

ADDENDUM FORM

Date:	05/01/2019
Subject:	Updating the Specs
Solicitation Number:	6100048072
Due Date/Time:	May 06, 2019 at 11:00 am
Addendum Number:	1

To All Suppliers:

The Commonwealth of Pennsylvania defines a solicitation "Addendum" as an addition to or amendment of the original terms, conditions, specifications, or instructions of a procurement solicitation (e.g., Invitation for Bids or Request for Proposals), including but not limited to questions and answers, which are considered a material part of the solicitation.

Please see the following update:

Addendum 1 does the following:

1. Under "Paver Components": amend "Installed Bob-Tach attachment plate" to "Installed Bob-Tach compatible attachment plate" which has the added word "compatible" included. Specification have been change to include "compatible", all other specifications must be met.
2. "Safety Yellow" [last item under "Paver Components"] may include manufacturer's yellow as long as it provides significant contrast to road and landscape surroundings giving safe-visibility of equipment to passing motorists or pedestrians. Specification has been rephrased to include Manufacturers standard "Safety Yellow" paint. All other specifications must be met.
3. The Pavijet is not intended to be used as a step for access or egress from the skid steer and should therefore be exempt from the "Safety" directive regarding "Three Points of Contact" and entry/exit steps as specified in the current bid. Specification call for any area that is designed to be used for a step or walkway shall be built for "Three Points of Contact" , if supplied unit is not designed with entry/exit steps and proper operation of unit is explained in operator manual the unit would be exempt from the "Three Points of Contact" . All other specifications must be met.
4. Fully loaded hopper will likely exceed the rated operating/tipping capacity. The Pavijet is intended to be loaded and operated while attached to the skid-steer and resting on its wheels. We recommend an amendment to affix a warning label cautioning operator about lifting the unit while fully loaded. Proper operation of attachment should be explained in the operators manual, and Manufactures "Safety" decals will be accepted on the unit. All other specifications shall be met.

Except as clarified and amended by this Addendum, the terms, conditions, specifications, and instructions of the solicitation and any previous Addendum(s), remain as originally written.

Regards,

Jessica Kretzing, Roadway Programs Coordinator

To All Suppliers:

The Commonwealth of Pennsylvania defines a solicitation "Addendum" as an addition to or amendment of the original terms, conditions, specifications, or instructions of a procurement solicitation (e.g., Invitation for Bids or Request for Proposals), including but not limited to questions and answers, which are considered a material part of the solicitation.

Please see the following update:

Addendum 1 does the following:

5. Note: For ease of operation it is suggested that cab-doors on skid steers be removed. Please advise that this is permissible to PennDOT. This bid is for a skid steer attachment only, suggested operation/safety guidelines shall be outlined in operators manual for attachment, and will be the responsibility of the receiving county.
6. Pictures of current skid-steer and its specifications are requested to be attached to the solicitation for bidding suppliers' benefit. Unit is a 2012 T650 Bobcat, specifications can be found on Bobcats website.

Except as clarified and amended by this Addendum, the terms, conditions, specifications, and instructions of the solicitation and any previous Addendum(s), remain as originally written.
