Locating a Solicitation

Log into the [PA Supplier Portal](#) to search for and locate a specific Solicitation in SRM.

1. Open your web browser and enter www.pasupplierportal.state.pa.us.
2. Please note the important information regarding compatible browsers for the PA Supplier Portal website.
3. Select the **Log on** button.

4. Enter the User ID and Password you created when you registered as a supplier, and select the **Log On** button.

- Choose the **Bidder** role to begin. (Note – If you have been assigned only the Bidder role by your company, you will not need to perform this step because it will already be chosen by default.)

The resulting *Bid Processing* screen opens and will display your Personal Object Worklist (POWL). By default, the POWL will display all Solicitations (or RFX's) which are currently open for responses.

- If the search window for *Solicitation Number*, etc. is not visible, select the **Search Criteria** button to display the available search fields.

By default, the **Solicitation Status** field will display Current RFX because those are open for your Bid Response. (It is not recommended that you adjust the search criteria in your POWL with the status Ended RFX or Completed RFX.)

The screenshot shows a web interface for searching solicitations. At the top, there are tabs for 'Solicitations - All' and 'Auctions - All'. Below is a 'Search Criteria' section with several input fields: 'Solicitation Number' (with a diamond icon), 'Solicitation Status' (a dropdown menu currently showing 'Current RFX' and highlighted with a red box), 'Creation Date' (with a diamond icon and a calendar icon), 'Deadline Date Flag' (a dropdown menu), 'Response Timeframe' (a dropdown menu), and 'Smart Number' (a text input field). There are also 'To' fields for 'Solicitation Number' and 'Creation Date'. At the bottom of the search criteria section are 'Apply' and 'Clear' buttons. Below the search criteria is a 'View:' dropdown set to '[Standard View]' and several action buttons: 'Create Response', 'Display Event', 'Display Response', and 'Print Pre'.
