

SOLICITATION ADDENDUM

Date: **5/25/23**
Subject: **Top-Load Spring Base Curb Sign Holder**
Solicitation Number: **6100058698**
Due Date/Time: **6/2/23 – 15:00 (This has been extended – Originally was 5/30/23 – 13:00)**
Addendum Number: **1**

To All Suppliers:

The Commonwealth of Pennsylvania defines a solicitation “Addendum” as an addition to or amendment of the original terms, conditions, specifications, or instructions of a procurement solicitation (e.g., Invitation for Bids or Request for Proposals).

Questions from vendors are in black, answers are in red:

Could you please send us the specification file for the signs? **Specs are attached to the solicitation on eMarketplace**

And also tabulation for the items from the previous contracts? **This is the first time they have been out for public bid. A previous order was placed when they allowed these to be placed through a valid statewide contract. The last order was March 2022. It was for a quantity of 855 at \$135.20/EA**

Could we ship them in two parts? **The spec sheet details the shipping instructions/timeline that must be adhered to**

Is delivery time mandatory to be 30 business day after sample approval? **Yes, that is the instructions on the spec sheet**

I know the printed sign that drops into the top of the frame is to be “aluminum” but are you sure the actual frame itself is “aluminum” as it is called out on the specs? **Per Lottery, the framework and legs are white aluminum powder coated black.**

Would you happen to have any more photos of the “Top Loading Spring Base Curb Sign Holder” frame – **I added three additional pics to the attachments of this solicitation**

When is delivery requested? – **See the spec sheet attached to the solicitation on eMarketplace**

Is a sample required at time of bid opening? – **No**

What is the link to site to submit bid? – **This is listed on our emarketplace website; solicitation #6100058698**

I extended the solicitation until 6/2/23@15:00 because there was a delay in getting an answer about the type of material the framework is manufactured out of.
