Addendum Number: **5**

To All Suppliers:

The Commonwealth of Pennsylvania defines a solicitation “Addendum” as an addition to or amendment of the original terms, conditions, specifications, or instructions of a procurement solicitation (e.g., Invitation for Bids or Request for Proposals).

List any and all changes:

Question (Q) and Answer (A)

Q1: On this drawing I did not notice a part number indicated for the cover. Can we choose a suitable cover that will just meet the general criteria shown?

A1: Yes, you are correct there is no part# listed I copied the wording out of the spec which is listed below so we just need to approve your cover assembly ahead of time.

•Note: Electrical cord and air hose shall exit the rear or top of body via roller fair head and provisions shall be made to include a pre-approved weather proof cover for the outlet and hose coupler. Ref. EQN-138

Q2: I just noticed the under-tailgate spreader in the one-ton chassis spec calls for an auger sensor. There is no mention in the controller portion of the spec for an auger sensor. I don't normally include an auger sensor in a one-ton package. Are you expecting an auger sensor included with the one-ton packages?

A2: The auger motor we are requesting does have a sensor in it, but we are not asking for it to be looked up. In the spec it says an open loop auger system. This is the same motor we get on all of our spreaders, so we are trying to keep things standard.
