	** Start Hour Must begin with 00 for axle counts																					
	Column	Field Length		Alpha/Numeric		Description																
	1	1		A		Record Type H (Header)																
	2-3	2		N		District Code (Example = 01 through 12 except no 07)																
4	1		N		Jurisdiction (1 = State Route, 5 = Local Federal Aided Road)																	
5-6	2		N		County Code (Example = 01 through 67)																	
7-10	4		X		State Route / Federal ID (Capital letter designator for Local Federal Aid Ex=C005)																	
11-14	4		N		Segment																	
15-18	4		N		Offset (State System only when Jurisdiction Code 1)																	
19-26	8		N		Count Date (MonthDayYear) No spaces or hyphens																	
27	1		N		Count Type = 2 (Machine Class), 3 (Volume), 4 (Loop Sensor)																	
28-29	2		N		Start Hour (Military format, 01 = Machine Class, 00 = Volume and Loop)																	
30-31	2		N		Ending Hour (Military format ending at 24)																	
32-33	2		N		Speed Limit																	
34-53	20		X		Begin Location																	
54-73	20		X		End Location																	
74-77	4		N		Traffic Counter Number																	
78-87	10		X		Weather																	
88-90	3		X		Set By (See Agency listings for 2 digit Agency Code)																	
91-98	8		N		Setup Date (MonthDayYear) No spaces or hyphens)																	
99-101	3		X		Entered Initials (Initials of the person entering the count data)																	
102-109	8		N		Entered Date (Retrieval Date, MonthDayYear, No spaces or hyphens.)																	
110-139	30		X		Comments. (TMS Site Number and Site Location Description)																	
140	1		N		Machine Count Lane (1=N/E or 2=S/W)																	
Detail Record - Axle Sensor (Volume) and Loop Counts																						
Column	Field Length		Alpha/Numeric		Description																	
1	1		A		Record Type D (Detail)																	
2-97	96		N		24 Hourly Readings (4 digits per/hour X 24)
