Basis for the Emergency Purchase**Threat to public health, welfare, or safety****Identify the Threat:**

Weather conditions are a major threat during this time of the year as nightly temperatures drop in the northeast with potential severe winter weather conditions affecting the roadways. Historically, there is frozen precipitation in late October. There are no spare trucks equipped with the specific winter equipment that this truck operates with. Nor are there rental trucks available.

Provide a brief explanation of the need for the material and/or service:

Service required is major in the terms of the engine repair. This type of repair requested is due to the extensive tear down of the failed components. Each of the 3 interstate trucks service approximately 44 lane miles alone during winter operations. There are no other similarly equipped trucks to borrow from other counties within close proximity.

State the consequence if the procurement is not done on emergency basis:

This specific dump truck (#297-8077) is a 2009 Mack Tandem Dual Wing plow truck that is specifically set up to provide winter services on Interstate 80 in Columbia County. If the truck is taken out of service for several months it will impact winter services.
