

SPECIAL INSTRUCTIONS AND CONDITIONS

MISCELLANEOUS FOODS

1. **INSPECTION:** All meat and poultry products must be processed or manufactured in plants operated under the Meat and Poultry Inspection program of the Food Safety and Inspection Services of the U.S. Department of Agriculture or under an inspection program approved by that agency. The official inspection legend and plant number must appear on all shipping containers and/or individually packaged items.
2. **LABELING:** Shipping containers and/or individually packed items shall be legibly labeled, printed or stenciled with product & brand name, date of pack, name and location of packer or distributor, net weight and appropriate ingredient statement. A straightforward calendar date or other coding method must identify date of production/pack. If another coding method is used, explanation will be sent to the Chairperson of the DPW Dietary Advisory Committee with a copy to each facility Director of Dietetic Services by the vendor. All products, when received, must have a minimum of 30 days remaining before the stamped "sell by" or "expiration date" expires.
3. **DELIVERY TIME LIMITATIONS:** Items from freezer storage must be delivered within 90 days from date of processing.
4. **PRODUCT CONDITION AT TIME OF DELIVERY:** To assure specified state of refrigeration all deliveries must be made on freezer trucks. Frozen items shall be delivered at internal temperatures not higher than 10°F (-12.2°C), be solidly frozen and show no evidence of defrosting, refreezing, freezer burn, dehydration or mishandling. To prevent mass nesting of frozen products, packaging units must be individually frozen to a solid state, packaged or unpackaged as specified, before being placed in master container. Final acceptance of frozen items may be based on inspection of the thawed product, not to exceed 15 business days after delivery.
5. **PACKAGING AND PACKING:** Products that are placed in polybags shall be securely closed; staples and paper coated metal wire ties are not permitted. Containers shall be of a size and shape normally used for the product and packed to full capacity without slack filling or overfilling. The minimum bursting strength of the fiberboard and the maximum net weight of the containers shall comply with Table I in the General Requirements of the Institutional Meat Purchase Specifications (IMPS). All Case closure to be accomplished by taping, strapping or gluing. Staples shall not be used as a final case closure.

5/19

6. CONTENTS: When specified, product items shall contain only those kinds of ingredients. Amounts and kinds of ingredients must be within tolerances permitted by the appropriate inspection regulations. The facility reserves the right to submit samples for laboratory analysis. If laboratory analysis verifies that the ingredients do not meet the appropriate regulations, the cost of laboratory analysis will be charged to the vendor. No further awards will be made to any firm with any unpaid laboratory bill.
7. ACCEPTABLE BRANDS: Any brand and product identified in a specification will be the only brand(s) accepted. Bidder must circle product/brand being bid for each item when submitting bid. Products and brands not previously approved by the DPW Dietary Advisory Committee will not be accepted. Samples may be submitted to the DPW Dietary Advisory Committee for formal evaluations and approval.

Samples must be properly labeled and identified with name of bidder and applicable item name, corresponding specification number and brand name and code number and ingredient statement. Failure to comply with the requested information will be cause for rejection. Written request for product review should be submitted to the Chairperson of the DPW Dietary Advisory Committee at:

Dietary Management Service Specialist
Bureau of State Children and Youth Programs
607 South Drive, Rm. 339
Harrisburg, PA 17120
Telephone: 717-772-0759

8. FEDERAL GOVERNMENT DONATED COMMODITY PROGRAM: This facility is eligible to participate in the Federal Government Donated Commodity Program. Items so designated are to be bid both with and without Government Donated Commodities (GDC) and will be awarded by the lowest bid.
9. DELIVERY DATES: Delivery must be made on dates and during hours as specified in contract. Non-compliance will be cause for rejection unless prior approval for change is granted by the Director of Dietetic Services.
10. CANCELLATION CLAUSE: Quantities listed are estimates only and may be increased or decreased in accordance with the actual requirements of the facility. With notification 15 business days prior to scheduled delivery date, the facility reserves the right to cancel any quantity of the order and agrees to pay the vendor only for products actually accepted by the Department.

5/19

11. REJECTION, FINAL ACCEPTANCE & PAYMENT OF COMMODITIES: Commodities received by the Commonwealth shall be deemed acceptable until the State has had a reasonable opportunity to inspect the commodities. Any commodity which is discovered to be defective or fails to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the material were not reasonably ascertainable upon the initial inspection. It shall, thereupon, become the duty of the vendor to remove the rejected commodities from the premises without expense to the Commonwealth within five business days after phone notification followed by the faxing of the Complaint/Rejection Form 516-C. Rejected items left longer than 5 business days will be regarded as abandoned and the State shall have the right to dispose of them as its own property. The vendor shall immediately replace all such rejected items with product conforming to the specifications. Non-compliance will result in further action unless prior approval is obtained from the Director of Dietetic Services. If the vendor fails, neglects or refuses to do so, the Commonwealth shall then have the right to purchase on the open market and charge the defaulting vendor any increase in price plus \$100.00 for liquidated damages. Partial or late deliveries or incorrect items may be rejected and any difference in price for repurchase will be charged to the defaulting vendor, plus \$100.00 for liquidated damages. No further awards will be made to any firm with an unpaid surcharge/liquidation assessment or laboratory bill.

The Commonwealth will accept and pay only for actual net weight or count determined at the time of delivery. Any discrepancy between actual net weight or count and the weight or count indicated by the vendor will be recorded on the delivery slips. Payments will be made upon receipt of invoices after commodities have been delivered and accepted.

12. VENDOR RESPONSIBILITIES - The vendor assumes responsibility over products supplied under the contract. This includes the provision of properly labeled and identified products. Alterations to brands and codes must be brought to the attention of the Dietary Management Service Specialist as soon as possible. When pack size changes from stated/current pack (for approved brands); award will be made on cost/unit. Vendor must specify new pack size, count and weight/case. It is the responsibility of the distributor/bidder to forward this information on pack changes to the Dietary Management Service Specialist (see Acceptable Brands section of special instructions and conditions). Failure to forward information regarding changes may result in removal of products from the acceptable brand list.
13. MANUFACTURER PRODUCT INFORMATION SHEETS: Distributors will be required to supply Manufacturer Product Information Sheets to those facilities participating in the National School Lunch/School Breakfast Program. This information must be provided at the initial delivery and/or upon request by each participating facility.
