proposed alternate routing/disaster recovery pre-built mapping capability (i.e. emergency/after-hours).

Verizon Response

The Menu Routing Enhanced mailbox should be used when an agency requires enhanced features such as routing options for various schedules including, business hours, out-of-hours, holiday, and emergency schedules. Typically these boxes will require discovery of the specific customer requirements and complex applications may require project design and support assistance. This application requires a Remote Call Forward number to establish the appropriate number of call paths necessary to support the expected peak for simultaneous call volumes.

If an agency auto attendant is served by a Toll Free number, additional alternate routing plans could be developed to prepare for a potential disaster or emergency.

III.8 D Lot 2 15. The Offeror shall describe its auto attendant capabilities and options in regard to menus for call routing, mailbox messages and prompting and delivery of voicemail.

Verizon Response

The Verizon Auto Attendant capability includes the following:

- Auto Attendant - Select from four different auto attendant options:
 - Menu Mailbox: A number ordered as a menu mailbox can be call forwarded to Unified Messaging to play up to nine menu options. The box will play a greeting offering up to nine transfer options. Each transfer option will transfer directly to a mailbox on the system. Each selected transfer option must exist as a mailbox on the system. The transfer options can be managed via Visual Voicemail.
 - Menu Routing Mailbox: The Menu Routing Mailbox works similarly to a Menu Mailbox with the added capability to set an option which will first route to the phone number for the selected option and back to the mailbox if the number is not answered. This application requires a Remote Call Forward ("RCF") number to establish the appropriate number of call paths necessary to support the expected peak for simultaneous call volumes (additional costs may apply for the RCF).
 - Menu Routing Enhanced: This mailbox option is similar to the Menu Routing box, but it offers a lot of additional or enhanced features including routing options for various schedules, including business hours, out-of-hours, holiday, and emergency schedules. It will also support multi-level menus and navigation between menus. It will support additional transfer options, as well including longer ring cycles and transfers to

Conventional Toll Free with Advanced Routing

| <i>Ref</i> | <i>Requirements of Selected Offeror</i> |
|------------|--|
| D-2.30 | The Offeror shall provide toll-free (TF) Services. |
| D-2.31 | The Offeror shall provide new toll free numbers upon request. |
| D-2.32 | The Offeror shall allow for self-managed routing changes for TF numbers. |
| D-2.33 | The Offeror shall provide the capability to port current toll-free (TF) numbers. |
| D-2.34 | The Offeror shall provide the capability to route TF numbers to alternate points, as needed, using a web portal or website. |
| D-2.35 | The Offeror shall provide the capability to route TF numbers to an alternate point, as needed, as the result of a service order or phone call. |
| D-2.36 | The Offeror's TF advanced routing capability shall include DNIS, ANI, NXX and time and / or day scheduled routing |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 16. The Offeror shall describe its solution for self-service web access to provide the ability to make routing changes.

Verizon Response

Network Manager is a powerful web-based Verizon Enterprise Center (VEC) application that gives inbound service customers a view of their traditional and IP toll-free, network routing data as well as the capability to make quick changes to routing plans. This optional service allows customers to examine current routing plans and customize their features on in a near real-time basis. With this dynamic application, users can manage their network configurations easily by routing their inbound traffic and quickly responding to disasters and changing business needs.

Network Manager allows advanced users to build alternate plans ahead of time and activate them on demand in case of an emergency. Changes to inbound numbers or activation of new routing plans are effective within minutes of submitting the request.

Network Manager is a Windows GUI application complete with color displays, easy-to-read icons, pop-up windows, and a convenient toolbar. It allows you to quickly and easily view entire network configurations, make changes, or order new features.

Network Manager provides near real-time traffic management for both basic and advanced Verizon inbound services by providing definition and control of origination, routing, and termination features

III.8 D Lot 2 17. The Offeror shall describe its approach to providing routing capabilities.

Verizon Response

The Verizon approach to providing Toll Free routing capabilities is via the optional Network Manager Service. Routing capabilities include:

- Dynamically manage and configure inbound network resources.

- Access a hierarchical view of your network and routing options.
- Implement geographical routing, scheduled routing, load balancing, contingency planning, and call blocking.
- Construct, edit, and delete plans for greater routing flexibility.
- Implement alternate routing plans in response to changing requirements.
- Modify percent allocation and terminations within minutes.
- Track your order changes.

Call Handling

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.37 | The Offeror shall provide typical handling capabilities including: <ul style="list-style-type: none"> a) Call waiting b) Caller ID c) Permanent call blocking/unblocking d) Per call blocking/unblocking e) Manual call forwarding/removing forwarding |
| D-2.38 | The Offeror shall provide processes, response times for service/support, and call details for trap and trace. All lines provided by the Offeror shall have the capability to do trap and trace. |
| D-2.39 | The Offeror shall provide availability to answer incoming call from another individual phone. |
| D-2.40 | The Offeror shall provide availability to answer incoming call from another phone within a designated group. |
| D-2.41 | The Offeror shall provide the option to mask outbound caller id on an individual TN basis. |
| D-2.42 | The Offeror shall provide flexible hunting capabilities. |
| D-2.43 | The Offeror shall provide automatic dialing of a pre-determined number as a feature when a designated phone goes "off hook". |
| D-2.44 | The Offeror shall provide the ability to locally and remotely manage call forwarding features by user and administrators. |
| D-2.45 | The Offeror shall provide options for line referrals. At a minimum, the options shall include six (6) and twelve (12) months. |
| D-2.46 | The Offeror shall provide the capability to block a number at the WTN level upon agency request. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 18. The Offeror shall describe its process and response times for service/support for trap and trace law.

Verizon Response

Trap and trace (feature code *57) is a telephone feature whereby the telecommunication carrier is able to identify and retain the telephone number of an incoming call and monitor the activity originating from the incoming phone number that has placed a threatening, harassing or

nuisance telephone calls. The Verizon Unlawful Call Center (UCC) is responsible for responding to life threatening, harassing, or nuisance calls received at Commonwealth worksites.

Below is the Trap and Trace process for a Commonwealth user:

- Commonwealth employee will activate *57 immediately after ending the call needing traced
- Commonwealth employee will contact the Verizon service desk
- Commonwealth employee will provide the following information to the Verizon service desk:
 - Person Reporting, Agency, Person Reporting Contact Number, Trouble Reported - Activated *57 Trap & Trace, received threatening, harassing, or nuisance calls, Address, End User Contact Name and Number, Hours of Access
- Verizon service desk will supply customer with ticket/tracking number.
- Verizon service desk will establish a 3 way call with the Commonwealth and the Unlawful Call Center.
- Verizon service desk will provide the Commonwealth employees information to the Unlawful Call Center or Security Control Center:
- Verizon service desk will hang up from the existing call between Commonwealth and the Unlawful Call Center.
- Verizon service desk will contact TMO and report completion
- Verizon service desk will complete ticket

III.8 D Lot 2 19. The Offeror shall describe its capabilities and options for blocking numbers upon request. Please describe your system's ability to block a number from a particular user's telephone number.

Verizon Response

When the Commonwealth has the need to block a number from a particular user's telephone number, the agency will open a ticket with the Verizon Service Desk who will facilitate the request with the (UCC) Unlawful Call Center.

Safety and Security

| Ref | Requirements of Selected Offeror |
|--------|--|
| D-2.47 | The Offeror shall provide availability and repair times in accordance with mutually accepted Service Level Agreements and will be included with each agencies Continuity of Operations (COOP) and Continuity of Government (COG) procedures. |
| D-2.48 | The Offeror shall provide routing of calls for adherence to Government Emergency Telephone Service (GETS). |
| D-2.49 | The Offeror shall provide support of Telecommunications Services Priority (TSP) |

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.50 | The Offeror shall provide a multiple number calling feature to be used to reach multiple users for emergency notification purposes. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 20. The Offeror shall describe its approach to supporting the Safety and Security requirements identified above (e.g., COOP, COG, GETS and TSP)

Verizon Response

Verizon is committed to the Continuity of Operations (COOP) and Continuity of Government (COG) for the Commonwealth agencies. We take our role providing reliable and available services for the agencies. Everything we do we build on a strong network, systems and process foundation. The quality and reliability of the products we deliver are paramount. Verizon adheres to both the Government Emergency Telephone Service (GETS) and Telecommunications Service Priority (TSP) Programs.

During emergencies, the public telephone network can experience congestion due to increased call volumes and/or damage to network facilities, hindering the ability of national security and emergency preparedness (NS/EP) personnel to complete calls. The Government Emergency Telecommunications Service (GETS) provides NS/EP personnel priority access and prioritized processing in the local and long distance segments of the landline networks, greatly increasing the probability of call completion. GETS is intended to be used in an emergency or crisis situation when the network is congested and the probability of completing a normal call is reduced. Verizon provides routing of calls for adherence to the GETS requirements.

Verizon also fully complies with its obligations under the TSP Program, by, among other things, meeting the following requirements:

- Provide TSP service only after receipt of a TSP authorization code.
- Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided
- Designate a 24-hour point of contact (POC) to receive reports of TSP service outages from TSP service users.
- Designate a 24-hour POC to coordinate TSP processes
- Ensure that priority-level assignments of NS/EP services are accurately identified “end-to-end” by providing to subcontractors and service vendors who supply underlying facilities provisioning and/or restoration priority information relating to a service.
- Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.
- TSP Confirmation and Database Reconciliation.

■ Providing TSP Education.

There are options Verizon can explore with an agency to provide a multiple number calling feature to be used to reach multiple users for emergency notification purposes. One option is an audio conferencing solution that offers an option called Dial-Out Access. This access method requires that the Leader of the conference call (or a Verizon Conference Coordinator) establish the call and perform the Dial-Out to Participants feature via the Web Moderator online call management tool. Otherwise, the Commonwealth must arrange for the participants to be called by the Verizon Conference Coordinator at the pre-arranged date and time. Another option for consideration is the Voicemail broadcast message capability that allows a user to send a message to a large group or to the whole organization across all sites.

911 Services

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.51 | The Offeror shall provide 911 location services that comply with local/state/federal requirements. |
| D-2.52 | The Offeror shall provide 911 location services that comply with local/state/federal E911 requirements. |
| D-2.53 | The Offeror shall confirm 911 emergency access from all locations to the correct public safety answering point (PSAP) before implementing any new services to include location and call back information. |
| D-2.54 | The Offeror shall provide location specific information, including address, floor number and compass direction as a minimum, to the corresponding PSAP. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 21. The Offeror shall describe its approach to providing location specific information to the PSAPs for 911 and E911 service.

Verizon Response

Centrex and PBX customers with tenant and off-premises extensions use PS/ALI to provide accurate station location information to the Verizon DBMS. It allows station callers who dial Enhanced 911 to have their exact location displayed at the PSAP just as they would from a residence.

With regular 911 service, for PBX or Centrex the PSAP operator can identify only the main billing number at the caller's location. However, optional PS/ALI service automatically shows the PSAP operator the caller's callback number and exact location, which allows the operator to send help more quickly in an emergency.

III.8 D Lot 2 22. The Offeror shall describe how its proposed solution will provide location specific information, including address, floor number and compass direction as a minimum, to the corresponding PSAP.

Verizon Response

E-911 calls from the Commonwealth can be entered into the E-911 network in several ways. For single line service, the caller will have direct access to the E-911 network via the Verizon Public

- Proper E-911 call routing is determined by local E-911 government jurisdictions identifying the proper PSAP by use of Emergency Service Numbers (ESN) that correlates to the Emergency Service Responders for a given region.
- Verizon is not responsible for miss-routed E-911 calls when the customer has not properly maintained station ALI in the E-911 database.

The Commonwealth is responsible for notifying its end users of the limitations in relation to emergency calling via the Services or making arrangements with E-911 service provider where it is not Contractor (including those detailed in Contractor's proposal), and the Commonwealth shall be solely responsible for any third-party claims and any liability arising from the Commonwealth's failure to so notify its end users or E-911 provider.

THE COMMONWEALTH IS RESPONSIBLE FOR ANY CLAIMS OR CAUSES OF ACTION ARISING FROM THE NON-IMPLEMENTATION OF PS/ALI AND/OR ENABLING OF STATION LEVEL 911 SERVICE, OR THE FAILURE OF PS/ALI OR STATION LEVEL 911 SERVICE IF ENABLED.

Conferencing

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.55 | The Offeror shall provide a voice conferencing solution that can be utilized independent of any unified communication service. |
| D-2.56 | The Offeror shall provide unlimited free local number Dial In. |
| D-2.57 | The Offeror shall provide toll-free Dial In. |
| D-2.58 | The Offeror shall provide the ability to record conference calls. |
| D-2.59 | The Offeror shall provide a solution to support full service conference hosting. |
| D-2.60 | The Offeror shall provide the ability to choose a large capacity conferencing option which allows for in excess of 1,000 participants. Features should include but not be limited to the following: <ol style="list-style-type: none"> Ability to limit participants from unmuting their lines during meeting. Ability for participants to register for the meeting with the meeting coordinator being able to dictate what information the registrants need to provide. Ability for participants to utilize a chat feature in order to ask questions. Should include video, collaboration, dial in voice functionality. Ability for meeting coordinator to view all that registered and participated in meeting. Ability to send invitations to meeting attendees and bulk upload attendees. |
| D-2.61 | The Offeror's solution shall provide the following minimum customer support services: <ul style="list-style-type: none"> <input type="checkbox"/> Online Help Center <input type="checkbox"/> Email & phone support <input type="checkbox"/> Dedicated account manager |
| D-2.62 | The Offeror shall provide an option for contract participants to choose full service conference hosting services to include operator assisted services. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 24. The Offeror shall describe its proposed voice conferencing service and user features.

Verizon Response

... A ...

■ Premier Service: ... A ...

■ Unattended Service: ...

■ Instant Meeting: ... A ...

...'

■ ...

■ A ... A ...

■ ... A ... A ... A ...

providing an integrated audio experience for a WebEx meeting. WebEx CCA can be procured as an add-on to Cisco WebEx agreements.

- Reserved Net Conference - is a premier net conference service offering operator assistance and call management for a superior conference experience. A Meeting Coordinator monitors the session and is available to assist the leader or participants during the call. Up to 1,250 participants are supported.

III.8 D Lot 2 25. The Offeror shall describe its full service conferencing option.

Verizon Response

Verizon's Premier Service is an attended conferencing service for calls that are reserved in advance and supported by a conference operator. The conference operator is assigned as the single point-of-contact to ensure meeting requirements are met, including support before, during, and after the call. Premier service is available using toll-free or direct distance dial numbers.

III.8 D Lot 2 26. The Offeror shall describe its process for customer support and account management.

Verizon Response

The Verizon Conferencing Call Centers provide customer support for audio conferencing and are available 24 hours a day, 365 days a year.

Ongoing support and training is available to support the agency and its end-users. The Verizon Product Help Desk (PhD) can assist with product, tools, and website-related questions, giving leaders and participants the knowledge, understanding, and comfort level to use the service.

End-user training is also a critical component to a successful implementation and Verizon will develop and implement a user-training program customized for your needs.

Account management in support of the Verizon conferencing services will be provided by the dedicated Harrisburg account team and Program Management Office.

Hardware

| Ref | Requirements of Selected Offeror |
|--------|--|
| D-2.63 | The Offeror shall provide specifications for each agency proprietary or non-proprietary phone, life cycle and end of life cycle date. This information shall be kept current for the life of the contract. |
| D-2.64 | The Offeror shall adhere to ADA requirements for public phone installation and use. |

In Section III.8 of its response to this RFP:

III.8 D Lot 2 27. The Offeror shall provide specifications for each agency phone, life cycle and end of life cycle date, if known.

Verizon Response

For all of the items listed in Appendix S on the Lot 2 - Desk Phones tab, a data sheet is included as Attachment 9. These data sheets provide the product specifications requested.

III.8 D Lot 2 28. The Offeror shall review the list of existing Commonwealth hand and headset (Appendix R) and indicate what existing hardware is not compatible with its proposed solution.

Verizon Response

Verizon has reviewed and completed the list of existing Commonwealth hand and headsets in Appendix R. No existing hardware is “not compatible” with our proposed solution.

POTS Services

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.65 | <i>The Offeror shall accommodate single analog lines in diverse locations to support analog phones.</i> |

Pay Phones

| Ref | Requirements of Selected Offeror |
|--------|---|
| D-2.66 | <i>The Offeror shall provide a payphone service to accommodate existing payphone deployments, as well as new deployments. (See Appendix V).</i> |
| D-2.67 | <i>The Offeror shall meet current federal/state/local accessibility/disability requirements with adherence to Americans with Disabilities Act (ADA) TTY and the Twenty-First Century Communications and Video Accessibility Act (CVAA).</i> |

E. Training

Description

This section describes the training requirements for which the selected Offeror shall be responsible. These responsibilities will apply for the duration of the contract resulting from the award of this RFP.

Tasks

| Ref | Requirements of Selected Offeror |
|-------|---|
| E-2.1 | <i>The Offeror shall submit all training material and class outlines to the Commonwealth for approval prior to being made available to contract participants.</i> |
| E-2.2 | <i>The Offeror shall provide the Commonwealth with the credentials and experience of each of the proposed trainers a minimum of two weeks prior to each of the scheduled training sessions. The Commonwealth reserves the right to interview and approve or disapprove of each of the trainers.</i> |
| E-2.3 | <i>The Offeror shall provide periodic informational and training sessions with key agency personnel.</i> |
| E-2.4 | <i>The Offeror shall provide feature based training videos to be posted and updates on a mutually agreed-upon website.</i> |
| E-2.5 | <i>The Offeror shall be responsible for training all administrators prior to installation or activation of any services. Training shall include, but not be limited to:</i> <ul style="list-style-type: none"> <i>o How to place call</i> |

| Ref | Requirements of Selected Offeror |
|--------|--|
| | <ul style="list-style-type: none"> o Transfer o Call pick up, etc. |
| E-2.6 | The Offeror shall provide optional onsite training and support during actual transition (to be scheduled by agency prior to transition date). |
| E-2.7 | The Offeror shall provide training courses specifically and solely related to conferencing. |
| E-2.8 | The Offeror shall schedule instructor led training sessions within the commonwealth's learning management system. |
| E-2.9 | Upon request of an agency, the Offeror shall provide concise, user friendly documentation to each end user at time of transition. |
| E-2.10 | The Offeror shall provide hands-on classroom training sessions for individuals supporting answering positions. |
| E-2.11 | The Offeror shall provide additional training sessions at no cost should the classroom instruction be considered a failure due to the ineffectiveness of the instructor. |
| E-2.12 | The Offeror shall allow evaluation of all trainers. The Offeror shall replace a trainer at the request of the Commonwealth. |

In Section III.8 of its response to this RFP:

III.8 E Lot 2 1. The Offeror shall describe its approach to providing training prior to and during the service transition period.

Verizon Response

The Verizon team understands the value of training, and Verizon has a long history of providing training to government customers.

Verizon's training plan in support of the Commonwealth's voice (TDM) services will be facilitated by a dedicated trainer who will support the course development and documentation specific to the Commonwealth's needs.

The trainer will be able to conduct on-site training and assist agencies with choosing training that best fits their needs with the goal being to help Commonwealth agencies more easily utilize the voice products, services and tools most effectively.

User and administrative training will be available, where applicable. User guides for Verizon's training classes will also be available online for users to download for reference.

III.8 E Lot 2 2. The Offeror shall describe its plan to sustain and provide ongoing training for the life of the contract.

Verizon Response

Verizon's training plan in support of the Commonwealth's voice (TDM) services will be facilitated by a dedicated trainer who will support the course development and documentation specific to the Commonwealth's needs.

F. Transition

Description

This section describes the transition support requirements for which the selected Offeror shall be responsible.

Tasks

| Ref | Requirements of Selected Offeror |
|-------|--|
| F-2.1 | The Offeror shall schedule transitions as determined by the agencies. |
| F-2.2 | The Offeror shall provide agencies with Feature Code List once schedule has been determined. |
| F-2.3 | The Offeror shall coordinate transition with multiple vendors during any transitions which include multiple vendors. |
| F-2.4 | The Offeror shall provide options for collection and disposal of equipment to be replaced. |
| F-2.5 | The Offeror shall include any necessary training needs into transition or implementation schedule. |

In Section III.8 of its response to this RFP:

III.8 F Lot 2 1. The Offeror shall describe a Transition Approach and draft schedule.

Verizon Response

Over the last seven years, Verizon has been honored to be the Commonwealth's provider for the traditional services defined in Lot 2. With a significant investment in infrastructure and coverage across the Commonwealth, Verizon is in the best position to continue to provide the Lot 2 Centrex and related services in support of the agency's business needs.

A significant benefit to the Commonwealth for selecting Verizon to provide the Lot 2 services is the elimination of another transition which takes time, resources and money. As the UC service migration in Lot 1 is completing, Verizon will work with the Commonwealth in meeting their objective to migrate more TDM lines to an IP environment.

Lot 3 - Other Voice Conferencing Services

An Offeror, if responding to Lot 3 Services, shall address the following tasks in its response.

Lot 3 Services - Other Voice Conferencing Services

The following services will provide voice conferencing service options not intended for the Lot 1 (Unified Communications and VoIP Services) users.

A - Voice Conference Services (Office 365 Users)

Description

This service option is to provide an integrated audio conferencing services for users that already have deployed Office 365 and Skype for Business but currently have no PSTN connectivity to support voice conferencing for Office365 and Skype for Business. This service is not intended for the Lot 1 (Unified Communications and VoIP Services) users.

This section describes the voice conference service requirements for which the selected Offeror shall be responsible. These responsibilities will apply for the duration of the contract resulting from the award of this RFP.

Tasks

| Ref | Requirements of Selected Offeror |
|-------|---|
| A-3.1 | The Offeror shall provide a voice conferencing solution that integrates with a user's currently deployed Office365. This service will provide the PSTN conferencing capability that integrates with O365 and Skype for Business. |
| A-3.2 | The Offeror shall provide PSTN conferencing that will enable users access to voice conferences via PSTN Dial In. |
| A-3.3 | The Offeror shall provide toll-free Dial In to voice conferences (up to 250 attendees). |
| A-3.4 | The Offeror shall provide the ability to record conference calls as part of the recorded collaboration session. |
| A-3.5 | The Offeror shall provide the ability to choose a large capacity conferencing option which allows for in excess of 1,000 participants. Features should include but not be limited to the following: <ol style="list-style-type: none"> Ability to limit participants from unmuting their lines during meeting. Ability for participants to register for the meeting with the meeting coordinator being able to dictate what information the registrants need to provide. Ability for participants to utilize a chat feature in order to ask questions. Should include video, collaboration, dial in voice functionality. Ability for meeting coordinator to view all that registered and participated in meeting. Ability to send invitations to meeting attendees and bulk upload attendees. |
| A-3.6 | The Offeror's solution shall provide the following minimum customer support services: <ul style="list-style-type: none"> • Online Help Center • Email & phone support • Dedicated account manager |

In Section III.8 of its response to this RFP:

III.8 A Lot 3 1. The Offeror shall describe its proposed voice conferencing service and user features.

Appendix B Domestic Workforce Utilization Certification

To the extent permitted by the laws and treaties of the United States, each proposal will be scored for its commitment to use the domestic workforce in the fulfillment of the contract.

Maximum consideration will be given to those offerors who will perform the contracted direct labor exclusively within the geographical boundaries of the United States or within the geographical boundaries of a country that is a party to the World Trade Organization Government Procurement Agreement.

Those who propose to perform a portion of the direct labor outside of the United States and not within the geographical boundaries of a party to the World Trade Organization Government Procurement Agreement will receive a correspondingly smaller score for this criterion.

In order to be eligible for any consideration for this criterion, offerors must complete and sign the following certification. This certification will be included as a contractual obligation when the contract is executed. Failure to complete and sign this certification will result in no consideration being given to the offeror for this criterion.

I, _____ [title] of Verizon Business Network Services Inc. a Delaware corporation or other legal entity, ("Contractor") located at One Verizon Way, Basking Ridge, New Jersey, 07920, having a Social Security or Federal Identification Number of 13-2745892, do hereby certify and represent to the Commonwealth of Pennsylvania ("Commonwealth") (Check one of the boxes below):

All of the direct labor performed within the scope of services under the contract will be performed exclusively within the geographical boundaries of the United States or one of the following countries that is a party to the World Trade Organization Government Procurement Agreement: Aruba, Austria, Belgium, Bulgaria, Canada, Chinese Taipei, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Liechtenstein, Lithuania, Luxemburg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, and the United Kingdom

OR

_____ percent (_____ %) [Contractor must specify the percentage] of the direct labor performed within the scope of services under the contract will be performed within the geographical boundaries of the United States or within the geographical boundaries of one of the countries listed above that is a party to the World Trade Organization Government Procurement Agreement.

Please identify the direct labor performed under the contract that will be performed outside the United States and not within the geographical boundaries of a party to the World Trade Organization Government Procurement Agreement and identify the country where the direct labor will be performed:

_____ [Use additional sheets if necessary]

The Department of General Services [or other purchasing agency] shall treat any misstatement as fraudulent concealment of the true facts punishable under Section 4904 of the Pennsylvania Crimes Code, Title 18, of Pa. Consolidated Statutes.

Appendix H.1 Compliance Matrix Lot 1 and 2, Core Services, Tasks A-C

RFP 6100039274
Unified Communications & Voice Services

Instructions

The subsequent pages of this appendix provide a series of requirements matrices. These matrices reflect the requirements identified under Core Services for Lots 1, & 2 in Sections III-8.A - III-8.C of the this RFP.

Offerors shall complete tabs A and C of this appendix one time if they are bidding on Lots 1 and/or Lot 2.

To complete a tab, the Offeror shall indicate, for each requirement, its capability and commitment to comply with the item.

The response options are provided in a drop-down box and are as follows:

- Supported
- Configurable by COPA
- Configurable by Vendor
- Not Supported
- Supported in Next Release (Defined as within next 12 months)

Any response of "Not Supported" or "Supported in Next Release (Defined as within next 12 months)" must be explained in the vendors Technical Submittal. Vendors should NOT provide an explanation within the Compliance Matrix response.

The completed matrix must be included as Attachment H.1 in the Offeror's response to this RFP.

H.1 Lot 1 and 2, A - Support Services

| | Requirement | Requirement Type | Compliance |
|---|--|-------------------------|-------------------|
| <i>Service Delivery Management</i> | | | |
| A-1 | The Offeror shall work with the Commonwealth to integrate its service delivery systems and processes with Commonwealth systems, including: <ul style="list-style-type: none"> o Service ordering (using ESMS) o Billing (using ESMS) | Required | Supported |
| A-2 | The Offeror shall work with the Commonwealth's vendor-provided Enterprise Services Desk (ESD) to integrate its service delivery systems and processes with the ESD, including: <ul style="list-style-type: none"> o Inventory/asset management (integration with the Commonwealth's CMDB via the Enterprise Service Desk which is populated from the ESMS source of record) o Performance management (integration with the Enterprise Event Management System) o Service desk/incident ticket management (integration with the Enterprise Service Desk ESD) | Required | Supported |
| A-3 | The Offeror acknowledges and accepts that the Commonwealth will not finance nor pay for modifications to Offeror's systems required to interface with Commonwealth or other vendor managed systems. | Highly Desirable | Supported |
| A-4 | The Offeror shall align its ITSM processes with current and future Commonwealth enterprise service processes, including new ITIL processes established by the Commonwealth. | Required | Supported |
| A-5 | The Offeror shall work cooperatively with Commonwealth staff, and other provider staff to support the integration of its ITSM processes and systems. This includes but not limited to the initial integration with the Commonwealth's vendor provided Enterprise Service Desk and Event Monitoring Services (RFP 2) as well as working with the Commonwealth staff or the RFP 2 provider to determine impacts of any future changes or updates to the enterprise ITSM systems. | Required | Supported |
| A-6 | The Offeror shall provide any supporting documentation to the Commonwealth to ensure that its proposed ITSM systems meet all standards set forth by the Commonwealth. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| A-7 | As part of Continual Service Improvement (CSI), the Offeror shall continue to work with the Commonwealth staff throughout the life of the contract to improve and/or adjust the delivery of services as deemed necessary. | Required | Supported |
| A-8 | The Offeror shall acknowledge that the Commonwealth's ESMS system will be the system of record for service requests and inventory data. | Required | Supported |
| A-9 | The Offeror shall conduct working sessions to plan and develop the details regarding how technology will be leveraged and implemented. All plans are subject to Commonwealth approval. | Required | Supported |
| A-10 | The Offeror shall work with the Commonwealth to establish an agreed upon timeline for technology planning and implementation. | Required | Supported |
| A-11 | The Offeror shall provide trained and experienced staff to support their proposed ITIL processes and service delivery management. This includes staff with experience and certification in ITIL. | Required | Supported |
| A-12 | The Offeror shall provide step-by-step instructions for any manual processes which will be used until they are fully integrated with the Commonwealth's vendor provided enterprise ITSM systems (e.g. RFP 2 vendor). | Required | Supported |
| A-13 | <p>The Offeror shall provide a Service Delivery Implementation Plan including:</p> <ul style="list-style-type: none"> o Identification, by role, of key personnel o Ability to scale resources to meet increased business needs o Service ordering process integration with the ITSM tool o Scheduling processes and standard service intervals o Performance management o Service Level Agreements o Billing procedures o Standard reporting capabilities o Enhanced reporting capabilities o Training procedures | Required | Supported |

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|---|--|-------------------------|-------------------|
| A-14 | <p>The Offeror shall provide a Service Delivery Management Plan including:</p> <ul style="list-style-type: none"> o Ongoing training for Commonwealth staff o Processes and procedures for technical support o Processes and procedures for inventory/asset management o Standard reporting o Description of enhanced reporting o Processes and procedures for trouble resolution o Escalation procedures | Required | Supported |
| A-15 | <p>The Offeror shall document and maintain, throughout the contract period, all service management processes and related tool integrations to the Commonwealth's or the vendors ITSM tools. The Offeror shall provide updates to the documentation throughout the term of the contract.</p> <ul style="list-style-type: none"> o Document updates shall be provided to the Commonwealth within ten (10) business days of any change or upon request of the Commonwealth. o All process documents are subject to Commonwealth review and approval. <p>This documentation shall be included and maintained within the Process and Procedures Manual (PPM).</p> | Required | Supported |
| <i>Service Request and Billing</i> | | | |
| A-16 | <p>The Offeror shall complete service orders using the Commonwealth's established system (ESMS) based on the mutually agreed to the standard order interval for the service. Should the ESMS system be replaced the Offeror will confirm processing to the replacement system.</p> | Required | Supported |
| A-17 | <p>The Offeror shall confirm the availability of ordered items within three (3) days of receipt of an order. A projected delivery date shall be provided for any item which is not expected to meet the standard interval for completion.</p> | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|---|-------------------------|-------------------|
| A-18 | The Offeror shall perform acceptance testing with the contract participant prior to declaring the service ready for use; all test results shall be shared with the contract participant and order creator. | Required | Supported |
| A-19 | The Offeror shall obtain acceptance from the order creator certifying that the work requested on the order was completed to the satisfaction of the requestor prior to billing. | Required | Supported |
| A-20 | At the request of individual agencies, the Offeror shall complete move/add/change (MAC) orders. Fees for MAC services will be billed on per line basis in a tiered level as follows: <ul style="list-style-type: none"> o 1-25 o 26-75 o 76-125 o 126-175 o 176-200 | Required | Supported |
| A-21 | The Offeror shall provide an Order Process Implementation Plan which discloses the Offeror's processes and procedures for implementing the end-to-end order process including: <ul style="list-style-type: none"> o The process that will be used to provide the Commonwealth with the initial and ongoing service catalog information to be loaded into the Commonwealth's ESMS system o The ongoing maintenance of service catalog information o The required data elements to place a complete and accurate order for each service proposed o Order cancellation policies and related penalties, if applicable o Restrictions or fees associated with order changes o Start and stop service billing dates o Provide standard intervals for all proposed services | Required | Supported |
| A-22 | The Offeror's billing procedures must align with the use of the Commonwealth's ESMS system and must support multiple funding streams. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|---|--|-------------------------|-------------------|
| A-23 | <p>The Offeror shall provide reporting capabilities that will allow for the review and reconciliation of any discrepancies with the ESMS billing function. Reports should be weekly, monthly, yearly or on an Ad Hoc basis as needed. They also must be accessible in electronic readable format such as excel, word, pdf, etc. These reports should include but not limited to the following:</p> <ul style="list-style-type: none"> o Funding Source o Payphones- Accessibility o Toll Free o Local Inbound/ Outbound o No Activity o Long Distance o UC by Feature | Required | Supported |
| A-24 | <p>The Offeror shall document and maintain, throughout the contract period, all Ordering and Billing processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM).</p> | Required | Supported |
| <i>Service Asset and Configuration Management (SACM)</i> | | | |
| A-25 | <p>The Offeror shall create, support and maintain an accurate inventory of all service elements provided to the Commonwealth.</p> | Required | Supported |
| A-26 | <p>The Offeror shall develop a Service Asset and Configuration Management (SACM) process that will support the management of its telecommunications services provided.</p> | Required | Supported |
| A-27 | <p>The Offeror shall create, support and maintain a Configuration Management Database (CMDB) that will integrate with the Commonwealth's vendor (RFP 2) provided Enterprise Service Desk (ESD) CMDB. The Offeror's CMDB shall contain data relating to telecommunication assets and configuration items (CIs) as well as descriptions of the relationships between such assets and CIs. The Commonwealth's ESMS system shall be the source of record for all the services ordered. These services records will be replicated into the ESD CMDB and then handed off to the Offeror to populate their CMDB.</p> | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| A-28 | <p>The Offeror shall provide and maintain a CMDB Management Plan that discloses the Offeror's processes and procedures for ongoing management of the CMDB to ensure completeness and accuracy. The plan shall include:</p> <ul style="list-style-type: none"> a) Procedures for routine audits of service inventory against inventory in the Commonwealth's ESMS and ESD systems. b) Notification procedures for identified CMDB discrepancies c) Remediation procedures and timeframes for correction to the CMDB d) Processes for verifying the continuing accuracy of the synchronization of its CMDB with the Commonwealth's vendor provided ESD CMDB and the ESMS source of record. | Required | Supported |
| A-29 | <p>The Offeror shall provide a secure Web-based electronic interface which will allow the Commonwealth to access the Offeror's inventory data, make queries, and obtain reports. The Offeror shall ensure that information is segregated by agency and agencies can only view their own information.</p> | Required | Supported |
| A-30 | <p>The Offeror shall work with the Commonwealth to resolve inventory discrepancy issues between its inventory and the Commonwealth's inventory source of record within the Commonwealth's ESMS system.</p> | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| A-31 | <p>The Offeror shall provide reporting capabilities that allow the Commonwealth access to inventory and asset information on an ad hoc, weekly, monthly, yearly basis. Reports should be accessible in the following electronic readable format such as excel, word, .pdf, etc. These reports should include but not limited to the following:</p> <ul style="list-style-type: none"> o Telephone Number (TN) o Username o Site o Funding Source o DIDs- Individual DID o Available DIDs o DID by Service Location o DID by Agency o Device Hardware Serial Number o History o License Counts <p>The Offeror shall ensure that information is segregated by agency and agencies can only report on their own information.</p> | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|---------------------------------|--|-------------------------|-------------------|
| A-32 | <p>The Offeror shall provide a Service Asset and Configuration Management (SACM) Implementation Plan which shall include:</p> <ul style="list-style-type: none"> a) Access methods to inventory data including: <ul style="list-style-type: none"> o Online viewing o Data file downloads, in a readable format acceptable to the Commonwealth o Current view o Monthly snapshots o Historical data b) Timeframes to update database with new information c) Plan to maintain records – including identifiers d) Procedures for resolution of inventory discrepancies with the Commonwealth’s ESMS inventory source of record. e) Timeframes for resolution of inventory discrepancies f) Inventory reconciliation procedures, including internal verification and audit procedures, to ensure inventory completeness and accuracy | Required | Supported |
| A-33 | <p>The Offeror shall document and maintain throughout the contract period all Service Asset and Configuration Management (SACM) processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM).</p> | Required | Supported |
| <i>Change Management</i> | | | |
| A-34 | <p>The Offeror will adhere to the Commonwealth’s Change Management Procedures included in Appendix K.</p> | Required | Supported |
| A-35 | <p>The Offeror shall assess changes from both a business and technical view point with a clear understanding of the business needs of the Commonwealth, its business partners and customers. The Offeror shall coordinate its Change Management activities by conforming to the Commonwealth’s Change Management Process.</p> | Required | Supported |
| A-36 | <p>The Offeror shall provide an infrastructure change/release management report on a weekly basis. This report shall provide a forward schedule of changes and maintain a history of changes that were proposed, scheduled</p> | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | Requirement | Requirement Type | Compliance |
|---------------------------------------|--|-------------------------|-------------------|
| A-37 | The Offeror shall be responsible for coordinating the activities of all changes with the Commonwealth and other Suppliers as necessary to ensure that appropriate resources are available for monitoring, testing and | Required | Supported |
| A-38 | When classifying changes, the Offeror shall, comply with Commonwealth definitions and associated lead times for each change category as described in the Commonwealth's Change Management Procedures included in Appendix K. | Required | Supported |
| A-39 | The Offeror shall provide an after-action report, including root cause analyses and corrective actions, following any unsuccessful change or changes which results in an unexpected negative impact to the Commonwealth, its business partners or customers. This report shall be provided to the Commonwealth and/or its enterprise service provider (RFP 2) designee within three (3) business days. If the root cause cannot be determined within three (3) business days, the Offeror shall notify the Commonwealth of its timeframe to identify root cause and provide a complete report. | Required | Supported |
| A-40 | The Offer shall acknowledge that all contract changes (i.e., changes to the signed contract between the Commonwealth and the selected Offeror) must follow the Commonwealth's Contract Change Request Procedure (see Appendix L - Contract Change Request Procedures). | Required | Supported |
| <i>Service Desk Management</i> | | | |
| A-41 | The Offeror shall provide a Vendor Service Desk (VSD) ITSM solution that is integrated with the Enterprise Service Desk (ESD) ITSM system. | Required | Supported |
| A-42 | The Offeror shall integrate its Service Desk processes with the Service Desk processes of the Enterprises Service Desk provider (e.g. RFP #2), as well as the Commonwealth where the processes interact. | Required | Supported |
| A-43 | The Offeror's service desk shall electronically interface to the Enterprise Service Desk (ESD). This connection will allow the exchange of ticket, services request, and configuration management information. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| A-44 | The Offeror shall provide and maintain process documentation for all proposed ITSM processes (e.g. Incident, Problem, and Knowledge Management). The Offeror shall document and maintain throughout the contract period all processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM). | Required | Supported |
| A-45 | The Offeror shall provide staffing levels appropriate to handle incident volumes and incident response targets. (see Appendix M for SLA template data sheets) | Required | Supported |
| A-46 | The Offeror shall provide a 24x7 service desk and technical support. | Required | Supported |
| A-47 | The Offeror provided service desk shall be located within the United States. | Required | Supported |
| A-48 | The Offeror shall manage all Incidents from Commonwealth users relating to its provided telecom services, including the following: <ul style="list-style-type: none"> o Providing first-line investigation and diagnosis. o Resolving those as possible. o Escalating those that cannot be resolved within agreed timescales. o Communicating with users, keeping them informed of progress, notifying them of impending actions, obtaining appropriate agreement, and in all ways engaging and communicating with them about service provider activities. | Required | Supported |
| A-49 | The Offeror shall design all services in compliance with the then-current version of ITIL. | Required | Supported |
| A-50 | The Offeror shall provide its own ITSM tool integrated with the ESD to document users' issues; to monitor work queues; and to open, update and close tickets. | Required | Supported |
| A-51 | The Offeror shall provide access via a no-fee, dedicated call-in phone number for all service desk services. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| A-52 | The Offeror shall provide a self-service web channel to allow users to report and monitor status of its service incidents. | Required | Supported |
| A-53 | The Offeror shall provide a self-service email address to allow users to report and request status of its service incidents. | Required | Supported |
| A-54 | The Offeror provided service desk shall respond to a report request from the Commonwealth and other users of the Commonwealth network. Available reports will include but not be limited to: <ul style="list-style-type: none"> o Tickets created o Submission Method (e.g. Phone, Email) o Number of Tickets Resolved o Reply and Wait Times o Resolution Time o Satisfaction Ratings | Required | Supported |
| A-55 | The Offeror shall create an incident ticket for the following: <ul style="list-style-type: none"> o Any service disruption which is reported or detected o Any hazardous conditions that has the potential for major service impact(s) (e.g., fire in a node) o Failure of the network management system that results in loss of visibility to network and telemetry data o Any other fault, event or request that the Commonwealth determines should be monitored or tracked through the service desk | Required | Supported |
| A-56 | The Offeror may not refuse to open a ticket for lack of information. | Required | Supported |
| A-57 | The Offeror's Service Desk must open a ticket even if there is an open MAC against the service. | Required | Supported |
| A-58 | The Offeror shall accept the submission of tickets via phone call or email. Both forms shall be handled and responded to with the same priority. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|---|-------------------------|-------------------|
| A-59 | The Offeror shall establish a process for a ticket submitter to escalate his or her issue directly to Tier 2. | Required | Supported |
| A-60 | <p>The Offeror shall maintain the following data elements for each incident ticket:</p> <ul style="list-style-type: none"> o Ticket Submitter name and contact information o Onsite Contact name and contact information o Incident Ticket number o Fault description and definition of problem o Fault date and time of detection o Identification of customers affected by the fault o Services and locations affected by the fault o Information about detection of service affecting faults for peripheral network resources indicating whether the fault is internal or external o Estimated time to resolve o Resolution Details (what repairs were made). Resolution details shall include but not limited to: specific actions that were taken and why; root cause of problem; time to repair, etc. o Telecommunication Services Priority (TSP) or non-TSP service | Required | Supported |
| A-61 | The Offeror shall work with the Commonwealth to establish incident ticket templates that will be used for each service. These templates will be used by ticket submitters to quickly fill out required information for incidents and used to email issues to the ESD and/or the Offeror's Service Desk. | Required | Supported |
| A-62 | The Offeror shall maintain a frequent caller list with contact information already populated. | Highly Desirable | Supported |
| A-63 | The Offeror's service desk shall support trap and traces procedures. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|---|-------------------------|-------------------|
| A-64 | The Offeror's service desk system shall ensure all tickets, regardless of ticket status or generations source, must remain accessible to contract participants at all times and must have search/query capability. | Required | Supported |
| A-65 | The ticket submitter shall be given the opportunity to determine the individual(s) that should be contacted to authorize ticket resolution. The Offeror shall contact the individual(s) determined by the ticket submitter on a per ticket basis. | Required | Supported |
| A-66 | The Offeror shall treat any issue which occurs three (3) times within in a sixty (60) day period and/or any issue which has been determined by the agency/TMO as "chronic". The Offeror shall open a Problem ticket for each chronic issue. | Required | Supported |
| A-67 | The Offeror shall retain all service desk data in its original format for online access and historical purposes for the term of the contract, including extensions. | Highly Desirable | Supported |
| A-68 | The Offeror shall ensure all service desk reporting activities are logged by the Offeror detailed, and accessible to all contract participants in CSV log format. | Highly Desirable | Supported |
| A-69 | The Offeror shall develop ticket escalation procedures which include all information and troubleshooting the Offeror requires from the Commonwealth to have the incident tickets escalated. These procedures | Required | Supported |
| A-70 | The Offeror provided service desk shall work collaboratively with the Commonwealth and other Supplier service desks to resolve service disruptions efficiently and expeditiously. | Required | Supported |
| A-71 | The Offeror's service desk shall provide emergency toll free routing changes within 15 minutes of request receipt. | Required | Supported |
| A-72 | The Offeror provided service desk shall support the Commonwealth, as required, in disaster recovery situations. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|---|-------------------------|-------------------|
| A-73 | <p>The Offeror shall provide monthly service desk reports to the Commonwealth, in both CSV and PDF format. Reports will be due on the 15th of the month; if the 15th falls on a weekend or holiday, then reports need to be delivered prior to the 15th. Reports shall be presented by agency and location and are to be transferred to business area designated folders on the Commonwealth FTP Server. Report samples are as follows:</p> <ul style="list-style-type: none"> o Incident ticket aging report o SLA non-compliance report | Required | Supported |
| A-74 | <p>The Offeror shall provide regular service desk reports to OA/OIT on service desk related activities and performance, which at a minimum includes:</p> <ul style="list-style-type: none"> o Key issues relating to service desk processes, improvements, script development. o Status as to service desk staffing, training, and authorization. o Integration activities and issues with other service desks belonging to OA, Agencies, and other telecom service providers. o Trend analysis during the thirteen (13) most recent months. o Calculate metrics and provide monthly reports to OA, to include, but not be limited to: <ul style="list-style-type: none"> o Number of contacts, to include all calls, phone calls, electronic, automated or otherwise. o Number of calls abandoned, average call duration, average time to answer, average time to abandon. o Number and percentage of issues resolved. o Number and percentage of issues passed to other service desks. o Other pertinent information regarding Service Desk operation and performance. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|---|-------------------------|-------------------|
| A-75 | The Offeror provided service desk shall respond to a report request from the Commonwealth and other users of the Commonwealth network. Available reports will include but not limited to: <ul style="list-style-type: none"> o Tickets created o Submission Method (e.g. Phone, Email) o Number of Tickets Resolved o Reply and Wait Times o Resolution Time | Required | Supported |
| A-76 | The Offeror shall provide and maintain process documentation for Problem Management. | Required | Supported |
| A-77 | The Offeror shall provide the ability to execute within an enterprise level Problem Management process that can help define root cause analysis across multiple telecom services providers. | Required | Supported |
| A-78 | The Offeror shall provide monthly problem management reports that include on any trending analysis information and preventative measures for service improvement. | Required | Supported |
| A-79 | The Offeror shall provide a means for Problem detection from all relevant sources, specifically including the following: <ul style="list-style-type: none"> o Incident Management processes and Incident Management System. o Event Monitoring systems and tools o Technical support staff o OA and OA Customers o Trending of Incidents and Root Cause Analysis | Required | Supported |
| A-80 | The Offeror will track requests for Problem Management initiation, by source, organization and Authorized User. | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--------------------------------|--|-------------------------|-------------------|
| A-81 | <p>The Problem Management Process shall include the following capabilities:</p> <ul style="list-style-type: none"> o Provide a means for prioritizing Problems / Known Errors based on considerations of business impact, urgency and severity using the prioritization model agreed to and approved by OA and which aligns with the method for prioritizing Incidents. o Provide a means for categorizing Problems / Known Errors using the categorization model agreed to and approved by OA and which aligns with the method for categorizing Incidents. | Required | Supported |
| A-82 | <p>The Offeror shall develop and maintain a Knowledge Management system that will include at a minimum the following:</p> <ul style="list-style-type: none"> o Provide and continuously update a list of OA/OIT-vetted FAQs regarding the Services on a user accessible portal. o Publish answers to the FAQs using a media that is efficient, easy to use, and easily accessible for Authorized Users, as well as subject to approval by OA. o Compile lists of FAQs where recommended solutions can be made available to Authorized Users to increase Authorized Users' ability to resolve incidents. | Required | Supported |
| A-83 | <p>The Offeror shall provide an ongoing Service Desk Management Plan which discloses the Offeror's processes and procedures for ongoing management of the service desk and describes:</p> <ul style="list-style-type: none"> o Process for responding to a report request from the Commonwealth o Process for responding to a general information request o Reports generated by the Offeror's service desk system(s) which shall be routinely provided to the Commonwealth | Required | Supported |
| <i>Event Management</i> | | | |
| A-84 | <p>The Offeror shall provide 24x7 event management and monitoring process (e.g. NOC/SOC/Service Desk) for all of its services that will electronically interface with the Commonwealth's vendor provided (RFP 2) Enterprise Event Management (NOC/SOC) Service Operations.</p> | Required | Supported |

H.1 Lot 1 and 2, A - Support Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| A-85 | The Offeror shall forward alerts to the Commonwealth's vendor provided (RFP 2) Enterprise Event Management (NOC/SOC) Service Operations as well as impacted Agencies. | Required | Supported |
| A-86 | The Offeror shall notify the Commonwealth's Voice Services team and the affected Agencies of any service disruption immediately or at maximum within 30 minutes. | Required | Supported |
| A-87 | The Offeror shall follow the Commonwealth's outage notification process as described in Appendix N. | Required | Supported |
| A-88 | The Offeror shall work with the Commonwealth Voice, Network and Security Operations and or Agencies on service performance or outages until resolved. | Required | Supported |
| A-89 | The Offeror shall provide network security monitoring, alerting and analysis services and shall notify the Commonwealth Network and Security Operations, OA/OIT Voice and Unified Communications Division, and Agencies of any suspected or identified security issues immediately or within 15 minutes. | Required | Supported |
| A-90 | The Offeror shall provide 24x365 response and service desk technical support and reporting. | Required | Supported |
| A-91 | The Offeror provided service desk shall work collaboratively with Commonwealth and other supplier service desks and Agencies to resolve service disruptions efficiently and expeditiously. | Required | Supported |
| A-92 | The Offeror shall provide an automated interface between its enterprise event management systems and the Enterprise Monitoring System to support the automatic creation of incidents in the ESD based on system monitoring of security and network events and alerts. | Required | Supported |
| A-93 | The Offeror shall document and maintain throughout the contract period all event management processes and related tool integrations. This documentation shall be included and maintained within the Process and Procedures Manual (PPM). | Required | Supported |

H.1 Lot 1 and 2, B - Project Management and Administration Services

| Requirement | Requirement Type | Compliance | |
|--|--|-------------------|-----------|
| <i>General Project Management and Administration Services</i> | | | |
| B-1 | The Offeror shall act as a single point of coordination and accountability for all services provided under this contract. This includes any services provided by any subcontractors used by the Offeror. | Required | Supported |
| B-2 | The Offeror, at the request of OA, shall attend TMO meetings and TMO Knowledge days upon request. The commonwealth will provide the agenda prior to the meeting so the Offeror can schedule the proper resources for attendance. | Required | Supported |
| B-3 | The Offeror shall commit to a Deliverable Approval Plan which it has developed and submitted and which has been approved by the Commonwealth. | Required | Supported |
| B-4 | The Offeror shall include the approved Deliverable Approval Plan in its Process and Procedures Manual (PPM). | Required | Supported |
| <i>Status Reporting</i> | | | |
| B-5 | The Offeror shall attend regularly scheduled executive status meetings held in the Harrisburg area. The Offeror shall provide the agenda prior to the meeting and have staff and subcontractors at the meeting when appropriate for the current discussion. | Required | Supported |
| B-6 | The Offeror shall provide a monthly report itemizing and describing outages, traffic, calls, etc. | Required | Supported |
| B-7 | The Offeror shall provide a monthly report reflecting performance in relation to all contractual service levels. | Required | Supported |
| <i>User Satisfaction Surveys</i> | | | |
| B-8 | The Offeror shall provide quarterly customer satisfaction surveys to the Commonwealth and should contain both quantitative and qualitative information. The Offeror shall use these results and provide dashboard measurements to be reviewed at PMO meetings and posted on the TMO website. | Required | Supported |

H.1 Lot 1 and 2, B - Project Management and Administration Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| | <i>Transition Services</i> | | |
| B-9 | <p>The Offeror shall accomplish the transition of services in a transparent, seamless, orderly, and uninterrupted manner. Offeror's responsibilities with respect to the transition include:</p> <ul style="list-style-type: none"> o Transfer of the services in accordance with the Transition Plan agreed to by Commonwealth and including a number of Transition Milestones o Performing the transition without disruption to Commonwealth's operations o Scheduling transition related tasks when convenient for agencies and their locations o Assuming responsibility for all costs associated with the transition o Otherwise performing such transition and migration tasks as are necessary to enable Offeror to provide the services in accordance with the terms of the contract, including the applicable service levels | Required | Supported |
| B-10 | The Offeror shall include, with its proposal, an initial transition plan that includes key tasks and milestones, resource requirements (Offeror and Commonwealth), timelines and other dependencies required to successfully execute the transition. | Required | Supported |

H.1 Lot 1 and 2, B - Project Management and Administration Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------------------------|---|-------------------------|-------------------|
| B-11 | <p>In coordination with the Commonwealth, the Offeror shall jointly develop the final detailed transition plan that includes:</p> <ul style="list-style-type: none"> o Deliverables to be completed by Offeror (refer to the Transition Milestones and Key Deliverables section below) o Date(s) by which each activity or deliverable is to be completed (the "transition milestones") o Process and set of standards to which Offeror shall adhere in the performance of the transition services and that shall enable the Commonwealth to determine whether Offeror has successfully completed the transition and the activities and deliverables associated with each transition milestone o Any transition responsibilities to be performed or transition resources to be provided by Commonwealth and/or Commonwealth customers o Any transition responsibilities to be performed or transition resources to be provided by another Commonwealth contractor o A detailed description of the processes and procedures that Offeror will implement (and associated implementation schedules) to effect the seamless integration and coordination of the services with related services to be provided by other Commonwealth contractors | Required | Supported |
| B-12 | The Offeror shall develop and maintain a Process and Procedures Manual which is available at all times to authorized Commonwealth staff. | Required | Supported |
| <i>Security</i> | | | |
| B-13 | The Offeror shall permit the Commonwealth or its designee to perform security risk assessments by a qualified and approved security vendor on an annual or as-needed basis to supplement internal auditing and compliance activities. | Required | Supported |

H.1 Lot 1 and 2, B - Project Management and Administration Services

| | Requirement | Requirement Type | Compliance |
|---|--|-------------------------|-------------------|
| B-14 | The Offeror shall perform criminal and civil background checks on all assigned staff. Any Offeror personnel and subcontracted personnel are required to pass a background check prior to access to any Agency facility or network, if required by the Agency. | Required | Supported |
| Staffing | | | |
| B-15 | The Offeror shall ensure that staffing resources involved with the design, implementation, transition, administration and support of all functions within the managed services have training, certification, and hands-on working experience (See Section III-5 for Key Positions and Staffing for additional requirements). | Required | Supported |
| <p>Service Level Agreements - - Note: Offerors proposals shall be based on the acknowledgement of the SLAs as shown in Appendix M SLA - Data Sheets. The Commonwealth is committed to the intent of these SLAs. During negotiations, the Commonwealth is willing to discuss the variables of the SLAs with the expectation that negotiated changes in SLA variables would be met with a corresponding reduction in service cost. However, proposals and pricing should be based upon the SLAs as they appear in this document.</p> | | | |
| B-16 | The Offeror's Service shall meet the Commonwealth's Service Level Agreements (SLAs) that establish minimum performance requirements for services provided (see Appendix M for SLA data sheets). | Required | Supported |
| B-17 | The Offeror's measurement and monitoring of service level performance shall permit reporting at a level of detail and frequency sufficient to permit the Commonwealth to verify compliance with the service levels and shall be subject to audit. Reporting of service availability must be viewable at the agency level. | Required | Supported |

H.1 Lot 1 and 2, B - Project Management and Administration Services

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|------|--|-------------------------|-------------------|
| B-18 | The Offeror shall adhere to the Commonwealth SLA Methodology document (provided as Appendix O). | Required | Supported |
| B-19 | The Offeror shall make tiered service offerings available to accommodate varying agency needs and budgets. | Required | Supported |

H.1 Lot 1 and 2, C - Emergency Preparedness

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-----|--|-------------------------|-------------------|
| C-1 | The Offeror shall maintain a current plan for providing emergency response continuity of operations. | Required | Supported |
| C-2 | The Offeror shall perform, record, and report to the Commonwealth on the results of plan-related drills. | Required | Supported |

Appendix H.2 Compliance Matrix Lot 1, Unified Communications and VoIP Services, Tasks D-G

RFP 6100039274
Unified Communications & Voice Services

Instructions

The subsequent pages of this appendix provide a series of requirements matrices. These matrices reflect the requirements identified in Lot 1, Unified Communications and VoIP Services, Sections III-8.D - III-8.G of the this RFP.

Offerors shall complete tabs D thru G of this appendix if bidding on services under Lot 1, Unified Communications and VoIP Services.

To complete a tab, the Offeror shall indicate, for each requirement, its capability and commitment to comply with the item.

The response options are provided in a drop-down box and are as follows:

- Supported
- Configurable by COPA
- Configurable by Vendor
- Not Supported
- Supported in Next Release (Defined as within next 12 months)

Any response of "Not Supported" or "Supported in Next Release (Defined as within next 12 months)" must be explained in the vendors Technical Submittal. Vendors should NOT provide an explanation within the Compliance Matrix response.

The completed matrix must be included as Attachment H.2 in the Offeror's response to this RFP.

H.2 Lot 1, D - Architecture and Integration

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-------|---|-------------------------|-------------------|
| D-1.1 | The Offeror shall provide a fully managed, vendor hosted, VoIP solution that includes an integrated MS Skype for Business UC platform. The solution shall provide full integration and federation with the Commonwealth O365 environment. | Required | Supported |
| D-1.2 | The Offeror shall host all core components at the Offeror's datacenter(s). Equipment will NOT be hosted at the Commonwealth's data centers. | Required | Supported |
| D-1.3 | The Offeror shall maintain equipment that needs to be located within Commonwealth local and extended demarcation points or at end-user sites (for local survivability only). | Required | Supported |
| D-1.4 | The Offeror's solution shall, cost-effective way to support users in a multi-tenancy, multi-location (>100 locations) environment over the next 5-10 years. There are currently ~ 45,000 VoIP users that will be transitioned to the new platform. There are currently ~ 28,000 non-VoIP users (e.g. PBX, Centrex) many of which may be transitioned to the new platform. | Required | Supported |
| D-1.5 | The Offeror shall provide an option (available at an additional cost) for a robust survivability solution that includes a local dial plan for inbound/outbound with local control and extensibility, for use in the event of an emergency, or loss of data connectivity to the Offeror's service. | Required | Supported |
| D-1.6 | The Offeror's system shall be deployed in a geographically redundant fashion with all backend components mirrored between locations (no single point of failure). Fail-over must be automatic (with no human involvement) and preferably on a per component basis. | Required | Supported |
| D-1.7 | The Offeror shall maintain end-to-end data encryption as defined in IRS Publication 1075. | Required | Supported |
| D-1.8 | The Offeror shall provide at least two (2) geographically diverse connections to the Commonwealth's network (See Appendix P - Converged Network Standards.) | Required | Supported |

H.2 Lot 1, D - Architecture and Integration

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-------|---|-------------------------|-------------------|
| D-1.9 | The Offeror shall determine the data network bandwidth requirements for the Commonwealth locations. | Required | Supported |

H.2 Lot 1, E - Features and Functions

| <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> | |
|----------------------------------|--|-------------------|-----------|
| <i>Dial Tone Services</i> | | | |
| E-1.1 | The Offeror shall provide the capability to port current telephone numbers (TN) and toll-free (TF) numbers over from any numbering plan area (NPA)/network numbering exchange (NXX) within the Commonwealth of PA. | Required | Supported |
| E-1.2 | The Offeror shall provide flexibility in assigning/managing direct inward dialing blocks of telephone numbers. | Required | Supported |
| E-1.3 | The Offeror shall provide new telephone numbers upon request. | Required | Supported |
| E-1.4 | The Offeror shall provide network access via SIP trunk protocol. | Required | Supported |
| E-1.5 | The Offeror's solution shall display caller ID with name. | Required | Supported |
| E-1.6 | The Offeror's service shall meet current federal/state/local accessibility/disability requirements. | Required | Supported |
| E-1.7 | The Offeror shall provide user friendly process for updating directory listings. | Required | Supported |
| E-1.8 | The Offeror shall provide ability for end user to dial and connect to 411 for information service. | Required | Supported |
| <i>Main Line Services</i> | | | |

H.2 Lot 1, E - Features and Functions

| | Requirement | Requirement Type | Compliance |
|-----------------------------------|--|-------------------------|------------------------|
| E-1.9 | The Offeror shall provide feature solutions to accommodate main line answering scenarios, i.e. a. Centralized answering point b. Receptionist c. Dedicated switchboard d. Forward capability (including night feature) | Required | Supported |
| E-1.10 | The Offeror shall provide more than 1 incoming call on a single TN at a time. | Required | Supported |
| E-1.11 | The Offeror shall provide the ability for multiple users, in a physical office, to answer an inbound call from the same telephone number. | Required | Supported |
| E-1.12 | The Offeror shall provide an attendant console or main switchboard type functionality. | Required | Supported |
| <i>Voice Mail Services</i> | | | |
| E-1.13 | The Offeror shall provide simple and logical instructions for users (i.e. change greeting/name, listen to VM, delete VM, transfer VM, etc.) | Required | Supported |
| E-1.14 | The Offeror shall provide capability for VM to be transferred to another user on the system (2nd party VM). | Required | Supported |
| E-1.15 | The Offeror shall provide an optional graphic user interface (GUI) for web based VM management. | Highly Desirable | Configurable by Vendor |
| E-1.16 | The Offeror shall accommodate VM only line, if needed. | Required | Supported |
| E-1.17 | The Offerors solution shall provide visual voicemail. | Highly Desirable | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--|---|-------------------------|--|
| E-1.18 | The Offeror shall provide optional OOO functionality with expiration date. | Highly Desirable | Not Supported |
| E-1.19 | The Offeror shall provide optional voicemail transcription capability. | Highly Desirable | Supported in Next Release (Defined as within next 12 months) |
| E-1.20 | The Offeror's solution shall support the transfer of live calls into another person's VM. | Required | Supported |
| E-1.21 | The Offeror's solution shall support the delivery of voice mail to a user's email inbox. | Required | Supported |
| <i>Self-Managed Moves, Adds and Changes</i> | | | |
| E-1.22 | At the request of individual agencies, the Offeror shall provide a secure Web-based electronic interface which allows agency access, to its own lines only, for the purpose of moves, adds and changes (such as user changes to a TN, resetting of passwords, and user profile builds and changes) to current services on hosted system(s). | Required | Supported |
| <i>Auto Attendants</i> | | | |
| E-1.23 | The Offeror shall provide the ability to route calls from the Offeror's Auto Attendant platform to any local, long distance, or toll free number. | Required | Supported in Next Release (Defined as within next 12 months) |
| E-1.24 | The Offeror shall provide, at the request of an individual agency, user with the ability to self-manage Auto Attendant (AA) system changes such as menu routing changes, time of day changes, holiday schedules, add/change/delete menu options, as well as Offeror managed. | Required | Supported in Next Release (Defined as within next 12 months) |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|---|---|-------------------------|--|
| E-1.25 | The offeror shall provide auto attendant capabilities such as, but not limited to, the ability to create multiple menus for call routing, mailboxes that will allow callers to hear a pre-recorded message, mailboxes that will provide prompting to callers to say specific information that will in turn be delivered as a voicemail to a designated destination, and the ability for callers to leave standard voicemails. | Required | Supported in Next Release (Defined as within next 12 months) |
| E-1.26 | The Offeror shall fully manage, at the request of an individual agency, all auto attendant changes. | Required | Supported in Next Release (Defined as within next 12 months) |
| E-1.27 | The Offeror shall provide ability to route calls by time of day/day of week/holiday. | Required | Supported in Next Release (Defined as within next 12 months) |
| E-1.28 | The Offeror shall provide alternate routing/disaster recovery pre-built mapping capability (i.e. emergency/after-hours). | Required | Supported in Next Release (Defined as within next 12 months) |
| E-1.29 | The Offeror's solution shall add, at no additional cost, the Commonwealth's holiday schedule to the platform each year for the duration of the contract. | Required | Supported in Next Release (Defined as within next 12 months) |
| <i>IPT Toll Free with Advanced Routing</i> | | | |
| E-1.30 | The Offeror shall provide toll-free (TF) Services. | Required | Supported |
| E-1.31 | The Offeror shall provide new toll-free numbers upon request. | Required | Supported |
| E-1.32 | The Offeror shall provide the capability to port current toll-free (TF) numbers to the selected Offeror's platform. | Required | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-----------------------------|---|--------------------------------|--------------------------|
| E-1.33 | The Offeror shall provide agencies the capability to route TF numbers to an alternate point, as needed, using a web portal or website. | Required | Supported |
| E-1.34 | The Offeror shall provide the capability to route TF numbers to an alternate point, as needed, as the result of a service order or phone call. | Required | Supported |
| E-1.35 | The Offeror's TF advanced routing capability shall include Dialed Number Information Service (DNIS), Automatic Number ID (ANI), Network Numbering Exchange (NXX), and time and / or day scheduled routing. | Required | Supported |
| <i>Call Handling</i> | | | |
| E-1.36 | The Offeror shall provide typical handling capabilities including: <ul style="list-style-type: none"> a. Call waiting b. Caller ID c. Permanent caller ID call blocking/unblocking d. Per call caller ID blocking/unblocking e. Manual call forwarding/removing forwarding | Required | Supported |
| E-1.37 | The Offeror shall provide processes, response times for service/support, and call details for trap and trace. | Required | Supported |
| E-1.38 | The Offeror shall provide ability to answer an incoming call from another individual phone. | Required | Supported |
| E-1.39 | The Offeror shall provide ability to answer an incoming call from another phone within a designated group. | Required | Supported |
| E-1.40 | The Offeror shall provide an option to mask outbound caller id on an individual telephone number basis. | Required | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|----------------------------|---|-------------------------|-------------------|
| E-1.41 | The Offeror shall provide flexible hunting capabilities. | Required | Supported |
| E-1.42 | The Offeror shall provide automatic dialing of a pre-determined number as a feature when a designated phone goes "off hook". | Required | Supported |
| E-1.43 | The Offeror shall provide the ability to locally and remotely manage call forwarding features by user and administrators. | Required | Supported |
| E-1.44 | The Offeror shall provide options for line referrals. At a minimum, the options should include six (6) and twelve (12) months. | Required | Supported |
| E-1.45 | The Offeror shall provide the capability to block a number at the WTN level upon agency request. | Highly Desirable | Supported |
| E-1.46 | The Offeror shall provide the capability to block a number from the entire VOIP platform. This would be a Commonwealth enterprise level request and only initiated by OA with strict guidelines. | Required | Supported |
| <i>UC Functions</i> | | | |
| E-1.47 | The Offeror acknowledges that it is providing a Microsoft Skype for Business (MS SfB) unified communications platform that integrates with its proposed VOIP solution. This system must federate with Commonwealth's O365 environment to provide a consistent UC experience for all SfB users, hosted IPT, or O365 users. | Required | Supported |
| E-1.48 | The Offeror's UC solution shall support Skype for Business Mobility. | Required | Supported |
| E-1.49 | The Offeror shall integrate seamlessly with the Commonwealth's Active Directory. | Required | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|----------------------------|--|--------------------------------|--------------------------|
| E-1.50 | The Offeror shall provide the ability to create a call by clicking on contact call information or icon. | Required | Supported |
| E-1.51 | The Offeror shall provide the ability for a call to be answered at multiple phone numbers. | Required | Supported |
| E-1.52 | The Offeror's solution shall be user friendly and intuitive. | Required | Supported |
| E-1.53 | The Offeror's solution shall provide call history and detail for the user. | Required | Supported |
| E-1.54 | The Offeror's solution shall incorporate Commonwealth Single Sign On policy and procedures. | Required | Supported |
| E-1.55 | The Offeror's solution shall incorporate adherence to the Twenty-First Century Communications and Video Accessibility Act of 2010 for accommodations of users with disabilities. | Required | Supported |
| E-1.56 | The Offeror shall provide the ability for the user to see Caller IDs of multiple incoming calls. | Required | Supported |
| <i>Conferencing</i> | | | |
| E-1.57 | The Offeror shall provide a conferencing solution (voice/video/collaboration) that integrates with the proposed UC (Skype for Business) and VoIP services. | Required | Supported |
| E-1.58 | The Offeror shall provide the ability to record collaboration meetings audio and video for archiving and later playback, i.e., training. | Required | Supported |
| E-1.59 | The Offeror shall provide for archiving and later playback of audio and audio/visual recordings. | Required | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-----------------------------------|---|-------------------------|-------------------|
| E-1.60 | The Offeror shall ensure a minimum of 250 participants on a standard conference call. | Required | Supported |
| E-1.61 | <p>The Offeror shall provide the ability to choose a large capacity conferencing option which allows for, at a minimum, in excess of 1,000 participants. Features should include but not be limited to the following:</p> <ul style="list-style-type: none"> a. Ability to limit participants from unmuting their lines during meeting. b. Ability for participants to register for the meeting with the meeting coordinator being able to dictate what information the registrants need to provide. c. Ability for participants to utilize a chat feature in order to ask questions. d. Ability to include video, collaboration, dial in voice functionality. e. Ability for meeting coordinator to view all that registered and participated in meeting. f. Ability to send invitations to meeting attendees and bulk upload attendees. | Required | Supported |
| <i>Safety and Security</i> | | | |
| E-1.62 | The Offeror shall provide availability and repair times in accordance with mutually accepted Service Level Agreements and will be included with each agencies Continuity of Operations (COOP) and Continuity of Government (COG) procedures. | Required | Supported |
| E-1.63 | The Offeror shall provide routing of calls for adherence to Government Emergency Telephone Service (GETS). | Required | Supported |
| E-1.64 | The Offeror shall provide support of Telecommunications Service Priority (TSP). | Required | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|---------------------|---|-------------------------|-------------------|
| E-1.65 | The Offeror shall provide a multiple number calling feature to be used to reach multiple users for emergency notification purposes. | Required | Supported |
| 911 Services | | | |
| E-1.66 | The Offeror shall provide 911 location services that comply with local/state/federal E911 requirements. | Required | Supported |
| E-1.67 | The Offeror shall confirm 911 emergency access from all locations to the correct public safety answering point (PSAP) before implementing any new services to include location and call back information. | Required | Supported |
| E-1.68 | The Offeror shall provide location specific information, including address, floor number and compass direction as a minimum, to the corresponding PSAP. | Required | Supported |
| E-1.69 | The Offeror shall provide Enhanced 911 calling ("E-911") service for telephone, soft phones and remote users who use soft phones to connect to the IPT service. | Required | Supported |
| Recording | | | |
| E-1.70 | The Offeror shall provide ad-hoc recording capabilities for inbound/outbound VoIP calls. | Required | Supported |
| E-1.71 | The Offeror shall provide ad-hoc recording storage capabilities. | Required | Supported |
| E-1.72 | The Offeror shall provide ad-hoc recording capabilities which has the ability to announce call is being recorded. | Required | Supported |
| E-1.73 | The Offeror shall provide the capability to record, and store as one call, an entire call even if it is transferred. | Required | Supported |
| Hardware | | | |

H.2 Lot 1, E - Features and Functions

| | Requirement | Requirement Type | Compliance |
|--|---|-------------------------|-------------------|
| E-1.74 | The Offeror shall provide multiple non-proprietary softphone solutions desktop and mobile phone compatibility. Solutions shall be compatible with Skype for Business. | Required | Supported |
| E-1.75 | The Offeror shall provide multiple non-proprietary handset solutions. Option(s) for handset shall be included in price of service. | Required | Supported |
| E-1.76 | The Offeror shall maintain, for each agency and for the life of the contract, up-to-date specifications, for each non-proprietary, SIP Standards phone including its life cycle and end of life cycle date. | Highly Desirable | Supported |
| E-1.77 | The Offeror shall provide specifications, to each agency, for non-proprietary Wi-Fi enabled handsets along with life cycle and end of life cycle date. This information shall be kept current for the life of the contract. | Highly Desirable | Supported |
| E-1.78 | The Offeror shall adhere to Americans with Disabilities Act (ADA) requirements for public phone installation and use. | Required | Supported |
| <i>Teleworking (including users in an occasional out-of-the-office or travel status as well as users working from a non-office environment on a regular basis.)</i> | | | |
| E-1.79 | The Offeror shall provide a mobile or teleworking solution where IPT desktop and soft phones can be configurable to work outside of the Commonwealth network (e.g., in user's home.) | Required | Supported |
| E-1.80 | The Offeror shall provide a secure mobile or teleworking solution without VPN. | Required | Supported |
| E-1.81 | The Offeror shall provide a mobile or teleworking solution with end user Multi Call feature that allows users to make or receive multiple calls at the same time. | Required | Supported |
| E-1.82 | The Offeror shall provide a mobile or teleworking solution which will incorporate Main Line Forwarding feature. | Required | Supported |

H.2 Lot 1, E - Features and Functions

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--------|--|-------------------------|-------------------|
| E-1.83 | The Offeror shall provide a mobile or teleworking solution with Directory Listing services. | Required | Supported |
| E-1.84 | The Offeror shall provide a mobile or teleworking solution with the ability for end user to dial and connect to 411 for information service. | Required | Supported |

H.2 Lot 1, F - Training

| <u>Requirement</u> | | <u>Requirement Type</u> | <u>Compliance</u> |
|--------------------|---|-------------------------|-------------------|
| F-1.1 | The Offeror shall submit all training material and class outlines to the Commonwealth for approval prior to being made available to contract participants. All training materials will be kept current according to technology and usage product and feature additions and changes. | Required | Supported |
| F-1.2 | The Offeror shall provide the Commonwealth with the credentials and experience of each of the proposed trainers a minimum of two weeks prior to each of the scheduled training sessions. The Commonwealth reserves the right to interview and approve or disapprove of each of the trainers. | Required | Supported |
| F-1.3 | The Offeror shall provide training on a regular basis to keep users and practitioners up-to-date on such items as network technology and data security, new VoIP features, changes due to updates, etc. and to provide training in various formats such as, but not limited to, classroom, web-based and train the trainer. | Required | Supported |
| F-1.4 | The Offeror shall provide periodic informational and training sessions with key agency personnel such as administrators (TMO's). | Required | Supported |
| F-1.5 | The Offeror shall provide feature based training videos to be posted and updated on a mutually agreed-upon website. | Required | Supported |
| F-1.6 | The Offeror shall be responsible for training all TMO's and users. Training shall include, but is not limited to: <ul style="list-style-type: none"> o How to place call o Transfer o Call pick up, etc. o TMO moves, adds and changes | Required | Supported |
| F-1.7 | The Offeror shall provide training courses specifically and solely related to conferencing. | Required | Supported |

H.2 Lot 1, F - Training

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--------|---|-------------------------|-------------------|
| F-1.8 | The Offeror shall schedule instructor led training sessions within the commonwealth's learning management system. | Required | Supported |
| F-1.9 | The Offeror shall provide optional onsite training and support during actual transition (to be scheduled by agency prior to transition date). | Required | Supported |
| F-1.10 | At the request of an agency, the Offeror shall provide concise, user friendly documentation to each end user at time of transition that must be approved by Commonwealth. All user documentation will be available for download on agreed upon website. | Required | Supported |
| F-1.11 | The Offeror shall provide hands-on classroom training sessions for individuals supporting answering positions. | Required | Supported |
| F-1.12 | The Offeror shall provide additional training sessions at no cost should the classroom instruction be considered a failure due to the ineffectiveness of the instructor (for the life of the contract). | Required | Supported |
| F-1.13 | The Offeror shall allow for the evaluation of all trainers. The Offeror shall replace a trainer at the request of the Commonwealth (for the life of the contract). | Required | Supported |

H.2 Lot 1, G - Transition

| <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> | |
|--------------------|--|-------------------|-----------|
| G-1.1 | The Offeror shall schedule transitions as determined by the agencies. | Required | Supported |
| G-1.2 | The Offeror shall schedule transitions as determined by the agencies with respect to Data transition. | Required | Supported |
| G-1.3 | The Offeror shall complete all transition activities no later than October 2019. | Required | Supported |
| G-1.4 | The Offeror shall provide agencies with Feature Code List once the transition schedule has been determined (see Transition Milestone table). | Required | Supported |
| G-1.5 | The Offeror shall coordinate transition with multiple vendors during any transitions which include multiple vendors. | Required | Supported |
| G-1.6 | The Offeror shall provide options for collection and disposal of equipment to be replaced. | Required | Supported |
| G-1.7 | The Offeror shall include any necessary training needs into transition or implementation schedule. | Required | Supported |
| G-1.8 | The Offeror shall provide availability of training staff onsite for the day of and one day after transition. | Required | Supported |
| G-1.9 | The Offeror shall provide a transition services plan based on services provided and number of site and/or physical endpoints. | Required | Supported |
| G-1.10 | The Offeror shall lead marketing activities to help ensure user acceptance, increase user acceptance, and ensure TMOs and users understand available services. | Required | Supported |

H.2 Lot 1, G - Transition

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--------|---|-------------------------|-------------------|
| G-1.11 | The Offeror shall develop and create a marketing plan to be approved by the Commonwealth. The marketing plan should address but not limited to the following objectives: <ul style="list-style-type: none">o Increased adoption an usage of the new Unified Communications and VoIP Serviceso Ongoing outreach and training to TMOs and users on the features and benefits of the new services | Required | Supported |

Appendix H.3 Compliance Matrix

Lot 2, Traditional Voice Services, Tasks D-F

RFP 6100039274
Unified Communications & Voice Services

Instructions

The subsequent pages of this appendix provide a series of requirements matrices. These matrices reflect the requirements identified in Lot 2, Traditional Voice Services, Sections III-8.D - III-8.F of the this RFP.

Offerors shall complete tabs D thru F of this appendix if bidding on services under Lot 2, Traditional Voice Services.

To complete a tab, the Offeror shall indicate, for each requirement, its capability and commitment to comply with the item.

The response options are provided in a drop-down box and are as follows:

- Supported
- Configurable by COPA
- Configurable by Vendor
- Not Supported
- Supported in Next Release (Defined as within next 12 months)

Any response of "Not Supported" or "Supported in Next Release (Defined as within next 12 months)" must be explained in the vendors Technical Submittal. Vendors should NOT provide an explanation within the Compliance Matrix response.

The completed matrix must be included as Attachment H.3 in the Offeror's response to this RFP.

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| Requirement | Requirement Type | Compliance | |
|---|---|-------------------|-----------|
| <i>PBX / Key System Trunk Services</i> | | | |
| D-2.1 | The Offeror shall provide trunk services for existing and future PBX and Key systems (see Appendix T for current sites utilizing trunk services). | Required | Supported |
| D-2.2 | The Offeror shall provide the capability to port current telephone numbers (TN) including Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) TN's and toll-free (TF) numbers over from current provider from any NPA/NXX within PA. | Required | Supported |
| D-2.3 | The Offeror shall provide DIDs upon request. | Required | Supported |
| D-2.4 | The Offeror shall provide and maintain a current service availability catalog indicating where within the Commonwealth its services are available. | Required | Supported |
| D-2.5 | The Offeror shall provide TN management capability to easily activate/deactivate TN within existing blocks. | Required | Supported |
| D-2.6 | The Offeror shall meet current federal/state/local accessibility/disability requirements. | Required | Supported |
| <i>Centrex Services</i> | | | |
| D-2.7 | The Offeror shall provide the capability to port current telephone numbers (TN) within PA. | Required | Supported |
| D-2.8 | The Offeror shall provide PSTN connections. | Required | Supported |
| D-2.9 | The Offeror shall provide point-to-point, two wire and four wire services. | Required | Supported |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-----------------------------------|---|-------------------------|-------------------|
| D-2.10 | The Offeror shall accommodate simultaneous inbound/outbound calls from a single TN. | Required | Supported |
| D-2.11 | The Offeror shall acknowledge that a request at Enterprise level to block TN must be initiated by OA only with strict guidelines. | Required | Supported |
| D-2.12 | The Offeror shall provide user friendly process for updating directory listings. | Required | Supported |
| D-2.13 | The Offeror shall provide ability for end users to dial and connect to 411 for information service. | Required | Supported |
| D-2.14 | The Offeror shall provide analog service to locations which have or will have elevators, fax, alarm (fire, security, other) and TTY. | Required | Supported |
| <i>Main Line Services</i> | | | |
| D-2.15 | The Offeror shall provide feature solutions to accommodate main line answering scenarios, i.e., a. Centralized answering point b. Receptionist c. Dedicated switchboard d. Forward capability (including night feature) | Required | Supported |
| D-2.16 | The Offeror shall provide main line answering features for multiple users. | Required | Supported |
| D-2.17 | The Offeror shall accommodate legacy attendant console/main switchboard functionality. | Required | Supported |
| <i>Voice Mail Services</i> | | | |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-------------------------------|---|-------------------------|-------------------|
| D-2.18 | The Offeror shall provide simple and logical instructions for users (i.e. change greeting/name, listen to VM, delete VM, transfer VM, etc.) | Required | Supported |
| D-2.19 | The Offeror shall provide capability for VM to be transferred to 2nd party VM. | Required | Supported |
| D-2.20 | The Offeror shall provide optional graphic user interface (GUI) for web based VM management. | Required | Supported |
| D-2.21 | The Offeror shall provide optional OOO functionality with expiration date. | Highly Desirable | Supported |
| D-2.22 | The Offeror shall provide availability for voicemail message to be left at number to which calls have been transferred. | Highly Desirable | Supported |
| D-2.23 | The Offeror shall accommodate VM only line if needed. | Required | Supported |
| D-2.24 | The Offeror's solution shall support the transfer of live calls into another person's VM. | Required | Supported |
| <i>Auto Attendants</i> | | | |
| D-2.25 | The Offeror shall provide auto attendant capabilities such as, but not limited to, the ability to create multiple menus for call routing, mailboxes that will allow callers to hear a pre-recorded message, mailboxes that will provide prompting to callers to say specific information that will in turn be delivered as a voicemail to a designated destination, and the ability for callers to leave standard voicemails. | Required | Supported |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--|---|-------------------------|-------------------|
| D-2.26 | The Offeror shall provide the ability to route calls from the Offeror's Auto Attendant platform to any local, long distance, or toll free number. | Required | Supported |
| D-2.27 | The Offeror shall fully manage, at the request of an individual agency, all auto attendant changes. | Required | Supported |
| D-2.28 | The Offeror shall provide ability to route calls by time of day/day of week/holiday. | Required | Supported |
| D-2.29 | The Offeror shall provide alternate routing/disaster recovery pre-built mapping capability (i.e. emergency/after-hours.) | Required | Supported |
| <i>Conventional Toll Free with Advanced Routing</i> | | | |
| D-2.30 | The Offeror shall provide toll-free (TF) Services. | Required | Supported |
| D-2.31 | The Offeror shall provide new toll free numbers upon request. | Required | Supported |
| D-2.32 | The Offeror shall allow for self-managed routing changes for TF numbers. | Required | Supported |
| D-2.33 | The Offeror shall provide the capability to port current toll-free (TF) numbers. | Required | Supported |
| D-2.34 | The Offeror shall provide the capability to route TF numbers to alternate points, as needed, using a web portal or website. | Required | Supported |
| D-2.35 | The Offeror shall provide the capability to route TF numbers to an alternate point, as needed, as the result of a service order or phone call. | Required | Supported |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | Requirement | Requirement Type | Compliance |
|----------------------|--|-------------------------|-------------------|
| D-2.36 | The Offeror's TF advanced routing capability shall include DNIS, ANI, NXX and time and / or day scheduled routing | Required | Supported |
| Call Handling | | | |
| D-2.37 | The Offeror shall provide typical handling capabilities including: a) Call waiting b) Caller ID c) Permanent call blocking/unblocking d) Per call blocking/unblocking e) Manual call forwarding/removing forwarding | Required | Supported |
| D-2.38 | The Offeror shall provide processes, response times for service/support, and call details for trap and trace. All lines provided by the Offeror shall have the capability to do trap and trace. | Required | Supported |
| D-2.39 | The Offeror shall provide availability to answer incoming call from another individual phone. | Required | Supported |
| D-2.40 | The Offeror shall provide availability to answer incoming call from another phone within a designated group. | Required | Supported |
| D-2.41 | The Offeror shall provide the option to mask outbound caller id on an individual TN basis. | Required | Supported |
| D-2.42 | The Offeror shall provide flexible hunting capabilities. | Required | Supported |
| D-2.43 | The Offeror shall provide automatic dialing of a pre-determined number as a feature when a designated phone goes "off hook". | Required | Supported |
| D-2.44 | The Offeror shall provide the ability to locally and remotely manage call forwarding features by user and administrators. | Required | Supported |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | Requirement | Requirement Type | Compliance |
|-----------------------------------|--|-------------------------|-------------------|
| D-2.45 | The Offeror shall provide options for line referrals. At a minimum, the options shall include six (6) and twelve (12) months. | Required | Supported |
| D-2.46 | The Offeror shall provide the capability to block a number at the WTN level upon agency request. | Required | Supported |
| <i>Safety and Security</i> | | | |
| D-2.47 | The Offeror shall provide availability and repair times in accordance with mutually accepted Service Level Agreements and will be included with each agencies Continuity of Operations (COOP) and Continuity of Government (COG) procedures. | Required | Supported |
| D-2.48 | The Offeror shall provide routing of calls for adherence to Government Emergency Telephone Service (GETS). | Required | Supported |
| D-2.49 | The Offeror shall provide support of Telecommunications Services Priority (TSP) | Required | Supported |
| D-2.50 | The Offeror shall provide a multiple number calling feature to be used to reach multiple users for emergency notification purposes. | Required | Supported |
| <i>911 Services</i> | | | |
| D-2.51 | The Offeror shall provide 911 location services that comply with local/state/federal requirements. | Required | Supported |
| D-2.52 | The Offeror shall provide 911 location services that comply with local/state/federal E911 requirements. | Required | Supported |
| D-2.53 | The Offeror shall confirm 911 emergency access from all locations to the correct public safety answering point (PSAP) before implementing any new services to include location and call back information. | Required | Supported |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | Requirement | Requirement Type | Compliance |
|---------------------|---|-------------------------|-------------------|
| D-2.54 | The Offeror shall provide location specific information, including address, floor number and compass direction as a minimum, to the corresponding PSAP. | Required | Supported |
| Conferencing | | | |
| D-2.55 | The Offeror shall provide a voice conferencing solution that can be utilized independent of any unified communication for 250 attendees or more. | Required | Supported |
| D-2.56 | The Offeror shall provide unlimited free local number Dial In. | Highly Desirable | Supported |
| D-2.57 | The Offeror shall provide toll-free Dial In. | Required | Supported |
| D-2.58 | The Offeror shall provide the ability to record conference calls. | Required | Supported |
| D-2.59 | The Offeror shall provide a solution to support full service conference hosting. | Required | Supported |

H.3 Lot 2, D - Features and Functions (Traditional Voice Services)

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-----------------|--|-------------------------|-------------------|
| D-2.60 | <p>The Offeror shall provide the ability to choose a large capacity conferencing option which allows for in excess of 1,000 participants. Features should include but not be limited to the following:</p> <ul style="list-style-type: none"> a. Ability to limit participants from unmuting their lines during meeting. b. Ability for participants to register for the meeting with the meeting coordinator being able to dictate what information the registrants need to provide. c. Ability for participants to utilize a chat feature in order to ask questions. d. Should include video, collaboration, dial in voice functionality. e. Ability for meeting coordinator to view all that registered and participated in meeting. f. Ability to send invitations to meeting attendees and bulk upload attendees. | Highly Desirable | Supported |
| D-2.61 | <p>The Offeror's solution shall provide the following minimum customer support services:</p> <ul style="list-style-type: none"> o Online Help Center o Email & phone support o Dedicated account manager | Required | Supported |
| D-2.62 | The Offeror shall provide an option for contract participants to choose full service conference hosting services to include operator assisted services. | Required | Supported |
| Hardware | | | |
| D-2.63 | The Offeror shall provide specifications for each agency proprietary or non-proprietary phone, life cycle and end of life cycle date. This information shall be kept current for the life of the contract. | Highly Desirable | Supported |
| D-2.64 | The Offeror shall adhere to ADA requirements for public phone installation and use. | Required | Supported |

| <i>Pay Phones</i> | | | |
| D-2.66 | The Offeror shall provide a payphone service to accommodate existing payphone deployments, as well as new deployments. (See Appendix V). | Required | Supported |
| D-2.67 | The Offeror shall meet current federal/state/local accessibility/disability requirements with adherence to Americans with Disabilities Act (ADA) TTY and the Twenty-First Century Communications and Video Accessibility Act | Required | Supported |

H.3 Lot 2, E - Training

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-------|--|-------------------------|-------------------|
| E-2.1 | The Offeror shall submit all training material and class outlines to the Commonwealth for approval prior to being made available to contract participants. | Required | Supported |
| E-2.2 | The Offeror shall provide the Commonwealth with the credentials and experience of each of the proposed trainers a minimum of two weeks prior to each of the scheduled training sessions. The Commonwealth reserves the right to interview and approve or disapprove of each of the trainers. | Required | Supported |
| E-2.3 | The Offeror shall provide periodic informational and training sessions with key agency personnel. | Required | Supported |
| E-2.4 | The Offeror shall provide feature based training videos to be posted and updates on a mutually agreed-upon website. | Required | Supported |
| E-2.5 | The Offeror shall be responsible for training all administrators prior to installation or activation of any services. Training shall include, but not be limited to: <ul style="list-style-type: none"> o How to place call o Transfer o Call pick up, etc. | Required | Supported |
| E-2.6 | The Offeror shall provide optional onsite training and support during actual transition (to be scheduled by agency prior to transition date). | Required | Supported |
| E-2.7 | The Offeror shall provide training courses specifically and solely related to conferencing. | Required | Supported |
| E-2.8 | The Offeror shall schedule instructor led training sessions within the commonwealth's learning management system. | Required | Supported |

H.3 Lot 2, E - Training

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|--------|--|-------------------------|-------------------|
| E-2.9 | Upon request of an agency, the Offeror shall provide concise, user friendly documentation to each end user at time of transition. | Required | Supported |
| E-2.10 | The Offeror shall provide hands-on classroom training sessions for individuals supporting answering positions. | Required | Supported |
| E-2.11 | The Offeror shall provide additional training sessions at no cost should the classroom instruction be considered a failure due to the ineffectiveness of the instructor. | Required | Supported |
| E-2.12 | The Offeror shall allow evaluation of all trainers. The Offeror shall replace a trainer at the request of the Commonwealth. | Required | Supported |

H.3 Lot 2, F - Transition

| | <u>Requirement</u> | <u>Requirement Type</u> | <u>Compliance</u> |
|-------|--|-------------------------|-------------------|
| F-2.1 | The Offeror shall schedule transitions as determined by the agencies. | Required | Supported |
| F-2.2 | The Offeror shall provide agencies with Feature Code List once schedule has been determined. | Required | Supported |
| F-2.3 | The Offeror shall coordinate transition with multiple vendors during any transitions which include multiple vendors. | Required | Supported |
| F-2.4 | The Offeror shall provide options for collection and disposal of equipment to be replaced. | Required | Supported |
| F-2.5 | The Offeror shall include any necessary training needs into transition or implementation schedule. | Required | Supported |

Appendix Q - VoIP Service Locations

RFP 6100039274 Unified Communications & Voice Services

Instructions

The Commonwealth is looking for a statewide VoIP solution for its various locations. The VoIP Service Locations tab of this appendix indicates locations where VoIP is currently available to the Commonwealth. The Data Service Locations tab indicates all data service locations across the Commonwealth.

Offerors shall complete both tabs if bidding in Lot 1 services.

To complete a tab, the Offeror shall denote any location if it is unable to provide VoIP services.

The response options are provided in a drop-down box and are as follows:

X

For the VoIP Service Locations tab, any response of "X", denoting the inability to provide VoIP services, must also be explained in the Comments column and the Offeror's Technical Submittal.

For the Data Service Locations tab, any response of "X", denoting the inability to provide VoIP services, may optionally be explained in the Comments.

The completed matrix must be included as Attachment Q in the Offeror's response to this RFP.

Appendix R - Compatible Hardware Requirements

RFP 6100039274
Unified Communications & Voice Services

Instructions

The Compatible Hardware Requirements tab of this appendix indicates hardware that is currently in use by the Commonwealth.

Offerors shall complete this appendix if bidding on Lot 2 services.

To complete the tab, the Offeror shall denote any hardware that is not compatible with their solution.

The response options are provided in a drop-down box and are as follows:

X

Any response of "X", denoting incompatibility, must also be explained in the Comments column and the Offeror's Technical Submittal.

The completed matrix must be included as Attachment R in the Offeror's response to this RFP.

Appendix R - Compatible Hardware Requirements

| AGENCY | HARDWARE TYPE | HARDWARE MAKE/ MODEL | Incompatible | Mandatory Comments (if Incompatible Column = "X") |
|---------------------------|------------------------------|--|--------------|--|
| Transportation | VOIP Phone | Polycom CX5500 | X | operation through Skype for Business or an IP (Internet Protocol) PBX (Private |
| STATE POLICE | Analog Base Station/Repeater | MOTOROLA MCC 7500 CONSOLE; MOTOROLA | | Requires the Console Telephony Media Gateway |
| STATE POLICE | HEADSETS | Plantronics GN9450ePlantronics CS | | |
| STATE POLICE | PBX | NEC SV8100, SV9100; | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| STATE POLICE | ROUTER | ADTRAN 3200 ROUTER - 56k DDS NETWORK INTERFACE MODULE | | |
| STATE POLICE | VIDEO CONFERENCING | Polycom VX view stations BRI/ISDN Polycom HDX 4000-2 IPPolycom HDX 7000-2 IPPolycom HDX 9000 IPPolycom Grp500-720P IP | | Microsoft/Polycom Certified Video Products include: Group Series Codecs with Polycom Touch Control and MSFT License, Polycom Microsoft SkypeRoom (MSR), CX5100, CX 5500. Standards based legacy video end points, View Station, HDX Series, can connect via the Polycom Real Connect Service for O365. Recommend solution would be to upgrade legacy products to Polycom O365 compatible products. |
| SERS | Access Router | Adtran Netvanta 32xx + 43xx | | |
| SERS | PBX | NEC SV8500 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| SERS | Video Conferencing | Polycom HDX 8000 w/ quad BRI Module. | | Microsoft/Polycom Certified Video Products include: Group Series Codecs with Polycom Touch Control and MSFT License, Polycom Microsoft SkypeRoom (MSR), CX5100, CX 5500. Standards based legacy video end points, View Station, HDX Series, can connect via the Polycom Real Connect Service for O365. Recommend solution would be to upgrade legacy products to Polycom O365 compatible products. |
| SERS | VOIP Phone | NEC DT7xx VOIP Phone | | This device is a digital telephone for use with the NEC Univerge telephone systems; however, the Univerge telephone system <u>IS</u> compatible from a trunk perspective. |
| PUC | Headset | Plantronics - Vista M22 | | |
| Public Utility Commission | Headsets | Jabra 9330 Jabra 920 Pro | | Jabra 9330 is manufacturer EOL (End of Life); it is replaced by the Jabra Pro 920. The USB (Universal Serial Bus) version is compatible with Skype for Business |
| PHMC | Analog | EPIC ET 4300 EPIC 800-EFM | | |
| PHMC | Executone | IDS 42 | | |
| PHMC | Headset | Plantronics CS540 | | |

Appendix R - Compatible Hardware Requirements

| AGENCY | HARDWARE TYPE | HARDWARE MAKE/ MODEL | Incompatible | Mandatory Comments (if Incompatible Column = "X") |
|---------|----------------------------|---|--------------|---|
| PHMC | Headset | Plantronics M22 | | |
| PHMC | Headset | Plantronics A10-16 | | |
| PHMC | Headset | Plantronics APS-11 | | |
| PHMC | Headset | Plantronics HL-10 | | |
| PHMC | NEC | Electra Elite IPK II Electra Elite 192 IPK NEC SV8100 | | |
| PHMC | Toshiba | Strata DK 280 | | |
| PennDOT | Conference Phones | Spreadsheet attached | | |
| PennDOT | Headsets and Cameras | spreadsheet attached | | |
| PBPP | Board Room Phone | Polycom | | |
| PBPP | PBX | NEC 300 Series Aastra Toshiba | X | This device is a digital telephone for use with the NEC Univerge telephone systems; however, the Univerge telephone system <u>IS</u> compatible from a trunk perspective. |
| PBPP | Plantronics Headsets | HL10 | | |
| PBPP | Video Conference Equipment | Polycom | | |
| OIG | Headset | Jabra Pro 9460 | | Compatible with Skype for Business via USB (Universal Serial Bus) and desk phones |
| OA | Headsets | Plantronics/ Savi 740 | | |
| Health | Headset | Plantronics CS50 | | |
| FBC | Headsets | Sennheiser and Plantronics | | |
| DOH | Headset | Plantronics HW251N SUPRAPLUS | | |
| DHS | PBX | Fujitsu 9600 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DHS | PBX | NEC SV8300 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |

Appendix R - Compatible Hardware Requirements

| AGENCY | HARDWARE TYPE | HARDWARE MAKE/ MODEL | Incompatible | Mandatory Comments (if Incompatible Column = "X") |
|--------------|----------------------------|--------------------------------------|--------------|---|
| DHS | PBX | NEC SV8500 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DHS | PBX | NEC SV9500 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DHS | Key System | NEC SV8100 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DHS | Video Conference Equipment | Polycom | | Some models may require TDM (Time Division Multiplex) telephony gateway |
| DHS | Headsets | Plantronics CS-540 with HL-10 Lifter | | |
| DHS | Headsets | Jabra 9350 with Lifter | | Jabra 9350 is manufacturer EOL (End of Life); it is replaced by the Jabra 9450. Compatible with Skype for Business via USB (Universal Serial Bus) and desk phones |
| DHS | Headsets | Jabra 9460 with Lifter | | Compatible with Skype for Business via USB (Universal Serial Bus) and desk phones |
| DHS | Headsets | Plantronics/ Savi 740 | | |
| DHS | Conference Phones | Polycom SoundStation 2W | | Not Skype certified. |
| DGS and PHMC | Polycom | SoundStation 2 SoundStation 2W | | Not Skype certified. Recommend Polycom Trio 8800 Conference phone. |
| DGS | Executone | IDS | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DGS | Headset | Plantronics CS540 | | |
| DGS | Headset | Plantronics M22 | | |
| DGS | Headset | Plantronics A10-16 | | |
| DGS | Headset | Plantronics APS-11 | | |
| DGS | Headset | Plantronics HL 10 | | |
| DGS | NEC | SV8100 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DGS | Toshiba | Strata DK-228 | X | This device is a digital telephone for use with the Toshiba DKT (Digital Telephone System); however, the DKT <u>IS</u> compatible from a trunk perspective. |
| DCNR | Conference Room Phones | Polycom Soundstation 2 | | Not Skype certified. Recommend Polycom Trio 8800 Conference phone. |
| DCNR | VoIP Headsets | Plantronics CS-540 with HL-10 lifter | | |
| DCNR | Key System | Toshiba Strata Vi | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |

Appendix R - Compatible Hardware Requirements

| AGENCY | HARDWARE TYPE | HARDWARE MAKE/ MODEL | Incompatible | Mandatory Comments (if Incompatible Column = "X") |
|--------|---------------|--------------------------|--------------|---|
| DCNR | Key System | Toshiba DK-16 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DCNR | Key System | Toshiba DKT-2010-SD | X | This device is a digital telephone for use with the Toshiba DKT (Digital Telephone System); however, the DKT <u>IS</u> compatible from a trunk perspective. |
| DCNR | Key System | Executone IDS 42 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DCNR | Key System | NEC NEAX 2000 IVS2 | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DCNR | Key System | NEC Elite IPK II | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |
| DCNR | Key System | NEX Electra Elite IPK II | | Requires analog or digital T1 or PRI (Primary Rate Interface) trunk modules |

Appendix S - Hardware Matrix

RFP 6100039274 Unified Communications & Voice Services

Instructions

The subsequent pages of this appendix provide information regarding hardware desired by the Commonwealth. For Lot 1 hardware, specific requirements are categorized as either Required or Nice to Have.

Offerors shall complete all Lot 1 related tabs if they are bidding on Lot 1. Offerors should complete all Lot 2 related tabs if they are bidding on Lot 2.

The Offeror shall specify the Model, Manufacturer, Name, Description and Warranty period for all devices. For each device the Offeror shall indicate, for each requirement, whether the device meets the requirement.

The response options are provided in a drop-down box and are as follows:

Yes
No

The completed matrix must be included as Attachment S in the Offeror's response to this RFP.

Lot 1 - Desk Phones

Appendix T - PBX and Key System Locations

RFP 6100039274 Unified Communications & Voice Services

Instructions

The Offeror shall indicate its current and planned service availability of DID, PRI and SIP services for existing and future PBX and key systems locations.

Offerors shall complete the PBX and Key System Locations tab if bidding in Lot 2 services.

To complete a tab, the Offeror shall indicate whether it can provide the denoted service at the location.

The response options are provided in a drop-down box and are as follows:

Yes
Future
No

Any response of "Future" or "No" must be explained in the column labeled "Comments".

The completed matrix must be included as Attachment T in the Offeror's response to this RFP.

Appendix V - Pay Phone Locations

RFP 6100039274 Unified Communications & Voice Services

Instructions

The Pay Phone Locations tab of this appendix indicates locations where pay phones are currently available to the Commonwealth.

Offerors shall complete this appendix if bidding on Lot 2 services.

To complete the tab, the Offeror shall denote any location if it is unable to provide pay phone services.

The response options are provided in a drop-down box and are as follows:

X

Any response of "X", denoting the inability to provide pay phone services, must also be explained in the Comments column and the Offeror's Technical Submittal.

The completed matrix must be included as Attachment V in the Offeror's response to this RFP.

APPENDIX Y

COSTARS PROGRAM ELECTION TO PARTICIPATE

If awarded a Contract, our firm agrees to sell the awarded Lot 2 items/services at the same prices and/or discounts, and in accordance with the contractual terms and conditions, to registered COSTARS Members who elect to participate in the contract. Verizon would like to discuss with the Commonwealth how Lot 1 services could be provided to COSTARS participants. Our firm also agrees to pay the applicable Administrative Fee (\$1500 or \$500 for a Department of General Services Certified Small Business) at the beginning of each contract year and upon each contract renewal date.

If you are asserting that your firm is a Department of General Services Certified Small Business, provide an active Department of General Services Small Business Certification.

Verizon Business Network Services Inc. on behalf of MCI Communications Services, Inc. dba

VITALYST®

VITAL CATALYSTS.
APPLICATION EXPERTS DRIVING PRODUCTIVITY.

Case Study:

Meeting User Demand for Instant Software Help and Ongoing Training to Maximize Productivity

Like the private sector, most government agencies struggle to keep up with constant changes in technology. To keep users operating at peak productivity, there must be a way to answer a large volume of questions quickly and provide easy access to training tools. Software upgrades, application migration, new device deployment and mobility initiatives keep IT departments stretched to capacity, and even the most robust team—and their subcontractors— isn't always staffed or trained to provide help with an adoption issue or application functionality question. Many agencies underestimate the ongoing call volume six-months or even one-year following a software migration, because as user productivity improves, so does the need for answers to sophisticated application questions. This case study explores how Vitalyst has helped three different government agencies meet user demand for instant software help 24/7 with full-time staff based in the U.S., and the innovative ways they provided ongoing training to help maximize productivity.

Challenge

FEDERAL AVIATION ADMINISTRATION

For 15 years, the FAA had relied on Lotus Notes as their email suite. In 2014, as a result of the Cloud First policy, the agency migrated to Office 365 which meant a new email platform and new suite of desktop applications for 60,000 end-users. The challenge, however, was that the FAA's existing outsourced IT solution—comprised of three different vendors—lacked the capacity, expertise and ability to instantly scale to respond to the anticipated volume of "how-to" questions. Plus there was no plan in place to drive end-user training and adoption. The solution also required a vendor that was Microsoft Certified and could provide support 24/7.

Solution

After conducting an exhaustive search for an additional support solution, the FAA contracted with Vitalyst via a Sole Source, IDIQ contract. Initially, Vitalyst support was accessible via the existing FAA IVR menu, but when the call volume overburdened the system, Vitalyst quickly set up a dedicated

toll-free number to bypass that system and help users reach the domestically-based support team. During the 90-day software transition, Vitalyst fielded over 12,000 support calls, and delivered nearly 23,000 ad-hoc training solutions for Office 365 plus SharePoint, Lync, ProofPoint, Windows Mobile, VBA and other Microsoft applications.

User productivity soared, and it quickly became evident that Vitalyst services were having an extremely positive impact on user adoption and productivity. As a result, the contract was restructured and extended. Currently, the FAA intends to include Vitalyst as part of their revamped Service Desk solution in 2016 as it has proven to provide a much needed service to all users. To date, Vitalyst has fielded an additional 4,000 calls and is experiencing a customer satisfaction rating of 95.3%.

Results

- Customer Satisfaction: 95.3%
- Abandonment Rate: 0.94%
- Avg. Speed of Answer: 6.7 seconds (2 rings)
- 1st Call Resolution Rate: 97.7%
- Issues Solved in 24 Hours: 98.1%

Challenge

U.S. ENVIRONMENTAL PROTECTION AGENCY

During an impending key initiative, executive management was under pressure to find a new and innovative way to deliver training to its 20,000 users on both SharePoint and other Office 365 applications. The existing support desk lacked "how-to" expertise, and EPA users were resistant to traditional classroom training methods. An alternate solution needed to be identified and implemented successfully as there was no room for failure.

Solution

Vitalyst transformed the image of a help desk by setting up a "How-to Help Center" for users of Microsoft Office 365, SharePoint and Lync, OneDrive, Adobe, Dragon and other technologies. By providing phone-based, on-demand expertise, the Vitalyst solutions team was accessible via the existing Help Desk IVR system. To reinforce the answer to the user inquiry, Vitalyst sent a follow up email after each call that recapped the solution with a video on what they had just been taught. In addition, the email included links to training videos on three other—but related—topics, thereby turning one inbound inquiry into ongoing, self-initiated software training.

When asked to recap their three key successes in 2013, the technology team at the EPA named Vitalyst Sharepoint migration and their "How-to Help Center" as two out of the three.

Results

- # of Calls to Date: 5,000
- # of Emails Sent: 1,450 with over 4,500 video tips
- Customer Satisfaction: 96%

Challenge

U.S. SECURITIES AND EXCHANGE COMMISSION

The SEC had always struggled to support their 8,000 business users on Microsoft Office 2007. During the Microsoft Office 2010 pilot deployment, the new and unfamiliar user interface presented a series of end user challenges. And, since the SEC's Managed Service Provider lacked the expertise necessary to support the upgrade, serious concerns were raised about user adoption and potential disruption to business, so Vitalyst was brought in as a subcontractor to provide assistance and support.

Solution

Over a 12-month period Vitalyst provided live expert phone support from their staff of domestically-based full-time employees. Handling thousands of initial migration calls, Vitalyst delivered high levels of user satisfaction. Post migration, volume reduced significantly but users continued to leverage Vitalyst for daily mission critical support tasks. As a result, the contract was extended and continues to fill critical gaps in the SEC IT support structure.

Results

- Customer Satisfaction: 97%
- Average Speed to Answer: <10 seconds

Vitalyst is committed to providing unmatched application expertise and customer service to clients, helping to maximize their return on investment by increasing employee proficiency and enterprise-wide productivity. Since 1995, Vitalyst has served as a catalyst to businesses and government organizations. Clients rely on Vitalyst for insightful and practical "how-to" solutions for hundreds of applications, smooth migrations and in-person and web-based training programs, earning the company status as a Microsoft Certified Gold Partner.

Identification, by role, of key personnel

Upon finalization of the solution, Verizon will create a team of the appropriate resources to fulfill the key roles. Verizon will deploy a Transition team and a steady state Program Management office team to meet the needs and requirements of the solution.

Verizon's PMO consists of a dedicated team of professionals providing management and support of key, steady state processes and activities and serving as a single point of contact (SPOC) for the Commonwealth and Office of Administration (OA) on issues relating to the delivery and support of services provided by and managed by Verizon.

The Verizon PMO Program Delivery Executive has operational control in the following areas:

- Facilitates the problem/situation escalation program to expedite problem resolution.
- Follows up with key Commonwealth personnel on problem resolution.
- Monitors overall service performance and proactively recommend improvements and corrections.
- Constructs business plans for commitment of resources to the Commonwealth account.
- Meets and consults with Commonwealth on a regular basis to gain/maintain an understanding of specific Commonwealth business needs.
- Periodically meets with key Commonwealth personnel to improve service integration resulting in enhanced and streamlined processes.

The Verizon Program Delivery Executive creates and maintains a list of all Verizon individuals involved in this project along with specific roles, responsibilities and contact numbers.

Services will be supported and managed by a dedicated, focused team of resources.

Additionally, the governing Management Committees will be in place to support the relationship:

Service ordering process integration with the ITSM tool

Through the Service Transition process, whereby Verizon designs, develops and documents processes and procedures, the details and steps for ordering services will be reviewed, refreshed and integrated into the tools for Verizon and Commonwealth.

Service Ordering process currently is as follows:

| Step | Description | Owner |
|--|--|----------------|
| Commonwealth - Verizon Steady State Order | | |
| 1 | Enter order into ESMS (vendor = Verizon) <ul style="list-style-type: none"> ■ Order may include new or Moves, Adds, Changes, Disconnects (MACDs) ■ Email notification is generated to Verizon with hyperlink to order | Commonwealth |
| 2 | Receive email notification with hyperlink | Front End LCPM |
| 3 | Review and validate ESMS order. Validate: <ul style="list-style-type: none"> ■ Address Information ■ Contact Information (verify LCON included) ■ Product Drop Down Selection(s) valid ■ Order Screen (required agency fields completed) | Verizon LCPM |
| 4 | All required information included to proceed with ESMS order? <ul style="list-style-type: none"> ■ If Yes (all info included), see step 4.1 Refer to Provisioning Method in ESMS to determine the source of the inventory. If No (all info <i>not</i> included), see step 5 | Verizon LCPM |
| 4.1 | Create order in applicable ordering system If Provisioning Method specifies TPV, send to appropriate TPV for order processing | Verizon LCPM |
| 4.1.1 | Update ESMS order with status (in "Remarks" section) | Verizon LCPM |

| Step | Description | Owner |
|------|---|--------------|
| | <ul style="list-style-type: none"> ■ Move Commonwealth/Verizon order to "Review Complete" (RCM) status <p>Then see step 6</p> | |
| 5 | <p>Update original ESMS order with status (in "Remarks" section) advising why order cannot be validated</p> <ul style="list-style-type: none"> ■ Put ESMS order in "Reviewed with Issues" status in ESMS | Verizon LCPM |
| 5.1 | <p>Receive ESMS order in RWI status, address item at hand, then resubmit ESMS order (in "Submit re-Work" status (SRW))</p> <ul style="list-style-type: none"> ■ When revised order is submitted, go back to step 3 | Commonwealth |
| 5.2 | <p>Receive ESMS order in RWI, decide to Cancel</p> <p>Process Ends</p> | |
| 6 | <p>Provision order and continue to update ESMS order remarks throughout process</p> <ul style="list-style-type: none"> ■ Add Verizon order number, new WTN's, Verizon circuit ID, LEC circuit ID, Scheduled Completion Date in "Remarks" section | Verizon LCPM |
| 6.1 | <p>As fields are populated, Order Status is to be changed accordingly:</p> <ul style="list-style-type: none"> ■ Scheduled ■ Install/Test | Verizon LCPM |
| 7 | <p>Populate Verizon BTN, Actual Completion Date and other fields (as predefined by product type) in "Remarks" section and ensure all Vendor Required fields on Order Items are populated</p> <ul style="list-style-type: none"> ■ Then place Commonwealth/Verizon order in "Complete" status in ESMS (vendor = Verizon) | Verizon LCPM |
| | Process ends | |

Scheduling processes and standard service intervals

- **Change Management Exclusions** are changes that are classified as **Low** or **Medium** priority and are not associated with a **Change Management Break/Fix** requirement.
- **Change Management Exclusions** are changes that are classified as **Low** or **Medium** priority and are not associated with a **Change Management Break/Fix** requirement.

All reports on this deck are due by the 7th business day of every month. This deck is subdivided into 5 major sections:

- PMO Reports
- SLA Reports
- SLO Reports
- Financial Reports
- Traffic Reports
- Services Reports

PMO Reports

Verizon delivers Program Management Office reports showing Verizon's attributes and performance of Commonwealth telecommunication requirements. The reports list out all project management activity as it relates to the achievement of performance and associated tasks necessary to effectively deliver the Services.

Table 9.5-1 Monthly PMO Reports

| Report Name | Description |
|--|---|
| 13-Month SLA Summary | A 13-Month Running SLA Summary that provides a monthly breakdown of remedies and exclusions along with a quarterly breakdown. This analysis is for each of the service level agreements individually. The report also provides a combined summary of remedies and exclusions for all SLAs |
| 13-Month Performance Trend | A 13-Month SLA Performance Trend Report tracking service level achievements over a thirteen month rolling period for each of the SLAs |
| Earn-back Summary | Earn-Back Summary that reports on service level violations and earn back eligibility. This report also includes a total of pending, issued and closed credits |
| Quality Management-Monthly End User Feedback | Survey analysis of Customer Satisfaction. This report includes an executive summary, enterprise data and agency data |
| Service Desk Call Volume Report | Type of calls answered by VSD on a monthly basis |
| | |

Financial Reports

The following Financial reports have been agreed upon and approved by Commonwealth and Verizon:

Table 9.5-3 Monthly Financial Reports

| Report Name | Description |
|--|---|
| Quarterly Trending/Compliance by Major Service | Financial detail by Major Service Type; inclusive of cost, minutes and quantity |
| 13-Month Billing Summary; Major Service Type | Financial billing by Major Service Type; 13-Month Summary |
| MACD Charges | Moves, Disconnects and Change Orders activities; |

The information provided should include current month services, and pricing elements from the previous month, pricing element, rate, quantity and total amount billed. A 13 Month Billing Summary by Major Service Type provides an overall summary of the expenditures per month.

The following financial reports are derived from the SOA and are due by the 7th business day of each month.

Table 9.5-4 Financial SOA Reporting

| Report | Detail | Level |
|----------------------------|--|--------------|
| Statement of Account (SOA) | <p>Statement of Account is being used until SingleView billing solution is in place and accepted by Commonwealth:</p> <ul style="list-style-type: none"> ■ Statement of Account - Detailed itemization from ESMS inventory that is the source for the Invoice/SOA. <ul style="list-style-type: none"> ● Fields included: Department, Location, Service ID, WTN, BTN, ESMS PON, Product Code, Product Description, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, Major Service Type, Service Sub Type, Type, Unit Price, Qty, %, Current Month Prorate, Date Submitted, Requested Completion Date, Scheduled Date, Actual Completion Date, Current NRC, Current MRC, Total Current Charges, Comments ● Format is MS Excel | Commonwealth |

| Report | Detail | Level |
|--|---|--|
| | <ul style="list-style-type: none"> • SOA is the basis for all billing reports unless otherwise noted • SOA reflects MRC and NRC activity only, not usage or surcharges <p>Note: Process for SOA preparation can be found in PPM Section 12 - Financial Management</p> | |
| Enterprise Report | <p>Summary of total charges per agency.</p> <ul style="list-style-type: none"> ■ Fields included: Department, Total Current Charges ■ Format is MS Excel | Commonwealth |

| Agency Itemization Report | <p>Product level summary by agency.</p> <ul style="list-style-type: none"> ■ Fields included: WTN, BTN, Type, BA, Reporting Level, Sub Acct, Fund, Cost Center, Internal Order, WBS Element, General Ledger, %, Major Svc Type, Svc Sub Type, Product Code, Product Description, Total Current Charges ■ Format is MS Excel | Commonwealth (all Agencies) and Agency (Individually) |
| Charge by BTN - Department(acct) | <p>This report provides expenditures summarized by Billing Identifier (BTN) to support the budgeting process.</p> <ul style="list-style-type: none"> ■ Fields included: BTN, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, Total Current Charges ■ Format is MS Excel | Commonwealth |
| Total Cost by Major Service - Commonwealth | <p>This report provides total monthly charges by Major Service Type.</p> <ul style="list-style-type: none"> ■ Fields included: Major Service Type, MRC, NRC, Total Current Charges ■ Format is MS Excel | Commonwealth (in total) |

| Report | Detail | Level |
|---|---|--------------------------|
| Total Cost by Major Service - Commonwealth/ Department(acct) | <p>This report provides total monthly charges by Major Service Type.</p> <ul style="list-style-type: none"> ■ Fields included: Department, Major Service Type, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, MRC, NRC, Total Current Charges ■ Format is MS Excel | Commonwealth (by Agency) |
| Total Cost by Major Service - Department(acct) | <p>This report provides total monthly charges by Major Service Type.</p> <ul style="list-style-type: none"> ■ Fields included: Department, Major Service Type, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, MRC, NRC, Total Current Charges ■ Format is MS Excel | Agency |
| Total Cost by Major Service/Service Sub Type - Commonwealth | <p>This report provides total monthly charges by Major and Service Sub Type.</p> <ul style="list-style-type: none"> ■ Fields included: Major Service Type, Service Sub Type, MRC, NRC, Total Current Charges ■ Format is MS Excel | Commonwealth (in total) |
| Total Cost by Major Service/Service Sub Type - Commonwealth/ Department(acct) | <p>This report provides total monthly charges by Major and Service Sub Type.</p> <ul style="list-style-type: none"> ■ Fields included: Department, Major Service Type, Service Sub Type, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, MRC, NRC, Total Current Charges ■ Format is MS Excel | Commonwealth (by Agency) |
| Total Cost by Major Service/Service Sub Type - Department(acct) | <p>This report provides total monthly charges by Major and Service Sub Type.</p> <ul style="list-style-type: none"> ■ Fields included: Department, Major Service Type, Service Sub Type, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, MRC, NRC, Total Current Charges ■ Format is MS Excel | Agency |

| Report | Detail | Level |
|--|---|--------------|
| Total Service Qty, Usage, & Cost for Previous 12 Months by Major Service - Commonwealth | <p>This report provides a twelve month summary of charges, quantity, and usage by Major Service Type.</p> <ul style="list-style-type: none"> ■ Fields included: Major Service Type, Cost, Minutes, Quantity ■ Minutes are usage based and are not presently available in the SOA ■ Format is MS Excel | Commonwealth |
| Total Service Qty, Usage, & Cost for Previous 12 Months by Major Service/Service Sub Type - Commonwealth | <p>This report provides a twelve month summary of charges, quantity, and usage by Major Service Type and Service Sub Type.</p> <ul style="list-style-type: none"> ■ Fields included: Major Service Type, Service Sub Type, Cost, Minutes, Quantity ■ Minutes are usage based and are not presently available in the SOA ■ Format is MS Excel | Commonwealth |

Traffic Reports

Traffic Reports are an important part of the overall management of voice and data services made available to Commonwealth via VEC portal. Traffic and Usage reports will detail content by Agency, then by site. In addition, summary Traffic and Usage reports will be made available for the Enterprise. Online access to Traffic Reports is the targeted goal and will happen in a phased-in delivery method. The contract identifies that the following reports be produced monthly and made available to Commonwealth:

Table 9.5-5 Monthly Traffic Reports

| Report Name | | Description |
|--|---------------------|--|
| Station, Account Trunk Summary Reports | | Detail of station and trunk reports |
| Long Distance Call Detail | | Detail of long distance calls |
| Local Traffic Call Detail | Trunk Detail Report | Lists by Trunk Group, by Date, by Busy Hour report lists incoming calls, busy hour (BH) busies, minutes of use, and total call attempts |
| | Centrex Group Study | Lists by Centrex group, and by Hour traffic by Group Originating calls from customers (OPC), Group Incoming calls to the customer (IPC), and Intragroup calls with the Centrex (NPC) |

| Report Name | | Description |
|--|---|--|
| | Customer Call Report by Hunt Group | Lists by Hunt Group and by week Minutes of Use (MOU) Carried, Minutes of Use Offered, Calls in, Calls out, Percent Busy, Average Length of call (Minutes of Use) and Lines Required. |
| | Customer Call Report/ Agency minutes of use | Lists by individual Commonwealth agency by day and by hour Minutes of Use (MOU) Carried, Minutes of Use Offered, Calls in, Calls out, Percent Busy, Average Length of call (Minutes of Use) and Lines Required |
| Traffic Studies | | Performance reports of network traffic |
| On-Line Call Detail Reports | | On-Line analysis of call detail reporting |
| On-Line Reports for Toll Free Services | | On-Line report detail of toll free services |
| Rolling Traffic Statistics | | Analysis of traffic statistics over a multi-month period |
| Detailed Call Reports | | Detailed call reporting via VEC |
| Bandwidth Utilization (In, Out & Total Average) | | Bandwidth Utilization of all devices associated with COPANET. This report names the individual device, device capability, bandwidth utilization in and out as well as average bandwidth utilization. This information is provided via a data table along with a graph representation |
| Bandwidth Utilization (In, Out & Total Peak) | | Bandwidth Utilization of all devices associated with COPANET highlighting the "peak" throughput performance. This information is provided via a data table along with a graph representation |
| Voice Usage Exceptions - # of Calls - Department (acct) | | Voice usage exception report highlighting number of calls Breakdown of calls should be by location (location = Agency site). Information is then extracted by Agency and provided individually to each Agency |
| Voice Usage Exceptions - # of Minutes - Dept.(acct) | | Voice usage exception report highlighting number of minutes |
| Quarterly Voice Lines Without Usage - Commonwealth by Dept | | Quarterly report highlighting lines that have zero usage |

Service Reports

The following Service reports have been agreed upon and approved by Commonwealth and Verizon:

Table 9.5-6 Monthly Service Reports

| Report Name | Description |
|--|--|
| Quality Management-Monthly End User Feedback / Executive Summary | Details a number of invites (surveys), total responses, and response rate |
| Quality Management-Monthly End User Feedback / Enterprise Data | Graphical depiction of total invites (surveys) and response rate for a 13-month report period for the Enterprise |
| Quality Management-Monthly End User Feedback / Agency Data | Total invites (surveys) and response rate for the reporting month per Agency |
| Type of Calls to Service Desk | Service Desk Report that breaks down by type and quantity of call received by the VSD |
| Voice Mail Reports | Detailed itemization of voicemail calls by Agency and User Name |
| Dispatch Center Tracking | Maintenance Management Report of Dispatch Center logging, tracking and updating service calls |
| Customer Service Report | Reporting by Enterprise that notes Service Type, Class of Service and number of Incidents |
| Agency Customer Service Report | Reporting by Agency that notes Service Type, Class of Service and number of Incidents |
| Customer Satisfaction Surveys | Survey analysis of Customer Satisfaction |
| Customer Survey Reports | Detailed analysis of Customer Survey Questionnaires |

Monthly PMO Deck

Note: All reports on this deck are due during 3rd week of each month with a committed delivery of 24 hours prior to PMO meeting.

The Monthly PMO Deck will take place every 3rd week of the month. Many of the reports included in the Monthly Reporting Deck will be used to complement this submission. The Monthly PMO Deck will also incorporate other key reports.

The Monthly PMO Deck includes:

Table 9.5-7 Monthly PMO Deck

| Report Name | Description |
|--|---|
| Change Management Enterprise Network Changes | Synopsis of approved and pending Change Management activity |
| 13-Month Running SLA Summary | A 13-Month Running SLA Summary that provides a monthly breakdown of remedies and exclusions along with a quarterly breakdown. This analysis is for each of the service level agreements individually. The report also provides a combined summary of remedies and exclusions for all SLAs |
| 13-Month Performance Trend | A 13-Month SLA Performance Trend Report tracking performance over the thirteen month period A 13-Month Performance Trend Report tracking SLA performance over the thirteen month period for each of the SLAs |
| SLA Summary | The SLA Summary for the preceding month that captures a snapshot of remedies and exclusions, the associated service level and affiliated pooled percentage per service level agreement |
| 13-Month SLA Summary | A 13-Month Running SLA Summary that provides a monthly breakdown of remedies and exclusions along with a quarterly breakdown (this analysis is for each of the SLAs individually). The report also provides a combined summary of remedies and exclusions for all SLAs |
| Earn-Back Summary | Earn-Back Summary that highlights potential remedies per service level agreement and its associated earn back performance tracking sheet |
| Escalation List | List of Verizon and Commonwealth contacts to be used in the event of an escalation |
| Incident Communication Plan (ICP) | Outline of the process flow of an Incident |
| 13-Month Billing Summary/ Major Service Types | 13-Month rolling trend of Financial billing by Major Service Type |
| Financial Review/ Quarterly by Major Service Type | Rolling quarterly trend of Financial billing by Major Service Type |
| IP Trunking Utilization | Summary of IP Trunking Usage |

| Report Name | Description |
|---|--|
| Quality Management/ Monthly End User Feedback | Number of End User invites, response rates and overall satisfaction with VSD's call handling. The report includes a graphical representation of End User feedback for the respective month's performance |
| Quality Management/ Monthly End User Feedback/ Enterprise Data | End User feedback analysis for Enterprise Data. The report provides a breakdown of survey comments by Positive and Areas of Improvement |
| Service Improvement Plan | The plan that includes steps to be taken if there is significant gap in the expected delivery quality of a service and the actual delivery (as requested by Commonwealth) |
| Customer Service Review/ VSD Trended Volumes & Performance | Overview of VSD call summary, incidents and call volumes |
| Service Desk Call Volume Report | Service Desk Report that breaks down by type and quantity of call that received by the VSD |
| Trouble Tickets/ Enterprise | Report of Trouble Tickets by Enterprise <ul style="list-style-type: none"> ■ Breakdown based on ticket type and Agency |
| Telecommunications Services Priority (TSP) Outages | Itemization of TSP Outages |
| MAC Volume Completed Summary w/ Detailed Exceptions by Reason | Moves, Disconnects and Change Orders activity detailed by volume completed <ul style="list-style-type: none"> ■ Breakdown provided by Voice, Data, Security, and Exceptions |
| Customer Service Review/ Monthly Root Cause Analysis (RCA) Summary Report | Itemization of RCA reports |
| Customer Service Review/ Performance Trend Improvement Report | Reporting by Enterprise that notes a Performance Trend Improvement Summary |
| Major Project Status | Listing of any Major Projects |
| Issues/ Summary of Lists | Listing of open issues for future review |
| Prior Month Action Items/ Takeaway Review | Action Items and takeaways from previous meetings |

Metrics

It is Verizon's responsibility to provide any billing detail and usage outside of the ESMS MRC/NRC charges as accurate and on time as permitted to allow for the ESMS SOA to be issued to Commonwealth by the 7th business day of each calendar month.

Note: In the event of any missing information that may affect meeting this ESMS SOA delivery date, the sixty (60) day contractual window to provide a Bill/SOA will be taken into account. In the event of ESMS not being able to provide the SOA, Verizon will Bill for Services via Verizon Billing System.

ESMS SOA Creation Process Description

| Step | Description | Owner |
|------|--|---------------|
| 1 | Collect ESMS non-usage billing data <ul style="list-style-type: none"> ■ ESMS provides all required contractual data from it's inventory and catalog | ESMS Provider |
| 1.1 | Collect Verizon usage billing data | Verizon |
| 1.2 | Collect Verizon credits/adjustments | Verizon |
| 1.3 | Collect Verizon payment data | Verizon |
| 2 | <p>Create ESMS SOA</p> <ul style="list-style-type: none"> ■ ESMS builds ESMS SOA and Reports using ESMS non-usage data and Verizon data ■ Computes costs using contractual rates in ESMS Product Catalog ■ Compute NRCs and MRCs for current period and carry forward any charges from prior periods not yet invoiced through the electronic interface. Taxes and Surcharges are included. ■ ESMS SOA file outputs will include Enterprise, Comptroller and Agency level reports <p>Notes:</p> <ul style="list-style-type: none"> ■ Enterprise ESMS SOA contains four main report tabs: <ul style="list-style-type: none"> ● All associated ESMS generated reports (see enhancement 613 document - ESMS SOA Automation) ■ Notification document: <ul style="list-style-type: none"> ● Advises of total amount due for the current period and provides payment instructions ● Provided electronically through ESMS | ESMS Provider |
| End | | |

ESMS SOA Delivery to Commonwealth process description

| Step | Description | Owner |
|------|--|-----------------|
| 1 | <p>Make ESMS SOA available to SAP, Non-SAP, Business Partners by 7th business day of the month:</p> <ul style="list-style-type: none"> ■ SAP <ul style="list-style-type: none"> ● ESMS will provide electronic file to SAP ■ Non-SAP <ul style="list-style-type: none"> ● ESMS will provide on-line view ■ Business Partners <ul style="list-style-type: none"> ● Verizon will be able to email or mail to BPs | ESMS Provider |
| 2 | <p>Review ESMS SOA</p> <ul style="list-style-type: none"> ■ Conduct high-level review of the ESMS SOA and confirm Credits and Earn-backs ■ Commonwealth OA communicates any questions or issues via email to Commonwealth Financial Analyst | Commonwealth OA |
| 3 | <p>ESMS SOA questions or issues?</p> <ul style="list-style-type: none"> ■ If Yes, see step 3.1 ■ If No, see step 4 | Commonwealth OA |
| 3.1 | <p>Communicate ESMS SOA questions or issues to the Verizon Financial Analyst via an ESMS Financial Request Order.</p> <ul style="list-style-type: none"> ■ Follow "ESMS SOA Issue Resolution" process | Commonwealth OA |
| 4 | <p>Approve Final ESMS SOA</p> <ul style="list-style-type: none"> ■ Commonwealth OA approves the SOA and submits payment to Verizon using ESMS Remittance / Pre-Invoice Notification ■ Commonwealth OA confirms that the SOA verification process has been completed | Commonwealth OA |
| End | | |

Table 12.10-3 ESMS SOA Issue Resolution

| Step | Description | Owner |
|------|--|-----------------|
| 1 | <p>Communicate ESMS SOA questions or issues.</p> <ul style="list-style-type: none"> ■ Commonwealth OA communicates any questions or issues to the Verizon Financial Analysts ■ Commonwealth will submit an ESMS Financial Request Order. | Commonwealth OA |

| Step | Description | Owner |
|------|--|---|
| 2 | <p>Research and respond to SOA Questions or Issues.</p> <ul style="list-style-type: none"> ■ The Verizon Financial Analysts investigate issues and responds to Commonwealth OA within 2 Business Days of receipt of questions <ul style="list-style-type: none"> ● If resolution will take longer than 2 days, it will be communicated to Commonwealth within 2 business days ■ The Verizon Financial Analysts respond via ticket with answer or proposed resolution | Verizon Financial Analyst |
| 3 | <p>SOA Questions or Issues Resolved?</p> <ul style="list-style-type: none"> ■ If Yes, see step 3.1 ■ If No, Remedy case log is updated and ticket closed <ul style="list-style-type: none"> ● Go to step 3.2 | Verizon Financial Analyst |
| 3.1 | Return to ESMS SOA Payment Management process. | Commonwealth OA |
| 3.2 | <p>Review and attempt to resolve the issue.</p> <ul style="list-style-type: none"> ■ As required, other Commonwealth and/or Verizon personnel will be engaged to attempt to resolve the issue | Commonwealth OA & Verizon Financial Analyst |
| 4 | <p>Issue Resolved?</p> <ul style="list-style-type: none"> ■ If Yes, see step 4.1 ■ If No, see Step 4.2 | Commonwealth OA & Verizon Financial Analyst |
| 4.1 | <p>Subsequent SOA?</p> <ul style="list-style-type: none"> ■ If the SOA has errors, corrections/adjustments will be made on the subsequent monthly SOA. The subsequent SOA will reference the SOA number ■ Otherwise, go back to the "ESMS SOA Delivery to Commonwealth" process <ul style="list-style-type: none"> ● See step 3.1 | Commonwealth OA |
| 4.2 | <p>Dispute Resolution Process.</p> <ul style="list-style-type: none"> ■ Section 13 of Contract sets our specific activities, timing and responsibilities for addressing matters that can not be resolved through normal processes <ul style="list-style-type: none"> ● Unresolved invoicing issues should follow this process ■ Once the issue is resolved, proceed to Step 5 | Commonwealth OA & Verizon Financial Analyst |

| Step | Description | Owner |
|------|---|---------------------------|
| 5 | Reflect any Change/Adjustment as a Result of Dispute Resolution Process on Subsequent Invoice. <ul style="list-style-type: none"> ■ Go back to the ESMS SOA Delivery to Commonwealth process <ul style="list-style-type: none"> ● See step 3.1 | Commonwealth OA |
| 6 | Ensure that subsequent SOA reflects any required changes as per the issue resolution | Verizon Financial Analyst |

ESMS SOA Payment Management process description

| Step | Description | Owner |
|------------|---|---------------------------------|
| 1 | Submit ESMS SOA to SAP, Non-SAP and Business Partners. <ul style="list-style-type: none"> ■ Respective Remittance Statements payment guidelines will be included | ESMS, Verizon Financial Analyst |
| 2.1 | Submit one payment for SAP SOA. | Commonwealth OA |
| 2.2 | Submit individual payments. | Non-SAP agencies |

Processes and procedures for inventory/asset management

When a discrepancy is identified, an Agency Liaison Action (ALA) is initiated. The ALA is a process that allows the Agency Liaison to identify and resolve discrepancies between the Agency's records and the Verizon records. The ALA is initiated by the Agency Liaison and is tracked through the system.

The ALA process begins with the identification of a discrepancy. Once identified, a ticket is generated and assigned to the Agency Liaison. The Agency Liaison then takes action to resolve the discrepancy. Once resolved, the ticket is approved and the system is updated.

The ALA process is a continuous cycle that ensures the accuracy of the Agency's records. It is a critical part of the inventory/asset management process and is essential for maintaining the integrity of the data.

■ Discrepancy Identified When a discrepancy is identified, an Agency Liaison Action (ALA) is initiated. The ALA is a process that allows the Agency Liaison to identify and resolve discrepancies between the Agency's records and the Verizon records. The ALA is initiated by the Agency Liaison and is tracked through the system.

■ Ticket Generated A ticket is generated and assigned to the Agency Liaison. The ticket is used to track the progress of the ALA process and to ensure that the discrepancy is resolved in a timely manner.

■ Agency Liaison Action The Agency Liaison takes action to resolve the discrepancy. This may involve contacting the Verizon representative, reviewing the records, or other actions as needed.

■ Resolution Identified Once the discrepancy has been resolved, the ticket is marked as resolved. The Agency Liaison then provides feedback on the resolution to the Verizon representative.

■ Approval The resolution is approved by the Agency Liaison. The ticket is then closed and the system is updated with the correct information.

■ Updated The system is updated with the correct information. The ALA process is complete and the discrepancy has been resolved.

The ALA process is a critical part of the inventory/asset management process and is essential for maintaining the integrity of the data. It is a continuous cycle that ensures the accuracy of the Agency's records.

- Traffic Reports
- Services Reports

PMO Reports

Verizon delivers Program Management Office reports showing Verizon's attributes and performance of Commonwealth telecommunication requirements. The reports list out all project management activity as it relates to the achievement of performance and associated tasks necessary to effectively deliver the Services.

Table 9.5-1 Monthly PMO Reports

| Report Name | Description |
|---|---|
| 13-Month SLA Summary | A 13-Month Running SLA Summary that provides a monthly breakdown of remedies and exclusions along with a quarterly breakdown. This analysis is for each of the service level agreements individually. The report also provides a combined summary of remedies and exclusions for all SLAs |
| 13-Month Performance Trend | A 13-Month SLA Performance Trend Report tracking service level achievements over a thirteen month rolling period for each of the SLAs |
| Earn-back Summary | Earn-Back Summary that reports on service level violations and earn back eligibility. This report also includes a total of pending, issued and closed credits |
| Quality Management-Monthly End User Feedback | Survey analysis of Customer Satisfaction. This report includes an executive summary, enterprise data and agency data |
| Service Desk Call Volume Report | Type of calls answered by VSD on a monthly basis |

Financial Reports

The following Financial reports have been agreed upon and approved by Commonwealth and Verizon:

Table 9.5-3 Monthly Financial Reports

| Report Name | Description |
|--|---|
| Quarterly Trending/Compliance by Major Service | Financial detail by Major Service Type; inclusive of cost, minutes and quantity |
| 13-Month Billing Summary; Major Service Type | Financial billing by Major Service Type; 13-Month Summary |

| Report Name | Description |
|--------------|--|
| MACD Charges | Moves, Disconnects and Change Orders activities; |

The information provided should include current month services, and pricing elements from the previous month, pricing element, rate, quantity and total amount billed. A 13 Month Billing Summary by Major Service Type provides an overall summary of the expenditures per month.

The following financial reports are derived from the SOA and are due by the 7th business day of each month.

Table 9.5-4 Financial SOA Reporting

| Report | Detail | Level |
|----------------------------|--|--------------|
| Statement of Account (SOA) | <p>Statement of Account is being used until SingleView billing solution is in place and accepted by Commonwealth:</p> <ul style="list-style-type: none"> ■ Statement of Account - Detailed itemization from ESMS inventory that is the source for the Invoice/SOA. <ul style="list-style-type: none"> ● Fields included: Department, Location, Service ID, WTN, BTN, ESMS PON, Product Code, Product Description, BA, Reporting Level, Sub Account, Fund, Cost Center, Internal Order, WBS Element, General Ledger, Major Service Type, Service Sub Type, Type, Unit Price, Qty, %, Current Month Prorate, Date Submitted, Requested Completion Date, Scheduled Date, Actual Completion Date, Current NRC, Current MRC, Total Current Charges, Comments ● Format is MS Excel ● SOA is the basis for all billing reports unless otherwise noted ● SOA reflects MRC and NRC activity only, not usage or surcharges <p>Note: Process for SOA preparation can be found in PPM Section 12 - Financial Management</p> | Commonwealth |

Traffic Reports

Traffic Reports are an important part of the overall management of voice and data services made available to Commonwealth via VEC portal. Traffic and Usage reports will detail content by Agency, then by site. In addition, summary Traffic and Usage reports will be made available for the Enterprise. Online access to Traffic Reports is the targeted goal and will happen in a phased-in delivery method. The contract identifies that the following reports be produced monthly and made available to Commonwealth:

Table 9.5-5 Monthly Traffic Reports

| Report Name | | Description |
|--|---|--|
| Station, Account Trunk Summary Reports | | Detail of station and trunk reports |
| Long Distance Call Detail | | Detail of long distance calls |
| Local Traffic Call Detail | Trunk Detail Report | Lists by Trunk Group, by Date, by Busy Hour report lists incoming calls, busy hour (BH) busies, minutes of use, and total call attempts |
| | Centrex Group Study | Lists by Centrex group, and by Hour traffic by Group Originating calls from customers (OPC), Group Incoming calls to the customer (IPC), and Intragroup calls with the Centrex (NPC) |
| | Customer Call Report by Hunt Group | Lists by Hunt Group and by week Minutes of Use (MOU) Carried, Minutes of Use Offered, Calls in, Calls out, Percent Busy, Average Length of call (Minutes of Use) and Lines Required. |
| | Customer Call Report/ Agency minutes of use | Lists by individual Commonwealth agency by day and by hour Minutes of Use (MOU) Carried, Minutes of Use Offered, Calls in, Calls out, Percent Busy, Average Length of call (Minutes of Use) and Lines Required |

| Report Name | Description |
|--|--|
| Traffic Studies | Performance reports of network traffic |
| On-Line Call Detail Reports | On-Line analysis of call detail reporting |
| On-Line Reports for Toll Free Services | On-Line report detail of toll free services |
| Rolling Traffic Statistics | Analysis of traffic statistics over a multi-month period |
| Detailed Call Reports | Detailed call reporting via VEC |
| Bandwidth Utilization (In, Out & Total Average) | Bandwidth Utilization of all devices associated with COPANET. This report names the individual device, device capability, bandwidth utilization in and out as well as average bandwidth utilization. This information is provided via a data table along with a graph representation |
| Bandwidth Utilization (In, Out & Total Peak) | Bandwidth Utilization of all devices associated with COPANET highlighting the "peak" throughput performance. This information is provided via a data table along with a graph representation |
| Voice Usage Exceptions - # of Calls - Department (acct) | Voice usage exception report highlighting number of calls <ul style="list-style-type: none"> ■ Breakdown of calls should be by location (location = Agency site). Information is then extracted by Agency and provided individually to each Agency |
| Voice Usage Exceptions - # of Minutes - Dept.(acct) | Voice usage exception report highlighting number of minutes |
| Quarterly Voice Lines Without Usage - Commonwealth by Dept | Quarterly report highlighting lines that have zero usage |

Service Reports

The following Service reports have been agreed upon and approved by Commonwealth and Verizon:

Table 9.5-6 Monthly Service Reports

| Report Name | Description |
|--|--|
| Quality Management-Monthly End User Feedback / Executive Summary | Details a number of invites (surveys), total responses, and response rate |
| Quality Management-Monthly End User Feedback / Enterprise Data | Graphical depiction of total invites (surveys) and response rate for a 13-month report period for the Enterprise |
| Quality Management-Monthly End User Feedback / Agency Data | Total invites (surveys) and response rate for the reporting month per Agency |
| Type of Calls to Service Desk | Service Desk Report that breaks down by type and quantity of call received by the VSD |
| Voice Mail Reports | Detailed itemization of voicemail calls by Agency and User Name |
| Dispatch Center Tracking | Maintenance Management Report of Dispatch Center logging, tracking and updating service calls |
| Customer Service Report | Reporting by Enterprise that notes Service Type, Class of Service and number of Incidents |
| Agency Customer Service Report | Reporting by Agency that notes Service Type, Class of Service and number of Incidents |
| Customer Satisfaction Surveys | Survey analysis of Customer Satisfaction |
| Customer Survey Reports | Detailed analysis of Customer Survey Questionnaires |

Monthly PMO Deck

Note: All reports on this deck are due during 3rd week of each month with a committed delivery of 24 hours prior to PMO meeting.

The Monthly PMO Deck will take place every 3rd week of the month. Many of the reports included in the Monthly Reporting Deck will be used to complement this submission. The Monthly PMO Deck will also incorporate other key reports.

The Monthly PMO Deck includes:

Table 9.5-7 Monthly PMO Deck

| Report Name | Description |
|--|---|
| Change Management Enterprise Network Changes | Synopsis of approved and pending Change Management activity |
| 13-Month Running SLA Summary | A 13-Month Running SLA Summary that provides a monthly breakdown of remedies and exclusions along with a quarterly breakdown. This analysis is for each of the service level agreements individually. The report also provides a combined summary of remedies and exclusions for all SLAs |
| 13-Month Performance Trend | A 13-Month SLA Performance Trend Report tracking performance over the thirteen month period A 13-Month Performance Trend Report tracking SLA performance over the thirteen month period for each of the SLAs |
| SLA Summary | The SLA Summary for the preceding month that captures a snapshot of remedies and exclusions, the associated service level and affiliated pooled percentage per service level agreement |
| 13-Month SLA Summary | A 13-Month Running SLA Summary that provides a monthly breakdown of remedies and exclusions along with a quarterly breakdown (this analysis is for each of the SLAs individually). The report also provides a combined summary of remedies and exclusions for all SLAs |
| Earn-Back Summary | Earn-Back Summary that highlights potential remedies per service level agreement and its associated earn back performance tracking sheet |
| Escalation List | List of Verizon and Commonwealth contacts to be used in the event of an escalation |
| Incident Communication Plan (ICP) | Outline of the process flow of an Incident |
| 13-Month Billing Summary/ Major Service Types | 13-Month rolling trend of Financial billing by Major Service Type |
| Financial Review/ Quarterly by Major Service Type | Rolling quarterly trend of Financial billing by Major Service Type |
| IP Trunking Utilization | Summary of IP Trunking Usage |

| Report Name | Description |
|---|--|
| Quality Management/ Monthly End User Feedback | Number of End User invites, response rates and overall satisfaction with VSD's call handling. The report includes a graphical representation of End User feedback for the respective month's performance |
| Quality Management/ Monthly End User Feedback/ Enterprise Data | End User feedback analysis for Enterprise Data. The report provides a breakdown of survey comments by Positive and Areas of Improvement |
| Service Improvement Plan | The plan that includes steps to be taken if there is significant gap in the expected delivery quality of a service and the actual delivery (as requested by Commonwealth) |
| Customer Service Review/ VSD Trended Volumes & Performance | Overview of VSD call summary, incidents and call volumes |
| Service Desk Call Volume Report | Service Desk Report that breaks down by type and quantity of call that received by the VSD |
| Trouble Tickets/ Enterprise | Report of Trouble Tickets by Enterprise <ul style="list-style-type: none"> ■ Breakdown based on ticket type and Agency |
| Telecommunications Services Priority (TSP) Outages | Itemization of TSP Outages |
| MAC Volume Completed Summary w/ Detailed Exceptions by Reason | Moves, Disconnects and Change Orders activity detailed by volume completed <ul style="list-style-type: none"> ■ Breakdown provided by Voice, Data, Security, and Exceptions |
| Customer Service Review/ Monthly Root Cause Analysis (RCA) Summary Report | Itemization of RCA reports |
| Customer Service Review/ Performance Trend Improvement Report | Reporting by Enterprise that notes a Performance Trend Improvement Summary |
| Major Project Status | Listing of any Major Projects |
| Issues/ Summary of Lists | Listing of open issues for future review |
| Prior Month Action Items/ Takeaway Review | Action Items and takeaways from previous meetings |

Process and Procedures Manual
for Commonwealth - Draft

Section 7: Operational Change Management

| | |
|---------------|-----------------|
| □ □ □ □ □ | □ |
| A □ □ □ □ □ | □ □ □ □ □ □ □ □ |
| □ □ □ □ □ □ □ | □ |

7 Operational Change Management

Operational Change Management (OCM) is a structured approach to managing changes to an organization's operations. It involves identifying, evaluating, and implementing changes in a controlled and systematic manner. The goal is to minimize disruption and ensure that changes are implemented smoothly and effectively. A key component of OCM is the change management process, which typically includes the following steps:

1. Identify the need for change
2. Assess the impact of the change
3. Develop a change management plan
4. Communicate the change
5. Implement the change
6. Monitor and evaluate the change

7.1 Overview

Operational Change Management (OCM) is a structured approach to managing changes to an organization's operations. It involves identifying, evaluating, and implementing changes in a controlled and systematic manner. The goal is to minimize disruption and ensure that changes are implemented smoothly and effectively. A key component of OCM is the change management process, which typically includes the following steps:

- Identify the need for change
 - Identify the current state of the organization and the need for change
 - Identify the potential benefits and risks of the change
- Assess the impact of the change
 - Assess the impact of the change on the organization's operations, resources, and stakeholders
- Develop a change management plan
 - Develop a plan for implementing the change, including a timeline, budget, and communication strategy
- Communicate the change
 - Communicate the change to all stakeholders, including employees, customers, and partners
- Implement the change
 - Implement the change according to the change management plan
- Monitor and evaluate the change
 - Monitor the progress of the change and evaluate its impact on the organization's operations

Note: Operational Change Management (OCM) is a structured approach to managing changes to an organization's operations. It involves identifying, evaluating, and implementing changes in a controlled and systematic manner. The goal is to minimize disruption and ensure that changes are implemented smoothly and effectively. A key component of OCM is the change management process, which typically includes the following steps:

Note: Operational Change Management (OCM) is a structured approach to managing changes to an organization's operations. It involves identifying, evaluating, and implementing changes in a controlled and systematic manner. The goal is to minimize disruption and ensure that changes are implemented smoothly and effectively. A key component of OCM is the change management process, which typically includes the following steps:

7.2 Definitions

Change - A change is a modification or alteration of an organization's operations, processes, or systems. Changes can be initiated by internal or external factors and can range from minor adjustments to major overhauls. A key component of OCM is the change management process, which typically includes the following steps:

Change Management - Change management is the process of identifying, evaluating, and implementing changes in a controlled and systematic manner. It involves developing a change management plan, communicating the change, and monitoring and evaluating the change. A key component of OCM is the change management process, which typically includes the following steps:

Change Priority and Classification - Change priority and classification are used to determine the importance and urgency of a change. Changes are typically classified based on their impact on the organization's operations, resources, and stakeholders. A key component of OCM is the change management process, which typically includes the following steps:

Forward Schedule of Changes (FSC) - A Forward Schedule of Changes (FSC) is a document that provides a detailed overview of the changes that are planned for a specific period of time. It typically includes information about the change, the change manager, the start and end dates, and the impact of the change. A key component of OCM is the change management process, which typically includes the following steps:

Post Implementation Review (PIR) - A Post Implementation Review (PIR) is a review that is conducted after a change has been implemented. It is used to evaluate the success of the change and to identify any lessons learned. A key component of OCM is the change management process, which typically includes the following steps:

Enterprise Change Window - An Enterprise Change Window is a period of time during which changes are allowed to be implemented. It is typically defined by the organization's change management process and is used to ensure that changes are implemented in a controlled and systematic manner. A key component of OCM is the change management process, which typically includes the following steps:

- Identify the need for change
 - Identify the current state of the organization and the need for change
 - Identify the potential benefits and risks of the change
- Assess the impact of the change
 - Assess the impact of the change on the organization's operations, resources, and stakeholders
- Develop a change management plan
 - Develop a plan for implementing the change, including a timeline, budget, and communication strategy
- Communicate the change
 - Communicate the change to all stakeholders, including employees, customers, and partners
- Implement the change
 - Implement the change according to the change management plan
- Monitor and evaluate the change
 - Monitor the progress of the change and evaluate its impact on the organization's operations

Request For Change (RFC) - A Request For Change (RFC) is a document that is used to request a change to an organization's operations. It typically includes information about the change, the change manager, the start and end dates, and the impact of the change. A key component of OCM is the change management process, which typically includes the following steps:

Enterprise Change Manager – The Enterprise Change Manager is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

- The Enterprise Change Manager is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

Verizon Change Analyst – The Verizon Change Analyst is responsible for the analysis and documentation of change requests, including the identification of the impact of the change and the coordination of the change process with the relevant stakeholders.

Verizon Change Manager – The Verizon Change Manager is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

7.3 Roles and Responsibilities

Change Management Authority – A Change Management Authority is a group of individuals who are responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

Change Advisory Board (CAB) – A Change Advisory Board is a group of individuals who are responsible for the review and approval of change requests, including the identification of the impact of the change and the coordination of the change process with the relevant stakeholders.

- The Change Advisory Board is responsible for the review and approval of change requests, including the identification of the impact of the change and the coordination of the change process with the relevant stakeholders.
- The Change Advisory Board is responsible for the review and approval of change requests, including the identification of the impact of the change and the coordination of the change process with the relevant stakeholders.
- The Change Advisory Board is responsible for the review and approval of change requests, including the identification of the impact of the change and the coordination of the change process with the relevant stakeholders.

Change Implementer – The Change Implementer is responsible for the implementation of the change, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

Change Requester – The Change Requester is responsible for the identification and documentation of change requests, including the identification of the impact of the change and the coordination of the change process with the relevant stakeholders.

Network Operations Section (NOS) – The Network Operations Section is responsible for the overall management of the network, including the coordination of all network activities and the reporting of network status to the Change Management Authority.

Security Operations Section (SOS) – The Security Operations Section is responsible for the overall management of the security, including the coordination of all security activities and the reporting of security status to the Change Management Authority.

Enterprise Information Security Office (EISO) – The Enterprise Information Security Office is responsible for the overall management of the information security, including the coordination of all information security activities and the reporting of information security status to the Change Management Authority.

Verizon Change Management Team – The Verizon Change Management Team is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

- The Verizon Change Management Team is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.
- The Verizon Change Management Team is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.
- The Verizon Change Management Team is responsible for the overall management of the change process, including the coordination of all change activities and the reporting of change status to the Change Management Authority.

7.4 Enterprise Change Management

Verizon CAB Calls:

Verizon CAB calls are a critical component of the change management process. They provide a structured forum for discussing proposed changes, understanding their impact, and addressing any concerns or questions. These calls are typically held with the relevant stakeholders and are facilitated by a designated change manager. The purpose of these calls is to ensure that all parties involved are aligned and that any potential risks or issues are identified and resolved before the change is implemented.

For more information on the Verizon CAB process, please refer to the copa-changereview@verizon.com email address. This email is used to submit change requests and to coordinate the CAB call process. It is important to ensure that all change requests are properly documented and submitted through this channel to ensure a consistent and efficient review process.

- The Verizon CAB process involves several key steps, including the submission of change requests, the scheduling of CAB calls, and the implementation of approved changes. Each step is designed to ensure that changes are thoroughly reviewed and approved before being implemented.

| <ul style="list-style-type: none"> ▪ The change request form is used to capture all necessary details about the proposed change, including the business justification, the impact of the change, and the proposed implementation plan. ○ The change manager is responsible for reviewing the change request and determining whether it should be approved for a CAB call. |
| <ul style="list-style-type: none"> ▪ A CAB call is a meeting where the change manager, the change sponsor, and other stakeholders discuss the proposed change and its impact. |
| <ul style="list-style-type: none"> ▪ The change manager is responsible for scheduling CAB calls and ensuring that all relevant stakeholders are invited to attend. |
| <ul style="list-style-type: none"> ▪ The change manager is responsible for documenting the outcomes of CAB calls, including any decisions made and any actions that need to be taken. |
| <ul style="list-style-type: none"> ▪ The change manager is responsible for ensuring that all approved changes are implemented in a timely and effective manner. |

Verizon Post Implementation Review [PIR] Process:

The Verizon Post Implementation Review (PIR) process is a critical step in the change management process. It involves a thorough review of the change after it has been implemented to determine whether it was successful and to identify any lessons learned. This process helps to ensure that future changes are implemented more effectively and that any potential risks are minimized.

The PIR process typically involves a meeting with the change manager, the change sponsor, and other stakeholders to discuss the outcomes of the change and to identify any areas for improvement. This meeting is facilitated by the change manager and is designed to ensure that all parties involved have an opportunity to share their perspectives and to provide feedback on the change process.

A PIR report is typically generated as a result of the PIR process. This report provides a detailed summary of the change, the outcomes of the PIR meeting, and any lessons learned. The PIR report is used to inform future change management efforts and to ensure that the organization is continuously improving its change management process.

For more information on the Verizon PIR process, please refer to the [PIR process](#) document.

Verizon CSI Monthly Reviews:

Verizon CSI (Customer Satisfaction Index) monthly reviews are a key performance indicator for the organization. These reviews provide a regular assessment of customer satisfaction and help to identify areas for improvement. The change management process is closely linked to these reviews, as changes are often implemented to address customer concerns and to improve the overall customer experience.

Verizon Change Tower Manager:

A change tower manager is responsible for overseeing the change management process and for ensuring that all changes are implemented in a timely and effective manner. This role involves a wide range of responsibilities, including the coordination of CAB calls, the management of change requests, and the implementation of approved changes.

7.5 COPANET and OA Shared Devices Managed Data Change Management

Change management for COPANET and OA shared devices managed data involves a complex set of processes and procedures. This includes the identification of changes, the assessment of their impact, and the implementation of approved changes. The change management process for these systems is designed to ensure that all changes are thoroughly reviewed and approved before being implemented, and that any potential risks are minimized.

7.6 Enterprise Internet Security Change Management

Verizon Managed Proxy Service

A managed proxy service is a service that allows you to route traffic through a proxy server. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A managed proxy service is a service that allows you to route traffic through a proxy server. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet.

Managed proxy services are used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A managed proxy service is a service that allows you to route traffic through a proxy server. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet.

Verizon Co-Managed Firewall Service

A co-managed firewall service is a service that allows you to manage your firewall configuration and policies. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A co-managed firewall service is a service that allows you to manage your firewall configuration and policies.

- A co-managed firewall service is a service that allows you to manage your firewall configuration and policies.
- A co-managed firewall service is a service that allows you to manage your firewall configuration and policies.
- A co-managed firewall service is a service that allows you to manage your firewall configuration and policies.

A co-managed firewall service is a service that allows you to manage your firewall configuration and policies. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A co-managed firewall service is a service that allows you to manage your firewall configuration and policies.

A co-managed firewall service is a service that allows you to manage your firewall configuration and policies. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A co-managed firewall service is a service that allows you to manage your firewall configuration and policies.

Verizon Managed IDS/IPS (Intrusion Detection and Prevention) Services

A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access.

A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access.

Verizon Managed VPN Service

A managed VPN service is a service that allows you to securely connect to your network from anywhere. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A managed VPN service is a service that allows you to securely connect to your network from anywhere.

- A managed VPN service is a service that allows you to securely connect to your network from anywhere.
- A managed VPN service is a service that allows you to securely connect to your network from anywhere.
- A managed VPN service is a service that allows you to securely connect to your network from anywhere.

Note: A managed VPN service is a service that allows you to securely connect to your network from anywhere. This service is used to protect your network and data from unauthorized access and to provide a secure connection to the internet. A managed VPN service is a service that allows you to securely connect to your network from anywhere.

7.6.1 IDS/IPS Change Process

- A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access.
- A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access.
- A managed IDS/IPS service is a service that allows you to monitor your network for suspicious activity and to prevent unauthorized access.

| Standard Change Model | | |
|------------------------------|---|--|
| Step | Description | Owner |
| 1. | Documents the proposed change to include: <ul style="list-style-type: none"> a. <input type="checkbox"/> Brief summary b. <input type="checkbox"/> Environment c. <input type="checkbox"/> Risk, Impact and Urgency d. <input type="checkbox"/> Change detail, excluding the repeatable steps that are documented in the Standard Template e. <input type="checkbox"/> Communications, if applicable f. <input type="checkbox"/> Start Date/Time g. <input type="checkbox"/> End Date/Time | Requester |
| 2. | Review and approve or reject the Standard change [See Change Check List] <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is rejected, go to Step 9 | Technical Reviewer |
| 3. | Assign the change to the appropriate group and schedule the change | Functional Change Manager / ¹ Technical Reviewer |
| 4. | The assigned group is notified and a member of the group assigns the change to an individual | Technical Reviewer / Implementer |
| 5. | At the start of the scheduled window, record the Start Date/Time and implement the approved change <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is not successful, rollback and go to Step 7 | Implementer |
| 6. | Test the change <ul style="list-style-type: none"> a. <input type="checkbox"/> If the testing is not successful, rollback and go to Step 7 | Implementer / Tester |
| 7. | Record the following: <ul style="list-style-type: none"> a. <input type="checkbox"/> Actual Start Date/Time b. <input type="checkbox"/> Actual End Date/Time c. <input type="checkbox"/> Results | Implementer |
| 8. | Review the completed change for compliance and close the change | Functional Change Manager |
| 9. | Process Ends <ul style="list-style-type: none"> a. <input type="checkbox"/> The process ends if the change is cancelled b. <input type="checkbox"/> The process ends if the change if the change is rejected, but may start over by updating and resubmitting the change | |
| Normal Change Process | | |

¹ The Functional Change Manager assigns and schedules the change. This action is being transitioned to the Technical Reviewers. Transition of this action is being rolled out in a phased approach.

| Step | Description | Owner |
|------|--|--|
| 1. | Documents the proposed change to include: <ul style="list-style-type: none"> a. <input type="checkbox"/> Brief summary b. <input type="checkbox"/> Environment c. <input type="checkbox"/> Risk, Impact and Urgency d. <input type="checkbox"/> Install, Test, Backout and Communications plans e. <input type="checkbox"/> Affected Agencies f. <input type="checkbox"/> Start Date/Timeⁱ g. <input type="checkbox"/> End Date/Time | Requester |
| 2. | Review and approve or reject the Normal change [See Change Check List] <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is rejected, go to Step 13 | Technical Reviewer |
| 3. | Review and approve the Normal change [See Change Check List] <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is rejected by the CAB, go to Step 13 b. <input type="checkbox"/> If the change is rejected by an Agency, go to the next step | Functional CAB Members / Agency Liaisons |
| 4. | Review the change at the Functional CAB meeting to address Agency questions or issues [See Change Check List] <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is rejected, go to Step 13 | Functional Change Manager |
| 5. | <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is non-Enterprise, assign, approve and schedule the change and proceed to Step 8 b. <input type="checkbox"/> If the change is Enterprise, assign and approve at the Functional CAB level and proceed to the next step | Functional Change Manager |
| 6. | Review the change with the Enterprise CAB for approval <ul style="list-style-type: none"> a. <input type="checkbox"/> If the change is rejected, go to Step 13 | Enterprise Change Manager |
| 7. | Approve and Schedule the Enterprise change | Enterprise Change Manager |
| 8. | The assigned group is notified and a member of the group assigns the change to an individual | Implementer |
| 9. | At the start of the scheduled window, record the Start Date/Time and implement the approved change <ul style="list-style-type: none"> b. <input type="checkbox"/> If the change is not successful, rollback and go to Step 11 | Implementer |
| 10. | Test the change <ul style="list-style-type: none"> a. <input type="checkbox"/> If the testing is not successful, rollback and go to Step 11 | Implementer / Tester |
| 11. | Record the following: <ul style="list-style-type: none"> a. <input type="checkbox"/> Actual Start Date/Time b. <input type="checkbox"/> Actual End Date/Time c. <input type="checkbox"/> Results | Implementer |

| | | |
|-----|---|---|
| 12. | Review the completed change for compliance and close the change a. <input type="checkbox"/> If the change was unsuccessful, coordinate receipt of a PIR | Functional Change Manager / Enterprise Change Manager |
| 13. | Process Ends a. <input type="checkbox"/> The process ends if the change is cancelled b. <input type="checkbox"/> The process ends if the change if the change is rejected, but may start over by updating and resubmitting the change | |

| Emergency Change Model [A] | | |
|----------------------------|--|---------------------------|
| Step | Description | Owner |
| 1. | Documents and submit the proposed change to include the following: a. <input type="checkbox"/> Brief summary b. <input type="checkbox"/> Environment c. <input type="checkbox"/> Risk, Impact and Urgency d. <input type="checkbox"/> Install, Test, Backout and Communications plans e. <input type="checkbox"/> Start Date/Time ² f. <input type="checkbox"/> End Date/Time | Requester |
| 2. | Review and approve the Emergency change [See Change Check List] a. <input type="checkbox"/> If the change is rejected, go to Step 9 | Technical Reviewer |
| 3. | Review and approve the Emergency change [See Change Check List] h. <input type="checkbox"/> If the change is rejected, go to Step 9 | ECAB Member |
| 4. | Assign, approve and schedule the change [See Change Check List] | Functional Change Manager |
| 5. | The assigned group is notified and a member of the group assigns the change to an individual | Implementer |
| | At the start of the scheduled window, record the Start Date/Time and implement the approved change c. <input type="checkbox"/> If the change is not successful, rollback and go to Step 11 | Implementer |
| 6. | Test the change b. <input type="checkbox"/> If the testing is not successful, rollback and go to Step 11 | Implementer / Tester |

AudioCodes SmartTAP Call Recording Solution for Microsoft Skype for Business

AudioCodes **SmartTAP for Microsoft Unified Communications (UC)** is a certified and secure call recording solution that enables the recording of key business interactions within a Skype for Business environment. Built on proven technology and leveraging years of experience in developing and integrating call recording solutions, SmartTAP is compatible with Skype for Business, any VoIP, TDM, and hybrid telephony environments. The solution can be easily configured using an intuitive web-based interface, which simplifies system deployments and reduces support requirements.

SmartTAP is designed to be a Skype for Business compliance and liability recorder, Outside Of the Contact Center Environment. Where most recorders in the market focus on Agent Scoring, Quality Assurance and Workforce Optimization, SmartTAP is designed to be deployed throughout an Enterprise to capture calls, either On-Demand or in some cases full time where compliance and liability conversations occur more frequently.

AudioCodes is a leading Microsoft partner with a complete offering of voice-enabling solutions for the Microsoft unified communications (UC) market. In addition to IP phones, AudioCodes' portfolio for Skype for Business includes media gateways, survivable branch appliances, enterprise session border controllers and call recording.

Unique Capabilities

Scalable and Easy to Deploy

SmartTAP is a scalable solution that can operate on a single server or even a network appliance. Built using the latest in architectural scalability, SmartTAP can be deployed with as little as a single department to Enterprise-wide multi-thousand channel system, in multiple tenanted environments without major upgrades. Our technology allows the Healthcare facility to deploy SmartTAP in the smallest of applications and grow throughout the Hospital as needs progress and budgets become available. AudioCodes will work with your IT department to coordinate implementation and integration to the specific systems that will need to be recorded. Our goal is to make the implementation as painless as possible, with limited interruption in normal workflow.

Skype for Business Mobility Advantage

Skype for Business Mobility is becoming more prevalent in today's enterprise operations. AudioCodes understands this, especially in the recording segment where mobility has created challenges for most recording software vendors. SmartTAP has solved mobility recording, and will record Skype for Business Mobility users no matter what type of smart device they are communicating on. Through AudioCodes unique integration, SmartTAP can record any Skype for Business user no matter what environment they are operating a call from.

Centralization and Security

Centralization of a SmartTAP system offers Enterprises a reduced cost factor and better operational and data security. While implementation of SmartTAP into a data center offers a controlled operational environment, additional capabilities of system such as the operation of virtual instances of SmartTAP, allow for remote deployments and capture points, while preserving the integrity of the system. Further, as the SmartTAP system expands, IT departments can deploy resiliency into the configuration thus offering fault toleration, seamless operation of the system. All SmartTAP recordings are stored encrypted and meet many compliance regulations and policies. Through data resiliency and encryption, SmartTAP can protect the Enterprise conversations and meet compliance needs of any user on the system.

PCI Compliance

The ability to control recording is paramount to a customer-facing employee, especially when keeping with PCI Compliance. The ability to Pause and Resume Recording while the customer is providing person credit information is critical to meeting PCI Standards. The SmartTAP Recording Toolbar gives control of the Pause/Resume capabilities to the customer-facing employee while on a Skype for Business call. By toggling the Pause/Resume button on the SmartTAP Lync Toolbar, the employee can mute out all personal credit information from being recorded, and then resume the recording once the information is given. The recording can then be tagged as a PCI recording through the Call Tagging Feature in the SmartTAP Recording Toolbar, making it easy to retrieve and be monitored for Compliance Standards.

Threat Protection

Protection against terrorism, domestic or international, is paramount. Enterprises are looking to make their environments as secure as possible for their employees, contractors and visitors. AudioCodes recognizes this challenge and has built a function into its SmartTAP system that helps capture any voice threats or conversations that are made. Built into SmartTAP is a "Save on Demand" command that allows any user to save a recording, **EVEN AFTER THE THREAT HAS BEEN MADE!** Typically, when a threat has been phoned-in, the caller hangs up quickly or the other party cannot react fast enough to record it. SmartTAP has the capability of recording all calls on any communications device and by simply selecting the Save On-Demand Feature button found in the SmartTAP Skype for Business Toolbar; the call is automatically saved thus preserving the threat. If the save button is not selected, the call is automatically deleted from the system. This feature alone will allow the enterprise to have an audio record of the threat or threats, conversations about threats, or any other verbal information that could aid in an investigation and save lives. To further mark the call as malicious, the employee only has to select to Call Tagging button in the SmartTAP Skype for Business Toolbar, making it easier to search for during playback.

Powerful Set of Features

- Certified solution for Microsoft Skype for Business
- Flexible Full Time, Record or Save on Demand recording options
- Customizable Call Recording Announcement
- Media Proxy keeps all calls within the internal network
- Pause / Resume recording for PCI compliance
- Skype for Business CWE toolbar for access to in call features like Call Tagging and Record on Demand
- Record ANY call type including Mobile, Remote, PSTN and Conference
- Support for dynamic codec switching including SILK (Skype) and Microsoft RTA
- Tag calls with user definable information and subsequently retrieve quickly and easily.
- Remote branch survivability with buffering technology
- LDAP Integration & Single Sign On
- Audit Trail monitoring
- Live call monitoring

Target Markets

The largest market for SmartTAP is the Microsoft Skype for Business Market. The Skype for Business Market encompasses many vertical markets, including Transportation, Financial, Healthcare, Utilities, Education, Government and others. Here is a partial list of solutions that SmartTAP has been deployed in:

- **Human Resources** – Interviews, liability issues.
- **Financial** – Collection Calls (non-contact center), Sales Support, Trader Support, Trader mobility, customer/finance dept., meetings.
- **Education** – Student recruiting, Campus Security (S4B blue light phones, mobility, dispatch, etc.), Online Class discussions.
- **Healthcare** – Telemedicine (healthcare kiosks, remote facilities), Life-Flight dispatch, Organ Transplant services, Pharmacy, Physician's orders, Patient Information.
- **Utilities** – Emergency Dispatch, Anti-Terrorism Monitoring, Repair dept.
- **Transportation** – Auto Dealerships, Shipping Companies, Auto Dispatch, Taxi and Limousine Service.

Specifications

Key Features

- 100% Web based user interface
- Full Time, Record on Demand or Save on Demand
- Customizable Call Recording Announcement
- Media Proxy keeps all calls within the internal network
- Pause / Resume Recording (PCI Compliance)
- Advanced Call Retention per User / System
- Auto / Manual Call Tagging
- Skype for Business Conversation Window Extension toolbar (In call Tagging, R.O.D & more...)
- Easily Download or Email recordings
- Quality Monitoring / Agent Evaluation
- Microsoft LDAP Integration
- Single Sign On
- Live call monitoring from PC, Smartphone or tablet
- 3rd Party Restful Web Services API

Recording Modes

- Full Time Recording
- Record on Demand
- Save on Demand
- Pause / Resume Recording
- Codec support for G.711, G.723.1, G.729, G.722, G.722.1, MSGSM, Microsoft RTA, SILK, and more

Playback

- Replay over the LAN/WAN/Internet via browser
- Last call Replay, download or email
- Search filter with customizable views

Call Search / Filter Criteria

- Calls can be searched by any combination of criteria
- Date/Time
- Caller ID / Dialed Number, Called or Answering Party
- User Name, group
- Extension / Device ID
- Call Tags (Search user definable data including Notes)

Security

- Sarbanes-Oxley Compliant
- PCI – DSS Compliant
- HIPPA Compliance
- File Encryption
- Digital Signature
- Audit Trail

Storage

- Local or Remote storage NAS / SAN
- File Compression Optional

Scalability

- Up to 300 simultaneous recordings per server
- Extend recordings by adding additional servers

Telephony Integrations

- Skype for Business, Avaya, Cisco, Ericsson, Siemens, NEC, Allworx, Mitel, Nortel, Panasonic, SIP and more...

1 Project Scope

The purpose of this document is to provide Commonwealth of Pennsylvania with a comprehensive plan that outlines the details, stakeholders, scope, and timeframes for this project.

1.1 Project Scope Description

The focus of this statement of work is for Unified Communications, VoIP telephony and Traditional voice services.

- Lot 1 – Unified Communications Utilizing Microsoft Skype for Business and VoIP Services
- Lot 2 – Traditional Voice Services

| Lot 1 | | Lot 2 |
|--|--|---|
| Unified Communications | VoIP Service | Traditional Voice Services |
| <ul style="list-style-type: none"> • Fully Managed Service • Unified Communications (MS Skype for Business) • Integration with hosted VoIP service • Unified Messaging | <ul style="list-style-type: none"> • Fully Managed Service • Hosted VoIP services • PSTN connectivity for dial tone and conferencing • SIP Trunking • User endpoint hardware (phones, soft-phone devices, conference) | <ul style="list-style-type: none"> • Trunk lines – for existing PBX and Key systems • POTS Lines for emergency phones, equipment monitoring support, payphones, etc. • Centrex where required • Auto Attendants |

Verizon’s solution for Lot 1:

Verizon has developed an integrated and fully redundant Unified Communications solution with Microsoft’s Cloud Connector Edition (CCE), a cloud based Office 365 (O365) offering. The solution is designed to meet the Lot 1 core Unified Communications and VoIP requirements. Our solution leverages Microsoft Skype for Business offering connecting the COPANET community of users anytime and virtually anywhere by delivering the collaboration capabilities as a cloud-based service. It gives users access to presence, instant messaging, audio and video calling, rich online meetings, and extensive web conferencing capabilities and other features.

Our solution incorporates a fully redundant architecture with High Availability across our two geographically diverse data centers across each solution layer. While other designs add complexity, additional capital investment and higher ongoing operational expenses, our Cloud based architecture provides economies of scale and lower operating costs as compared to alternate architectures for PSTN connectivity. Additionally, the alternate designs present additional costs and risks as services are migrated to the Cloud.

Verizon will interconnect with Microsoft O365 ExpressRoute via the Secure Cloud Exchange aggregation point, a common secure interface for providers to interconnect with Commonwealth cloud providers as depicted in the following design. We will implement redundant connections to the Enterprise Security enclave from Verizon MPLS PIP network and logically segregate services at the MPLS core via MPLS VRF (Virtual Routing Forwarding) instances for Voice and Data.

Verizon will leverage native PSTN services from Verizon Data Centers in Philadelphia and Pittsburgh where the Commonwealth’s Enterprise Internet Services (EIS) infrastructure is supported today. Each data center will have redundant high availability architecture. This includes dual Session Initiation Protocol (SIP) trunks with redundant SONUS SBC, Cisco Routers, ASA firewalls and CCE enterprise servers at each data center.

To meet the Commonwealth’s requirements for a comprehensive solution, we provide a seamless integration with RedSky E911 Anywhere offering for all 911 capabilities. We also are leveraging AudioCodes for adhoc voice recording features, centralized at our data center locations.

Verizon will provide support for GETS (Government Emergency Telephone Service) service as part of the contingency and COOP (Continuity of Operations) plan for essential personnel priority access and prioritized processing in the local and long distance segments.

Verizon understands the Commonwealth’s requirements for a robust survivability option that includes a local dial plan for inbound/outbound with local control and extensibility. For sites with less than 25 users, we have designed a cost-effective, fully managed solution that leverages our Wireless 4G/LTE option to provide an alternate access to the Office365 platform in an event of primary access failure. For larger agency sites, Verizon recommends the provisioning of a secondary access circuit with a managed router.

Verizon’s Solution for Lot 2:

The Verizon recommended solution for traditional voice services defined in Lot 2 is to continue to support the Centrex, POTS and voice related services that are currently in use by the Commonwealth agencies. Verizon will deliver dial tone services statewide by leveraging the extensive Verizon footprint in Pennsylvania, complimented by the coordination and management services of our partner TelPlus who will facilitate the implementation of services in out of franchise territories.

This approach offers the Commonwealth a cost effective option to realize savings right away with virtually no transition or disruption to business operations. By selecting Verizon to continue to provide traditional voice services for the agencies, the Commonwealth can focus attention and resources on the migration to the new Unified Communications services proposed by Verizon.

1.2 Technical Description/Design

Refer to “Management Summary” – in Technical Response

1.3 Key Contractual Milestones

Appendix W Milestones

| Milestone Number | Transition Milestone | Milestone Due Date | Acceptance Criteria |
|------------------|-----------------------|--------------------------------|--|
| M-1 | Final Transition Plan | 30 calendar days from Contract | <ul style="list-style-type: none"> Final transition plan and detailed project schedule established and accepted |

| Milestone Number | Transition Milestone | Milestone Due Date | Acceptance Criteria |
|------------------|--|---|---|
| | | Effective Date | |
| M-2 | Change Management Plan | 30 calendar days from Contract Effective Date | <ul style="list-style-type: none"> Final Change Management Plan due and accepted on or before the Milestone Due date |

1.4 Contractual Billing Requirements

Billing will begin once the product and related services described in Section 1.1 have been tested and accepted by the Commonwealth.

1.5 Constraints, Assumptions, Exclusions, and Suggested Techniques for Implementation Time Improvement

Following are the constraints, assumptions, exclusions, and suggested time improvements.

1.5.1 Assumptions

Verizon is committed to meeting Commonwealth's expected project delivery date. During the Project Schedule development, Commonwealth may be assigned certain tasks per the needs of the project. If those tasks are on the critical path of the project, any slippage in those tasks will impact the expected project delivery date. Examples of such Commonwealth assigned tasks may include, but are not limited to:

- Procurement of required Microsoft licencing SKUs
- Complete and accurate order
- Site readiness
- Valid site address and local contact information
- Signed Letters of Agency (LOAs) as needed to authorize Verizon's involvement with Authorized User suppliers/vendors
- Accuracy of current call flows and special features

- Approval of Project Plan, Project Schedule, Test and Acceptance Plans, or other required documentation

1.5.2 Exclusions

Items not covered within the scope of this Project Plan may include:

- Microsoft licenses

1.5.3 Suggested Techniques for Implementation Time Improvement

- Identify Commonwealth decision makers and internal resources required to participate in all project planning and meetings
- Identify critical Day One requirements
- Minimize environmental impacts (e.g, internal network changes and/or upgrades) not directly related to project
- Provide input/approval in a timely manner based upon agreed project schedule timelines
- Utilize standard templates for configuration script deployment

2 Resource Management

This section of the Project Plan details the description, roles, and key responsibilities of Commonwealths and Verizon project teams.

2.1 Role Descriptions

The successful delivery of this project will require the participation of teams consisting of both Commonwealth and Verizon personnel. The following descriptions explain how all members will work together on the project.

2.1.1 Implementation Project Manager

The Implementation Project Manager (IPM) will manage Services implementation including, but not limited to:

- Review and Update Business Requirements Document (BRD)
- Review Alternate Route and Disaster Recovery Plan
- Provide Scope Summary document for Commonwealth approval

2.1.2 Transition Manager

The Transition Manager (TM) has overall accountability for the successful execution of the project. The TM is responsible for:

- Overall responsibility for project success based upon agreed deliverables and timelines
- Manage personnel and project resources for a successful delivery of project objectives
- Acting as ultimate point of escalation for the project team and management
- Developing and providing senior management status reports

- Securing and matrix managing all resources necessary for project execution
- Developing joint communication requirements between Verizon and Commonwealth
- Developing the Project Plan jointly with the project team and Commonwealth, and associated partners/vendors
- Leading development of processes and procedures required for network implementation
- Overseeing the completion of all steps in the defined process
- Chairing the Change Management Team
- Establishing reporting procedures with Commonwealth and Verizon
- Coordinating team efforts throughout implementation, ensuring on-time delivery of the project
- Coordinate Verizon network activities
- Publishing open action items and status reports
- Hosting conference calls
- Ensuring overall project delivery is compliant with the contract

2.1.3 Verizon Program Management Office

The Verizon Program Management Office (PMO) manages the day-to-day operations and administration of a customer program. Commonwealth

The Program Management Office is the primary interface between Verizon and Commonwealth regarding service delivery and maintenance. Members of the Program Management Office attend the Governance meetings as required and is responsible for:

- Managing service delivery consistent with customer business objectives
- Identifying service level problems, performance credits due (if any), and providing the information to the designated Commonwealth recipient
- Engaging Commonwealth in identification, analysis, and resolution of issues
- Understanding pending new or modified customer standards that will/may affect the services, and communicating the same to Verizon support personnel
- Representing Verizon in the first stage of contract disputes and dispute resolution
- Logging issues raised in management meetings per Commonwealth issue documentation requirements
- Overseeing escalations resulting from implementation or project activities, as required

2.1.5 Verizon Solutions Architect

Verizon will provide the Pre Sales and Post Sale resource to provide oversight and structure to the technical aspects of the solution. Interaction and over all technical design of the total solution product set will be architected at a high level by the Solution Architect. Ratification of both the high and low-level design will be provided by the collective implementation team, and align with the business requirements agreed to in the engagement.

2.1.6 Verizon Client Executive

The Verizon Client Executive is responsible for directing Account Team resources to provide the optimum level of service to Commonwealth. Account Manager responsibilities include:

- Maintaining overall relationship between Commonwealth and Verizon
- Facilitating communication between Commonwealth and Verizon
- Participating in the evaluation of network topology, diversity, and connectivity issues
- Providing Commonwealth with pricing information
- Maintaining overall responsibility for sales, support, and operations
- Negotiating and disseminating contractual information

2.1.7 The Commonwealth

To ensure the successful execution of this Project Plan, the following Commonwealth responsibilities must be met:

- Define project requirements, including complete project size and time line
- Provide complete and accurate order information
- Ensure that all local contacts/alternate contacts are aware of the project and are aware of pending Verizon delivery date
- Ensure that demarc locations are specifically located and tagged
- Ensure that the local contacts/alternate contacts are aware of demarc locations and do not accept local loops demarcated at any other location
- Ensure that any changes to local contacts/alternate contacts are communicated to Verizon
- Ensure that sufficient internal wiring and conduit is available at each site
- Provide access to site facilities for Verizon and vendors
- Schedule Customer Premise Equipment (CPE) vendors, as required, for migration
- Provide technical/configuration expertise required for commissioning of equipment
- Advise Verizon of acceptance of services installed at each site

2.2 Contact Lists

Table 1 – Verizon Contacts

| Name | Title | Phone | E-Mail |
|------|--------------------------------|-------|--------|
| | Program Management Office | | |
| | Implementation Project Manager | | |
| | Transition Manager | | |
| | Client Executive | | |

Table 2 – Commonwealth Contacts

| Name | Title | Phone | E-Mail |
|------|--------------------------------------|-------|--------|
| TBD | Transition Manager | TBD | TBD |
| TBD | Administrative Lead | TBD | TBD |
| TBD | Technology Lead/Developer Supervisor | TBD | TBD |
| TBD | Network Engineer | TBD | TBD |
| TBD | Project Manager | TBD | TBD |
| TBD | Installation and Configuration | TBD | TBD |

3 Schedule/Time Management

The Project Schedule is the roadmap for how the project will be executed. Schedules are an important part of any project, as they provide the project team, Commonwealth, and stakeholders a picture of the project's status at any given point in time.

3.1 Schedule Management Plan

The Schedule Management Plan defines the approach the project team will use in creating the Project Schedule. This plan also includes how the team will monitor the Project Schedule and manage changes after the baseline schedule has been approved. This activity includes identifying, analyzing, documenting, prioritizing, approving or rejecting, and publishing all schedule-related changes.

3.1.1 Schedule Management Approach

Roles and responsibilities for schedule development are as follows:

- The **Transition Manager** will be responsible for facilitating work package definition, sequencing, and estimating duration and resources with the project team. The Transition Manager will also create the Project Schedule and validate the schedule with the project team, stakeholders. The Transition Manager will obtain schedule approval from Commonwealth.
- The **Project Team** is responsible for participating in work package definition, sequencing, and duration, as well as resource estimating. The project team will also review and validate the proposed schedule and perform assigned activities once the Project Schedule is approved.
- **Commonwealths** will participate in reviews of the proposed schedule and approve the final Project Schedule before it is baselined.
- The **Project Stakeholders** will participate in reviews of the proposed schedule and assist in its validation.

3.1.2 Schedule Control

The Project Schedule will be reviewed and updated as necessary on a weekly basis with actual start, actual finish, and completion percentages provided by task owners.

The Transition Manager is responsible for holding weekly schedule updates/reviews, determining impacts of schedule variances, submitting schedule change requests, and reporting schedule status in accordance with the project's Communication Plan.

The Project Team is responsible for participating in weekly schedule updates/reviews, communicating any changes to actual start/finish dates to the Transition Manager, and participating in schedule variance resolution activities as needed.

Commonwealth will maintain awareness of the Project Schedule status and review/approve any schedule change requests submitted by the Transition Manager.

3.1.3 Schedule Changes

If any member of the project team determines (or is made aware) that a change to the schedule is necessary, the Transition Manager (TM) and team will meet to review and evaluate the change. The TM and project team must determine which tasks will be impacted, variance as a result of the potential change, and any alternatives or variance resolution activities they may employ to see how they would affect the project scope, schedule, and resources. If, after this evaluation is complete, the TM determines that one or more of the critical dates must be changed, then a request for schedule change must be submitted. Written consent from Authorized User is required for all changes to the project critical dates.

Once the change request has been reviewed and approved, the TM is responsible for adjusting the schedule and communicating all changes and impacts to the project team, Commonwealth and stakeholders.

3.1.4 Scope Changes Impacting Schedule

Occasionally, approved changes to the project's scope may result in the need for a re-baselined Project Schedule. These scope changes may include new deliverables or requirements that were not previously considered as part of the original schedule's development. In these situations, the Transition Manager and team must consider the current status of the Project Schedule and how the scope change will affect the schedule and its resources as the project moves forward.

Any changes to the project scope, which have been approved by Commonwealth will require the project team to evaluate the effect of the scope change on the current schedule. If the Transition Manager determines that the scope change will significantly affect the current Project Schedule, he/she may request that the schedule be re-baselined in consideration of any changes which need to be made as part of the new project scope. Commonwealth must review and approve this request before the schedule can be re-baselined. In many instances, changes to the Project Schedule can also impact project cost. The TM should consult with Sales for all scope changes impacting project cost.

3.2 Project Schedule

A project schedule will be developed to map out an appropriate timeline to transition the Unified Communications and Voice Services .

3.2.1 Sample Project Schedule for Implementation of Voice Services:

| Lot 1 | | Lot 2 |
|--|--|---|
| Unified Communications | VoIP Service | Traditional Voice Services |
| <ul style="list-style-type: none"> Fully Managed Service Unified Communications (MS Skype for Business) Integration with hosted VoIP service Unified Messaging | <ul style="list-style-type: none"> Fully Managed Service Hosted VoIP services PSTN connectivity for dial tone and conferencing SIP Trunking User endpoint hardware (phones, soft-phone devices, conference) | <ul style="list-style-type: none"> Trunk lines – for existing PBX and Key systems POTS Lines for emergency phones, equipment monitoring support, payphones, etc. Centrex where required Auto Attendants |

4 Project Governance

The aim of Project Governance is to establish the appropriate structure for directing, controlling, executing, and communicating during the delivery of contracted services between Verizon and the Commonwealth and agencies. The Governance structure ensures that agreed strategies, policies, and processes are correctly followed, roles are clearly defined, measurement and reporting are effective, and actions are taken to resolve identified issues.

Effective Project Governance ensures that:

- The business objectives of Verizon and the Commonwealth are met as agreed in the contract.
- Appropriate roles, forums, and organizational structures are in place to ensure that all activities are assigned and managed effectively.
- Measurement, reporting, and corrective actions enable Verizon and the Commonwealth to rapidly adjust ways of working to fit changing requirements.

4.1 Governance Personnel

Governance is comprised of various individuals and committees with Verizon Transition Manager responsible for ensuring that the appropriate parties are assigned and engaged as required. These may include Commonwealth, and Verizon Responsible Executives, Key Personnel, an Executive Steering Committee, Operations Committee, Technical Committee, and Third Party Vendor Committee.

This section describes the roles of the Responsible Executives and Key Personnel; the role of each committee is described below under Governance Framework.

4.1.1 Verizon Governance Personnel

- **Transition Manager** – Overall responsibility for project’s success based on agreed upon deliverables and timelines, while ensuring contract compliance

- **Verizon Program Management Office** – Manages day to day operations and administration of a customer program; oversees escalations resulting from implementation or project activities as required

5 Risk Management

This section of the project plan describes how the Project Team will identify, mitigate and manage project risks

5.1 Risk Management Plan

The Risk Management Plan describes how project risk management will be structured and performed. The risk management process identifies potential risk sources, assesses individual risks and their impacts on project scope, schedule, and cost, evaluates options for managing risks, and develops action plans for handling individual risks.

The risk management process includes:

1. **Risk Management Planning** – Documenting the approach for conducting risk management activities for the project
2. **Risk Identification** – Identifying and documenting risks as they are encountered throughout the project life cycle
3. **Risk Analysis** – Evaluating identified risks to determine their probability of occurrence and impact. These assessments are entered in Clarity as:
 - **Low (L)** – Risk event unlikely to occur
 - **Medium (M)** – Risk event somewhat likely to occur
 - **High (H)** – Risk event very likely to occur
4. **Risk Response** – Establishing action plans for identified risks and assigning responsibility. Risk response options include:
 - **Mitigate** – Reduce the impact value of a risk by reducing the probability of occurrence, severity of risk, or both. Risk mitigation implies a reduction in the probability and/or impact of an adverse risk event to be within acceptable threshold limits.
 - **Accept** – Acknowledge the existence of a particular risk, and make a deliberate decision to accept it without engaging in special efforts to control it.
 - **Transfer** – Reassign organizational accountability, responsibility, and authority to another stakeholder willing to accept the risk. Transferring the risk simply gives another party responsibility for its management; it does not eliminate the risk.
 - **Watch** – Monitor the environment for changes that may affect the nature and/or impact of the risk.
5. **Risk Monitoring and Control** – Providing updates and status reports on identified risks and action plans

The Transition Manager (TM) will serve as the primary control point for the identification and management of project risks. The TM will document and track existing and potential risks as they arise during the course of the project. Project risks will be documented by the TM and updated at least once per week.

5.2 Risk Register

The output of risk management planning is the Risk Register. The Risk Register documents specific project risks, including their classification, impact on cost and schedule, response strategies, and action plans.

6 Change Management

Change is defined as: “Any condition which affects project activities, conditions, expectations, or deliverables, and which is not reflected in previous project planning activities, schedules, or the baseline network and plan”.

Change is expected in any project. Changes to deliverables and/or deliverable due dates can result in impact to the established project timeline and ultimately, the targeted project completion date. Changes not captured in weekly Open Action Item (OAI) updates should be discussed immediately with the Transition Manager to ensure that any project dependencies, due dates, and/or schedules are evaluated to assess and quantify potential impact.

6.1 Change Management Process

The Change Management process is designed to identify, capture, and quantify all changes that can impact the scope of a project. This process should be followed for any project request that impacts the project timeline, products or services being implemented, or other event that could significantly impact the project delivery schedule. All changes should be captured through this process, regardless of the source of the change (*i.e.*, internally by Verizon or externally by Commonwealth).

The scope of this project will be set at the beginning of the Planning Phase and will be considered defined upon distribution and collective review of the Project Plan documentation. Any change to the original scope or design of the project can result in significant additional cost or impact to the established Project Schedule.

All project changes will require a formal written request, or will follow the process agreed upon at the beginning of the project. The Request for Change (RFC) form (see example below) should contain a detailed description of the change(s) desired and should be submitted by Commonwealth to the Transition Manager (TM). RFCs will be reviewed and assessed by the change management team and communicated to the project team. Prior to implementation of the proposed change, approval of the RFC by Commonwealth and Verizon is required. (The TM is authorized to approve the RFC for Verizon.) If the requested scope change is implemented, the Project Plan may need to be updated and re-released.

6.2 Sample Request for Change (RFC) Form

| | |
|-----------------------------|--|
| Customer Name: | |
| Project Name: | |
| Product/Service: | |
| | |
| Change Requested By: | |

| | | | |
|---|---|---------------------------|-----------------------|
| Role: | | | |
| Company: | Customer <input type="checkbox"/> or Verizon <input type="checkbox"/> | | |
| Phone Number: | | | |
| E-mail Address: | | | |
| | | | |
| Control Number: | | | |
| Date of Request: | | | |
| Status: | | | |
| Detailed Description of Change Requested: | | | |
| <i>Include what equipment is to be added and/or deleted, site changes, date changes, etc. Attach additional information as necessary.</i> | | | |
| | | | |
| <u>Impact Area</u> | <u>Impacted?</u> | <u>Impact Description</u> | <u>Impact Summary</u> |
| Cost: | <input type="checkbox"/> | | |
| Schedule: | <input type="checkbox"/> | | |
| Resources: | <input type="checkbox"/> | | |
| Other: | <input type="checkbox"/> | | |
| | | | |
| | | <u>Customer</u> | <u>Verizon</u> |
| Approved by: | | | |

7 Sample Transition Plan

7.1 Transition Overview

The approach that the Verizon team will follow is based on a modified Skype Lifecycle process from the Skype Operations Framework. This has been modified to only address the creation and rollout of the Skype for Business process and the 46,000 units within Lot 1. At a high level, there are three phases to this transition effort: Plan, Deliver and Operate. The operation aspect of the Skype Operations Framework will be modified to allow for verification of the service once transitioned and then moved to the NOC for operational support for the life of the contract. The phased approach is displayed below:

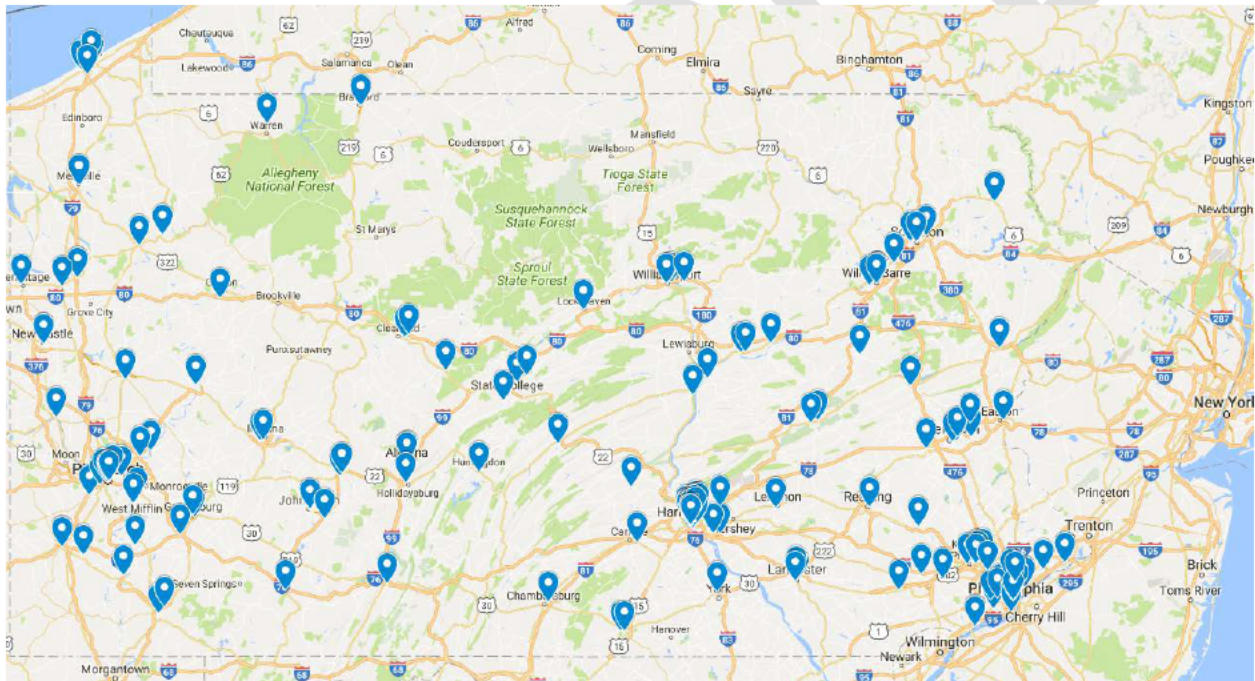

Microsoft Skype Operations Framework (SOF)

Plan: During the Plan phase, Verizon will engage with the Office of Administration (OA) to plan the roll out. During this phase, our team will capture what is required, assess the desktop environment and network infrastructure, design the roll out based on all the information gathered and prepare each rollout based on this design. The entire project is based on a pilot and four waves for roll out.

Deliver: During the Deliver phase, the Verizon teams will execute on the design by configuring the Skype for Business features for each site, deploying the units, both hardware and software, coordinating the delivery of the products, enabling the products, configuring any enhancements as needed and providing the documentation for the users to use Skype.

Operate: The last phase of the Skype Operations Framework is the Operate phase. Most tasks in this phase relate to the operational support of the Skype for Business environment. For our transition, the Operate phase will consist of training and verifying the features with the users. Upon cutover of the site, the appropriate information will be turned over to the service desk. During this phase, the service is monitored, supported and reported on while it is running in the environment.

There are 225 locations with 46,000 units that need to be transitioned from the current to the new Skype for Business environment.

Commonwealth Locations

The transition project is split into three major sections, planning, pilot, and roll out.

Project implementation plan: The entire project is approximately 24 months long for the entire transition.

7.2 Planning

Verizon, working with key stakeholders, will plan the entire project. This will include the identification of the pilot sites and defining the sequence of site roll outs. This Planning phase will define stakeholders that are part of the project, create the plans and initiate the delivery of the solution during both pilot and roll outs. Our teams will outline the implementation steps involved at a site. The following are the Planning elements:

- **Identify Stakeholder** – Identify all stakeholders in each aspect of the project. This includes stakeholders from the participating agencies and locations.
- **Project Plan** – A project plan will be created for the entire project as well as a breakdown for each of the waves identified for roll out. This plan will include all tasks and items necessary to complete the project.
- **Communications Plan** – The communications plan will define how communications will be accomplished during the transition including project stakeholders and affected end users.
- **Management Plan** – Our team will define transition roll out risks.
- **Wave Management Plan** – Each wave will include all of the iterations of the Microsoft Skype Operations Framework for each identified site.
- **Project Status** – Bi-weekly, the Transition Manager will report on project status to be provided to the project stakeholders. This status report will outline those tasks accomplished, in flight and scheduled. This project status will be used to communicate the health of the transition project.
- **Training plan** – Verizon's Training Manager will create a training plan that will be used to carry out the initial end-user training. This includes a quick start guide, feature code set and identification of where the various training documentation are located.
- **Standard Operating Procedures** – Our team will establish standard operating procedures for use during the roll out. For example, Skype for Business administrative practices, site engagement, assessment and phone set up.
- **Surveys and Check lists** – All waves including the pilot will be conducted with a set of surveys and check lists. These will be modified from the Microsoft Skype Operations Framework and setup for use in the Commonwealth. This includes assessment survey, persona survey, network readiness survey, Skype Administration Check List, project check list.

7.3 Pilot Process

Verizon will work with the Commonwealth's points of contact to identify the pilot sites. This Pilot Process will establish the core solutions, define the roll out steps and sequences, execute the site deployment, and incorporate lessons learned.

- **Design Rollout** – Verizon will design the Office 365 Skype for Business architecture and site roll out processes. This design will identify the site-specific items and detailed steps at the site level.
- **Pilot Process** – During the pilot process, Verizon will use defined processes to implement the pilot sites. Lessons learned will be captured and incorporated into future roll out activities. As part of the Pilot Process, Verizon will determine network readiness and establish the QoS and WAN/LAN requirements. In addition, Verizon will integrate third party providers to deliver incremental capabilities beyond Skype for Business.

Verizon will port numbers from current platform to the Skype for Business solution. The team will implement all call flows and feature sets identified in the site survey. Phones will be configured and placed on users' desks.

Prior to cutover, Verizon will conduct joint testing (including E911) and acceptance with the agency. Upon agreement, the site will be cut into service. Upon successful cutover, old equipment will be collected and staged for Commonwealth disposal.

- **Operate** – Verizon will train the end-users in accordance with the approved training plan. After the cutover, Verizon will provide all the necessary as-built documentation to ESD and VSD for proper operational control.

Lessons Learned Implications – Verizon will document all lessons learned and incorporate into the site deployment processes.

At this point in the project, the Microsoft Skype for Business has been setup and configured for the sites identified for the pilot. The features have been pushed out to the endpoints and the selected phone models have been installed. The next stage is to sequence all sites still outstanding into the next four waves. Each site is based on the priority of the Commonwealth agencies.

7.3 Site Roll Outs

Once the pilot phase has been completed, the project plan calls for four more waves of site roll outs. Each site will be implemented the site deployment processes created in the pilot.

Post cutover support: As people are using the product any issues that arise due to the installation are handled by the team. All user support issues will be handled by the support center service desk.

Project close out – Once the project has been completed all lessons learned, documentation and close out metrics are compiled into a final transaction report and delivered to the project point of contact. At this point in time all areas are deployed and the users are using the product.

7.4 Proposed Transition Schedule

| Task Name | Duration | Start | Finish |
|---|-----------------|---------------------|---------------------|
| Transition of UC | 586 days | Mon 7/3/17 | Mon 9/30/19 |
| Project Initiation | 15 days | Mon 7/3/17 | Fri 7/21/17 |
| Setup of Project Environment | 4 days | Mon 7/3/17 | Thu 7/6/17 |
| Project Kick Off | 1 day | Fri 7/7/17 | Fri 7/7/17 |
| Project Plan | 3 wks | Mon 7/3/17 | Fri 7/21/17 |
| Communications Plan | 3 wks | Mon 7/3/17 | Fri 7/21/17 |
| Transition Implementation Plan | 3 wks | Mon 7/3/17 | Fri 7/21/17 |
| Transition | 570 days | Mon 7/24/17 | Fri 9/27/19 |
| Transition Planning | 3 wks | Mon 7/24/17 | Fri 8/11/17 |
| Creation of Assessment Documentation | 3 wks | Mon 7/24/17 | Fri 8/11/17 |
| Design Roll Out | 20 days | Mon 7/31/17 | Fri 8/25/17 |
| Pilot Identified | 10 days | Mon 7/31/17 | Fri 8/11/17 |
| Work with Commonwealth to Identify Participants | 1 wk | Mon 7/31/17 | Fri 8/4/17 |
| Plan Sequence of Sites | 1 wk | Mon 8/7/17 | Fri 8/11/17 |
| Rollout Sequence | 3 wks | Mon 8/7/17 | Fri 8/25/17 |
| Prepare End-User Components | 2 wks | Mon 8/28/17 | Fri 9/8/17 |
| Pilot Process | 76 days | Mon 9/11/17 | Mon 12/25/17 |
| Plan | 34 days | Mon 9/11/17 | Thu 10/26/17 |
| Initiate Site Project | 3 days | Mon 9/11/17 | Wed 9/13/17 |
| Envision the Solution for Site | 1 wk | Mon 9/11/17 | Fri 9/15/17 |
| Assess Readiness | 13 days | Mon 9/18/17 | Wed 10/4/17 |
| Readiness Assessment | 6 days | Mon 9/18/17 | Mon 9/25/17 |
| Send out Surveys | 2 days | Mon 9/18/17 | Tue 9/19/17 |
| Receive Surveys | 1 wk | Mon 9/18/17 | Fri 9/22/17 |
| Document Assessment | 3 days | Thu 9/21/17 | Mon 9/25/17 |
| Persona Analysis | 6 days | Tue 9/19/17 | Tue 9/26/17 |
| Send our Persona Surveys | 2 days | Tue 9/19/17 | Wed 9/20/17 |
| Receive Surveys | 1 wk | Tue 9/19/17 | Mon 9/25/17 |
| Document Persona Analysis | 3 days | Fri 9/22/17 | Tue 9/26/17 |
| Baseline Health Assessment | 6 days | Wed 9/27/17 | Wed 10/4/17 |
| Determine QoS | 3 days | Wed 9/27/17 | Fri 9/29/17 |
| Determine WAN and LAN Requirements | 3 days | Mon 10/2/17 | Wed 10/4/17 |

Transition Schedule

Verizon will deploy a team dedicated to establishing the core Microsoft Skype for Business infrastructure during the first 180 days. This team will be creating and administrating all aspects of the sites within the solution. This team will then transition operational support of the solution to the ESD and VSD, and transition configuration of new sites to the team leads during the full rollout.

Our approach is to utilize field teams during the waves based on the identified sites and endpoints. Each team will work together as well as independently to accomplish the work per the plan. Our delivery teams will work on multiple sites, in some cases all members of a given team can be on site, for example with a large site; or they can split into two or three smaller teams to handle multiple sites together. This approach provides flexibility to transition two large sites at one time, or six or more smaller sites at one time during a wave. Our project manager and team leads will coordinate all activity and ensure the teams are working effectively and efficiently, accomplishing the work per the plan.

Our core team and team leads will be coordinating all Skype related configurations per the surveys and checklists, such as ensuring the configuration of the end points, porting of numbers, testing of the e911, and other activities, in coordination with all teams. The teams will be based out of our Harrisburg development center, and will also travel to each of the sites in the Commonwealth when necessary per the plan. Most coordination and gathering of information will be accomplished from the development center, with onsite travel limited to the agreed upon times to limit disruptions to the sites.

7.5 Service Activities

Our teams will be providing all tasks necessary to provide the transition and migration tasks in accordance with the terms of the contract. Our service activities that will help ensure compliance will include:

Planning – Planning at the agency and location level with regards to the pilot and identified waves in the commonwealth. This planning will include engagement with all points of contacts with the agency and locations, as well as all affected users to understand what is required to deliver the transition. Creation of all project artifacts, surveys, assessment tools, checklists and other documentation as needed to implement the project.

Order Entry – Agency locations will be ordering the product based on the agreed schedule. We will coordinate with each agency and location to ensure that the orders are placed and that they are processed so that staging and preparation can be scheduled per the plan.

Shipping of Product – The product will be shipped into the staging location for our prep work to begin. This staging location can be a central area within Harrisburg, within the agency or at the site location. We will be working to identify each area based on the project plan when the project commences.

Configuration – In conjunction with Microsoft and third-party vendors, Verizon will create a Microsoft Skype for Business offering that is fully configured for each of the identified sites. This configuration will

be based on the various surveys and assessment tools that have been executed during the planning and delivery phase of the project.

Push of Product – Verizon will work with OA and other team members to outline the packages for software components to be pushed to the affected users. This will be created, and scheduled based on the overall planning stage. Each push will correspond with the product roll out in each wave and location.

Receipt, pickup and installation of Product – The product will be received into a staging location, either centrally within Harrisburg, or locally in each wave. The product will be picked up by our team, prepped and delivered to each endpoint per the project plan.

Issues and Risk Management – All throughout the transition our team will be providing risk management so that we can address any issues and risks as they arise in the project.

Change Management – All changes throughout the project will follow a controlled change management process that identifies the change, assesses the change and the impact on the project, and obtains proper approvals to implement the change.

7.5 Service Processes, Dependencies and Procedures

Verizon will perform the transition services utilizing best practices in project management and transition management. Our processes follow ITIL as well as the Microsoft Skype Operations Framework as it relates to the specifics within the transition requirements of this program. Project management will follow PMI PMBoK based management methodologies as abridged by the transition services and the Skype Operations Framework.

The Verizon TM and Commonwealth Point of Contract (POC) will work out a transition schedule that is in the best interests of the Commonwealth. We have setup our project plan to include a pilot and four wave rollouts of all 225 sites and 46,000 endpoints. The team will work to identify the sites that will be included in our pilot phase and all other rollout phases. We understand that things will happen during the project and our team will utilize a change management process that allows a certain amount of flexibility in the project with proper approvals and assessment of impact due to the change. Our team will work with Agency POC to obtain agreement as to when certain aspects of the transitions are accomplished, and if changes are necessary.

Our transition plan is based on flexibility in the sequence of the transition. At each stage, our team will perform planning and assessing of all end points to outline when each will be transitioned. This is an ongoing occurrence and our plans can be manipulated based on conditions on the ground. Our team will work with the agencies in determining this schedule and the transition of each end point and will be communicating this schedule all throughout the transition.

At the start of the Transition, sites will be identified as belonging to the Pilot wave or one of the four subsequent waves.

Our transition teams will install all products as required per the transition schedule. The last item on the transition is to deliver the feature code list and Getting Started Guide to each end-point as it is installed. This is part of our Adopt phase in our transition plan.

All equipment that is being replaced will be collected and returned to the central location for disposal.

Our team will deliver the getting started documentation and feature set for all end-points as the product is installed. There is extensive help available on Skype for Business and the user would be directed to this resource for any further training needs. Also, the support desk will be able to assist each user once they are transitioned and live on the new product. Our teams will be furnishing the support desk with all information regarding the endpoints as they are transitioned and turned over for operational support.

All locations will go through an acceptance process as each endpoint is transitioned. Each of these acceptance analytics will be collated and entered into the final project closing report showing that each service has been transitioned to support.

The project close out report will identify all services that have been implemented, tested and accepted by the locations as being installed correctly. Each will be transitioned to support. The report will be delivered to the commonwealth at the end of the transition period.

8 Communication Plan

Effective communication, both internal and external, is essential to the success of any project. During this project, there will be multiple documents passed between Verizon and Commonwealth updating the team on weekly progress. The format of these documents will be agreed upon by Commonwealth and Verizon. The Transition Manager will be copied on all communications and will be the central point of contact for communication to the project team.

8.1 Project Meetings

8.1.1 Meeting Schedule

The Verizon Transition Manager will conduct weekly status meetings with Commonwealth and Verizon Implementation Teams from project kick-off to cutover, service acceptance, and service hand-off to each agency

8.1.2 Meeting Minutes

The Verizon Transition Manager is responsible for recording project meeting minutes. This information will be sent to the entire project team via e-mail as an attached file in MS Word format.

8.2 Project Status Reporting

8.2.1 Order Tracking

Project-related order activity will be tracked in an Order Tracking Spreadsheet. This document should contain all the necessary information for Verizon to order the requested services.

8.2.2 Project Status Dashboard

The Project Status Dashboard Report provides a high-level summary of the project status, current and planned activities, actions, risks, issues, and accomplishments. The report may be used for both internal and external reporting, especially at the management/executive level.

8.2.3 Project Schedule

The Project Schedule is developed jointly with project team members and updated with both internal and customer input to ensure that all tasks and timelines are mutually agreed upon and understood. The Project Schedule is the basic framework for assigning responsibility, executing all aspects of the project, establishing plans, allocating resources, assessing status, evaluating performance, and adjusting plans. Once the basic task durations have been estimated, the Transition Manager aggregates the project tasks, assesses the relationships among task dependencies, and determines the sequence of events.

8.2.4 Open Action Items (OAI)

The Verizon TM is responsible for tracking all open action items assigned during the project. This information will be sent to the entire project team.

8.3 Project Escalation Process

At any time during the project life cycle, if Commonwealth would like to escalate a project issue with Verizon, the following escalation levels should be observed:

Table 4 – Verizon Escalation Hierarchy

| Level | Name | Title | Contact Phone Number |
|--------------|------|-------|----------------------|
| First Level | | | |
| Second Level | | | |
| Third Level | | | |

Table 5 – Commonwealth Escalation Hierarchy

| Level | Name | Title | Contact Phone Number |
|--------------|------|-------|----------------------|
| First Level | TBD | TBD | PHONE NUMBER |
| Second Level | TBD | TBD | PHONE NUMBER |
| Third Level | TBD | TBD | PHONE NUMBER |

9 Cost Tracking

Project Costs will be tracked using the Project Management Institute (PMI) Global Standard of Earned Value Management (EVM). This methodology combines scope, schedule, and resource measurements to assess project performance and progress. EVM develops and monitors three key factors - Planned Value (PV), Earned Value (EV), and Actual Cost (AC)

This methodology is commonly used to measure any project in any industry

10 Project Closeout

Formal project close-out will take place when the following conditions have been met:

- Completion of project deliverables
- Testing and acceptance of VCC and related services
- All sites and services transition to maintenance

A test and acceptance plan will be agreed to by both Verizon and Commonwealth as part of the project planning process

A post-implementation meeting will be held between both Commonwealth and the Verizon Implementation/Account Team. A lessons learned document will be finalized at the end of the project along with a close-out document, and will be distributed by the Transition Manager.

Cisco 880G and 890G Series 4G LTE 2.0 Integrated Services Routers

The Cisco® 880G and 890G Series 4G LTE 2.0 Integrated Services Routers with Cisco IOS® Software offer support for integrated fourth-generation (4G LTE) wireless WAN (mobile broadband backhaul), WLAN capabilities (C897VAGW Model) and cutting-edge capabilities. The Cisco 880G and 890G Series ISRs provide a rapidly deployable, highly available, reliable, and secure solution designed to combine Internet access, comprehensive security, and wireless services in a single device that is easy to deploy and manage for primary or backup connectivity (Figure 1). Customers that would benefit from these routers include small businesses, remote small or medium-sized or power branches, financial services firms, healthcare organizations, pop-up stores, point-of-sale systems, and retail businesses. Fully integrated with Cisco IOS Software, the Cisco 880G and 890G routers deliver enterprise-class features, including highly secure data, voice, and video communications to stationary and mobile network nodes across wired and wireless links. The best-in-class Cisco 880G and 890G Series architecture is specifically designed to deliver high performance with concurrent services, business continuity, and investment protection. The Cisco 880G and 890G 4G LTE 2.0 series are the industry leader to bring enterprise grade wireline like functionality such as Quality of Service (QoS) for cellular, Multi-Virtual Route Forwarding (Multi-VRF), advanced VPN, and Unified Communications solutions over LTE.

Figure 1. Cisco C899G-LTE Integrated Services Router

The Cisco® 880G and 890G Series LTE 2.0 routers also provide the ability to extend Cisco product-based networks to remote power branch offices with a relatively low incremental investment, as well as to enable managed services offerings based on end-to-end Cisco system architecture.

Product Overview

The Cisco 880G and 890G Series 4G LTE 2.0 ISRs are fixed-configuration routers that provide collaborative business solutions for secure voice and data communications to enterprise small branch offices, with support for the latest Third-Generation Partnership Project (3GPP) Release 9 standards for 4G LTE. They provide persistent, reliable LTE connectivity with fallback and transparent handoff to earlier technologies. The routers are designed to deliver secure broadband, Metro Ethernet or any xDSL variants, wireless WAN (WWAN) connectivity, and business continuity. Additionally, the Cisco 897VAGW ISR supports enterprise class built-in Wireless LAN (WLAN) capability. They also come with powerful management tools, such as the web-based Cisco Configuration Professional configuration management tool, which simplifies setup and deployment.

- Cisco 4G LTE 2.0: Multimode LTE 2.0 for carriers that operate LTE 800-MHz (band 20), 900-MHz (band 8), 1800-MHz (band 3), 2100-MHz (band 1), or 2600-MHz (band 7) networks; the multimode 880G and 890G Series 4G LTE 2.0 routers are backward-compatible with Universal Mobile Telecommunications Service (UMTS) and High-Speed Packet Access Plus (HSPA+): 850 MHz (band 5), 900 MHz (band 8), 1900 MHz (band 2), and 2100 MHz (band 1)

- C899G-LTE-NA-K9: Multimode Cisco LTE 2.0 for carriers that operate LTE 700 MHz (band 17), 1900 MHz (band 2 PCS), 850 MHz (band 5) or 1700/2100 MHz (band 4 AWS) networks; backward-compatible with UMTS and HSPA+: 850 MHz (band 5), 900 MHz (band 8), 1900 MHz (band 2 PCS), and 1700/2100 MHz (band 4 AWS).
- C899G-LTE-VZ-K9 and C899G-LTE-ST-K9: Multimode Cisco LTE 2.0 for carriers that operate LTE 700 MHz (band 13), 1700/2100 MHz (band 4 AWS), or 1900 MHz (band 25 extended PCS) networks; backward-compatible with EVDO Rev A/CDMA 1x BC0, BC1, BC10.
- C899G-LTE-JP-K9: Multimode Cisco LTE 2.0 for carriers that operate LTE 800 MHz (band 19), 1500 MHz (band 21), and 2100 MHz (band 1) networks; backward-compatible with UMTS and HSPA+: 850 MHz (band 5), 800 MHz (band 6), 800 MHz (band 19), and 2100 MHz (band 1).

The Cisco 880G and 890G Series 4G LTE 2.0 ISRs provide a broad range of enterprise-class features, including:

- Security services, such as firewall, intrusion prevention, VPN, and Cisco ISR Web Security with Cisco ScanSafe, which require no additional hardware or client software. This enables branch offices, manufacturing sites, hospitals, banks, and mobile fleets, for example, to intelligently redirect web traffic to the cloud to enforce granular security and acceptable use policies over user web traffic. With this solution, you can deploy market-leading web security quickly and easily to protect branch-office users from web-based threats, such as viruses, while saving bandwidth, money, and resources.
- Cisco WAN optimization system, consisting of Cisco Wide Area Application Services (WAAS) Express routers and Wide-Area Application Engines (WAEs) that work together to optimize TCP traffic in your network. When client and server applications attempt to communicate with each other, the network intercepts the traffic and acts on behalf of the client application and the destination server.
- Additional WAN options, such as Gigabit Ethernet WAN interfaces and an 8-port 10/100/1000 Gigabit Ethernet managed switch for LAN connectivity. The Cisco 880G and 890G Series ISRs provide quality-of-service (QoS) features for optimizing voice and video applications.
- Cisco Configuration Professional, a web-based configuration tool that simplifies setup and deployment. Centralized management capabilities give network managers visibility into and control over the network configurations at remote sites.
- WWAN services, offering enhanced data rates and improved latency (30 ms or less)—an ideal way to supplement traditional wireline services. The 4G LTE WWAN data services offered today have average data rates well in excess of ISDN speeds, with theoretical limits of 100 Mbps on the downlink and 50 Mbps on the uplink. The actual data speed depends on the service provider's network. With 4G LTE data rates, the Cisco 4G LTE 2.0 WWAN offers a primary WAN link solution capable of running comprehensive branch-office services, including voice and video services. The 4G LTE WWAN data services can also be used as a cost-effective alternative in areas where broadband services are either not available or very expensive. Cisco is building on these performance milestones and adding support for wireless to our wide variety of WAN interface alternatives.

Business Benefits and Application Examples

Businesses are looking for ways to reduce costs, increase revenue, and improve business continuity. The 4G LTE wireless connectivity, which is 10 to 15 times faster and has 5 times lower latency than 3G links, allows a small enterprise branch office or remote office to set up comprehensive media services in a matter of hours, without

worrying about availability of broadband services or the need to lay down the lines. Wireless carriers offer flexible, usage-based data plans that can be customized to meet the needs and price points of the business customer. As WAN backup alternatives, 3G and 4G LTE wireless offer greater WAN diversity and resiliency because they are independent of the local terrestrial infrastructure. The Cisco 880G and 890G help businesses stay productive during service provider downtime or a network failure with Cisco Intelligent WAN diversity and Cisco Application Visibility & Control (IWAN & AVC LTE support with C890 series). The 802.11a/b/g/n 2X3 MIMO built-in Cisco 3500 Access Point (AP) in the Cisco 897VAGW, comes with Cisco's CleanAir technology, to create a self-healing, self-optimizing WLAN. Moreover, with the advantage of dual radio, the integrated AP can serve both as an access point and as a client to a wireless mesh network. This provides another source for WAN diversity along with Gigabit Ethernet, xDSL, and LTE cellular. The AP ClientLink feature improves reliability and coverage for legacy devices and dynamic frequency selection (DFS allows detecting and avoiding interference with radar signals to comply with regulatory domains. Cisco 897VAGW ISR with integrated 4G LTE and 802.11 a/b/g/n AP. The dual radio WLAN on the 897VAGW can serve as both a client and an access-point. More information on the Cisco 3500 Access Point is available at http://www.cisco.com/en/US/prod/collateral/wireless/ps5678/ps10981/data_sheet_c78-594630.html

Ability to Host Networks in Motion

The Cisco 880G and 890G use standards-based mobile IP features in Cisco IOS Software to host networks in motion. Transitions to different wireless networks are transparent to the users and devices (such as laptops, smart devices, and surveillance cameras), and applications maintain continuous connectivity without the user's manual intervention as WAN links change. In addition to allowing a single node or device to stay connected, the Cisco 880G and 890G allow an entire mobile network or subnet to stay connected.

Retail VPN

Retail stores migrating from dialup connections for point-of-sale transactions can use the 4G LTE WWAN option on the Cisco 880G or 890G for low-cost broadband access, with the security required to comply with payment card industry (PCI) and other data security requirements. Multiple devices and applications can then be added to the store network to take advantage of the increased bandwidth and to enable secure mobility and enhance productivity.

Managed Services

Service providers and value-added resellers (VARs) can use the Cisco 880G or 890G as a platform to offer differentiated business-class security and wireless LAN (WLAN) services for small and medium-sized business (SMB) customers. Superior management capabilities, such as Simple Network Management Protocol (SNMP) support for 3G MIB with 4G MIB extension and Cisco Configuration Professional, make remote management and provisioning easier.

- **Multiple-PDN:** This feature allows configuration of multiple active (Access Point Name) APN so that Internet traffic can be kept separate from the corporate traffic.
- **4G LTE multiple-bearer QoS for cellular:** The Cisco 880G and 890G 4G LTE 2.0 supports 4G LTE multiple-bearer QoS. Detailed information on the bearer is part of show CLI, SNMP-MIBs etc. The QoS feature is service provider (SP) dependent, and requires SP to launch this service.
- **Multi-VRF for cellular:** 4G LTE 2.0 now support Multi-VRF for cellular network. Multi-VRF is a Cisco proprietary implementation over and above the 3GPP spec and requires Cisco ASR5K Packet Gateway (P-GW) as the head-end at the service provider's network. The Multi-VRF feature is service provider (SP) dependent, and requires SP to launch this service.

- **Enterprise grade Unified Communication solutions over LTE:** The Cisco 880G and 890G 4G LTE 2.0 supports voice and video and can be integrated with Cisco Unified Communications cloud or premises-based infrastructure.
- **Public Land Mobile Network (PLMN Search):** UE presents end user with available PLMN search manually. UE can optimize PLMN search procedure using stored information such as RF carriers and cell parameters.

Primary Features and Benefits

Table 1. Features and Benefits of the Cisco 880G and 890G Series 4G LTE 2.0 ISRs

| Feature | Benefits |
|---|---|
| Smallest Cisco ISR in Nonhardened Form Factors | |
| Lightweight, compact size with low power consumption | <ul style="list-style-type: none"> • Can be deployed in many different environments where space, heat dissipation, and low power consumption are critical factors. |
| Increased performance to run concurrent services | <ul style="list-style-type: none"> • Performance allows customers to take advantage of broadband network speeds while running secure, concurrent data, voice, video, and wireless services. |
| Enhanced security | <ul style="list-style-type: none"> • An integrated stateful and application inspection firewall provides network perimeter security and high-speed IP Security (IPsec); Triple Data Encryption Standard (3DES) and Advanced Encryption Standard (AES) encryption offer data privacy over the Internet. • Intrusion prevention enforces security policies in a larger enterprise or service provider network. • Content filtering offers category-based URL classification and blocking, thus helping increase productivity and providing better use of company resources. • ScanSafe web security and filtering solution requires no additional hardware or client software. Enables remote locations to intelligently redirect web traffic to the cloud to enforce granular security and acceptable use policies over user web traffic. |
| Multiple WAN and LAN Connections | |
| 4-port 10/100-Mbps or 8-port 10/100/1000-Mbps managed switch | <ul style="list-style-type: none"> • Allows connectivity for multiple Ethernet devices in a small office or other remote location with the ability to designate a port as the network edge. • VLANs allow for secure segmentation of network resources. • Multiple LAN and WAN devices can be connected to standard Fast Ethernet or Gigabit Ethernet. |
| WAN diversity | <ul style="list-style-type: none"> • Multiple WAN links are supported: Gigabit Ethernet (copper or SFP option), any xDSL variants, and 4G LTE provide for business continuity and WAN diversity. |
| Integrated WLAN Access Point | <ul style="list-style-type: none"> • Integrates the Cisco 3500 802.11 a/b/g/n Access Point for mission-critical applications. By intelligently avoiding interference, the WLAN feature offers performance protection for 802.11n networks to help ensure reliable application delivery. The 2X3 MIMO AP comes with Cisco's CleanAir technology, the industry's first to create a self-healing, self-optimizing wireless network. • With dual radios, the Cisco AP can serve both as an access point and as a client to a wireless mesh network concurrently, providing another source for WAN diversity. • The AP ClientLink feature improves reliability and coverage for legacy devices • Dynamic frequency selection (DFS) allows detecting and avoiding interference with radar signals to comply with regulatory domains. More information on the Cisco 3500 AP is available at: http://www.cisco.com/en/US/prod/collateral/wireless/ps5678/ps10981/data_sheet_c78-594630.html |
| Transparent Roaming Between Wireless Networks | |
| Dual subscriber-identity-module (SIM) support | <ul style="list-style-type: none"> • Dual SIM provides for high reliability and cellular multihoming support for LTE and HSPA-based networks using common firmware and technology within the same region (only on all -GA and C899G-LTE-JP-K9 PIDs) |
| Cisco IOS Mobile IP features | <ul style="list-style-type: none"> • Mobile IP offers transparent roaming for mobile networks, establishing a transparent Internet connection regardless of location or movement. This enables mission-critical applications to stay connected even when roaming between networks. • Assigned IP addresses to the home network are maintained in private or public networks. |
| Cisco IOS Mobile network features | <ul style="list-style-type: none"> • Allows an entire subnet or mobile network to maintain connectivity to the home network while roaming. |
| Multiple wireless WAN technologies | <ul style="list-style-type: none"> • Users can use the best wireless (4G LTE, 3.7G, 3.5G, or 3G) technology or network available. |

| Feature | Benefits |
|---|--|
| Advanced IP Services in Standards-Based Cisco IOS Software | |
| Advanced security features | <ul style="list-style-type: none"> • Authorization and authentication determines which individuals and devices have access to the network. • Firewall protection provides perimeter security when using public networks. • 3DES and AES encryption provide for highly secure VPNs when transmitting and receiving data over public networks. • Intrusion detection monitors potential malicious activity within the network. |
| QoS features | <ul style="list-style-type: none"> • Provides traffic precedence to delay-sensitive or prioritized applications. • Facilitates low-latency routing of delay-sensitive applications such as streaming video. |
| IP Multicast | <ul style="list-style-type: none"> • Allows efficient broadcast of data or video for increased situational awareness, multiuser communications, or surveillance applications. |
| Management and manageability | <ul style="list-style-type: none"> • Network managers can remotely manage and monitor networks with SNMP, Telnet, or HTTP, and locally through a console port. • Support for extensive 3G- and 4G LTE-based MIBs allows for centralized management of remote devices and gives network managers visibility into and control over the network configurations at the remote site. • Network managers can reset to a predesignated golden image as well as configure an ISR through Cisco IOS Software or through an external reset button. • Network managers can upgrade 3G, 3.5G, 3.7G, and 4G LTE firmware and router configurations remotely and confirm enhancement verification. • Tight integration with Cisco IOS Software allows you to self-monitor the functions of the 3G, 3.5G, 3.7G, and 4G LTE modems and automatically recover from a failure. • Cisco Configuration Professional provides a web-based tool that simplifies setup and deployment. • Intuitive network management tools such as Cisco Prime™ and HP OpenView are supported. • IOx support with 3rd party Cisco certify APP running on 2nd core. |
| Cisco WAN Optimization | <ul style="list-style-type: none"> • Cisco WAAS Express routers and Wide-Area Application Engines work together to optimize TCP network traffic. When client and server applications attempt to communicate with each other, the network intercepts the traffic and acts on behalf of the client application and the destination server. • WAAS Express is supported on the Gigabit Ethernet WAN interface and up to 2 Mbps. |

Product Specifications

Tables 2 and 3 summarize the routers in the Cisco 880G and 890G Series, respectively.

For common platform-specific details with extensive and rich Cisco IOS Software features set on both the Cisco 880 and 890 Series ISRs, go to:

| | <ul style="list-style-type: none"> • Radome: Polycarbonate, UV resistant, white • Material substance compliance: ROHS compliant |
| CGR-LA-NM-NF* CGR-LA-NF-NF* | <p>Description: Cisco Lightning Arrestor</p> <ul style="list-style-type: none"> • Broadband operation • DC continuity for outdoor powering • Reversed installation <p>Permanently installed gas capsule</p> <p>Feature description:</p> <ul style="list-style-type: none"> • Arrestor type: Gas discharge tube • Main path connectors: Port 1: protected, N plug (male); Port 2: unprotected, N jack (female, bulkhead side) • Impedance: 50 ohms • Frequency range: 0 MHz to 5800 MHz • Return loss: Greater than or equal to 20 dB • Insertion loss: Less than or equal to 0.2 dB • RF continuous wave (CW) power: Less than or equal to 60W • Surge current handling capability: 10 single, multiple kA (test pulse 8/20 ms) • Residual pulse energy: 250 microsecond typically (test pulse 4 kV 1.2/50 microsecond; 2kA 8/20 microsecond), main path (protected side) • Operating temperature range: -40° to 185°F (-40° to 85°C) • Waterproof rating: IP 67 (according to IEC 60529, data refer to the coupled state) • Mounting and grounding: MH24 (bulkhead) • Material <ul style="list-style-type: none"> ◦ Housing: Brass ◦ Port 1 center contact: Gold-plated brass ◦ Port 2 center contract copper beryllium alloy |

* -N antenna works with -N cables and -N lightning arrestor.

Ordering Information

For Cisco ISR 880G and 890G Series 4G LTE 2.0 ISR ordering information, please visit the [Cisco Ordering Home](#) Page and refer to Tables 9 and 10.

Table 9. Cisco 890G and 880G 4G Series LTE 2.0 ISRs Ordering Information

| Product | Description |
|---|---|
| Cisco 89xG 4G LTE 2.0 Integrated Services Router | |
| C899G-LTE-GA-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP with Sierra Wireless MC7304/Qualcomm MDM9215 for Australia and Europe, LTE 800/900/1800/ 2100/2600 MHz, 850/900/1900/2100 MHz UMTS/HSPA+ bands |
| C899G-LTE-NA-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP Multi-Mode 4G LTE M2M ISR with Sierra Wireless MC7354/Qualcomm MDM9615 for North America, LTE 700/850/1900 (1700/2100 AWS), 850/900/1900 (1700/2100) MHz UMTS/HSPA+ bands |
| C899G-LTE-VZ-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP Multi-Mode 4G LTE M2M ISR with Sierra Wireless MC7350/Qualcomm MDM9615 for Verizon, LTE 700 and (1700/2100 AWS), EVDO Rev A/CDMA 1x BC0, BC1, BC10 |
| C899G-LTE-ST-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP Multi-Mode 4G LTE M2M ISR with Sierra Wireless MC7350/Qualcomm MDM9615 for Sprint, LTE 1900 extended PCS, EVDO Rev A/CDMA 1x BC0, BC1, BC10 |
| C899G-LTE-JP-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP with Sierra Wireless MC7330/Qualcomm MDM9215 for Japan NTT Docomo, LTE 800/1500/ 2100/2600 MHz, 800/850/2100 MHz UMTS/HSPA+ bands |
| C896VAG-LTE-GA-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP VDSL/ADSL2+ Annex B with Sierra Wireless MC7304/Qualcomm MDM9215 for Australia and Europe, LTE 800/900/1800/ 2100/2600 MHz, 850/900/1900/2100 MHz UMTS/HSPA+ bands |
| C897VAG-LTE-GA-K9 C897VAMG-LTE-GA-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP VDSL/ADSL2+ Annex A or M with Sierra Wireless MC7304/Qualcomm MDM9215 for Australia and Europe, LTE 800/900/1800/ 2100/2600 MHz, 850/900/1900/2100 MHz UMTS/HSPA+ |
| C898EAG-LTE-GA-K9 | Cisco LTE 2.0 Secure IOS Gigabit Router SFP G.SHDSL (EFM/ATM) with Sierra Wireless MC7304/Qualcomm |

| Product | Description |

Cisco and Partner Services for the Enterprise Networks Architecture

Enable the Cisco Enterprise Networks Architecture and the business solutions that run on it with intelligent, personalized services from Cisco and our partners. Backed by deep networking expertise and a broad ecosystem of partners, these services can help you plan, build, and run a network that enables you to expand geographically, embrace new business models, and promote business innovation. Whether you are looking to transition to a Cisco Enterprise Networks Architecture, solve specific business problems, or improve operational efficiency, we have a service that can help you get the most from your IT environment. For more information, please visit <http://www.cisco.com/go/services>.

Warranty Coverage and Technical Service Options

The Cisco 890G and 880G Series 4G LTE 2.0 Integrated Services Routers come with the Cisco 1-year limited hardware warranty. Adding a contract for a technical service offering such as Cisco SMARTnet[®] Service provides benefits not available with the warranty, including access to OS updates, Cisco.com online resources, and Cisco Technical Assistance Center (TAC) support services. Table 11 shows the available technical services.

For information about Cisco warranties, visit <http://www.cisco.com/go/warranty>.

For information about Cisco Technical Services, visit <http://www.cisco.com/go/ts>.

Table 11. Cisco Technical Services for Cisco 890G and 880G Series 4G LTE 2.0 ISRs

| Technical Services |
|--|
| Cisco SMARTnet Service <ul style="list-style-type: none">• Global access to the Cisco TAC 24 hours a day• Unrestricted access to the extensive Cisco.com resources, communities, and tools• Next-business-day, 8x5x4, 24x7x4, and 24x7x2 advance hardware replacement¹ and onsite parts replacement and installation available• Ongoing operating system software updates within the licensed feature set²• Proactive diagnostics and real-time alerts on Smart Call Home-enabled devices |
| Cisco Smart Foundation Service <ul style="list-style-type: none">• Next-business-day advance hardware replacement as available• Business-hours access to SMB Cisco TAC (access levels vary by region)• Access to Cisco.com SMB knowledge base• Online technical resources through Smart Foundation Portal• Operating system software bug fixes and patches |

¹Advance hardware replacement is available in various service-level combinations. For example, 8 x 5 x next business day (NBD) indicates that shipment will be initiated during the standard 8-hour business day, 5 days a week (the generally accepted business days within the relevant region), with NBD delivery. Where NBD is not available, same-day shipment is provided. Restrictions apply; please review the appropriate service descriptions for details.

²Cisco operating system updates include maintenance releases, minor updates, and major updates within the licensed feature set.

Using a NETGEAR WiFi Adapter with Polycom® VVX® Business Media Phones

Feature Profile 86205

This feature profile explains how system administrators and users can use NETGEAR WiFi adapters with Polycom® VVX® business media phones to connect to their phones to the organization's network.

A WiFi adapter can connect any device with an Ethernet port to your existing wireless network. Used with a VVX phone, it is a WiFi access point that will wirelessly connect VVX phone to your existing wireless network environment. The WiFi adapter can be powered by USB port to avoid additional power outlet connectivity. You can plug the WiFi adapter into any USB port on the VVX phones for power or use it with the external power supply that comes with the WiFi adapter.

Using a WiFi adapter is supported on VVX phones running the Polycom® UC Software (UCS) versions shown next.

Table 1: Polycom VVX Phones and the Supported Polycom UC Software

| <i>Phone</i> | <i>Software Version</i> |
|--------------|-------------------------|
| VVX 300/310 | UCS 4.1.4 |
| VVX 400/410 | UCS 4.1.4 |
| VVX 500 | UCS 4.1.3 |
| VVX 600 | UCS 4.1.3 |
| VVX 1500 | UCS 4.0.4 |

Note: Supported Polycom Phones

The use of a WiFi adapter is supported for all Polycom SoundPoint® IP phones with USB ports (though not tested by Polycom at this time). The use of a WiFi adapter with the external power supply is supported for all SoundPoint® IP phones without USB ports and all SoundStation IP phones (though not tested by Polycom at this time).

Using the VVX phones requires support from a call control server, a Virtual Private Network (VPN), routers, and the deployment applications. Polycom tested one WiFi adapter as shown next.

Table 2: Supported WiFi Adapters

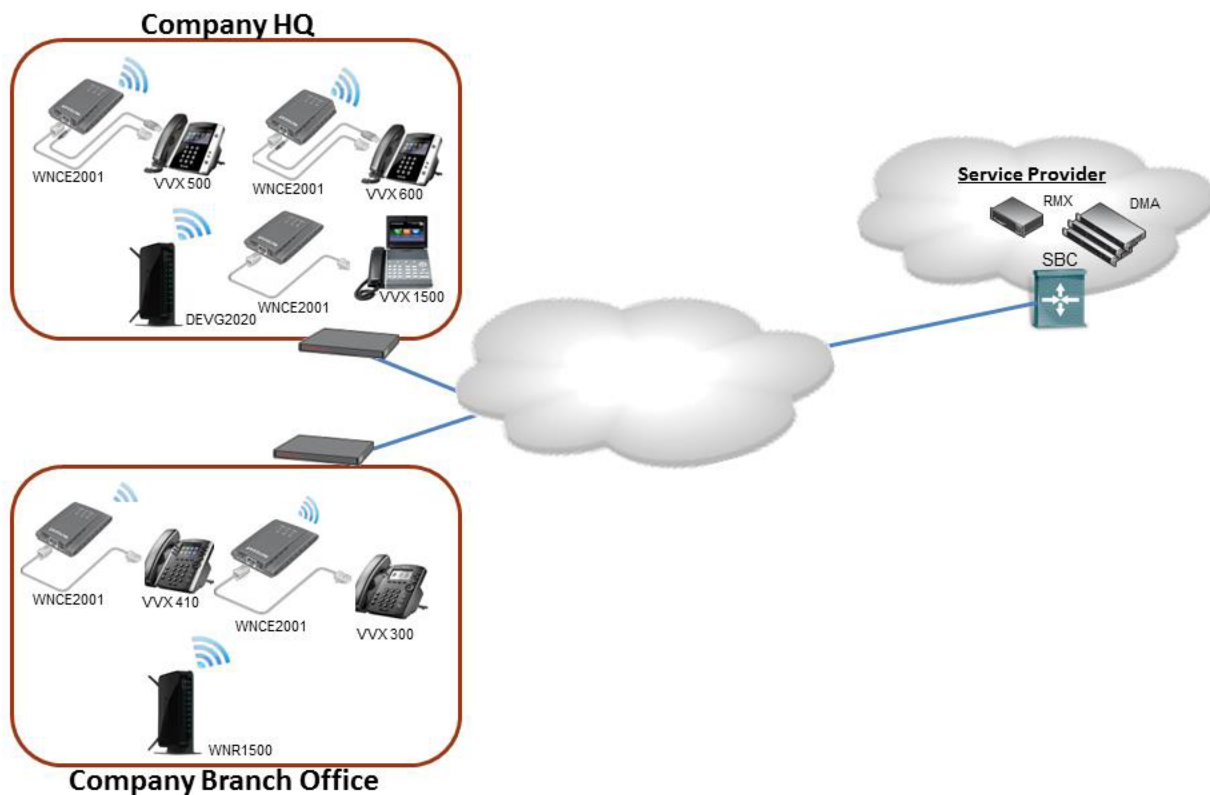

| <i>Tested Products</i> | <i>Software/Firmware Version</i> |
|-------------------------------|----------------------------------|
| NETGEAR WNCE2001 WiFi Adapter | 1.0.0.26 |
| NETGEAR WNR1500 Router | 1.0.0.10 |
| NETGEAR WNDR4000 Router | 1.0.0.90 |

Overview

In most office environments, VVX phones are connected to the network through its wired Ethernet ports on the phone. By connecting the phone to a WiFi adapter, users have the option of connecting their phone to a wireless network, providing unrestricted placement.

An example setup for VVX phones within a wireless network is shown next.

Figure 1: VVX Phones within a Wireless Network

Connecting the WiFi Adapter to the VVX phone

This section takes you through the steps to connect a VVX phone to a WiFi adapter. The NETGEAR WNCE2001 is the WiFi adapter used in the procedure shown next.

Note: Use of Other WiFi Adapters

The following instructions may work other WiFi adapters (though not tested by Polycom at this time).

Note: Powering the Wifi Adapter

Depending on the peripheral devices you have attached to with VVX phone, the phone may not have enough power for the WiFi adapter through the USB port. Therefore, Polycom recommends you use the external power supply that come with the adapter. This would be a requirement when using a phone without a USB port.

To connect the WiFi adapter to the VVX phone:

- 1 Please disconnect any wireless connection to the router and/or remove the Ethernet cable currently connected to the computer.

You may restore the connection after the WNCE2001 installation is complete.

- 2 Connect the WNCE2001 to your computer using the Ethernet cable (included) and USB cable (included) to your computer for power. If your computer doesn't have a USB port, you can use the power adapter that comes with the NETGEAR WNCE 2001 WiFi adapter for power.

- 3 Wait until both the Power and LAN LEDs on the NETGEAR WNCE2001 WiFi adapter are solid green.

Make sure the computer gets the IP address. Please refer to the [NETGEAR WNCE2001 User Guide Troubleshooting Section](#) if you open your browser and do not see the WNCE2001 WiFi Adapter set up page.

- 4 Open your browser. The NETGEAR WNCE2001 WiFi adapter setup page will automatically display.
- 5 Follow the instructions on the setup page.
After completing the set-up, go to **Step 6**.
- 6 Disconnect the Ethernet and USB cables from your computer.

7 Connect the WNCE2001 to the VVX phone.

If your VVX phone doesn't have a USB port—for example, a VVX 300/310 or 400/410, you can use the power adapter that comes with the unit to get power.

Your installation is now complete.

Note: WPS (WiFi Protected Setup)

WPS (WiFi Protected Setup) is a simple and secured way to connect a device to an existing network. If you have a NETGEAR router, this feature is called Push 'N' Connect.

Look for the  symbols on the router to make sure the NETGEAR router supports WPS. For non-NETGEAR routers, please refer to the user manual to determine if the router supports WPS.

DATA SHEET

Polycom® VVX® 300, 301, 310, 311 Business Media Phones

Powerful entry-level business media phones for today's cubicle workers handling a low to moderate volume of calls delivering crystal clear communications

The Polycom® VVX® 300 Series are expandable business media phones that deliver crystal clear communications, enhanced collaboration and personal productivity.

Simplicity and ease of use

The VVX 300 Series brings high-quality, cost-effective solutions to any environment through advanced unified communications (UC) features. The intuitive user interface of the VVX 300 Series makes usability and navigation easy and requires minimal training.

Unsurpassed voice quality and clarity

The VVX 300 Series delivers breakthrough Polycom® HD Voice™ quality for lifelike conversations while minimizing fatigue, making calls more efficient and productive.

Maximize productivity

Give your front-line workers the best experience with this high-quality 6-line business media phone. The VVX 300 Series improves personal productivity by complementing the workplace applications on their computer. Users can view and manage their Microsoft Exchange Calendars, receive meeting reminders and alerts, access the corporate directory and instant messaging/presence status right on their phone display, even while waiting for their PC to boot. They can also extend their PC's desktop to include the VVX 300 Series screen for mouse/keyboard navigation and interaction.

Best-in-class deployment and administration

The VVX 300 Series is easy to deploy and simple to manage. Using an enterprise-grade, Web-based configuration method allows administrators to easily provision and maintain even a large number of phones throughout the entire organization.

Customizable and expandable

The VVX 300 Series provides personalized information at a glance, through built-in Web applications and custom backgrounds. The VVX 300 Series also comes ready for future expansion modules as your users' needs and business grows.

Market-leading open standards interoperability

Designed for enhanced interoperability, the VVX 300 Series leverages and complements the other existing IT investments in your business. With the broadest call server interoperability in the industry, the Polycom VVX 300 entry-level business media phone can become the flexible and future-proof foundation for any organization's UC strategy.

Benefits

- Improve productivity for cubicle workers and call center operators through an intuitive easy-to-use user interface
- Make more efficient and productive calls with the unparalleled voice clarity of Polycom® HD Voice™
- Reduce deployment and maintenance costs—the Polycom Zero Touch Provisioning and Web-based configuration tool makes the VVX 300 simple to deploy, easy to administer, upgrade, and maintain
- Leverage previous IT infrastructure investments—deploy VVX 300 Series business media phones on your existing network without needing to upgrade your call control platform
- Easily integrate with third-party Web-based UC and productivity applications for broad, standards-based, open APIs

Polycom VVX 300 Series specifications

User interface features

- 3.2 in Backlit 8-level Grayscale graphical LCD (208 x 104) resolution
- Voicemail support¹
- WebKit-based browser
- Adjustable base height
- Unicode UTF-8 character support. Multilingual user interface including Chinese, Danish, Dutch, English (Canada/US/UK), French, German, Italian, Japanese, Korean, Norwegian, Polish, Portuguese, Russian, Slovenian, Spanish, and Swedish

Audio features

- Polycom® HD Voice™ technology delivers lifelike voice quality for each audio path—handset, the hands-free speakerphone, and the optional headset²
- Polycom® Acoustic Clarity™ technology providing full-duplex conversations, acoustic echo cancellation and background noise suppression
 - Type 1 compliant (IEEE 1329 full duplex)
- Frequency response – 150 Hz – 7 kHz for handset, optional headset and hands-free speakerphone modes
- Codecs: G.711 (A-law and μ -law), G.729AB, G.722, G.722.1, iLBC
- Individual volume settings with visual feedback for each audio path
- Voice activity detection
- Comfort noise generation
- DTMF tone generation (RFC 2833 and in-band)
- Low-delay audio packet transmission
- Adaptive jitter buffers
- Packet loss concealment

Headset and handset compatibility

- Dedicated RJ-9 headset port
- Hearing aid compatibility to ITU-T P.370 and TIA 504A standards
- Compliant with ADA Section 508 Subpart B 1194.23 (all)
- Hearing aid compatible (HAC) handset for magnetic coupling to hearing aids
- Compatible with commercially available TTY adapter equipment

Call handling features¹

- 6 lines (programmable line keys)
- Shared call/bridged line appearance
- Busy Lamp Field (BLF)
- Flexible line appearance (1 or more line keys can be assigned for each line extension)

- Distinctive incoming call treatment/ call waiting
- Call timer and call waiting
- Call transfer, hold, divert (forward), pickup
- Called, calling, connected party information
- Local 3-way audio conferencing
- 1-touch speed dial, redial
- Remote missed call notification
- Do not disturb function
- Electronic hook switch capable
- Local configurable digit map/dial plan

Open application platform

- WebKit-enabled full browser that supports HTML5, CSS, SSL security, and JavaScript
- Supports Polycom Apps SDK and API for third-party business and personal applications
- Bundled with Polycom UC Software:
 - Corporate directory access using LDAP
 - Visual Conference Management

Network and provisioning

- SIP Protocol Support
- SDP
- IETF SIP (RFC 3261 and companion RFCs)
- Two-port Ethernet switch
 - 10/100Base-TX across LAN and PC ports (VVX 300)
 - 1000Base-TX available on VVX 310
 - Conforms to IEEE802.3-2005 (Clause 40) for Physical media attachment
- Conforms to IEEE802.3-2002 (Clause 28) for link partner auto-negotiation
- Manual or dynamic host configuration protocol (DHCP) network setup
- Time and date synchronization using SNTP
- FTP/TFTP/HTTP/HTTPS server-based central provisioning for mass deployments
- Provisioning and call server redundancy supported¹
- QoS Support – IEEE 802.1p/Q tagging (VLAN), Layer 3 TOS, and DHCP
- VLAN - CDP, DHCP VLAN discovery, LLDP-MED for VLAN discovery
 - Network address translation support for static configuration and “keep-alive” SIP signaling
- RTCP and RTP support
- Event logging
- Syslog
- Hardware diagnostics
- Status and statistics reporting
- IPv4

- TCP
- UDP
- DNS-SRV

Security

- 802.1X authentication and EAPOL media encryption via SRTP
- Transport layer security
- Encrypted configuration files
- Digest authentication
- Password login
- Support for URL syntax with password for boot server address
- HTTPS secure provisioning
- Support for signed software executables

Power

- Built-in auto sensing IEEE 802.3af Power over Ethernet (Class 2)
- External Universal AC adapter (optional), 48VDC 0.3A

Approvals

- FCC Part 15 (CFR 47) Class B
- ICES-003 Class B
- EN55022 Class B
- CISPR22 Class B
- VCCI Class B
- EN55024
- EN61000-3-2; EN61000-3-3
- NZ Telepermit
- Korea KC³
- UAE TRA⁴
- Russia CU⁴
- Brazil ANATEL⁴
- Australia RCM
- RoHS Compliant

Safety

- UL 60950-1
- CE Mark
- CAN/CSA C22.2 No 60950-1
- EN 60950-1
- IEC 60950-1
- AS/NZS 60950-1
- ICASA (add)
- CITC⁴

Operating conditions

- Temperature: 0 to 40°C (+32 to 104°F)
- Relative Humidity: 5% to 95%, noncondensing

Storage temperature

- -40 to +70°C (-40 to +160°F)

Polycom VVX 300 comes with:

- VVX 300 console
- Handset with handset cord
- Network (LAN) Cable - CAT-5E
- Quick Start Guide
 - A ferrite clamp is included in the box
 - Open Source OFFER is included in the box

Size

- 7.5 x 6 x 7 in (19 x 15 x 18 cm) (W x H x D)

Part numbers

- 2200-48300-025 – VVX 301 WW PoE
- 2200-48350-025 – VVX 311 WW PoE
- 2200-46135-025 – VVX 300 WW PoE
- 2200-46161-025 – VVX 310 WW PoE
- 2200-48300-019 – VVX 301 Skype for Business, POE
- 2200-48350-019 – VVX 311 Skype for Business, POE
- 2200-46135-019 – VVX 300 Skype for Business, POE
- 2200-46161-019 – VVX 310 Skype for Business, POE

Weight

- Unit weight: 2.0 lbs (0.9 kg)

Unit box dimensions

- 11.4 x 7.9 x 3.5 in (29 x 20 x 9 cm)
- 3.1 lbs (1.4 kg)

Master carton quantity

- Ten (10)

Country of origin

- China

Warranty

- One (1) year

1. Most software-enabled features and capabilities must be supported by the server. Please contact your IP PBX/softswitch vendor or service provider for a list of supported features.
2. To enjoy all the benefits of Polycom HD Voice when using the phone in the headset mode, you must use a wideband headset.
3. Planned future compliance
4. Planned future compliance for VVX 301/311.

DATA SHEET

Polycom® VVX® 400, 401, 410, 411 Business Media Phones

A color midrange business media phone for today's office workers and call attendants delivering crystal clear communications

The Polycom® VVX® 400 Series are expandable color business media phones that deliver crystal clear communications, enhanced collaboration and personal productivity.

Simplicity and ease of use

The VVX 400 Series brings high-quality, cost-effective solutions to front-line staff handling a moderate volume of calls through advanced unified communications (UC) telephony features. The intuitive color user interface of the VVX 400 Series makes navigation easy and requires minimal training.

Unsurpassed voice quality and clarity

The VVX 400 Series delivers breakthrough Polycom® HD Voice™ quality for lifelike conversations while minimizing fatigue, making calls more efficient and productive.

Maximize productivity

Give your front-line staff the best experience with this high-quality, 12-line color business media phone. The VVX 400 Series improves personal productivity by complementing the workplace applications on the computer. Users can view and manage their Microsoft Exchange Calendars, receive meeting reminders and alerts, access the corporate directory and instant messaging/presence status right on their phone display, even while waiting for their PC to boot. They can also extend their PC's desktop to include the VVX 400 Series screen for mouse/keyboard navigation and interaction.

Best-in-class deployment and administration

The VVX 400 Series is easy to deploy and simple to manage. Using an enterprise-grade, Web-based configuration method allows administrators to easily provision and maintain even a large number of phones throughout the entire organization.

Customizable and expandable

The VVX 400 Series provides personalized information at a glance, through built-in Web applications and custom backgrounds. The VVX 400 Series also comes ready for future expansion modules as your users' needs and business grows.

Market-leading open standards interoperability

Designed for enhanced interoperability, the VVX 400 Series leverages and complements the other existing IT investments in your business. With the broadest call server interoperability in the industry, the Polycom VVX 400 Series midrange business media phone can become the flexible and future-proof foundation for any organization's UC strategy.

Benefits

- Improve productivity for office staff and knowledge workers via an intuitive larger, color display and easy-to-use line appearances
- Make more efficient and productive calls with the unparalleled voice clarity of Polycom® HD Voice™
- Reduce deployment and maintenance costs—the Polycom Zero Touch Provisioning and Web-based configuration tool makes the VVX 400 Series simple to deploy, and easy to administer, upgrade and maintain
- Leverage previous IT infrastructure investments—deploy VVX 400 Series business media phones on your existing network without needing to upgrade your call control platform
- Easily integrate with third-party UC and productivity applications for broad, standards-based, open APIs
- Single USB port (2.0 compliant) for media and storage applications (VVX 401 / VVX 411 only)

- Compatible with commercially available TTY adapter equipment

Call handling features¹

- 12 lines (programmable line keys)
- Shared call/bridged line appearance
- Busy lamp field
- Flexible line appearance (1 or more line

keys can be assigned for each line extension)

- Supports compatible USB headsets
- Distinctive incoming call treatment/ call waiting
- Call timer and call waiting
- Call transfer, hold, divert (forward), pickup
- Called, calling, connected party information
- Local 3-way audio conferencing
- 1-touch speed dial, redial
- Remote missed call notification
- Do not disturb function
- Electronic hook switch capable
- Local configurable digit map/dial plan

Open application platform

- WebKit-enabled full browser that supports HTML5, CSS, SSL security and JavaScript
- Supports Polycom Apps SDK and API for third-party business and personal applications
- Bundled with Polycom UC Software:
 - Corporate directory access using LDAP
 - Visual conference management
 - Local voice call recording on USB flash drive

Network and provisioning

- SIP protocol support
- SDP
- IETF SIP (RFC 3261 and companion RFCs)
- Two-port gigabit Ethernet switch
 - 10/100Base-TX across LAN and PC Ports
 - 1000Base-TX available on VVX410
 - Conforms to IEEE802.3-2005 (Clause 40) for physical media attachment
 - Conforms to IEEE802.3-2002 (Clause 28) for link partner auto-negotiation
- Manual or dynamic host configuration protocol (DHCP) network setup
- Time and date synchronization using SNTP
- FTP/TFTP/HTTP/HTTPS server-based central provisioning for mass deployments
- Provisioning and call server redundancy supported¹
- QoS Support – IEEE 802.1p/Q tagging (VLAN), Layer 3 TOS, and DHCP
- VLAN-CDP, DHCP VLAN discovery, LLDP-MED for VLAN discovery
- Network address translation support for static configuration and “keep-alive” SIP signaling

- RTCP and RTP support
- Event logging
- Syslog
- Hardware diagnostics
- Status and statistics reporting
- IPv4
- TCP
- UDP
- DNS-SRV

Security

- 802.1X authentication and EAPOL
- Media encryption via SRTP
- Transport layer security
- Encrypted configuration files
- Digest authentication
- Password login
- Support for URL syntax with password for boot server address
- HTTPS secure provisioning
- Support for signed software executables

Power

- Built-in auto-sensing IEEE 802.3af Power over Ethernet
- Energy-saving after-hours mode
- External universal AC adapter (optional), 48VDC 0.3A

Approvals

DATA SHEET

Polycom® VVX® 500, 501 Business Media Phones

Performance business media phones that deliver best-in-class desktop productivity and unified communications for busy professionals

The Polycom® VVX® 500 Series performance business media phones unify superior voice capabilities and applications into a simple-to-use, yet high-performance unified communications (UC) solution. It is the ideal, all-in-one knowledge worker productivity tool, built to integrate seamlessly into a wide range of UC environments.

Simplicity and ease of use

The Polycom VVX 500 Series phone is built for today's busy managers and knowledge workers who need a powerful, expandable office phone that keeps up with their multitasking and schedule-juggling. Building on the behavior common to mobile phones, the multitouch, gesture-based user interface of the Polycom VVX 500 makes navigation intuitive and easy.

Maximize productivity

Designed for a broad range of environments from small and medium businesses to large enterprises, the Polycom VVX 500 Series performance business media phone improves productivity by complementing the workplace applications on the user's computer. Users benefit from such capabilities as viewing their Outlook calendar on the phone and receiving meeting reminders while still having access to their corporate directory—all while waiting for their PCs to boot. Users can also extend their PC desktop to include the Polycom VVX 500 Series screen, helping to enable simplified interactions and dialing using their PC's mouse and keyboard. Training and multipoint communication applications are complemented by the Polycom VVX 500 Series video playback capability for streaming content.

Best-in-class deployment and administration

The Polycom VVX 500 Series is easy to deploy and simple to manage. Its enterprise-grade, Web-based, intuitive configuration method gives administrators the ability to easily set up and maintain a large number of phones throughout the entire enterprise. The built-in, broad interoperability capabilities allow IT departments to leverage previous IT infrastructure investments and achieve easy integration with third-party UC and productivity applications.

Highly customizable and expandable

The Polycom VVX 500 Series provides personalized information at a glance, through built-in Web applications and even a digital photo frame. Polycom's "My Info Portal" serves up stocks, news, sports, weather and other streamed content directly to the phone screen. The Polycom VVX 500 Series is ready for future expansion modules and accessories for applications such as videoconferencing and even wireless networking.

Market-leading open standards interoperability

Designed for enhanced interoperability, leveraging and complementing the other existing IT investments of any enterprise, the Polycom VVX 500 Series delivers HD Voice™, a superior UC experience bundled with business applications. With the broadest call server interoperability in the industry, the Polycom VVX 500 Series business media phone is a flexible foundation for any organization's UC strategy.

Benefits

- Improves knowledge-worker productivity
- Reduces training time through superior calling features in a sleek design and simple-to-use phone
- Cuts telephony administration and maintenance costs
- Leverages previous IT infrastructure investments
- Easy to deploy, administer, upgrade and maintain
- Delivers easy integration with third-party UC and productivity applications

Product specifications

User interface features

- Gesture-based, multitouch-capable, capacitive touch-screen
- 3.5-in TFT LCD display at QVGA (320 x 240 pixel) resolution, 4:3 aspect ratio
- Screensaver and digital picture frame mode
- On-screen virtual keyboard
- Voicemail and videomail support¹
- Dual USB ports (2.0 compliant) for media and storage applications
- WebKit-based browser
- Adjustable base height
- Unicode UTF-8 character support. Multilingual user interface including Chinese, Danish, Dutch, English (Canada/US/UK), French, German, Italian, Japanese, Korean, Norwegian, Polish, Portuguese, Russian, Slovenian, Spanish and Swedish

Audio features

- Polycom® HD Voice™ technology delivers lifelike voice quality for each audio path—handset, the hands-free speakerphone and the optional headset
- Polycom® Acoustic Clarity™ technology, providing full-duplex conversations, acoustic echo cancellation and background noise suppression
 - Type 1 compliant (IEEE 1329 full duplex)
- Frequency response: 100 Hz–20 kHz for handset, optional headset and hands-free speakerphone modes
- Codecs: G.711 (A-law and μ -law), G.729AB, G.722, G.722.1, G.722.1C
- Individual volume settings with visual feedback for each audio path
- Voice activity detection
- Comfort noise generation
- DTMF tone generation (RFC 2833 and in-band)
- Low-delay audio packet transmission
- Adaptive jitter buffers
- Packet loss concealment

Headset and handset compatibility

- Dedicated RJ-9 headset port
- Hearing aid compatibility to ITU-T P.370 and TIA
- 504A standards
- Compliant with ADA Section 508 Subpart B 1194.23 (all)
- Hearing aid compatible handset for magnetic coupling to hearing aids
- Compatible with commercially available TTY adapter equipment
- Supports compatible USB headsets

Call handling features¹

- 12 lines (registrations)
- Up to 24 simultaneous calls
- Shared call/bridged line appearance
- Flexible line appearance (1 or more line keys can be assigned for each line extension)

DATA SHEET

Polycom® VVX® 600, 601 Business Media Phones

Premium business media phones delivering best-in-class desktop productivity for busy corporate executives and managers

The Polycom® VVX® 600 Series are premium business media phones designed to enhance collaboration and personal productivity.

Simplicity and ease of use

The Polycom VVX 600 Series is built for executives and managers who need a powerful, yet intuitive, expandable office phone that helps them stay connected to lead your organization. Founded on the behavior common to smartphones and tablets, the intuitive gesture-based, multitouch user interface of the Polycom VVX 600 Series makes navigation easy and requires minimal training. With its combined ergonomic design, Polycom® HD Voice™ quality and a large, high-resolution color, multitouch screen, the Polycom VVX 600 Series business media phone is ideal.

Maximize productivity

Give your executives and managers the best unified communications (UC) experience and the industry's highest-quality business media phone. Designed for a broad range of environments from small and medium businesses to large enterprises, the Polycom VVX 600 Series improves personal productivity by complementing the workplace applications on their computer. Users can view and manage their Microsoft Exchange Calendars, receive meeting reminders and alerts, access the corporate directory and instant messaging/presence status right on their phone display, even while waiting for their PC to boot. They can also extend their PC's desktop to include the Polycom VVX 600 Series screen for mouse/keyboard navigation and interaction.

Best-in-class deployment and administration

The Polycom VVX 600 Series is easy to deploy and simple to manage through the Web-based, intuitive configuration tool. Its enterprise-grade Zero Touch Provisioning and server-based configuration on large-scale deployments as well as our redirection services gives your administrators the ability to easily provision and maintain a large number of phones throughout the entire enterprise. The built-in, broad interoperability capabilities allow IT departments to leverage previous IT infrastructure investments and achieve easy integration with third-party UC and productivity applications.

Highly customizable and expandable

The Polycom VVX 600 Series provides personalized information at a glance, through built-in Web applications and a digital photo frame. Polycom VVX 600 Series users access streaming content using the included video playback feature. The Polycom VVX 600 Series comes ready for future expansion modules and applications such as videoconferencing with the Polycom VVX Camera. The optional Polycom VVX Camera installs in seconds and enables the Polycom VVX 600 Series to connect into video conferences directly from the user's desk, without requiring a costly, dedicated video-conference room.

Benefits

- Improve productivity for executives and managers through larger, color multitouch display and more line appearances
- Make more efficient and productive calls with the unparalleled voice clarity of Polycom® HD Voice™
- Turn your Polycom® VVX® Business Media Phone into a videoconference ready desktop videoconferencing solution with an optional Polycom® VVX® Camera
- Improve workspace mobility through Bluetooth® headset integration
- Reduce deployment and maintenance costs—the Polycom Zero Touch Provisioning and Web-based configuration tool make the Polycom VVX 600 Series simple to deploy, and easy to administer, upgrade and maintain
- Leverage previous IT infrastructure investments—deploy Polycom VVX 600 Series business media phones on your existing network without needing to upgrade your call control platform
- Easily integrate with third-party Web-based UC and productivity applications for broad, standards-based, open APIs

DATA SHEET

Polycom® VVX® Color Expansion Module

Turn your Polycom VVX business media phone into a high-performance color attendant console

The Polycom VVX Color Expansion Module is an optimal solution for telephone attendants, receptionists, administrative staff, team managers, and other “power users” who manage teams, workflows, or multiple simultaneous telephone calls on a daily basis.

The Polycom VVX Color Expansion Module extends the functionality of Polycom VVX business media phones and provides multifunctional line keys that can be set up as line registrations, call appearances, speed dials, direct station select, busy lamp field or even Lync® favorites. The VVX Color Expansion Module seamlessly matches the look and feel of your VVX business media phone.

VVX business media phones can be fully equipped with up to three VVX Expansion Modules. With VVX Expansion Modules, users can reduce the number of lost customer calls, shorten transaction times, and increase the accuracy of call routing by promptly accepting, accurately screening, efficiently dispatching and effortlessly monitoring calls.

The VVX Color Expansion Module is a true plug-and-play device that requires no separate set-up as power and signaling are provided by the host VVX business media phone.

The VVX Color Expansion Module provides an easy transition from traditional PBX features and functionality into the world of Voice over IP with its intuitive user interface, presence indication and pleasing call visualization experience similar to that on VVX business media phones.

Like all Polycom VoIP products, the VVX Color Expansion Module is standards-based and fully interoperable with Polycom partners’ IP telephony server solutions.³ With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate communications experience.

Benefits

- **Increase productivity**—The VVX Color Expansion Module provides advanced call handling capabilities with a vibrant visual experience that simplifies monitoring contacts and management of a high volume of concurrent calls
- **Ease of use**—Large, high resolution LCD, 28 illuminated bi-color programmable line keys, and user-friendly call visualization provide an intuitive user interface
- **Ease of Installation and Setup**—Virtually no installation or setup is required, as signaling and powering are provided by the host phone
- **Leverage previous IT infrastructure investment**—Get the most out of your Polycom VVX business media phones by equipping them with Expansion Modules, turning them into fully-enhanced personal desktop solutions

VVX Color Expansion Module specifications

Display

- 4.3 in LCD (480x272 pixel resolution)
- Color graphical user interface

Feature keys

- 28 multifunctional line keys configurable as line registration, call appearance, speed dial, DSS, or BLF
- Dual-color (red or green) illuminated LEDs for line status information
- 3 page keys for additional line appearances (up to 84 in total)

Compatible VVX phone models¹

- Polycom® VVX® 300/310
- Polycom® VVX® 400/410
- Polycom® VVX® 500
- Polycom® VVX® 600

Communication with host phone and/or other modules

- 2 auxiliary ports (RJ-11)

Expandability

- Up to three VVX Expansion Modules can be attached to any VVX phone²

Feature support

- Additional line registrations (up to 34 total)
- Shared call appearance, bridged line appearance (Key system emulation)
- Call transfer
- Busy lamp field
- Speed dial
- Fully programmable line appearances
- Multilingual user interface (driven from host phone) encompassing Chinese,

Danish, Dutch, English, French, German, Italian, Japanese, Korean, Norwegian, Polish, Portuguese, Russian, Slovenian, Spanish and Swedish

- Microsoft® Lync® Presence

Power

- Provided by Polycom VVX host phone
- Host phone powering options: IEEE 802.3(af/at) PoE or using a compatible external AC adapter
- Powering starts automatically upon auxiliary port connection
- No additional power source is required²

Approvals

- CE Mark
- VCCI
- C-Tick

Safety

- UL 60950-1
- CAN/CSA-C22.2 No. 60950-1
- EN 60950-1
- IEC 60950-1
- AS/NZS 60950-1

Operating conditions

- Temperature: 0—40° C (+32—104° F)
- Relative Humidity: 5% to 95%, noncondensing

Storage temperature

- -40—70° C (-40—160° F)

VVX Color Expansion Module ships with

- VVX Color Expansion Module console
- VVX Color Expansion Module desk stand
- Attachment bracket with hand screws (2)
- Auxiliary cable

- Quick start guide

Dimensions

- 5 in x 5 in x 6.5 in (12.5 cm x 12.5 cm x 16 cm) (W x H x D)

Weight

- Physical: 1 lb (0.5 kg)

Unit box dimensions/weight

- 11 in x 6 in x 3.5 in (27.9 cm x 15.2 cm x 8.9 cm)

Unit box weight

- 1.54 lb (0.7 kg)

Master carton quantity

- Ten (10)

Country of origin

- China

Warranty

- One (1) year

Part number/UPC code

- 2200-46350-025 / 610807781950

Available accessories

- Wallmount

1. Requires UC Software 4.1.6 on host phone, if running UCS 4.1.x, or UCS 5.1.0 (available post-FCS) if running UCS 5.x
2. Depends on power available to phone which varies by deployment. For support of up to three Expansion Modules on VVX 500/600, PoE+ or external AC adapter is required
3. Contact your IP PBX/Softswitch vendor or service provider for a list of supported features.

About this guide

The Partner Solutions Guide describes how a partner solution and Polycom combine to solve specific customer needs.

The Polycom Partner Solutions Guide is for administrators who need to integrate Silex SX-BR-4600WAN with Polycom VVX Series Business Media Phones

Please read Silex documentation before you install or operate the system.

Overview

Untether your VVX Phones – Add Secure Wi-Fi Capability

Using the Silex SX-BR-4600WAN Ethernet to Wireless Bridge with Polycom® VVX® Business Media Phones

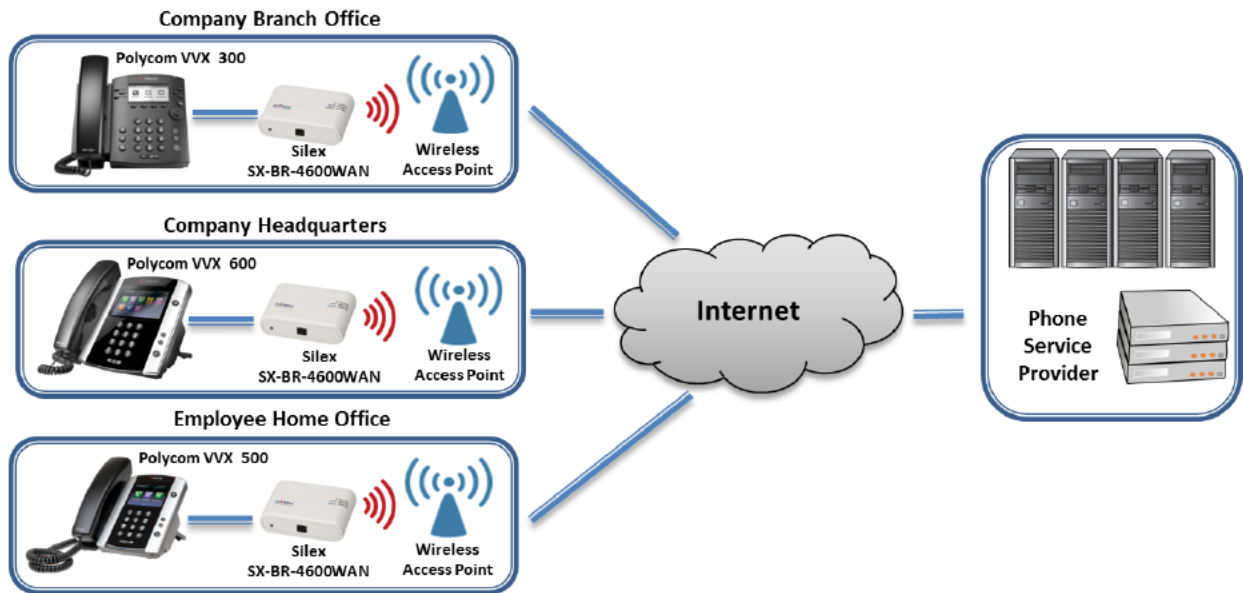

This document explains how system administrators and users can use the Silex SX-BR-4600WAN Ethernet to Wi-Fi Bridge with a Polycom® VVX® business media phones to allow connection to the organization's existing wireless network.

The adapter can connect any device with an Ethernet port to your existing wireless network. Used with a VVX phone, it allows flexibility to locate the VVX phone in places where running cables is difficult or inconvenient.

Using VVX Phones on wireless networks within a building

Using VVX Phones on wireless networks company wide

The Silex SX-BR-4600WAN is expected to work with any Ethernet device, including VVX phones running any version of software. It was specifically tested on the following software versions:

| Device | Software Version |
|-----------------------|------------------|
| Polycom VVX 300 Phone | UC 5.1.1 |
| Polycom VVX 500 Phone | UC 5.1.1 |
| Polycom VVX 600 Phone | UC 5.1.1 |
| Silex SX-BR-4600WAN | FW v1.5.0 |

Note: If there are any issues with the VVX phone while connected to the SX-BR-4600WAN, please disconnect the phone from the SX-BR-4600WAN, and connect it back into the Ethernet Wired LAN to ensure the phone works properly with a wired connection.

Installation

Connecting the WiFi Adapter to the VVX phone

This section takes you through the steps to connect a VVX phone to the Silex SX-BR-4600WAN.

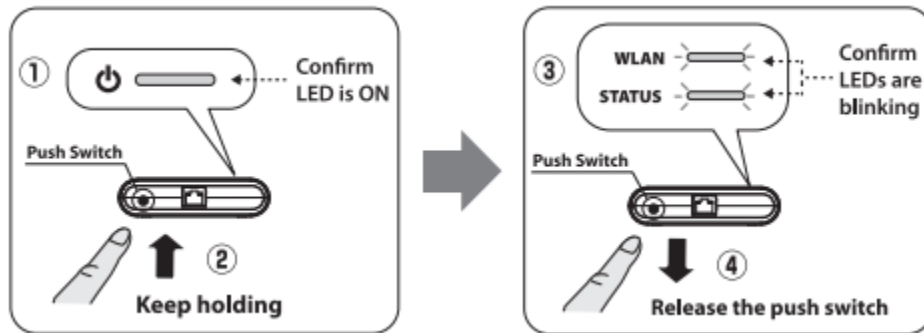

Note: You can also configure this product using WPS (Wi-Fi Protected Setup). If your wireless network supports WPS and you want to use it, or more information about support, software downloads, documentation and more, please refer to the support page for SX-BR-4600WAN: <http://www.silexamerica.com/products/support/wireless-infrastructure/sx-br-4600wan/>

Step 1 – Start the Configuration Mode of the bridge

1. Please disconnect any wireless connection to the router and/or remove the Ethernet cable currently connected to the computer. You may restore the connection after the SX-BR-4600WAN installation is complete.
2. Connect the SX-BR-4600WAN to your computer using the Ethernet cable (included) and connect the power adapter.

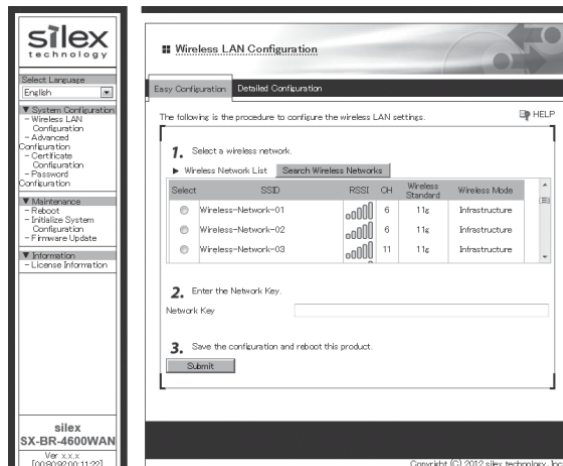

3. When the **POWER LED** (first) turns on, press and hold the push button switch (on the front side to the left of the Ethernet connector). Release the push switch when the **WLAN LED** and the **STATUS LED** start to blink together (it may take 20 seconds until it starts blinking).

The product will start running in **Configuration Mode**. Now you can configure the product from the PC that is connected to the SX-BR-4600WAN with the Ethernet cable.

Step 2 – Setup

1. Open your web browser (Chrome, Firefox, Safari, etc.) on the PC you are using for the setup. The browser configuration setup page will automatically display.

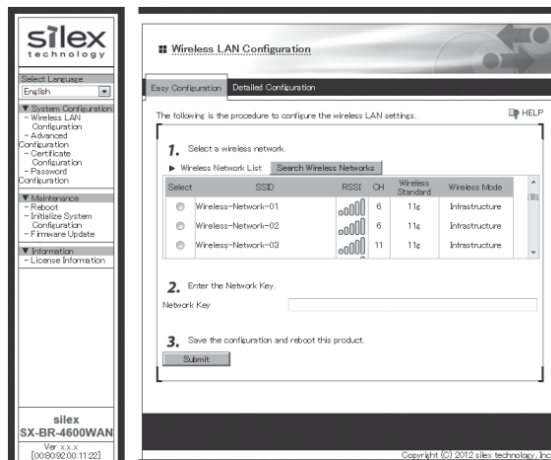

Note: If the configuration web page is not displayed, enter "silex" in the address bar of the web browser and press the "Enter" key.

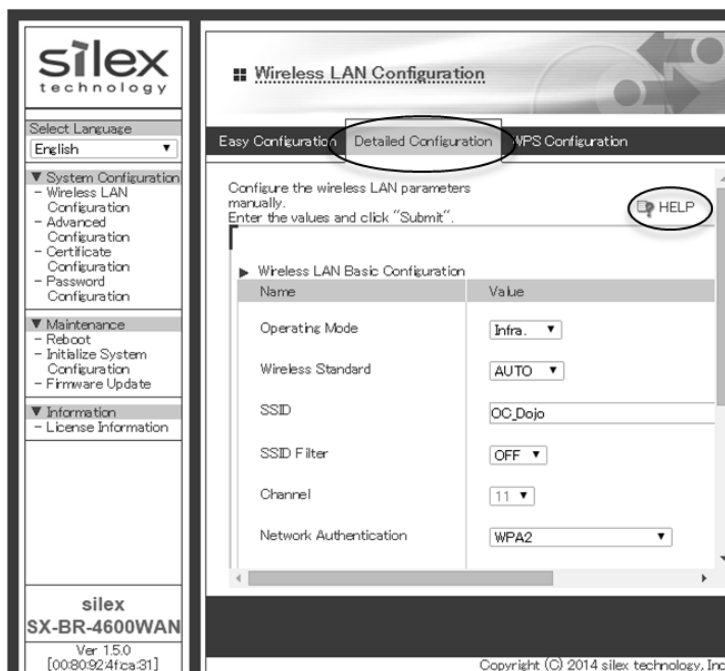

If a password has been previously configured, the password entry screen will be displayed. Enter the password and click login.

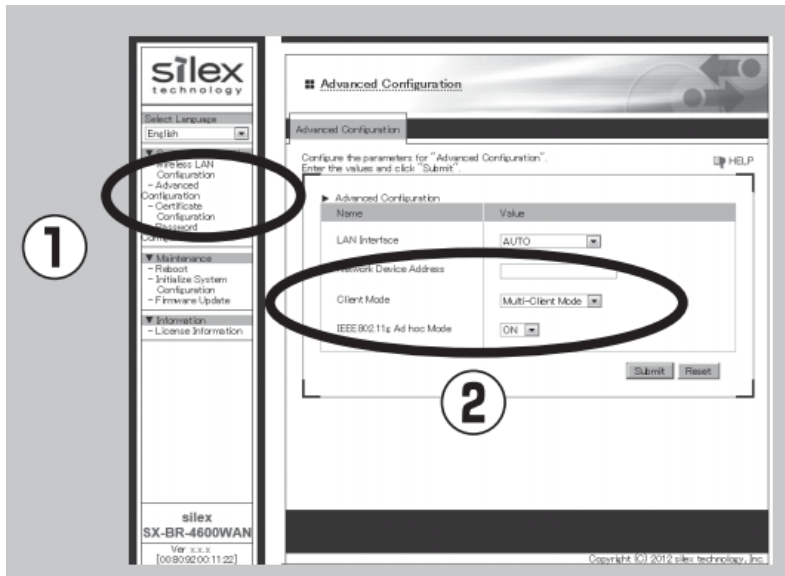

2. Select the destination network that you want your VVX phone to join, and enter the network password (WEP or WPA Pre-Shared Key) for the **Network Key**. Click **Submit** when finished.

Note: If the network is not displayed (hidden SSID) or if you want to set up Enterprise 802.1x security, click on **Detailed Configuration** and configure the settings for your wireless network. You may need to contact the network administrator for the settings. More details are available by clicking **HELP** on any screen in the web browser configuration.

Note: If you want to be able to use the PC Port of your VVX phone to connect a computer or other network device, click **Advanced Configuration**, and change the **Client Mode** to **Multi-Client Mode**.

3. Once the message appears indicating the configuration has been completed, close the web browser.

Partner Solution Guide – Silex Technology

4. The configuration of the SX-BR-4600WAN is now complete. Disconnect the Ethernet Cable from the computer, and you can plug it into the LAN port of your VVX phone. If you want to use the LAN port of your phone for connection to a PC, please refer to Step 2, Section 2.

Service Level Agreement Definitions

Service Level Agreement Definitions

| | |
|----------------------------------|--|
| Agency Level | <i>Service levels that are applied to each agency per each agency location. The measurement describes supplier performance per agency per location.</i> |
| CM – Critical Measurement | <i>Service Levels identified as “CM”, Critical Measurement, will have remedy credits incurred when service level minimum and target criteria are not met.</i> |
| Enterprise Level | <i>Service levels applied to a service that is provided to all agencies, but calculated as one encompassing Service Level, i.e. Internet.</i> |
| Service Level (SL) Target | <i>A commitment that is documented in a service level agreement.</i> |
| SL Minimum | <i>A measure of minimum expected performance. Actual results below the SL Minimum will incur a Remedy and negate Earn back as described in each SLA reference.</i> |
| Measurement Window | <i>Measurement window is 24/7.</i> |
| KM – Key Measurement | <i>SLAs for which the Remedy is designated as KM shall be reviewed monthly by the Commonwealth but will not entitle the Commonwealth to any credits if service levels are not met. Any request by the Commonwealth that an SLA designated as a KM be converted to a credit-bearing SLA shall be negotiated in accordance with the Commonwealth Contract Change Procedures. <u>Verizon’s position is that a conversion from a KM to a CM via the Contract Change Process will include the ability to reasonably re-negotiate the penalty and SLA metrics.</u></i> |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|---|---|--------|---------|-----------|-----------------------------|
| SLA - 01 Time to Deliver - Agency | CM | 989% | 957.05% | 9 months | (Service Commencement Date) |
| Definition | All service orders completed on time within the measurement window. Completed service orders indicate service is ready for use per applicable status in ESMS. | | | | |
| Metric Description | Timeliness – Service delivered on time. This Service Level calculation is the total number of Orders that are successfully completed per agency during the applicable Measurement Window on or before the due date specified minus the total number of service orders not met divided by the total number of orders have been completed during the applicable Measurement Window, expressed as a percentage. | | | | |
| Metric Inclusions | All Service Orders completed during measurement window. | | | | |
| Metric Exclusions | Customer hold time - must be documented and approved. <u>Verizon is not responsible for delays caused by COPA, other third parties not under Verizon's control or factors outside of Verizon's control (such as facilities not available)</u> | | | | |
| Calculation | % Timeliness = ((Total number of service orders completed – Total number of service orders not met) / Total number of service orders completed) *100 (NOTE: calculated per agency) | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Orders, Number of Orders Missed, Target SL, Minimum SL, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No]</p> <p><i>(Suggested)</i></p> <p>Detail categorized by Service, by Category and by Type to include Order Number, Unique ID, Agency, Service Sub-Type, Date Submitted, Date Requested, Date Completed, Number of Business Days to Complete, SL Interval, Reason Interval was not Met.</p> | | | | |
| Remedy Credit | \$1,000 100% MRC credit for each order missed <u>below the target</u> . Remedy Credit to be applied directly to agency affected <u>with a max cap of \$1000 per order</u> | | | | |

Formatted: Font color: Red

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|---|--------|-------|-----------|-----------------------------|
| SLA – 02 Time to Respond - Enterprise | CM | 98.59% | 97.5% | 9 months | (Service Commencement Date) |
| Definition | Time to respond to service requests within 30 minutes during the measurement window. Response means: Notable action taken to move forward in resolving the issue | | | | |
| Metric Description | Timeliness. The percent of trouble tickets responded to within 30 minutes of creation of the trouble ticket. The calculation is the total number of Trouble Tickets responded to on or before the 30 minutes of ticket creation during the applicable Measurement Window divided by the total number of Trouble Tickets created during the applicable Measurement Window, expressed as a percentage. | | | | |
| Metric Inclusions | All trouble tickets generated during the measurement window. | | | | |
| Metric Exclusions | No exclusions. | | | | |
| Calculation | $\% \text{ Timeliness} = (\text{Total number of Trouble Tickets within the month responded to within 30 minutes of create time}) / (\text{Total number of Trouble Tickets within the month}) * 100$ | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Tickets, Number of Tickets that Missed the Interval, Target SL, Minimum SL, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No]; Detail to include Ticket Number, Agency, Type of Service, Brief Description of Issue, Ticket Create Date and Time, Date and Time of First Response, Time to Respond [Hrs:Mins], Reason Interval was not Met.</p> <p>Detailed Exclusion Report: Ticket Number, Agency, Brief Description of Issue, Type of Service, Ticket Create Date and Time, Date and Time of First Response, Time to Respond [Hrs:Mins], Reason for Exclusion.</p> <p>Trouble Ticket Response Chart: to include Department Number, Agency Name, Number of Tickets per Agency; Graphical representation.</p> | | | | |
| Remedy Credit | \$8,000 <u>per service level violation.</u> | | | | |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|---|---|---------|---------|-----------|-----------------------------|
| SLA – 03 Change Management - Successfulness - Enterprise | CM | 98% 96% | 95% 93% | 9 months | (Service Commencement Date) |
| Definition | All change requests completed successfully. Determination of successful is as defined in the Commonwealth Change Management process. | | | | |
| Metric Description | This Service Level calculation is the total number of Change Requests successfully completed during the applicable Measurement Window minus the Change Requests that were not successfully completed during the applicable Measurement Window divided by the total number of Change Requests completed during the applicable Measurement Window, expressed as a percentage. Unauthorized changes <u>that result in a service interruption</u> will not be accepted and will incur an immediate Remedy and negate earn back potential. | | | | |
| Metric Inclusions | All Change Orders completed during measurement window. | | | | |
| Metric Exclusions | Customer hold time - must be documented and approved. If Commonwealth-Verizon is not responsible for failed changes due to actions by COPA and/or other third parties not under Verizon's control, is determined the cause of a failed change. | | | | |
| Calculation | % Successful= ((Total number of Successful Change Requests completed -Total number of unsuccessful Change Requests) / (Total number of Change Requests completed)) *100 | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Change Requests, Number of Change Requests Missed, Target SL, Minimum SL, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No]. <i>(Suggested)</i></p> <p>Detail: categorized by Change Request ID, by Category and by Type, Response Unit, Response Agent, Date Submitted, Date Requested, Date Completed, Number of Calendar Days/Hours to Complete, SL Interval, Reason Interval was not Met.</p> | | | | |
| Remedy Credit | \$10,000 Any Unauthorized Changes <u>that results in a service interruption</u> during measurement window- \$15,000 | | | | |

Commented [VZ1]: Verizon believes the following proposed percentages represent best in class performance, given that the projected volume of change requests is expected to be relatively low, based on historical performance of similar service under the current Agreement.

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date | | | | | | | | | | |
|---|--|--------|-----|-----------|-----------------------------|---------------|------|-----------|------------------|----------|--------------------|--------|------------------|----------|------------------|
| SLA – 03a Change Management - Timeliness - Enterprise | KM | 95% | 90% | 9 months | (Service Commencement Date) | | | | | | | | | | |
| Definition | All change requests successfully completed within the measurement window. | | | | | | | | | | | | | | |
| Metric Description | Timeliness – Change requests completed on time. This Service Level calculation is the total number of Change Requests successfully completed during the applicable Measurement Window minus the Change Requests that were not successfully completed within the specified time interval for that priority type during the applicable Measurement Window divided by the total number of Change Requests completed during the applicable Measurement Window, expressed as a percentage. Unauthorized changes will not be accepted and will incur an immediate Remedy. <u>In the event that such changes result in a service impacting event,</u> | | | | | | | | | | | | | | |
| Metric Inclusions | All Change Orders completed during measurement window. | | | | | | | | | | | | | | |
| Metric Exclusions | Customer hold time - must be documented and approved. <u>Verizon is not responsible for delays caused by COPA or third-parties not under Verizon's control.</u> | | | | | | | | | | | | | | |
| Calculation | $\% \text{ Timeliness} = \left(\frac{\text{Total number of Change Requests completed} - \text{Change Requests not completed according to priority type}}{\text{Total number of Change Requests completed}} \right) * 100$ <table border="1"> <thead> <tr> <th>Priority Type</th> <th>Time</th> </tr> </thead> <tbody> <tr> <td>Emergency</td> <td>Less than 1 hour</td> </tr> <tr> <td>Expedite</td> <td>Less than 24 hours</td> </tr> <tr> <td>Normal</td> <td>Less than 5 days</td> </tr> <tr> <td>Standard</td> <td>Less than 7 days</td> </tr> </tbody> </table> | | | | | Priority Type | Time | Emergency | Less than 1 hour | Expedite | Less than 24 hours | Normal | Less than 5 days | Standard | Less than 7 days |
| Priority Type | Time | | | | | | | | | | | | | | |
| Emergency | Less than 1 hour | | | | | | | | | | | | | | |
| Expedite | Less than 24 hours | | | | | | | | | | | | | | |
| Normal | Less than 5 days | | | | | | | | | | | | | | |
| Standard | Less than 7 days | | | | | | | | | | | | | | |

Remedy Credit

\$8,000. Verizon's position is that a conversion from a KM to a CM via the Contract Change Process will include the ability to reasonably re-negotiate the penalty and SLA metrics.

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|--|--------|-----|-----------|-----------------------------|
| SLA – 04 Chronic Problem - Agency | KM | 1 | 2 | 9 months | (Service Commencement Date) |
| Definition | Incidents occurring greater than <u>23</u> times on a single product/service/component reported within the measurement window. <u>that have a similar root cause identified</u> | | | | |
| Metric Description | Service Quality – Chronic problem identification. This Service Level calculation is the total number of Chronic Problem Items during the applicable Measurement Window. | | | | |
| Metric Inclusions | Product/Service/Component(s) that are identified as Chronic during the applicable Measurement Window. | | | | |
| Metric Exclusions | Customer hold time (must be documented and approved) password resets, and any other item that needs to be excluded per approval of COPA management. <u>Verizon is not responsible for incidents caused by COPA or third-parties not under Verizon's control</u> | | | | |
| Calculation | Total count of product/service/component identified as a chronic problem item. | | | | |
| Hours/Days of Measurement | 24 hours X 365 days – rolling <u>630</u> days (starting on the first day of the first incident being reported) | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Active Services/Devices Measured, Number of Chronics, Target SL, Minimum SL, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Ticket Number, Status, Service/Device Identifier, Agency, Product [Model], Data, Etc.], Brief Summary of Problem, Create Date/Time, Resolve Date/Time, Closed Date/Time, Number of Days Ticket Open, Hours to Resolve, Total Issues per Service/Device Identifier, Total Hours to Resolve per Service/Device Identifier; Categorized by Agency, Proposed Resolution to Chronic Problem, Action by Vendor, Status of Resolution.</p> <p>Detailed Exclusion Report: Ticket Number, Status, Service/Device Identifier, Agency, Product [Voice, ACD, Data, Etc.], Brief Summary of Problem, Create Date/Time, Resolve Date/Time, Closed Date/Time, Number of Days Ticket Open, Hours to Resolve, Total Issues per Unique Identifier, Reason for Exclusion, Categorized by Agency.</p> | | | | |
| Remedy Credit | One month credit for cost of individual services with chronic issues. Remedy Credit to be applied directly to agency affected. <u>Verizon's position is that a conversion from a KM to a CM via the Contract Change Process will include the ability to reasonably re-negotiate the penalty and SLA metrics.</u> | | | | |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|---|---------|---------|-----------|-----------------------------|
| SLA – 05 Incident Notification - Enterprise | CM | 100.00% | 98.00 % | 9 months | (Service Commencement Date) |
| Definition | Notifications for unavailable or degradation statuses delivered to the Commonwealth within the measurement window. | | | | |
| Metric Description | Timeliness – Delivery system unavailability or degradation notifications. The Service Level calculation for unavailable or degradation notifications delivered to the Commonwealth within 30 minutes from discovering or receiving notice of system unavailability or degradation <u>and subsequent trouble ticket creation</u> divided by the total number of unavailable or degradation notifications required within the measurement window, expressed as a percentage. | | | | |
| Metric Inclusions | All required notifications during measurement window. | | | | |
| Metric Exclusions | Customer hold time - must be documented and approved . Also, any other item that needs to be excluded, i.e. requests for help in the use of a service, requests to enhance a service, requests to add or change the Service features, or fulfillment requests (i.e., requests to add users or reset passwords), and user errors. <u>Verizon is not responsible for inability to Notify within the stated timeframe due to circumstances outside of Verizon's control</u> | | | | |
| Calculation | $\% \text{ Timeliness} = ((\text{Count of unavailability and/or degradation Incidents requiring notification} - \text{Count of unavailability and/or degradation incidents not delivered within 30 minutes}) / (\text{Count of unavailability and/or degradation Incidents requiring notification})) * 100$ | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |

| SLA – 08 Security Incident Notification - Enterprise | CM | 1 hour | 2 hours | 9 months | (Service Commencement Date) |
| Definition | The time to notify the Commonwealth of all Security Incidents shall not exceed the Service Level. | | | | |
| Metric Description | Time to notify is defined as identification of the issue until the Commonwealth is notified. | | | | |
| Metric Inclusions | All Managed Security Services | | | | |
| Metric Exclusions | None <u>Verizon is not responsible for inability to Notify within the stated timeframe due to circumstances outside of Verizon's control</u> | | | | |
| Calculation | Time to Notify = date and time of Security Incident Notification to the Commonwealth minus (date and time of Incident Identification) | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include: Minimum SL, Target SL, Total Number of Incident Notifications, Number of Incident Notifications Missed, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Ticket number, Category, Brief description of incident, Ticket create date & time, Engineer assignment date and time, Method of Communication, Time to complete in hours, Minimum SL Achieved [Yes/No], Target SL Achieved [Yes/No], To be sorted by category; Summarized by: Count of tickets for the month, Count of tickets that missed the Minimum & Target SL.</p> <p>Detailed exclusion report to include: Ticket number, Category, Brief description of incident, Ticket create date & time, Engineer assignment date & time, Time to complete in hours, Minimum SL Achieved [Yes/No], Target SL Achieved [Yes/No]</p> | | | | |
| Remedy Credit | \$15,000 <u>per incident</u> | | | | |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|--|--|---|-----------|-----------------------------|
| SLA - 09 Availability (Voice Services) - Agency (per location) | CM | <u>Gold <5 Min</u> <u>Silver <30 Min</u> <u>Bronze <2.5 Hours</u> <u>Lot1 Services</u> <u>monthly</u> <u>Availability per</u> <u>agency location =</u> <u>99.9 %</u> <u>Lot2 Services</u> <u>monthly</u> <u>Availability per</u> <u>agency location =</u> <u>99.0 %</u> | <u>Gold <10 Min</u> <u>Silver <45 Min</u> <u>Bronze <3 Hours</u> | 9 months | (Service Commencement Date) |
| Definition | <p>Availability of the application/component/service and not in a degraded state.</p> <p>Unavailable—all users and critical functions are affected by the unscheduled downtime or incident. Service is completely unavailable.</p> <p>Partial degradation—one or more critical business functions of the application is unavailable; or a workaround exists for the impacted business functions.</p> <p>Minor degradation—all critical business functions are available but a portion of users are impacted; or a workaround exists for the impacted business functions.</p> <p>Workaround—A temporary solution to the problem(s) raised by an Incident, which must be removed for the Incident to be brought to Resolution.</p> <p>Voice Services—Voice Services to included, but not limited to voice lines, Auto Attendants, trunking, toll free, Centrex, and POTS.</p> | | | | |
| Metric Description | <p>Availability - Percentage of time the application/component/service is available and non-degraded. Degradation shall mean a Service that tests as fully operational but is degraded below the baselines established during acceptance testing or one or more critical business functions of the application is unavailable and any portion of the users are impacted. A workaround process shall not be considered as acceptable availability. This includes, but is not limited to, slow performance and/or intermittent system errors.</p> | | | | |
| Metric Inclusions | <p>All applications/components/services required by the Commonwealth/agency in operation within the measurement window. Service Levels defined by the CMDB, whereas, the availability targets are assigned according to the following service levels:</p> <p><u>Lot1 Services monthly Availability per agency location = 99.9%</u></p> | | | | |

Commented [JK2]: VZ's position is that "critical business functions are available via a workaround" (because the Solution has been designed to do that), then that should not count towards the "Availability" SLA.

Commented [JK3]: COPA has stated that MS is the chosen provider for UCC services. The Microsoft SLA for Skype for Business platform Availability is 99.9%. As such Verizon is not able to offer a higher per-location Availability SLA for the overall solution than Microsoft itself is offering for the platform itself.

| | |
|---|--|
| | <p><u>Lot2 Services monthly Availability per agency location = 99.0%</u></p> <p><u>Gold < 5 outage/degraded minutes in calendar month</u></p> <p><u>Silver < 30 outage/degraded minutes in calendar month</u></p> <p><u>Bronze < 2.5 outage/degraded hours (150 min) in a calendar month</u></p> |
| Metric Exclusions | <p>The Service Level measurement does not include any degradation of the Service experienced outside of the vendor's control.</p> <p>Scheduled maintenance, provided that the Agency is informed of scheduled maintenance that will directly affect the Service at least seven (7) calendar days before maintenance work commences, and the Agency approves the scheduled downtime.</p> |
| Calculation | <p>The Service Level calculation for Availability is the total outage minutes per agency, per location, by tier.</p> <p><u>The Service Level calculation for Availability per location = (1 - (Total Outage and Degradated Minutes per month / (# of days in a month * 24 * 60))) * 100</u></p> |
| Hours/Days of Measurement | 24 hours X 365 days |
| Reporting Window | Monthly |
| Reporting Tools / Data Source(s) | TBD |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Trouble Tickets, Number of Tickets that Missed the Service Level, Target SL [in Minutes] and [in Hours], Minimum SL [in Minutes] and [in Hours], Actual SL [Average Time to Restore] [in Minutes] and [in Hours], Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Trouble Ticket Number, Server Name, Agency, Service/Device Identifier, Create Date/Time, Resolve Date/Time, Hold Time, Time-to-Restore [in Minutes], Outage Cause, Resolution, and Categorized by Agency.</p> <p>Detailed Exclusion Report: Trouble Ticket Number, Server Name, Agency, Service/Device Identifier, Create Date/Time, Resolve Date/Time, Hold Time, Time-to-Restore [in Minutes], Outage Cause, Resolution, Reason for Exclusion, Categorized by Agency.</p> |
| Remedy Credit | <p><u>100% Monthly Invoice For each hour (or fraction thereof) of downtime in excess of monthly Availability service level commitment per LOT, COPA shall be eligible for one day's worth of the monthly recurring charge for the affected location(s) up to 100% of the MRC</u></p> |

| Service Level Reference | SL Class | Target | Min | Start Date |
|---|---|---|---|-----------------------------|
| SLA – 10 Time to Resolve - Agency | CM | Gold <2 Hours Silver <4 Hours Bronze <8 Hours <u>Lot 1 = 4 hrs</u> <u>Lot 2= 24 hrs</u> | Gold <3 Hours Silver <5 Hours Bronze <9 Hours | (Service Commencement Date) |
| Definition | Amount of time from when the problem/incident is reported until the problem is resolved or full where “resolved” means full functionality is restored within the measurement window. | | | |
| Metric Description | Timeliness – Time to resolve each reported incidents. | | | |
| Metric Inclusions | All incident service tickets completed during measurement window. | | | |
| Metric Exclusions | Customer hold time - must be documented and approved. Also, any other item that needs to be excluded, i.e. requests for help in the use of a service, requests to enhance a service, requests to add or change the Service features, or fulfillment requests (i.e., requests to add users or reset passwords), and user errors. Verizon is not responsible for inability to Resolve within the stated timeframes due to circumstances outside of Verizon’s control | | | |
| Calculation | <p>Summary: The Service Level calculation is the (Ticket Resolution Time minus the Ticket Create Time minus Customer Hold Time) equals total number of hours to resolve.</p> <p>Measurement Windows as defined by tiers listed below:</p> <p><u>Lot 1 = 4 hrs</u> <u>Lot 2= 24 hrs</u></p> <p>Gold < 2 hours per incident Silver <4 hours per incident Bronze <8 hours per incident</p> | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | |

| Reporting Format/s | <p>Report Elements: Header to include Total Number of Trouble Tickets, Number of Tickets that Missed the Service Level, Target SL, Minimum SL, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Ticket Number, Priority, Agency, Type of Service, Brief Description of Issue, Start Date and Time, Restore Date and Time, Hold Time, Time to Restore [Hrs:Mins], Reason Interval was not Met.</p> <p>Itemize each incident as a line item with total credit due per incident with a sum per agency.</p> <p><i>(Suggested)</i></p> <p>Detailed Exclusion Report: Ticket Number, Priority, Agency, Type of Service, Brief Description of Issue, Start Date and Time, Restore Date and Time, Hold Time, Time to Restore [Hrs:Mins], Missed or Met Status, Reason for Exclusion, Categorized by Service</p> <p>Monthly overview of Enterprise Services: in table format by Enterprise Service with Number of Trouble Tickets per Enterprise Service: Graphical representation</p> |
| Remedy Credit | <p><u>100% Monthly Invoice For each hour (or fraction thereof) of downtime exceeding the per Lot Time To Restore threshold objective above per LOT COPA shall be eligible for one day's worth of the monthly recurring charge for the affected location(s) up to 100% of the MRC.</u></p> |

The final negotiated terms and conditions are included in the contract (pages 1-84).

Part VI

IT Contract Terms and Conditions

1. DEFINITIONS.

- a. Agency: The department, board, commission or other agency of the Commonwealth of Pennsylvania listed as the Purchasing Agency. ~~If With regards to Lot 2, if~~ a COSTARS entity or external procurement activity has issued an order against this Contract, that entity shall also be identified as “Agency.”
- b. Contract: The integrated documents as defined in **Section 11, Order of Precedence**.
- c. Contracting Officer. The person authorized to administer this Contract for the Commonwealth and to make written determinations with respect to the Contract.
- d. Data. Any recorded information, regardless of the form, the media on which it is recorded or the method of recording. ~~This definition does not include any data related to SfB Services.~~
- e. Days. Calendar days, unless specifically indicated otherwise.
- f. Developed Works. All of the fully or partially complete property, whether tangible or intangible prepared by the Contractor for ownership by the Commonwealth in fulfillment of the requirements of this Contract, including but not limited to: documents; sketches; drawings; designs; works; papers; files; reports; computer programs; documentation; data; records; software; samples; literary works and other works of authorship. Developed Works include all material necessary to exercise all attributes of ownership or of the license granted in **Section 50, Ownership of Developed Works**. ~~The Contractor’s proposal does not include any Developed Works to be provided to the Commonwealth.~~
- g. Documentation. All materials required to support and convey information about the Services or Supplies required by this Contract, including, but not limited to: written reports and analyses; diagrams maps, logical and physical designs; system designs; computer programs; flow charts; and disks and/or other machine-readable storage media.
- h. Expiration Date: The last valid date of the Contract, as indicated in the Contract documents to which these IT Contract Terms and Conditions are attached.
- i. Purchase Order: Written authorization for Contractor to proceed to furnish Supplies or Services.

j. Proposal. Contractor's response to a Solicitation issued by the Issuing Agency, as accepted by the Commonwealth.

k. Services. All Contractor activity necessary to satisfy the Contract. With regards to Lot 1, Services do not include Microsoft Skype for Business (SfB) branded (and other SfB-integrated Office 365) online services described in Contractor's Proposal. Sfb Services will be procured solely pursuant to the Commonwealth's Microsoft Enterprise Agreement 01E73682 ("ELA") and not to the terms and conditions of Offeror's proposed Contract with the Commonwealth, under this RFP.

l. Skype for Business ("SfB") Services. All Microsoft Skype for Business (SfB) branded (and other SfB-integrated Office 365) online services described in Offeror's Proposal.

For clarity, the Proposal describes both:

"RFP-Relevant SfB Services" (which are SfB Services that the Commonwealth will purchase under the ELA in accordance with the Contractor's Proposal). These include, but may not be limited to "SfB Cloud PBX," User Subscription Licenses (USLs) for RFP-Relevant SfB Services may be purchased either separately, or in the case of SfB Cloud PBX as part of "suite SKUs" such as "Office 365 Government Plan E3."

"Prerequisite SfB Services" means the Microsoft Online Service named Office 365 Skype for Business Plan 2, USLs for which must be purchased as a condition of purchasing RFP-Relevant SfB Services. For clarity, the Commonwealth (as of the date of this Proposal) owns 46,000 USLs for the suite of integrated Microsoft Online Services called Office 365 Plan Government E3," which such suite includes the Prerequisite SfB Services.

~~k.m.~~ Software. A collection of one or more programs, databases or microprograms fixed in any tangible medium of expression that comprises a sequence of instructions (source code) to carry out a process in, or convertible into, a form executable by an electronic computer (object code).

~~l.n.~~ Solicitation. A document issued by the Commonwealth to procure Services or Supplies, e.g., Request for Proposal; Request for Quotation; Supplier Pricing Request; or Invitation for Bid, including all attachments and addenda thereto.

~~m.o.~~ Supplies. All tangible and intangible property including, but not limited to materials and equipment, provided by the Contractor to satisfy the Contract.

Additional definitions to be incorporated upon negotiation of the final Contract.

2. TERM OF CONTRACT

- (a) Term. The term of the Contract shall commence on the Effective Date and shall end on the Expiration Date identified in the Contract, subject to the other provisions of the Contract.
- (b) Effective Date: The Effective Date shall be one of the following:
 - (i) the date the Contract has been fully executed by the Contractor and all approvals required by Commonwealth contracting procedures have been obtained; or
 - (ii) the date stated in the Contract, whichever is later.

3. COMMENCEMENT OF PERFORMANCE

- (a) General. The Contractor shall not commence performance and the Commonwealth shall not be liable to pay the Contractor for any supply furnished or work performed or expenses incurred, until both of the following have occurred:
 - (i) the Effective Date has occurred; and
 - (ii) the Contractor has received a Purchase Order or other written notice to proceed signed by the Contracting Officer.
- (b) Prohibition Prior to Effective Date. No Commonwealth employee has the authority to verbally direct the commencement of any Service or delivery of any Supply under this Contract prior to the date performance may commence. The Contractor hereby waives any claim or cause of action for any Service performed or Supply delivered prior to the date performance may commence.

4. EXTENSION OF CONTRACT TERM

The Commonwealth reserves the right, upon notice to the Contractor, to extend the term of the Contract for up to three (3) months upon the same terms and conditions.

5. ELECTRONIC SIGNATURES

- (a) The Contract and/or Purchase Orders may be electronically signed by the Commonwealth.
 - (i) *Contract*. “Fully Executed” at the top of the first page of the Contract output indicates that the signatures of all the individuals required to bind the Commonwealth to the terms of the Contract have been obtained. If the Contract output form does not have “Fully Executed” at the top of the first page, the Contract has not been fully executed.

- (ii) *Purchase Orders.* The electronically-printed name of the **Purchasing purchasing Agent-agent** on the Purchase Order indicates that all approvals required by Commonwealth contracting procedures have been obtained.
- (b) The Commonwealth and the Contractor specifically agree as follows:
 - (i) *Written signature not required.* No handwritten signature shall be required in order for the Contract or Purchase Order to be legally enforceable.
 - (ii) *Validity; admissibility.* The parties agree that no writing shall be required in order to make the Contract or Purchase Order legally binding, notwithstanding contrary requirements in any law or regulation. The parties hereby agree not to contest the validity or enforceability of the Contract executed electronically, or acknowledgement issued electronically, under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine Contract or acknowledgement executed or issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of a genuine Contract or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the Contract or acknowledgement were not in writing or signed by the parties. A Contract or acknowledgement shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.
 - (iii) *Verification.* Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

6. PURCHASE ORDERS

- (a) Purchase Orders. The Commonwealth may issue Purchase Orders against the Contract or issue a Purchase Order as the Contract. These Purchase Orders constitute the Contractor's authority to make delivery. All Purchase Orders received by the Contractor up to, and including, the Expiration Date of the Contract are acceptable and must be performed in accordance with the Contract. **Each Purchase Order will be deemed to incorporate the terms and conditions set forth in the Contract.**
- (b) Electronic transmission. Purchase Orders may be issued electronically or through facsimile equipment. The electronic transmission of a purchase order shall require acknowledgement of receipt of the transmission by the Contractor.

- (c) Receipt. Receipt of the electronic or facsimile transmission of the Purchase Order shall constitute receipt of a Purchase Order.
- (d) Received next business day. Purchase Orders received by the Contractor after 4:00 p.m. will be considered received the following business day.
- (e) Commonwealth Purchasing Card. Purchase Orders under \$10,000 in total amount may also be made in person or by telephone using a Commonwealth Purchasing Card. When an order is placed by telephone, the Commonwealth agency shall provide the agency name, employee name, credit card number and expiration date of the card. The Commonwealth agency shall enroll in an autopay recurring payment arrangement if it intends to make payment to Contractor using a Commonwealth Purchasing Card. The Contractor agrees to accept such autopay payment through the use of a Commonwealth Purchasing card.

7. CONTRACT SCOPE

The Contractor agrees to furnish the requested Services and Supplies to the Commonwealth as such Services and Supplies are defined in this Contract.

8. ACCESS TO COMMONWEALTH FACILITIES.

If the Contractor must perform work at a Commonwealth facility outside of the daily operational hours set forth by the Commonwealth, it must make arrangements with the Commonwealth to assure access to the facility and equipment. No additional payment will be made on the basis of lack of access.

9. NON-EXCLUSIVE CONTRACT

The Commonwealth reserves the right to purchase Services and Supplies within the scope of this Contract through other procurement methods whenever the Commonwealth deems it to be in its best interest.

10. INFORMATION TECHNOLOGY POLICIES

- (a) General. The Contractor shall ~~comply with~~review the IT standards and policies issued by the Governor's Office of Administration, Office for Information Technology (located at <http://www.oa.pa.gov/Policies/Pages/itp.aspx>), including the accessibility standards set out in IT Policy ACC001, *Accessibility Policy* and comply with those which are applicable to this Contract. The Contractor shall ensure that Services and Supplies procured under the Contract comply with the applicable standards. In the event such standards change during the Contractor's performance, and the Commonwealth requests that the Contractor comply with the changed standard, then any incremental costs incurred by the Contractor to comply with such changes shall be paid for pursuant to a change order to the Contract.

- (b) Waiver. The Contractor may request a waiver from an ITP by providing detailed written justification as to why the ITP cannot be met. The Commonwealth may either waive the ITP in whole or in part, or require that the Contractor provide an acceptable alternative. Any Commonwealth waiver of the requirement must be in writing.

11. ORDER OF PRECEDENCE

If any conflicts or discrepancies should arise in the terms and conditions of this Contract, or the interpretation thereof, the order of precedence shall be:

- (a) The documents containing the parties' signatures, including Process and Procedures Manuals, Management Procedures Manuals and Statements of Work;
- (b) The IT Contract Terms and Conditions;
- (c) The Proposal; and
- (d) The Solicitation.

12. CONTRACT INTEGRATION

- (a) Final contract. This Contract constitutes the final, complete, and exclusive Contract between the parties, containing all the terms and conditions agreed to by the parties.
- (b) Prior representations. All representations, understandings, promises, and agreements pertaining to the subject matter of this Contract made prior to or at the time this Contract is executed are superseded by this Contract.
- (c) Conditions precedent. There are no conditions precedent to the performance of this Contract except as expressly set forth herein.
- (d) Sole applicable terms. No contract terms or conditions are applicable to this Contract except as they are expressly set forth herein.
- (e) Other terms unenforceable. The Contractor may not ~~require enforce upon~~ the Commonwealth or any user of the Services or Supplies acquired within the scope of this Contract to ~~sign, click through, or in any other way agree to~~ any terms associated with use of or interaction with those Services and/or Supplies, unless the Commonwealth has approved the terms in writing in advance under this Contract, and the terms are consistent with this Contract. Further, changes to terms may be accomplished only by processes set out in this Contract; no quotations, invoices, business forms or other documentation, or terms referred to therein, shall become part of this Contract merely by their submission to the Commonwealth or their ordinary use in meeting the requirements of this Contract. Any terms imposed upon

the Commonwealth or a user in contravention of this **Subsection 12(e)** ~~must be removed at the direction of the Commonwealth, and~~ shall not be enforced or enforceable against the Commonwealth or the user. For clarity, this provision does not apply to any SfB Services provided by Microsoft.

13. SERVICES

- (a) The Contractor agrees to provide the services to the Commonwealth as such services are defined in this Contract, the RFP and the Contractor's Proposal, and in accordance with the terms of this Contract.
- (b) The services set forth in (a) above shall be collectively referenced as the "Services," as they may evolve during the Term of the Contract or be supplemented, enhanced, modified or replaced pursuant to the terms hereof.
- (c) The Services provided under this Contract are not exclusive to Contractor. The Commonwealth may in-source or re-procure any or all of the Services.
- (d) The Commonwealth may request a change to the Services to increase or decrease the amount of the Services provided under this Contract, according to Commonwealth's demand for the Services. The parties shall use the Change Control Procedures to implement the change and revise the fees as applicable.
- (e) Except as may be necessary on an emergency basis to maintain the continuity of the Services or in the event of a declared disaster, Contractor shall not, without Commonwealth's written consent, modify (1) the composition of the Services, (2) the manner in which the Services are to be provided or delivered if such modification would have an adverse effect on the operations of Commonwealth, or (3) the applicable Services Levels. Notwithstanding the above, the parties recognize the inherent evolutionary nature of technology and agree in the event a component of the Service or a service is no longer commercially available or becomes unsupportable, a comparable replacement service will be negotiated and implemented in a timely manner utilizing the Change Control Procedures.
- (f) Except as otherwise expressly provided in this Contract, Contractor is responsible for providing, and is financially and operationally responsible for, the facilities, personnel, equipment, materials, technical knowledge, expertise and other resources necessary to provide the Services (including all upgrades, improvements, replacements and additions to such resources).
- (g) As part of the Services, Contractor is responsible for obtaining, and has financial responsibility for, all necessary licenses, consents, approvals, permits and authorizations that are legally required to be obtained in order for Contractor to perform the Services. Commonwealth shall reasonably cooperate with and assist Contractor in obtaining any such licenses, consents, approvals, permits and authorizations. For clarity, this provision does not apply to any SfB Services provided by Microsoft.

~~(g)~~(h) Each party shall identify, and notify the other party of, any changes in applicable statutes, regulations, or policies that may directly or indirectly relate to Contractor's performance of the Services. Contractor and Commonwealth shall work together to identify any impact of such changes upon Commonwealth's use, or Contractor's delivery, of the Services. Contractor shall be responsible for any fines and penalties arising from its noncompliance with any such identified statutes, regulations, or policies relating to the business of providing the Services and shall not be responsible for any fines and penalties assessed against Commonwealth by federal governmental entities from Commonwealth's noncompliance with any federal legislative enactments or federal regulatory requirements relating to Commonwealth's operations that does not result from Contractor's actions or inactions under this Contract. As part of the Services, Contractor shall, if possible, perform the Services regardless of changes in legislative enactments or regulatory requirements. If such changes prevent Contractor from performing any of its obligations under this Contract or increase Contractor's costs in connection therewith, Contractor shall provide written notice thereof to Commonwealth within five (5) days of learning of the change and, if possible, will develop and implement a suitable workaround until such time as Contractor can fully perform its obligations under this Contract without such workaround. Contractor shall bear any costs relating to any legislative enactments and regulatory requirements relating to its business, and Commonwealth shall bear all reasonable out of pocket expenses, excluding attorney's fees, incurred by Contractor relating to legislative enactments and regulatory requirements that require modification of the Services by Contractor. If the parties are unable to agree as to the allocation of such costs, the changes and costs that are the subject of this *Section 13(g)* shall be subject to the Change Control Procedures.

14. TRANSITION

- (a) **Transition.** Contractor shall perform the Transition Services, including provision of any deliverables described in the Transition Plan. Contractor shall accomplish the Transition in a transparent, seamless, orderly, and uninterrupted manner. Contractor's responsibilities with respect to the transition include:
- (1) Transfer of the Services to Contractor and subsequent transition of the Services to realize any planned cost reductions and Service performance improvements in accordance with the Transition Plans agreed to by Commonwealth and including a number of Transition Milestones;
 - (2) Performing the transition without unexpected disruption to Commonwealth's operations as agreed upon in the Detailed Transition Plan;

- (3) Assuming responsibility for all costs associated with the transition as set forth in the Detailed Transition Plan; and
- (4) Otherwise performing such transition and migration tasks as are necessary to enable Contractor to provide the Services in accordance with the terms of the Contract, including the applicable Service Levels.

- (b) **Transition Plan.** The preliminary Transition Plan is attached to this Contract as part of Contractor's Proposal. Contractor shall complete, and submit to Commonwealth for review a final Detailed Transition Plan on or before the date set forth in Appendix Q-W (Transition Milestones). If a Transition Plan submitted by Contractor is not acceptable to Commonwealth, Contractor will address and resolve any questions or concerns Commonwealth may have and will promptly incorporate any modifications, additions or deletions requested by Commonwealth. Contractor will revise and resubmit the Transition Plan until accepted by Commonwealth. Upon Commonwealth's acceptance, the Transition Plan shall automatically be incorporated into this Contract and shall supersede and replace all prior transition plans. The Transition Plan shall detail the specific activities to be performed by each party, and, unless otherwise requested by Contractor and agreed to by Commonwealth in its sole discretion, shall be consistent in all material respects with any preliminary Transition Plan, including with respect to the activities, Deliverables, Transition Milestones, and Transition Milestone Credits described therein.

The parties recognize and agree that timeliness is important for a successful Transition and have designated certain actions and projects in the Detailed Transition Plan as Transition Milestones ("Transition Milestones"). Contractor shall achieve all such Transition Milestone by the date corresponding thereto in Appendix Q-W (Transition Milestones). Without limiting the foregoing, the Detailed Transition Plan shall specify, among other things:

- (1) the Deliverables to be completed by Contractor,
- (2) the date(s) by which each such activity or Deliverable is to be completed (the "Transition Milestones"),
- (3) a process and set of standards to which Contractor shall adhere in the performance of the Transition Services and that shall enable Commonwealth to determine whether Contractor has successfully completed the transition and the activities and Deliverables associated with each Transition Milestone,
- (4) any transition responsibilities to be performed or transition resources to be provided by Commonwealth and/or Commonwealth Customers,

- (5) □ any transition responsibilities to be performed or transition resources to be provided by another Commonwealth contractor, and
- (6) □ a detailed description of the processes and procedures that Contractor will implement (and associated implementation schedules) to effect the seamless integration and coordination of the Services with related services to be provided by other Commonwealth contractors.

The Transition Plan shall identify any related documents ~~contemplated-defined and agreed to~~ by this Contract and/or required to effectuate the transition that shall be executed by either of the parties.

- (c) □ **Performance.** Contractor shall perform the Transition Services in accordance with the timetable and the Transition Milestones set forth in the Detailed Transition Plan. Contractor shall assist Commonwealth in connection with Commonwealth's evaluation or testing of the Deliverables set forth in the Detailed Transition Plan. Except as otherwise expressly stipulated in the Detailed Transition Plan, Contractor shall perform the Transition Services in a manner that shall not (i) disrupt or have an unnecessary adverse impact on the activities or operations of Commonwealth or the Commonwealth Customers, (ii) materially, as reasonably determined by the Commonwealth, degrade the Services then being received by Commonwealth or the Commonwealth Customers or (iii) materially, as reasonably determined by the Commonwealth, disrupt or interfere with the ability of Commonwealth or the Commonwealth Customers to obtain the full benefit of the Services. In Contractor's performance and completion of Transition Services, no functionality of Commonwealth's then current business operations or environment will be discontinued until Contractor demonstrates to Commonwealth's reasonable satisfaction that the affected processes and operations have been successfully migrated to Contractor's target environment and are functioning properly in that environment.

Without limiting its obligations or responsibilities, prior to undertaking any transition activity, Contractor shall discuss with Commonwealth and the relevant Commonwealth Customers all known Commonwealth and Commonwealth Customer-specific material risks and shall not proceed with such activity until Commonwealth is reasonably satisfied with the plans with regard to such risks (provided that, neither Contractor's disclosure of any such risks to Commonwealth, nor Commonwealth's acquiescence in Contractor's plans, shall operate or be construed as limiting Contractor's responsibility under this Contract). Contractor will, at Commonwealth's request, participate in transition meetings with other Commonwealth contractors. Commonwealth reserves the right to monitor, test and otherwise observe and participate in transition. Contractor will notify Commonwealth without delay if any Commonwealth monitoring, testing or participation has caused (or Contractor expects it to cause) a problem or delay in

transition and work with Commonwealth to prevent or circumvent the problem or delay.

- (d) **Reports.** Beginning on the Effective Date, Contractor shall meet at least weekly with the Commonwealth to report on Contractor's progress in performing its responsibilities and meeting the timetable and Transition Milestones set forth in the Transition Plan. Contractor also shall provide written reports to Commonwealth at least weekly regarding such matters, and shall provide oral reports more frequently if requested by Commonwealth. Promptly upon receiving any information indicating that Contractor may not perform its responsibilities or meet the timetable or Transition Milestones set forth in the Detailed Transition Plan, Contractor shall notify Commonwealth of such delays and shall identify for Commonwealth's consideration and approval specific measures to address such delays and mitigate the risks associated therewith.

- (e) **Notification of Problems.** Contractor shall provide to Commonwealth written notice of any acts or omissions (whether by Commonwealth, a Commonwealth contractor, Subcontractor or any Third Party), any failure to perform any of each such party's obligations under the Contract and any other events that may affect Contractor's performance of the Transition Services. Contractor shall provide such written notice within thirty (30) days after Contractor first knew or reasonably should have known of such acts, omissions, or failures or other events. Such written notice shall describe in reasonable detail such acts, omissions, failures or other events and the manner in which the foregoing may affect Contractor's performance.

- (f) **Corrective Action Plan.** In the event that either (1) the Commonwealth determines that Contractor has failed or is reasonably likely to fail to deliver the Transition Services, or (2) Contractor has determined that it has failed or is reasonably likely to fail to deliver the Transition Services, then Commonwealth or Contractor, as applicable, will notify the other party of such failure (a "Transition CAP Notice"). Concurrently with such notice, Contractor will:
 - (1) immediately take steps to mitigate any harmful effects of such failure, and
 - (2) promptly (and in any event as soon as reasonably practical) perform a Root Cause Analysis and prepare a corrective action plan with respect to such failure, and
 - (3) take all reasonable actions necessary to prevent its recurrence, including, without limitation, providing all additional resources necessary to resolve such failure.

If Commonwealth determines that any such corrective action plan is not adequately addressing the failure, Contractor shall revise the corrective action plan until it is accepted by the Commonwealth, which such acceptance shall not

be unreasonably withheld. In the event that Contractor is unable to complete the Transition Services on or before the dates specified in the Detailed Transition Plan (a "Transition Failure Event"), then Contractor will meet with Commonwealth to develop a workaround plan to address the Transition Failure Event, which plan, unless such Transition Failure Event was caused by Commonwealth, may include, at Commonwealth's option, obtaining the services to work around the Transition Failure Event from another Commonwealth contractor.

- (g) **Failure to Meet Transition Milestones.** Neither the Transition Services nor the activities and Deliverables associated with individual Transition Milestones shall be deemed complete until Commonwealth's acceptance of such activities and Deliverables. If Contractor fails to meet a Transition Milestone, Contractor shall pay Commonwealth the applicable Milestone Credits specified in *Appendix Q-W* (Transition Milestones) or in the Detailed Transition Plan that are associated with such Transition Services. If Contractor fails to meet a Transition Milestone and does not satisfy the earn back criteria, the Commonwealth will enter the Contractor into the Commonwealth's Contractor Responsibility Program (CRP).
- (h) **Additional Remedies.** In the event that Contractor fails to identify problems and resolve any problems attributable to Contractor that may impede or delay the timely completion of each task in the Transition Plan, without prejudice to Commonwealth's other rights and remedies under the Contract or at law or equity, (i) Contractor will provide, at its sole cost and expense, all such additional resources as are necessary to identify and resolve any problems that may impede or delay the timely completion of each task in the Transition Plan, and (ii) Commonwealth may equitably reduce the fees in an amount reasonably estimated by Commonwealth to account for the Services that Commonwealth is not receiving or did not receive.
- (i) **Suspension or Delay of Transition Services.** Commonwealth reserves the right, in its sole discretion, to suspend or delay the performance of the Transition Services and/or the transition of all or any part of the Services. If Commonwealth elects to exercise this right and Commonwealth's decision is based in material part on concerns about Contractor's ability to perform material aspects of the Transition Services or Contractor's failure to consistently perform its material obligations under this Contract, the Commonwealth shall not incur any additional fees or reimbursable expenses in connection with such decision, provided that Commonwealth shall work in good faith with Contractor to minimize the period of any such suspension or delay.

15. PERIOD OF PERFORMANCE

The Contractor, for the term of this Contract, shall complete all Services and provide all Supplies as specified under the terms of this Contract. In no event shall the Commonwealth be responsible or liable to pay for any Services or Supplies provided by the Contractor

prior to the Effective Date, and the Contractor hereby waives any claim or cause of action for any such Services or Supplies.

16. INDEPENDENT PRIME CONTRACTOR

- (a) Independent contractor. In performing its obligations under the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth.
- (b) Sole point of contact. The Contractor will be responsible for all Services and Supplies in this Contract whether or not Contractor provides them directly. Further, the Contractor is the sole point of contact with regard to all contractual matters, including payment of any and all charges resulting from the Contract.

17. SUBCONTRACTS

The Contractor may subcontract any portion of the Services or Supplies described in this Contract to third parties selected by Contractor and approved in writing by the Commonwealth, whose approval shall not be unreasonably withheld. Notwithstanding the above, if Contractor has disclosed the identity of subcontractor(s) together with the scope of work to be subcontracted in its Proposal, award of the Contract is deemed approval of all named subcontractors and a separate approval is not required. The existence of any subcontract shall not change the obligations of Contractor to the Commonwealth under this Contract. Upon written request of the Commonwealth and subject to Section 35 and Section 75, the Contractor must provide the Commonwealth with an unredacted copy of the subcontract agreement between the Contractor and the subcontractor. The Commonwealth reserves the right, for good cause, to require that the Contractor remove a subcontractor from the project. The Commonwealth will not be responsible for any costs incurred by the Contractor in replacing the subcontractor if good cause exists.

18. OTHER CONTRACTORS

The Commonwealth may undertake or award other contracts for additional or related work, and the Contractor shall fully cooperate with other contractors and Commonwealth employees, and coordinate its Services and/or its provision of Supplies with such additional work as may be required. The Unless act is the performance of the Services, the Contractor shall not commit or permit any act that will interfere with the performance of work by any other contractor or by Commonwealth employees. In the event cooperation impacts Contractor's ability to meet Service Levels, the Service Levels will not apply during the period of cooperation. This **Section 18** shall be included in the Contracts of all contractors with which this Contractor will be required to cooperate. Given the interdependencies between this Solicitation and RFP #2 (RFP 6100039273) and the critical Microsoft SfB licensing provided for outside of this Contract, the Commonwealth shall provide oversight and governance throughout the onboarding, transition and steady-state to ensure cooperation among the applicable contractors and the Microsoft-authorized reseller. The

Commonwealth shall equitably enforce this **Section 18** as to all contractors to prevent the imposition of unreasonable burdens on any contractor.

19. KEY POSITIONS/CONTRACTOR PERSONNEL

(a) Commonwealth shall appoint an individual (the “Commonwealth Project Manager”) who, from the Effective Date of the Contract, shall serve as the primary Commonwealth representative under the Contract. The Commonwealth Project Manager shall:

- (1) Have overall responsibility for managing and coordinating the performance of Commonwealth’s obligations under the Contract; and
- (2) Be authorized to act for and on behalf of Commonwealth with respect to all matters relating to the Contract.

Notwithstanding the foregoing, the Commonwealth Project Manager may, upon notice to the Contractor Project Manager, delegate such of his or her responsibilities to other Commonwealth employees or third parties, as the Commonwealth Project Manager deems appropriate.

(b) Contractor shall appoint an individual (the “Contractor Project Manager”) who, from the Effective Date of the Contract, shall serve, on a full time basis, as the primary Contractor representative under the Contract. The Contractor Project Manager shall be a Key Position and the initial appointment and subsequent replacement of the Contractor Project Manager shall be subject to all procedures related to Key Positions. The Contractor Project Manager shall:

- (1) Have overall responsibility for managing and coordinating the performance of Contractor’s obligations under the Contract; and
- (2) Be authorized to act for and on behalf of Contractor with respect to all matters relating to the Contract.

(c) Contractor acknowledges that certain of the Contractor employees and subcontractors are critical to the provision of the Services hereunder (“Key Positions”). With respect to Key Positions, the Parties agree as follows:

- (1) Each individual in a Key Position shall be dedicated to the Commonwealth account in accordance with the requirements set out in the Solicitation;
- (2) Before assigning an individual to a Key Position, whether as an initial assignment or as a replacement, Contractor shall:
 - (i) Notify Commonwealth of the proposed assignment;

- (ii) Introduce the individual to appropriate representatives of Commonwealth;
- (iii) Provide Commonwealth with a resume and any other information regarding the individual that may be reasonably requested by Commonwealth;
- (iv) Allow Commonwealth to interview the individual; and
- (v) Obtain Commonwealth's approval for such assignment, which approval will not be unreasonably withheld.

Contractor shall only assign an individual to a Key Position who is mutually agreed upon by Commonwealth and Contractor; Contractor retains exclusive direction and control as to hiring, termination, and right to discipline or reward such individuals in connection with their employment;

- (3) Contractor shall not replace or reassign individuals in Key Positions (except as a result of voluntary resignation, transfer for a promotion or to a developmental position, involuntary termination for cause, serious illness, disability or death) for the applicable time period set out in the Solicitation following the date of his or her assignment to the Commonwealth account unless Commonwealth consents in writing to such reassignment or replacement or such individual in such Key Position which such consent will not be unreasonably withheld;
- (4) If Commonwealth decides for lawful reasons that any individual in a Key Position should not continue in that position, then Commonwealth may, in its sole discretion and upon notice to Contractor, require removal of such individual in the Key Position from the Contractor Personnel in accordance with the following:
 - (i) Contractor shall, as soon as reasonably practicable, replace such individual in the Key Position with another person of suitable ability and qualifications in accordance with procedures set forth above; and
 - (ii) In the event that an individual in a Key Position is convicted of ~~criminal conduct~~ a significant crime relating to theft or violence or is in breach of Contractor's obligations, Contractor shall immediately remove and replace such individual with another person of suitable ability and qualifications in accordance with the procedures set forth above.

- (5) Contractor shall not without Commonwealth consent replace or reassign greater than twenty percent (20%) of individuals in Key Positions in any rolling six (6) month period.

- (d) All of the individuals that Contractor appoints as Contractor Personnel will be dedicated to the Commonwealth account and have suitable training and functional and language skills necessary to perform the Services assigned to such individuals. Except as otherwise approved by Commonwealth (in its sole discretion), those Contractor Personnel located at a Commonwealth Services Location may only provide services on such premises in relation to the Services. Contractor will notify Commonwealth as soon as possible after dismissing or reassigning any member of the Contractor Personnel whose normal work location is at a Commonwealth Services Location. Commonwealth will have the right from time to time to require Contractor to remove any member of the Contractor Personnel from working on the Commonwealth account with or without cause, provided that Contractor may request to have a discussion regarding such removal, which discussion must be held within a reasonable time period, not to exceed five (5) days. At the end of such period, if Commonwealth desires the person to be removed, Contractor will complete such removal within twenty-four (24) hours, or as agreed by the Parties, and replace such individual as soon as practicable at no cost to Commonwealth.

- (e) It is the express intent of the Parties that all Contractor Personnel will be at all times exclusively employees of the Contractor or a Subcontractor authorized under this Contract. Nothing in this Contract will in any way be construed to provide that Contractor Personnel are agents, employees or representatives of Commonwealth, and personnel designated by the Contractor hereunder shall be treated, at all times, as under the authority, direction, supervision and control of the Contractor. Contractor shall cause Contractor Personnel to comply at all times with all applicable Commonwealth policies and procedures.

- (f) The Contractor will be responsible for all labor obligations derived from the relationship with its employees and any Contractor Personnel, and in no case shall Commonwealth be deemed a direct or substitute employer of said employees.

- (g) Contractor shall:
 - (1) Enter into, or shall have entered into, a non-disclosure agreement with each Contractor Personnel prior to assigning such employee to the Commonwealth account, and cause each Contractor Personnel to maintain and enforce the confidentiality provisions of the Contract both during and after their assignment to the Commonwealth account; and

 - (2) Enter into, or shall have entered into, an agreement with each Contractor Personnel which assigns, transfers and conveys to Contractor all of such employee's right, title and interest in and to any materials created pursuant

to the Contract, including all rights of patent, copyright, trade secret or other proprietary rights in and to such materials.

- (h) If Commonwealth reasonably determines that the turnover rate of Contractor Personnel is unacceptable and so notifies Contractor, Contractor shall within ten (10) business days:
 - (1) Provide Commonwealth with data concerning Contractor's turnover rate; and
 - (2) Meet with Commonwealth to discuss the reasons for the turnover rate; and
 - (3) Submit a proposal for reducing the turnover rate for Commonwealth's review and approval.

Notwithstanding any transfer or turnover of Contractor Personnel, Contractor shall remain obligated to perform the Services without degradation and in accordance with the Service Levels.

20. ENHANCED MINIMUM WAGE

- (a) Enhanced Minimum Wage. Contractor/Lessor agrees to pay no less than \$10.15 per hour to its employees for all hours worked directly performing the services called for in this Contract/Lease, and for an employee's hours performing ancillary services necessary for the performance of the contracted services or lease when such employee spends at least twenty per cent (20%) of their time performing ancillary services in a given work week.
- (b) Adjustment. Beginning January 1, 2017, and annually thereafter, Contractor/Lessor shall pay its employees described in **Subsection 20(a)** above an amount that is no less than the amount previously in effect; increased from such amount by the annual percentage increase in the Consumer Price Index for Urban Wage Earners and Clerical Workers (United States city average, all items, not seasonally adjusted), or its successor publication as determined by the United States Bureau of Labor Statistics; and rounded to the nearest multiple of \$0.05. The applicable adjusted amount shall be published in the Pennsylvania Bulletin by March 1 of each year to be effective the following July 1.
- (c) Exceptions. These Enhanced Minimum Wage Provisions shall not apply to employees:
 - (i) exempt from the minimum wage under the *Minimum Wage Act of 1968*;
 - (ii) covered by a collective bargaining agreement;

- (iii) required to be paid a higher wage under another state or federal law governing the services, including the *Prevailing Wage Act* and *Davis-Bacon Act*; or
- (iv) required to be paid a higher wage under any state or local policy or ordinance.
- (d) Notice. Contractor/Lessor shall post these Enhanced Minimum Wage Provisions for the entire period of the contract conspicuously in easily-accessible and well-lighted places customarily frequented by employees at or near where the contracted services are performed.
- (e) Records. Contractor/Lessor must maintain and, upon request and within the time periods requested by the Commonwealth, furnish all employment and wage records necessary to document compliance with these Enhanced Minimum Wage Provisions.
- (f) Sanctions. Failure to comply with these Enhanced Minimum Wage Provisions may result in the imposition of sanctions, which may include, but shall not be limited to, termination of the contract or lease, nonpayment, debarment or referral to the Office of General Counsel for appropriate civil or criminal referral.
- (g) Subcontractors. Contractor/Lessor shall include the provisions of these Enhanced Minimum Wage Provisions in every subcontract so that these provisions will be binding upon each subcontractor.

21. COMPENSATION

- (a) General. The Contractor shall be required to perform at the price(s) quoted in the Contract. All items shall be performed within the time period(s) specified in the Contract. The Contractor shall be compensated only for items supplied and Services performed to the satisfaction of the Commonwealth.
- (b) Travel. The Contractor shall not be allowed or paid travel or per diem expenses except as specifically set forth in the Contract.

22. BILLING REQUIREMENTS

Unless the Contractor has been authorized by the Commonwealth for Evaluated Receipt Settlement or Vendor Self-Invoicing, the Contractor shall include in all of its invoices the following minimum information:

- (a) Vendor name and “Remit to” address, including SAP Vendor number;
- (b) Bank routing information, if ACH;

- (c) SAP Purchase Order number;
- (d) Delivery Address, including name of Commonwealth agency;
- (e) Description of the supplies/services delivered in accordance with SAP Purchase Order (include purchase order line number if possible);
- (f) Quantity provided;
- (g) Unit price;
- (h) Price extension;
- (i) Total price; and
- (j) Delivery date of supplies or services.

If an invoice does not contain the minimum information set forth in this **Section 1922**, the Commonwealth may return the invoice as improper. If the Commonwealth returns an invoice as improper, the time for processing a payment will be suspended until the Commonwealth receives a correct invoice. The Contractor may not receive payment until the Commonwealth has received a correct invoice.

23. PAYMENT

- (a) Payment Date. The Commonwealth shall ~~put forth reasonable efforts to~~ make payment by the required payment date. The required payment date is:
 - (i) the date on which payment is due under the terms of the Contract;
 - (ii) thirty (30) days after a proper invoice actually is received at the “Bill To” address if a date on which payment is due is not specified in the Contract (a “proper” invoice is not received until the Commonwealth accepts the service as satisfactorily performed); or
 - (iii) the payment date specified on the invoice if later than the dates established by **Paragraphs 23(a)(i) and (ii)** above.
- (b) Delay; Interest. Payment may be delayed ~~for disputed charges until resolution of such dispute or~~ if the payment amount on an invoice is not based upon the price(s) as stated in the Contract. If any payment is not made within fifteen (15) days after the required payment date ~~for undisputed charges~~, the Commonwealth may pay interest as determined by the Secretary of Budget in accordance with Act No. 266 of 1982 ~~and regulations promulgated pursuant thereto~~, [72 P. S. § 1507](#), (relating to interest penalties on Commonwealth accounts) and accompanying regulations [4 Pa. Code §§ 2.31—2.40](#).

- (c) Payment should not be construed by the Contractor as acceptance of the Service performed by the Contractor. The Commonwealth reserves the right to conduct further testing and inspection after payment, but within a reasonable time after performance, and to reject the service if such post payment testing or inspection discloses a defect or a failure to meet specifications.
- (d) Electronic Payments
 - (i) The Commonwealth will make contract payments through the Automated Clearing House (ACH). Within **ten (10) days** of award of the Contract, the Contractor must submit or must have already submitted its ACH information within its user profile in the Commonwealth's procurement system (SRM).
 - (ii) The Contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth's ACH remittance advice to enable the Contractor to properly apply the state agency's payment to the invoice submitted.
 - (iii) It is the responsibility of the Contractor to ensure that the ACH information contained in SRM is accurate and complete. Failure to maintain accurate and complete information may result in delays in payments.

24. ASSIGNABILITY

- (a) Subject to the terms and conditions of this **Section 24**, the Contract is binding upon the parties and their respective successors and assigns.
- (b) The Contractor may not assign, in whole or in part, the Contract or its rights, duties, obligations, or responsibilities hereunder without the prior written consent of the Commonwealth, which consent ~~may be withheld at the sole and absolute discretion of the Commonwealth~~ shall not be unreasonably withheld, conditioned or delayed. Within thirty (30) days of receipt of the request, the Commonwealth shall provide its written decision regarding the requested assignment.
- (c) For the purposes of the Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, encumbrance, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.
- (d) Any assignment consented to by the Commonwealth shall be evidenced by a written assignment agreement executed by the Contractor and its assignee in which the assignee agrees to be legally bound by all of the terms and conditions of the Contract and to assume the duties, obligations, and responsibilities being assigned.

- (e) Notwithstanding the foregoing, the Contractor may, without the consent of the Commonwealth, assign its rights to payment to be received under the Contract, provided that the Contractor provides written notice of such assignment to the Commonwealth together with a written acknowledgement from the assignee that any such payments are subject to all of the terms and conditions of the Contract.
- (f) A change of name by the Contractor, following which the Contractor's federal identification number remains unchanged, is not considered to be an assignment. The Contractor shall give the Commonwealth written notice of any such change of name.

25. INSPECTION AND ACCEPTANCE

- (a) Developed Works and Services:
 - (i) Acceptance. Acceptance of any Developed Work or Service will occur in accordance with an acceptance plan (Acceptance Plan) submitted by the Contractor and approved by the Commonwealth. Upon approval of the Acceptance Plan by the Commonwealth, the Acceptance Plan becomes part of this Contract. Contractor billing will commence on date of receipt of ESMS order completion notice, receipt of completion notice for SOWs and/or Transition plan projects.
 - (ii) Software Acceptance Test Plan. For contracts where the development of Software, the configuration of Software or the modification of Software is being inspected and accepted, the Acceptance Plan must include a Software Acceptance Test Plan. The Software Acceptance Test Plan will provide for a final acceptance test, and may provide for interim acceptance tests. Each acceptance test will be designed to demonstrate that the Software conforms to the functional specifications, if any, and the requirements of this Contract. Contractor shall notify the Commonwealth when the Software is completed and ready for acceptance testing. The Commonwealth will not unreasonably delay commencement of acceptance testing.
 - (1) If software integration is required at the end of the project, as set out in the Solicitation, the Commonwealth's acceptance of the Software shall be final unless at the time of final acceptance, the Software does not meet the acceptance criteria set forth in the Contract.
 - (2) If software integration is not required at the end of the project, as set out in the Solicitation, the Commonwealth's acceptance of the Software shall be complete and final.
 - (iii) Certification of Completion. Contractor shall certify, in writing, to the Commonwealth when an item in the Acceptance Plan is completed and ready for acceptance. Unless otherwise agreed to by the Commonwealth in

the Acceptance Plan, the acceptance period shall be **10 business days** for interim items and **30 business days** for final items. Following receipt of Contractor's certification of completion of an item, the Commonwealth shall, either:

(1) Provide the Contractor with Commonwealth's written acceptance of the work product; or

(2) Identify to Contractor, in writing, the failure of the work product to comply with the specifications, listing all such errors and omissions with reasonable detail.

(iv) Deemed Acceptance. If the Commonwealth fails to notify the Contractor in writing of any failures in the work product within the applicable acceptance period, the work product shall be deemed accepted.

(v) Correction upon Rejection. Upon the Contractor's receipt of the Commonwealth's written notice of rejection, which must identify the reasons for the failure of the work product to comply with the specifications, the Contractor shall have **15 business days**, or such other time as the Commonwealth and Contractor may agree is reasonable, within which to correct all such failures, and resubmit the corrected item, certifying to the Commonwealth, in writing, that the failures have been corrected, and that the items have been brought into compliance with the specifications. Upon receipt of such corrected and resubmitted items and certification, the Commonwealth shall have **30 business days** to test the corrected items to confirm that they are in compliance with the specifications. If the corrected items are in compliance with the specifications, then the Commonwealth shall provide the Contractor with its acceptance of the items in the completed milestone.

(vi) Options upon Continued Failure. If, in the opinion of the Commonwealth, the corrected items still contain material failures, the Commonwealth may either:

(1) Repeat the procedure set forth above; or

(2) Proceed with its rights under **Section 31-**, **Termination**, except that the cure period set forth in **Section 31(c)** may be exercised in the Commonwealth's sole discretion.

(b) Supplies.

(i) *Inspection prior to Acceptance*. No Supplies received by the Commonwealth shall be deemed accepted until the Commonwealth has had a reasonable opportunity to inspect the Supplies.

- (ii) *Defective Supplies.* Any Supplies discovered to be defective or that fail to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the Supplies or the noncompliance with the specifications were not reasonably ascertainable upon the initial inspection.
 - (1) The Contractor shall remove rejected item(s) from the premises without expense to the Commonwealth within **15 days** after notification.
 - (2) Rejected Supplies left longer than **30 days** will be regarded as abandoned, and the Commonwealth shall have the right to dispose of them as its own property and shall retain that portion of the proceeds of any sale which represents the Commonwealth's costs and expenses in regard to the storage and sale of the Supplies.
 - (3) Upon notice of rejection, the Contractor shall ~~immediately promptly~~ replace all such rejected Supplies with others conforming to the specifications and which are not defective. If the Contractor fails, neglects or refuses to do so, the Commonwealth may procure, in such manner as it determines, supplies similar or identical to the those that Contractor failed, neglected or refused to replace, and deduct from any monies due or that may thereafter become due to the Contractor, the difference between the price stated in the Contract and the cost thereof to the Commonwealth.

26. DEFAULT

- (a) The Commonwealth may, subject to the provisions of **Section 27, Notice of Delays**, and **Section 71, Force Majeure**, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in **Section 31, Termination**) the whole or any part of this Contract for any of the following reasons:
 - (i) Failure to begin Services within the time specified in the Contract or as otherwise specified in writing;
 - (ii) Failure to perform the Services with sufficient labor, equipment, or material to insure the completion of the specified Services in accordance with the Contract terms;
 - ~~(iii) Unsatisfactory performance of the Services;~~

~~(iv)~~(iii) Failure to meet material requirements within the time period(s) specified in the Contract;

~~(v)~~(iv) Multiple failures over time of a single service level agreement or a pattern of failure over time of multiple service level agreements;

~~(vi)~~(v) Failure to provide a Supply or Service that conforms with the specifications referenced in the Contract;

~~(vii)~~(vi) Failure or refusal to remove material, or remove, replace or correct any Supply rejected as defective or noncompliant;

~~(viii)~~(vii) Discontinuance of Services without approval;

~~(ix)~~(viii) Failure to resume a Service, which has been discontinued, within a reasonable time after notice to do so;

~~(x)~~(ix) Insolvency;

~~(xi)~~(x) Assignment made for the benefit of creditors;

~~(xii)~~(xi) Failure or refusal, within **10-30 days** after written notice by the Contracting Officer, to make payment or show cause why payment should not be made, of any amounts due subcontractors for materials furnished, labor supplied or performed, for equipment rentals or for utility services rendered;

~~(xiii)~~(xii) Failure to protect, repair or make good any damage or injury to property;

~~(xiv)~~(xiii) Material breach of any provision of this Contract;

~~(xv)~~(xiv) Any breach by Contractor of the security standards or procedures of this Contract;

~~(xvi)~~(xv) Failure to comply with representations made in the Contractor's Proposal which were relied on by the Commonwealth; or

~~(xvii)~~(xvi) Failure to comply with applicable industry standards, customs and practice.

Notwithstanding the above, if the failure or delay of Contractor in its performance of its obligations under this Contract is excused to the extent such failure is a result of: (i) any act or omission of the Commonwealth or any entity or individual acting on the Commonwealth's behalf including the Commonwealth's failure to perform (or cause to be

performed) its obligations hereunder, (ii) the reliance of Contractor on instructions, authorizations, approvals or other information from the Commonwealth's representative(s) or (iii) any act or omission of a third party not under the control of Contractor. Contractor will use commercially reasonable efforts to perform the Services notwithstanding such circumstances, and the Commonwealth agrees to reimburse Contractor for any additional charges and expenses incurred as a result of such efforts.

27. NOTICE OF DELAYS

Whenever the Contractor encounters any difficulty that delays or threatens to delay the timely performance of this Contract (including actual or potential labor disputes), the Contractor shall promptly give notice thereof in writing to the Commonwealth stating all relevant information with respect thereto. Such notice shall not in any way constitute a basis for an extension of the delivery schedule or be construed as a waiver by the Commonwealth of any rights or remedies to which it is entitled by law or pursuant to provisions of this Contract. Failure to give such notice, however, may be grounds for denial of any request for an extension of the delivery schedule because of such delay. If an extension of the delivery schedule is granted, it will be done consistent with **Section 30, Changes**.

28. CONDUCT OF SERVICES

- (a) Following the Effective Date of the Contract, Contractor shall proceed diligently with all Services and shall perform such Services with qualified personnel, in accordance with the completion criteria set forth in the Contract.
- (b) In determining whether or not the Contractor has performed with due diligence under the Contract, it is agreed and understood that the Commonwealth may measure the amount and quality of the Contractor's effort against the representations made in the Contractor Proposal. The Contractor's Services hereunder shall be monitored by the Commonwealth and the Commonwealth's designated representatives. If the Commonwealth reasonably determines that the Contractor has not performed with due diligence, the Commonwealth and the Contractor will attempt to reach agreement with respect to such matter. Failure of the Commonwealth or the Contractor to arrive at such mutual determinations shall be a dispute concerning a question of fact within the meaning of **Section 33, Contract Controversies**.

29. STEP-IN RIGHTS

Intentionally omitted.

~~In the event that Contractor is failing to deliver all or part of the Services, the Commonwealth shall give the Contractor notice of the failure. The Contractor shall have ten (10) days to provide the Commonwealth with a correction plan. If the correction plan is not received within ten (10) days or the failure is not corrected~~

~~within twenty (20) days of the notice provided under this paragraph, Commonwealth may assign Commonwealth staff or third parties to step in and perform failing elements of the Services until such time as Contractor can demonstrate the ability to resume provision of such Services. Provided, however, that if in the Commonwealth's sole discretion the failure creates an emergency, no notice is required for the Commonwealth to exercise its rights under this paragraph.~~

~~(a) All costs associated with the exercise of such step in rights shall be borne by Contractor.~~

~~(b) Commonwealth's exercise of its step in rights shall not constitute a waiver by Commonwealth of any termination rights or rights to pursue a claim for damages arising out of the failure that led to the step in rights being exercised.~~

30. CHANGES

(a) At any time during the performance of the Contract, the Commonwealth or the Contractor may request a change to the Contract. Contractor will make reasonable efforts to investigate the impact of the change request on the price, timetable, specifications, and other terms and conditions of the Contract. If the Commonwealth is the requestor of the change, the Contractor will inform the Commonwealth of any charges for investigating the change request prior to incurring such charges. If the Commonwealth and the Contractor agree on the results of the investigation and any necessary changes to the Contract, the parties must complete and execute a change order to modify the Contract and implement the change. The change order will be evidenced by a writing in accordance with the Commonwealth's change order procedures. No work may begin on the change order until the Contractor has received the executed change order. If the parties are not able to agree upon the results of the investigation or the necessary changes to the Contract, a Commonwealth-initiated change request will be implemented at Commonwealth's option and the Contractor shall perform the Services; and either party may elect to have the matter treated as a dispute between the parties under **Section 33, Contract Controversies**. During the pendency of any such dispute, Commonwealth shall pay to Contractor any undisputed amounts.

(b) Changes outside the scope of this Contract shall be accomplished through the Commonwealth's procurement procedures, and may result in an amended Contract or a new contract. No payment will be made for services outside of the scope of the Contract for which no amendment has been executed.

31. TERMINATION

(a) For Convenience

(i) The Commonwealth may terminate the Contract or a Purchase Order issued against the Contract, in whole or in part, without cause by giving Contractor

~~30-60~~ days prior written notice (Notice of Termination) whenever the Commonwealth shall determine that such termination is in the best interest of the Commonwealth (Termination for Convenience). Any such termination shall be effected by delivery to the Contractor of a Notice of Termination specifying the extent to which performance under this Contract is terminated either in whole or in part and the date on which such termination becomes effective.

In the event of termination hereunder, Contractor shall receive payment for the following:

- (1) all Services performed consistent with the terms of the Contract prior to the effective date of termination;
- (2) all actual and reasonable costs incurred by Contractor as a result of the termination of the Contract; and

In no event shall the Contractor be paid for any loss of anticipated profit (by the Contractor or any subcontractor), loss of use of money, or administrative or overhead costs.

Failure to agree on any termination costs shall be a dispute handled in accordance with **Section 33, Contract Controversies**, of this Contract.

- (ii) The Contractor shall cease Services as of the date set forth in the Notice of Termination, and shall be paid only for such Services as have already been satisfactorily rendered up to and including the termination date set forth in said notice, or as may be otherwise provided for in said Notice of Termination, and for such services performed during the **30-day** notice period, if such services are requested by the Commonwealth, for the collection, assembling, and transmitting to the Commonwealth of at least all materials, manuals, magnetic media, studies, drawings, computations, maps, supplies, and survey notes including field books, which were obtained, prepared, or developed as part of the Services required under this Contract.
- (iii) The above shall not be deemed to limit the Commonwealth's right to terminate this Contract for any reason as permitted by the other provisions of this Contract, or under applicable law.

(b) Non-Appropriation

Any payment obligation or portion thereof of the Commonwealth created by this Contract is conditioned upon the availability and appropriation of funds. When funds (state or federal) are not appropriated or otherwise made available to support continuation of performance or full performance in a subsequent fiscal year period,

the Commonwealth shall have the right to terminate the Contract in whole or in part. The Commonwealth shall provide notice as is reasonably practicable in the event of a termination under this Subsection 31 (b). The Contractor shall be reimbursed in the same manner as that described in **Subsection 31(a)** to the extent that appropriated funds are available.

(c) Default

The Commonwealth may, in addition to its other rights under this Contract, terminate this Contract in whole or in part by providing written notice of default to the Contractor if the Contractor materially fails to perform its material obligations under the Contract and does not cure such failure within **30 days** or, if a cure within such period is not practical, commence a good faith effort to cure such failure to perform within the specified period or such longer period as the Commonwealth may specify in the written notice specifying such failure, and diligently and continuously proceed to complete the cure. The Contracting Officer shall provide any notice of default or written cure notice for Contract terminations.

- (i) Subject to **Section 42, Limitation of Liability**, in the event the Commonwealth terminates this Contract in whole or in part as provided in this **Subsection 31(c)**, the Commonwealth may procure services similar to those so terminated, and the Contractor, in addition to liability for any liquidated damages, shall be liable to the Commonwealth, as the Commonwealth's sole and exclusive remedy for such default, for the difference between the Contract price for the terminated portion of the Services and the actual and reasonable cost (but in no event greater than the fair market value) of producing substitute equivalent services for the terminated Services, provided that the Contractor shall continue the performance of this Contract to the extent not terminated under the provisions of this **Section 31**.
- (ii) ~~Except with respect to defaults of subcontractors, t~~The Contractor shall not be liable for any excess costs if the failure to perform the Contract arises out of causes beyond the control of the Contractor or beyond the control of its subcontractors. Such causes may include, but are not limited to, acts of God or of the public enemy, fires, floods, epidemics, quarantine restrictions, strikes, work stoppages, freight embargoes, acts of terrorism and unusually severe weather. The Contractor shall notify the Contracting Officer promptly in writing of its inability to perform because of a cause beyond the control of the Contractor.
- (iii) Nothing in this **Subsection 31(c)** shall abridge the Commonwealth's right to suspend, debar or take other administrative action against the Contractor.

- (iv)□ If it is later determined that the Commonwealth erred in terminating the Contract for default, then the Contract shall be deemed to have been terminated for convenience under **Subsection 31(a)**.
- (v)□ If this Contract is terminated as provided by this **Subsection 31(c)**, the Commonwealth may, in addition to any other rights provided in this **Subsection 31(c)**, and subject to the terms of this Contract, require the Contractor to deliver to the Commonwealth in the manner and to the extent directed by the Contracting Officer, such Software, Data, Developed Works, Documentation and other materials as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract as has been terminated.

(d)□ Partial Termination.

In the event of the Commonwealth terminates the Contract or a Purchase Order issued against the Contract in part, the parties acknowledge that, given the Contract provides the service and support for the Commonwealth's Unified Communications and Voice services and that the various services are interdependent, the remaining services may not be supportable as set forth in Contractor's Proposal. In the event of a partial termination, the parties shall use the Change Control Procedures to implement the change and revise, as applicable, the obligations, fees, Service Levels. Termination of certain services may result in a modification of the commitments to the small diverse businesses.

(e)□ Nonpayment

In the event Commonwealth fails to pay undisputed amounts for nine (9) consecutive months, Contractor may terminate this Contract for its convenience. Notwithstanding any other provision of this Contract to the contrary, Contractor shall be released from any obligation to provide further Services pursuant to this Contract.

~~(d)(f)~~□ The Except as set forth in **Subsection 31(c)**, the rights and remedies of the Commonwealth provided in this **Section 31** shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

~~(e)(g)~~□ The Commonwealth's failure to exercise any rights or remedies provided in this **Section 31** shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.

~~(f)~~(h) Following exhaustion of the Contractor's administrative remedies as set forth in **Section 33, Contract Controversies**, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

32. BACKGROUND CHECKS

- (a) The Contractor, at its expense, must arrange for a background check for each of its employees, as well as the employees of any of its subcontractors, who will have access to Commonwealth IT facilities, either through on-site access or through remote access. Background checks are to be conducted via the Request for Criminal Record Check form and procedure found at <http://www.psp.pa.gov/Pages/Request-a-Criminal-History-Record.aspx>. The background check must be conducted prior to initial access and on an annual basis thereafter.
- (b) Before the Commonwealth will permit access to the Contractor, the Contractor must provide written confirmation that the background checks have been conducted. If, at any time, it is discovered that an employee of the Contractor or an employee of a subcontractor of the Contractor has a criminal record that includes a felony or misdemeanor involving terroristic behavior, violence, use of a lethal weapon, or breach of trust/fiduciary responsibility or which raises concerns about building, system or personal security or is otherwise job-related, the Contractor shall not assign that employee to any Commonwealth facilities, shall remove any access privileges already given to the employee and shall not permit that employee remote access unless the Commonwealth consents to the access, in writing, prior to the access. The Commonwealth may withhold its consent in its sole discretion. Failure of the Contractor to comply with the terms of this **Section 32** on more than one occasion or Contractor's failure to cure any single failure to the satisfaction of the Commonwealth may result in the Contractor being deemed in default of its Contract.
- (c) The Commonwealth specifically reserves the right of the Commonwealth to conduct or require background checks over and above that described herein.
- ~~(e)~~(d) Notwithstanding the above, in the event an onsite visit is required by a Contractor employee or subcontractor who is newly assigned to the Commonwealth or is assigned temporarily and who has not had the Commonwealth required background check performed, the Commonwealth agrees to, to the extent practicable, to provide escorted access.

33. CONTRACT CONTROVERSIES

- (a) All disputes between the parties arising under or relating to this Contract shall initially be referred in writing by either party to the Contractor Project Manager and the Commonwealth Project Manager. If the Contractor Project Manager and the Commonwealth Project Manager are unable to resolve the dispute within ten (10)

Commonwealth business day(s) after referral of the matter to them or upon the earlier request by either the Contractor Project Manager or the Commonwealth Project Manager, the parties shall submit the dispute to the senior managers of each party (“Management”) for immediate review. Within ten (10) Commonwealth business days after any dispute between the parties is submitted to the Management pursuant to Subparagraph 30(a), the Management shall meet for the purpose of attempting to resolve such dispute. At any meeting of the Management at which more than one (1) dispute will be considered, Commonwealth may establish the order in which such disputes shall be addressed. If the Management is unable to resolve a dispute within fifteen (15) Commonwealth business days after the date of the initial meeting of the Management during which such dispute was considered, the Management shall immediately notify Contractor and Contractor may proceed with claim pursuant to *Subsection 33(b)*.

~~(a)~~(b) Pursuant to Section 1712.1 of the *Commonwealth Procurement Code*, 62 Pa. C. S. § 1712.1, in the event of a claim arising from the Contract, the Contractor, within **six (6) months** after the cause of action accrues, must file a written claim with the Contracting Officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. If the Contractor fails to file a claim or files an untimely claim, the Contractor is deemed to have waived its right to assert a claim in any forum. At the time the claim is filed, or within **60 days** thereafter, either party may request mediation through the Commonwealth Office of General Counsel Dispute Resolution Program.

~~(b)~~(c) If the Contractor or the Contracting Officer requests mediation, and the other party agrees, the Contracting Officer shall promptly make arrangements for mediation. Mediation shall be scheduled so as to not delay the issuance of the final determination beyond the required **120 days** after receipt of the claim if mediation is unsuccessful. If mediation is not agreed to or if resolution is not reached through mediation, the Contracting Officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within **120 days** of the receipt of the claim, unless extended by consent of the Contracting Officer and the Contractor. The Contracting Officer shall send his/her written determination to the Contractor. If the Contracting Officer fails to issue a final determination within the **120 days** (unless extended by consent of the parties), the claim shall be deemed denied. The Contracting Officer’s determination shall be the final order of the purchasing agency.

~~(c)~~(d) Within **15 days** of the mailing date of the determination denying a claim or within **135 days** of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

34. DATA SECURITY

- (a) As part of the Services, Contractor shall implement and maintain the Commonwealth's safeguards against the disclosure, destruction, loss or alteration of the Commonwealth Data in the possession of Contractor in accordance with the terms of this Contract and with Commonwealth's other security policies and procedures provided, in writing, to Contractor. In any event, Contractor, as part of the Services, is required to meet or exceed the most stringent of any applicable federal or state law, statute, rule or regulation applicable to Contractor's and/or Contractor's Subcontractor's possession of, or access to, any Commonwealth Data (which includes **Section 34(d)**, herein). All changes or additions to any such Commonwealth security policies or procedure or any changes to any applicable federal or state law, statute, rule or regulation shall be implemented by Contractor. Any changes or additions which result in a material additional cost to Contractor shall be subject to the Change Control Procedures. To the degree such change applies to other Contractor customers, Contractor will mitigate the Commonwealth's economic exposure to additional cost by equitably spreading the additional cost of compliance to its multiple customers.
- (b) All of Contractor's activities relating to the safeguarding of Commonwealth Data shall be subject to periodic review and monitoring by Commonwealth and related federal agencies, and Contractor shall cooperate fully with all such reviews and monitoring. In addition to, and not in limitation of, any restrictions set forth elsewhere in this Contract, Contractor shall have operational access to the Commonwealth Data only on an as-needed basis.
- (c) At no cost to the Commonwealth, and as part of the Services, Contractor shall, upon request at any time during the term of this Contract, or upon termination, cancellation, cessation of Termination Assistance, expiration or other conclusion of the Contract, Contractor shall (1) promptly return to the Commonwealth, in a form that is freely accessible to the Commonwealth and not in a Contractor proprietary format, all or the requested portion of the Commonwealth Data then in Contractor's possession or under its control, or (2) erase or destroy such Commonwealth Data. If the Commonwealth requests Contractor to destroy the Data, the Commonwealth shall have the right to conduct an audit to ensure the Data has been destroyed. This provision shall also apply to all Commonwealth Data that is in the possession of Subcontractors of Contractor. Contractor shall complete such return or destruction within ten (10) days of the request or after the conclusion of this Contract. Within such ten (10) day period, Contractor shall certify in writing to Commonwealth that such return or destruction has been completed. Contractor shall make available to the Commonwealth for a complete and secure (i.e. encrypted and appropriately authenticated) download file of the Commonwealth Data in XML format, or such other format as specified by the Commonwealth, including all schema and transformation definitions and/or delimited text files with documented, detailed schema definitions along with attachments in their native format. Contractor shall be available to answer questions about data schema,

transformations, and other elements required to fully understand and utilize the Commonwealth's Data file. Unless the Commonwealth agrees or specifies otherwise, the Contractor shall also deliver to the Commonwealth any copies, duplicates, summaries, abstracts or other representations of any such Commonwealth Data or any part thereof, in whatever form, then in the Contractor's possession or control in accordance with the "NIST Guidelines for Media Sanitization" (SP 800-88).

- (d) At all times during the Term, Contractor shall provide all Services, and use all resources related thereto, in accordance with the Commonwealth's security requirements, including the prevention and detection of fraud, abuse, or other inappropriate use or access of systems and networks by all appropriate means, including network management and maintenance applications and tools, and the use of appropriate encryption technologies. If the Contractor incurs additional costs as a result of changes to Commonwealth's security requirements, it may follow the process set out in **Section 30, Changes** of this Agreement. In addition, all Contractor Personnel (including personnel of any Subcontractors) shall be subject to and shall at all times conform to the Commonwealth's laws, rules, and requirements for the protection of premises, materials, equipment, and personnel, as they have been previously disclosed to Contractor in writing, including those set forth in the *Appendices* to the Solicitation. Any violations or disregard of these rules shall be cause for denial of access by such personnel to the Commonwealth's property. Contractor shall exercise due care and diligence to prevent any injury to person or damage to property while on the Commonwealth's premises.

35. CONFIDENTIALITY, PRIVACY AND COMPLIANCE

- (a) General. The Contractor agrees to protect the confidentiality of the Commonwealth's confidential information. The Commonwealth agrees to protect the confidentiality of Contractor's confidential information. Information is deemed confidential only when the party claiming confidentiality designates the information as "confidential" in such a way as to give notice to the other party (for example, notice may be communicated by describing the information, and the specifications around its use or disclosure, in the Solicitation or in the Proposal). Neither party may assert that information owned by the other party is such party's confidential information. Notwithstanding the foregoing, all Commonwealth Data is Confidential Information unless otherwise indicated.
- (b) Copying; Disclosure; Termination. The parties agree that confidential information shall not be copied, in whole or in part, or used or disclosed except when essential for authorized activities under this Contract and, in the case of disclosure, where the recipient of the confidential information has agreed to be bound by confidentiality requirements no less restrictive than those set forth herein. Each copy of confidential information shall be marked by the party making the copy with any notices appearing in the original. Upon expiration or termination of this Contract or any license granted hereunder, the receiving party will return to the

disclosing party, or certify as to the destruction of, all confidential information in the receiving party's possession, other than one copy (where permitted by law or regulation), which may be maintained for archival purposes only, and which will remain subject to this Contract's security, privacy, data retention/destruction and confidentiality provisions. A material breach of these requirements may result in termination for default pursuant to **Subsection 31(c)**, in addition to other remedies available to the non-breaching party.

- (c) Insofar as information is not otherwise protected by law or regulation, the obligations stated in this **Section 30-35** do not apply to information:
- (i) already known to the recipient at the time of disclosure other than through the contractual relationship;
 - (ii) independently generated by the recipient and not derived from the information supplied by the disclosing party;
 - (iii) known or available to the public, except where such knowledge or availability is the result of unauthorized disclosure by the recipient of the proprietary information;
 - (iv) disclosed to the recipient without a similar restriction by a third party who has the right to make such disclosure; or
 - (v) required to be disclosed by the recipient by law, regulation, court order, or other legal process.

There shall be no restriction with respect to the use or disclosure of any ideas, concepts, know-how or data processing techniques developed alone or jointly with the Commonwealth in connection with services provided to the Commonwealth under this Contract.

- (d) The Contractor shall use the following process when submitting information to the Commonwealth it believes to be confidential and/or proprietary information or trade secrets:
- (i) Prepare and submit an un-redacted version of the appropriate document;
 - (ii) Prepare and submit a redacted version of the document that redacts the information that is asserted to be confidential or proprietary information or a trade secret. The Contractor shall use a redaction program that ensures the information is permanently and irreversibly redacted; and
 - (iii) Prepare and submit a signed written statement that identifies confidential or proprietary information or trade secrets and that states:

- (1) the attached material contains confidential or proprietary information or trade secrets;
 - (2) the Contractor is submitting the material in both redacted and un-redacted format, if possible, in accordance with [65 P.S. § 67.707\(b\)](#); and
 - (3) the Contractor is requesting that the material be considered exempt under [65 P.S. § 67.708\(b\)\(11\)](#) from public records requests.
- (e) Disclosure of Recipient or Beneficiary Information Prohibited. The Contractor shall not use or disclose any information about a recipient receiving services from, or otherwise enrolled in, a Commonwealth program affected by or benefiting from Services under the Contract for any purpose not connected with the Contractor's responsibilities, except with consent pursuant to applicable law or regulations. All material associated with direct disclosures of this kind (including the disclosed information) shall be provided to the Commonwealth prior to the direct disclosure.
- (f) Compliance with Laws. Contractor will comply with all applicable laws or regulations related to the use and disclosure of information, including information that constitutes Protected Health Information (PHI) as defined by the *Health Insurance Portability and Accountability Act* (HIPAA). Further, by signing this Contract, the Contractor agrees to the terms of the Business Associate Agreement, which is incorporated into this Contract as Exhibit A. It is understood that Exhibit A is only applicable if and to the extent indicated in the Contract. If the Commonwealth, an agency, or other eligible contract participant, is a Covered Entity as defined in HIPAA, and the Contractor is performing the work of a Business Associate, the contract participant will fill in the blanks in the attached Exhibit. It is understood that Exhibit A is only applicable if the Contract Participant indicates in writing to Contractor, specifying the work and scope intended to be subject to a Business Associates Agreement, and only to the extent that Contractor and the contract participant agree in writing as to the specific application of Exhibit A and the Business Associate Agreement. Exhibit A is only applicable with respect to the internal entities indicated by the contract participant and agreed to by the Contractor.
- (g) Additional Provisions. Additional privacy and confidentiality requirements may be specified in the Contract.
- (h) Restrictions on Use. All Data and all intellectual property provided to the Contractor pursuant to this Contract or collected or generated by the Contractor on behalf of the Commonwealth pursuant to this Contract shall be used only for the work of this Contract. No Data, intellectual property, Documentation or Developed Works may be used, disclosed, or otherwise opened for access by or to the Contractor or any third party unless directly related to and necessary under the Contract.

36. PCI SECURITY COMPLIANCE

- (a) General. By providing the ~~Payphone Services Service~~ under this Contract, the Contractor may create, receive, or have access to credit card records or record systems containing cardholder data including credit card numbers (collectively the “Cardholder Data”). ~~No other services in the proposal will create, receive, or have access to Cardholder Data. For Payphone Service and any additional services in the future which require the Contractor to create, receive, or have access to Cardholder Data.~~ Contractor shall comply with the Payment Card Industry Data Security Standard (“PCI DSS”) requirements for Cardholder Data that are prescribed by the payment brands (~~including, but not limited to,~~ Visa, MasterCard, ~~American Express,~~ and Discover), as they may be amended from time to time, provided that for additional services such required compliance shall be set forth in writing in accordance with the Change Control Procedures. Contractor acknowledges and agrees that Cardholder Data may only be used for assisting in completing a card transaction, for fraud control services, for loyalty programs, or as specifically agreed to by the payment brands, for purposes of this Contract or as required by applicable law or regulations.
- (b) Compliance with Standards. ~~For those services identified as requiring PCI compliance,~~ Contractor shall conform to and comply with the PCI DSS standards as defined by The PCI Security Standards Council at: https://www.pcisecuritystandards.org/security_standards/index.php. Contractor shall monitor these PCI DSS standards and will promptly notify the Commonwealth if its practices should not conform to such standards. At the Commonwealth’s request, on an annual basis during the term of the services which require PCI compliance, Contractor will provide the Commonwealth PCI Attestation of Compliance currently produced, received or provided by Contractor if applicable to the Services purchased by the Commonwealth hereunder. ~~Contractor shall provide a letter of certification to attest to meeting this requirement within seven (7) days of Contractor’s receipt of the annual PCI DSS compliance report.~~

37. DATA BREACH OR LOSS

- (a) Contractor shall comply with all applicable data protection, data security, data privacy and data breach notification laws, including but not limited to the Breach of Personal Information Notification Act, as amended, 73 P.S. §§ 2301—2329.
- (b) For Commonwealth Data ~~and Confidential Information~~ in the possession, custody, and control of the Contractor or its employees, agents, and/or subcontractors:
- (i) The Contractor shall report unauthorized access, use, release, loss, destruction or disclosure of unencrypted Commonwealth Data ~~or Confidential Information~~ (“Incident”) to the Commonwealth within **two (2) hours** of when the Contractor knows of or reasonably suspects such

Incident, and the Contractor must immediately take all reasonable steps to mitigate any potential harm or further access, use, release, loss, destruction or disclosure of such Commonwealth Data or Confidential Information.

(ii) Contractor shall provide timely notice to all individuals that may require notice under any applicable law or regulation as a result of an Incident. The notice must be pre-approved by the Commonwealth. At the Commonwealth's request, Contractor shall, ~~at its sole expense,~~ provide credit monitoring services to all individuals that may be whose Personally Identifiable Information or Protected Health Information has been impacted by any Incident legally requiring notice.

~~(iii) Contractor shall be solely responsible for any costs, losses, fines, or damages incurred by the Commonwealth due to Incidents.~~

(c) As to Commonwealth Data and Confidential Information fully or partially in the possession, custody, or control of the Contractor and the Commonwealth, the Contractor shall diligently perform all of the duties required in this **Section 37** in cooperation with the Commonwealth, until the time at which a determination of responsibility for the Incident, and for subsequent action regarding the Incident, is made final. Contractor shall be solely responsible for any costs, losses, fines, or damages incurred by the Commonwealth due to Incidents which are directly caused by Contractor's breach of the obligations under this Contract. If it is determined that the Contractor was not in breach, Contractor will be compensated for any costs incurred by the Contractor related to remediation of the Incident and for expenses, if any, related to credit monitoring services provided.

38. INSURANCE

(a) General. Unless otherwise indicated in the Solicitation, the Contractor shall maintain at its expense and require its subcontractors to procure and maintain, as appropriate to maintain the substantially the same coverage as required of the Contractor, the following types and amounts of insurance, issued by companies ~~acceptable to the Commonwealth and~~ authorized to conduct such business under the laws of the Commonwealth:

(i) Workers' Compensation Insurance for all of the Contractor's employees ~~and those of any subcontractor engaged in performing Services~~ in accordance with the *Worker's Compensation Act*, 77 P.S. §§ 1—2708, as amended.

(ii) ~~Public liability and property damage~~ Commercial General Liability insurance to protect the Commonwealth, the Contractor, ~~and any and all subcontractors~~ from claims for damages for ~~personal injury (including bodily injury),~~ sickness or disease, accidental death, and damage to property, including loss of use arising out of or resulting from the

~~Contractor's use and occupancy of the premises and the operations conducted thereon. any property damage which may arise from its operations under this Contract, whether such operation be by the Contractor, by any subcontractor, or by anyone directly or indirectly employed by either. The limits of such insurance shall be in an amount not less than of \$5,000,000 per person and \$5,000,000 per occurrence for bodily injury (including death) and property damage and \$5,000,000 general aggregate including products/completed operations, contractual liability and, personal and advertising injury and property damage combined. Such policies shall be occurrence based rather than claims-made policies and shall name include the Commonwealth of Pennsylvania as an additional insured, as its interests may appear under this Contract. The insurance shall not contain any endorsements or any other form designed to limit and restrict any action by the Commonwealth as an additional insured against the insurance coverages in regard to the Services performed for the Commonwealth.~~

- ~~(iii) Telecommunications, Media & Technology Errors & Omissions Professional and Technology Based Services Liability Insurance including Network Security and Cyber Liability with a limit of \$10,000,000 per claim and aggregate covering the negligent acts, errors and/or omissions of Contractor in the performance of professional services under this Contact.(insuring against damages and claim expenses as a result of claims arising from any actual or alleged wrongful acts in performing cyber and technology activities) in the amount of \$5,000,000, per accident/occurrence/annual aggregate.~~
- ~~(iv) Professional Liability/Errors and Omissions Insurance in the amount of \$15,000,000, per accident/occurrence/annual aggregate, covering the Contractor, its employees, agents, contractors, and subcontractors in the performance of all services.~~
- ~~(v) Network/Cyber Liability Insurance (including coverage for Professional and Technology Based Services Liability if not covered under Company's Professional Liability/Errors and Omissions Insurance referenced above) in the amount of \$5,000,000, per accident/occurrence/annual aggregate, covering the Contractor, its employees, agents, contractors, and subcontractors in the performance of all services.~~
- ~~(vi) Completed Operations Insurance in the amount of \$5,000,000, per accident/occurrence/annual aggregate, covering the Contractor, its employees, agents, contractors, and subcontractors in the performance of all services.~~
- ~~(vii)~~(iv) Comprehensive crime insurance in an amount of not less than \$15,000,000 per claim.

- (b) Certificate of Insurance. Prior to commencing Services under the Contract, and annually thereafter, the Contractor shall provide the Commonwealth with a copy of each current certificate of insurance. ~~Upon receipt of notice from its insurer(s) Contractor shall provide the Commonwealth with These certificates shall contain a provision that coverages afforded under the policies will not be canceled or changed in such a way to cause the coverage to fail to comply with the requirements of this Section 38 until at least 30 days prior written notice of cancellation has been given to the Commonwealth.~~
- (c) Insurance coverage length. The Contractor agrees to maintain such insurance for the life of the Contract.

39. CONTRACTOR RESPONSIBILITY PROGRAM

- (a) The Contractor certifies, for itself and all its subcontractors, that as of the date of its execution of this Bid/Contract, that neither the Contractor, nor any subcontractors, nor any suppliers are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot so certify, then it agrees to submit, along with its Bid, a written explanation of why such certification cannot be made.
- (b) The Contractor must also certify, in writing, that as of the date of its execution of this Bid/Contract, it has no tax liabilities or other Commonwealth obligations.
- (c) The Contractor's obligations pursuant to these provisions are ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to inform the Commonwealth if, at any time during the term of the Contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. Such notification shall be made within fifteen (15) days of the date of suspension or debarment.
- (d) The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.
- (e) The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth, which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

- (f) The Contractor may obtain a current list of suspended and debarred Commonwealth contractors by either searching the internet at <http://www.dgs.state.pa.us> or contacting the:

Department of General Services
Office of Chief Counsel
603 North Office Building
Harrisburg, PA 17125
Telephone No. (717) 783-6472
FAX No. (717) 787-9138

40. OFFSET PROVISION FOR COMMONWEALTH CONTRACTS

The Contractor agrees that, upon written notice and agreement, the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth. Written notice should include the amount to offset, invoice number and the reason for the offset.

41. TAXES-FEDERAL, STATE, AND LOCAL

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax-free purchases under registration No. 23-7400001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas-guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania sales tax, local sales tax, public transportation assistance taxes, and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this **Section 41** is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental or lease of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

All pricing is exclusive of taxes, tax-like charges, and tax-related and other surcharges. Applicable taxes and surcharges are based on the location of the services and the current applicable tax and surcharge rates. Contractor applies taxes and surcharges in accordance with applicable law, and therefore, such taxes/surcharges are subject to change.

42. LIMITATION OF LIABILITY

- (a) General. The Contractor's liability to the Commonwealth under this Contract shall be limited the annual funded amount for the fiscal year in which the event giving rise to the liability occurred~~to the value of this Contract (including any amendments)~~. This limitation will apply, except as otherwise stated in this **Section 42**, regardless of the form of action, whether in contract or in tort, including negligence. Each Party will have a duty to mitigate damages for which the other is responsible. This limitation does not, however, apply to any damages:
- (i) for bodily injury;
 - (ii) for death;
 - (iii) for intentional injury;
 - (iv) for damage to real property or tangible personal property for which the Contractor is legally liable;
 - (v) under **Section 46, Patent, Copyright, Trademark and Trade Secret Protection**; or
 - (vi) under **Section 37, Data Breach or Loss** to the extent the breach causes disclosure of Personally Identifiable Information or Protected Health Information; or
 - (vii) under **Section 45, Virus, Malicious, Mischievous or Destructive Programming**.
- (b) The Contractor will not be liable for consequential, indirect, special, punitive, exemplary or incidental damages or costs of any kind; failure to realize expected savings; whether or not that Party was aware or should have been aware of the possibility of such costs, expenses, or damages, except for damages as set forth in **Section 42(a)(i)-(iv)**, or as otherwise specified in the Contract.

43. COMMONWEALTH HELD HARMLESS

- (a) Except as set out in Section 46 (PATENT, COPYRIGHT, TRADEMARK, AND TRADE SECRET PROTECTION), The Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and ~~all~~ third party claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract solely for bodily injury, death or damage to real or tangible personal property, provided the Commonwealth gives Contractor prompt notice of any such claim of which it learns. Pursuant to the Commonwealth Attorneys Act, 71 P.S. § 732-101—732-506, as amended, the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG may, however, in its sole discretion and under such terms as it deems

appropriate, delegate its right of defense. If OAG delegates the defense to the Contractor, the Commonwealth will cooperate with all reasonable requests of Contractor made in the defense of such suits.

- (b) Notwithstanding the above, neither party shall enter into any settlement without the other party's written consent, which shall not be unreasonably withheld. The Commonwealth may, in its sole discretion, allow the Contractor to control the defense and any related settlement negotiations.

44. SOVEREIGN IMMUNITY

No provision of this Contract may be construed to waive or limit the sovereign immunity of the Commonwealth of Pennsylvania or its governmental sub-units.

45. VIRUS, MALICIOUS, MISCHIEVOUS OR DESTRUCTIVE PROGRAMMING

- (a) The Contractor shall be liable for any damages incurred by the Commonwealth if the Contractor or any of its employees, subcontractors or consultants introduces a virus or malicious, mischievous or destructive programming into the Commonwealth's software or computer networks and has failed to comply with the Commonwealth software security standards. The Commonwealth must demonstrate that the Contractor or any of its employees, subcontractors or consultants introduced the virus or malicious, mischievous or destructive programming. The Contractor's liability shall cease if the Commonwealth has not fully complied with its own software security standards.
- (b) The Contractor shall be liable for any damages incurred by the Commonwealth including, but not limited to, the expenditure of Commonwealth funds to eliminate or remove a computer virus or malicious, mischievous or destructive programming that results from the Contractor's failure to take proactive measures to keep virus or malicious, mischievous or destructive programming from originating from the Contractor or any of its employees, subcontractors or consultants through appropriate firewalls and maintenance of anti-virus software and software security updates (such as operating systems security patches, etc.).
- (c) In the event of destruction or modification of Software, the Contractor shall eliminate the virus, malicious, mischievous or destructive programming, restore the Commonwealth's software, and be liable to the Commonwealth for any resulting damages.
- (d) The Contractor shall be responsible for reviewing Commonwealth software security standards and complying with those standards.
- (e) The Commonwealth may, ~~at any time~~ upon 5 days written notice, audit, by a reasonable means deemed appropriate by the Commonwealth, any computing devices being used by representatives of the Contractor to provide Services to the

Commonwealth for the sole purpose of determining whether those devices have anti-virus software with current virus signature files and the current minimum operating system patches or workarounds have been installed. Devices found to be out of compliance will immediately be disconnected and will not be permitted to connect or reconnect to the Commonwealth network until the proper installations have been made.

- (f) The Contractor may use the anti-virus software used by the Commonwealth to protect Contractor's computing devices used in the course of providing services to the Commonwealth. It is understood that the Contractor may not install the software on any computing device not being used to provide services to the Commonwealth, and that all copies of the software will be removed from all devices upon termination of this Contract.
- (g) The Commonwealth will not be responsible for any damages to the Contractor's computers, data, software, etc. caused as a result of the installation of the Commonwealth's anti-virus software or monitoring software on the Contractor's computers.

46. PATENT, COPYRIGHT, TRADEMARK AND TRADE SECRET PROTECTION

- (a) The Contractor shall hold the Commonwealth harmless from any suit or proceeding which may be brought by a third party against the Commonwealth, its departments, officers or employees for the alleged infringement of any United States or foreign patents, copyrights, or trademarks, or for a misappropriation of trade secrets arising out of performance of this Contract, including all work, services, materials, reports, studies, and computer programs provided by the Contractor, and in any such suit or proceeding will satisfy any final award for such infringement, including costs. The Commonwealth agrees to give Contractor prompt notice of any such claim of which it learns. Pursuant to the [Commonwealth Attorneys Act](#), as amended, 71 P.S. § 732-101—732-506, the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG, however, in its sole discretion and under the terms it deems appropriate, may delegate its right of defense. If OAG delegates the defense to the Contractor, the Commonwealth will cooperate with all reasonable requests of Contractor made in the defense of such suits. No settlement that prevents the Commonwealth from continuing to use the Developed Works as provided herein shall be made without the Commonwealth's prior written consent. In all events, the Commonwealth shall have the right to participate in the defense of any such suit or proceeding through counsel of its own choosing. It is expressly agreed by the Contractor that, in the event it requests that the Commonwealth provide support to the Contractor in defending any such claim, the Contractor shall reimburse the Commonwealth for all expenses (including attorneys' fees, if such are made necessary by the Contractor's request) incurred by the Commonwealth for such support. If OAG does not delegate the defense of the matter, the Contractor's obligation to indemnify

ceases. The Contractor, at its expense, will provide whatever cooperation OAG requests in the defense of the suit.

- (b) The Contractor agrees to exercise reasonable due diligence to prevent claims of infringement on the rights of third parties. The Contractor certifies that, in all respects applicable to this Contract, it has exercised and will continue to exercise due diligence to ensure that all works produced under this Contract do not infringe on the patents, copyrights, trademarks, trade secrets or other proprietary interests of any kind which may be held by third parties. The Contractor also agrees to certify that work produced for the Commonwealth under this contract shall be free and clear from all claims of any nature.
- (c) If the defense of the suit is delegated to the Contractor, the Contractor shall pay all damages and costs awarded therein against the Commonwealth. If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization.
- (d) If, in the Contractor's opinion, the products, materials, reports, studies, or computer programs furnished hereunder are likely to or do become subject to a claim of infringement of a United States patent, copyright, or trademark, or for a misappropriation of trade secret, then without diminishing the Contractor's obligation to satisfy any final award, the Contractor may, at its option and expense, substitute functional equivalents for the alleged infringing products, materials, reports, studies, or computer programs or, at the Contractor's option and expense, obtain the rights for the Commonwealth to continue the use of such products, materials, reports, studies, or computer programs.
- (e) If any of the products, materials, reports, studies, or computer programs provided by the Contractor are in such suit or proceeding held to constitute infringement and the use or publication thereof is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to publish or continue use of such infringing products, materials, reports, studies, or computer programs, replace them with non-infringing items, or modify them so that they are no longer infringing.
- (f) If the Contractor is unable to do any of the preceding, the Contractor agrees to pay the Commonwealth:
 - (i) any amounts paid by the Commonwealth less a reasonable amount based on the acceptance and use of the deliverable;
 - (ii) any license fee less an amount for the period of usage of any software; and
 - (iii) the prorated portion of any service fees representing the time remaining in any period of service for which payment was made.

- (g) Notwithstanding the above, the Contractor shall have no obligation for:
 - (i) modification of any product, service, or deliverable provided by the Commonwealth;
 - (ii) any material provided by the Commonwealth to the Contractor and incorporated into, or used to prepare, a product, service, or deliverable;
 - (iii) use of the product, service, or deliverable in other than its specified operating environment;
 - (iv) the combination, operation, or use of the product, service, or deliverable with other products, services, or deliverables not provided by the Contractor as a system or the combination, operation, or use of the product, service, or deliverable, with any products, data, or apparatus that the Contractor did not provide;
 - (v) infringement of a non-Contractor product alone;
 - (vi) the Commonwealth's distribution, marketing or use beyond the scope contemplated by the Contract; or
 - (vii) the Commonwealth's failure to use corrections or enhancements made available to the Commonwealth by the Contractor at no charge.
- (h) The obligation to indemnify the Commonwealth, under the terms of this **Section 46**, shall be the Contractor's sole and exclusive obligation for the infringement or misappropriation of intellectual property.

47. CONTRACT CONSTRUCTION

The provisions of this Contract shall be construed in accordance with the provisions of all applicable laws and regulations of the Commonwealth. However, by executing this Contract, the Contractor agrees that it has and will continue to abide by the intellectual property laws and regulations of the United States of America.

48. USE OF CONTRACTOR AND THIRD PARTY PROPERTY

- (a) Definitions.
 - (i) "Contractor Property" refers to Contractor-owned tangible and intangible property.
 - (ii) "Third Party" refers to a party that licenses its property to Contractor for use under this Contract. For clarity, does not apply to Microsoft with regard to SfB Services.

~~(ii)~~(iii) “Third Party Property” refers to property licensed by the Contractor for use in its work under this Contract.

- (b) □ Contractor Property shall remain the sole and exclusive property of the Contractor. Third Party Property shall remain the sole and exclusive property of the Third Party. The Commonwealth acquires rights to the Contractor Property and Third Party Property as set forth in this Contract.
- (i) □ Where the Contractor Property or Third Party Property is integrated into the Supplies or Services which are not Developed Works), or the Contractor Property is otherwise necessary for the Commonwealth to attain the full benefit of the Supplies or Services in accordance with the terms of the Contract, the Contractor hereby grants to the Commonwealth a non-exclusive, fully-paid up, worldwide license to reproduce, distribute, publicly perform, display, view, access and use the Contractor Property. These rights are granted for a duration and to an extent necessary to meet the requirements under this Contract. If the Contractor requires a separate license agreement, such license terms shall include the aforementioned rights, be acceptable to the Commonwealth and include the applicable provisions set forth in these terms at **Exhibit B, Software License Requirements Agreement Template**.
- (ii) □ If Third Party Property is integrated into the Supplies or Services which are not Developed Works, or the Third Party Property is otherwise necessary for the Commonwealth to attain the full benefit of the Supplies or Services in accordance with the terms of the Contract, the Contractor shall gain the written approval of the Commonwealth prior to the use of the Third Party Property or the integration of the Third Party Property into the Supplies or Services. Third Party Property approved by the Commonwealth is hereby licensed to the Commonwealth as necessary to meet the Contract requirements.
- (1) □ If the Third Party requires a separate license agreement, the license terms shall be acceptable to the Commonwealth and include the applicable provisions set forth in these terms at **Exhibit B, Software License Requirements Agreement Template**.
- (2) □ If the use or integration of the Third Party Property is not approved in writing under this Section 48, the Third Party Property shall be deemed to be licensed under **Paragraph 48(b)(i)** above.
- (iii) □ If the Contract expires or is terminated for default pursuant to **Section 31(c)** before the Contract requirements are complete, all rights are granted for a duration and for purposes necessary to facilitate Commonwealth’s or a

Commonwealth-approved vendor's completion of the Supplies, Services or Developed Works under this Contract. ~~¶Subject to Contractor receiving payment for work performed prior to expiration or termination, the Contractor, in the form used by Contractor in connection with the Supplies, Services, or~~ Developed Works, shall deliver to Commonwealth the object code version of such Contractor Property, the Third Party Property and associated licenses immediately prior to such expiration or termination to allow the Commonwealth to complete such work.

(iv) Where third party users are reasonably anticipated by the Contract, all users are granted the right to access and use Contractor Property for the purposes of and within the scope indicated in the Contract.

(c) The Commonwealth will limit its agents and contractors' use and disclosure of the Contractor Property as necessary to perform work on behalf of the Commonwealth.

(d) The Commonwealth or any contract participant may not decompile or reverse engineer, or attempt to decompile or reverse engineer, any of the Contractor or Third Party Intellectual Property. Commonwealth hereby represents that it has the authority to provide the license grant and rights set forth in this Section 48.

(e) Reservation of rights. All rights, not expressly granted here to the Commonwealth are reserved by the Contractor or the Third Party.

(f) Termination of Contractor license grant.

(i) Rights Cease: Unless otherwise set forth in this Contract, upon the expiration or termination for any reason of Contractor's obligation to provide the Services under this Contract, all rights granted to Commonwealth under this **Section 48** shall immediately cease.

(ii) Return Contractor or Third Party Property: Unless otherwise set forth in this Contract, Commonwealth shall, at no cost to Contractor, deliver to Contractor all of the Contractor Intellectual Property (including any related source code then in Commonwealth's possession or under its control) in the form in use as of the Effective Date of such expiration or termination (except that Contractor Data shall be turned over in a form acceptable to the Contractor).

(g) Effect of license grant termination. Consistent with the provisions of this **Section 48**, the Commonwealth shall refrain from manufacturing, copying, marketing, distributing or using any Contractor Software or Contractor Tools or any other work which incorporates the Contractor Software or Contractor Tools.

(h) Contractor's Property Protection.

(i) □ The Commonwealth acknowledges Contractor’s exclusive right, title and interest, including without limitation copyright and trademark rights, in and to Contractor Data, Contractor Software, and Contractor Tools, and Commonwealth shall not, directly or indirectly, do or cause to be done any act or thing contesting or in any way impairing or tending to impair any part of said right, title, and interest, and shall not use or disclose the Contractor Data, Contractor Software, and Contractor Tools without Contractors’s written consent, which consent may not reasonably be withheld.

(ii) □ The Commonwealth shall not, in any manner, represent that the Commonwealth has any ownership interest in the Contractor Data, Contractor Software, and Contractor Tools.

~~(e)~~(i) □ The parties agree that the Commonwealth, by acknowledging Contractor Property, does not agree to any terms and conditions of the Contractor Property agreements that are inconsistent with or supplemental to this Contract.

~~(d)~~(j) □ Reports: When a report is provided under this Contract, but was not developed specifically for the Commonwealth under this Contract, the ownership of the report will remain with the Contractor, provided, however, that the Commonwealth has the right to use, copy and distribute the report within the executive agencies of the Commonwealth.

49. USE OF COMMONWEALTH PROPERTY

“Commonwealth Property” refers to Commonwealth-owned Software, Data and property (including intellectual property) and third party owned Software and property (including intellectual property) licensed to the Commonwealth.

(a) □ Confidentiality of Commonwealth Property. All Commonwealth Property provided to the Contractor pursuant to this Contract or collected or generated by the Contractor on behalf of the Commonwealth pursuant to this Contract shall be considered confidential information under **Section 35, Confidentiality, Privacy, and Compliance.**

(b) □ License grant and restrictions. During the term of this Contract, Commonwealth grants to Contractor and its subcontractors for the limited purpose of providing the Services covered under this Contract, a limited, nonexclusive, nontransferable, royalty-free right (subject to the terms of any third party agreement to which the Commonwealth is a party) to access, use, reproduce, and modify Commonwealth Property in accordance with the terms of the Contract. The Commonwealth’s license to Contractor is limited by the terms of this Contract.

- (i) The Contractor hereby assigns to the Commonwealth its rights, if any, in any derivative works resulting from Contractor's modification of the Commonwealth Intellectual Property. Contractor agrees to execute any documents required to evidence this assignment and to waive any moral rights and rights of attribution provided for in Section 106A of Title 17 of the United States Code, the *Copyright Act of 1976*, as amended.
 - (ii) Neither Contractor nor any of its subcontractors may decompile or reverse engineer, or attempt to decompile or reverse engineer, any of the Commonwealth Intellectual Property. Commonwealth hereby represents that it has the authority to provide the license grant and rights set forth in this **Section 49**.
- (c) Reservation of rights. All rights, not expressly granted here to Contractor are reserved by the Commonwealth.
- (d) Termination of Commonwealth license grant.
- (i) Rights Cease: Upon the expiration or termination for any reason of Contractor's obligation to provide the Services under this Contract, all rights granted to Contractor under this **Section 49** shall immediately cease.
 - (ii) Return Commonwealth Property: Contractor shall, at no cost to Commonwealth, deliver to Commonwealth all of the Commonwealth Intellectual Property (including any related source code then in Contractor's possession or under its control) in the form in use as of the Effective Date of such expiration or termination (except that Commonwealth Data shall be turned over in a form acceptable to the Commonwealth).
 - (iii) List of utilized Commonwealth Property/Destruction: Within **15 days** after termination, Contractor shall provide the Commonwealth with a current copy of the list of Commonwealth Intellectual Property in use as of the date of such expiration or termination. Concurrently therewith, Contractor shall destroy or erase all other copies of any of the Commonwealth Software then in Contractor's possession or under its control unless otherwise instructed by Commonwealth, in writing; provided, however, that Contractor may retain one archival copy of such Commonwealth Software and tools, until final resolution of any actively asserted pending disputes between the Parties, such retention being for the sole purpose of resolving such disputes.
- (e) Effect of license grant termination. Consistent with the provisions of this **Section 49**, Contractor shall refrain from manufacturing, copying, marketing, distributing or using any Commonwealth Software or Commonwealth Tools or any other work which incorporates the Commonwealth Software or Commonwealth Tools.
- (f) Commonwealth Property Protection.

- (i) Contractor acknowledges Commonwealth's exclusive right, title and interest, including without limitation copyright and trademark rights, in and to Commonwealth Data, Commonwealth Software, Commonwealth Tools and the Developed Works developed under the provisions of this Contract, and Contractor shall not, directly or indirectly, do or cause to be done any act or thing contesting or in any way impairing or tending to impair any part of said right, title, and interest, and shall not use or disclose the Commonwealth Data, Commonwealth Software, Commonwealth Tools or the Developed Works without Commonwealth's written consent, which consent ~~may be withheld by the Commonwealth for any reason~~ shall not be unreasonably withheld.
- (ii) Contractor shall not, in any manner, represent that Contractor has any ownership interest in the Commonwealth Data, Commonwealth Software, Commonwealth Tools, or the Developed Works.

50. OWNERSHIP OF DEVELOPED WORKS

Unless otherwise specified in the Contract's Statement of Work, ownership of all Developed Works shall be in accordance with the provisions set forth in this **Section 4950**.

(a) Rules for usage for Developed Works.

- (i) Property of Contractor: If Developed Works modify, improve, contain, or enhance application software programs or other materials generally licensed by the Contractor, then such Developed Works shall be the property of the Contractor, and Contractor hereby grants Commonwealth an irrevocable, nonexclusive, worldwide, fully paid-up license (to include source code and relevant documentation) in perpetuity to use, modify, execute, reproduce, display, perform, prepare derivative works from and distribute, within the Commonwealth, such Developed Works.
 - (1) For purposes of distribution under the license grant created by this **Section 4950**, Commonwealth includes any government agency, department, instrumentality, division, unit or other office that is part of the Commonwealth of Pennsylvania, together with the State System of Higher Education (including any of its universities), any county, borough, commonwealth, city, municipality, town, township special purpose district, or other similar type of governmental instrumentality located within the geographical boundaries of the Commonwealth of Pennsylvania.
 - (2) If federal funds are used in creation of the Developed Works, the Commonwealth also includes any other state government as well as the federal government.

(ii) Property of Commonwealth/licensor: If the Developed Works modify, improve or enhance application software or other materials not licensed to the Commonwealth by the Contractor, then such modifications, improvements and enhancements shall be the property of the Commonwealth or its licensor.

(b) Copyright Ownership.

(i) Works made for hire; general: Except as indicated in **Paragraph 4950(a)(i)**, above, Developed Works developed as part of the scope of work for the Project, including Developed Works developed by subcontractors, are the sole and exclusive property of the Commonwealth and shall be considered “works made for hire” under the *Copyright Act of 1976*, as amended, 17 United States Code.

(ii) Assignment: In the event that the Developed Works do not fall within the specifically enumerated works that constitute works made for hire under the United States copyright laws, Contractor agrees to assign and, upon their authorship or creation, expressly and automatically assigns, all copyright interests, proprietary rights, trade secrets, and other right, title, and interest in and to such Developed Works to Commonwealth. Contractor further agrees that it will have its subcontractors assign, and upon their authorship or creation, expressly and automatically assigns all copyright interest, proprietary rights, trade secrets, and other right, title, and interest in and to the Developed Works to the Commonwealth.

(iii) Rights to Commonwealth: Commonwealth shall have all rights accorded an owner of copyright under the United States copyright laws including, but not limited to, the exclusive right to reproduce the Developed Works in multiple copies, the right to distribute copies by sales or other transfers, the right to register all copyrights in its own name as author in the United States and in foreign countries, the right to prepare derivative works based upon the Developed Works and the right to display the Developed Works.

(iv) Subcontracts: The Contractor further agrees that it will include the requirements of this **Section 49-50** in any subcontractor or other agreement with third parties who in any way participate in the creation or development of Developed Works.

(v) Completion or termination of Contract: Upon completion or termination of this Contract, Developed Works shall ~~immediately~~ promptly be delivered by Contractor to the Commonwealth.

(vi) Warranty of non-infringement: Contractor represents and warrants that the Developed Works are original and do not infringe any copyright, patent,

trademark, or other intellectual property right of any third party and are in conformance with the intellectual property laws and regulations of the United States.

- (c) Patent ownership. Contractor and its subcontractors shall retain ownership to patentable items, patents, processes, inventions or discoveries (collectively, the Patentable Items) made by the Contractor during the performance of this Contract. Notwithstanding the foregoing, the Commonwealth shall be granted a nonexclusive, nontransferable, royalty free license to use or practice the Patentable Items. Commonwealth may disclose to third parties any such Patentable Items made by Contractor or any of its subcontractors under the scope of work for the Project that have been previously publicly disclosed. Commonwealth understands and agrees that any third party disclosure will not confer any license to such Patentable Items.
- (d) Federal government interests. Certain funding under this Contract may be provided by the federal government. Accordingly, the rights to Developed Works or Patentable Items of Contractors or subcontractors hereunder will be further subject to government rights as set forth in 37 C.F.R. § 401, as amended, and other applicable law or regulations.
- (e) Usage rights. Except as otherwise covered by this **Section 4950**, either Party, in the ordinary course of conducting business, may use any ideas, concepts, know-how, methodologies, processes, components, technologies, algorithms, designs, modules or techniques relating to the Services.
- (f) Contractor's copyright notice obligations. Contractor will affix the following Copyright Notice to the Developed Works developed under this **Section 49-50** and all accompanying documentation: "*Copyright © [year] by the Commonwealth of Pennsylvania. All Rights Reserved.*" This notice shall appear on all versions of the Developed Works delivered under this Contract and any associated documentation. It shall also be programmed into any and all Developed Works delivered hereunder so that it appears at the beginning of all visual displays of such Developed Works.

51. SOURCE CODE AND ESCROW ITEMS OBLIGATIONS

- (a) Source Code. Simultaneously with delivery of the Developed Works to Commonwealth, Contractor shall deliver a true, accurate and complete copy of all source codes relating to the Developed Works.
- (b) Escrow. To the extent that Developed Works and/or any perpetually-licensed software include application software or other materials generally licensed by the Contractor, Contractor agrees to place in escrow with an escrow agent copies of the most current version of the source code for the applicable software that is included as a part of the Services, including all updates, improvements, and enhancements thereof from time to time developed by Contractor.

- (c) Escrow agreement: An escrow agreement must be executed by the parties, with terms acceptable to the Commonwealth prior to deposit of any source code into escrow.
- (d) Obtaining source code. Contractor agrees that upon the occurrence of any event or circumstance which demonstrates with reasonable certainty the inability or unwillingness of Contractor to fulfill its obligations to Commonwealth under this Contract, Commonwealth shall be able to obtain the source code of the then-current source codes related to Developed Works ~~and/or any Contractor Property~~ placed in escrow under **Section 51(b)** from the escrow agent.

52. LOCATION, STATUS AND DISPOSITION OF DATA

Unless the Solicitation specifies otherwise:

- (a) ~~All Unless otherwise set forth in writing in accordance with the Change Control Procedures, all~~ Data must be stored within the United States.
- (b) The Contractor shall be responsible for maintaining the privacy, security and integrity of Data in the Contractor's or its subcontractors' possession.
- (c) All Data shall be provided to the Commonwealth upon request, in a reasonable form acceptable to the Commonwealth and at no cost.
- (d) Any Data shall be destroyed by the Contractor at the Commonwealth's request.
- (e) Any Data shall be held for litigation or public records purposes by the Contractor at the Commonwealth's request, and in accordance with the security, privacy and accessibility requirements of this Contract.

53. PUBLICATION RIGHTS AND/OR COPYRIGHTS

- (a) Except as otherwise provided in **Section 50, Ownership of Developed Works**, the Contractor shall not publish any of the results of the work without the written permission of the Commonwealth. The publication shall include the following statement: "The opinions, findings, and conclusions expressed in this publication are those of the author and not necessarily those of the Commonwealth of Pennsylvania." The Contractor shall not include in the documentation any copyrighted matter, unless the Contractor provides the Commonwealth with written permission of the copyright owner.
- (b) Except as otherwise provided in the Contract, the Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report or data designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

54. CHANGE OF OWNERSHIP OR INSOLVENCY

In the event that the Contractor should change ownership for any reason whatsoever, the Commonwealth shall have the exclusive option of continuing under the terms and conditions of this Contract with the Contractor or its successors or assigns for the full remaining term of this Contract, or continuing under the terms and conditions of this Contract with the Contractor or its successors or assigns for such period of time as is necessary to replace the products, materials, reports, studies, or computer programs, or immediately terminating this Contract. Nothing in this **Section 54** limits the Commonwealth's exercise of any rights that the Commonwealth may have under **Section 31, Termination**.

55. OFFICIALS NOT TO BENEFIT

No official or employee of the Commonwealth and no member of its General Assembly who exercises any functions or responsibilities under this Contract shall participate in any decision relating to this Contract which affects their personal interest or the interest of any corporation, partnership, or association in which they are, directly or indirectly, interested; nor shall any such official or employee of the Commonwealth or member of its General Assembly have any interest, direct or indirect, in this Contract or the proceeds thereof.

56. COMPLIANCE WITH LAWS

- (a) The Contractor shall comply with all federal, state and local laws, regulations and policies applicable to its Services, including, but not limited to, all statutes, regulations and rules that are in effect as of the Effective Date of the Contract and shall procure at its expense all licenses and all permits necessary for the fulfillment of its obligation.
- (b) If any existing law, regulation or policy is changed or if any new law, regulation or policy is enacted that affects the Services provided under this Contract, the Parties shall modify this Contract, via **Section 30, Changes**, to the extent reasonably necessary to:
 - (i) Ensure that such Services will be in full compliance with such laws, regulations and policies; and
 - (ii) Modify the rates applicable to such Supplies or Services, unless otherwise indicated in the Solicitation.

57. THE AMERICANS WITH DISABILITIES ACT

During the term of this Contract, the Contractor agrees as follows:

- (a) Pursuant to federal regulations promulgated under the authority of *The Americans With Disabilities Act*, 28 C.F.R. § 35.101, *et seq.*, the Contractor understands and agrees that no individual with a disability shall, on the basis of the disability, be excluded from participation in this Contract or from activities provided for under this Contract. As a condition of accepting and executing this Contract, the Contractor agrees to perform this Contract in compliance with the *General Prohibitions Against Discrimination*, 28 C.F.R. § 35.130, and all other regulations promulgated under Title II of *The Americans With Disabilities Act* which are applicable to the benefits, services, programs, and activities provided by the Commonwealth of Pennsylvania through Contracts with outside Contractors.
- (b) The Contractor shall be responsible for and agrees to indemnify and hold harmless the Commonwealth of Pennsylvania from losses, damages, expenses claims, demands, suits, and actions brought by any party against the Commonwealth of Pennsylvania as a result of the Contractor's failure to comply with the provisions of **Subsection 57(a)**. For clarity, this provision does not apply to SfB Services.

58. EXAMINATION OF RECORDS

- (a) The Contractor agrees to maintain, using its standard procedures, and in accordance with Generally Accepted Accounting Principles, books, records, documents, and other evidence pertaining to the charges under this Contract to the extent and in such detail as will properly reflect all charges for which reimbursement is claimed under the provisions of this Contract.
- (b) The Contractor agrees to make available at the office of the Contractor at all reasonable times, and upon reasonable written notice, during the term of this Contract and the period set forth in **Subsection 58(c)**, any of the records for inspection, audit, or reproduction by any authorized Commonwealth representative. To the extent allowed by applicable laws or regulations, the Commonwealth agrees to maintain any documents so provided in accordance with the confidentiality provisions in **Section 35, Confidentiality, Privacy and Compliance**.
- (c) The Contractor shall preserve and make available its records for a period of **three (3) years** from the date of final payment under this Contract:
 - (i) If this Contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of **three (3) years** from the date of any resulting final settlement.
 - (ii) Non-privileged records which relate to litigation or the settlement of claims arising out of the performance of this Contract, or charges under this Contract as to which exception has been taken by the auditors, shall be retained by the Contractor until such litigation, claims, or exceptions have been finally resolved.

- (d) Except for documentary evidence retained pursuant to **Paragraph 58(c)(2)**, the Contractor may in fulfillment of its obligation to retain its records as required by this **Section 58** substitute photographs, microphotographs, or other authentic reproductions of such records, after the expiration of **two (2) years** following the last day of the month of reimbursement to the Contractor of the invoice or voucher to which such records relate, unless a shorter period is authorized by the Commonwealth with the concurrence of its auditors.
- (e) The provisions of this **Section 58** shall be applicable to and included in each subcontract hereunder.

59. SINGLE AUDIT ACT OF 1984

In compliance with the [*Single Audit Act of 1984*](#), as amended, the Contractor agrees to the following:

- (a) This Contract is subject to audit by federal and state agencies or their authorized representative in accordance with the auditing standards promulgated by the Comptroller General of the United States and specified in *Government Auditing Standards*, 1994 Revisions (Yellow Book).
- (b) The audit requirement of this Contract will be satisfied if a single audit is performed under the provisions of the [*Single Audit Act of 1984*](#), as amended, 31 U.S.C. § 7501, *et seq.*, and all rules and regulations promulgated pursuant to the Act.
- (c) The Commonwealth reserves the right for federal and state agencies or their authorized representatives to perform additional audits of a financial/compliance, economy/efficiency, or program results nature, if deemed necessary.
- (d) The Contractor further agrees to comply with requirements that may be issued by the state agency upon receipt of additional guidance received from the federal government regarding the [*Single Audit Act of 1984*](#), as amended.

60. AGENCY-SPECIFIC SENSITIVE AND CONFIDENTIAL COMMONWEALTH DATA (IF APPLICABLE)

- (a) Contractor understands that its level of access may allow it to view or access highly sensitive and confidential Commonwealth and third party data. This data is subject to various state and federal laws, regulations and policies that vary from agency to agency, and from program to program within an agency. If applicable, prior to deployment of the Supplies on any Commonwealth agency facilities, the Contractor must receive and sign off on particular instructions and limitations as dictated by that Commonwealth agency, including but not limited to, as necessary, HIPAA Business Associate Agreements, a sample of which is attached to these terms as **Exhibit A**. This sign-off document (a sample of which is attached to these terms

as Attachment 3 to **Exhibit A**, will include a description of the nature of the data which may be implicated based on the nature of the Contractor's access, and will incorporate the Business Associate Agreement if it is applicable.

- (b) Contractor hereby certifies and warrants that, after being informed by the Commonwealth agency of the nature of the data which may be implicated and prior to the installation of the Supplies), the Contractor is and shall remain compliant with all applicable state and federal laws, regulations and policies regarding the data's protection, and with the requirements memorialized in every completed and signed sign-off document. Every sign-off document completed by a Commonwealth agency and signed by at least one signatory authorized to bind the Contractor is valid and is hereby integrated and incorporated by reference into this Contract via Purchase Orders issued under this Contract.
- (c) This **Section 60** does not require a Commonwealth agency to exhaustively list the laws, regulations or policies to which implicated data is subject; the Commonwealth agency is obligated only to list the nature of the data implicated by the Contractor's access, to refer the Contractor to its privacy and security policies, and to specify requirements that are not otherwise inherent in compliance with applicable laws, regulations and policies.
- (d) The requirements of this **Section 60** are in addition to and not in lieu of other requirements of this Contract, its Exhibits, Appendices and Attachments, having to do with data privacy and security, including but not limited to the requirement that the Contractor comply with all applicable Commonwealth ITPs.
- (e) Contractor shall conduct additional background checks, in addition to those required in **Section 32, Background Checks**, as may be required by a Commonwealth agency in its sign-off documents. The Contractor shall educate and hold its agents, employees, contractors and subcontractors to standards at least as stringent as those contained in this Contract. The Contractor shall provide information regarding its agents, employees, contractors and subcontractors to the Commonwealth upon request.

61. FEDERAL REQUIREMENTS

If applicable, the Contractor must receive and sign off on particular federal requirements that a Commonwealth agency may be required to include when utilizing federal funds to procure the Supplies and Services. The Commonwealth agency will inform the Contractor whether they must execute a sign-off document as required by the federal government.

62. ADDITIONAL FEDERAL PROVISIONS

~~Additional~~ Subject to Section 56, additional contract provisions may be incorporated into this Contract pursuant to federal law, regulation or policy.

63. ENVIRONMENTAL PROTECTION

In carrying out this Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations, including the Clean Streams Law, Act of June 22, 1937 (P.L. 1987, No. 394), *as amended*, 35 P.S. § 691.601 *et seq*; the Pennsylvania Solid Waste Management Act, Act of July 7, 1980 (P.L. 380, No. 97), *as amended*, 35 P.S. § 6018.101 *et seq*; and the Dam Safety and Encroachment Act, Act of November 26, 1978 (P.L. 1375, No. 325), *as amended*, 32 P.S. § 693.1.

64. NONDISCRIMINATION CLAUSE/SEXUAL HARASSMENT CLAUSE

The Contractor agrees:

- (a) In the hiring of any employee(s) for the manufacture of supplies, performance of work, or any other activity required under the contract or any subcontract, the Contractor, each subcontractor, or any person acting on behalf of the Contractor or subcontractor shall not, by reason of gender, race, creed, or color, discriminate against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.
- (b) Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate against or intimidate any employee involved in the manufacture of supplies, the performance of work, or any other activity required under the contract on account of gender, race, creed, or color.
- (c) The Contractor and each subcontractor shall establish and maintain a written sexual harassment policy and shall inform their employees of the policy. The policy must contain a notice that sexual harassment will not be tolerated and employees who practice it will be disciplined.
- (d) The Contractor and each subcontractor shall not discriminate by reason of gender, race, creed, or color against any subcontractor or supplier who is qualified to perform the work to which the contracts relates.
- (e) The Contractor and each subcontractor shall, within the time periods requested by the Commonwealth, furnish all necessary employment documents and records and permit access to their books, records, and accounts by the contracting agency and the Bureau of Diversity, Inclusion and Small Business Opportunities (BDISBO), for purpose of ascertaining compliance with provisions of this Nondiscrimination/Sexual Harassment Clause. Within fifteen (15) days after award of any contract, the Contractor shall be required to complete, sign and submit Form STD-21, the “Initial Contract Compliance Data” form. If the contract is a construction contract, then the Contractor shall be required to complete, sign and

submit Form STD-28, the “Monthly Contract Compliance Report for Construction Contractors,” each month no later than the 15th of the month following the reporting period beginning with the initial job conference and continuing through the completion of the project. Those contractors who have fewer than five employees or whose employees are all from the same family or who have completed the Form STD-21 within the past 12 months may, within the fifteen (15) days, request an exemption from the Form STD-21 submission requirement from the contracting agency.

- (f) The Contractor shall include the provisions of this Nondiscrimination/Sexual Harassment Clause in every subcontract so that those provisions applicable to subcontractors will be binding upon each subcontractor.
- (g) The Commonwealth may cancel or terminate the contract and all money due or to become due under the contract may be forfeited for a violation of the terms and conditions of this Nondiscrimination/Sexual Harassment Clause. In addition, the agency may proceed with debarment or suspension and may place the Contractor in the Contractor Responsibility File.

65. CONTRACTOR INTEGRITY PROVISIONS

It is essential that those who seek to contract with the Commonwealth of Pennsylvania observe high standards of honesty and integrity. They must conduct themselves in a manner that fosters public confidence in the integrity of the Commonwealth procurement process.

In furtherance of this policy, Contractor agrees to the following:

- (a) Contractor shall maintain the highest standards of honesty and integrity during the performance of this contract and shall take no action in violation of state or federal laws or regulations or any other applicable laws or regulations, or other requirements applicable to Contractor or that govern contracting with the Commonwealth.
- (b) Contractor shall establish and implement a written business integrity policy, which includes, at a minimum, the requirements of these provisions as they relate to Contractor employee activity with the Commonwealth and Commonwealth employees, and which is distributed and made known to all Contractor employees.
- (c) Contractor, its affiliates, agents and employees shall not influence, or attempt to influence, any Commonwealth employee to breach the standards of ethical conduct for Commonwealth employees set forth in the [*Public Official and Employees Ethics Act, 65 Pa. C. S. §§ 1101, et seq.*](#); [*the State Adverse Interest Act, 71 P.S. § 776.1, et seq.*](#); and the [*Governor’s Code of Conduct, Executive Order 1980-18, 4 Pa. Code § 7.151, et seq.*](#), or to breach any other state or federal law or regulation.

- (d) Contractor, its affiliates, agents and employees shall not offer, give, or agree or promise to give any gratuity to a Commonwealth official or employee or to any other person at the direction or request of any Commonwealth official or employee.
- (e) Contractor, its affiliates, agents and employees shall not offer, give, or agree or promise to give any gratuity to a Commonwealth official or employee or to any other person, the acceptance of which would violate the [*Governor's Code of Conduct, Executive Order 1980-18, 4 Pa. Code § 7.151, et seq.*](#) or any statute, regulation, statement of policy, management directive or any other published standard of the Commonwealth.
- (f) Contractor, its affiliates, agents and employees shall not, directly or indirectly, offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for the decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty by any Commonwealth official or employee.
- (g) Contractor, its affiliates, agents, employees, or anyone in privity with him or her shall not accept or agree to accept from any person, any gratuity in connection with the performance of work under the contract, except as provided in the contract.
- (h) Contractor shall not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor, or material on this project, unless the financial interest is disclosed to the Commonwealth in writing and the Commonwealth consents to Contractor's financial interest prior to Commonwealth execution of the contract. Contractor shall disclose the financial interest to the Commonwealth at the time of bid or proposal submission, or if no bids or proposals are solicited, no later than Contractor's submission of the contract signed by Contractor.
- (i) Contractor, its affiliates, agents and employees shall not disclose to others any information, documents, reports, data, or records provided to, or prepared by, Contractor under this contract without the prior written approval of the Commonwealth, except as required by the [*Pennsylvania Right-to-Know Law, 65 P.S. §§ 67.101-3104*](#), or other applicable law or as otherwise provided in this contract. Any information, documents, reports, data, or records secured by Contractor from the Commonwealth or a third party in connection with the performance of this contract shall be kept confidential unless disclosure of such information is:
 - (i) Approved in writing by the Commonwealth prior to its disclosure; or
 - (ii) Directed by a court or other tribunal of competent jurisdiction unless the contract requires prior Commonwealth approval; or
 - (iii) Required for compliance with federal or state securities laws or the requirements of national securities exchanges; or

- (iv) Necessary for purposes of Contractor's internal assessment and review; or
- (v) Deemed necessary by Contractor in any action to enforce the provisions of this contract or to defend or prosecute claims by or against parties other than the Commonwealth; or
- (vi) Permitted by the valid authorization of a third party to whom the information, documents, reports, data, or records pertain: or
- (vii) Otherwise required by law.

(j) As it relates to the performance of this Contract, Contractor certifies that neither it nor any of its officers, directors, associates, partners, limited partners or individual owners associated with the performance of this Contract has not been officially notified of, charged with, or convicted of any of the following and agrees to ~~immediately~~ promptly notify the Commonwealth agency contracting officer in writing if and when it or any officer, director, associate, partner, limited partner or individual owner has been officially notified of, charged with, convicted of, or officially notified of a governmental determination of any of the following:

- (i) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property.
- (ii) Commission of fraud or a criminal offense or other improper conduct or knowledge of, approval of or acquiescence in such activities by Contractor or any affiliate, officer, director, associate, partner, limited partner, individual owner, or employee or other individual or entity associated with:
 - (1) obtaining;
 - (2) attempting to obtain; or
 - (3) performing a public contract or subcontract.

Contractor's acceptance of the benefits derived from the conduct shall be deemed evidence of such knowledge, approval or acquiescence.

- (iii) Violation of federal or state antitrust statutes.
- (iv) Violation of any federal or state law regulating campaign contributions.
- (v) Violation of any federal or state environmental law.
- (vi) Violation of any federal or state law regulating hours of labor, minimum wage standards or prevailing wage standards; discrimination in wages; or child labor violations.

- (vii) Violation of the *Act of June 2, 1915* (P.L. 736, No. 338), known as the *Workers' Compensation Act, 77 P.S. 1 et seq.*
- (viii) Violation of any federal or state law prohibiting discrimination in employment.
- (ix) Debarment by any agency or department of the federal government or by any other state.
- (x) Any other crime involving moral turpitude or business honesty or integrity.

Contractor acknowledges that the Commonwealth may, in its sole discretion, terminate the contract for cause upon such notification or when the Commonwealth otherwise learns that Contractor has been officially ~~notified, charged, or~~ convicted.

- (k) If this contract was awarded to Contractor on a non-bid basis, Contractor must, (as required by Section 1641 of the *Pennsylvania Election Code*) file a report of political contributions with the Secretary of the Commonwealth on or before February 15 of the next calendar year. The report must include an itemized list of all political contributions known to Contractor by virtue of the knowledge possessed by every officer, director, associate, partner, limited partner, or individual owner that has been made by:
 - (i) Any officer, director, associate, partner, limited partner, individual owner or members of the immediate family when the contributions exceed an aggregate of one thousand dollars (\$1,000) by any individual during the preceding year; or
 - (ii) Any employee or members of his immediate family whose political contribution exceeded one thousand dollars (\$1,000) during the preceding year.

To obtain a copy of the reporting form, Contractor shall contact the Bureau of Commissions, Elections and Legislation, Division of Campaign Finance and Lobbying Disclosure, Room 210, North Office Building, Harrisburg, PA 17120.

- (l) Contractor shall comply with requirements of the [*Lobbying Disclosure Act, 65 Pa. C. S. § 13A01, et seq.*](#), and the regulations promulgated pursuant to that law. Contractor employee activities prior to or outside of formal Commonwealth procurement communication protocol are considered lobbying and subjects the Contractor employees to the registration and reporting requirements of the law. Actions by outside lobbyists on Contractor's behalf, no matter the procurement stage, are not exempt and must be reported.

- (m) When Contractor has reason to believe that any breach of ethical standards as set forth in law, the Governor’s Code of Conduct, or in these provisions has occurred or may occur, including but not limited to contact by a Commonwealth officer or employee which, if acted upon, would violate such ethical standards, Contractor shall immediately promptly notify the Commonwealth contracting officer or Commonwealth Inspector General in writing.
- (n) Contractor, by submission of its bid or proposal and/or execution of this contract and by the submission of any bills, invoices or requests for payment pursuant to the contract, certifies and represents that it has not violated any of these contractor integrity provisions in connection with the submission of the bid or proposal, during any contract negotiations or during the term of the contract.
- (o) Contractor shall cooperate with the Office of Inspector General in its investigation of any alleged Commonwealth employee breach of ethical standards and any alleged Contractor non-compliance with these provisions. Contractor agrees to make identified Contractor employees available for interviews at reasonable times and places. Contractor, upon the inquiry or request of the Office of Inspector General, shall provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form reasonably deemed relevant by the Inspector General to Contractor's integrity, as that term is defined by Commonwealth’s statutes, regulations or management directives, and compliance with these provisions. Such information may include, but shall not be limited to, Contractor’s business or financial records, documents or files of any type or form that refers to or concern this contract. Notwithstanding the above, Contractor shall not be required Contractor to release Confidential Information or privacy obligations it may have with individuals and entities that are not a party to this Contract.
- (p) For violation of any of these Contractor Integrity Provisions, the Commonwealth may terminate this and any other contract with Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these provisions, claim damages for all additional costs and expenses incurred in obtaining another contractor to complete performance under this contract, and debar and suspend Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or non-use of any one shall not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation, or otherwise.
- (q) For purposes of these Contractor Integrity Provisions, the following terms shall have the meanings found in this Paragraph (q).
- (i) “Confidential information” means information that a) is not already in the public domain; b) is not available to the public upon request; c) is not or does not become generally known to Contractor from a third party without an obligation to maintain its confidentiality; d) has not become generally

known to the public through an act or omission of Contractor; or e) has not been independently developed by Contractor without the use of confidential information of the Commonwealth.

- (ii) “Consent” means written permission signed by a duly authorized officer or employee of the Commonwealth, provided that where the material facts have been disclosed, in writing, by pre-qualification, bid, proposal, or contractual terms, the Commonwealth shall be deemed to have consented by virtue of execution of this contract.
- (iii) “Contractor” means the individual or entity that has entered into this contract with the Commonwealth, including those directors, officers, partners, managers, and owners having more than a five percent interest in Contractor.
- (iv) “Financial interest” means:
 - (1) Ownership of more than a five percent interest in any business; or
 - (2) Holding a position as an officer, director, trustee, partner, employee, or holding any position of management.
- (v) “Gratuity” means tendering, giving or providing anything of more than nominal monetary value including, but not limited to, cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. The exceptions set forth in the *Governor’s Code of Conduct, Executive Order 1980-18*, the 4 Pa. Code § 7.153(b), shall apply.
- (vi) “Immediate family” means a spouse and any unemancipated child.
- (vii) “Non-bid basis” means a contract awarded or executed by the Commonwealth with Contractor without seeking bids or proposals from any other potential bidder or offeror.
- (viii) “Political contribution” means any payment, gift, subscription, assessment, contract, payment for services, dues, loan, forbearance, advance or deposit of money or any valuable thing, to a candidate for public office or to a political committee, including but not limited to a political action committee, made for the purpose of influencing any election in the Commonwealth of Pennsylvania or for paying debts incurred by or for a candidate or committee before or after any election.

66. ASSIGNMENT OF RIGHTS UNDER THE ANTITRUST LAWS

~~The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by Contractor's suppliers resulting from violations of state and federal antitrust laws are in fact borne by the Commonwealth.~~ As part of the consideration for the award of this Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all rights, title, and interest in and to any claims made known to the Contractor by the Commonwealth, that Contractor now has or may hereafter acquire under state and federal antitrust laws relating to the goods and services which are subject to this Contract.

67. WARRANTIES

Except as otherwise set forth in the Contract, the Contractor warrants that the Services, Supplies and Developed Works will conform in all material respects to the functional specifications for the Services, Supplies and Developed Works and/or the requirements of the Contract. The warranty period for the Services, Supplies and Developed Works shall be **90 days** from final acceptance. If third-party Services, Supplies or Developed Works are subject to a warranty that exceeds **90 days** from final acceptance, the longer warranty period shall apply. The Contractor shall correct any non-conformity within the warranty period specified herein.

- (a) Disruption. The Contractor hereby represents and warrants to the Commonwealth that the Contractor will not intentionally cause, or take any unreasonable action that, directly or indirectly, may cause an unplanned or unscheduled disruption of the Commonwealth's operations.
- (b) Nonconformity. In the event of any nonconformity with the foregoing warranties, the Commonwealth will provide written notification of such nonconformity to the Contractor and the Contractor, at no cost to the Commonwealth, shall within **10 days'** notice of the nonconformity, commence work to remedy the nonconformity and shall work diligently, at no charge to the Commonwealth, until such time as the deliverable conforms, in all material respects, to the Service requirements and/or the functional specifications of the Developed Works set forth in this Contract. The Contractor shall have no obligation with respect to nonconformities arising out of:
 - (i) Modifications to Developed Works made by the Commonwealth;
 - (ii) Use of the Developed Works not in accordance with the documentation or specifications applicable thereto;
 - (iii) Failure by the Commonwealth to implement any corrections or enhancements made available by the Contractor;
 - (iv) Combination of the Developed Works with any items not supplied or approved by the Contractor; or

- (v) Failure of any software licensed under a separate license agreement to conform to its specifications or documentation.
- (c) Industry standards. The Contractor hereby represents and warrants to the Commonwealth that the Services shall be performed in accordance with applicable industry standards using the utmost care and skill.
- ~~(d) Right to perform. The Contractor hereby represents and warrants to the Commonwealth that the Contractor has the necessary legal rights, including licenses to third party products, tools or materials, to perform the Services and deliver the Developed Works under this Contract.~~
- ~~(e)~~(d) Sole warranties. THE FOREGOING EXPRESS WARRANTIES ARE THE CONTRACTOR'S SOLE AND EXCLUSIVE WARRANTIES AND NO OTHER WARRANTIES, EXPRESS OR IMPLIED, SHALL APPLY, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

68. LIQUIDATED DAMAGES

- (a) By accepting this Contract, the Contractor agrees to the delivery requirements of this Contract. If a Contract schedule is not met, including Transition Milestones set out in Transition Plan, the delay will interfere with the Commonwealth's program. In the event of any such delay, it would be impractical and extremely difficult to establish the actual damage for which the Contractor is the material cause. The Commonwealth and the Contractor therefore agree that, in the event of any such delay the amount of damage shall be the amount set forth in this **Section 68** and agree that the Contractor shall pay such amount as liquidated damages, not as a penalty.
- (b) The amount of liquidated damages for failure to meet Transition Milestones is set forth in **Appendix Q-W** (Transition Milestones). Each Milestone Credit reflects the total amount Contractor could be liable for missing the associated Transition Milestone.
- (c) If, **Appendix Q-W** (Transition Milestones) indicates that Contractor may earn back liquidated damages, then Contractor shall have the time specified in **Appendix Q-W** (Transition Milestones), as indicated, to meet the Acceptance Criteria for the Transition Milestone and earn back the Milestone Credit. If Contractor fails to meet the Acceptance Criteria within 30 days following the Milestone Due Date or, if an Earn-Back period is specified, then 30 days following the end of the specified Earn-Back period, the Commonwealth, at no additional expense and at its option, may either:
 - (1) Immediately terminate the Contract and all Software, documentation, reports, Developed Materials and any other

materials provided for or created for the Commonwealth as a result of this Contract shall be given to the Commonwealth, and the Commonwealth shall be entitled to its remedies under **Subsection 68(c)**; or

- (2) Order the Contractor to continue with no decrease in effort until the work is completed in a manner acceptable to the Commonwealth or until the Commonwealth terminates the Contract. If the Contract is continued, the liquidated damages applicable to future milestones will ~~also~~ continue until the work is completed.
- (d) Liquidated damages shall be paid by the Contractor and collected by the Commonwealth by deducting them from the invoices submitted under this Contract or any other contract Contractor has with the Commonwealth, by collecting them through the performance security, if any, or by billing the Contractor as a separate item.
- (e) To the extent that the delay or failure is caused by the Commonwealth, as described in **Appendix Q-W** (Transition Milestones), or other third parties outside of Contractor's control, including but limited to the contractor responsible for the Enterprise Service Desk pursuant to RFP #2 (RFP 6100039273) ("Enterprise Service Desk") and the Microsoft-authorized reseller, no liquidated damages will be applied.

69. SERVICE LEVELS

- (a) The Contractor shall comply with the procedures and requirements of the Service Level Agreements set forth in Appendix M, -which are made part of this Contract.
- (b) Where there are expressly defined Service Levels, Contractor shall measure and report its performance against these standards on at least a monthly basis, except as may otherwise be agreed between the parties. All Services without expressly defined Service Levels must be performed at least to the same degree of accuracy, completeness, efficiency, quality and timeliness as is provided by well-managed suppliers providing services similar to the Services, so long as such performance is commercially and operationally reasonable.
- (c) The Commonwealth's acceptance of any financial credit incurred by the Contractor in favor of the Commonwealth for a Service Level default ("Service Level Credit") shall not bar or impair Commonwealth's rights and remedies in respect of the failure or root cause as set forth elsewhere in this Contract, including without limitation other claims for liquidated damages, injunctive relief and termination rights; provided however, Service Level Credits paid would be credited against any such claims for damages.

(d) □ The parties acknowledge that a single service interruption may result in multiple Service Level defaults against the same root cause, each with its own associated Service Level Credit. In such cases, the Service Level that results in the highest credit shall apply and shall be the sole Service Level remedy against the service interruption.

~~(d)~~(e) □ The parties acknowledge that the interdependencies between this Solicitation and RFP #2 (RFP 6100039273) and the critical Microsoft SfB Services provided for outside of this Contract impacts the Contractor's performance under this Contract and may result in a Service Level not being met. In the event the cause of a missed Service Level is determined to be attributed to the Enterprise Service Desk or the SfB Services, Service Credit(s) will not apply.

70. CONTINUOUS IMPROVEMENT AND BENCHMARKING

(a) □ **Benchmark Overview.** Prior to the expiration of the second anniversary of the Effective Date, Commonwealth and Contractor shall establish the details of the Benchmarking process intended to ensure that Contractor provides Commonwealth with technology and Services Levels equal to or greater than other organizations receiving similar services. The parties acknowledge and agree that the benchmarking process is intended to assist Commonwealth in making decisions necessary to balance the desire for then current technology against the cost and uncertain performance of newly evolving technology.

(b) □ **Benchmarker.** The Benchmark shall be conducted by a Benchmarker selected by the Commonwealth, subject to Contractor's approval thereof, in writing, such approval not to be unreasonably withheld, delayed or conditioned. The fees and expenses charged by the Benchmarker shall be paid by Commonwealth. Contractor shall at its expense cooperate with and assist the Benchmarker and any other third parties involved in the Benchmarking process, including meeting with Commonwealth and the Benchmarker before and throughout the benchmarking process and providing data relating to the provision of the Services, as requested by Commonwealth or the Benchmarker. The Benchmarker shall sign a confidentiality agreement in favor of both Contractor and Commonwealth in which the Benchmarker agrees: (i) that the information and data obtained or produced by the Benchmarker in connection with the Benchmarking Process (including the results of the Benchmarking Process and any related reports) constitutes the Confidential Information of Commonwealth and Contractor, (ii) that it will not use or disclose such confidential information and data except in anonymized form in relation to aggregated service performance data used by the Benchmarker for the purposes of conducting benchmarking services, and further except for the benefit of Contractor and Commonwealth in connection with this Contract, and (iii) the Benchmarker will conduct the Benchmarking Process in a manner that does not unreasonably interfere with Contractor's ongoing service operations or impair Contractor's ability to achieve the Service Levels under the Contract.

- (c) **Benchmark.** If Commonwealth undertakes the Benchmarking, Commonwealth and Contractor, in good faith, shall attempt to agree upon the period during which the Benchmarking shall be conducted. If the parties are unable to so agree, Commonwealth shall specify the relevant period, subject to Contractor's approval thereof, in writing, such approval not to be unreasonably withheld, delayed or conditioned.
- (d) **Benchmark information.** Commonwealth and Contractor shall jointly determine the Benchmark information with appropriate input from the Benchmarker. Commonwealth and Contractor shall (1) review the Benchmark information, and (2) schedule a meeting to address any issues either party may have with the Benchmark information. Contractor shall provide the Benchmark information at no additional cost to Commonwealth; provided, however, that if Commonwealth wishes the Benchmarker to use information which Contractor does not otherwise have access to in the course of its business, Commonwealth shall provide such information at its own cost and Contractor may use such information but, unless Commonwealth expressly agrees otherwise in writing, only in connection with providing the Services.
- (e) **Benchmarking Results.** Within thirty (30) days after the completion of Benchmarking, the Benchmarker shall deliver the Benchmark Results to the Commonwealth Project Manager and the Contractor Project Manager.
- (f) **Benchmark Results Review Period and Adjustments.** The Commonwealth and Contractor shall agree upon the duration of the Benchmark Review Period. The Commonwealth and Contractor shall utilize the Benchmark Review Period to review such Benchmark Results, and shall meet during the Benchmark Review Period to collectively assess the Benchmark Results.
- (g) **Disputes of Benchmark Results.** Either Commonwealth or Contractor may in good faith dispute the Benchmark Results, in writing, prior to the expiration of the Benchmark Review Period. Any such notice of dispute issued by either party shall include a description of the nature of such dispute in sufficient detail so as to enable the Benchmarker and the other party to assess the motive and merit of the dispute. Within ten (10) days after receipt of such notice, the parties shall cause the Benchmarker to issue a written response addressing the dispute, and if such dispute requires a change to any of the Benchmark Results, the Benchmarker shall be directed to issue revised Benchmark Results. Upon issuing such revised Benchmark Results, Commonwealth and Contractor, as applicable, shall have another Benchmark Review Period to review the revised Benchmark Results in accordance with **Section 70(g)**. In the event either party disputes the revised Benchmark Results within the second Benchmark Review Period or if the parties are unable to agree as to the need for revised Benchmark Results, original Benchmark Results or the revised Benchmark Results, as the case may be, shall be subject to the contract controversy procedures set forth in **Section 33, Contract Controversies**.

- (h) **Benchmarking: Price Protection.** In addition to the Benchmarking provided for in this **Section 70**, no earlier than sixty (60) days after the end of Year 2 of this Contract, and no more frequently than annually thereafter, the Commonwealth may engage a Benchmarking Price Protection process, in accordance with the provisions of this **Section 70** for the purpose of assessing the extent to which the prices paid for the Services hereunder are comparable to prices of a comparable reference group of clients for Services. This Benchmarking Price Protection process shall be an objective measurement and comparison process utilizing baseline methods and industry standards. The parties acknowledge and agree that this Benchmarking Price Protection process is intended to assure the Commonwealth that pricing and pricing models employed in this engagement are consistent with the reference group throughout the later years of the Contract, as it may be extended or renewed.
- (i) **Benchmark: Pricing Adjustments.** If the results of a Benchmarking Price Protection analysis, as reflected in written Benchmarking Results delivered to Contractor, reveal that amounts to be paid under the terms of the Contract for Services exceed by a factor of ~~ten-fifteen~~ percent (~~1015~~%) or more than the average of amounts paid by the reference group for comparable services (the "Market Rate"), the Commonwealth may elect to renegotiate those prices. When notified of the Commonwealth's intent to renegotiate the prices, the Contractor shall, as soon as practical following notification of the Commonwealth's intent, negotiate in good faith with Commonwealth for the adjustment and reduction of fees for the Services. If an agreement is reached for a pricing adjustment such agreement will be effective as of the date of delivery of the Benchmarking Price Protection Results. If the parties are unable to agree to a pricing adjustment within sixty (60) days after delivery of the Benchmarking Price Protection Results, the matter shall be submitted to the various dispute resolution procedures contained in **Section 33, Contract Controversies**, of the Contract. If the dispute resolution procedure results in a pricing adjustment, that adjustment will be effective as of the date of delivery of the Benchmarking Price Protection Results. In no event will Contractor increase the Fees as a result of any review pursuant to this **Section 70**.
- (j) **Annual Best Practices Reviews.** Within thirty (30) days of each anniversary of the Effective Date, Contractor shall, in accordance with procedures agreed upon by the Commonwealth Project Manager and the Contractor Project Manager, identify for Commonwealth any best practices that have emerged (within Contractor's organization or, to the knowledge of Contractor, within the processing services outsourcing market generally), that, if implemented by the Contractor would materially benefit the Commonwealth in terms of price reductions or performance improvement. If requested by Commonwealth, within sixty (60) days Contractor shall provide Commonwealth with proposals for the implementation of such best practices in a manner consistent with the Change Control Procedures of the Contract. If approved by Commonwealth, Contractor shall implement such best practices on behalf of Commonwealth as expeditiously as possible.

71. FORCE MAJEURE

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control (collectively and individually, a "Force Majeure Event") may include, but are not limited to, acts of God; ~~or~~ war or other military actions; changes in controlling law, regulations, orders or the requirements of any governmental entity; ~~;~~ severe weather conditions, civil disorders, natural disasters, fire, epidemics and quarantines; ~~;~~ acts of terrorism; general strikes throughout the trade, labor disputes, riots and ~~and freight~~insurrection; freight embargoes; fiber cuts caused by third party. The term "Force Majeure Event" shall specifically exclude a party's failure to comply with its payment obligations.

The Contractor shall notify the Commonwealth orally within **15 days** and in writing within **10-30 days** of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect to cancel the Contract, or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract.

72. PUBLICITY/ADVERTISEMENT

The Contractor shall not issue news releases, internet postings, advertisements, endorsements, or any other public communication without prior written approval of the Commonwealth, and then only in coordination with the Commonwealth. This includes the use of any trademark or logo.

73. TERMINATION ASSISTANCE

(a) **General.** Upon expiration of the Contract and/or upon the Commonwealth's request, Contractor shall provide Termination Assistance Services directly to the Commonwealth, or to any replacement provider designated by the Commonwealth, any successors or assigns of such entities or any of their designee(s). Contractor shall take all necessary and appropriate actions to accomplish a complete, timely, and seamless transition of any terminated Services from Contractor to the Commonwealth, or to any replacement provider designated by the Commonwealth, without material interruption of or material adverse impact on the terminated

Services or any other services provided by a third party or Services that Contractor shall continue to provide (each transition, an “Assistance Event”). Contractor shall cooperate with the Commonwealth and any new contractor and otherwise promptly take all steps required or reasonably requested to assist the Commonwealth in effecting a complete and timely Termination Assistance Services of any terminated Services. Contractor shall provide all information regarding the terminated Services or as otherwise needed for Termination Assistance Services, including Commonwealth Data conversion, interface specifications, and related professional services. Contractor shall provide for the prompt and orderly conclusion of all terminated Services, as the Commonwealth may direct, including completion or partial completion of projects, documentation of work in process, and other measures to assure an orderly transition to the Commonwealth or the Commonwealth’s designee. Contractor’s obligation to provide the Termination Assistance Services shall not cease until an Assistance Event satisfactory to the Commonwealth, including the performance by Contractor of all asset-transfers and other obligations of Contractor provided in this **Section 73**, has been completed in accordance with mutually agreed to completion or acceptance criteria or if no agreed acceptance criteria exist, then to the Commonwealth’s reasonable satisfaction.

- (1) **Period of Provision.** Contractor shall provide Termination Assistance Services commencing on the date a determination is made by the Commonwealth that there shall be an Assistance Event.
- (2) **Notice of an Assistance Event.** The Commonwealth will provide Contractor with written notice of an Assistance Event. Such notice will include a description of the Services that are to be terminated or discontinued, the affected Commonwealth Agencies, and the anticipated effective date of the Assistance Event. The Commonwealth may modify or update any of the information provided in the initial notice of an Assistance Event from time to time by a supplemental notice from the Commonwealth to Contractor.
- (3) **Extension of Services.** The Commonwealth may elect, upon thirty (30) days prior notice to Contractor, to extend the period for performance of Termination Assistance Services (in whole or in part), in its sole discretion, provided that the total of all such extensions shall not result in Termination Assistance Services being performed beyond twenty-four (24) months following the effective date of the applicable Assistance Event without Contractor's consent. In each case, if the Commonwealth provides less than thirty (30) days prior notice of an extension, Contractor shall nonetheless use reasonable efforts to comply with the Commonwealth's request and provide the requested Services and

Contractor will be compensated for any expedite fees or other charges incurred related to continuing the Services.

- (4) **Firm Commitment.** Contractor shall provide Termination Assistance Services regardless of the reason for the Assistance Event.
 - (5) **Performance.** Contractor shall provide all Termination Assistance Services subject to and in accordance with the terms and conditions of this Contract. Contractor shall perform Termination Assistance Services with at least the same degree of accuracy, quality, completeness, timeliness, responsiveness and resource efficiency as it is or was required to provide the same or similar Services in accordance with this Contract. The quality and level of performance of Termination Assistance Services provided by Contractor shall continue to meet or exceed the Service Levels and shall not be degraded or deficient in any respect. To the extent the Service Levels are reasonably measureable due to volume and services remaining and continue to be applicable, Service Level Credits shall be assessed for any failure to meet Service Levels during any period in which Termination Assistance Services are provided. If any period for performing any Termination Assistance Services extends beyond the expiration or the effective date of any termination of this Contract, the provisions of this Contract shall remain in full effect for the duration of such period.
- (b) **Scope.** As part of the Termination Assistance Services, Contractor shall timely ~~transfer the control and responsibility for cease providing~~ Services previously performed by or for Contractor to the services which the Commonwealth and/or its designee(s), and upon Commonwealth request, shall execute any documents reasonably necessary to effect such transfers is transitioning to. Contractor shall also provide any and all information and assistance requested by the Commonwealth required for:
- (1) provide a catalog of all processes, materials, the Commonwealth data, equipment, software, third party contracts and tools used to provide the Services,
 - (2) create and provide copies of any Commonwealth Data Contractor's possession in the format and on the media reasonably requested by the Commonwealth and/or its designee(s),
 - (3) provide other technical and process assistance, documentation and information as reasonably requested by the Commonwealth and/or its designee(s).

- ~~(1) ☐ the systems and processes associated with the Services to operate and be maintained and enhanced efficiently;~~
- ~~(2) ☐ the Services to continue without interruption or adverse effect; and~~
- ~~(3) ☐ the orderly transfer of the Services (or replacement or supplemental services) to the Commonwealth and/or its designee(s).~~

(c) ☐ **General-Additional Support.** Contractor shall, upon entering into a Statement of Work for additional chargeable support services:

- (1) ☐ assist the Commonwealth and/or its designee(s) in developing a written plan for the migration of the Services to the Commonwealth and/or its designee(s), which plan shall include (as requested by the Commonwealth) capacity planning, process planning, facilities planning, human resources planning, technology planning, telecommunications planning and other planning necessary to effect the transition,
- (2) ☐ perform programming and consulting services as requested to assist in implementing the transition plan,
- (3) ☐ train personnel designated by the Commonwealth and/or its designee(s) in the use of any processes or associated Equipment/equipment, materials, systems or tools used in connection with the provision of the Services as needed for such personnel to assume responsibility for performance of the Services,
- ~~(4) ☐ provide a catalog of all processes, materials, the Commonwealth data, equipment, software, third party contracts and tools used to provide the Services;~~
- ~~(5)~~(4) ☐ assist in the execution of a parallel operation, data migration and testing process until the successful completion of the transition to the Commonwealth and/or its designee(s),
- ~~(6) ☐ create and provide copies of any Commonwealth data Contractor's possession in the format and on the media requested by the Commonwealth and/or its designee(s);~~
- ~~(7) ☐ provide other technical and process assistance, documentation and information as requested by the Commonwealth and/or its designee(s).~~

(d) ☐ **Personnel.**

(1) **List of Contractor Personnel.** Contractor shall promptly provide to the Commonwealth a list, organized by location, and of the Contractor Personnel dedicated (fifty percent (50%) or more to the performance of the Services that are implicated by each Assistance Event. Such list shall, specify each such Contractor Personnel's job title and job responsibilities. The Commonwealth agrees not to disseminate any personally identifiable information contained in such list without Contractor's consent. Contractor shall not terminate, reassign or otherwise remove from the performance of the Services any such dedicated Contractor Personnel until after the end of the applicable Termination Assistance Services period unless such Contractor Personnel (1) voluntarily resigns from Contractor, (2) is dismissed by Contractor for cause or replaced as a result of unsatisfactory performance in respect of his or her duties and responsibilities to Contractor or Commonwealth pursuant to this Contract, (3) is unable to work due to his or her death or disability or (4) is reassigned to a promotional or developmental position internal to Contractor, (5) is not required by Contractor to provide the Termination Assistance Services.

(2) **Right to Hire.** The Commonwealth shall be permitted, without interference (including through counter-offers) from Contractor (subject to this **Section 73**), to meet with, solicit and hire, effective after the later of (i) the date of the Commonwealth's notice of an Assistance Event and (ii) the completion of the Termination Assistance Services requiring such Contractor Personnel, any Contractor Personnel dedicated to the performance of the Services during the twelve (12) month period prior to the date of the Commonwealth's notice of an Assistance Event who are implicated by that Assistance Event. Contractor hereby waives its rights, if any, under contracts with such Contractor Personnel restricting the ability of such Contractor Personnel to be recruited or hired by the Commonwealth (including waiving any right to restrict such personnel via non-compete agreements or other contractual means). Contractor shall provide the Commonwealth with reasonable assistance in their efforts to meet with, solicit and hire such Contractor Personnel, and shall give the Commonwealth and/or its designee(s) reasonable access to such Contractor Personnel for interviews, evaluations and recruitment. The Commonwealth shall endeavor to conduct the above-described activities in a manner that is not unnecessarily disruptive of Contractor's performance of its obligations under this Contract.

(e) **Rates and Charges.** Except as provided in this Subsection and **Section 73(jc)**, Contractor shall provide all Termination Assistance Services at no additional charge. The parties anticipate that Termination Assistance Services requested by

the Commonwealth shall be provided by Contractor using Contractor Personnel already assigned to the performance of the Services and without adversely affecting Contractor's ability to meet its performance obligations. If such Termination Assistance Services cannot be provided using the dedicated resources without adversely affecting Contractor's ability to meet the Service Levels, charges for such Termination Assistance Services the Contractor may request a change via **Section 30, Changes. Resources.** Contractor shall maintain capability on at least thirty (30) days' notice at all times during the Term to deploy all necessary resources to perform any Termination Assistance Services.

- (f) **Information.** At the Commonwealth's request, Contractor shall provide to and/or make available for the Commonwealth review, at Contractor's sole cost and expense, any and all reports, data and information ~~that available that~~ the Commonwealth reasonably deems necessary in order to evaluate all options related to an Assistance Event. Contractor shall provide all such reports, data and information regardless of whether the Commonwealth has provided notice of or otherwise declared an Assistance Event.
- (g) **Breach.** Contractor acknowledges and agrees that, upon any breach or threatened breach by Contractor of its obligations under this **Section 73**, Commonwealth shall be entitled to seek injunctive relief, including an order of specific performance. The Provided that the Contractor is providing the Services after the expiration of the Term or after any termination of this Contract, the provisions of this **Section 73** will survive any expiration of the Term and any termination of this Contract.

74. NOTICE

Any written notice to any party under this Agreement shall be deemed sufficient if delivered personally, or by facsimile, telecopy, electronic or digital transmission (provided such delivery is confirmed), or by a recognized overnight courier service (e.g., DHL, Federal Express, etc.), with confirmed receipt, or by certified or registered United States mail, postage prepaid, return receipt requested, sent to the address such party may designate by notice given pursuant to this **Section 74**.

75. RIGHT-TO-KNOW LAW

- (a) The Pennsylvania [Right-to-Know Law, 65 P.S. §§ 67.101—3104](#), as amended, ("RTKL") applies to this Contract. For the purpose of this **Section 75**, the term "the Commonwealth" shall refer to the contracting Commonwealth organization.
- (b) If the Commonwealth needs the Contractor's assistance in any matter arising out of the RTKL that is related to this Contract, it shall notify the Contractor using the legal contact information provided in this Contract. The Contractor, at any time,

may designate a different contact for such purpose upon reasonable prior written notice to the Commonwealth.

- (c) Upon written notification from the Commonwealth that it requires the Contractor's assistance in responding to a request under the RTKL for information related to this Contract that may be in the Contractor's possession, constituting, or alleged to constitute, a public record in accordance with the RTKL ("Requested Information"), the Contractor shall:
 - (1) Provide the Commonwealth, within **10 days** after receipt of written notification, access to, and copies of, any document or information in the Contractor's possession arising out of this Contract that the Commonwealth reasonably believes is Requested Information and may be a public record under the RTKL; and
 - (2) Provide such other assistance as the Commonwealth may reasonably request, in order to comply with the RTKL with respect to this Contract.
- (d) If the Contractor considers the Requested Information to include a request for a Trade Secret or Confidential Proprietary Information, as those terms are defined by the RTKL, or other information that the Contractor considers exempt from production under the RTKL, the Contractor must notify the Commonwealth and provide, within **seven (7) days** of receiving the written notification, a written statement signed by a representative of the Contractor explaining why the requested material is exempt from public disclosure under the RTKL.
- (e) The Commonwealth will rely upon the written statement from the Contractor in denying a RTKL request for the Requested Information unless the Commonwealth determines that the Requested Information is clearly not protected from disclosure under the RTKL. Should the Commonwealth determine that the Requested Information is clearly not exempt from disclosure, the Contractor shall provide the Requested Information within **five (5) business days** of receipt of written notification of the Commonwealth's determination.
- (f) If the Contractor fails to provide the Requested Information within the time period required by these provisions, the Contractor shall indemnify and hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of the Contractor's failure, including any statutory damages assessed against the Commonwealth.
- (g) The Commonwealth will reimburse the Contractor for any costs associated with complying with these provisions only to the extent allowed under the fee schedule established by the Office of Open Records or as otherwise provided by the RTKL if the fee schedule is inapplicable.

- (h) The Contractor may file a legal challenge to any Commonwealth decision to release a record to the public with the Office of Open Records, or in the Pennsylvania Courts, however, the Contractor shall indemnify the Commonwealth for any legal expenses incurred by the Commonwealth as a result of such a challenge and shall hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of the Contractor's failure, including any statutory damages assessed against the Commonwealth, regardless of the outcome of such legal challenge. As between the parties, the Contractor agrees to waive all rights or remedies that may be available to it as a result of the Commonwealth's disclosure of Requested Information pursuant to the RTKL.
- (i) The Contractor's duties relating to the RTKL are continuing duties that survive the expiration of this Contract and shall continue as long as the Contractor has Requested Information in its possession.

76. GOVERNING LAW

This Contract shall be interpreted in accordance with and governed by the laws of the Commonwealth of Pennsylvania, without giving effect to its conflicts of law provisions. Except as set forth in **Section 33, Contract Controversies**, Commonwealth and Contractor agree that the courts of the Commonwealth of Pennsylvania and the federal courts of the Middle District of Pennsylvania shall have exclusive jurisdiction over disputes under this Contract and the resolution thereof. Any legal action relating to this Contract must be brought in Dauphin County, Pennsylvania, and the parties agree that jurisdiction and venue in such courts is appropriate.

77. CONTROLLING TERMS AND CONDITIONS

The terms and conditions of this Contract shall be the exclusive terms of agreement between the Contractor and the Commonwealth. Other terms and conditions or additional terms and conditions included or referenced in the Contractor's website, quotations, invoices, business forms, click-through agreements, or other documentation shall not become part of the parties' agreement and shall be disregarded by the parties, unenforceable by the Contractor, and not binding on the Commonwealth.

78. SMALL DIVERSE BUSINESS/SMALL BUSINESS COMMITMENT

Contractor shall meet and maintain the commitments to small diverse businesses in the Small Diverse Business and Small Business ("SDB/SB") portion of its Proposal. Any proposed change to a SDB/SB commitment must be submitted to the DGS Bureau of Diversity, Inclusion and Small Business Opportunities ("BDISBO"), which will make a recommendation as to a course of action to the Commonwealth Contracting Officer. Contractor shall complete the Prime Contractor's Quarterly Utilization Report and submit

it to the Commonwealth Contracting Officer and BDISBO within **10 business days** at the end of each calendar quarter that the Contract is in effect.

79. WARRANTIES AND AGREEMENTS

(a) Contractor represents and warrants that as of the Contract's Effective Date:

- (1) It is a corporation duly incorporated, validly existing, and in good standing under the laws of state in which it is incorporated
- (2) It has all requisite corporate power and authority to execute, deliver, and perform its obligations under this Contract.
- (3) Contractor is duly licensed, authorized and qualified to do business and is in good standing in Pennsylvania and in every other jurisdiction where Services will be performed by Contractor pursuant to this Contract in which a license, authorization or qualification is required for the ownership or leasing of its assets or the transaction of business of the character transacted by it except where the failure to be so licensed, authorized or qualified would not have a material adverse effect on Contractor's ability to fulfill its obligations under this Contract.
- (4) The execution, delivery and performance of this Contract by Contractor has been duly authorized by Contractor.

(b) Contractor agrees that:

- (1) Contractor has not disclosed any Confidential Information of Commonwealth.
- (2) The Contractor Software does not and will not, and the Services will not, infringe upon the proprietary rights of any Third Party, provided that Contractor will have no obligation with respect to any losses to the extent the same arise out of or in connection with Commonwealth's modification or misuse of equipment, systems, programs, or products or Commonwealth's combination, operation or use with devices, data, equipment, systems, programs or products not furnished by Contractor under this Contract.
- (3) Contractor Personnel and Subcontractors that Contractor will use to provide and perform the Services have and during the Term will have, the suitable knowledge, skills, experience, qualifications and resources to provide and perform the Services:

(i) In accordance with the Contract.

- (ii) In a diligent, workmanlike manner with due care and skill, consistent with the required level of quality and performance and in accordance with the Service Levels.
- (4) Contractor shall cooperate fully with Commonwealth and with any Third Party appointed by Commonwealth to the extent that such cooperation may be necessary to permit Commonwealth or such Third Parties to complete any work related to or impacted by the Services provided to Commonwealth by Contractor under the Contract.
- (5) Contractor shall collaborate fully with Commonwealth or with any third party appointed by Commonwealth to the extent that such cooperation may be necessary to permit Commonwealth or such third parties to in-source or transfer to a third party any aspect of the Services then provided by Contractor under the Contract.
- (c) Commonwealth represents, warrants and covenants that as of the Contract's Effective Date:
 - (1) It is a sovereign entity and has all requisite power and authority to execute, deliver, and perform its obligations under this Contract.
 - (2) It has, or at any time of provision to Contractor, will have the right to use and to disclose to Contractor and Contractor Subcontractors and to allow Contractor and Contractor Subcontractors to use in accordance with the terms of this Contract any Commonwealth Software so disclosed to Contractor.

7080. REQUIREMENTS FOR INFORMATION IN LEGAL PROCEEDINGS

- (a) If the Commonwealth notifies Contractor, or Contractor is otherwise aware, that particular Commonwealth Confidential Information may be within attorney-client or work-product privileges of the Commonwealth, then regardless of any applicable exclusions, Contractor (i) shall not disclose such Confidential Information or take any other action that would result in waiver of such privileges and (ii) shall instruct all Contractor Personnel who may have access to such communications to maintain privileged material as strictly confidential and otherwise protect the Commonwealth privileges.
- (b) To the extent requested by the Commonwealth, Contractor shall comply with the Commonwealth's litigation response plan, including policies and procedures to prepare for and respond to discovery requests, subpoenas, investigatory demands, and other requirements for information related to legal and regulatory proceedings, as such plan may be revised from time to time, including preparing for and

complying with requirements for preservation and production of data in connection with legal and regulatory proceedings and government investigations. Upon receipt of any request, demand, notice, subpoena, order or other legal information request relating to legal proceedings or investigations by third parties relating to any materials, the Confidential Information or related systems in Contractor possession, Contractor shall immediately promptly notify the Commonwealth and provide the Commonwealth with a copy of all documentation of such legal information request, to the extent Contractor legally may do so and shall cooperate with the Commonwealth in responding to such request, demand, notice, subpoena, order or other legal information request.

- (c) Contractor's cost of complying with this ~~section~~ Section 80 shall be at no additional charge to the Commonwealth to the extent that compliance can be accomplished with Contractor's then existing dedicated internal resources responsible for litigation response plans. If additional resources are required for compliance, they will be agreed upon by the parties in accordance with the Change Control Procedures, provided, however, that Contractor will not be entitled for payment under this ~~Section 79~~ with 80 with regard to items for which the Contractor is required to indemnify the Commonwealth.

81. RECYCLED MATERIALS

~~Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified below. Intentionally omitted.~~

82. ACKNOWLEDGEMENT

Commonwealth and Contractor each acknowledge that the limitations and exclusions contained in this Contract have been the subject of active and complete negotiation between the parties and represent the parties' Contract based upon the level of risk to Commonwealth and Contractor associated with their respective obligations under this Contract and the payments to be made to Contractor and credits to be issued to, and Services to be provided to, Commonwealth pursuant to this Contract. The parties agree that the terms and conditions of this Contract shall not be construed in favor of or against any party by reason of the extent to which any party or its professional advisors participated in the preparation of this Contract.

83. SURVIVAL

Sections 11, 30, 34, 35, 36, 37, 38, 40, 41, 44, 45, 46, 48, 52, 53, 54, 62, 67, 69 and 74 shall survive the expiration or termination of the Contract.

84. ENTIRE CONTRACT

This Contract is the entire Contract between the parties with respect to its subject matter, and there are no other representations, understandings or Contracts between the parties relative to such subject matter

The following provisions are proposed for inclusion in these IT Contract Terms and Conditions or in the applicable Management Procedures Manuals which would be agreed upon during the implementation.

COMMONWEALTH GENERAL RESPONSIBILITIES.

In addition to the service specific responsibilities of the parties set for the Management Procedures Manuals, in the Commonwealth shall cooperate with Contractor hereunder, including, without limitation, (i) providing Contractor with reasonable facilities and timely access to data, information and personnel of the Commonwealth; (ii) providing experienced and qualified personnel having appropriate skills to perform their assigned tasks and duties in a competent and timely fashion; (iii) providing a stable, fully functional system infrastructure environment as set forth in the Proposal which will support the Services and allow Contractor and Commonwealth to work productively; and (iv) promptly notifying Contractor of any issues, concerns or disputes with respect to the Services. The Commonwealth shall be responsible for the performance of its personnel and agents and for the accuracy and completeness of data and information provided to Contractor for purposes of the performance of the Services. The Commonwealth acknowledges and agrees that Contractor's performance is dependent upon the timely and effective satisfaction of the Commonwealth's responsibilities hereunder and timely decisions and approvals of the Commonwealth in connection with the Services. Contractor shall be entitled to rely on all decisions and approvals of the Commonwealth.

DECOMMISSIONED SERVICES.

Commonwealth acknowledges that Contractor may, over the term of this Contract, implement various product and network transformation programs to offer more advanced solutions based on newer technologies operating from next generation platforms. In this regard, Contractor reserves the right to grandfather and decommission certain products and services, including those covered under this agreement ("Affected Services"). Contractor will comply with all applicable legal requirements regarding notice for any grandfathering or decommissioning actions taken by Contractor. Contractor will also inform the Commonwealth of the availability of alternative services, if any, that can replace the Affected Service. Such alternative services will be added to the Contract in accordance with the Change Control Procedures. For the purposes of this section, grandfathering means that Contractor will continue to support the Affected Services under this Contract until the date which the Affected Services are no longer commercially available and decommissioned. Contractor also reserves the right to prohibit moves, adds or changes to the Commonwealth's existing Affected Services during the grandfathering period. Decommissioning means that the services will be terminated.

Additional Provisions for Lot 1 Services:

EMERGENCY CALLING.

Common events that can limit access to emergency calling include but are not limited to:

- Loss of Power Supply. Services will be interrupted if there is a loss of electricity/power supply.
- Loss of Broadband Service. Services will be interrupted if the attendant broadband connection is not available.
- Failure of Equipment. The malfunction or failure of equipment, software, or hardware necessary for end-to-end Internet functionality (e.g. routers, IP phones, analog gateways, etc.) can limit access to Emergency Services.
- Failure to Register New Location of Equipment. Contractor is not able to provide Emergency Services to an end-user unless the end-user has properly registered his or her service location.
- Non-Native Telephone Number. If an end-user uses a non-native telephone number (i.e., a telephone number from a local exchange area different from where the caller is located), Emergency Services access may be limited.
- Outbound Service. Emergency calling is not available in jurisdictions that offer Outbound-only service.

The Commonwealth is responsible for notifying its end users of the limitations in relation to emergency calling via the Services (including those detailed above), and the Commonwealth shall be solely responsible for any third-party claims and any liability arising from the Commonwealth's failure to so notify its end users.

COMMONWEALTH IS RESPONSIBLE FOR ANY CLAIMS OR CAUSES OF ACTION ARISING FROM THE NON-IMPLEMENTATION OF PS/ALI AND/OR ENABLING OF STATION LEVEL 911 SERVICE, OR THE FAILURE OF PS/ALI OR STATION LEVEL 911 SERVICE IF ENABLED.

SECURITY.

Except with respect to loss proximately caused by Contractor's willful misconduct, Commonwealth acknowledges and agrees that Contractor will not be liable for any loss resulting from any unauthorized access to, alteration of, or use of Commonwealth's facilities used in connection with the Services. Commonwealth agrees to safeguard account passwords and other information used to provide access to the Services and related features and services such as the Verizon Enterprise Center (VEC). The Commonwealth shall require its end users to rotate passwords periodically, but no less often than every ninety (90) days. The Commonwealth shall cooperate fully with Contractor to promptly mitigate any unauthorized use or disclosure of the Commonwealth passwords or other authentication information.

Additional Provisions for Lot 2 Services:

EMERGENCY CALLING.

The Commonwealth is responsible for notifying its end users of the limitations in relation to emergency calling via the Services or making arrangements with E-911 service provider where it is not Contractor (including those detailed in Contractor’s proposal), and the Commonwealth shall be solely responsible for any third-party claims and any liability arising from the Commonwealth’s failure to so notify its end users or E-911 provider.

THE COMMONWEALTH IS RESPONSIBLE FOR ANY CLAIMS OR CAUSES OF ACTION ARISING FROM THE NON-IMPLEMENTATION OF PS/ALI AND/OR ENABLING OF STATION LEVEL 911 SERVICE, OR THE FAILURE OF PS/ALI OR STATION LEVEL 911 SERVICE IF ENABLED.

USE OF SENSITIVE PERSONAL INFORMATION.

While the Services do not request personal information about individuals including PII and PHI, it is possible for voicemails to contain this type of information (“Sensitive Personal Information” or “SPI”). Contractor intends that SPI not be stored within the voicemail platform. To the extent the Commonwealth does store SPI within the voicemail platform, the Commonwealth does so entirely at its own risk.

EXHIBIT A

Business Associate Agreements as provided by Agencies may differ:

**COMMONWEALTH OF PENNSYLVANIA
SAMPLE BUSINESS ASSOCIATE AGREEMENT**

WHEREAS, the _____ (Covered Entity) and _____ (Business Associate) intend to protect the privacy and security of certain Protected Health Information (PHI) to which Business Associate may have access in order to provide goods or services to or on behalf of Covered Entity, in accordance with the *Health Insurance Portability and Accountability Act of 1996*, as amended, Pub. L. No. 104-191 (HIPAA), the *Health Information Technology for Economic and Clinical Health (HITECH) Act*, as amended, Title XIII of Division A and Title IV of Division B of the *American Recovery and Reinvestment Act of 2009* (ARRA), as amended, Pub. L. No. 111-5 (Feb. 17, 2009) and related regulations, the HIPAA Privacy Rule (Privacy Rule), 45 C.F.R. Parts 160 and 164, as amended, the HIPAA Security Rule (Security Rule), 45 C.F.R. Parts 160, 162 and 164), as amended, 42 C.F.R. §§ 431.301-431.302, 42 C.F.R. Part 2, 45 C.F.R. § 205.50, 42 U.S.C. § 602(a)(1)(A)(iv), 42 U.S.C. § 1396a(a)(7), [35 P.S. § 7607](#), [50 Pa. C.S. § 7111](#), [71 P.S. § 1690.108\(c\)](#), [62 P.S. § 404](#), [55 Pa. Code Chapter 105](#), [55 Pa. Code Chapter 5100](#), the *Pennsylvania Breach of Personal Information Notification Act*, [73 P.S. § 2301--2329](#), all as amended, and other relevant laws, including subsequently adopted provisions applicable to use and disclosure of confidential information, and applicable agency guidance; and,

WHEREAS, Business Associate may receive PHI from Covered Entity, or may create or obtain PHI from other parties for use on behalf of Covered Entity, which PHI may be used or disclosed only in accordance with this Agreement and the standards established by applicable laws and agency guidance; and

WHEREAS, Business Associate may receive PHI from Covered Entity, or may create or obtain PHI from other parties for use on behalf of Covered Entity, which PHI must be handled in accordance with this Agreement and the standards established by HIPAA, the HITECH Act and related regulations, the Privacy Rule, the Security Rule and other applicable laws and agency guidance.

NOW, THEREFORE, Covered Entity and Business Associate agree as follows:

1. Definitions.

- a. **“Business Associate”** shall have the meaning given to such term under HIPAA, the HITECH Act and related regulations, the Privacy Rule, the Security Rule and agency guidance.
- b. **“Covered Entity”** shall have the meaning given to such term under HIPAA, the HITECH Act and related regulations, the Privacy Rule, the Security Rule and agency guidance.

- c. “**HIPAA**” shall mean the *Health Insurance Portability and Accountability Act of 1996*, as amended, Pub. L. No. 104-191.
- d. “**HITECH Act**” shall mean the *Health Information Technology for Economic and Clinical Health (HITECH) Act*, as amended, Title XIII of Division A and Title IV of Division B of the American Recovery and Reinvestment Act of 2009 (ARRA), Pub. L. No. 111-5 (Feb. 17, 2009).
- e. “**Privacy Rule**” shall mean the standards for privacy of individually identifiable health information in 45 C.F.R. Parts 160 and 164, as amended, and related agency guidance.
- f. “**Protected Health Information**” or “**PHI**” shall have the meaning given to such term under HIPAA, the HITECH Act and related regulations, the Privacy Rule, the Security Rule (all as amended) and agency guidance.
- g. “**Security Rule**” shall mean the security standards in 45 C.F.R. Parts 160, 162 and 164, as amended, and related agency guidance.
- h. “**Unsecured PHI**” shall mean PHI that is not secured through the use of a technology or methodology as specified in HITECH Act regulations, as amended, and agency guidance or as otherwise defined in the HITECH Act, as amended.

2. Stated Purposes For Which Business Associate May Use or Disclose PHI. The Parties hereby agree that Business Associate shall be permitted to use and/or disclose PHI provided by or obtained on behalf of Covered Entity for the following stated purposes, except as otherwise stated in this Agreement:

NO OTHER DISCLOSURES OF PHI OR OTHER INFORMATION ARE PERMITTED.

3. BUSINESS ASSOCIATE OBLIGATIONS:

- a. **Limits on Use and Further Disclosure.** Business Associate shall not further use or disclose PHI provided by, or created or obtained on behalf of Covered Entity other than as permitted or required by this Addendum, as requested by Covered Entity, or as required by law and agency guidance.

- b. **Appropriate Safeguards.** Business Associate shall establish and maintain appropriate safeguards to prevent any use or disclosure of PHI other than as provided for by this Agreement. Appropriate safeguards shall include implementing administrative, physical and technical safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of the electronic PHI that is created, received, maintained or transmitted on behalf of the Covered Entity and limiting use and disclosure to applicable minimum necessary requirements as set forth in applicable federal and state statutory and regulatory requirements and agency guidance.
- c. **Reports of Improper Use or Disclosure.** Business Associate hereby agrees that it shall report to _____ at _____, within ~~two (2)~~thirty (30) days of discovery any use or disclosure of PHI not provided for or allowed by this Agreement.
- d. **Reports on Security Incidents.** In addition to following the breach notification requirements in section 13402 of the *Health Information Technology for Economic and Clinical Health Act of 2009* (“HITECH Act”), as amended, and related regulations, the Privacy Rule, the Security Rule, agency guidance and other applicable federal and state laws, Business Associate shall report to _____ at _____, within ~~two (2)~~thirty (30) days of discovery any security incident of which it becomes aware. At the sole expense of Business Associate, Business Associate shall comply with all federal and state breach notification requirements, including those applicable to Business Associate and those applicable to Covered Entity. ~~Business Associate shall indemnify the Covered Entity for costs associated with any incident involving the acquisition, access, use or disclosure of Unsecured PHI in a manner not permitted under federal or state law and agency guidance.~~ For purposes of the security incident reporting requirement, inconsequential unsuccessful incidents that occur on a daily basis, such as scans, “pings,” or other unsuccessful attempts to penetrate computer networks or servers containing electronic PHI maintained by Business Associate, need not be reported in accordance with this section, but may instead be reported in the aggregate on a monthly basis.
- e. **Subcontractors and Agents.** At any time PHI is provided or made available to Business Associate subcontractors or agents, Business Associate shall provide only the minimum necessary PHI for the purpose of the covered transaction and shall first enter into a subcontract or contract with the subcontractor or agent that contains substantially the same terms, conditions and restrictions on the use and disclosure of PHI as contained in this Agreement.
- f. **Right of Access to PHI.** Business Associate shall allow, for any PHI maintained in a designated record set, Covered Entity to have access to and copy an individual’s PHI within **five (5) business days** of receiving a written request from the Covered Entity. Business Associate shall provide PHI in the format requested, if it is readily producible in such form and format; or if not, in a readable hard copy form or such

other form and format as agreed to by Business Associate and the individual. If the request is for information maintained in one or more designated record sets electronically and if the individual requests an electronic copy of such information, Business Associate must provide Covered Entity with access to the PHI in the electronic form and format requested by the individual, if it is readily producible in such form and format; or, if not, in a readable electronic form and format as agreed to by the Business Associate and Covered Entity. If any individual requests from Business Associate or its agents or subcontractors access to PHI, Business Associate shall notify Covered Entity within five (5) business days. Business Associate shall further conform with all of the requirements of [45 C.F.R. § 164.524](#) and other applicable laws, including the HITECH Act, as amended, related regulations and agency guidance. Business Associate shall indemnify Covered Entity for costs/damages associated with Business Associate's failure to respond within the time frames set forth in this Section 3(f).

- g. **Amendment and Incorporation of Amendments.** Within ~~five (5)~~thirty (30) calendar business days of receiving a written request from Covered Entity for an amendment of PHI maintained in a designated record set, Business Associate shall make the PHI available and incorporate the amendment to enable Covered Entity to comply with [45 C.F.R. § 164.526](#), applicable federal and state law, including the HITECH Act, as amended and related regulations, the Privacy Rule, the Security Rule and agency guidance. If any individual requests an amendment from Business Associate or its agents or subcontractors, Business Associate shall notify Covered Entity within ~~five (5)~~ten (10) business days.

- h. **Provide Accounting of Disclosures.** Business Associate shall maintain a record of all disclosures of PHI made by Business Associate which are not excepted from disclosure accounting requirements under HIPAA, HITECH and related regulations, the Privacy Rule or the Security Rule (all as amended) in accordance with [45 C.F.R. § 164.528](#) and other applicable laws and agency guidance, including the HITECH Act and related regulations. Such records shall include, for each disclosure, the date of the disclosure, the name and address of the recipient of the PHI, a description of the PHI disclosed, the name of the individual who is the subject of the PHI disclosed, and the purpose of the disclosure. Business Associate shall make such record available to the Covered Entity within ~~five (5) business~~thirty (30) calendar days of a written request for an accounting of disclosures. ~~Business Associate shall indemnify Covered Entity for costs/damages associated with Business Associate's failure to respond within the time frames set forth in this Section 3(h).~~

- i. **Requests for Restriction.** Business Associate shall comply with requests for restrictions on disclosures of PHI about an individual if the disclosure is to a health plan for purposes of carrying out payment or health care operations (and is not for treatment purposes), and the PHI pertains solely to a health care item or service for which the service involved was paid in full out-of-pocket. For other requests for restriction, Business associate shall otherwise comply with the Privacy Rule, as

amended, and other applicable statutory and regulatory requirements and agency guidance.

- j. **Access to Books and Records.** Business Associate shall make its internal practices, books and records relating to the use or disclosure of PHI received from, or created or received by Business Associate on behalf of the Covered Entity, available to the Secretary of Health and Human Services or designee for purposes of determining compliance with applicable laws and agency guidance.
- k. **Return or Destruction of PHI.** At termination of this Agreement, Business Associate hereby agrees to return or destroy all PHI provided by or obtained on behalf of Covered Entity. Business Associate agrees not to retain any copies of the PHI after termination of this Agreement. If return or destruction of the PHI is not feasible, Business Associate agrees to extend the protections of this Agreement to limit any further use or disclosure until such time as the PHI may be returned or destroyed. If Business Associate elects to destroy the PHI, it shall certify to Covered Entity that the PHI has been destroyed.
- l. **Maintenance of PHI.** Notwithstanding Section 3(k) of this Agreement, Business Associate and its subcontractors or agents shall retain all PHI throughout the term of the Agreement and shall continue to maintain the information required under the various documentation requirements of this Agreement (such as those in Section 3(h)) for a period of six (6) years after termination of the Agreement, unless Covered Entity and Business Associate agree otherwise.
- m. **Mitigation Procedures.** Business Associate agrees to establish and to provide to Covered Entity upon request, procedures for mitigating, to the maximum extent practicable, any harmful effect from the use or disclosure of PHI in a manner contrary to this Agreement or the Privacy Rule, as amended. Business Associate further agrees to mitigate any harmful effect that is known to Business Associate of a use or disclosure of PHI by Business Associate in violation of this Agreement or applicable laws and agency guidance.
- n. **Sanction Procedures.** Business Associate agrees that it shall develop and implement a system of sanctions for any employee, subcontractor or agent who violates this Agreement, applicable laws or agency guidance.
- o. **Grounds for Breach.** Non-compliance by Business Associate with this Agreement or the Privacy or Security Rules, as amended, is a breach of the Agreement, if Business Associate knew or reasonably should have known of such non-compliance and failed to ~~immediately-promptly~~ take reasonable steps to cure the non-compliance. Commonwealth may elect to terminate Business Associate's contract for such breach.
- p. **Termination by Commonwealth.** Business Associate authorizes termination of this Agreement by the Commonwealth if the Commonwealth determines, in its sole

discretion, that the Business Associate has violated a material term of this Agreement.

- q. **Failure to Perform Obligations.** In the event Business Associate fails to perform its obligations under this Agreement, Covered Entity may immediately discontinue providing PHI to Business Associate. Covered Entity may also, at its option, require Business Associate to submit to a plan of compliance, including monitoring by Covered Entity and reporting by Business Associate, as Covered Entity in its sole discretion determines to be necessary to maintain compliance with this Agreement and applicable laws and agency guidance.
- r. **Privacy Practices.** Covered Entity will provide Business Associate with all applicable forms, including but not limited to, any form used for Notice of Privacy Practices, Accounting for Disclosures, or Authorization, upon the effective date designated by the Program or Covered Entity. Covered Entity may change applicable privacy practices, documents and forms. The Business Associate shall make reasonable endeavors to implement changes as soon as practicable, but not later than 45 days from the date of notice of the change. Business Associate shall otherwise comply with all applicable laws and agency guidance pertaining to notices of privacy practices, including the requirements set forth in [45 C.F.R. § 164.520](#).

4. OBLIGATIONS OF COVERED ENTITY:

- a. **Provision of Notice of Privacy Practices.** Covered Entity shall provide Business Associate with the notice of privacy practices that the Covered Entity produces in accordance with applicable law and agency guidance, as well as changes to such notice. Covered Entity will post on its website any material changes to its notice of privacy practices by the effective date of the material change.
- b. **Permissions.** Covered Entity shall provide Business Associate with any changes in, or revocation of, permission by individual to use or disclose PHI of which Covered Entity is aware, if such changes affect Business Associate's permitted or required uses and disclosures.
- c. **Restrictions.** Covered Entity shall notify Business Associate in writing of any restriction to the use or disclosure of PHI that the Covered Entity has agreed to in accordance with [45 C.F.R. § 164.522](#), as amended, and other applicable laws and applicable agency guidance, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.
- d. **Requests.** Covered Entity shall not request Business Associate to use or disclose PHI in any manner that would not be permissible under HIPAA, HITECH and related regulations, the Privacy Rule or the Security Rule, all as amended, if done by Covered Entity.

5. MISCELLANEOUS:

- a. **Regulatory References.** A reference in this Addendum to a section in HIPAA, HITECH and related regulations, the Privacy Rule or the Security Rule refers to the most current version of the section in effect or as amended.

- b. **Amendment.** The parties agree to take such action as is necessary to amend this Addendum from time to time in order to ensure compliance with the requirements of the HIPAA, HITECH and related regulations, the Privacy Rule, the Security Rule and any other applicable law, all as amended.

- c. **Conflicts.** In the event that any terms of this Agreement are inconsistent with the terms of the Agreement, then the terms of this Agreement shall control.

Appendix A to Exhibit A, Commonwealth Business Associate Agreement

**Permitted Purposes for the Creation, Receipt, Maintenance, Transmission, Use and/or
Disclosure of Protected Health Information**

1. Purpose of Disclosure of PHI to Business Associate: To allow _____ to meet the requirements of the Underlying Agreement.

2. Information to be disclosed to Business Associate: _____.

3. Use shall Effectuate Purpose of Underlying Agreement: _____ may use and disclose PHI to the extent contemplated by the Underlying Agreement, and as permitted by law with Commonwealth approval.

EXHIBIT B

SOFTWARE LICENSE REQUIREMENTS AGREEMENT TEMPLATE

PA Supplier ID Number: _____

AGREEMENT BETWEEN
THE COMMONWEALTH OF PENNSYLVANIA,
ACTING BY AND THROUGH THE GOVERNOR'S OFFICE OF ADMINISTRATION
AND

This Agreement by and between _____ (Licensor) and the Commonwealth of Pennsylvania, acting by and through the Governor's Office of Administration (Commonwealth) is effective the date the Agreement has been fully executed by the Licensor and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained.

RECITALS:

WHEREAS, this Agreement sets forth the Commonwealth's Software License Requirements; and,

WHEREAS, Licensor's Software License Agreement is attached hereto as Exhibit A, and made a material part hereof by this reference; and,

WHEREAS, this document, including the Software License Agreement attached as Exhibit A, constitutes the Agreement between the Licensor and the Commonwealth; and

WHEREAS, the terms and conditions set out below in these Software License Requirements, supplement, and to the extent a conflict exists, supersede and take precedence over the terms and conditions of the attached Exhibit A, which is incorporated herein by reference.

NOW, THEREFORE, in consideration of the mutual covenants and promises contained herein and intending to be legally bound hereby, the parties hereto covenant and agree as follows:

- 1. Recitals:** The above recitals are hereby incorporated as a material part of these Software License Requirements.
- 2. Enterprise Language:** The parties agree that more than one agency of the Commonwealth may license products under this Agreement, provided that any use of products by any agency must be made pursuant to one or more executed purchase orders or purchase documents submitted by each applicable agency seeking to use the Licensed Product.

Products specified in Attachment 1, along with support and services for said products, shall be referred to as “Licensed Products.”

The parties agree that, if the licensee is a “Commonwealth Agency” as defined by Section 103 of the *Commonwealth Procurement Code*, 62 Pa. C. S. § 103, the terms and conditions of this Agreement apply to any purchase of Licensed Products made by the Commonwealth, and that the terms and conditions of this Agreement become part of the purchase document without further need for execution. The parties agree that the terms of this Agreement supersede and take precedence over the terms included in any purchase order, terms of any shrink-wrap agreement included with the Licensed Products, terms of any click through agreement included with the Licensed Products or any other terms purported to apply to the Licensed Products, including any products eligible for coverage under this Agreement where a legally executed agreement for the same covered product, regardless of version, was not in effect, even if procured by the Commonwealth prior to the effective date of the Agreement. This does not apply to Commonwealth agency agreements executed pursuant to the *Commonwealth Procurement Code*, 62 Pa. C. S. §§ 101—4102, and the *Commonwealth Attorneys’ Act*, 71 P.S. §§ 732-101—732-506.

3. **Choice of Law/Venue/Immunity:** This Agreement shall be interpreted in accordance with and governed by the laws of the Commonwealth of Pennsylvania, without giving effect to its conflicts of law provisions. Except as set forth in Section 23 of this Agreement, the courts of the Commonwealth of Pennsylvania and the federal courts of the Middle District of Pennsylvania shall have exclusive jurisdiction over disputes under this Contract and the resolution thereof. No provision in this Agreement shall be construed to limit the sovereign immunity of the Commonwealth.
4. **Indemnification:** The Commonwealth does not have the authority to and shall not indemnify any entity. The Commonwealth agrees to pay for any loss, liability or expense, which arises out of or relates to the Commonwealth’s acts or omissions with respect to its obligations hereunder, where a final determination of liability on the part of the Commonwealth is established by a court of law or where settlement has been agreed to by the Commonwealth. This provision shall not be construed to limit the Commonwealth’s rights, claims or defenses that arise as a matter of law or pursuant to any other provision of this Agreement. This provision shall not be construed to limit the sovereign immunity of the Commonwealth.
5. **Patent, Copyright, Trademark and Trade Secret Protection:**
 - (a) The Licensor shall, at its expense, defend, indemnify and hold the Commonwealth harmless from any suit or proceeding which may be brought by a third party against the Commonwealth, its departments, officers or employees for the alleged infringement of any United States patents, copyrights or trademarks, or for a misappropriation of a United States trade secret arising out of performance of this Agreement (“Claim”), including all Licensed Products provided by the Licensor. For the purposes of this Agreement, “indemnify and hold harmless” shall mean the Licensor’s specific, exclusive, and limited obligation to (a) pay any judgments,

fines, and penalties finally awarded by a court of competent jurisdiction, governmental/administrative body or any settlements reached pursuant to Claim and (b) reimburse the Commonwealth for its reasonable administrative costs or expenses, including without limitation reasonable attorney's fees, it necessarily incurs in handling the Claim. The Commonwealth agrees to give Licensor prompt notice of any such claim of which it learns. Pursuant to the *Commonwealth Attorneys Act*, 71 P. S. §§ 732-101—732-506, the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG may, however, in its sole discretion, delegate its right of defense of a Claim. If the OAG delegates the defense to the Licensor, the Commonwealth will cooperate with all reasonable requests of Licensor made in the defense of and/or settlement of a Claim. Licensor shall not, without the Commonwealth's consent, enter into any settlement agreement which (a) states or implies that the Commonwealth has engaged in any wrongful or improper activity other than the innocent use of the material which is the subject of the Claim, (b) requires the Commonwealth to perform or cease to perform any act or relinquish any right, other than to cease use of the material which is the subject of the Claim, or (c) requires the Commonwealth to make a payment which Licensor is not obligated by this Agreement to pay on behalf of the Commonwealth. If OAG delegates such rights to the Licensor, the Commonwealth will cooperate with all reasonable requests of Licensor made in the defense of and/or settlement of a Claim. In all events, the Commonwealth shall have the right to participate in the defense of any such suit or proceeding through counsel of its own choosing. It is expressly agreed by the Licensor that, in the event it requests that the Commonwealth provide support to the Licensor in defending any such Claim, the Licensor shall reimburse the Commonwealth for all necessary expenses (including attorneys' fees, if such are made necessary by the Licensor's request) incurred by the Commonwealth for such support. If OAG does not delegate to Licensor the authority to control the defense and settlement of a Claim, the Licensor's obligation under this Section 5 ceases. The Licensor, at its own expense, shall provide whatever cooperation OAG request in the defense of the suit.

□

- (b) □ The Licensor agrees to exercise reasonable due diligence to prevent claims of infringement on the rights of third parties. The Licensor certifies that, in all respects applicable to this Agreement, it has exercised and will continue to exercise due diligence to ensure that all Licensed Products provided under this Agreement do not infringe on the patents, copyrights, trademarks, trade secrets or other proprietary interests of any kind which may be held by third parties. □

- (c) □ If the defense of a Claim and the authority to control any potential settlements thereof is delegated to the Licensor, the Licensor shall pay all damages and costs finally awarded therein against the Commonwealth or agreed to by Licensor in any settlement. If information and assistance are furnished by the Commonwealth at the Licensor's written request, it shall be at the Licensor's expense, but the responsibility for such expense shall be only that within the Licensor's written authorization. □

- (d) If, in the Licensor's opinion, the Licensed Products furnished hereunder are likely to or do become subject to a claim of infringement of a United States patent, copyright or trademark, or for a misappropriation of trade secret, then without diminishing the Licensor's obligation to satisfy any final award, the Licensor may, at its option and expense:
 - (1) substitute functional equivalents for the alleged infringing Licensed Products; or
 - (2) obtain the rights for the Commonwealth to continue the use of such Licensed Products.

- (e) If any of the Licensed Products provided by the Licensor are in such suit or proceeding held to constitute infringement and the use thereof is enjoined, the Licensor shall, at its own expense and at its option:
 - (1) procure the right to continue use of such infringing products;
 - (2) replace them with non-infringing items; or
 - (3) modify them so that they are no longer infringing.

- (f) If use of the Licensed Products is enjoined and the Licensor is unable to do any of the preceding set forth in Section 5(e) above, the Licensor agrees to, upon return of the Licensed Products, refund to the Commonwealth:
 - (1) the license fee paid for the infringing Licensed Products, less the amount for the period of usage of any software; and
 - (2) the pro-rated portion of any maintenance fees representing the time remaining in any period of services for which payment was made.

- (g) The obligations of the Licensor under this Section 5 continue without time limit and survive the termination of this Agreement.

- (h) Notwithstanding the above, the Licensor shall have no obligation under this Section 5 for:
 - (1) modification of any Licensed Products provided by the Commonwealth or a third party acting under the direction of the Commonwealth;
 - (2) any material provided by the Commonwealth to the Licensor and incorporated into, or used to prepare the product;

- (3) use of the Software after Licensor recommends discontinuation because of possible or actual infringement and has provided one of the remedy's under Section 5(e) or Section 5(f) above;
 - (4) use of the Licensed Products in other than its specified operating environment;
 - (5) the combination, operation, or use of the Licensed Products with other products, services, or deliverables not provided by the Licensor as a system or the combination, operation, or use of the product, service, or deliverable, with any products, data, or apparatus that the Licensor did not provide;
 - (6) infringement of a non-Licensor product alone;
 - (7) the Commonwealth's use of the Licensed Product beyond the scope contemplated by the Agreement; or
 - (8) the Commonwealth's failure to use corrections or enhancements made available to the Commonwealth by the Licensor at no charge.
- (i) The obligation to indemnify the Commonwealth, under the terms of this Section 5, shall be the Licensor's sole and exclusive obligation for the infringement or misappropriation of intellectual property.

6. **Virus, Malicious, Mischievous or Destructive Programming:** Licensor warrants that the Licensed Product as delivered by Licensor does not contain any viruses, worms, Trojan Horses, or other malicious or destructive code to allow unauthorized intrusion upon, disabling of, or erasure of the Licensed Products (each a "Virus"). However, the Licensed Products may contain a key limiting use to the scope and quantity of the license(s) granted, and license keys issued by Licensor for temporary use are time-sensitive.

The Commonwealth's exclusive remedy, and Licensor's sole obligation, for any breach of the foregoing warranty shall be for Licensor to (a) replace the Licensed Products with a copy that does not contain Virus, and (b) if the Commonwealth, has suffered an interruption in the availability of its computer system caused by Virus contained in the Licensed Product, reimburse the Commonwealth for the actual reasonable cost to remove the Virus and restore the Commonwealth's most recent back up copy of data provided that:

- (a) the Licensed Products have been installed and used by the Commonwealth in accordance with the Documentation;
- (b) the Licensed Products has not been modified by any party other than Licensor;
- (c) the Commonwealth has installed and tested, in a test environment which is a mirror image of the production environment, all new releases of the Licensed Products and

has used a generally accepted antivirus software to screen the Licensed Products prior to installation in its production environment.

Under no circumstances shall Licensor be liable for damages to the Commonwealth for loss of the Commonwealth's data arising from the failure of the Licensed Products to conform to the warranty stated above.

7. **Limitation of Liability:** The Licensor's liability to the Commonwealth under this Agreement shall be limited the total dollar amount of purchase orders issued for Licensed Products and services covered by this Agreement during the during the twelve (12)-month period prior to the event giving rise to the damage claim. This limitation does not apply to damages for:
- (a) bodily injury;
 - (b) death;
 - (c) intentional injury;
 - (d) damage to real property or tangible personal property for which the Licensor is legally liable;
 - (e) Licensor's indemnity of the Commonwealth for patent, copyright, trade secret, or trademark protection as set forth in Section 5; or
 - (f) damages related to a breach of the security of a system maintained or managed by the Licensor, including the costs for notification, mitigation and credit monitoring services required due to such breach.

In no event will the Licensor be liable for consequential, indirect, special, or incidental damages unless otherwise specified in the Agreement.

8. **Payment:** The Commonwealth will make purchase through its software reseller as the Commonwealth's agent by way of a purchase order, which shall control with regard to payment amounts and provisions. The Commonwealth's reseller shall purchase Software and services from Licensor, on behalf of the Commonwealth, pursuant to purchase orders to Licensor. Upon acceptance by Licensor of such purchase orders, such purchase orders shall control as to pricing only; additional terms and conditions on such purchase orders are not applicable as the terms of this Agreement and its Exhibits shall control.

The Commonwealth's obligation is to pay its reseller in accordance with its purchase order with the Commonwealth's reseller and Licensor shall look to the Commonwealth's reseller for payment; however, in the event that the Commonwealth's reseller fails to pay Licensor in accordance with the terms of Exhibit A, the Commonwealth understands and agrees that, other than collection (for which Licensor shall proceed only against the Commonwealth's reseller) Licensor shall notify the Commonwealth of such default and may exercise against

the Commonwealth such other remedies as Licensor may have for nonpayment under Exhibit A.

9. Termination:

- (a) Licensor may not terminate this Agreement, or an order from any Commonwealth agency issued pursuant to any of the Exhibits to this Agreement, for non-payment; however, as described under Section 8 above, in the event that the Commonwealth's reseller fails to pay Licensor in accordance with the terms of Exhibit A, the Commonwealth understands and agrees that, other than collection (for which Licensor shall proceed only against such reseller) Licensor may exercise against the specific Commonwealth agency that issued a purchase order such other remedies as Licensor may have for nonpayment under Exhibit A solely as it pertains to the specific Commonwealth agency which issued the purchase order.
- (b) The Commonwealth may terminate this Agreement without cause by giving Licensor 30 calendar days prior written notice (Notice of Termination) whenever the Commonwealth shall determine that such termination is in the best interest of the Commonwealth (Termination for Convenience).

10. Background Checks:

- (a) Upon prior written request by the Commonwealth, Licensor must, at its expense, arrange for a background check for each of its employees, as well as for the employees of its subcontractors, who will have access to the Commonwealth's IT facilities, either through on site or remote access. Background checks are to be conducted via the Request for Criminal Record Check form and procedure found at <http://www.psp.pa.gov/Pages/Request-a-Criminal-History-Record.aspx>. The background check must be conducted prior to initial access by an IT employee and annually thereafter.
- (b) Before the Commonwealth will permit an employee access to the Commonwealth's facilities, Licensor must provide written confirmation to the office designated by the agency that the background check has been conducted. If, at any time, it is discovered that an employee has a criminal record that includes a felony or misdemeanor involving terrorist threats, violence, use of a lethal weapon, or breach of trust/fiduciary responsibility; or which raises concerns about building, system, or personal security, or is otherwise job-related, Licensor shall not assign that employee to any Commonwealth facilities, shall remove any access privileges already given to the employee, and shall not permit that employee remote access to Commonwealth facilities or systems, unless the agency consents, in writing, prior to the access being provided. The agency may withhold its consent at its sole discretion. Failure of Licensor to comply with the terms of this paragraph may result in default of Licensor under its Agreement with the Commonwealth.

- (c) The Commonwealth specifically reserves the right of the Commonwealth to conduct background checks over and above that described herein.
- (d) Access to certain Capitol Complex buildings and other state office buildings is controlled by means of card readers and secured visitors' entrances. Commonwealth contracted personnel who have regular and routine business in Commonwealth worksites may be issued a photo identification or access badge subject to the requirements of the contracting agency and Department of General Services set forth in Enclosure 3 of [Commonwealth Management Directive 625.10 Amended, Card Reader and Emergency Response Access to Certain Capitol Complex Buildings and Other State Office Buildings](#). The requirements, policy and procedures include a processing fee payable by the Contractor for contracted personnel photo identification or access badges.

11. Confidentiality:

- (a) For purposes of this Agreement, "Confidential Information" of a party shall mean (1) with respect to Commonwealth, all data and other information of or in the possession of the Commonwealth or any Commonwealth Agency or any private individual, organization or public agency, in each case to the extent such information and documentation is not permitted to be disclosed to third parties under local, Commonwealth or Federal laws and regulations or pursuant to any policy adopted by Commonwealth or pursuant to the terms of any third party agreement to which Commonwealth is a party and (2) with respect to Licensor, all information identified in writing by Licensor as confidential or proprietary to Licensor or its subcontractors.
- (b) All Confidential Information of or relating to a party shall be held in confidence by the other party to the same extent and in at least the same manner as such party protects its own confidential or proprietary information. Neither party shall disclose, publish, release, transfer or otherwise make available any Confidential Information of the other party in any form to, or for the use or benefit of, any person or entity without the other party's consent. Subject to the other provisions of this Agreement, each party shall, however, be permitted to disclose relevant aspects of the other party's Confidential Information to its officers, agents, subcontractors and personnel and to the officers, agents, subcontractors and personnel of its corporate affiliates or subsidiaries to the extent that such disclosure is reasonably necessary for the performance of its duties and obligations under this Agreement; provided, however, that such party shall take all reasonable measures to ensure that Confidential Information of the other party is not disclosed or duplicated in contravention of the provisions of this Agreement by such officers, agents, subcontractors and personnel and that such party shall be responsible for any unauthorized disclosure of the Confidential Information of the other party by such officers, agents, subcontractors or personnel; and further provided, that if the disclosure is by the Commonwealth to another contractor or sub-contractor, such disclosure is subject to a suitable non-disclosure agreement imposing equally or

more stringent requirements for data privacy and security. The obligations in this Section 11(b) shall not restrict any disclosure by either party pursuant to any applicable law, or in accordance with the order of any court or government agency of competent jurisdiction (provided that the disclosing party shall give prompt notice to the non-disclosing party of such order in a timeframe to allow the non-disclosing party to resist the disclosure) and, except to the extent provided otherwise by any applicable law, shall not apply with respect to information which:

- (1) is developed by the other party without violating the disclosing party's proprietary rights,
- (2) is or becomes publicly known (other than through unauthorized disclosure),
- (3) is disclosed by the owner of such information to a Third Party free of any obligation of confidentiality,
- (4) is already known by such party without an obligation of confidentiality other than pursuant to this Agreement or any confidentiality contract entered into before the Effective Date of the Agreement between Commonwealth and Licensor, or
- (5) is rightfully received by the disclosing party free of any obligation of confidentiality.

(c) Each party shall:

- (1) Notify the other party promptly of any known unauthorized possession, use or knowledge of the other party's Confidential Information by any person or entity.
- (2) Promptly furnish to the other party full details known by such party relating to the unauthorized possession, use or knowledge thereof and shall use reasonable efforts to assist the other party in investigating or preventing the recurrence of any unauthorized possession, use or knowledge of the other party's Confidential Information.
- (3) Use reasonable efforts to cooperate with the other party in any litigation and investigation against third parties deemed necessary by the other party to protect its proprietary rights.
- (4) Promptly use all reasonable efforts to prevent a recurrence of any such unauthorized possession, use or knowledge of the other party's Confidential Information.

(d) Each party shall bear the cost it incurs as a result of compliance with this Section 11. The obligations in this Section 11 shall not restrict any disclosure by either

party pursuant to any applicable law or pursuant to the order of any court or other legal process or government agency of competent jurisdiction (provided that the disclosing party shall give prompt notice to the non-disclosing party of such order in a timeframe to allow the non-disclosing party to resist the disclosure).

- (e) The Licensor shall use the following process when submitting information to the Commonwealth it believes to be confidential and/or proprietary information or trade secrets:
 - (1) Prepare an un-redacted version of the appropriate document, and
 - (2) Prepare a redacted version of the document that redacts the information that is asserted to be confidential or proprietary information or a trade secret, and
 - (3) Prepare a signed written statement that states:
 - 1. the attached document contains confidential or proprietary information or trade secrets;
 - 2. the Licensor is submitting the document in both redacted and un-redacted format in accordance with [65 P.S. § 67.707\(b\)](#); and
 - 3. the Licensor is requesting that the document be considered exempt under [65 P.S. § 67.708\(b\)\(11\)](#) from public records requests.
 - (4) Submit the two documents with the signed written statement to the Commonwealth.
- (f) When the Agreement expires or terminates, and at any other time at the written request of a party, the other party must promptly return to such party all of such party's Confidential Information and Data (and all copies of this information) that is in the other party's possession or control, in whatever form. With regard to Commonwealth's Confidential Information and/or Data, Licensor will comply with the requirements of Section 11(e), above.
- (g) Additionally, neither the Agreement nor any pricing information related to the Agreement, nor purchase orders issued pursuant to the Agreement, will be deemed confidential.

12. Agency-specific Sensitive and Confidential Commonwealth Data (If applicable)

- (a) Licensor understands that its level of access may allow it to view or access highly sensitive and confidential Commonwealth and third party data. This data is subject to various state and federal laws and policies that vary from agency to agency, and from program to program within an agency. If applicable, prior to deployment of

the Licensed Products on any Commonwealth agency facilities, the Licensor must receive and sign off on particular instructions and limitations as dictated by that Commonwealth agency, including but not limited to, as necessary, HIPAA Business Associate Agreements, a sample of which is attached hereto as Attachment 2. This sign-off document (a sample of which is attached hereto as Attachment 3), will include a description of the nature of the data which may be implicated based on the nature of the Licensor's access, and will incorporate the Business Associate Agreement if it is applicable.

- (b) Licensor hereby certifies and warrants that, after being informed by the Commonwealth agency of the nature of the data which may be implicated and prior to the installation of the Licensed Products), the Licensor is and shall remain compliant with all applicable state and federal law and policy regarding the data's protection, and with the requirements memorialized in every completed and signed sign-off document. Every sign-off document completed by a Commonwealth agency and signed by at least one signatory of the Licensor authorized to bind the Licensor is valid and is hereby integrated and incorporated by reference into this Agreement.
- (c) This Section 12 does not require a Commonwealth agency to exhaustively list the law to which implicated data is subject; the Commonwealth agency is obligated only to list the nature of the data implicated by the Licensor's ~~access~~ access, to, to refer the Licensor to its privacy and security policies, and to specify requirements that are not otherwise inherent in compliance with law and policy.
- (d) The requirements of this Section 12 are in addition to and not in lieu of other requirements of this Agreement, its Exhibits and Attachments, having to do with data privacy and security, including but not limited to the requirement that the Licensor comply with the Commonwealth's *Requirements for Non-Commonwealth Hosting Applications/Services*, and all applicable Commonwealth ITPs, which can be found at <http://www.oa.pa.gov/Policies/Pages/itp.aspx>.
- (e) Licensor shall conduct additional background checks, in addition to those required in Section 10 of this Agreement, as may be required by a Commonwealth agency in its sign-off documents. The Licensor shall educate and hold its agents, employees, contractors and subcontractors to standards at least as stringent as those contained in this Agreement. The Licensor shall provide information regarding its agents, employees, contractors and subcontractors to the Commonwealth upon request.

13. Sensitive Information

- (a) The Licensor shall not publish or otherwise disclose, except to the Commonwealth or the Licensor's subcontractors, any information or data obtained hereunder from private individuals, organizations, or public agencies, in a way that allows the

information or data furnished by or about any particular person or establishment to be identified.

- (b) The parties shall not use or disclose any information about a recipient receiving services from, or otherwise enrolled in, a Commonwealth program affected by or benefiting from services under this Agreement for any purpose not connected with the parties' Agreement responsibilities.
- (c) Licensor will comply with all obligations applicable to it under all applicable data protection legislation in relation to all personal data that is processed by it in the course of performing its obligations under this Agreement including by:
 - (1) Maintaining a valid and up to date registrations and certifications; and
 - (2) Complying with all data protection legislation applicable to cross border data flows of personal data and required security measures for personal data.
- (d) Additionally, neither the Agreement nor any pricing information related to the Agreement, nor purchase orders issued pursuant to the Agreement, will be deemed confidential.

- 14. Publicity/Advertisement:** The Licensor must obtain written Commonwealth approval prior to mentioning the Commonwealth or a Commonwealth agency in an advertisement, endorsement, or any other type of publicity. This includes the use of any trademark or logo.
- 15. Portability.** The parties agree that a Commonwealth agency may move a Licensed Product from machine to machine, whether physical or virtual, and to other locations, where those machines and locations are internal to the Commonwealth or to a Commonwealth contractor, as long as such relocation and the use being made of the Licensed Product comports with the license grant and restrictions. Notwithstanding the foregoing, a Commonwealth agency may move the machine or appliance provided by the Licensor upon which the Licensed Product is installed.
- 16. Taxes-Federal, State and Local:** The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax-free purchases under registration No. 23-23740001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas-guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania sales tax, local sales tax, public transportation assistance taxes, and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this Section 16 is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental or lease

of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

- 17. Commonwealth Audit Responsibilities:** Commonwealth will maintain, and promptly provide to Reseller upon its request, accurate records regarding use of the Licensed Product by or for the Commonwealth. If the Commonwealth becomes aware of any unauthorized use of all or any part of the Licensed Product, the Commonwealth will notify Reseller promptly, providing reasonable details. The limit of the Commonwealth's responsibility for use of the Licensed Product by more individuals than are permitted by the licensing terms applicable to the Licensed Product shall be to purchase additional licenses and Maintenance and Support (if applicable) for such Licensed Products through the Commonwealth's software reseller.

Commonwealth will perform a self-audit upon the request of Licensor, which request may not occur more often than annually, and report any change in user count (hereinafter "True up number"). Commonwealth shall notify Licensor of the True up number no later than 45 calendar days after the request that the Commonwealth perform a self-audit. If the user count has increased, Commonwealth will make an additional purchase of the Licensed Products through its reseller, which is equivalent to the additional users. This Section 17 sets out the sole software license audit right under this Agreement.

- 18. List of Licensed Products:** Attached hereto and made a part hereof by this reference is Attachment 1, which sets out a list of products that may be licensed under this Agreement. With the consent of Commonwealth, the list of products on Attachment 1 may be updated by Licensor providing Commonwealth with a revised Attachment 1 that adds the new product to the list. In Commonwealth's discretion, its consent may be provided either via written communication directly to the Licensor or by providing a copy of said notice to the Commonwealth's software reseller to update Attachment 1.

No amendment will be required to add a new Licensed Product to the list. If, however, the Licensor desires to add a Licensed Product to the list that requires different license terms, an amendment to this Agreement or a new agreement will be required.

- 19. Right-to-Know Law:**

The Pennsylvania *Right-to-Know Law*, [65 P.S. §§ 67.101—3104](#), as amended, ("RTKL"), applies to this Agreement. For the purpose of these provisions, the term "the Commonwealth" shall refer to the contracting Commonwealth agency.

- 20. Third party software.** If the software utilizes or includes third party software and other copyrighted material and is subject, therefore, to additional licensing terms, acknowledgements or disclaimers compliance with this Agreement constitutes compliance with those third party terms. The parties agree that the Commonwealth, by acknowledging third party software, does not agree to any terms and conditions of the third party software agreements that are inconsistent with or supplemental to this Agreement.

21. Attorneys' Fees: The Commonwealth will not pay attorneys' fees incurred by or paid by the Licensor.

22. Controversies.

- (a) In the event of a controversy arising from the Agreement or Purchase Order, the Licensor, within six (6) months after the claim accrues, must file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Licensor asserts a controversy exists. If the Licensor fails to file a claim or files an untimely claim, the Licensor is deemed to have waived its right to assert a claim in any forum. At the time the claim is filed, or within 60 days thereafter, either party may request mediation through the Commonwealth Office of General Counsel Dispute Resolution Program.
- (b) If the Licensor or the contracting officer requests mediation and the other party agrees, the contracting officer shall promptly make arrangements for mediation. Mediation shall be scheduled so as to not delay the issuance of the final determination beyond the required 120 days after receipt of the claim if mediation is unsuccessful. If mediation is not agreed to or if resolution is not reached through mediation, the contracting officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Licensor. The contracting officer shall send his/her written determination to the Licensor. If the contracting officer fails to issue a final determination within the 120 days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer's determination shall be the final order of the purchasing agency.
- (c) Within 15 days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Licensor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Licensor shall proceed diligently with the performance of the Agreement in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Licensor pursuant to the terms of the Agreement or Purchase Order.

23. Insurance:

- (a) Licensor shall procure and maintain at its expense, and shall or cause to be maintained by any agents, contractors and subcontractors to obtain and maintain substantially the same coverage with substantially the same limits as required of Licensor, as appropriate, the following types of insurance or maintain such self-insurance plans as shall be sufficient to insure against any claims arising out of or resulting from, covering Licensor's use and occupancy of the premises and the operations conducted thereon, its employees, agents, contractors and subcontractors:

- (1) Workers' Compensation Insurance in compliance with the statutory requirements of the state of operation for all of Licensor's employees ~~and those of any subcontractor~~ engaged in performing Services in accordance with the *Workers' Compensation Act* (77 P.S. § 101, *et seq.*).
- (2) Commercial general liability insurance with limits of \$2,000,000 per occurrence for bodily injury and property damage and \$2,000,000 general aggregate including personal and advertising injury, and products/completed operations, providing coverage from claims for damages for personal injury, death and property of others. The limits of such insurance shall be in an amount not less than \$500,000 per person and \$2,000,000 per occurrence, personal injury and property damage combined. Such policies shall be occurrence based rather than claims-made policies and shall ~~name~~ include the Commonwealth of Pennsylvania as an additional insured, as its interests may appear under this Agreement. The insurance shall not contain any endorsements or any other form designed to limit and restrict any action by the Commonwealth as an additional insured against the insurance coverages in regard to the Services performed for the Commonwealth.
- (3) ~~Professional and Technology Based Services~~ Telecommunications, Media & Technology Errors and Omissions Liability Insurance including Network Security and Privacy Liability with a limit of \$5,000,000 per claim and aggregate covering the negligent acts, errors and/or omissions of Lessee in the performance of professional services under this Agreement (insuring against damages and claim expenses as a result of claims arising from any actual or alleged wrongful acts in performing cyber and technology activities) in the amount of \$5,000,000, per accident/occurrence/annual aggregate.
- ~~(4) Technology Products Liability/Professional Liability/Errors & Omissions Insurance in the aggregate amount of not less than \$5,000,000.~~
- ~~(5)~~ (4) Comprehensive crime insurance in an amount of ~~not less than~~ \$5,000,000 per claim ~~loss~~.
- ~~(6) Information Security and Privacy Liability Insurance including Privacy Notification Costs (including coverage for Technology Professional Liability if not covered under Licensor's Professional Liability/Errors and Omissions Insurance referenced above) in the amount of \$5,000,000, per occurrence.~~
- (b) ~~Prior to~~ Within ten (10) days of the expiration of any then effective insurance policy, Contractor shall furnish to Commonwealth certificates of insurance ~~or other appropriate documentation (including evidence of renewal of insurance)~~

evidencing renewal of all coverage referenced in this Section 23, as applicable, and, excluding workers compensation and employer's liability and Errors & Omissions Liability, including naming Commonwealth the Commonwealth as an additional insured as their interest may appear under this Agreement to the extent of Licensor's indemnities contained in this Agreement. Licensor shall have included in all policies of insurance required hereunder a waiver by the insurer of all right of subrogation against Commonwealth in connection with any loss or damage thereby insured against. Upon receipt of notice from its insurer(s) Licensor shall endeavor to provide the Commonwealth with Such certificates or other documentation will include a provision whereby 30 days' prior written notice of must be received by Commonwealth prior to coverage cancellation of any policy required herein or alteration of the coverage by either Licensor or its Subcontractors or the applicable insurer. Such cancellation or alteration shall not relieve Licensor of its continuing obligation to maintain insurance coverage in accordance with this Section 23.

- (c) Licensor agrees to maintain such insurance for the life of any applicable purchase order issued pursuant to the Agreement.
- (d) ~~Upon request to and approval by the Commonwealth,~~ Licensor's may self-insure ~~ance of~~ the types and amounts of insurance set forth above shall satisfy the requirements of this provision, provided the Commonwealth may request of Licensor evidence each ~~year, during year, during~~ the term of the purchase order issued under the Agreement, that Licensor has sufficient assets to cover such losses.

24. Federal Requirements: If applicable, in addition to the requirements set forth in Section 12 of this Agreement, the Licensor must receive and sign off on particular federal requirements that a Commonwealth agency may be required to include when utilizing federal funds to procure the Licensed Products. This sign-off document (a sample of which is attached hereto as Attachment 3), in addition to any applicable requirements of Section 12 of this Agreement, will include a description of the required federal provisions, along with the applicable forms necessary for the Licensor execute, as necessary. The sign-off document, along with attachments, must be attached to the purchase order.

25. Signatures: The fully executed Agreement shall not contain ink signatures by the Commonwealth. The Licensor understands and agrees that the receipt of an electronically-printed Agreement with the printed name of the Commonwealth purchasing agent constitutes a valid, binding contract with the Commonwealth. The printed name of the purchasing agent represents the signature of that individual who is authorized to bind the Commonwealth to the obligations contained in the Agreement. The printed name also indicates that all approvals required by Commonwealth contracting procedures have been obtained.

26. Entire Agreement. This Agreement constitutes the entire agreement between the Parties pertaining to the subject matter hereof, and supersedes and integrates all prior discussions, agreements and understandings pertaining thereto. No modification of this Agreement will be effective unless in writing and signed by both Parties.

IN WITNESS WHEREOF, the Parties to this Agreement have executed it, through their respective duly authorized representatives.

Service Level Agreement Definitions

Service Level Agreement Definitions

| | |
|----------------------------------|--|
| Agency Level | <i>Service levels that are applied to each agency per each agency location. The measurement describes supplier performance per agency per location.</i> |
| CM – Critical Measurement | <i>Service Levels identified as “CM”, Critical Measurement, will have remedy credits incurred when service level minimum and target criteria are not met.</i> |
| Enterprise Level | <i>Service levels applied to a service that is provided to all agencies, but calculated as one encompassing Service Level, i.e. Internet.</i> |
| Service Level (SL) Target | <i>A commitment that is documented in a service level agreement.</i> |
| SL Minimum | <i>A measure of minimum expected performance. Actual results below the SL Minimum will incur a Remedy and negate Earn back as described in each SLA reference.</i> |
| Measurement Window | <i>Measurement window is 24/7.</i> |
| KM – Key Measurement | <i>SLAs for which the Remedy is designated as KM shall be reviewed monthly by the Commonwealth but will not entitle the Commonwealth to any credits if service levels are not met. Any request by the Commonwealth that an SLA designated as a KM be converted to a credit-bearing SLA shall be negotiated in accordance with the Commonwealth Contract Change Procedures. <u>Verizon’s position is that a conversion from a KM to a CM via the Contract Change Process will include the ability to reasonably re-negotiate the penalty and SLA metrics.</u></i> |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|---|---|--------|---------|-----------|-----------------------------|
| SLA - 01 Time to Deliver - Agency | CM | 989% | 957.05% | 9 months | (Service Commencement Date) |
| Definition | All service orders completed on time within the measurement window. Completed service orders indicate service is ready for use per applicable status in ESMS. | | | | |
| Metric Description | Timeliness – Service delivered on time. This Service Level calculation is the total number of Orders that are successfully completed per agency during the applicable Measurement Window on or before the due date specified minus the total number of service orders not met divided by the total number of orders have been completed during the applicable Measurement Window, expressed as a percentage. | | | | |
| Metric Inclusions | All Service Orders completed during measurement window. | | | | |
| Metric Exclusions | Customer hold time - must be documented and approved. <u>Verizon is not responsible for delays caused by COPA, other third parties not under Verizon's control or factors outside of Verizon's control (such as facilities not available)</u> | | | | |
| Calculation | % Timeliness = ((Total number of service orders completed – Total number of service orders not met) / Total number of service orders completed) *100 (NOTE: calculated per agency) | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |

Remedy Credit

\$8,000. Verizon's position is that a conversion from a KM to a CM via the Contract Change Process will include the ability to reasonably re-negotiate the penalty and SLA metrics.

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|--|--------|-----|-----------|-----------------------------|
| SLA – 04 Chronic Problem - Agency | KM | 1 | 2 | 9 months | (Service Commencement Date) |
| Definition | Incidents occurring greater than <u>23</u> times on a single product/service/component reported within the measurement window. <u>that have a similar root cause identified</u> | | | | |
| Metric Description | Service Quality – Chronic problem identification. This Service Level calculation is the total number of Chronic Problem Items during the applicable Measurement Window. | | | | |
| Metric Inclusions | Product/Service/Component(s) that are identified as Chronic during the applicable Measurement Window. | | | | |
| Metric Exclusions | Customer hold time (must be documented and approved) password resets, and any other item that needs to be excluded per approval of COPA management. <u>Verizon is not responsible for incidents caused by COPA or third-parties not under Verizon's control</u> | | | | |
| Calculation | Total count of product/service/component identified as a chronic problem item. | | | | |
| Hours/Days of Measurement | 24 hours X 365 days – rolling <u>630</u> days (starting on the first day of the first incident being reported) | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Active Services/Devices Measured, Number of Chronics, Target SL, Minimum SL, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Ticket Number, Status, Service/Device Identifier, Agency, Product [Model], Data, Etc.], Brief Summary of Problem, Create Date/Time, Resolve Date/Time, Closed Date/Time, Number of Days Ticket Open, Hours to Resolve, Total Issues per Service/Device Identifier, Total Hours to Resolve per Service/Device Identifier; Categorized by Agency, Proposed Resolution to Chronic Problem, Action by Vendor, Status of Resolution.</p> <p>Detailed Exclusion Report: Ticket Number, Status, Service/Device Identifier, Agency, Product [Voice, ACD, Data, Etc.], Brief Summary of Problem, Create Date/Time, Resolve Date/Time, Closed Date/Time, Number of Days Ticket Open, Hours to Resolve, Total Issues per Unique Identifier, Reason for Exclusion, Categorized by Agency.</p> | | | | |
| Remedy Credit | One month credit for cost of individual services with chronic issues. Remedy Credit to be applied directly to agency affected. <u>Verizon's position is that a conversion from a KM to a CM via the Contract Change Process will include the ability to reasonably re-negotiate the penalty and SLA metrics.</u> | | | | |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|---|---------|---------|-----------|-----------------------------|
| SLA – 05 Incident Notification - Enterprise | CM | 100.00% | 98.00 % | 9 months | (Service Commencement Date) |
| Definition | Notifications for unavailable or degradation statuses delivered to the Commonwealth within the measurement window. | | | | |
| Metric Description | Timeliness – Delivery system unavailability or degradation notifications. The Service Level calculation for unavailable or degradation notifications delivered to the Commonwealth within 30 minutes from discovering or receiving notice of system unavailability or degradation <u>and subsequent trouble ticket creation</u> divided by the total number of unavailable or degradation notifications required within the measurement window, expressed as a percentage. | | | | |
| Metric Inclusions | All required notifications during measurement window. | | | | |
| Metric Exclusions | Customer hold time - must be documented and approved . Also, any other item that needs to be excluded, i.e. requests for help in the use of a service, requests to enhance a service, requests to add or change the Service features, or fulfillment requests (i.e., requests to add users or reset passwords), and user errors. <u>Verizon is not responsible for inability to Notify within the stated timeframe due to circumstances outside of Verizon's control</u> | | | | |
| Calculation | % Timeliness = ((Count of unavailability and/or degradation Incidents requiring notification - Count of unavailability and/or degradation incidents not delivered within 30 minutes) / (Count of unavailability and/or degradation Incidents requiring notification))*100 | | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | | |
| Reporting Window | Monthly | | | | |
| Reporting Tools / Data Source(s) | TBD | | | | |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include: Minimum SL, Target SL, Total Number of Incident Notifications, Number of Incident Notifications Missed, Actual SL, Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Ticket number, Category, Brief description of incident, Ticket create date & time, Engineer assignment date and time, Method of Communication, Time to complete in hours, Minimum SL Achieved [Yes/No], Target SL Achieved [Yes/No], To be sorted by category; Summarized by: Count of tickets for the month, Count of tickets that missed the Minimum & Target SL.</p> <p>Detailed exclusion report to include:</p> <p>Ticket number, Category, Brief description of incident, Ticket create date & time, Engineer assignment date & time, Time to complete in hours, Minimum SL Achieved [Yes/No], Target SL</p> | | | | |

| | |
|----------------------|---|
| | Achieved [Yes/No], Reason for exclusion, To be sorted by category; Summarized by Count of excluded tickets. |
| Remedy Credit | \$10,000 <u>\$2,500</u> per Service Level violation |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|---|--------|------|-----------|----------------------------------|
| SLA – 06 Abandoned Calls - Enterprise | CM | < 2% | < 5% | 9 months | (Service Desk Commencement Date) |
| Definition | True Abandoned calls are the percentage of calls in queue abandoned by the caller after thirty [30] seconds but before connecting to a Service Desk agent which must be less than or equal to five percent [5%] of all calls | | | | |
| Metric Description | Total number of abandoned calls greater than 30 seconds, divided by total calls equals percent of abandoned calls as calculated via Offerors ACD system. <ul style="list-style-type: none"> • A call is defined as “a leg of a call” • Example: A call comes into an agent=one call. The agent places call back in queue (This equals a second call) | | | | |
| Metric Inclusions | All Service Desk calls | | | | |
| Metric Exclusions | No Exclusions | | | | |
| Calculation | $\% \text{ Abandoned calls} = (\text{Abandoned calls} / \text{Total calls}) * 100$ | | | | |

| Remedy Credit | \$15,000 <u>per incident</u> | | | | |

| Service Level Reference | SL Class | Target | Min | Earn Back | Start Date |
|--|--|--|---|-----------|-----------------------------|
| SLA - 09 Availability (Voice Services) - Agency (per location) | CM | <u>Gold <5 Min</u> <u>Silver <30 Min</u> <u>Bronze <2.5 Hours</u> <u>Lot1 Services</u> <u>monthly</u> <u>Availability per</u> <u>agency location =</u> <u>99.9 %</u> <u>Lot2 Services</u> <u>monthly</u> <u>Availability per</u> <u>agency location =</u> <u>99.0 %</u> | <u>Gold <10 Min</u> <u>Silver <45 Min</u> <u>Bronze <3 Hours</u> | 9 months | (Service Commencement Date) |
| Definition | <p>Availability of the application/component/service and not in a degraded state.</p> <p>Unavailable—all users and critical functions are affected by the unscheduled downtime or incident. Service is completely unavailable.</p> <p>Partial degradation—one or more critical business functions of the application is unavailable; or a workaround exists for the impacted business functions.</p> <p>Minor degradation—all critical business functions are available but a portion of users are impacted; or a workaround exists for the impacted business functions.</p> <p>Workaround—A temporary solution to the problem(s) raised by an Incident, which must be removed for the Incident to be brought to Resolution.</p> <p>Voice Services—Voice Services to included, but not limited to voice lines, Auto Attendants, trunking, toll free, Centrex, and POTS.</p> | | | | |
| Metric Description | <p>Availability - Percentage of time the application/component/service is available and non-degraded. Degradation shall mean a Service that tests as fully operational but is degraded below the baselines established during acceptance testing or one or more critical business functions of the application is unavailable and any portion of the users are impacted. A workaround process shall not be considered as acceptable availability. This includes, but is not limited to, slow performance and/or intermittent system errors.</p> | | | | |
| Metric Inclusions | <p>All applications/components/services required by the Commonwealth/agency in operation within the measurement window. Service Levels defined by the CMDB, whereas, the availability targets are assigned according to the following service levels:</p> <p><u>Lot1 Services monthly Availability per agency location = 99.9%</u></p> | | | | |

Commented [JK1]: VZ's position is that if "critical business functions are available via a workaround" (because the Solution has been designed to do that), then that should not count towards the "Availability" SLA.

Commented [JK2]: COPA has stated that MS is the chosen provider for UCC services. The Microsoft SLA for Skype for Business platform Availability is 99.9%. As such Verizon is not able to offer a higher per-location Availability SLA for the overall solution than Microsoft itself is offering for the platform itself.

| | |
|---|--|
| | <p><u>Lot2 Services monthly Availability per agency location = 99.0%</u></p> <p><u>Gold < 5 outage/degraded minutes in calendar month</u></p> <p><u>Silver < 30 outage/degraded minutes in calendar month</u></p> <p><u>Bronze < 2.5 outage/degraded hours (150 min) in a calendar month</u></p> |
| Metric Exclusions | <p>The Service Level measurement does not include any degradation of the Service experienced outside of the vendor's control.</p> <p>Scheduled maintenance, provided that the Agency is informed of scheduled maintenance that will directly affect the Service at least seven (7) calendar days before maintenance work commences, and the Agency approves the scheduled downtime.</p> |
| Calculation | <p>The Service Level calculation for Availability is the total outage minutes per agency, per location, by tier.</p> <p><u>The Service Level calculation for Availability per location = (1- (Total Outage and Degradated Minutes per month / (# of days in a month * 24 * 60))) * 100</u></p> |
| Hours/Days of Measurement | 24 hours X 365 days |
| Reporting Window | Monthly |
| Reporting Tools / Data Source(s) | TBD |
| Reporting Format/s | <p>Preferred Format: Excel, PDF</p> <p>Report Elements: Header to include Total Number of Trouble Tickets, Number of Tickets that Missed the Service Level, Target SL [in Minutes] and [in Hours], Minimum SL [in Minutes] and [in Hours], Actual SL [Average Time to Restore] [in Minutes] and [in Hours], Target SL Achieved [Yes/No], Minimum SL Achieved [Yes/No];</p> <p>Detail to include: Trouble Ticket Number, Server Name, Agency, Service/Device Identifier, Create Date/Time, Resolve Date/Time, Hold Time, Time-to-Restore [in Minutes], Outage Cause, Resolution, and Categorized by Agency.</p> <p>Detailed Exclusion Report: Trouble Ticket Number, Server Name, Agency, Service/Device Identifier, Create Date/Time, Resolve Date/Time, Hold Time, Time-to-Restore [in Minutes], Outage Cause, Resolution, Reason for Exclusion, Categorized by Agency.</p> |
| Remedy Credit | <p><u>100% Monthly Invoice For each hour (or fraction thereof) of downtime in excess of monthly Availability service level commitment per LOT, COPA shall be eligible for one day's worth of the monthly recurring charge for the affected location(s) up to 100% of the MRC</u></p> |

| Service Level Reference | SL Class | Target | Min | Start Date |
|---|---|---|---|-----------------------------|
| SLA – 10 Time to Resolve - Agency | CM | Gold <2 Hours Silver <4 Hours Bronze <8 Hours <u>Lot 1 = 4 hrs</u> <u>Lot 2= 24 hrs</u> | Gold <3 Hours Silver <5 Hours Bronze <9 Hours | (Service Commencement Date) |
| Definition | Amount of time from when the problem/incident is reported until the problem is resolved or full where “resolved” means full functionality is restored within the measurement window. | | | |
| Metric Description | Timeliness – Time to resolve each reported incidents. | | | |
| Metric Inclusions | All incident service tickets completed during measurement window. | | | |
| Metric Exclusions | Customer hold time - must be documented and approved. Also, any other item that needs to be excluded, i.e. requests for help in the use of a service, requests to enhance a service, requests to add or change the Service features, or fulfillment requests (i.e., requests to add users or reset passwords), and user errors. Verizon is not responsible for inability to Resolve within the stated timeframes due to circumstances outside of Verizon’s control | | | |
| Calculation | <p>Summary: The Service Level calculation is the (Ticket Resolution Time minus the Ticket Create Time minus Customer Hold Time) equals total number of hours to resolve.</p> <p>Measurement Windows as defined by tiers listed below:</p> <p><u>Lot 1 = 4 hrs</u> <u>Lot 2= 24 hrs</u></p> <p>Gold < 2 hours per incident Silver <4 hours per incident Bronze <8 hours per incident</p> | | | |
| Hours/Days of Measurement | 24 hours X 365 days | | | |
| Reporting Window | Monthly | | | |
| Reporting Tools / Data Source(s) | TBD | | | |

| | |

|--|
| Notes: |
| (1) Number of units for cost estimation purposes and are not a minimum guarantee. |
| 2) For all hardware, the Offeror is to provide two purchase options: A) a one-time charge purchase option - non-recurring charge and B) a 24 month purchase option - monthly charge that would be recurring for the first 24 months of usage. The Commonwealth shall be able to choose between the two options on a case-by-case basis when ordering hardware. |

| Notes: |
| (1) Number of units for cost estimation purposes and are not a minimum guarantee. |
| 2) For all hardware, the Offeror is to provide two purchase options: A) a one-time charge purchase option - non-recurring charge and B) a 24 month purchase option - monthly charge that would be recurring for the first 24 months of usage. The Commonwealth shall be able to choose between the two options on a case-by-case basis when ordering hardware. |

**UPDATED BAFO SMALL DIVERSE BUSINESS
LETTER OF INTENT**

July 26, 2017

Kailash Kalantri
President & CEO
Acclaim Systems Inc.
110 East Pennsylvania Blvd
Feasterville, PA 19053

Dear Mr. Kalantri:

This letter serves as confirmation of the intent of Verizon to utilize Acclaim Systems Inc. on RFP 6100039274 Unified Communications & Voice Services, Lot 1 issued by the Commonwealth Office of Administration.

If Verizon is the successful vendor, Acclaim Systems Inc. shall provide experienced personnel for the life of the contract including any extensions, to function as a member of the core team of qualified staff set forth in the RFP.

These services represent 31.9% of the total cost in the Verizon cost submittal for the initial term of the contract. Dependent on final negotiated contract pricing and actual contract usage or volume, it is expected that Acclaim Systems Inc. will receive an estimated \$13,543,576 during the initial contract term (5 years).

Acclaim Systems Inc. represents that it meets the small diverse business requirements set forth in the RFP and all required documentation has been provided to Verizon for its SDB submission.

We look forward to the opportunity to serve the Office of Administration Office for Information Technology on this project. If you have any questions concerning our small diverse business commitment, please feel free to contact me at the number below.

Sincerely,

Verizon Business Network Services Inc.

Acknowledged,

Kailash Kalantri
President & CEO
Acclaim Systems Inc.
