Introduction

The Children's Health Insurance Program (CHIP) provides free or low-cost health insurance coverage to uninsured children whose families earn too much to qualify for the Medical Assistance (MA) Program, but who could not afford to purchase private insurance. To be eligible for CHIP, individuals must meet the following criteria:

- Be under 19 years of age;
- A resident of Pennsylvania;
- A citizen of the United States, U.S. national or lawfully residing as determined by the U.S. Citizenship and Immigration Service.

CHIP offers a comprehensive package of benefits including well child visits, immunizations, prescription coverage, emergency care, inpatient services, mental health services, hearing, vision and dental services. Act 136 of 2006 enhanced the program by creating Cover All Kids, which provides access to health insurance coverage for all uninsured children, regardless of income. The income eligibility limit for subsidized coverage, with cost-sharing on a sliding scale, is 314 percent of the federal poverty level with higher-income families able to purchase health care coverage at the commonwealth's cost. CHIP coverage is funded from a portion of cigarette tax receipts, a state appropriation and federal matching funds under Title XXI of the Social Security Act and payments by participating working families.

This Data Book contains various enrollment, demographic and financial information for CHIP from January 2019 to May 2023. It also contains CHIP application source information from January 2019 to April 2023.

CHIP Actual Expenditures (CHIP Budget Model)

This report shows statistics by month and by subprogram for total CHIP Enrollment, Average Rate, Expenditure, and Federal and state share for actual data from January 2019 to May 2023.
