

Cost Matrix - Chemsweep

100% of collections will be at non-centralized collection sites such as individual participant locations. For the purposes CHEMSWEEP, pesticides collected at a Household Hazardous Waste (HHW) event will be deemed a participant location.

The Pennsylvania Department of Agriculture is requesting cost information in the following format:

Cost per pound for pesticides collected at each participant location: \$_____

The cost per pound for pesticides collected, packaged, transported and disposed of is not negotiable for the term of the contract, including extensions.

If pressurized steel cylinders are encountered during routine collections, PDA and the contractor will enter into good faith negotiations to determine a fair cost for the handling and disposal of these pesticides (see item f).
