

# Welcome to the CWNS Training

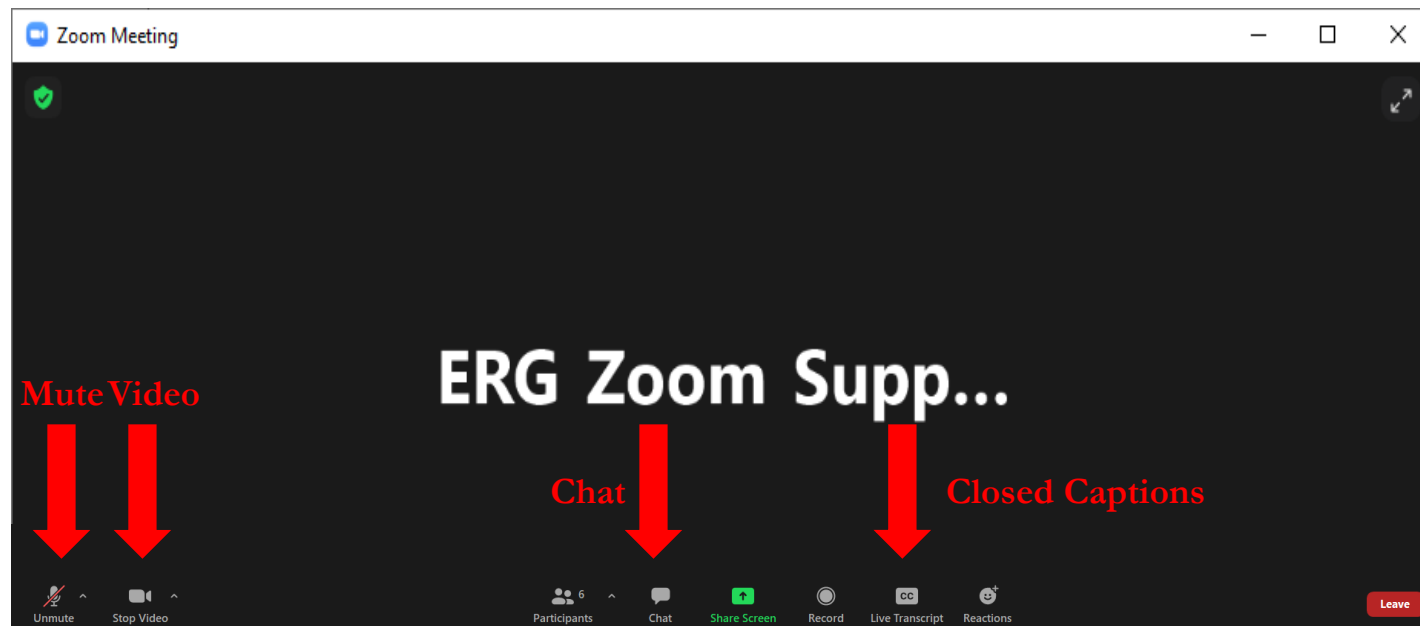

We will begin shortly

# CWNS Training

## Module 3

# Housekeeping

- Please keep yourself muted and without video unless you are speaking
- Please hold questions until designated times. Raise your hand to ask your question aloud or type in chat.
- This training is being recorded
- Use Chat function to contact Michaela Magnuson with technical issues

# Training Modules

|  |                   |
|--|-------------------|
| Module 1: CWNS 101                               | November 4, 2021  |
| Module 2: Policies continued                     | November 9, 2021  |
| Module 3: Portal I                               | November 18, 2021 |
| Module 4: Portal II                              | December 2, 2021  |
| Module 5: Review                                 | December 9, 2021  |
| Module 5A: State-specific approaches and surveys | December 10, 2021 |
| Module 6: January: Best practices                | January 2022      |

# Agenda

- Greeting and Recap
- Homework Review
- Navigating the Portal – the big picture
- Home Page and Resources
- CWNS ID List – Archiving, Add New, and Edit
- Document Management
- Small Community Forms
- Homework Assignment – Add a new CWNS ID, upload PDF
- Requesting Help

## Goals:

- Introduce participants to the major sections of the portal, demonstrate how to enter data and how to review the technical data entered into the DEP from previous surveys.
- Demonstrate uploading documents and technical/needs data into portal.

# Recap of Modules 1 and 2

# Modules 1 and 2

- Overview of CWNS
- Key terms
- Survey structure
- Data collected
- General policies
- Documentation Guidelines
- Designated Documents
- Document-Specific Guidance
  - Cost of previous comparable construction
  - State-specific approaches
  - State surveys
- Small community form
- Cost estimation tools
- Annotation

# Homework Review

# Annotating in Excel Template City of Franklin CIP

- Stormwater Projects

- Aging culverts - annual
- Annual drainage projects
- TV'ing stormdrains
- Unloader structure outfalls
- Trunk mains 2022
- Trunk mains 2023/2024
- Trunk mains 2025/2026
- Trunk mains 2026
- Outfalls annual

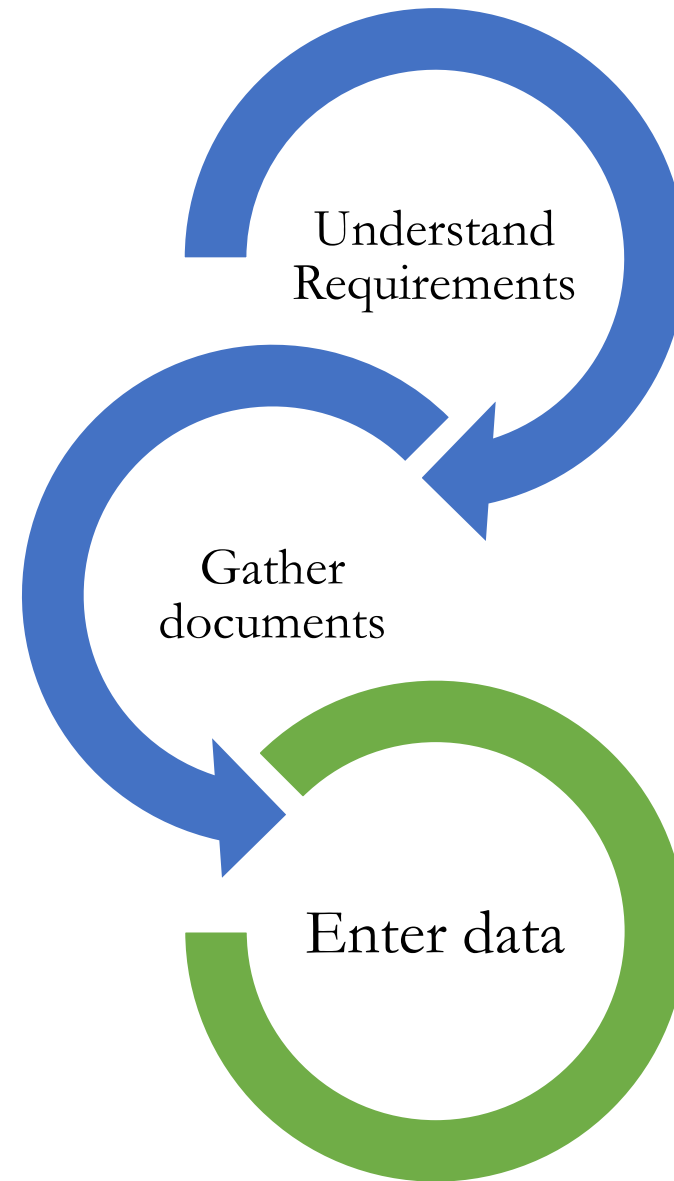

- Wastewater Projects

- Oversizing mains
- FOG equipment
- Annual main replacements
- Treatment improvements
- Electrical at plant
- New mains for new plant
- New mains to provide service
- Replacement mains

# City of Franklin Excel Template Completed

# Welcome to the CWNS Data Entry Portal - Training Version

Thank you for confirming access to the DEP. This website is set up for training purposes only. Look out for instructions during Training Module 3 (November 18) on practice exercises. Data entry will begin in March 2022.

## Announcements

- State-specific approaches and state surveys due May 31st, 2022.

### [Past Announcements](#)

- [Nonpoint Source Points of Contact](#)
- [2012 Documents List \(XLSX\) \(1.767 MB\)](#)

### State Specific Approaches

#### 1. Create an approach

You may propose an approach to estimate needs (projects needed or costs) is specific to your state. If the approach has not previously been approved for use by EPA during the 2022 CWNS and you have not used the methodology for other non-CWNS purposes, please ensure you provide your hypothetical output examples and associated inputs with your approach.

*Review Section 3.8 of the State Coordinator Manual or view Training Module 5A for more information on what should be included in the approach document and what document type your submittal will be.*

#### 2. Submit

# Why would I archive a CWNS ID?

## Archiving Old Data

- The database has carried over records from 2012 and previous surveys
- Some CWNS IDs may no longer be relevant
- Some CWNS IDs may have been replaced
  - Example
    - 2008 survey had a separate CWNS ID for treatment plant and collection system for a community
    - In 2012 the state entered one CWNS ID that covers both
    - Archive the separated accounts

# Demo

**Let's add a new CWNS ID and archive it!**

# Demo

**Let's upload a Document!**

# How do I link a document to a CWNS ID?

This is not done in the Documents link.

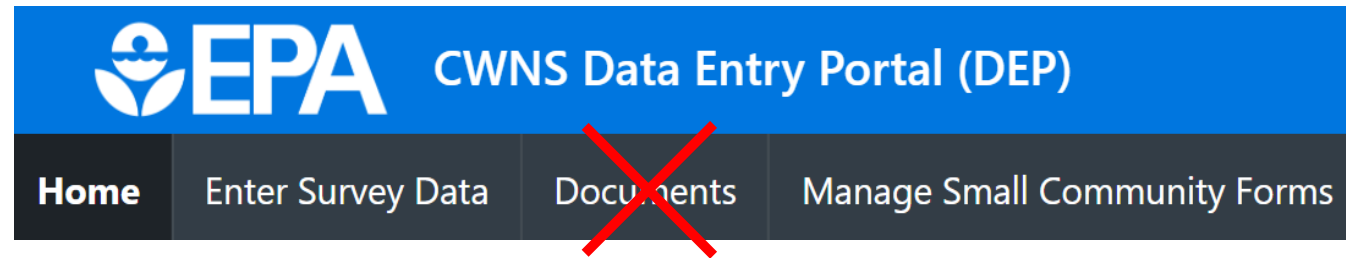

This will be done within the survey for a CWNS ID.

The screenshot shows the 'Enter Survey Data' page of the EPA CWNS Data Entry Portal. The page has a grey header with 'Enter Survey Data' and a blue button '+ Add New CWNS ID'. Below the header is a search and filter section with a search box, a 'Search' button, a dropdown for '1. Primary Report', a 'Rows' dropdown set to '100', an 'Actions' dropdown, a 'Reset' button, and a 'Download Data Table (CSV)' button. A filter is applied: 'Review Status not in 'Deleted''. The main content is a table with the following columns: CWNS ID, CWNS Name, Infrastructure Type, County, Review Status, Authority Name, Total Official Needs (\$), Enter Survey, and Archive CWNS ID. The 'Enter Survey' column contains a yellow box with a green checkmark and a clipboard icon. The 'Archive CWNS ID' column contains a trash can icon. The table has two rows of data.

| CWNS ID     | CWNS Name                         | Infrastructure Type | County | Review Status            | Authority Name     | Total Official Needs (\$) | Enter Survey | Archive CWNS ID |
|-------------|-----------------------------------|---------------------|--------|--------------------------|--------------------|---------------------------|--------------|-----------------|
| 0188889000  | Test - Superfund                  | Wastewater          |        | Federal Review Requested | City of Prattville |                           |              |                 |
| 01000139003 | TEST - PRATTVILLE PINE CREEK WWTP | Wastewater          | Elmore | State In Progress        | City of Prattville |                           |              |                 |

# What if I want to link a document to a CWNS ID?

This is not done in the Documents link.

This will be done within the survey for a CWNS ID.

The screenshot shows the 'Enter Survey Data' page. At the top right, there is a blue button labeled '+ Add New CWNS ID'. Below this is a search and filter bar with a search icon, a search input field, a 'Search' button, a dropdown menu showing '1. Primary Report', a 'Rows' dropdown set to '100', an 'Actions' dropdown, a 'Reset' button, and a 'Download Data Table (CSV)' button. Below the search bar is a filter bar with a checked checkbox, a green funnel icon, and the text 'Review Status not in 'Deleted''. Below the filter bar is a table with the following columns: 'CWNS Name', 'Infrastructure Type', 'County', 'Review Status', 'Authority Name', 'Total Official Needs (\$)', 'Enter Survey', and 'Archive CWNS ID'. The table contains two rows of data. The 'Enter Survey' column for both rows contains a blue icon of a document with a pencil, and this column is highlighted with a yellow box and a green checkmark. The 'Archive CWNS ID' column contains a blue trash can icon. The table footer shows '1 of 100 of 338'.

| CWNS Name                         | Infrastructure Type | County | Review Status            | Authority Name     | Total Official Needs (\$) | Enter Survey | Archive CWNS ID |
|-----------------------------------|---------------------|--------|--------------------------|--------------------|---------------------------|--------------|-----------------|
| Test - Superfund                  | Wastewater          |        | Federal Review Requested | City of Prattville |                           |              |                 |
| TEST - PRATTVILLE PINE CREEK WWTP | Wastewater          | Elmore | State In Progress        | City of Prattville |                           |              |                 |

We will cover this in the next module

# Special case: One document that applies to multiple CWNS IDs

- Because there are three annotation methods (PDF, Excel, and DEP), the DEP requires you to tell us what method you used for each document.
- You can link 1 document to multiple CWNS IDs using the same annotation method

If you want to use **different annotation methods** for CWNS IDs that use the **same** document, create separate document records.

# Special case: Recommended Metadata when uploading an Excel Annotation Document

| Data Element      | What to Enter  |
|-------------------|--|
| Document Type     | Excel Spreadsheet Annotations – Document 96              |
| Annotation Method | “Annotated in Excel”                                     |
| Title             | Excel Annotation for “XYZ Document”                      |
| Author            | Your name  |
| Published Date    | Date you uploaded it                                     |
| Base Month/Year   | Same as published date                                   |
| Notes             | Anything you would like to describe about the Excel file |

### Small Community Info

The Small Community Form (SCF) is meant for small communities that may have a difficult time fulfilling documentation requirements. You should not use the SCF if a community has documentation or is not considered "small." A CWNS facility is considered small if it meets the following criteria:

- The facility is not one of several facilities serving a community of 10,000 persons or more.
- The facility's wastewater system and its location is not within an urbanized area, so it is not a component of, and virtually indistinguishable from, surrounding adjacent entities (which are not small).
- The facility's wastewater system is not physically connected to a regional treatment authority serving 10,000 persons or more.

If a returned SCF indicates that one of the above does not apply to a community (e.g., the facility now serves more than 10,000 persons), then you should instruct the community to submit other documentation, as the SCF will no longer be accepted as documentation for that community.

# When to use Contact Us vs. Email

## Email

- For questions before the start of the survey
- For EPA only (i.e., you do not want contractors to see your message)

## Contact Us button

- Use after the survey starts
- Problems using the DEP
- Submit feedback about the DEP or CWNS

# Demo

**Let's submit a new support request!**

Questions?

# Homework

# Homework

## Create CWNS ID for City of Franklin Wastewater Treatment

- Go to <https://cwnsdep.epa.gov>
- Go to “Enter Survey Data” in main menu
- Create new CWNS ID based on information in the PDF (Name, infrastructure type, Owner, Small Community Flag)
- Include your name in the Facility Name of the CWNS (- First Last).

## Upload PDF Document

- Go to the Documents tab
- Select “+ Add New Document”
- Include your name to the Title (- First Last)
- Upload the Franklin PDF that you received in Module 2. Add the correct meta data.

# Important!

All the data in the DEP will be refreshed before the start of the survey. **Anything you add or edit during this training will be deleted.**

# Agenda For the Next Module: Thursday, December 2, 2 pm EST

1. Entering Survey Data
2. Technical Data
3. Sewersheds
4. Annotation in the DEP
5. Costs by Document
6. Cost Estimation Tools
7. Submission

**Reminder: There is a lot to cover in this module, so it is likely to run over the allotted two hours.**

# If we have time - Entering Location Information

Physical Location
