

Monthly Implementation Update for LEAs

Following document must be completed every month while implementing PaTTAN's Transition Systems Framework (TSF)

This document is organized according to the stages of the TSF: 1) data collection, 2) data review, 3) community action planning, 4) action plan implementation. Only the sections in this document that are relevant to the TSF implementation team's current stage of implementation should be completed.

Questions regarding the Monthly Implementation Update's content should be directed to the TSF person-of-contact at your local Intermediate Unit. If you need to contact PaTTAN regarding the Monthly Implementation Update, please email Dr. Matthew Flanagan at mflanagan@pattan.

Section 1: Implementing Stage 1 of TSF (Data Collection)

Action Item	V / N
Action Item	Y/N
Internal Coach has completed Module 1 of the "PaTTAN Transition Systems Framework (TSF)"	
online course.	
Identifying a Representative Sample	
Guidance:	
A representative sample includes youth, families and partners who have demographic characteristics	that
together, represent the broader population of transition-age youth, families and transition partners i	n your
community.	
Some characteristics to consider:	
Age ranges	
Grade levels	
Disability Types	
Races / Ethnicities	
Socioeconomic status	
Professional roles	
Schools / Sites	
What characteristics make up your representative sample of transition-aged youth with disabilities?	
What characteristics make up your representative sample of families of transition-aged youth with di	sabilities?
What characteristics make up your representative sample of transition partners?	

Data Collection Plan
Key Components of the Data Collection Plan:
 Develop and implement strategies to incentivize members of the representative sample to participate in completing the TSF survey. Please refer to the "How to Implement PaTTAN's Transition Systems Framework (TSF)" course for recommendations.
 Identify locations (as well as dates / times) and existing / upcoming events or opportunities where youth, families and partners from the identified representative sample would be able to get access to the survey, and ideally, complete it right there.
 Plan to digitally distribute (via email, websites, newsletter, etc.) information about the TSF survey along with a direct link to complete it.
How will your TSF Implementation Team build youth, family and partner awareness about the TSF survey, its importance and how to participate? Describe the strategies and/or materials that you will use <u>for each group.</u>
How will your team incentivize <u>youth</u> from your representative sample to complete the TSF survey? Describe
the strategies and/or materials that you will use.
How will your team incentivize <u>families</u> from your representative sample to complete the TSF survey? Describe the strategies and/or materials that you will use.
How will your team incentivize <u>transition partners</u> from your representative sample to complete the TSF survey? Describe the strategies and/or materials that you will use.

Please provide the name, date and target audience(s) for planned upcoming TSF survey distribution efforts. For	
each event, specify whether it is an existing opportunity, or one created purposely for data collection.	
For example: On 11/2/23 we will provide the TSF survey to youth, families and partners (school-based and agency representatives) at our already planned transition fair. On 11/5/23 we will distribute the survey to your in our life skills classrooms, their teachers and paraprofessionals as well as youth in our 9th grade career class.	

Section 2: Prepare for Stage 2 of TSF (Data Review)

Prepare for Facilitated Data Review

Guidance:

- The entire facilitated data review occurs within PaTTAN's TSF Data Center.
- The following prompts only address logistics surrounding the data review process.

Action Item	Y/N
Internal Coach has completed Module 2 of the "PaTTAN Transition Systems Framework (TSF)" online course.	
Internal Coach has invited <i>youth</i> from the Implementation Team to attend the Implementation Team's TSF Data Review	
Internal Coach has invited <i>family members</i> from the Implementation Team to attend the Implementation Team's TSF Data Review	
Internal Coach has invited transition partners from the Implementation Team to attend the Implementation Team's TSF Data Review	
The implementation team has logged into PaTTAN's TSF Data Center and confirmed that their account is set up and that they know how to access their TSF data.	
Family members on the Implementation Team have had at least one opportunity to provide their questions, thoughts and comments regarding the TSF Survey data results.	
Staff members on the Implementation Team have had at least one opportunity to provide their questions, thoughts and comments regarding the TSF Survey data results.	
Based upon the completion of the facilitated data review form, the Implementation Team has identified 2-3 priorities to be focused upon during forthcoming community action planning and action plan implementation.	

Section 3: Implementing Stage 3 of TSF (Action Plan Event)

Community Action Planning Event
