Procurement Submission Summary

1. Procurement Amount

\$363,844

2. Is this procurement request associated with an approved project?

No

3. Description of request

Services: Cable television service for the Delaware Valley Veterans Home. Comcast is the only source for cable television for that geographical area to provide basic television service.

Agency Summary: Need cable television service for the Veterans Center. Comcast is the only source for cable television for that area. DMVA is actively using this service.

Procurement Summary: This is a sole source due to lack of competition for this type of service in that location. DMVA has contacted the vendor to validate that they are the only source permitted to maintain their cable TV service. There is no other cable service provider in this area. We must continue this service to maintain leisure activity options to meet Department of Military and Veterans Affairs standards.
