

Pennsylvania Game Commission Specifications for Wildland Fire Boots

PGC seeks a vendor to provide Kenetrek Wildland Fire Boots (KE-420-WF-BRN) shipped to Regional Offices at addresses provided below. Boots must meet the listed criteria, with no exceptions. Final bid award will be at the discretion of PGC.

Kenetrek boots are not on state contract and therefore must be bid. Through field testing, staff have determined this boot to be superior in quality and comfort to brands purchased in the past, which is why this brand is being specified. DGS has pre-approved this bid. The PO with the winning vendor may be extended through FY 20 or until such a time when Kenetrek Boots are added to the PA State Footwear Contract, whichever is sooner.

Boot Construction and Components

- Fire resistant full grain 10" leather uppers – 2.8mm one-piece vamp construction and seamless tongue for increased durability and precision foot molding
- Lightweight Mountaineering Design with true lace-to-toe construction for maximum support, durability, and comfort
- Hot Zone Kevlar Stitching and Laces
- Extra padded soft collars and flex notch design for bolstered support and comfort
- Full-length 7mm tapered nylon midsoles
- High density moldable foam and supportive footbeds
- High traction and deep lugged K-73 fire outsoles are fire resistant and have increased toe and heel taper for easy walking on terrain
- Meets NFPA 1977 Standard Requirements – Independent Laboratory tested for compliance with NFPA 1977, Standard on Protective Clothing and Equipment for Wildland Fire Fighting 2016 Edition
- Made in Italy

Quantity Needed: 86

This order may be increased but the minimum order will be 86 pairs. This order is to be delivered by June 23, 2020, however the timeline can be extended if needed. Project Manager John Wakefield must be notified of requests to extend the delivery timeline.
