Technical Submittal I-5. C.1b	<p>AFCARS 2.0 System or Module. Upon request, participate in activities facilitated by the OCYF vendor for the testing and deployment of the AFCARS 2.0. solution along with OCYF subject matter experts to assist OCYF in ensuring a new system or module meets the Federal requirements. This includes reviewing project deliverables upon request and providing feedback on the deliverables to OCYF.</p>	<p>AFCARS 2.0 System or Module. Upon request, the selected Offeror shall participate in activities facilitated by the OCYF vendor for the testing and deployment of any enhancements and maintenance to the existing AFCARS 2.0 solution in coordination with subject matter experts to comply with any existing or new Federal requirements. This includes reviewing project deliverables upon request and providing feedback on the deliverables to OCYF.</p>
Technical Submittal I-5 C.2	<p>Current Caseworker Visitation Tracking (“CVT”). This task will be needed through February 2023. Beginning March 31, 2023, AFCARS submission, CVT data will be collected through a state’s AFCARS reports and sample data will no longer be required.</p>	<p>Current Caseworker Visitation Tracking (“CVT”). This task will be needed until the Federal Administration for Children and Families provides guidance to states for addressing CVT requirements in light of implementation of AFCARS 2.0.</p>
Technical Submittal I-5 D.5	<p>Semi-Annual Data Packages. The selected Offeror shall work with OCYF on an ongoing basis to define and produce semi-annual state, regional, county class size, and county specific aggregate reports on various data measures. In addition to a number of measures that are OCYF priorities, the data packages also include information on performance related to the CFSR Round 2 or CFSR Round 3 data indicators. Data packages are used for the county Needs-Based Planning and Budgeting and are produced twice a year. The data package deliverables are</p>	<p>Semi-Annual Data Packages. With the implementation of AFCARS 2.0, county data packages which were previously produced manually can now be generated automatically as part of the AFCARS 2.0 solution. The data packages provide various metrics related to placements and adoptions derived from AFCARS data, broken down by state, region, county, and county class size. The data packages are used for the county Needs-Based Plan and Budget and are sometimes utilized by OCYF in responding to various data requests. The selected Offeror shall assist OCYF in the dissemination of the automatically generated data packages to county children and youth</p>

	<p>provided in Excel, Word and PowerPoint format currently, but are subject to change. Some of the measures currently provided as part of the data packages include, but are not limited to:</p> <ul style="list-style-type: none">• Foster care population flow, by age;• Race and ethnicity of children in care;• Type of placement for children in care;• Median length of stay for children in care;• Permanency goals for children in care;• Age of children waiting to be adopted;• Race/ethnicity of children waiting to be adopted;• Age of children adopted;• Race/ethnicity of children adopted;• Placement rates per 1,000 children in care by age group; and• Reasons for entry into care. <p>With the implementation of AFCARS 2.0, OCYF will determine if changes are needed for completion of this task and if the task is still required.</p>	<p>agencies. At times, data errors may result in a need to make corrections to past AFCARS files and completely regenerate corrected data packages. The selected Offeror shall manually regenerate the old data packages if related to errors in historical AFCARS files that were submitted to the Federal Administration for Children and Families prior to implementation of AFCARS 2.0. and assist in dissemination to the counties. Regeneration of the old data packages would involve providing information in Microsoft Excel, Word, and PowerPoint format. The selected Offeror will be provided access to AFCARS historical files to fulfill this requirement. Examples of measures provided as part of the old data packages include, but are not limited to:</p> <ul style="list-style-type: none">• Foster care population flow, by age;• Race and ethnicity of children in care;• Type of placement for children in care;• Median length of stay for children in care;• Permanency goals for children in care;• Age of children waiting to be adopted;• Race/ethnicity of children waiting to be adopted;• Age of children adopted;• Race/ethnicity of children adopted;• Placement rates per 1,000 children in care by age group; and• Reasons for entry into care.
