To All Suppliers:

Question: Just double checking PCID NO: 1104 says tinted glass, all windows. Do you need to have the front driver's side and passenger side tinted? They do not come tinted from the factory. Thank you.

Answer:

1. All factory glass on every vehicle I am aware of is “tinted”. This is “solar tint” or “light tint” glass. That is what PCID-1104 is referring to under 4.0 **REQUIRED EQUIPMENT SECTION**: Item 4.9.

2. That requirement is overridden by **13.7** “Rear Window, fixed privacy glass with defroster” which is a “direct Ford RPO option” (Code 924). This provides “dark tint” or “privacy glass” for the rear door and rear window and provides a rear defroster to line up with the same requirements on the other vehicle line items (Standard on Tahoe, Interceptor, Durango – and similar option required on Silverado PPV).

We are looking for Ford Code 924, which is privacy glass, rear window with defroster. Front door window privacy glass is not required.
