Date of Final Review: August 18, 2017
Decision Rendered: Approved

Comments: N/A

Agency CIO Review:

Agency Approver: Joseph Zimmerman
Date of Approval: August 8, 2017

Procurement Submission Summary

1. Procurement Amount

\$109,661,412

2. Is this procurement request associated with an approved project?

No

3. Description of request

This request is to sole source procure continuing services from the current contractor (DXC Enterprises) for 3-years for the Medicaid Management Information System (MMIS). The sole source contract will be the same as the current MMIS contract. The current contract expires 10/31/2017.

Multiple procurements are being prepared to obtain a replacement system. Delays in completing this procurement are a direct result of CMS mandates. New system deployment is anticipated to take place in 2020.

DXC Enterprises (formerly HPE) is responsible for the operation, maintenance and modification of the Department's MMIS. This responsibility includes acting as the fiscal agent for the MMIS, PROMISe. The Department needs DXC to continue providing these services while it awaits implementation of the new MMIS.
