To All Suppliers:

The Commonwealth of Pennsylvania defines a "Flyer" as an addition to or amendment of the original terms, conditions, specifications, or instructions of a procurement solicitation (e.g., Invitation for Bids or Request for Proposals).

The following questions were asked at the optional site visit:

Q. What if estimated quantities are half as much and drop or increase the value of the contract?

A. Contract is established with estimated quantities to increase/decrease based on the need of the Commonwealth. Pricing will be established and held based on bid submittals, regardless on actual quantities removed from storage tanks.

Q. What if when opening the tank you damage it?

A. There is the potential for incidental damage to occur during the removal process. Tanks will be inspected by BRM staff, and if it is determined that supplier damage on the tanks to remove contents results in the tanks being rendered as scrap, then DMVA will surcharge the used tank value be applied to cost returned back to Commonwealth.

Q. Can contractor move tanks for access?

A. Contractor may move tanks for ease of accessibility. All tank movement requirements should be discussed prior with the BRM point of contact, Steve Smith.
