

DATE: April 19, 2016
SUBJECT: Publication 213 clarification
TO: Contractors performing District 6-0 Miscellaneous Mowing (Traffic Islands/Parcels and Roosevelt Boulevard)
FROM: Darren Altemose

Please see clarification below for Work Zone Traffic Control requirements for contractors performing trash pickup/removal for current District 6-0 Miscellaneous Mowing (Traffic Islands & Parcels) contracts. String trimming performed within 2 feet of the edge of road has also been determined to be a moving operation. This clarification is provided by the District 6-0 Traffic Operations Manager, Emmanuel Anastasiadis.

 Subject: RE: Pub 213 clarification

Michele

This was discussed extensively at the work zone managers meeting and the end result is that it is a moving operation and a shadow vehicle will not

be required even when the worker picks up trash within the 2' space.

Central Office will revise the definition of a moving operation as to one that moves 100' every 15 minutes.

I hope the above answers your question

If you have any other specific questions see me or Janet Vogel since I will be out of the office for the next two weeks

Thanks

Manny
