1. It mentions a signed following truck if the zone is over 40 mph. The detail on the map doesn't tell us if we are working in areas like that? Do you have an idea of the percentage of work that is in areas over 40 mph?
2. I am concerned at the volume of trash that the crew can pick up in a day. Do they typically fill one truck? If this is unknown, under the right to know it would help to know the price the contract was bid at last year.
